UNEP

Multilateral Fund for the Implementation of the Montreal Protocol

POLICIES, PROCEDURES, GUIDELINES AND CRITERIA

(As at January 2026)

INTRODUCTION

The Multilateral Fund Secretariat

This compendium contains the policies, procedures, guidelines and criteria of the Financial Mechanism under the Montreal Protocol on Substances that Deplete the Ozone Layer as established by the Meetings of the Parties under the Montreal Protocol and elaborated by the Executive Committee of the Multilateral Fund in accordance with its terms of reference.

The policies, procedures, guidelines or criteria in each section are grouped by subject area. Text provided for each entry is quoted from either the final report of a Meeting of the Parties or a meeting of the Executive Committee at which the entry was adopted. The number of either the Meeting of the Parties, or the Meeting of the Executive Committee at which the policy, procedure, guideline or criteria was considered and adopted, is indicated along with the reference document. A list of supporting documents, if any, is also provided for entries, mainly related to procedures and guidelines. These are presented in small italic characters.

The Report is divided into eleven chapters:

I. Financial Mechanism
II. Executive Committee
III. Fund Secretariat
IV. Bilateral Cooperation
V. Implementing Agencies
VI. Article 5 Parties
VII. Controlled Substances
VIII. Country Programmes
IX. Project Proposals
X. Institutional Strengthening
XI. Monitoring and Evaluation

From the Nineteenth Meeting of the Executive Committee onwards (May 1996), this compendium has included every decision of the Executive Committee and the Meetings of the Parties that establishes policies, procedures, guidelines or criteria that could have an impact on the future operation of the Fund. That is, all relevant decisions are listed other than those relating to approval of funding for specific projects or activities.

Thus, the compendium is both a reference document on the policies, procedures, guidelines and criteria of the Multilateral Fund and a record of related decisions of the Executive Committee. The compendium is updated, in full, after each meeting of the Executive Committee.

The list of dates and venues of the Meetings of the Parties to the Montreal Protocol and the Executive Committee of the Multilateral Fund is presented below.

Note: Some countries have changed their name after the decisions by the Meeting of the Parties and the Executive Committee were adopted. This document does not change the name in the original text of decisions.

I. Meetings of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer

First	Helsinki	02-05 May 1989
Second	London	27-29 June 1990
Third	Nairobi	19-21 June 1991
Fourth	Copenhagen	23-25 November 1992
Fifth	Bangkok	17-19 November 1993
Sixth	Nairobi	3-7 October 1994
Seventh	Vienna	5-7 December 1995
Eighth	San Jose	25-27 November 1996
Ninth	Montreal	15-17 September 1997
Tenth	Cairo	23-24 November 1998
Eleventh	Beijing	29 November-3 December 1999
Twelfth	Ouagadougou	11-14 December 2000
Thirteenth	Colombo	16-19 October 2001
Fourteenth	Rome	25-29 November 2002
Fifteenth	Nairobi	10-14 November 2003
First Extraordinary	Montreal	24-26 March 2004
Sixteenth	Prague	22-26 November 2004
Second Extraordinary	Montreal	1 July 2005
Seventeenth	Dakar	12-16 December 2005
Eighteenth	New Delhi	30 October–3 November 2006
Nineteenth	Montreal	17-21 September 2007
Twentieth	Doha	16-20 November 2008
Twenty-first	Port Ghalib	4-8 November 2009
Twenty-second	Bangkok	8-12 November 2010
Twenty-third	Bali	21-25 November 2011
Twenty-fourth	Geneva	12-16 November 2012
Twenty-fifth	Bangkok	21-25 October 2013
Twenty-sixth	Paris	17-21 November 2014
Twenty-seventh	Dubai	1-5 November 2015
Third Extraordinary	Vienna	22-23 July 2016
Twenty-eighth	Kigali	10-15 October 2016
Twenty-ninth	Montreal	20-24 November 2017
Thirtieth	Quito	5-9 November 2018
Thirty-first	Rome	4-8 November 2019
Thirty-second	Virtual	23-27 November 2020
Fourth Extraordinary	Virtual	21 May 2021
Thirty-third	Virtual	23-29 October 2021
Fifth Extraordinary	Bangkok	16 July 2022
Thirty-fourth	Montreal	31 October-4 November 2022
Thirty-fifth	Nairobi	23-27 October 2023
Thirty-sixth	Bangkok	28 October-1 November 2024
Thirty-seventh	Nairobi	3-7 November 2025

II. Meetings of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol

First	Montreal	19-21 September 1990
Second	Montreal	17-19 December 1990
Third	Montreal	15-19 April 1991
Fourth	Nairobi	17-18 June 1991

Fifth	Montreal	18-22 November 1991
Sixth	Montreal	27-28 February 1992
Seventh	Montreal	23-26 June 1992
Eighth	Montreal	19-21 October 1992
Ninth	Montreal	08-10 March 1993
Tenth	Montreal	28 June-01 July 1993
Eleventh	Bangkok	10-12 November 1993
Twelfth	Montreal	28-31 March 1994
Thirteenth	Montreal	25-27 July 1994
Fourteenth	Nairobi	29-30 September 1994
Fifteenth	Montreal	13-16 December 1994
Sixteenth	Montreal	15-17 March 1995
Seventeenth	Montreal	26-28 July 1995
Eighteenth	Vienna	22-24 November 1995
Nineteenth	Montreal	8-10 May 1996
Twentieth	Montreal	16-18 October 1996
Twenty-first	Montreal	18-20 February 1997
Twenty-second	Nairobi	28-30 May 1997
Twenty-third	Montreal	12-14 November 1997
Twenty-fourth	Montreal	25-27 March 1998
Twenty-fifth	Montreal	29-31 July 1998
Twenty-sixth	Cairo	11-13 November 1998
Twenty-seventh	Montreal	24-26 March 1999
Twenty-eighth	Montreal	14-16 July 1999
Twenty-ninth	Beijing	24-26 November1999
Thirtieth	Montreal	29-31 March 2000
Thirty-first	Geneva	5-7 July 2000
Thirty-second	Ouagadougou	6-8 December 2000
Thirty-third	Montreal	28-30 March 2001
Thirty-fourth	Montreal	18-20 July 2001
Thirty-fifth	Montreal	5-7 December 2001
Thirty-sixth	Montreal	20-22 March 2002
Thirty-seventh	Montreal	17-19 July 2002
Thirty-eighth	Rome	20-22 November 2002
Thirty-ninth	Montreal	2-4 April 2003
Fortieth	Montreal	16-18 July 2003
Forty-first	Montreal	17-19 December 2003
Forty-second	Montreal	29 March-2 April 2004
Forty-third	Geneva	5-9 July 2004
Forty-fourth	Prague	29 November 3 December 2004
Forty-fifth	Montreal	4-8 April 2005
Forty-sixth	Montreal	4-8 July 2005
Forty-seventh	Montreal	21-25 November 2005
Forty-eighth	Montreal	3-7 April 2006
Forty-ninth	Montreal	10-14 July 2006

International Bank for Reconstruction and Development as Trustee of the Ozone Projects Trust Fund 153
Annex I.11: Agreement between the Government of Canada and the Multilateral Fund for the Implementation of the 1987 Montreal Protocol regulating matters resulting from the establishment in Canada of the Multilateral Fund and its Organs 157
Annex I.12: Arrears to the Multilateral Fund from countries that had not ratified the London Amendment 163
Annex I.13: Framework on the objective, priorities, problems and modalities for strategic planning of the Multilateral Fund in the compliance period 165
Annex I.14: Changes requested by the Executive Committee on the report in respect of the review referred to in Paragraph 8 of Article 5 167

I. FINANCIAL MECHANISM

INTERIM FINANCIAL MECHANISM

The Parties to the Montreal Protocol at their Second Meeting decided to establish for the three-year period from 1 January 1991 to 31 December 1993 or until such time as the Financial Mechanism is established, an Interim Financial Mechanism according to the following:

1. The Interim Financial Mechanism is established for the purposes of providing financial and technical cooperation, including the transfer of technologies, to Parties operating under paragraph 1 of Article 5 of the Montreal Protocol to enable their compliance with the control measures set out in Articles 2A to 2E of the Protocol. The Mechanism, contributions to which shall be additional to other financial transfers to Parties operating under that paragraph, shall meet all agreed incremental costs of such Parties, in order to enable their compliance with the control measures of the Protocol. An indicative list of the categories of incremental costs is attached as Appendix I to this decision.
2. The Mechanism established under paragraph 1 shall include a Multilateral Fund. It may also include other means of multilateral, regional and bilateral cooperation. The Executive Committee requested the Secretariat of the Vienna Convention and its Montreal Protocol to continue providing secretarial services to the Multilateral Fund. All expenses related to these services will at a later stage be charged to the Multilateral Fund.

(UNEP/OzL.Pro.2/3 ,Decision II/8, paras. 1 and 2).

