• Any comments on the following observations:
  o Botswana and South Sudan have not established their licensing systems, and
    Libya licensing system establishment could not be confirmed by UNIDO;
  o Several countries did not include the accelerated HCFC control measures agreed
    in 2007 in their licensing and quota system;
  o Five countries appear to be in non-compliance with HCFC control measures in
    2013 based on 2013 Article 7 (A7) and/or CP data submitted;
  o One country appears to have a variance with control measures for the freeze of
    production for the year 2013 based on A7 data;
  o One country submitted its HPMPs to the 73\textsuperscript{rd} meeting (the Democratic People’s
    Republic of Korea) and five countries will submit their HPMPs (Mauritania and

    consumption under the agreement

**Action expected from the Executive Committee:** The Executive Committee may wish to consider whether to approve each of the projects listed in the table above on the basis of information provided in the relevant project proposal document including the Secretariat’s comments, and any information provided at the meeting by the Secretariat or the relevant bilateral and/or implementing agency.

Document UNEP/OzL.Pro/ExCom/73/51 contains a review of the administrative cost regime as mandated in decision 71/45(b). The document describes the functioning of the administrative cost regime adopted at its 67th meeting for the 2012-2014 triennium with respect to the core unit, other administrative costs and UNEP’s administrative costs including CAP. It provides a comparison between administrative cost regimes and the impact on the historical average administrative costs as historically assessed with alternative assessments based on expenditures against project delivery and disbursements on the basis of expenditures against number of project under implementation. It further considers administrative costs using the methodology developed under a previous independent assessment of administrative costs by PricewaterhouseCoopers and a methodology proposed by UNEP to account for administrative costs in the CAP budget. It also provides options for the review of administrative costs at the last meeting of 2017.

**Issues to be addressed:**

- Increase in the historic average administrative costs for the 2012-2014 under all alternative scenarios that would have been a reduction if all projects in the business plan had been submitted in 2014;
• Whether to maintain the administrative cost regime adopted at the 71st meeting for the 2015-2017 triennium; and
• Whether the Secretariat, an independent consultant, or a consulting accounting firm should conduct the next review of the administrative cost regime.

Action expected from the Executive Committee: The Executive Committee may wish

(a) Noting the document on the review of the administrative cost regime for the 2015-2017 triennium (decision 71/45) as presented in document UNEP/OzL.Pro/ExCom/73/51;

(b) Requesting the Secretariat, in cooperation with the implementing agencies, to further consider reporting for core unit and administrative costs and possible format changes, in a paper to be presented to the 74th meeting, for application in future annual reviews of such costs;

(c) Whether to continue to apply the existing administrative cost regime for the bilateral and implementing agencies during the 2015–2017 triennium; and

(d) Requesting a review of the administrative cost regime and its core unit funding budget at the last meeting of the 2015–2017 triennium according to one of the options mentioned in paragraph 15 of document UNEP/OzL.Pro/ExCom/73/51.

10. Disbursement of funds for the HCFC phase-out management plan for China (decision 72/38)

Document UNEP/OzL.Pro/ExCom/73/52 addresses to information provided by the implementing agencies with respect to the advantages and disadvantages of each of the options taking into account the specifics of the projects under the responsibility of the agencies for the HPMP for China per decision 72/38.

Issues to be addressed:

• Need for implementing agencies to monitor the disbursement of funds during stage I; and
• Need for a description of the disbursement modality related milestones for stage II of the HPMP.

Action expected from the Executive Committee: The Executive Committee may wish:

(a) To note:

(i) The report on disbursement of funds for the HCFC phase-out management plan (HPMP) for China (decision 72/38) as contained in document UNEP/OzL.Pro/ExCom/73/52;

(b) To request implementing agencies:

(i) To continue monitoring the disbursement of the approved funds during stage I of the HPMP for China; and

(ii) To include, at the time of the submission of stage II of the HPMP for China for consideration by the Executive Committee, their respective disbursement modality agreed with the Government of China along with the specific milestones in order to allow the disbursement of funds to the Government of China closer to the time when they would be needed.

The document concludes with the draft criteria for funding HCFC phase-out in the consumption sector for stage II of HPMPs updated with the additional information submitted by Executive Committee members.

**Issues to be addressed:**

- Criteria for funding of HCFC phase-out in the consumption sector for stage II HPMPs.

**Action expected from the Executive Committee:** The Executive Committee may wish to adopt the draft revised criteria for funding HCFC phase-out in the consumption sector for stage II of HCFC phase-out management plans as contained in document UNEP/OzL.Pro/ExCom/73/53.

