EXECUTIVE COMMITTEE OF
THE MULTILATERAL FUND FOR THE
IMPLEMENTATION OF THE MONTREAL PROTOCOL
Sixty-second Meeting
Montreal, 29 November - 3 December 2010

**STATUS OF IMPLEMENTATION OF DELAYED PROJECTS AND PROSPECTS OF
ARTICLE 5 COUNTRIES IN ACHIEVING COMPLIANCE WITH THE NEXT
CONTROL MEASURES OF THE MONTREAL PROTOCOL**

EXECUTIVE SUMMARY

- All countries that are at risk of not meeting the interim reductions or have remaining consumption prior to the 2010 CFC/CTC phase-out, and consumption of methyl chloroform (TCA) or methyl bromide (MB) prior to the 2015 phase-out, have either projects approved to meet those targets, activities in the 2010-2014 business plans that would contribute to achieving them, or activities that had been conducted under the Global Environment Facility (GEF), except:
 - Ecuador for carbon tetrachloride (CTC) where it is in compliance but has remaining CTC consumption of 0.1 ODP tonnes;
- Latest consumption data indicate that 69 countries (54 with 2009 data and 15 with 2008 data) continued to have CFC consumption, but 74 reported zero level and four reported negative consumption;
- Latest consumption data, however, indicated that most countries have zero consumption of the remaining substances (excluding HCFCs) with only six countries reporting halon consumption (three with 2008 data); 32 countries reporting methyl bromide (MB) consumption (two with 2008 data); 12 reporting CTC consumption; and two countries exceeding the 70 per cent TCA target for 2010;
- All countries with possible compliance issues have been considered by the Implementation Committee in 2010 excluding countries that had not submitted 2009 Article 7 data;
- Data on the implementation of country programmes (CPs) indicate that:
 - All countries did provide data according to the new format approved over five years ago, but only seven countries submitted data using the web-based system for 2009;
 - From an estimated total remaining ODS consumption of 1,629 ODP tonnes in 2009 in A5 countries, excluding HCFCs, about 1,102.3 ODP tonnes (including A7 data for the four countries that have not reported CP data) remain to be considered for action by the Executive Committee;
 - Most of the 1,102.3 ODP tonnes of remaining consumption is for MB (1,102.2 ODP tonnes) followed by CTC (0.1 ODP tonnes);
 - A total of 473,715 metric tonnes (31,950 ODP tonnes) of HCFC consumption was reported in CP data. For the 126 countries reporting 2008 and 2009 data, HCFC consumption increased by 14.5 per cent;
 - Of the countries reporting information on licensing systems, 133 out of the 144 countries with reporting requirements reported them as being operational (104 of the 107 countries that reported 2009 data had operational licensing systems with 94.2 per cent of them functioning 'satisfactorily' or 'very well');
 - In most countries, the price of CFC-11 and CFC-12 (although higher than that of 2005) and of several alternatives is decreasing.
- Of the 34 projects with implementation delays, three have been completed, five projects where there has been either progress from one milestone to another, two projects for which no progress is being reported for the first time and 21 that are recommended for continued monitoring. Delay Reports have not been received from Israel, Portugal and Spain;
- An additional report was recommended for 34 projects for which status reports were to be presented to the current meeting as well as additional reports on 62 HCFC phase-out management plan (HPMP) preparation activities;

- Additional information on HCFC activities approved to-date and submissions to the 62nd Meeting, the tonnage associated with these activities, and control measures addressed by these activities have been included in Annex I, Appendix VI;
- All countries have received HPMP preparation funds and all HPMPs are expected to be submitted during the current triennium (2009-2011) except for Somalia that is forecast for the first meeting (ExCom 66) of the next triennium. Ninety-one HCFC activities resulting from preparation already approved are due for submission to the 63rd Meeting, 68 to the 64th Meeting, and 12 to the 65th Meeting. Twenty-two additional HCFC activities did not have a planned submission date. HPMPs have been delayed on average by 12 months and many have not yet completed their HCFC surveys;
- Of the 125 countries that have received HPMP project preparation, 86 countries have taken the 2007 control measure adjustment for HCFCs into consideration and the remaining countries will do so in 2011 when the baselines are known.

Introduction

1. This document consists of six parts:
 - (a) Part I has been prepared in response to decisions 32/76(b) and 46/4, which requested the Secretariat to prepare an update for each Meeting of the Executive Committee on the status of compliance of A5 countries that are subject to the Montreal Protocol's control measures.
 - (b) Part II contains information on those A5 countries that are subject to decisions of the Parties and recommendations of the Implementation Committee on compliance.
 - (c) Part III presents data on the implementation of CPs, including an analysis of the ozone depleting substances (ODS) consumption data, by sector. It also contains a section that addresses the characteristics of national ODS phase-out programmes.
 - (d) Part IV presents the results of the progress made to achieve compliance, including information on projects with implementation delays.
 - (e) Part V presents the status of HPMP development.
 - (f) Part VI presents the status of addressing HCFC control measures adopted in 2007 in licensing systems.
2. The analysis performed and the conclusions reached in this document are without prejudice to the status of compliance determined by the Meeting of the Parties, which is the only body empowered to assess such status. Data reported pursuant to A7 of the Protocol are used exclusively to determine a country's status of compliance on an annual basis. The analysis in this document uses a mix of data reported to the Fund Secretariat on CP implementation for various compliance periods and A7 data. Therefore, this document does not determine compliance *per se*. Rather, it assesses the prospects of A5 countries in their efforts to comply with one or more of the control measures in the Montreal Protocol. Its main purpose is to identify ODS yet to be addressed by actions supported by the Multilateral Fund.

PART I: STATUS OF, AND PROSPECTS FOR, COMPLIANCE (BASED ON LATEST AVAILABLE DATA)

3. This section presents the results of the analysis of the status of compliance with control measures for the final phase-out of CFCs, halon, and CTC by 2010, and 2015 for MB and TCA.¹ The analysis assumes that the latest consumption reported under A7 or in CP data has taken into account the phase-out from completed projects approved by the Executive Committee. Since the inception of the Multilateral Fund, up to December 2009 229,821 ODP tonnes of consumption and 195,848 ODP tonnes of production had been phased out from completed projects.
4. The completed projects were valued at US \$1.92 billion out of an approved total of approximately US \$2.27 billion. A detailed description of the methodology used in the analysis is provided in document UNEP/OzL.Pro/ExCom/37/18, which was presented at the 37th Meeting of the Executive Committee.

¹ No projects have been identified that address Annex B-1 substances; the Executive Committee has neither considered nor funded projects that address these substances that are subject to the 85 per cent baseline reduction starting in 2007.

5. The analysis used the latest available data. As of 7 October 2010, 119 A5 countries out of 147 had reported 2009 data pursuant to A7 (compared to 103 in September 2009). As of 14 October 2010, an additional 8 countries reported to the Fund Secretariat 2009 data only on progress in the implementation of the country programmes (decision 17/34). For countries that had not submitted 2009 data, the latest consumption data available was used in the analysis. This involved using 2008 A7 data for 20 countries. The analysis assumes that the latest reported levels of ODS consumption excluding HCFCs have not increased, although this might not be true for some 20 countries for which 2009 data was not available, and which might not be in compliance.

6. The bilateral and multilateral implementing agencies submitted annual progress reports to the 61st Meeting of the Executive Committee, which contained data on the status of implementation of all activities and projects approved by the Committee up to the end of 2009. Data on potential approvals in 2010 have been taken from the *Consolidated Revised Business Plan for the Years 2010-2014* (UNEP/OzL.Pro/ExCom/61/7), as approved at the 61st Meeting.

7. The Fund Secretariat will continue to synthesize all of the data that was included in previous versions of the reports on the status of, and prospects for, compliance, which have been used by the Fund Secretariat for analytical purposes. These data are available upon request.

PRODUCTION SECTOR

8. Of the seven² A5 countries with CFC production facilities, the Governments of Argentina, China, India, the Democratic People's Republic of Korea, Mexico and the Bolivarian Republic of Venezuela have agreements in place for scheduled reductions. The Government of Brazil indicated that it has phased out its production of CFCs on its own. For halon production, the Government of China has an agreement in place and the Government of India received a one-time grant for the closure of its halon production facilities.

9. Four countries (Brazil, China, India and the Democratic People's Republic of Korea) have a CTC production baseline. Projects for the complete phase-out of CTC in the production and consumption sectors in three countries (China, the Democratic People's Republic of Korea and India) have been approved by the Executive Committee. A CTC process agent sector project was approved for Brazil at the 54th Meeting. TCA production closure projects were only approved for China.

10. MB production closure projects were approved for China, which was the only one of two A5 countries with MB production facilities. The second is the Republic of Korea, which has not sought Fund assistance.