The Executive Committee requested the Executive Director of UNEP to secure the approval of the Secretary-General of the United Nations to establishing the Interim Multilateral Ozone Fund in accordance with the financial rules and regulations of the United Nations and to its administration by the Executive Director of UNEP. The account established with UNEP would receive contributions to the Interim Multilateral Ozone Fund and would make transfers from it according to directions provided by the Executive Committee.

(UNEP/OzL.Pro.ExCom.1/2 , para. 13).

The Executive Committee requested the Secretariat of the Vienna Convention and its Montreal Protocol to continue providing secretarial services to the Multilateral Fund. All expenses related to these services will at a later stage be charged to the Multilateral Fund.

(UNEP/OzL.Pro.ExCom.1/2 , para. 25).

The Interim Multilateral Fund for the Implementation of the Montreal Protocol was established on 1 January 1991 and operated until December 1992.

FINANCIAL MECHANISM

The Fourth Meeting of the Parties established the Financial Mechanism, including the Multilateral Fund provided for in Article 10 of the Montreal Protocol as amended at the Second Meeting of the Parties. The Parties decided that any resources remaining in the Interim Multilateral Fund shall be transferred to the Multilateral Fund. The Parties adopted the terms of reference of the Multilateral Fund and of the Executive Committee which should continue to operate under the agreements, procedures and guidelines applicable to the Interim Multilateral Fund.

(UNEP/OzL.Pro/4/15 Decision IV/18 (sections I.1, I.2, I.5, I.7).
(Supporting document:UNEP/OzL.Pro/4/15 Annexes IX, X).

The Seventh Meeting of the Parties requested the Executive Committee to consider innovative mobilization of existing and additional resources in support of Protocol objectives and any further action by the end of 1996 and to report thereon to the Eighth Meeting of the Parties; and that the actions set out in Annex I.1 should be taken to improve the functioning of the Financial Mechanism.

(UNEP/OzL.Pro.7/12 Decision VII/22).

The Eighth Meeting of the Parties requested the Executive Committee to move forward as expeditiously as possible on decision VII/22, and in particular Actions 5, 6, 10, 11, 14 and 21, and to report back to the Ninth Meeting of the Parties.

(UNEP/OzL.Pro.8/12, Decision VIII/5).

The Eighth Meeting of the Parties decided:

1. to note with appreciation the measures taken by the Executive Committee to improve the Financial

Mechanism;

2. to request the Executive Committee to continue with further actions to implement decision VII/22 to improve the Financial Mechanism and report to the Meetings of the Parties annually.

(UNEP/OzL.Pro.8/12, Decision VIII/7, para. 1 and 2).

The Twenty-first Meeting of the Executive Committee, having considered the report on actions to improve the functioning of the Financial Mechanism (UNEP/OzL.Pro/ExCom/21/33), which had been prepared in response to decision VIII/5 of the Eighth Meeting of the Parties, decided:

(a) that the report should be forwarded to the Open-ended Working of the Parties at its fifteenth meeting, with the amendments agreed to by the Executive Committee at its Twenty-first Meeting;

(b) that, at its Twenty-second Meeting, the Executive Committee should hold a substantive discussion on measures to be taken to move forward on the actions referred to in decision VIII/5 of the Eighth Meeting of the Parties to the Montreal Protocol.

(UNEP/OzL.Pro/ExCom/21/36, Decision 21/38, para. 54).
(Supporting document: UNEP/OzL.Pro/ExCom/21/33).

The Twenty-second Meeting of the Executive Committee decided:

(a) to defer to its Twenty-third Meeting the substantive discussion, called for by its Decision 21/38, on measures to be taken to move forward on the actions referred to in decision VIII/5 of the Eighth Meeting of the Parties, expressing the hope that the subject could be taken up early in the meeting;

(b) to agree that its report on actions to improve the functioning of the Financial Mechanism to forwarded to the Open-Ended Working Group of the Parties at its Fifteenth Meeting, would first be reviewed on its behalf by the Chairman, the Vice-Chairman and the representatives of India and the United States.

(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/73, para. 104).

The Twenty-third Meeting of the Executive Committee decided:

(a) to examine the subject again at a subsequent meeting (i.e., actions to improve the Financial Mechanism), in time for a report to be submitted to the Tenth Meeting of the Parties;

(b) to request the World Bank to submit the concessional financing study to the Executive Committee at its Twenty-fourth Meeting.

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/49, para. 87).

The Tenth Meeting of the Parties decided:

1. to note with appreciation the work and the report of the Executive Committee on the measures taken to improve the Financial Mechanism and technology transfer and on its excellent functioning in 1998;

2. to request the Executive Committee to report annually to the Meetings of the Parties on the operation of the Financial Mechanism and the measures taken to improve the operation.

(UNEP/OzL.Pro.10/9, Decision X/31).

Study to evaluate the Financial Mechanism of the Multilateral Fund

The Thirteenth Meeting of the Parties decided:

1. to evaluate and review, by 2004, the financial mechanism established by Article 10 of the Montreal Protocol with a view to ensuring its consistent, effective functioning in meeting the needs of Article 5 Parties and non-Article 5 Parties in accordance with Article 10 of the Protocol, and to launch a process for an external, independent study in that regard which shall be made available to the 16th Meeting of the Parties;

2. that the study shall focus on the management of the financial mechanism of the Montreal Protocol;

3. that the terms of reference and modalities of the study shall be submitted to the 15th Meeting of the Parties;

4. to consider the necessity to launch such an evaluation on a periodic basis;

5. to request the existing evaluation mechanism in place within the United Nations system to provide the Meeting of the Parties, for its consideration, with any relevant findings on the management of the financial mechanism of the Montreal Protocol at any time such findings are available.

(UNEP/OzL.Pro/13/10, Decision XIII/3).

The Fortieth Meeting of the Executive Committee decided:

(a) to note the comments of the Executive Secretary of the Ozone Secretariat (i.e., Decision VI/6 had provided for the Ozone Secretariat to fund the first such study and that a similar proposal would be considered at the next Meeting of the Parties); and

(b) to set aside US $500,000 from the funds returned by the Implementing Agencies at the 40th Meeting of the Executive Committee pending a decision by the 15th Meeting of the Parties on how to fund a study to evaluate the financial mechanism of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/56, para. 112).

The Fifteenth Meeting of the Parties decided:

1. to approve the terms of reference of the study on the management of the financial mechanism of the Montreal Protocol, contained in annex I.2 to the present report;
2. to set up a steering panel of six members to supervise the evaluation process and to select a consultant or consultants to carry out the study, to act as a point of contact for the consultant or consultants during the course of the study and to ensure that the terms of reference are implemented in the most appropriate manner possible;
3. to select the following six members to serve as the steering panel from among the Parties to the Montreal Protocol: Algeria, Colombia, France, Japan, Syrian Arab Republic and the United States of America. The appointed panel has equal representation of individuals selected by Parties operating under Article 5 of the Montreal Protocol and Parties not so operating;
4. to request the Ozone Secretariat to finalize the procedure for the selection of the qualified external and independent consultant or consultants. On the basis of submitted proposals, the Secretariat shall prepare a short list of qualified bidders and facilitate review of relevant proposals by the steering panel;
5. to instruct the steering panel to organize its meetings with the assistance of the Ozone Secretariat with dates and venues selected, as far as possible, to coincide with other ozone meetings, thereby reducing the related costs;
6. to approve the provision of up to $500,000 in the 2004 budget of the Trust Fund for the Montreal Protocol to fund the study;
7. to ensure that the final report and recommendations are made available to Parties for consideration at the Sixteenth Meeting of the Parties.

(UNEP/OzL.Pro.15/9, Decision XV/47).

The Fifteenth Meeting of the Parties decided to approve the budget for the Trust Fund of the Montreal Protocol in the amount of $5,185,353 for 2004, which includes the following:

(a) a provision in the amount of $500,000 to enable the Ozone Secretariat to facilitate the review of the financial mechanism as provided in decision XIII/3 and decision XV/47;

(b) a provision of $596,000 for the extraordinary Meeting of the Parties, including funds for the attendance of members and experts of the Methyl Bromide Technical Options Committee to its special meeting as called for in decision XV/56.

(UNEP/OzL.Pro.15/9, Decision XV/52, para.3).

The Forty-first Meeting of the Executive Committee decided to request the Treasurer to cancel the set-aside of US $500,000 for the study on the evaluation of the financial mechanism in the light of Decision XV/52 of the Fifteenth Meeting of the Parties.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/9, para. 40(b)).

