

Annex XV

AGREED CONDITIONS TO PHASE OUT METHYL BROMIDE IN CAMEROON

1. The Executive Committee agrees to approve in principle US \$259,713 as the total funds that will be available to achieve commitments stipulated in this document for the complete phase-out of the controlled uses of use of methyl bromide in Cameroon, excluding quarantine and pre-shipment applications, subject to the following understandings and considerations.
2. As reported to the Ozone Secretariat, the methyl bromide baseline for compliance for Cameroon is 18.1 ODP tonnes; the 2005 methyl bromide consumption was 9.7 ODP tonnes. Accordingly, Cameroon has achieved compliance with the Montreal Protocol's 2002 freeze obligation and it is in compliance with the Protocol's 20 per cent reduction in 2005.
3. Reductions in accordance with the terms of the above-mentioned project and other commitments presented in the project document will ensure that Cameroon meets the reduction schedule presented below. In this regard, Cameroon will reduce the national consumption of controlled uses of methyl bromide to no more than the following levels of consumption in the years listed below:

Year	(ODP tonnes)	
	Amount to be phased out	Remaining consumption*
2007	0.0	14.5
2008	0.0	14.5
2009	9.0	5.5
2010	5.5	0.0
Total	14.5	

* Controlled uses of methyl bromide.

4. Cameroon commits to permanently sustaining the consumption levels indicated above through the use of import restrictions and other policies it may deem necessary.
5. The Government of Cameroon has reviewed the consumption data identified in the grain fumigation project and is confident that it is correct. Accordingly, the Government is entering into this agreement with the Executive Committee on the understanding that, should additional methyl bromide consumption for controlled uses be identified at a later date, the responsibility to ensure its phase-out will lie solely with the Government.
6. The Government of Cameroon, in agreement with UNIDO on behalf of the Government of Italy, will have flexibility in organizing and implementing the projects' components that it deems more important in order to meet the methyl bromide phase-out commitments noted above. UNIDO agrees to manage the funding for the project in a manner designed to ensure the achievement of the specific methyl bromide reductions agreed upon.
7. UNIDO shall report back annually to the Executive Committee on the progress achieved in meeting the methyl bromide reductions required in the commodity fumigation sector, as well as on annual costs related to the use of the alternative technologies selected and the inputs purchased with the project funds.
