SECTION A: NON-INVESTMENT PROJECT PROPOSALS

- **Replace** paragraph 5 **with** the following paragraphs:

5. Subsequent to the issuance of document UNEP/OzL.Pro/ExCom/36/18/Add.1, the Government of Germany advised the Secretariat that the project was only for the replacement of 15 tonnes of CFCs used in the production of aerosol antibiotics and veterinary sprays and not for the production of MDIs. Furthermore, the CFC-based MDIs production line (with an estimated consumption of 10 tonnes of CFCs) was recently bought by a transnational corporation; the conversion to non-CFC MDIs will be met by the parent company directly, with no assistance from the Multilateral Fund.

5(bis) The Fund Secretariat recommends blanket approval of the above project at US \$16,500 with the associated support costs of US \$2,145, and the Treasurer should offset these amounts against Germany's 2002 contribution to the Multilateral Fund.

- **Add** paragraph 15(bis):

15(bis) The Executive Committee may wish to take note that the funds approved at the 21st Meeting of the Executive Committee for the preparation of the RMP for Papua New Guinea were utilised for the preparation of the RMP for Western Samoa because Papua New Guinea had difficulties in proceeding with the preparation of its RMP project.

- **Replace** paragraph 24 **with** the following paragraph:

24. The Government of Germany withdrew this request.