The Sixteenth Meeting of the Parties decided:

1. to request the Executive Committee of the Multilateral Fund, within its mandate, to consider the report on the 2004 evaluation and review of the financial mechanism of the Montreal Protocol, with a view to adopting its recommendations, whenever appropriate, in the process of continuous improvement of the management of the Multilateral Fund, and having in mind the need to contribute to the assessment by the Technology and Economic Assessment Panel of the 2006–2008 replenishment of the Multilateral Fund;
2. to request the Executive Committee regularly to report back to and seek guidance from the Parties on the

subject. To this effect, the Executive Committee shall submit a preliminary assessment to the Open-ended Working Group at its twenty-fifth meeting and include a component in its annual report to the Meeting of the Parties, on progress made and issues encountered in its consideration of the recommended actions contained in the executive summary of the evaluation report.

(UNEP/OzL.Pro.16/17, Decision XVI/36).

The Forty-fourth Meeting of the Executive Committee decided:

(a) to request the Secretariat to invite Executive Committee members, bilateral and Implementing Agencies, and the Treasurer to provide comments and to complete the column entitled "recommended action" in the table contained in Annex I.3 to the present report, to compile the comments received, and to prepare a document for the 45th Meeting of the Executive Committee;

(b) to invite Executive Committee members wishing to do so to provide comments on contributions for the assessment by the Technology and Economic Assessment Panel of the 2006-2008 replenishment of the Multilateral Fund;

(c) to convene a contact group to meet during the 45th Meeting of the Executive Committee in order to draft a preliminary assessment report on the recommendations in the 2004 evaluation and review of the financial mechanism of the Montreal Protocol for the 25th Meeting of the Open-ended Working Group, based on the document prepared by the Secretariat; and

(d) to consider the preliminary assessment report at the 45th Meeting.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/60, para.251).

The Forty-fifth Meeting of the Executive Committee decided:

(a) to note the report contained in documents UNEP/OzL.Pro/ExCom/45/51 and Add.1;

(b) to reclassify pre-session meeting documentation as General Distribution from the 46th Meeting onwards in the languages produced for the meetings, while restricting access to any project documents that a Party requested to be classified as such until the Executive Committee's consideration of the matter;

(c) to consider at its 46th Meeting whether a further review of the weighting of the quantitative performance indicators was warranted based on their application in the evaluation of the Implementing Agencies' 2004 business plans to be submitted to the 46th Meeting;

(d) to request the Secretariat:

  (i) to prepare a draft outline of an Executive Committee primer to be considered at the 46th Meeting of the Executive Committee, being the basis of the draft primer to be presented to the 47th Meeting, noting that the primer should include, inter alia, a summary of relevant decisions, procedures related to the approval of ODS phase-out projects, and rules and practices of the Executive Committee;

  (ii) to prepare a paper addressing the feasibility and desirability of extending the current performance indicators to bilateral Implementing Agencies for submission to the 46th Meeting of the Executive Committee;

(e) to request the Implementing Agencies to provide the Fund Secretariat with information on how to avoid future delays as part of a lessons-learned document to be prepared by the Secretariat for consideration at the 46th Meeting of the Executive Committee;

(f) to request the Treasurer:

  (i) to circulate to the Secretariat and Implementing Agencies prior to each Executive Committee meeting a ledger indicating when promissory notes are transferred, received and encashed;

  (ii) to report on progress in documenting the Treasurer's internal procedures and practices annually until they had been fully documented;

  (iii) to provide a detailed report once a year and interim reports at other times, as appropriate, on quality control measures to improve the accuracy of recordkeeping;

(g) to forward its assessment report on the recommendations in the 2004 evaluation and review of the financial mechanism of the Montreal Protocol (contained in Annex I.4 to the present report) for consideration at the 25th Meeting of the Open-ended Working Group.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/59, para. 193).
(Supporting document: UNEP/OzL.Pro/ExCom/45/51 and Add.1).

The Twenty-first Meeting of the Parties decided to start discussing the terms of reference for an evaluation of the financial mechanism of the Montreal Protocol during the thirtieth meeting of the Open-ended Working Group, in 2010, and to finalize them during the Twenty-Third Meeting of the Parties, in 2011, at the latest.
(UNEP/OzL.Pro.21/8, Decision XXI/28).

The Twenty-second Meeting of the Parties decided:

1. To approve the terms of reference for an evaluation of the financial mechanism of the Montreal Protocol contained in [Annex I.5 to the present report];
2. To set up a steering panel of eight members to supervise the evaluation process, to select an evaluator to carry out the evaluation, to act as a point of contact for the evaluator during the evaluation and to ensure that the terms of reference are implemented in the most appropriate manner possible;
3. To select from among the parties to the Montreal Protocol the following eight parties to serve as the members of the steering panel: Austria, Canada, Colombia, India, Japan, Nigeria, the former Yugoslav Republic of Macedonia and the United States of America, thereby ensuring that the appointed panel has equal representation of individuals selected by parties operating under paragraph 1 of Article 5 of the Montreal Protocol and parties not so operating;
4. To request the Ozone Secretariat to finalize the procedure for the selection of the qualified external and independent evaluator: on the basis of submitted proposals, the Secretariat shall prepare a shortlist of qualified applicants and facilitate the review of relevant proposals by the steering panel;
5. To instruct the steering panel to organize its meetings with the assistance of the Ozone Secretariat with dates and venues selected, as far as possible, to coincide with other Montreal Protocol meetings, thereby reducing related costs;
6. To approve a total budget for the evaluation of up to 200,000 United States dollars, with the amount of $70,000 to start the application bidding process to come from the 2011 budget of the Trust Fund for the Montreal Protocol on the understanding that the parties will decide in 2011 on the funding source for the balance of the budget;
7. To ensure that the final report and recommendations of the evaluator are made available to parties for consideration at the Twenty-Fourth Meeting of the Parties;

(UNEP/OzL.Pro.22/9, Decision XXII/2).

The Twenty-fourth Meeting of the Parties decided:

1. To note with appreciation the report on the 2012 evaluation of the financial mechanism of the Montreal Protocol;
2. To request the Executive Committee of the Multilateral Fund, within its mandate, to consider the report on the 2012 evaluation of the financial mechanism of the Montreal Protocol, as appropriate, in the process of continuously improving the management of the Multilateral Fund;

(UNEP/OzL.Pro.24/10, Decision XXIV/11).

The Sixty-ninth Meeting of the Executive Committee decided:

(a) To note the report on the decision taken by the Parties at their Twenty Fourth Meeting regarding the evaluation of the Financial Mechanism, as contained in document UNEP/OzL.Pro/ExCom/69/38; and

(b) To forward a modified version of it to the Parties at their Twenty-Fifth Meeting, including any relevant decisions or actions taken at the meetings of the Executive Committee prior to that date.

(UNEP/OzL.Pro/ExCom/69/40, decision 69/27)
(Supporting document: UNEP/OzL.Pro/ExCom/69/38).

Loan for Study on the review of the Financial Mechanism

The Thirteenth Meeting of the Executive Committee approved a US $450,000 reimbursable cash advance to the Ozone Secretariat to enable it to facilitate the study on the Financial Mechanism, and requested the Sixth Meeting of the Parties to the Montreal Protocol to arrange to reimburse the funds to the Multilateral Fund within the course of the 1995 financial year. The Executive Committee placed on record the fact that the cash advance should not set a precedent for similar demands in the future for cash advances from the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/13/47, para. 37).

The Sixth Meeting of the Parties took note of the ongoing reviews under paragraph 8 of Article 5 of the Montreal Protocol and decided:

(a) to approve the loan of US $450,000 from the Multilateral Fund to the Secretariat as a one-time measure to facilitate the review of the Financial Mechanism; and

(b) to repay the loan to the Multilateral Fund through necessary additional contributions to the Trust Fund for the Montreal Protocol as proposed in the revised budget for 1994 and 1995.

(UNEP/OzL.Pro/6/7 (paras. 1, 2).

MULTILATERAL FUND

The Multilateral Fund shall:

(a) meet, on a grant or concessional basis as appropriate, and according to criteria to be decided upon by the Parties, the agreed incremental costs;

(b) finance clearing-house functions to:

  (i) assist Parties operating under paragraph 1 of Article 5, through country specific studies and other technical co-operation, to identify their needs for co-operation;

  (ii) facilitate technical co-operation to meet these identified needs;

  (iii) distribute, as provided for in Article 9 of the Protocol, information and relevant materials, and hold workshops, training sessions and other related activities for the benefit of Parties that are developing countries; and

  (iv) facilitate and monitor other multilateral, regional and bilateral co-operation available to Parties that are developing countries; and

(c) finance the secretarial services of the Multilateral Fund and related support costs.

(UNEP/OzL.Pro/2/3 Decision II/8, para. 3).
(UNEP/OzL.Pro/4/15 Decision IV/18, para. 1).

Juridical personality and privileges and immunities

The Sixth Meeting of the Parties decided to clarify the nature and legal status of the Fund as a body under international law as follows:

(a) Juridical personality: The Multilateral Fund shall enjoy such legal capacity as is necessary for the exercise of its functions and the protection of its interests, in particular the capacity to enter into contracts, to acquire and dispose of movable and immovable property and to institute legal proceedings in defense of its interests;

(b) Privileges and immunities:

  (i) the Fund shall, in accordance with arrangements to be determined with the Government of Canada, enjoy in the territory of the host country, such privileges and immunities as are necessary for the fulfillment of its purposes;

  (ii) the officials of the Fund Secretariat shall similarly enjoy such privileges and immunities as are necessary for the independent exercise of their functions in connection with the Multilateral Fund.

