¹ When reporting blends/mixtures, reporting of controlled substances should not be duplicated. For the CP report, countries should report use of individual controlled substances and quantities of blends/mixtures used, separately, while ensuring that the amounts of controlled substances are not reported more than once.

² If a non-standard blend not listed in the above table is used, please indicate the percentage of each constituent controlled substance of the blend being reported in the remarks column.

³ Uses in other sectors that do not fall specifically within the listed sectors in the table.

⁴ Provide explanation if total sector use and consumption (import-export+production) is different (e.g. stockpiling).

⁵ If break-down of consumption in manufacturing is not available, information in total can be provided.
