Agenda item 11 (b): Preliminary discussion paper providing analysis on all relevant cost considerations surrounding the financing of HCFC phase-out (decision 53/37 (i))

- Add the following under Issues to be addressed:

  The Executive Committee might wish to consider in particular the following issues at this or future meetings:

  - Funding pilot/demonstration projects;
  - Incremental operating costs (IOC) and factors that influence their determination;
• Selection of environmental indicators and potential incentives for
  minimizing environmental impacts of alternatives;
• Cost effectiveness thresholds in the foam sector;
• New system house approaches in the foam sector;
• Access to possible co-funding;

Add the following under Action expected from the Executive Committee:

The Executive Committee may wish to include these items as part of the priority issues to be considered in its preliminary discussions:

(a) Incremental operating costs (IOC) and factors that influence its determination including the duration for payment of IOC, chemical prices and modalities for establishing their levels in a reliable manner;

(b) Replacement of manufacturing equipment to accommodate for the alternative technology well before the end of its useful life;

(c) Environmental indicators and potential incentives to promote the selection of alternatives to HCFCs that minimize environmental impacts, in particular impacts on climate. In the short-term, priority could be given to activities phasing-out HCFCs with the highest ODP values to adopting alternatives with a low GWP when feasible or with other environmental benefits such as energy efficiency;

(d) Other issues:
   (i) Outstanding issues from decision XIX/6, in particular the cut-off date for newly established manufacturing enterprises and the eligibility of second conversions; and
   (ii) Issues related to co-financing.

Agenda item 15: Revised staffing structure for the Secretariat (decision 53/43 (d))

Replace “Pending” with the following:

Document UNEP/OzL.Pro/ExCom/54/58 presents a revision of the 2008, 2009 and 2010 budgets which were approved by decision 53/43(a) at the 53rd Meeting. This revision is in line with decision 53/43(e) where the request from the Secretariat regarding flexibility to revert to the Committee during 2008 with a revised staffing structure was noted. The intention of the revised structure is to ensure that the Secretariat can continue to support the Committee’s requirements and mandate in a most efficient and cost effective manner.

Issues to be addressed: Additional cost to the Secretariat’s budget in order to address the necessary revision of the current structure of the Secretariat.

Action requested from the Executive Committee: The Executive Committee is invited to:

(a) Approve the upgrading of one Deputy Chief Officer post from P5 to D1;
(b) Approve a new P3 post and downgrade one post from P5 to P3;

(c) Upgrade the post of the Associate Executive Assistant from P2 to P3;

(d) Approve three new G6 posts;