(UNEP/OzL.Pro/6/7 Decision VI/16).

TREASURER OF THE FUND

The Executive Committee invited UNEP to be the Treasurer of the Fund. Thus, UNEP is responsible for receiving and administering contributions, and disbursing funds to the Fund Secretariat and the Implementing Agencies based on the directive of the Executive Committee. Following consultation with United Nations officials, UNEP shall submit investment plans related to contributions held in reserve for the Executive Committee's approval.

(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section I.3.1).

Agreement with UNEP-Treasurer

Agreement with the United Nations Environment Programme (UNEP) as the Treasurer of the Interim Multilateral Fund for the Montreal Protocol. (Note: This agreement was superseded by a revised agreement approved at the Forty-second Meeting of the Executive Committee).

(UNEP/OzL.Pro/ExCom/5/16, para. 18).
(Supporting document: UNEP/OzL.Pro/ExCom/5/4/Rev.1).

The Fortieth Meeting of the Executive Committee decided to amend paragraph 3.1 of Article III of the agreement between the Executive Committee and UNEP to read as follows: "UNEP in its capacity as Treasurer shall be reimbursed for costs incurred for services it will provide pursuant to this Agreement. Modalities for the provision of services and the reimbursement of costs shall be agreed upon by the Executive Committee of the Multilateral Fund and the United Nations Environment Programme".
(UNEP/OzL.Pro/ExCom/40/50, Decision 40/3, para. 28 (b)).

The Forty-second Meeting of the Executive Committee decided to approve the agreement between UNEP and the Executive Committee on the service of the Treasurer, as contained in Annex I.6 to the present report, to be signed on behalf of the Executive Committee by the Chair.
(UNEP/OzL.Pro/ExCom/42/54, Decision 42/42 (a), para. 140 (a)).
(Supporting document: UNEP/OzL.Pro/ExCom/42/47/Rev.1).

Cost of the Treasurer to the Multilateral Fund

The Thirty-eighth Meeting of the Executive Committee decided to request UNEP to continue to provide the service of Treasurer at zero cost to the Multilateral Fund, along the lines of the original agreement, for a further period of six months to enable the appropriate bodies, among them the Executive Committee, to examine the issue.
(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/37, para. 72 (a)).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to express appreciation for the fact that, consistent with the agreement reached with the Executive Committee in 1991, UNEP had acted as Treasurer of the Multilateral Fund for the past 12 years at no cost to the Fund;

(b) to take note of the fact that, in a letter submitted to the 38th Meeting of the Executive Committee, the Executive Director of UNEP had informed the Executive Committee that UNEP's role as Treasurer could no longer be performed free of charge;

(c) to request the Secretariat to explore with UNEP, the World Bank and other potential bodies which might act as Treasurer of the Multilateral Fund, their experience, potential services and fees associated with taking on that role, taking into account the views expressed by representatives at the 39th Meeting of the Executive Committee, and to report back to the 40th Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/39/43, Decision 39/3, para. 31).

Also, at its Thirty-ninth Meeting, the Executive Committee agreed to request UNEP to continue providing the services of Treasurer of the Multilateral Fund under the current agreement for a period not exceeding 1 September 2003.
(UNEP/OzL.Pro/ExCom/39/43, Decision 39/4, para. 34).

The Fortieth Meeting of the Executive Committee decided:

(c) to request UNEP to continue acting as Treasurer of the Multilateral Fund until the modalities of cost estimates and reimbursement could be agreed;

(d) pending the conclusion of such agreement, to inform the Executive Director of UNEP that the Multilateral Fund would reimburse UNEP for the costs of doing so at a rate of US $301,000 per annum as quoted by UNEP, whose starting point would be 1 September 2003;

(e) to define precisely the services that would be required of the Treasurer and to request the Secretariat to collect additional information on the services available in other organizations and reflect them in a new draft agreement;

(f) to re-examine the issue at its 41st Meeting.
(UNEP/OzL.Pro/ExCom/40/50, Decision 40/3, para. 28 (c - f).
(Supporting document: UNEP/OzL.Pro/40/5 and Add.1).

The Forty-first Meeting of the Executive Committee decided:

(a) to request UNEP to continue acting as Treasurer;

(b) to negotiate a new agreement with UNEP for its services as Treasurer;

(c) that the new agreement should stipulate that the annual fee of the Treasurer would remain in effect unchanged for a period of five years as of the date of the agreement;

(d) that, pending the conclusion of the new agreement, UNEP should continue to be reimbursed for the cost of acting as Treasurer at a rate of US $301,000 per annum;

(e) to request UNEP to substantiate its request for an annual fee of US $500,000, including clarification of its need for additional support staff, and to seek further savings in this area;

(f) also to request UNEP to provide information on the rate of return on its Fund investments; and

(g) to re-examine the issue at its 42nd Meeting.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/3, para. 32).

The Forty-second Meeting of the Executive Committee decided:

(b) to approve an annual fee amounting to US $500,000, inclusive of annual inflation, effective 1 April 2004 continuing for the next five years, for UNEP for providing the service of the Treasurer, as indicated in Annex I.2 to the present report; and

(c) to request the Secretariat to ensure that the functions of Treasurer (Annex I.2) were clearly distributed between the P-4 and P-5 positions mentioned in document UNEP/OzL.Pro/ExCom/42/47/Rev.1.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/42 (b, c), para. 140 (b, c)).

The Forty-eighth Meeting of the Executive Committee decided:

(a) to take note of the reply of 27 March 2006 by the Executive Director of UNEP to the letter from the Chair dated 19 December 2005;

(b) to note that the P5 position provided for in decision 42/42, required for the efficient provision of the services of the Treasurer, had not been filled and that, in the absence of the P5 staff member, the functions related to that level had been performed by the Secretariat, that could become increasingly difficult taking into account the Secretariat's limited staffing capacity;

(c) to continue to withhold US $100,000 pending further consultations with UNEP; and

(d) to request the Chair to write to the Executive Director of UNEP communicating the Executive Committee decision on the matter.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/41, para. 79).

The Forty-ninth Meeting of the Executive Committee decided:

(a) to note the progress reported with respect to the P5 position addressed in decisions 42/42 (c) and 48/41 (b);

(b) to note that the Executive Committee still felt that the services provided were not up to the standard required and believed that the appointment of a P5 officer was needed to achieve that standard; and

(c) to agree to the request for the release of the US $100,000 thus far withheld, on the understanding that, at the 50th Meeting:

  (i) the matter would be addressed in the context of consideration of the release of funding for 2007 treasury fees; and

  (ii) by that time, UNEP would have presented a mutually agreeable solution to the P5 issue.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/39, para. 160).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To note the Treasurer's report on the agreement between the Executive Committee and UNEP as Treasurer of the Fund as contained in document UNEP/OzL.Pro/ExCom/59/57;

(b) To maintain the fee level at US $500,000 per annum until the Executive Committee had had an opportunity to consider the results of the audit of the Secretariat on administrative and Fund management matters;

(c) To review the Treasurer's service at its 62nd Meeting, taking into account any relevant audit observation;

(d) To note that provision of data on expenditures was a matter of transparency and was inherent to the mandate of UNEP; and

(e) To request UNEP to provide indicative data on expenditures between 2004 and 2009, to the extent feasible,

and to bring to the 62nd Meeting a plan for providing expenditure data as part of its future treasury services.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/51, para. 275).
(Supporting document: UNEP/OzL.Pro/ExCom/59/57).

The Sixty-second Meeting of the Executive Committee decided:

(a) To note the Treasurer's indicative report on its 2004-2009 expenditures;

(b) Also to note that the United Nations audit report did not contain any observation on the services of the Treasurer;

(c) To approve the Treasurer's proposal to maintain the existing level of its fees at US $500,000 per annum until UNEP reverted to the Executive Committee; and

(d) To request the Treasurer to include in the accounts of the Fund Secretariat an indicative breakdown of the US $500,000 annual fees for the provision of treasury services, as shown in table 1 of document UNEP/OzL.Pro/ExCom/62/60.

(UNEP/OzL.Pro/ExCom/62/62, Decision 62/66, para. 168).
(Supporting document: UNEP/OzL.Pro/ExCom/62/60).