11. At its 55th Meeting in July 2008, the Executive Committee approved project preparation for the HCFC production sector in China (CPR/PHA/55/PRP/467). At its 59th Meeting in November 2009, the Committee invited eligible countries ready to proceed with the phase-out of HCFC production to submit a request for auditing of their HCFC plans (decision 59/44(c)(ii)). The World Bank has submitted a request for a technical audit on behalf of the Government of China to the current meeting. Action on the technical audit is pending receipt of the required preliminary data, as of this writing.

CONSUMPTION SECTOR

12. This section presents a summary of the results of a detailed analysis of the extent to which countries appear to be in non-compliance or are at risk of non-compliance. The summary is based on data

² Although Romania received funding for production and consumption phase-out, it is not included since it has been reclassified as a non-Article 5 country as of 1 January 2008.

included in Annex I, which contains detailed information for each country, presented by substance. Annex I also indicates whether countries have received all of the assistance expected to be provided by the Multilateral Fund.

13. Information has been included in the assessment of compliance in Annex I on when the activity enabling compliance was approved and whether the country has reported the establishment of a licensing system. This information should further enable the Executive Committee to assess the prospects of compliance for countries because the approval date indicates how long the project or agreement has been under implementation. Further, the information on the establishment of a licensing system indicates that controls exist to enable future compliance, regardless of the level of current consumption. The information on project approval is taken from the Inventory on Approved Projects. The data on the establishment of licensing systems has been provided by the Ozone Secretariat as at 5 October 2010.

CFCs

14. A summary of the status of countries with respect to compliance with controls on CFCs is presented in Table 1. Table 1 indicates the type of data reported and includes countries grouped into two categories: (i) those whose latest consumption exceeds the 85 per cent reduction target of 2007 that applies until December 2009; and (ii) those whose latest consumption exceeds the 2010 100 per cent phase-out target.

Table 1

**CFC CONTROL MEASURES:
SUMMARY OF NON-COMPLIANCE OR AT RISK OF NON-COMPLIANCE**

Data	Countries whose latest consumption exceeds the 85 per cent reduction target of 2007	Countries whose latest consumption exceeds the 2010 100% phase-out target
Latest consumption	2 countries (Bangladesh and Iraq; Bangladesh was in compliance with its Action Plan for 2009).	69 countries
2009 Data (A7 or CP)	2 countries (Bangladesh and Iraq; Bangladesh was in compliance with its Action Plan for 2009).	54 countries

15. All of the countries whose latest consumption exceeds their control measures or that are considered to be at risk of non-compliance have either received support from the Multilateral Fund or have activities planned in the 2010-2014 business plans of the agencies, except for Angola, Ethiopia, Somalia and Timor-Leste. The CFC terminal phase-out management plan (TPMP) for these countries will be integrated into HPMPs according to decision 60/5(d).

Halons

16. A summary of the status of countries with respect to compliance with controls on halons is presented in Table 2. Seventy-five countries have reported no consumption of halons between 1995 and 2009. Sixty-one countries have received support for halon banking activities or phase-out agreements, which includes countries participating in regional halon banks. Table 2 presents the type of data reported and includes countries, which have been grouped into the following two categories: (i) those whose latest consumption exceeds the 50 per cent reduction target of 2005 that applies until December 2009; and (ii) those whose latest consumption exceeds the 2010 100 per cent phase-out target.

Table 2

**HALON CONTROL MEASURES:
SUMMARY OF NON-COMPLIANCE OR AT RISK OF NON-COMPLIANCE**

Data	Countries whose latest consumption exceeds the 50 per cent reduction target for halons of 2005	Countries whose latest consumption exceeds the 2010 100% phase-out target
Latest consumption	None	6 countries
2009 Data (A7 or CP)	None	3 countries

Methyl bromide

17. Table 3 presents a summary of countries' compliance with MB control measures (excluding quarantine and pre-shipment). All of the 144 A5 countries that have ratified the Copenhagen Amendment have reported complete baseline data. The three A5 countries that have not ratified the Copenhagen Amendment are: Angola, Guinea and Nepal. Of the 144 countries that have ratified the Copenhagen Amendment, 57 reported zero for both the baseline consumption and the latest consumption. Ninety-nine A5 countries have received support from the Multilateral Fund for MB phase-out activities and/or projects. Table 3 presents the type of data reported and includes countries, which have been grouped into the following two categories: (i) those whose latest consumption exceeds the 20 per cent reduction target of 2005 that applies until December 2014; and (ii) those whose latest consumption is above the 2015 100 per cent phase-out target.

Table 3

**METHYL BROMIDE CONTROL MEASURES:
SUMMARY OF NON-COMPLIANCE OR AT RISK OF NON-COMPLIANCE***

Data	Countries whose latest consumption exceeds the 20 per cent MB reduction target of 2005	Countries whose latest consumption is above the 2015 100% phase-out target
Latest consumption	Turkmenistan	32 countries
2009 data (A7 or CP)	Turkmenistan	30 countries

* This table refers to 145 A5 countries with baseline and latest consumption data reported.

18. Turkmenistan is the only country whose latest consumption exceeds its 2005 control measures. Turkmenistan has approved projects that will lead to complete phase-out of methyl bromide.

Carbon tetrachloride

19. Table 4 presents a summary of countries' compliance with the CTC control measures. The data summarized exclude feedstock and do not differentiate by specific end use (such as solvents and process agents). Of the 146 countries with reported baseline data, 90 reported zero both for the baseline and the latest consumption. Table 4 presents the type of data reported and identifies countries that have been grouped into the following two categories: (i) those whose latest consumption exceeds the 85 per cent reduction target of 2005 that applies until December 2009; and (ii) those whose latest consumption exceeds the 2010 100 per cent phase-out target.

Table 4

**CARBON TETRACHLORIDE CONTROL MEASURES:
SUMMARY OF NON-COMPLIANCE OR AT RISK OF NON-COMPLIANCE**

Data	Countries whose latest consumption exceeds the 85 per cent reduction target of 2005	Countries whose latest consumption exceeds the 2010 100% phase-out target
Latest consumption	Ecuador	12 countries
2009 data (A7 or CP)	Ecuador	12 countries

20. All of the countries whose latest consumption exceeds their control measures or that are considered to be at risk of non-compliance have received support from the Multilateral Fund, except Ecuador. Ecuador is the only country that may not need additional assistance to meet 100 per cent reduction target for CTC. The World Bank looked into the possibility of a project but found that all CTC imports were due to laboratory uses.

Methyl chloroform

21. Table 5 presents a summary of countries' compliance with the TCA control measures. Of the 146 countries that have reported baseline data, 103 reported zero both for the baseline and the latest consumption. Table 5 presents the type of data reported and indicates countries, which have been grouped into the following three categories: (i) those whose latest consumption exceeds the 30 per cent reduction target of 2005 that applies until December 2009; (ii) those whose latest consumption exceeds the 70 per cent reduction target of 2010; and (iii) those whose latest consumption is above the 2015 100 per cent phase-out target.

Table 5

**METHYL CHLOROFORM CONTROL MEASURES:
SUMMARY OF NON-COMPLIANCE OR AT RISK OF NON-COMPLIANCE**

Data	Countries whose latest consumption exceeds the 30 per cent TCA reduction target of 2005	Countries whose latest consumption exceeds the 70 per cent TCA reduction target of 2010	Countries whose latest consumption is above the 100 per cent TCA reduction target of 2015
Latest consumption	None	2 countries (Bangladesh and Republic of Korea (the)). (Bangladesh was in compliance with its Action Plan for 2009).	8 countries
2009 data (A7 or CP)	None	2 countries (Bangladesh and Republic of Korea (the)). (Bangladesh was in compliance with its Action Plan for 2009).	8 countries

22. All of the countries whose latest consumption exceeds their control measures or that are considered to be at risk of non-compliance have received support from the Multilateral Fund, except for the Republic of Korea. The Republic of Korea has agreed not to receive funding from the Multilateral Fund.

HCFCs

23. Appendix VI of Annex I includes an analysis of the latest consumption data on HCFCs and indicates whether the country had received HPMP preparation funding, the number of investment projects

approved, the number of demonstration projects approved, total phase-out approved in ODP tonnes and activities planned in the 2010 business plans.

24. The remarks column has been modified into new columns indicating HPMPs approved to-date and those submitted to the 62nd Meeting and the duration covered by the HPMP (such as, HPMP approved to achieve the 10 per cent reduction in 2015 or to achieve the 35 per cent reduction in 2020). The Executive Committee has approved 5 HPMPs to-date, with two addressing control measures to 2020, and three for total HCFC phase-out. As of 18 October 2010, 22 HPMPs have been submitted to the 62nd Meeting. If approved, the total number of HPMPs being implemented following the 62nd Meeting would be for 22 countries, including seven countries addressing the control measures for 2015, one country addressing the 2020 control measure by 2017, eleven addressing control measures for 2020 and three total phase-out. Forty individual one-off investment/demonstration/technical assistance projects were also submitted. If approved, these investment projects would address the 2015 reduction in an additional 17 countries.