To request the Treasurer to record in the 2014 accounts of the Multilateral Fund the differences between the implementing agencies’ provisional 2013 financial accounts and final 2013 accounts as reflected in Tables 1 and 2 of document UNEP/OzL.Pro/ExCom/73/55.

(ii) To record the decrease in expenditure in the amount of US $157,470 between UNDP’s provisional and final financial statements in 2014;

(iii) To withhold from its future transfers to UNIDO an amount of US $17,064 representing an additional interest income reported by UNIDO in its provisional statements but not in its final statements, and to reflect this amount as a prior year adjustment in UNIDO’s 2014 accounts;

(d) To note the 2013 outstanding reconciling items as follows:

(i) US $16 in income and US $57 in expenditure between UNIDO’s progress report and final accounts;
(ii) US $322,396 in income and US $1,578 in expenditure between UNEP’s progress report and final accounts; and

(iii) US $8 in income between the World Bank’s progress report and final accounts;

(e) To note the standing reconciling items as follows:

(i) UNDP for unspecified projects at the amounts of US $68,300 and US $29,054; and

b. Thailand chiller project (THA/REF/26/INV/104) at the amount of US $1,198,946;

c. Japan bilateral (THA/PHA/68/TAS/158) at the amount of US $342,350, which is a new item;

d. Sweden bilateral (THA/HAL/29/TAS/120) at the amount of US $225,985;

e. United States of America bilateral (CPR/PRO/44/INV/425) at the amount of US $5,375,000; and

f. United States of America bilateral (CPR/PRO/47/INV/439) at the amount of US $5,375,000.

(c) **Fund transfers from the Treasurer to the implementing agencies (decision 72/42(b)(ii) and (iii))**

Document UNEP/OzL.Pro/ExCom/73/57 presents the Treasurer’s report pursuant to decision 72/42. The document contains an historical background; discussions of the relevant agreements; the accumulation of a surplus; pros and cons of full or partial transfer of funds to the implementation agencies; UNEP-wide standard on cash advances and the 20 per cent disbursement threshold for tranches; investment policies of the implementing agencies; a review of interest earnings; and recommendations.

**Issues to be addressed:**

- Average surplus fund balance was often 2:1;
- Relationship between 20 per cent disbursement threshold and the UNEP-wide standard cash advance;
- Advantages and disadvantages of partial fund transfer instead of the current mechanism of full fund transfer in advance after approval; and
- Review of any change in the fund transfer mechanism after a two-year trial period.

**Action expected from the Executive Committee:** The Executive Committee may wish to:

(a) Note the report on Fund Transfers from the Treasurer to the Implementing Agencies (decision 72/42(b)(ii) and (iii)) contained in document UNEP/OzL.Pro/ExCom/73/57;
To commend and encourage the Secretariat to continue with its constant quest for ensuring that all possible measures of efficiently using the funds of the Multilateral Fund are deployed at all times as this contributes a lot to maximizing the achievements of the Multilateral Fund;

To review the advantages and disadvantages of either the transferring full funds to the implementing agencies for the approvals it grants or the transferring to the implementing agencies partial funds based on their periodic needs and decide which option it wishes to go forward with;

To consider, in case the Executive Committee decides to move ahead with the partial transfer of funds as serving the interests of the Multilateral Fund best, introducing it for an initial period of say two years and at the end of which an evaluation on its feasibility of going on with it would be made for its decision;

To note that interest earnings are a product of the implementing agencies prudence in their management of the resources of the Multilateral Fund and that higher realizations tend to be during the times the global investment returns are good;

To note the lack of comparable relationship between the 20 per cent disbursement threshold for HPMP tranches and the UNEP-wide standard cash advance guidance except for the underlying intention of both being intended to prudently manage the resources for projects implementation. But the UNEP guidance is targeted to specifically project activities by executing agencies and not to implementing agencies managing a portfolio of projects; and

To note that although there have also been other times when the Multilateral Fund experienced high ratios of 3:1 and above, of the surplus fund balance relative to the expenditures in the year, for a lot more years the average of this ratio averaged at about 2:1.

Document UNEP/OzL.Pro/ExCom/73/58 contains the approved 2014, 2015 and 2016 and proposed 2017 budgets of the Fund Secretariat submitted for consideration by the Executive Committee at its 73rd meeting. - Whether to continue to hold two Executive Committee meetings in 2015 and beyond with the conditions set out in the recommendation.
