Dr Omar E El-Arini
Chief Officer
Interim Multilateral Fund for the
Implementation of the Montreal Protocol
1800 McGill College Avenue, 27th Floor
Montreal, Quebec
Canada, H3A 3J6

Sehr geehrter Herr El-Arini,

The International Conference on "Alternatives to CFCs and Halons
Technologies and Substances", held from 24 - 26 February 1992 in
Berlin, was organised by the Federal Minister for the Environment,
Nature Conservation and Nuclear Safety.

This conference has succeeded for the first time in creating a forum
in Europe for identifying the possibilities for substitute substances
and methods which will contribute to the accelerated substitution of
ozone-depleting substances. In addition to the presentation of statu-
ry provisions and political evaluations from the angle of the various
individual countries, reports were also presented on the most recent
findings on ozone depletion in the stratosphere and the current state
of the art in terms of international programmes to assess the ecolo-
gical and toxicological properties of the substitutes.

The German Government provided financial support for delegates from
developing countries. Please find enclosed a list of financial support
of about US \$ 18,378.48

The German Government would like to utilize this contribution as

bilateral assistance for Article 5 (1) countries of its 1992 multilateral fund contribution.

Therefore the German Government requests that the bilateral contribution of US \$ 18,378.48 be credited against its 1992 multilateral fund contribution.

Yours sincerely

For the Federal Ministry for the Environment,
Nature Conservation and Nuclear Safety

Ines Schusdzianka