25. The baseline data for HCFCs will not be available until 2011 when both of the baseline years (2009 and 2010) will have been reported. 127 Article 5 countries have reported 2009 data as at 14 October 2010 including 8 countries that have not reported Article 7 data but have only reported CP data.

26. All countries have received HPMP preparation projects except the Republic of Korea, Singapore and the United Arab Emirates. These countries had agreed not to receive funding from the Multilateral Fund. Three countries that have received HPMP preparation (Angola, Guinea and Nepal) have not ratified the Copenhagen Amendment. Ratification of the Copenhagen Amendment is a pre-requisite for funding HPMPs.

PART II: STATUS OF IMPLEMENTATION IN COUNTRIES SUBJECT TO DECISIONS OF THE PARTIES ON COMPLIANCE AND THOSE AT RISK OF NON-COMPLIANCE

27. This section addresses A5 countries that are subject to decisions on compliance. All countries have provided the required information for their action plans. Twenty-eight countries had not provided Article 7 data as at 7 October 2010. These countries will be subject to a decision of the Parties on data reporting since all Article 7 data are due by 30 September of each year.

PART III: DATA ON THE IMPLEMENTATION OF COUNTRY PROGRAMMES

28. Part III contains data on the implementation of CPs, which are submitted to the Fund Secretariat by 1 May of each year and include ODS consumption, by sector. This section also presents additional information on the characteristics of a country's ODS phase-out programme. The format for country programme data reporting was approved at the 35th Meeting of the Executive Committee in decision 35/58 (e).

ODS CONSUMPTION DATA BY SECTOR EXCEPT HCFCs

29. The database for the CP data is available on the Fund Secretariat's web site (www.multilateralfund.org) in the spreadsheet programme, Microsoft Excel 2002.

30. As of 14 October 2010 the Secretariat had received reports on the implementation of CPs for 2009 from 107 of the 144 countries required to submit such reports, for 2008 from 32 countries and for 2007 from one country. The following countries have never reported CP data: Equatorial Guinea, Eritrea and South Africa. Timor-Leste has not reported CP data as it has only recently ratified the Protocol, but the other countries all ratified in 2007 or before. Equatorial Guinea did not receive assistance until July 2006. South Africa is eligible to receive assistance from the Multilateral Fund for HCFCs only. It

should be noted that renewal of institutional strengthening (IS) projects is contingent upon receiving such data. Moreover CP implementation data must be submitted in advance of the last meeting of the year and subsequent meetings as a pre-condition for the approval and release of funding for projects. All of the countries requesting projects for consideration at the 62nd Meeting submitted 2009 CP data, pursuant to decision 52/5, except for Cote D'Ivoire, India, Swaziland and Yemen.

31. Although the consumption levels recorded are from different years and may not necessarily correspond to the A7 data reported, the CP data provides the most recent sectoral assessment by country, and on a global basis. These data should assist the A5 countries concerned and the Executive Committee to assess what remains to be phased out on a sectoral basis.

32. Table 6 presents the total remaining ODS consumption to be phased out by sector, taking into account projects that have been approved but are not yet implemented. It also includes total consumption phase-out from approved projects that have not been completed, and the percentage of the balance to be phased out (by sector).

Table 6

TOTAL REMAINING ODS CONSUMPTION BY SECTOR

Sector	Total latest consumption	Percentage of total latest consumption	Total phase-out approved but not completed	Balance to be phased out	Percentage of balance to total latest consumption
Aerosol	43.3	0.54%	485.1	*	N/A
Foam	152.1	1.89%	55.4	96.7	63.58%
Fumigant	2,610.5	32.49%	1,385.4	1,225.1	46.93%
Halon	1,037.2	12.91%	482.7	554.5	53.47%
Lab Use	93.6	1.17%	0.0	93.6	100.00%
MDI	1,177.7	14.66%	1,524.4	*	N/A
Process agent	1.2	0.01%	13,483.0	*	N/A
Refrigeration	2,539.9	31.61%	3,497.5	*	N/A
Solvent	376.5	4.69%	147.8	228.7	60.75%
Sterilant	0.0	0.00%	0.0	0.0	N/A
Tobacco	3.2	0.04%	0.0	3.2	100.00%
Total	8,035.3	100.00%	21,061.2	2,201.9	27.40%

* More phase-out approved than latest consumption.

33. The total ODS phase-out approved but not implemented (Table 6) does not include that approved in principle for multi-year agreements (MYAs) or the phase-out level that is expected to result from the implementation of refrigerant management plans (RMPs) and halon banking. In addition to the phase-out already being funded, the Executive Committee has approved, in principle, sectoral and national phase-out projects for which annual tranches are released on the basis of achieved scheduled reductions.

34. The phase-out from future annual tranches will address a significant amount of the remaining consumption identified in Table 6. Moreover, RMPs for low-volume-consuming (LVC) countries account for 85 per cent of the baseline consumption of these countries and TPMPs account for the remaining baseline. However, the data in the projects that have been approved but are not yet implemented do not account for all of this tonnage. In addition, the approved but unimplemented ODS phase-out in Table 6 does not include some halon consumption for countries that have already received a halon banking project.

35. Table 7 presents the remaining consumption, by substance, which has not yet been addressed by the Executive Committee after taking into account MYAs, TPMPs, RMPs for LVC countries, and halon banking.

Table 7

**TOTAL REMAINING ODS CONSUMPTION BY SUBSTANCE BASED ON CP DATA
(AFTER TAKING INTO ACCOUNT THE PHASE-OUT REPRESENTED BY RMPs FOR
LVC COUNTRIES, HALON BANKING, TOTAL PHASE-OUT PROJECTS, AND MYAs THAT
ARE APPROVED IN PRINCIPLE)**

Chemical	Remaining ODS consumption (ODP tonnes)
CFC	0.0*
CTC	0.1
Halons	0.0
MB	1,116.3
TCA	0.0
Total	1,116.4

* According to Decision 60/5(d).

36. The document submitted to the 59th Meeting of the Executive Committee indicated that there were 1,574 ODP tonnes remaining to be addressed based on the latest CP data, taking into account projects that had been approved but not implemented. The reduction of 457.6 ODP tonnes in consumption is due to the funding approvals at the 59th, 60th and 61st Meetings of the Executive Committee and the updated consumption data received since the document was issued for consideration at the 61st Meeting. The remaining ODS consumption is based on the 140 A5 countries that reported CP data. The four countries that have not reported CP data may also seek the Fund's assistance. Using A7 data for those four countries, the total amount of remaining ODS consumption still to be addressed (taking into account the phase-out represented by TPMPs and RMPs for LVC countries, halon banking, total phase-out projects, and MYAs that are approved in principle) appears to be 1,102 ODP tonnes (Table 8). This is a reduction from the figure of 1,629 ODP tonnes that had been reported to the 59th Meeting.

Table 8

**TOTAL REMAINING ODS CONSUMPTION BY SUBSTANCE BASED ON CP AND A7 DATA
(AFTER TAKING INTO ACCOUNT THE PHASE-OUT REPRESENTED BY RMPs FOR
LVC COUNTRIES, HALON BANKING, TOTAL PHASE-OUT PROJECTS, AND MYAs THAT
ARE APPROVED IN PRINCIPLE)**

Chemical	Remaining ODS consumption (ODP tonnes)
CFC	0.0*
CTC	0.1
Halons	0.0
MB	1,102.2
TCA	0.0
Total	1,102.3

* According to Decision 60/5(d).

HCFC DATA

37. Table 9 presents the levels of HCFC consumption based on the latest data available. It shows that there are 473,715 metric tonnes (31,950 ODP tonnes) of HCFC consumption consisting primarily of HCFC-22 (58.5 per cent of the total) and HCFC-141b (33 per cent of the total). The 473,715 metric tonnes of HCFCs represents an increase of 51,819 metric tonnes over the amount reported (421,896 metric tonnes) to the 59th Meeting. By comparison, the Fund has phased out 232,317 metric tonnes (250,904 ODP tonnes) of ODS consumption as at 31 December 2009. The level in this report is based on data from 2009 for 107 countries, from 2008 for 32 countries and from 2007 for one country. For those countries reporting both 2008 and 2009 data, HCFC consumption increased by 14.5 per cent.

Table 9

LEVELS OF LATEST HCFC CONSUMPTION DATA BY CHEMICAL

Chemical	Metric tonnes	ODP tonnes	Percent of total
HCFC-123	1,267.6	25.4	0.08%
HCFC-124	753.3	16.6	0.05%
HCFC-141b	95,978.2	10,557.6	33.04%
HCFC-141b in Imported Pre-blended Polyol	7,372.5	811.0	2.54%
HCFC-142b	28,337.6	1,841.9	5.77%
HCFC-21	37.2	1.5	0.00%
HCFC-22	339,887.3	18,693.8	58.51%
HCFC-225	5.2	0.4	0.001%
HCFC-225ca	57.2	1.4	0.004%
HCFC-225cb	19.0	0.6	0.002%
Total	473,715.1	31,950.2	100.00%

CHARACTERISTICS OF COUNTRY PROGRAMMES

38. The new CP reporting format adopted in decision 46/39 and revised at the 60th Meeting (decision 60/4(b)(iv)) provides an opportunity for National Ozone Units (NOUs) to assess the prospects for compliance from both a quantitative and qualitative perspective.

