EXECUTIVE COMMITTEE OF
THE MULTILATERAL FUND FOR THE
IMPLEMENTATION OF THE MONTREAL PROTOCOL
Thirty-seventh Meeting
Montreal, 17-19 July 2002

Addendum

PROJECT PROPOSALS: IRAN

This addendum is issued to report agreements reached with the bilateral and implementing agencies on outstanding projects:

Foam Sector

Integral Skin Foam

Add, on page 6, paragraph 13(bis).

13(bis). The Government of Germany subsequently conveyed its agreement with the calculated costs to the Secretariat.

Rigid Foam

Add, on page 7, the following paragraph 17(bis).

17(bis) UNIDO subsequently communicated to the Secretariat information which indicated additional purchases of chemicals (polyol and MDI) in the same year which were consistent with the formulation indicated in the project document. UNIDO also indicated that the term TDI (toluene diisocyanate) used in its communication was an error as further verification of information available to it confirmed that the company used MDI (methyline diisocyanate) instead of TDI. Therefore all references to TDI in the document should be changed to MDI (T370). The Secretariat and UNIDO thus agreed on the eligible grant of the project as US $531,838.

RECOMMENDATIONS

Add, on page 7, paragraph 18 line 2, after “Nikou Esfandj” the following enterprise names: Phira Khodro, Sanayeh and Yakhchavan.

Add, on page 7, the following information.

<td>75,835</td>
<td>UNIDO</td>
</tr>
</tbody>
</table>

Add the following paragraphs 19-21.

19. The total amount of US $1,025,313 for the four projects for bilateral cooperation should be credited against the contribution of the Government of Germany for the triennium 2000-2002.

20. The total of 157.38 ODP tonnes to be phased out by the five projects should be deducted from Iran’s remaining national aggregate consumption.

21. To note for correction in the Secretariat’s database that the project for Phira Khodro has been approved as a rigid polyurethane foam project instead of integral skin polyurethane foam as originally presented.