Draft agreement between the Treasurer and the Implementing Agencies

The Forty-sixth Meeting of the Executive Committee decided:

(a) to take note of documents UNEP/OzL.Pro/ExCom/46/39 and Corr.1, together with the Secretariat's verbal update;

(b) to endorse the text of the draft agreements between the Treasurer and UNDP, UNEP, UNIDO, and the World Bank, respectively, with the proposed differences in the text as follows:

  (i) in Clause 3.2, stipulating that commitment was conditional upon receipt of funds in the case of UNDP, UNEP and the World Bank and not conditional upon receipt of funds in the case of UNIDO;

  (ii) in Clause 4.3, stipulating that in the event that there were insufficient funds for the external audit processes of the World Bank, any subsequent additional audit costs would be borne by the Fund after approval by the Executive Committee;

  (iii) in Clause 5.1, on the proposed termination notice of 30 days for the World Bank and 180 days in the case of the other agencies; and

(c) to attach the final text of the agreements with UNDP, UNEP, UNIDO and the World Bank to the present report (Annexes I.7, I.8, I.9 and I.10, respectively).

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/34, para.139).
(Supporting document: UNEP/OzL.Pro/46/39 and Corr.1).

Requests to the Treasurer

The Thirty-eighth Meeting of the Executive Committee also decided to request the Treasurer:

(i) to include an explanatory section on "Methodology and Assumptions" with future reports;

(ii) to carry out a reconciliation every year;

(iii) to include in his report to each meeting of the Executive Committee the value of the promissory notes as at the date of that meeting.

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/1, para. 31 (b)).

The Fortieth Meeting of the Executive Committee decided:

(b) to note:

  (i) that the explanation of the methodology and assumptions being used by the Treasurer could be made available through the Internet;

  (ii) the payments by Parties of their contributions in accordance with the financial procedures and regulations in force in their respective countries;

  (iii) with concern the low level of rates of payment of contributions; and

  (iv) the importance of reconciled financial accounts, which would facilitate the financial decisions of the

Executive Committee.
(UNEP/OzL.Pro/ExCom/40/50, Decision 40/2, pars.25 (b)).

The Forty-first Meeting of the Executive Committee decided:

(b) to note with appreciation the note by the Treasurer on the methodology and assumptions used, and the increased transparency of data submission;

(i) to request the Treasurer to amend the last two rows of the table showing the 1991-2003 summary status of contributions and other income to read "outstanding contributions for certain countries with economies in transition", and to add a footnote to the new title specifying the countries with economies in transition concerned.
(UNEP/OzL.Pro/ExCom/41/87, Decision 41/2, para. 30 (a, b, i)).

The Forty-seventh Meeting of the Executive Committee decided to take note, with appreciation, of the report of the Treasurer, including tables showing the updated status of the Fund and the ledger on the issue, receipt and encashment of promissory notes as at 18 November 2005, which are reproduced in Annex I to the present report.
(UNEP/OzL.Pro/ExCom/47/61, Decision 47/1, para. 21).

The Forty-ninth Meeting of the Executive Committee decided to request the Treasurer to provide the 50th Meeting of the Executive Committee with information on when Parties that had been unable to make their contributions by 1 June would make their payments, in accordance with decision XI/6, paragraph 7, of the Eleventh Meeting of the Parties.
(UNEP/OzL.Pro/ExCom/49/43, Decision 49/2, para. 34 (a)).

The Fiftieth Meeting of the Executive Committee decided:

(a) to note:

(ii) the intersessional approval of US $2 million plus US $0.1 million in support costs for the World Bank towards Argentina's CFC production closure project;

(iii) that US $67,735,710 of promissory notes had been encashed since the 49th Meeting of the Executive Committee;

(iv) With appreciation that US $51,234,834 related to accelerated encashment of notes by France and the United Kingdom;

(b) to urge the remaining countries holding promissory notes to take the necessary action to accelerate their encashment and to encash those promissory notes issued by 31 December 2005 before the 51st Meeting of the Executive Committee;

(c) to encourage Parties with outstanding contributions to pay them at their earliest convenience and in this regard to note with concern that several Parties had not responded to the Treasurer's request to provide information on when they would make their outstanding payments in line with decision XI/6, paragraph 7, of the Eleventh Meeting of the Parties; and

(d) to note the updated list of countries opting to use the fixed-exchange-rate mechanism facility in making their contributions to the Fund for the triennium 2006-2008 as at 6 November 2006.
(UNEP/OzL.Pro/ExCom/50/62,Decision 50/1 para. 31).

Rate of return on UNEP's fund investments

The Forty-second Meeting of the Executive Committee decided:

(a) to take note of the information provided by UNEP on its fund investments (UNEP/OzL.Pro/ExCom/42/48); and

(b) to request UNEP to maximize the benefits to the Multilateral Fund and the contributing Parties when exercising its functions as Treasurer.
(UNEP/OzL.Pro/ExCom/42/54, Decision 42/43, para. 141).
(Supporting document: UNEP/OzL.Pro/ExCom/42/48).

ADMINISTRATOR

The World Bank shall be invited to co-operate with and assist in administering and managing the programme to finance the agreed incremental costs of Parties operating under paragraph 1 of Article 5. Should the World Bank

accept this invitation, the President of the World Bank shall be the Administrator of this programme, which shall operate under the authority of the Executive Committee.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 15).
(UNEP/OzL.Pro/4/15 Annex IX to Decision IV/18, para. 16).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV).

OFFER OF THE GOVERNMENT OF CANADA

The Second Meeting of the Parties accepted with appreciation the offer of the Government of Canada to:

(a) host Executive Committee meetings as necessary during the interim period;

(b) support participation of developing countries in those meetings.

(c) assume the administrative costs of those initiatives.

(UNEP/OzL.Pro/2/3 Decision II/8 B).
The Fourth Meeting of the Parties decided to accept with appreciation the offer of Canada to host the Secretariat of the Multilateral Fund on the same terms as they hosted the Secretariat of the Interim Multilateral Fund and to locate the Secretariat at Montreal, Canada.

(UNEP/OzL.Pro/4/15 Decision IV/18 (section I.8).

Host Government Agreement between the Government of Canada and the Multilateral Fund

The Twenty-fifth Meeting of the Executive Committee decided:

(a) to authorize the Chairman of the Executive Committee to sign the Host Government Agreement between the Government of Canada and the Multilateral Fund for the Implementation of the Montreal Protocol (Annex I.11);

(b) to request the Chief Officer to seek legal advice from the United Nations Office of Legal Affairs as to who should sign the Agreement between the United Nations and the Government of Canada concerning the Privileges, Immunities and Other Facilities of United Nations officials servicing the Secretariat of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/25/68, Decision 25/57, para. 107).
(Supporting document: UNEP/OzL.Pro/ExCom/25/Inf.2).

FINANCIAL AND TECHNICAL ASSISTANCE

Financial and technical assistance from the Multilateral Fund shall be available only to Article 5 Parties and in compliance with the requirements of the Protocol, to facilitate compliance with the control measures set out in Articles 2A to 2E of the Protocol and to finance the incremental costs incurred in meeting these requirements.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section III).

All technical assistance and pre-investment activities shall be provided in the form of grants or, in certain circumstances, in-kind support. At the request of an Article 5 Party, in-kind support can be provided in the form of expert personnel, technology, technical documentation and training.

The Fund Secretariat and the Implementing Agencies shall co-operate with the Parties to provide information on funding available for projects, to secure the necessary contacts and to coordinate, when requested by the interested Party, projects financed from other sources with activities financed under the Protocol.

The financing of activities or other costs, including resources channeled to third Party beneficiaries, shall require the concurrence of the recipient Governments concerned. Recipient Governments shall, where appropriate, be associated with the planning of projects and programmes. Nothing shall preclude an Article 5 Party from applying for its requirements for agreed incremental costs solely from the resources available to the Multilateral Fund.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 21-23).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV).

The Sixth Meeting of the Parties decided that the Executive Committee will consider projects from Parties temporarily classified as operating under Article 5. The projects approved when such temporary classification is operative will continue to be funded even if the countries subsequently are reclassified as not operating under Article 5 on receipt of data. However, no project will be sanctioned during a period during which the country is classified as not operating under Article 5.
(UNEP/OzL.Pro/6/7 Decision VI/5, para. b).

CONTRIBUTIONS TO THE MULTILATERAL FUND

The Second Meeting of the Parties established an Interim Multilateral Fund, of US $160 million, which could be raised by up to US $80 million during the three-year period (1991-1993) when more countries became Parties to the Protocol.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 1).

The Thirty-first Meeting of the Executive Committee decided to entrust to the Sub-Committee on Monitoring, Evaluation and Finance consideration of issues pertaining to contributions at future meetings of the Executive Committee.
(UNEP/OzL.Pro/ExCom/31/61, Decision 31/1, para. 15(f)).

The Thirty-fifth Meeting of the Executive Committee decided to consider the Treasurer's report on the status of contributions and disbursements in plenary meetings of the Executive Committee.
(UNEP/OzL.Pro/ExCom/35/67, Decision 35/1, para. 24(c)).