Completeness of the data

39. This is the fifth year of use of the new format for reporting CP data. Although it was revised at the 60th Meeting for HCFCs, all of the 107 countries provided 2009 data using the earlier approved new format; but only 77 countries used the revised format approved at the 60th Meeting. Nevertheless, most of the data provided in the new format were incomplete for the three main sections: qualitative, quantitative and regulatory. Only five countries, the Bahamas, Cameroon, Egypt, Malaysia and Zimbabwe provided all the information for all three sections. Only seven countries submitted 2009 data using the web-based system, which was initiated on 25 April 2007.

40. Only 107 of the required 144 countries provided 2009 CP data in time for analysis in this document. All countries that submitted requests for funding to the 62nd Meeting also submitted 2009 CP data, except for Cote D'Ivoire, India, Swaziland and Yemen.

Summary of data

All ODS except HCFCs

41. Eighty-seven of the 102 reporting countries with RMPs/national phase-out plans (NPPs)/TPMPs either indicated progress or had completed the implementation of their RMPs/NPPs/TPMPs. Including those countries that reported data prior to 2009, 111 out of 136 countries showed progress or completed the implementation of their RMPs/NPPs/TPMPs.

42. Including in those countries that reported data prior to 2009, a total of 14,216 recovery machines and 6,047 recycling machines are operational. Of those countries employing recovery and recycling (R&R) machines, 67.4 per cent reported that the machines had been functioning 'satisfactorily' or 'very well'. A total of 251.6 ODP tonnes of CFC-11 has been recovered of which 245.7 ODP tonnes were reused, and a total of 4,213 ODP tonnes of CFC-12 have been recovered of which 2,418 ODP tonnes were reused. Data are not collected for the other ODS. Latest data reported for 2006-2009, taken together with that from previous years' reports, indicate that a total of 91,923 refrigeration servicing technicians have been trained, 68,468 have been certified, and 4,377 refrigeration technician trainers have been trained.

43. One-hundred and thirty-three of the 144 countries with reporting requirements have reported operational licensing systems (104 of the 107 countries that reported 2009 data had operational licensing systems with 94.2 per cent of them functioning 'satisfactorily' or 'very well'). One-hundred and twenty-one of the 141 countries that reported data (including data from previous years' reports) indicated that they had quota systems in place. In addition, 129 countries advised that importer registration was a requirement. A total of 16,765 customs officers have been reported as having been trained. It is not clear whether this is annual or cumulative data.

Price data for CFCs and HCFCs and their alternatives

44. The costs of some ODS and substitutes have been summarized in Table 10.

Table 10

AVERAGE PRICE OF CFCs AND HCFCs AND THEIR ALTERNATIVES

ODS	Average price/kilogram (US\$/kg) (2005 per Report to 50 th Meeting)	Average Price/kilogram (US\$/kg) (2006 per Report to 54 th Meeting)	Average Price/kilogram (US\$/kg) (2007 per Report to 57 th Meeting)	Average Price/kilogram (US\$/kg) (2008 per Report to 60 th Meeting)	Average Price/kilogram (US\$/kg) (2009 Report)	Number of countries where prices increased	Number of countries where prices decreased	Range (US\$/kg) (2009 Report)	Number of countries reporting non-zero data for 2009	Data excluded* from the calculation of the average (US\$/kg.) (2009 Report)
CFC-11	\$7.09	\$9.67	\$10.65	\$11.42	\$9.81	8	5	\$2.48 (China) to \$20.00 (Argentina)	22	\$1.58 (Algeria), \$40.70 (Brazil)
CFC-12	\$8.98	\$10.95	\$12.81	\$11.52	\$10.35	23	14	\$1.50 (Palau) to \$28.00 (Benin)	55	\$0.08 (Zambia), \$29.75 (Belize)
CFC-113	\$9.02	\$19.41	\$19.00	\$16.52	\$9.91	N/A	2	\$3.06 (China) to \$20.38 (Algeria)	6	\$219.07 (Serbia), \$266.00 (Argentina)
CFC-114	\$9.98	\$17.37	\$18.92	\$16.31	\$6.35	N/A	N/A	\$1.69 (Algeria) to \$11.00 (Malaysia)	2	None
CFC-115	\$10.94	\$12.41	\$11.97	\$8.82	\$11.62	N/A	1	\$10.37 (China) to \$13.50 (Chad)	3	None
Cyclopentane	N/A	N/A	\$4.03	\$1.91	\$3.74	N/A	N/A	\$3.30 (Armenia) to \$4.05 (Argentina)	3	None
HCFC-123	N/A	N/A	N/A	N/A	\$9.09	N/A	N/A	\$4.40 (China) to \$18.00 (Venezuela (Bolivarian Republic of))	9	\$25.00 (Samoa)

ODS	Average price/kilogram (US\$/kg) (2005 per Report to 50 th Meeting)	Average Price/kilogram (US\$/kg) (2006 per Report to 54 th Meeting)	Average Price/kilogram (US\$/kg) (2007 per Report to 57 th Meeting)	Average Price/kilogram (US\$/kg) (2008 per Report to 60 th Meeting)	Average Price/kilogram (US\$/kg) (2009 Report)	Number of countries where prices increased	Number of countries where prices decreased	Range (US\$/kg) (2009 Report)	Number of countries reporting non-zero data for 2009	Data excluded* from the calculation of the average (US\$/kg.) (2009 Report)
HCFC-124	N/A	N/A	N/A	N/A	\$12.73	N/A	N/A	\$6.10 (China) to \$22.57 (Samoa)	6	\$23.00 (Venezuela (Bolivarian Republic of))
HCFC-133	N/A	N/A	N/A	N/A	\$19.25	N/A	N/A	\$19.25 (Samoa)	1	None

HFC-356mfc	N/A	N/A	\$15.52	\$10.38	\$9.63	N/A	N/A	\$9.00 (Malaysia) to \$10.26 (China)	2	None
Isobutane (HC-600a)	N/A	N/A	\$14.24	\$22.53	\$25.93	3	5	\$8.00 (Indonesia) to \$55.89 (Croatia)	24	\$95.53 (Saint Kitts and Nevis), \$160.00 (Lesotho)
MDI (foam production)	N/A	N/A	\$3.83	\$3.34	\$2.59	N/A	2	\$2.00 (Indonesia) to \$3.50 (Morocco)	5	\$6.00 (Cuba)
Methyl formate	N/A	N/A	N/A	N/A	\$5.02	N/A	N/A	\$5.02 (Brazil)	1	None
Pentane	N/A	N/A	\$1.40	\$6.00	\$2.20	N/A	N/A	\$2.20 (Armenia)	1	None
Propane (HC-290)	N/A	N/A	\$6.49	\$7.88	\$22.28	N/A	2	\$3.80 (China) to \$42.00 (Chad)	12	\$3.11 (Thailand), \$97.61 (Saint Kitts and Nevis)
R-404A	N/A	N/A	\$12.44	\$16.46	\$16.11	21	16	\$5.32 (Syrian Arab Republic) to \$57.52 (Tonga)	69	\$2.35 (Guyana), \$360.00 (Bhutan)
R-406A	N/A	N/A	N/A	\$7.50	N/A	N/A	N/A	None	0	None
R-407C	N/A	N/A	\$14.21	\$17.42	\$17.03	10	17	\$7.50 (Lebanon) to \$55.00 (Comoros (the))	56	\$5.75 (The Former Yugoslav Republic of Macedonia), \$78.19 (Tonga)
R-410A	N/A	N/A	\$14.21	\$15.43	\$16.38	14	14	\$5.62 (Guyana) to \$45.00 (Burkina Faso)	61	\$5.00 (Palau), \$50.00 (Lesotho)
R-502	\$14.20	\$16.74	\$21.44	\$16.97	\$15.48	5	1	\$8.00 (Malaysia) to \$29.00 (Mauritania)	20	\$6.70 (Lebanon), \$34.00 (Mali)
R-507A	N/A	N/A	\$12.47	\$17.69	\$17.82	8	3	\$8.00 (Malaysia) to \$50.00 (Lesotho)	32	\$5.66 (The Former Yugoslav Republic of Macedonia), \$77.37 (Croatia)

* All zero \$ entries were excluded.

45. No such data have been provided for halons, MB or CTC.

46. Table 10 indicates that average prices for CFC-11, CFC-12, CFC-113, CFC-114, HCFC-141b, HCFC-22, HCFC-245fa, HFC-356mfc, MDI (foam production), Pentane, R-404A, R-407C and R-502 have decreased and that more countries experienced increases in prices than decreases. However, consistent with 2005, 2006, 2007 and 2008 data, the average prices of substitutes (such as R-502) remain

higher than those of CFC-11 and CFC-12. Also, HCFC-22, HCFC-141b and HCFC-142b still remain much less expensive than the relevant CFCs, based on this sample of data.

