UNEP 1996 Work Programme

35. UNEP has included in its 1996 Work Programme a proposal for US \$109,800 to prepare an inventory and assessment of non-ODS technologies. The activity is not in UNEP's 1996 Business Plan, and is related to Decision VII/22 of the Parties. The form of UNEP's involvement will be discussed under Agenda Item 17, Terms of Reference for the Study on Technology Transfer. The Executive Committee may wish to consider whether the activity should be covered from within UNEP's global allocation for core activities, which includes information collection and dissemination. The Fund Secretariat considers this may be the case, and has recommended against approval of the additional funding in UNEP's 1996 Work Programme.