Contribution modalities

The Multilateral Fund shall be financed by contributions from Parties not operating under paragraph 1 of Article 5 in convertible currency or, in certain circumstances, in-kind and/or in national currency, on the basis of the United Nations scale of assessments.
(UNEP/OzL.Pro/2/3 Decision II/8, para. 7).

The Sixth Meeting of the Parties decided, regarding developing-country Parties which are initially classified as not operating under Article 5 and then reclassified, that any outstanding contribution to the Multilateral Fund will be disregarded only for the years in which they are reclassified as operating under Article 5. Any Party reclassified as operating under Article 5 will be allowed to utilize the remainder of the 10-year grace period.
(UNEP/OzL.Pro/6/7 Decision VI/5, para. d).

Contributions from States that become Parties not operating under paragraph 1 of Article 5 after the beginning of the financial period of the Mechanism shall be calculated on a pro rata basis for the balance of the financial period.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 10).

Any developing-country Party initially classified as non-Article 5 but reclassified subsequently as operating under Article 5 shall not be requested to contribute to the Multilateral Fund. Such Parties are urged not to request financial assistance for national programmes from the Multilateral Fund but may seek other assistance under Article 10 of the Montreal Protocol. This will not apply if the initial classification of the Party as non-Article 5, made in the absence of complete data, is subsequently proved to be wrong on the basis of complete data.
(UNEP/OzL.Pro/6/7 Decision VI/5, para. e).

The Eighth Meeting of the Parties decided that, with effect from 1997, contributions to the Multilateral Fund concern only Parties not operating under Article 5 that are Parties to the London Amendment to the Montreal Protocol.
(UNEP/OzL.Pro.8/12, Decision VIII/6).

No commitments shall be made in advance of the receipt of contributions, but income not spent in a budget year and unimplemented activities may be carried forward from one year to the next within the financial period.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 19).

Contributions not immediately required for the purposes of the Multilateral Fund shall be invested under the authority of the Executive Committee and any interest so earned shall be credited to the Multilateral Fund.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 11).

Budget estimates, setting out the income and expenditure of the Multilateral Fund shall be drawn up by the Executive Committee and submitted to the meetings of the Parties. The proposed budget estimates shall be dispatched by the Fund Secretariat to all Parties at least 60 days before the date fixed for the opening of the meeting of the Parties at which they are to be considered.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 12, 13).

In the event that the Chief Officer of the Fund Secretariat anticipates that there may be a shortfall in resources over the financial period as a whole, he shall have discretion to adjust the budget approved by the Parties so that expenditures are at all times fully covered by contributions received.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 18).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV).

The Twenty-sixth Meeting of the Executive Committee decided to urge those Parties that had not yet done so to pay their outstanding contributions to the Fund.
(UNEP/OzL.Pro/ExCom/26/70, Decision 26/1, para. 13(a)).

The Twenty-seventh Meeting of the Executive Committee decided to urge those Parties that had not yet done so to pay their outstanding contributions to the Fund.
(UNEP/OzL.Pro/ExCom/27/48, Decision 27/1, para. 193(c)).

The Twenty-eighth Meeting of the Executive Committee decided to urge those Parties that had not yet done so to pay their outstanding contributions to the Fund.
(UNEP/OzL.Pro/ExCom/28/57, Decision 28/1, para. 13(a)).

The Twenty-ninth Meeting of the Executive Committee decided to request the Meeting of the Parties to urge Parties to pay their contributions to the Fund promptly and in full.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/2, para. 17(a)).

The Thirtieth Meeting of the Executive Committee decided to urge those Parties that had not yet done so to pay their outstanding contributions to the Fund.
(UNEP/OzL.Pro/ExCom/30/41, Decision 30/5, para. 20(b)).

The Thirty-first Meeting of the Executive Committee decided to urge those Parties that had not yet done so to pay their outstanding contributions to the Fund.
(UNEP/OzL.Pro/ExCom/31/61, Decision 31/1, para. 15(b)).

The Thirty-fifth Meeting of the Executive Committee decided to urge those Parties that had not yet done so to pay their outstanding contributions to the Fund.
(UNEP/OzL.Pro/ExCom/35/67, Decision 35/1, para. 24(b)).

The Thirty-seventh Meeting of the Executive Committee decided:

(b) to note that the current year's rate of payment of contributions appeared slightly slower than the previous year;

(c) to express gratitude to Parties that had made their contributions on time.
(UNEP/OzL.Pro/ExCom/37/71, Decision 37/2, para. 27 (b), (c)).

The Fortieth Meeting of the Executive Committee decided:

(c) to urge those Parties that had not yet done so to make their contributions in a timely manner;

(d) to request the Treasurer:

  (i) to remind Parties of the need for early payment of their contributions;

  (ii) to include footnotes in the report to indicate the provisional nature of the unreconciled financial accounts; and

  (iii) to report on how the financial accounts were to be reconciled as well as on how this reconciliation might be effected as early in the year as possible.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/2, para. 25 (c, d)).

The Forty-first Meeting of the Executive Committee decided:

(c) to note the reduction in the amount of losses from use of the fixed exchange rate mechanism and from the process for encashing promissory notes;

(d) to request contributing Parties to cooperate with the Treasurer to facilitate the timely encashment of promissory notes;

(e) to note that the cooperation of Parties' financial authorities in sending written notification of payment to the Treasurer would be greatly appreciated;

(f) to urge those Parties that had not yet done so to make their contributions in a timely manner;

(g) to note with appreciation the contribution of Azerbaijan and encourage other Parties to follow the example it had set;

(h) to urge Parties with contributions that were long overdue to comply with paragraph 7 of Decision XI/7 of the Eleventh Meeting of the Parties.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/2, para. 30 (c to h)).

The Forty-second Meeting of the Executive Committee decided:

(d) to note with appreciation the updated information on the status of payments provided by number of countries during the Meeting;

(e) to urge those Parties that had not yet done so to make their contributions in a timely manner; and

(f) to urge Parties with contributions that were long overdue to comply with paragraph 7 of Decision XI/7 of the Eleventh Meeting of the Parties.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/2 (d, e, f), para. 28 (d-f)).

The Forty-third Meeting of the Executive Committee decided:

(c) to urge those Parties that had not yet done so to make their contributions in a timely manner; and

(d) to urge Parties to make contributions by 1 June each year, and, if that was not possible, to notify the Treasurer in accordance with paragraph 7 of decision XI/6 of the Eleventh Meeting of the Parties.

(UNEP/OzL.Pro/ExCom/43/61, Decision 43/1 (c, d), para. 25).

The Sixteenth Meeting of the Parties decided to urge those Parties to pay their outstanding contributions to the Multilateral Fund as soon as possible, in view of the current compliance needs of Parties operating under Article 5 of the Montreal Protocol.

(UNEP/OzL.Pro.16/17, Decision XVI/37).

The Forty-fourth Meeting of the Executive Committee decided:

(a) to note:

  (i) with appreciation the report of the Treasurer, including the tables showing the updated status of the Fund as at 29 November 2004;

  (ii) the information provided by the Secretariat concerning the contributions from the Russian Federation and accordingly to request the Secretariat to communicate with the Government of the Russian Federation on the issue of their contributions; and

(b) to provide copies of the decision of the most recent Meeting of the Parties relating to outstanding contributions to those Parties that had never paid their contributions to the Multilateral Fund or had done so at an amount inferior to one annual contribution.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/1, para. 30).

The Forty-fifth Meeting of the Executive Committee noted that the Treasurer had sent numerous letters urging donor countries that had not paid their contributions up to and including 2004 to the Multilateral Fund to do so and that no reply had been received from those countries regarding failure to comply with their commitments, and decided to request the Chair to send letters to those donor countries that had arrears up to and including 2004, and had not replied to the Treasurer, asking them to respond and to indicate when they would be able to meet their commitments. The Chair would report to the 47th Meeting on the issue.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/2, para. 26 (b)).

The Forty-sixth Meeting of the Executive Committee decided to take note, with appreciation, of the report of the Treasurer, including the tables showing the updated status of the Fund and the ledger on the issuing, receipt and encashment of promissory notes as at 30 June 2005.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/1, para. 22).

The Forty-ninth Meeting of the Executive Committee decided:

(b) to note with concern that US $95,637,792 in promissory notes had not been encashed, representing approximately two thirds of the Fund's annual budget;

(c) to note with concern that no feedback had been provided to the Treasurer on his request to accelerate the encashment of promissory notes;

(d) to urge countries holding promissory notes to take the necessary action to accelerate their encashment before the 50th Meeting of the Executive Committee;

(e) to note the list of countries opting to use the fixed-exchange-rate mechanism facility for their contributions to the Fund for the triennium 2006-2008 as at 7 July 2006, contained in the Appendix to Annex I to the present report; and

(f) to note that from 2006 onwards, the Government of Sweden would be devoting its entire contribution to the Fund as a multilateral contribution.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/2, para. 34 (b) to (f)).