HCFC

47. This is the first year of use of the revised format to include relevant information on HCFC phase-out approved at the 60th Meeting (decision 60/4(b)(iv)). Seventy-seven of the 107 countries provided 2009 data using the revised format with information on HCFC.

48. Thirty-nine of the 70 countries that reported data indicated that they had quota systems in place and 58 countries advised that importer registration was a requirement. A total of 554.1 ODP tonnes of HCFC-22 has been recovered of which 512.1 ODP tonnes were reused. A total of 3,646 customs officers have been reported as having been trained on HCFC.

49. A total of 1,146 recovery machines and 462 recycling machines are operational. 14,045 technicians have been certified, 22,703 technicians have been trained and 1,014 trainers for technicians have been trained to recover and recycle HCFCs.

PART IV: PROJECTS WITH IMPLEMENTATION DELAYS AND SPECIAL STATUS REPORTS

50. There are 34 ongoing projects that have been classified as projects with implementation delays and are subject to the Committee's procedures for project cancellation. Projects with implementation delays are those: (i) that are expected to be completed more than 12 months late, and/or, (ii) where no disbursement has been made within 18 months of the project's approval. The breakdown of projects with implementation delays, by implementing and bilateral agency, is presented in Table 11 as follows: UNDP (nine); UNEP (six); UNIDO (five); the World Bank (three); Japan (three), Italy (two), Australia (one), Canada (one) and France (one). Reports have not been received from Israel (one), Portugal (one) and Spain (one). Delays are most commonly caused by external factors (6).

Table 11

SUMMARY OF PROGRESS FOR PROJECTS WITH IMPLEMENTATION DELAYS

	Australia	Canada	France	IBRD	Italy	Japan	UNDP	UNEP	UNIDO	Total
Number of projects reported	1	1	1	3	2	3	9	6	5	31
Number of projects completed					1			2		3
Number of projects with progress					1		3		1	5
Number of projects with some progress	1	1	1	2		3	6	3	4	21
Number of projects with no progress				1				1		2

Progress in resolving causes of delays

51. In their reports, the implementing and bilateral agencies advised that there have been varying degrees of progress in overcoming delays. Three of the projects listed with delays at the 61st Meeting have now been completed (Annex II). Five projects where there has been either progress from one milestone to another or a resolution of the implementation delay may be removed from future reporting of projects with implementation delays (Annex III).

Projects with some progress

52. Twenty-one projects have been classified as showing "some progress", and the implementing and bilateral agencies indicated that these would continue to be monitored (Annex IV). Notwithstanding

progress, it should be noted that projects approved over three years ago must continue to be monitored pursuant to decision 32/4. These projects cannot, therefore, be removed from the list for monitoring prior to final completion irrespective of the progress that may have been made. They are thus recommended for continued monitoring.

Projects with no progress - letter of possible cancellation

53. There are two projects that experience no progress since the 61st Meeting (Annex V). Under existing procedures, the Fund Secretariat will send notices of possible cancellation in respect of these projects on the basis that it has achieved no progress.

Projects for which additional status reports were requested

54. IS, halon banking, customs training, recovery and recycling, and demonstration projects are not subject to procedures for project cancellation. Nevertheless, the Executive Committee has decided to continue to monitor them as appropriate (decision 36/14 (b)). At its 61st Meeting, the Executive Committee requested 99 additional status reports excluding the additional reports requested for HPMP development and on licensing systems that are addressed in Parts V and VI respectively of the current document. Such status reports are needed when there has been no indication of any progress since the last report and/or where additional impediments to implementation have been reported. Additional status reports are requested for submission to the 63rd Meeting for 34 projects (Annex VI). In addition, UNEP has requested that IS for Brunei Darussalam (BRU/SEV/43/INS/05) might be considered for possible cancellation if the project document is not signed by the 63rd Meeting with the possibility of resubmission when the Government is in a position to sign a project document.

PART V: STATUS OF HPMP DEVELOPMENT

55. At its 61st Meeting, the Executive Committee requested additional reports on the status of HPMP development in the context of its decision on each agency's progress report. The Secretariat requested implementing agencies to provide the information on all HPMP preparation for HPMPs and sector projects concerning the status of surveys, stakeholder workshops, the identification of local institutions, recruitment of experts, completion of technical inputs and draft documents and the meeting to which the HPMP would be submitted.

56. The total number of HPMP preparation activities funded by the Executive Committee is 285, of which 194 activities are expected to be submitted between the 63rd and 66th Meetings of the Committee. The difference of 91 activities represents those associated with HPMPs already approved or submitted to the 62nd Meeting. Table 12 presents information on the meeting to which the remaining ongoing preparation projects for HCFC activities are planned for submission.

Table 12

PLANNED SUBMISSION OF HPMP ACTIVITIES BY MEETING NUMBER

Agency	63rd Meeting	64th Meeting	65th Meeting	66th Meeting	Not Provided	Total
UNDP	36	15			1	52
UNEP	20	32			5	57
UNIDO	18	17	5	1	15	56
World Bank	1	4	7		1	13
Bilateral	16					16
TOTAL	91	68	12	1	22	194

57. As shown in the table, all HPMP activities are planned for submission by the 65th Meeting except one (HPMP preparation in Somalia due to the political circumstances in the country). This means that all HPMPs except one are planned for submission in the current triennium (2009-2011).

58. In cases where the project was planned for submission to the 63rd Meeting, the Secretariat attempted to ascertain the likelihood of the submission occurring by considering the status of activities leading to the submission such as surveys. In general, HPMP preparation was expected to take 12 months. Based on planned completion dates in the progress reports submitted to the 61st Meeting, 74 of the 285 activities were not delayed. However, 211 activities were delayed by more than one month and on average 12 months. Agencies were asked to provide reasons for delays. In many cases, one activity may have had several reasons for delays. Table 13 presents the reasons for delays.

Table 13

REASONS FOR DELAYS IN HPMP PREPARATION ACTIVITIES

Implementing Agency	Absence of policies and guidelines	Recruit. of Experts	Identification of local institutions	Lack of communication with concerned parties	HCFC survey not completed	Focus on CFC activities completion	Government and changes within Government	Political instability and/or security situations
Bilateral	1	1	3	4	4	2	2	
UNDP	61	11	7	5	15	7	7	3
UNEP	4	27	5	1	37	20	9	3
UNIDO	48	13	9	4	14	6	2	2
World Bank		3			1			
TOTAL	114	55	24	14	71	35	20	8

59. Most of the reasons for delays (114) were the absence of policies and guidelines followed by the lack of a completed survey (71). Many of the HPMP preparation activities have not been completed despite the fact that most were approved at the 55th Meeting in July 2008. Since the completion of the survey is a key indicator that the HPMP preparation is well underway, the Secretariat is recommending that the Executive Committee request additional reports on projects at an early stage of implementation for the projects and reasons specified in Annex VII.

PART VI: STATUS OF ADDRESSING HCFC CONTROL MEASURES ADOPTED IN 2007 IN LICENSING SYSTEMS

60. The status of licensing systems addressing the HCFC control measures is difficult to assess because each Party may regard the Montreal Amendment's requirement for a licensing system in different ways. Although a Party may have indicated that it had met the requirement of the Amendment, that requirement may have been achieved by a quota system, a regulation, legislation or a decree. Moreover, meeting the requirement of the Montreal Amendment does not necessarily mean that the mechanism being used to meet the requirement has been or could easily be modified to accommodate the adjusted HCFC control measures approved in 2007 to accelerate HCFC phase-out.

61. The Secretariat requested lead agencies to provide information about the licensing systems and other Government means of controlling the import and export of HCFCs. Such information was provided for 143 of the 144 countries that have received funding for HPMP development (no information was provided by UNEP for Mauritania).

62. 125 countries have licensing systems for imports but 39 of them do not have licensing systems for exports. Of these 125 countries, 117 also have import permit systems, and 77 have quota systems. There are 18 countries that do not have import licensing systems, but three of these countries have a permit systems in place for bulk imports (two of which for bulk exports, as well). Of the remaining 18 countries,

fifteen had established licensing systems according to their reports to the Ozone Secretariat, whereas three had not. The data provided by the lead agencies indicated that these three countries needed a quota system and that such systems would be established by or during 2011 and 2013.

63. Of the 125 countries with licensing systems, lead agencies indicated that 86 of these countries' licensing systems have taken the 2007 control measures adjustments into consideration. An additional eight countries have taken the 2007 control measures adjustments into consideration through other Government measures. For those countries that have not taken the 2007 adjustments into account, the lead agencies have indicated that these countries would do so in 2011. It is not clear the extent to which licensing systems address the importation of HCFC-using equipment.