The Fiftieth Meeting of the Executive Committee decided:

(a) to note:

(ii) the intersessional approval of US $2 million plus US $0.1 million in support costs for the World Bank towards Argentina's CFC production closure project;

(iii) that US $67,735,710 of promissory notes had been encashed since the 49th Meeting of the Executive Committee;

(iv) With appreciation that US $51,234,834 related to accelerated encashment of notes by France and the United Kingdom;

(b) to urge the remaining countries holding promissory notes to take the necessary action to accelerate their encashment and to encash those promissory notes issued by 31 December 2005 before the 51st Meeting of the Executive Committee;

(c) to encourage Parties with outstanding contributions to pay them at their earliest convenience and in this regard to note with concern that several Parties had not responded to the Treasurer's request to provide information on when they would make their outstanding payments in line with decision XI/6, paragraph 7, of the Eleventh Meeting of the Parties; and

(d) to note the updated list of countries opting to use the fixed-exchange-rate mechanism facility in making their contributions to the Fund for the triennium 2006-2008 as at 6 November 2006.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/1 para. 31).

The Fifty-second Meeting of the Executive Committee decided:

(b) in accordance with decision XI/6 of the Eleventh Meeting of the Parties, to urge all Parties to pay their contributions to the Multilateral Fund in full, as early as possible, and no later than 1 June of each year. Parties unable to make their contributions by 1 June should notify the Treasurer as to when during the calendar or fiscal year their payment would be made, but contributing Parties should strive to make their contributions no later than 1 November of that year; and

(c) to thank those Parties that had already made their contributions for 2007, in light of the relatively high rate of payment recorded at the second Executive Committee Meeting of the year as compared with previous years.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/1, para. 27 (b) and (c)).

The Fifty-third Meeting of the Executive Committee decided to urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/1, para. 26 (b)).

The Fifty-fourth Meeting of the Executive Committee decided:

(b) to urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible, particularly as the current year was the last year of the current replenishment period; and

(c) that the report of the Executive Committee to the Meeting of the Parties should emphasize the Committee's concerns in relation to the arrears in contributions to the Multilateral Fund in light of the 2010 phase-out target.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/2 para.30 (b) and (c))

The Fifty-fifth Meeting of the Executive Committee decided to urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible, particularly as the current year was the last year of the current replenishment period.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/1 para.24(b))

The Fifty-sixth Meeting of the Executive Committee decided:

(a) to note the report of the Treasurer on the status of contributions and disbursements, the information on promissory notes and the list of countries using the fixed-exchange mechanism during the 2006-2008 triennium as contained in Annex I to the present report;

(b) to urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible, considering that the present Meeting was the last Meeting of the last year of the current replenishment period; and

(c) that, in accordance with decision 54/2, the report of the Executive Committee to the Meeting of the Parties should provide information on the arrears in contributions to the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/64 para 26)

The Sixty-third Meeting of the Executive Committee decided:

(b) To note the encashment of its promissory note by the Government of France;

(c) To urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible; and

(d) To note the obligation of UNEP, as Treasurer of the Multilateral Fund, to make provision for doubtful debts in the accounts of the Multilateral Fund in line with the recommendation of the United Nations Board of Auditors.

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/1 para 24)

The Sixty-fourth Meeting of the Executive Committee decided:

(c) To urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible; and

(d) To recall decision XI/7 of the Eleventh Meeting of the Parties, which called for the Executive Committee to take action to ensure as far as possible that the whole of the budget had been committed by the end of the triennium.

(UNEP/OzL.Pro/ExCom/64/53, Decision 64/1 para 22)

The Sixty-fifth Meeting of the Executive Committee decided:

(b) To urge all Parties with outstanding pledges to pay their contributions to the Multilateral Fund in full and as early as possible;

(c) To request contributing Parties with promissory notes due for encashment after the replenishment period to facilitate the acceleration of their encashment as soon as possible and before the end of the replenishment period 2009-2011; and

(d) To call on the implementing agencies to accept promissory notes if necessary.

(UNEP/OzL.Pro/ExCom/65/60, Decision 65/1 para 24)

The Sixty-sixth Meeting of the Executive Committee decided to urge all Parties with outstanding pledges to pay their contributions to the Multilateral Fund in full and as early as possible

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/1 para 24 (d)).

The Sixty-seventh Meeting of the Executive Committee decided:

(c) To urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/2 para 23 (c)).

The Sixty-eighth Meeting of the Executive Committee decided:

(a) (ii) The list of Parties that had opted to use the fixed-exchange-rate mechanism in making their contributions to the Fund during the replenishment period 2012-2014 as contained in Annex I to the final report; and

(c) To urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/1 para 26 (a)(ii) and (c)).

The Sixty-ninth, Seventieth, Seventy-first, Seventy-second, Seventy-third, Seventy-fourth, Seventy-fifth, Seventy-sixth, Seventy-seventh, Eightieth, Eighty-first, Eighty-second, Eighty-third, Eighty-fourth. Eighty-fifth, and Eighty-sixth, Ninety-first, Ninety-third, Ninety-fourth, Ninety-fifth, Ninety-sixth and Ninety-seventh Meetings of the Executive Committee decided:

To urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.

(UNEP/OzL.Pro/ExCom/69/4, UNEP/OzL.Pro/ExCom/70/59,UNEP/OzL.Pro/ExCom/71/64, UNEP/OzL.Pro/ExCom/72/47, UNEP/OzL.Pro/ExCom/73/62, UNEP/OzL.Pro/ExCom/74/56, UNEP/OzL.Pro/ExCom/75/8, UNEP/OzL.Pro/ExCom/76/66, and UNEP/OzL.Pro/ExCom/77/76, UNEP/OzL.Pro/ExCom/80/59; UNEP/OzL.Pro/ExCom/81/58, UNEP/OzL.Pro/ExCom/82/72, UNEP/OzL.Pro/ExCom/83/48, UNEP/OzL.Pro/ExCom/84/75), UNEP/OzL.Pro/ExCom/86/100, UNEP/OzL.Pro/ExCom/91/72, UNEP/OzL.Pro/ExCom/93/105, UNEP/OzL.Pro/ExCom/94/67, UNEP/OzL.Pro/ExCom/95/94, UNEP/OzL.Pro/ExCom/96/66, UNEP/OzL.Pro/ExCom/97/91.

Decisions 69/2(b); 70/1(b); 71/2(c); 72/1(b); 73/1(b); 74/1(d); 75/1(c); 76/1(b); 77/1(b); 79/2(b); 80/1(c); 81/1(c); 82/1(f); 83/2(d); 84/1(b); 85/1(b); 86/3(b); 91/2(b); 93/2(e); 94/1(c); 95/1(c); 96/1(d); 97/1(c)

The Seventy–ninth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, the information on promissory notes, and the countries that had opted to use the fixed exchange rate mechanism during the 2015-2017 triennium contained in Annex I to the present report.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/2(a))
(Supporting document: UNEP/OzL.Pro/ExCom/79/51).

The Eightieth Meeting of the Executive Committee decided:

(a) To note:

(i) The report of the Treasurer on the status of contributions and disbursements and the information on promissory notes, the countries that had opted to use the fixed exchange rate mechanism (FERM) during the 2015–2017 triennium, and the implementation of the FERM, contained in Annex I to the present report;

(b) To request the Secretariat to provide, for the consideration of the 81st meeting, additional information on the transfer of funds by the Treasurer on behalf of governments contributing to bilateral projects.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/1(a)(i) and (b))
(Supporting document: UNEP/OzL.Pro/ExCom/80/3).

The Eighty-first Meeting of the Executive Committee decided:

(a) To note:

(i) The report of the Treasurer on the status of contributions and disbursements and the information on promissory notes and the countries that had opted to use the fixed-exchange-rate mechanism (FERM) during the 2018–2020 triennium, contained in Annex I to the present report.

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/81/3).

The Eighty-second Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, the information on promissory notes, and the countries that had opted to use the fixed exchange rate mechanism during the 2018–2020 triennium, contained in Annex I to the present report.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/82/3).

The Eighty-fifth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements contained in Annex I to the present report.

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 86th meeting.

(UNEP/OzL.Pro/ExCom/85/67, Decision 84/1(a) and (c)).
(Supporting document: UNEP/OzL.Pro/ExCom/85/3).

The Eighty-sixth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements contained in Annex I to the present report.

(d) To note the adjustments in the bilateral contributions by Czechia, Germany, Japan and Sweden, resulting from a reconciliation exercise between invoices, payments in cash and information, contained in the Secretariat's inventory of approved projects, included in Annex II to the present report; and

(e) To request the Treasurer in cooperation with the Secretariat to finalize the reconciliation exercise for the bilateral contributions by Canada, Finland, France, Portugal and Spain, and to report back at the 87th meeting.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/3(a) (d)-(e)).
(Supporting document: UNEP/OzL.Pro/ExCom/86/3).