64. The Executive Committee may wish to seek additional information on the application of licensing systems to the importing of HCFC-containing equipment, and continue requesting reports on those countries that have not taken the 2007 adjustments to the HCFC control measures into account.

RECOMMENDATIONS

65. The Executive Committee may wish to consider:

(a) Noting:

- (i) The status of implementation of delayed projects and prospects of Article 5 countries in achieving compliance with the next control measures of the Montreal Protocol as contained in document UNEP/OzL.Pro/ExCom/62/6;
- (ii) With appreciation, the status reports on projects with implementation delays submitted to the Secretariat by the Governments of Australia, Canada, France, Italy, Japan, and the four implementing agencies, addressed in UNEP/OzL.Pro/ExCom/62/6;
- (iii) The completion of three of the 34 projects listed with implementation delays;
- (iv) That the Secretariat and the implementing agencies would take established actions according to the Secretariat's assessments (progress or some progress) and report to and notify governments and implementing agencies as required;

(b) Requesting:

- (i) Additional status reports on the projects listed in Annex VI and VII;
- (ii) That letters of possible cancellation should be sent in respect of the following projects:

Agency	Code	Project Title
IBRD	ARG/REF/18/INV/39	Elimination of CFC in the manufacturing plant of domestic refrigerators of Neba, S.A. in Argentina
UNEP	AFR/SEV/45/TAS/33	Sub-regional project on harmonization of legislative and regulatory mechanisms to improve monitoring and control of ODS consumption in English-speaking Africa

- (iii) The Governments of Israel, Portugal and Spain to provide their implementation delays reports to the 63rd Meeting of the Executive Committee;

- (c) Possible cancellation if the project document is not signed by the 63rd Meeting with the possibility of resubmission when the Government is in a position to sign a project document for the following project:

Agency	Code	Project Title
UNEP	BRU/SEV/43/INS/05	Renewal of the institutional strengthening project (phase II) in Brunei Darussalam

and;

- (d) Request additional information on the application of licensing systems to the importation of HCFC-containing equipment and continue requesting reports on those countries that have not taken the 2007 adjustments to the HCFC control measures into account.

Annex I

DETAILED ANALYSIS OF THE STATUS OF IMPLEMENTATION IN COUNTRIES SUBJECT TO DECISIONS OF THE PARTIES ON COMPLIANCE AND THOSE AT RISK OF NON-COMPLIANCE

1. Annex I presents the detailed analysis of the status of implementation in countries subject to decisions of the Parties on compliance and those at risk of non-compliance. The data tables in Appendixes I-VI indicate whether a country has received a total phase-out agreement for a specific controlled substance. The analysis of halons (Appendix II) indicates whether a halon banking activity has been approved. Halon banking guidelines require that regulations facilitating production and import bans are established within six months of the establishment of a reclamation centre (decision 18/22). The methyl bromide analysis (Appendix III) indicates further whether a country has received funding for a phase-out to meet the 2005 control measures. Appendixes IV and V present information on the carbon tetrachloride (CTC) and methyl chloroform (TCA) phase-out, respectively. Appendix VI provides information on latest HCFC consumption only, as the baseline will not be established until after 2010.

ANALYSIS OF COMPLIANCE FOR CFCs (Appendix I)

2. Countries have been grouped into two categories: (a) those whose latest consumption exceeds the 85 per cent baseline reduction target of 2007 that applies until December 2009; and (b) those whose latest consumption exceeds the 2010 100 per cent phase-out target.

(a) Countries at risk of not achieving the 85 per cent CFC baseline reduction

3. This category consists of two countries, which may need to achieve additional CFC phase-out amounting to 294.9 ODP tonnes by 2007 in order to comply with the 85 per cent reduction target. Of these two countries, one was to receive projects with phase-out in the 2010 business plans.

4. The two countries that may require additional actions to achieve the 85 per cent reduction are Bangladesh and Iraq. All countries currently eligible for Fund assistance have national CFC phase-out agreements with the Executive Committee, which contain a phase-out schedule that is consistent with the targets in the Montreal Protocol. All of the countries that are at risk have received support from the Executive Committee to address their compliance needs.

(b) Countries whose latest consumption exceeds the 2010 phase-out target

5. This category consists of 69 countries, including 39 LVC countries, which may need to achieve additional CFC phase-out amounting to 4,258 ODP tonnes by 2010 in order to comply with the 100 per cent reduction target. Of these 69 countries, 22 have phase-out projects included in the 2010 business plans.

6. Of the 69 countries, the Executive Committee has approved national CFC phase-out agreements for 63 countries including 35 LVC countries. Two countries (the Republic of Korea and the United Arab Emirates) have agreed not to receive funding from the Multilateral Fund. The remaining four countries do not have projects for complete phase-out of CFC or included in the 2010-2014 business plans including Angola, Ethiopia, Somalia and Timor-Leste. The CFC TPMP for these countries will be integrated into HPMPs according to decision 60/5(d).

ANALYSIS OF COMPLIANCE FOR HALONS (Appendix II)

7. Seventy-five countries have reported no consumption of halons between 1995 and 2009.

8. Sixty-one countries have received support for halon banking activities or phase-out agreements. This includes those countries participating in regional halon banks. Halon banking is presumed to be the last funded activity in the halon consumption sector for most countries but there are some halon phase-out activities that are part of multi-sectoral phase-out agreements.

9. Countries have been grouped into the following two categories: (a) those whose latest consumption exceeds the 50 per cent reduction target of 2005 that applies until December 2009; and (b) those whose latest consumption exceeds the 2010 100 per cent phase-out target.

(a) Countries at risk of not achieving the 50 per cent baseline reduction for halons

10. All countries are in compliance with the 50 per cent halon baseline reduction target.

(b) Countries whose latest consumption exceeds the 2010 phase-out target

11. This category consists of six countries that may need to phase-out additional halons amounting to 2,164 ODP tonnes by 2010 in order to comply with the 100 per cent reduction targets. These countries have received support from the Multilateral Fund, except the Republic of Korea and the United Arab Emirates. The Republic of Korea and the United Arab Emirates have agreed not to receive funding from the Multilateral Fund.

ANALYSIS OF COMPLIANCE FOR METHYL BROMIDE (Appendix III)

12. This section presents the analysis for compliance with methyl bromide control measures. It should be noted that all data reported and used in this analysis relate to controlled use only, which means that the data exclude quarantine and pre-shipment (QPS). All of the 144 Article 5 countries that have ratified the Copenhagen Amendment have reported complete baseline data. Of these 144 countries, 57 reported zero for both the baseline consumption and the latest consumption.

13. Ninety-nine Article 5 countries have received support from the Multilateral Fund for methyl bromide activities and/or projects. This includes projects that will lead to a complete phase-out of methyl bromide in 59 of these countries, partial phase-out in an additional 10, and other forms of assistance received by 30.

14. Countries have been grouped into the following two categories: (a) those whose latest consumption exceeds the 20 per cent reduction target of 2005 that applies until December 2014; and (b) those whose latest consumption exceeds the 2015 100 per cent phase-out target. Appendix III identifies those countries that have not ratified the Copenhagen Amendment.

(a) Countries whose latest consumption exceeds the 20 per cent MB baseline reduction target

15. This category consists of only one country, Turkmenistan. This country may need to meet additional combined reduction amounting to 0.02 ODP tonnes in order to comply with the 20 per cent reduction targets. Turkmenistan has approved projects that will lead to complete phase-out of methyl bromide.

(b) Countries whose latest consumption exceeds the 2015 phase-out target

16. This category consists of 32 countries that may need to meet additional combined reduction amounting to 2,654 ODP tonnes by 2015 in order to comply with the 100 per cent reduction targets. Of the 32 countries, 23 countries have approved projects that will lead to complete phase-out of methyl bromide. Seven countries may need additional assistance from the Multilateral Fund to achieve the phase-out of methyl bromide by 2015. The remaining two countries (South Africa and Singapore) are

currently not eligible to receive funding from the Multilateral Fund. It should be noted that South Africa could receive funding for HCFC phase-out.

CARBON TETRACHLORIDE (CTC) (Appendix IV)

17. This section presents the analysis of compliance with CTC control measures. All data reported and used in this analysis are those related to controlled use only, which excludes feedstock. Reported CTC consumption was not differentiated by specific end use, such as solvents, process agents and laboratory use.

18. Of the 146 countries with reported baseline data, 90 reported zero both for the baseline and the latest consumption.

19. Countries have been grouped into the following two categories: (a) those whose latest consumption exceeds the 85 per cent reduction target that applies until December 2009; and (b) those whose latest consumption exceeds the 2010 100 per cent phase-out target. Appendix IV notes those countries that have not ratified the London Amendment.

(a) Countries whose latest consumption exceeds the 85 per cent CTC baseline reduction target

20. One country might not achieve compliance with the 85 per cent reduction: Ecuador. This country would need to phase out a total of 0.03 ODP tonnes to meet the 85 per cent reduction by 2005.

21. Ecuador is the only country that may not need additional assistance to meet the 100 per cent reduction target for CTC since its consumption is for laboratory uses.

(b) Countries whose latest consumption exceeds the 2010 phase-out target

22. This category consists of 12 countries that may need to phase out additional CTC amounting to 149.3 ODP tonnes to meet the 100 per cent reduction by 2010. Ten of the 12 countries have received funding for CTC phase-out agreements or projects from the Multilateral Fund. The Republic of Korea has agreed not to receive CTC funding from the Multilateral Fund. Ecuador may not need additional assistance to meet the 100 per cent reduction target for CTC since its consumption is for laboratory uses.

METHYL CHLOROFORM (TCA) (Appendix V)

23. This section presents the analysis for compliance with TCA control measures. Of the 146 countries that have reported baseline data, 103 reported zero both for the baseline and the latest consumption.

24. Countries have been grouped into three categories: (a) those whose latest consumption exceeds the 30 per cent reduction target that applies until December 2009; (b) those whose latest consumption exceeds the 70 per cent reduction target of 2010; and (c) those whose latest consumption exceeds the 2015 100 per cent phase-out target. Appendix V specifies those countries that have not ratified the London Amendment.

(a) Countries whose latest consumption exceeds the 30 per cent TCA baseline reduction target

25. All countries are in compliance with the 30 per cent TCA baseline reduction target.

(b) Countries whose latest consumption exceeds the 70 per cent TCA baseline reduction target

26. This category consists of two countries: Bangladesh and the Republic of Korea. These countries may need to phase out additional TCA amounting to 27.6 ODP tonnes by 2010 in order to comply with the 70 per cent reduction targets. Bangladesh has received funding for agreement or projects for complete phase-out of TCA. The Republic of Korea is not eligible for funding from the Multilateral Fund.

(c) Countries whose latest consumption exceeds the 100 per cent TCA baseline reduction target

27. This category consists of eight countries that may need to meet additional combined reduction amounting to 280.7 ODP tonnes by 2015 in order to comply with the 100 per cent reduction target. Seven of those eight countries have received funding for TCA phase-out agreements or projects from the Multilateral Fund. The remaining country (the Republic of Korea) is not eligible to receive TCA funding from the Multilateral Fund.

HCFCs (Appendix VI)

28. Appendix VI includes an analysis of the latest consumption data on HCFCs and indicates whether the country had received HPMP preparation funding, the number of investment projects approved, the number of demonstration projects approved, total phase-out approved in ODP tonnes and activities planned in the 2010 business plans. The baseline data will not be available until 2011 when both of the baseline years (2009 and 2010) will have been reported. All countries have received HPMP preparation funds. The remarks column has been modified into new columns indicating HPMPs approved to-date and those submitted to the 62nd Meeting and the duration covered by the HPMP (such as, HPMP approved to achieve the 10 per cent reduction in 2015 or to achieve the 35 per cent reduction in 2020, for example).

Annex II**COMPLETED PROJECTS**

Agency	Code	Project Title
Italy	YUG/SOL/56/INV/33	Terminal CTC phase-out project
UNEP	EQG/SEV/49/CPG/01	Project preparation for a country programme/refrigerant management plan
UNEP	SIL/FUM/47/TAS/12	Methyl bromide communication programme

ANNEX III

PROJECTS THAT ARE CLASSIFIED AS “PROGRESS”

Agency	Code	Project Title
Italy	DRC/SOL/56/INV/28	Umbrella project for terminal phase-out of ODS in the solvent sector (second phase)
UNDP	BGD/ARS/52/INV/26	Phase-out of CFC consumption in the manufacture of aerosol MDIs (Beximco, Square Pharmaceutical and Acme Pharmaceutical)
UNDP	BRA/FOA/56/TAS/285	Pilot project for validation of methyl formate as a blowing agent in the manufacture of polyurethane foam (phase I)
UNDP	MEX/FOA/56/DEM/141	Pilot project for validation of methyl formate in microcellular polyurethane applications (phase I)
UNIDO	CPR/ARS/56/INV/473	Sector plan for phase-out of CFCs consumption in MDI sector

ANNEX IV

PROJECTS THAT ARE CLASSIFIED AS “SOME PROGRESS”

Agency	Code	Project Title
Australia	ASP/SEV/50/TAS/52	Additional support for the regional strategy for 11 Article 5 countries in the Pacific (PIC strategy)
Canada	JAM/FUM/47/TAS/22	Technical assistance to phase-out the use of methyl bromide
France	AFR/SEV/53/TAS/39	African customs enforcement networks for preventing illegal trade of ODS in the African sub-regional trade organizations (CEMAC, COMESA, SACU and UEMOA)
IBRD	PHI/FUM/44/TAS/76	Technical assistance for a national methyl bromide phase-out strategy
IBRD	THA/HAL/32/INV/134	Terminal halon-1211 and halon-1301 phaseout project for fire equipment manufacturers and suppliers converting to ABC powder, CO2, HFC-227ea and inert gases
Japan	SRL/PHA/43/TAS/26	National compliance action plan: incentive programme for commercial and industrial refrigeration end-users
Japan	SRL/PHA/43/TAS/27	National compliance action plan: MAC recovery/recycling and retrofit
Japan	SRL/PHA/43/TAS/28	National compliance action plan: recovery and recycling programme
UNDP	AFR/FUM/38/TAS/32	Technical assistance for methyl bromide reductions and formulation of regional phase-out strategies for low-volume consuming countries
UNDP	CHI/REF/48/INV/160	Terminal umbrella project for phase-out of the use of CFC-11, CFC-12 and R-502 (CFC-115) in the manufacture of refrigeration equipment
UNDP	COL/PAG/48/INV/66	Phase-out of CTC as process agent in the elimination of nitrogen trichloride during chlorine production at Prodesal S.A.
UNDP	CUB/ARS/41/INV/23	Phase-out of CFC consumption in the manufacture of aerosol metered dose inhalers (MDIs)
UNDP	FIJ/FUM/47/TAS/17	Technical assistance project to install alternatives, achieve compliance and phase-out methyl bromide
UNDP	MAL/FUM/43/TAS/151	Technical assistance programme to install alternatives and phase-out all remaining non-QPS uses of methyl bromide
UNEP	CPR/SEV/43/TRA/413	Policy training for local authorities (third tranche)
UNEP	GLO/REF/48/TAS/275	Global technical assistance programme in the chiller sector
UNEP	SOM/SEV/35/TAS/01	Formulation of national phase out strategy
UNIDO	ALG/REF/44/INV/62	Conversion of CFC-11 to HCFC-141b and CFC-12 to HFC-134a technology in the last group of commercial refrigerator manufactures (refrigeration sector terminal project)
UNIDO	DOM/FUM/38/INV/33	Phase-out of methyl bromide in melon, flowers and tobacco
UNIDO	EGY/ARS/50/INV/92	Phase-out of CFC consumption in the manufacture of aerosol metered dose inhalers (MDIs)
UNIDO	OMA/HAL/46/TAS/12	Halon consumption phase-out through a technical assistance programme and a halon recycling

ANNEX V

PROJECTS THAT ARE CLASSIFIED AS “NO PROGRESS”

Agency	Code	Project Title
IBRD	ARG/REF/18/INV/39	Elimination of CFC in the manufacturing plant of domestic refrigerators of Neba, S.A.
UNEP	AFR/SEV/45/TAS/33	Sub-regional project on harmonization of legislative and regulatory mechanisms to improve monitoring and control of ODS consumption in English-speaking Africa

ANNEX VI

PROJECTS FOR WHICH ADDITIONAL STATUS REPORTS WERE REQUESTED

Agency	Code	Project Title	Reasons
Canada	CUB/PHA/45/INV/32	National ODS phase-out plan for CFCs: 2005 annual implementation plan	Additional status report to ascertain the completion of the remaining training workshops and public awareness activities.
France	IRA/HAL/28/TAS/49	Halon management programme	Additional status report addressing the possibility of transferring the project to another agency to expedite implementation.
IBRD	ANT/PHA/44/INV/10	CFC phase-out management plan	Additional status report on the resolution of the advancement of funds by the Government and the reimbursement of such funds by the Bank.
IBRD	ARG/HAL/26/TAS/80	National halon management programme to help eliminate the use of halon-1301 in new applications and to manage recovered halon-1301	Additional status report to ascertain options for the halon bank and report on the expected 2010 completion.
IBRD	IND/PRO/59/INV/435	Accelerated CFC production phase-out (first tranche)	Additional report on status of project signature by the Government to enable disbursement of approved funds by the Bank.
IBRD	TUN/PHA/49/INV/47	National ODS phase-out plan (first tranche)	Additional report on the status of disbursement
Italy	SEN/PHA/57/INV/28	Terminal phase-out management plan for CFCs (second tranche)	Additional report on the status of bidding.
UNDP	DOM/HAL/51/TAS/39	National halon bank management plan update	Additional status report to indicate if all remaining equipment has been procured.
UNDP	GUA/PHA/56/INV/35	Terminal phase-out management plan for Annex A Group I substances (first tranche)	Additional report on the status of bidding.
UNDP	LAC/REF/47/DEM/36	Demonstration project for integrated management of the centrifugal chiller sub-sector in the Caribbean, focusing on application of energy-efficient CFC-free technologies for replacement of CFC-based chillers	Additional report on the status of the chiller replacement.
UNDP	MDV/PHA/53/INV/15	Terminal phase-out management plan (first tranche)	Additional report on the status of disbursement

Agency	Code	Project Title	Reasons
UNDP	PER/PHA/55/INV/41	Terminal phase-out management plan for Annex A Group I substances (first tranche)	Additional status report to monitor the transfer of NOU activities from the Ministry of Environment to the Ministry of Production in order to expedite Fund activities in the country.
UNDP	SUR/PHA/56/INV/16	Terminal phase-out management plan for Annex A Group I substances (first tranche)	Additional report on the status of bidding.
UNEP	BDI/PHA/55/TAS/22	Terminal phase-out management plan (first tranche)	Additional report on the status of disbursement
UNEP	BOT/SEV/53/INS/10	Extension of institutional strengthening project (phase III)	Additional report on the submission of reports to enable release of funds for INS
UNEP	GUA/PHA/56/TAS/34	Terminal phase-out management plan for Annex A Group I substances (first tranche)	Additional report on the status of bidding.
UNEP	KUW/PHA/52/TAS/10	Terminal phase-out management plan for Annex A Group I substances (first tranche)	Additional status report on the status of the verification report.
UNEP	MAR/SEV/53/INS/19	Extension of the institutional strengthening project (phase III)	Additional report on the signature of the funding agreement for the project.
UNEP	MAU/PHA/53/TAS/18	Terminal phase-out management plan for CFCs (first tranche)	Additional report on the resolution of administrative issues
UNEP	MAU/SEV/57/INS/23	Renewal of the institutional strengthening project (phase V)	Additional report on the resolution of administrative issues
UNEP	MOZ/PHA/58/PRP/17	Preparation of a HCFC phase-out management plan (additional funding)	Additional report on the status of completion of survey.
UNEP	PAK/ARS/56/TAS/72	National strategy for transition to non-CFC MDIs	Additional status report due to delays from security concerns and recent flooding
UNEP	PER/PHA/55/TAS/42	Terminal phase-out management plan for Annex A Group I substances (first tranche)	Additional report on the issues related to changes in the government
UNEP	SAU/SEV/53/INS/02	Institutional strengthening (establishment of Ozone Unit)	Additional report on the submission of reports to enable release of funds for INS
UNEP	ZAM/SEV/57/INS/24	Extension of the institutional strengthening project (phase IV)	Additional report on the submission of reports to enable release of funds for INS
UNIDO	AFR/REF/48/DEM/37	Strategic demonstration project for accelerated conversion of CFC chillers in 5 African Countries (Cameroon, Egypt, Namibia, Nigeria and Sudan)	Additional report on the status of disbursement
UNIDO	ARG/PHA/47/INV/147	National CFC phase-out plan: 2006 work programme	Additional status report to address the issue of equipment being held up by Customs.

Agency	Code	Project Title	Reasons
UNIDO	ARG/PHA/50/INV/150	National CFC phase-out plan: 2007 work programme	Additional status report to address the issue of equipment being held up by Customs.
UNIDO	ARG/PHA/53/INV/152	National CFC phase-out plan: 2008 work programme	Additional status report to address the issue of equipment being held up by Customs.
UNIDO	BHE/PHA/44/INV/21	National ODS phase-out plan: second tranche	Additional status report to address the issue of equipment being held up by Customs.
UNIDO	BHE/PHA/52/INV/22	National ODS phase-out plan (third tranche)	Additional status report to address the issue of equipment being held up by Customs.
UNIDO	IND/PHA/45/INV/385	CTC phase-out plan for the consumption and production sectors: 2005 annual programme	Additional report on the status of bidding.
UNIDO	IND/PHA/49/INV/402	CTC phase-out plan for the consumption and production sectors: 2006 annual programme	Additional report on the status of bidding.
UNIDO	SYR/REF/47/DEM/93	Demonstration project on the replacement of CFC centrifugal chillers	Additional report on the status of the chiller replacement.

ANNEX VII

PROJECTS FOR WHICH ADDITIONAL STATUS REPORTS WERE REQUESTED FOR HPMP DEVELOPMENT

Agency	Code	Project Title	Reasons
IBRD	PHI/PHA/55/PRP/84	Preparation of a HCFC phase-out management plan	Additional report on the status of selection of consultants for the project.
IBRD	PHI/REF/59/PRP/88	Preparation for HCFC phase-out investment activities (domestic air-conditioning sector)	Additional report on the status of completion of survey.
IBRD	THA/PHA/55/PRP/151	Preparation of a HCFC phase-out management plan	Additional report on the status of the initiation and conduct of the survey.
UNDP	ANG/PHA/55/PRP/08	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNDP	BGD/PHA/56/PRP/29	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNDP	CUB/FOA/57/PRP/41	Preparation for HCFC phase-out investment activities (foam sector)	Additional report on the status of completion of survey.
UNDP	CUB/PHA/56/PRP/40	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNDP	CUB/REF/58/PRP/42	Preparation for HCFC phase-out investment activities (manufacturing sector)	Additional report on the status of completion of survey.
UNDP	DOM/FOA/57/PRP/44	Preparation for HCFC phase-out investment activities (foam sector)	Additional report on the status of completion of survey.
UNDP	GAM/PHA/55/PRP/20	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNDP	PAN/FOA/57/PRP/30	Preparation for HCFC phase-out investment activities (foam sector)	Additional report on the status of completion of survey.
UNDP	PAN/PHA/55/PRP/28	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNDP	PER/PHA/55/PRP/40	Preparation of a HCFC phase-out management plan	Additional status report to monitor the transfer of NOU activities from the Ministry of Environment to the Ministry of Production in order to expedite Fund activities in the country.
UNDP	TRI/PHA/55/PRP/23	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNDP	TRI/PHA/59/PRP/25	Preparation of a HCFC phase-out management plan (additional funding)	Additional report on the status of completion of survey.
UNDP	URU/PHA/55/PRP/48	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	ANT/PHA/55/PRP/12	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	BAH/PHA/55/PRP/19	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	BEN/PHA/57/PRP/21	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.

Agency	Code	Project Title	Reasons
UNEP	BGD/PHA/56/PRP/30	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	BHA/PHA/55/PRP/15	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	BRU/PHA/55/PRP/11	Preparation of a HCFC phase-out management plan	Additional report on the agreement to initiate the project preparation
UNEP	CPR/PHA/55/PRP/472	Preparation of a HCFC phase-out management plan: enabling components	Additional report on the status of completion of survey.
UNEP	DJI/PHA/55/PRP/14	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	DJI/PHA/58/PRP/16	Preparation of a HCFC phase-out management plan (additional funding)	Additional report on the status of completion of survey.
UNEP	ECU/PHA/59/PRP/44	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	EQG/PHA/56/PRP/03	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	ERI/PHA/55/PRP/07	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	ETH/PHA/56/PRP/19	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	GBS/PHA/57/PRP/12	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	GUI/PHA/56/PRP/21	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	IVC/PHA/57/PRP/30	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	MAU/PHA/55/PRP/20	Preparation of a HCFC phase-out management plan	Additional report on the status of disbursement
UNEP	MLI/PHA/55/PRP/25	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	MOZ/PHA/55/PRP/14	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	MYA/PHA/57/PRP/10	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	OMA/PHA/55/PRP/17	Preparation of a HCFC phase-out management plan	Additional report to provide missing information on HPMP development
UNEP	PRC/PHA/55/PRP/18	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	QAT/PHA/55/PRP/12	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	SAU/PHA/55/PRP/06	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	STK/PHA/56/PRP/14	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNEP	TLS/PHA/59/PRP/02	Preparation of country programme	Additional report on the status of completion of survey.
UNEP	UGA/PHA/56/PRP/14	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNIDO	BHE/PHA/55/PRP/23	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNIDO	CMR/PHA/55/PRP/30	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNIDO	CMR/PHA/58/PRP/32	Preparation of a HCFC phase-out management plan (additional funding)	Additional report on the status of completion of survey.
UNIDO	DRK/PHA/55/PRP/51	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNIDO	ECU/PHA/59/PRP/45	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.

Agency	Code	Project Title	Reasons
UNIDO	IRQ/PHA/55/PRP/04	Preparation of a HCFC phase-out management plan	Additional report on the status of completion of survey.
UNIDO	IRQ/PHA/59/PRP/11	Preparation of a HCFC phase-out management plan (additional funding)	Additional report on the status of completion of survey.