The Eighty-seventh Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements contained in Annex I to the present report.
(c) To note the adjustments in the bilateral contribution by Canada, France, Portugal and Spain, resulting from a reconciliation exercise between invoices, payments and the Secretariat's inventory of approved projects, included in Annex I to the present report;
(d) To request the Treasurer, in cooperation with the Secretariat, to finalize the review of the amounts of the bilateral contribution by Finland recorded in the Multilateral Fund, and to report back at the 88th meeting; and
(e) To request the World Bank to return to the Multilateral Fund, in cash, balances from completed or cancelled projects, interest accrued and other adjustments totalling US $3,280,455, which was the amount in excess of the offsets that the Treasurer had been able to make from projects approved for the World Bank since the 83rd meeting.

(UNEP/OzL.Pro/ExCom/87/58, Decision 87/1)
(Supporting document: UNEP/OzL.Pro/ExCom/87/3).

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements contained in Annex I to the present report.
(b) To note the finalization of the review of the amounts of the bilateral contribution by Finland recorded in the Multilateral Fund in line with decision 87/1(d).

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/2((a) and b)).
(Supporting document: UNEP/OzL.Pro/ExCom/88/3).

The Ninetieth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex I to the present report;

(UNEP/OzL.Pro/ExCom/90/40, Decision 90/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/90/3).

The Ninety-first Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex II to the present report;

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/2(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/91/3).

The Ninety-second Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex I to the present report;

(UNEP/OzL.Pro/ExCom/92/56, Decision 92/2(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/92/3).

The Ninety-third Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex I to the present report;

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/2(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/93/3).

The Ninety-fourth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex I to the present report;

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/94/3).

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex I to the present report;

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/95/3).

The Ninety-sixth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex I to the present report;

(UNEP/OzL.Pro/ExCom/96/66, Decision 96/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/96/3).

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, contained in annex I to the present report;

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/97/3).

Countries encountering temporary difficulties

The Fifth Meeting of the Parties noted the recommendations of the Executive Committee with respect to the countries encountering temporary difficulties and requested the Executive Committee to continue to make its best efforts to consider various possibilities for addressing the situation by obtaining contributions in kind wherever possible and to report on this matter to the Sixth Meeting of the Parties.
(UNEP/OzL.Pro/5/12 Decision V/10).

The Tenth Meeting of the Executive Committee urged Hungary, Bulgaria and Poland to co-operate with UNEP IE/PAC to provide information on available technologies and expertise in those countries for dissemination to Article 5, paragraph 1, countries. It also encouraged those countries to contact Article 5, paragraph 1, countries to identify opportunities for co-operation through in-kind contributions.
(UNEP/OzL.Pro/ExCom/10/40 (paras. 149, 154).

Contributions in arrears or outstanding

The Thirteenth Meeting of the Executive Committee requested the Treasurer to find ways and means to identify the causes of non-payment of contributions and to attempt to open avenues for speedy payment, bearing in mind the report of the Sub-Committee on Financial Matters, which was submitted to the Tenth Meeting of the Executive Committee, and the view of the Committee that the dispatch of reminder letters to Parties in arrears was not in itself adequate. It also agreed that the Treasurer should be requested to undertake a study on the various options to be adopted on all fronts (Treasurer, Executive Committee, UNEP, Meeting of the Parties to the Montreal Protocol, etc.) to encourage payment of the arrears and generally to make timely payments.
(UNEP/OzL.Pro/ExCom/13/47 (paras. 22, 38).

The Fourteenth Meeting of the Executive Committee decided that the correspondence between the Treasurer and countries with contributions in arrears should be made available to the Executive Committee. If that procedure did not yield results, the Executive Committee would consider what further steps could be taken. The Executive Committee did not, however, have any objection to the publication of the list of outstanding contributions.
(UNEP/OzL.Pro/ExCom/14/15, para. 30).

The Twenty-ninth Meeting of the Executive Committee decided to request the Sub-Committee on Monitoring,

Evaluation and Finance to examine the situation of contributions outstanding for three years or more.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/2, para. 17(b)).

The Fifty-ninth Meeting of the Executive Committee decided to request the Secretariat to place the matter of the outstanding contributions to the Multilateral Fund by the Russian Federation on the agenda for the consideration of the Committee at its 60th Meeting.
(UNEP/OzL.Pro/ExCom/59/54, para. 290).

The Sixtieth Meeting of the Executive Committee decided:

(b) To request the Chief Officer to reply to the letter from the Government of the Russian Federation and convey the Executive Committee's views on the long outstanding contributions from the Russian Federation, as expressed at the 60th Meeting; and

(c) Also to request the Chief Officer to invite representatives of the Ministry of Natural Resources and the Environment and the Ministry of Finance of the Russian Federation, the Chair and Vice-Chair of the Executive Committee, the Treasurer and the Ozone Secretariat to participate in an informal meeting to be held the day before the commencement of the 30th meeting of the Open-ended Working Group of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer.

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/2, para.357(b and c))

(Supporting document: UNEP/OzL.Pro/exCom/60/4).

At its Sixty-seventh Meeting, the Executive Committee decided:

(a) To note with appreciation the Government of the Russian Federation's intent to start payments to the Multilateral Fund from 2013 with the understanding that future contributions of the Russian Federation would not be associated with the outstanding pledges for prior years, and that the administrative process within the Government of the Russian Federation would be completed in due time to ensure that the payment of the 2013 contribution could be made;

(b) To request the Chair of the Executive Committee to write to the Government of the Russian Federation welcoming its future contributions and future engagement in the Multilateral Fund; and

(c) To request the Treasurer to maintain the outstanding contributions of the Russian Federation in the outstanding contributions category of the accounts of the Fund.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/1, para.17).

At its Sixty-ninth Meeting, the Executive Committee decided:

(b) To express its appreciation:

(i) To the Russian Federation for its contribution to the Multilateral Fund for the year 2013; and

(ii) To the Chief Officer, the Secretariat and a number of governments for their efforts to resolve the issue.

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/1, para.19(b)).

At its Seventy-first Meeting, the Executive Committee decided:

(d) To request the Treasurer, in consultation with the Fund Secretariat, to continue the discussions with the Holy See on its outstanding contributions to the Multilateral Fund and to report back to the Executive Committee at its 72nd meeting.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/2, para.27(d)).

At its Seventy-second Meeting, the Executive Committee decided:

(d) To request the Treasurer, in consultation with the Secretariat, to continue the discussion with the Holy See and the Government of Kazakhstan on their respective outstanding contributions to the Multilateral Fund and to report back to the Executive Committee at its 73rd meeting.

(UNEP/OzL.Pro/ExCom/72/47, Decision 72/1, para.27(d)).

At its Seventy-third Meeting, the Executive Committee decided:

(c) To request the Treasurer, in consultation with the Secretariat, to continue the discussions with the Holy See and the Government of Kazakhstan on their respective outstanding contributions to the Multilateral Fund and to report back to the Executive Committee at its 74th meeting.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/1(c), para.24(c))

The Seventy-fourth Meeting of the Executive Committee decided:

(b) To note with appreciation the payments made to the Multilateral Fund by the Holy See and the Government of Kazakhstan, as reported in Annex I to the present report

(UNEP/OzL.Pro/ExCom/74/56, Decision 74/1 para.26 (b)).

The Seventy–fourth Meeting of the Executive Committee decided:

(b) To urge:

(i) Belarus to make its contributions to the Multilateral Fund for the 2015-2017 triennium, while noting that it had not previously made contributions;

(ii) The Secretariat and the Treasurer to strengthen outreach to contributing Parties that had outstanding contributions for one triennium or more in order to emphasize the need to make payments to the Multilateral Fund in accordance with the replenishments decided by the Parties;

(iii) Those contributing Parties with arrears from the 2012-2014 triennium to pay them during 2015;

((UNEP/OzL.Pro/ExCom/74/56, Decision 74/3, para.34(b)).

The Seventy–fifth Meeting of the Executive Committee decided:

(d) To request the Secretariat, as follow-up to decision 74/3(b), to report to the 76th meeting on the feedback received from countries with outstanding contributions from one triennium or more. *((UNEP/OzL.Pro/ExCom/75/85, Decision 75/1(d), para.31(d)).*

The Seventy–sixth Meeting of the Executive Committee decided:

(c) To request the Secretariat to continue to follow up with the countries that had outstanding contributions for one triennium or more, and to report back to the 77th meeting

((UNEP/OzL.Pro/ExCom/76/66, Decision 76/1(c), para.28(c)).

The Seventy–seventh Meeting of the Executive Committee decided:

(c) To note with appreciation the intention of the Government of Belarus to start paying its contributions in 2016, with the understanding that the 2016 payment would not be associated with the contributions outstanding for Belarus for prior years;

(d) To request the Treasurer, in cases where the country had a long-outstanding contribution, to allocate any new contribution to a specific year, if so requested by the country; and

(e) To request the Chief Officer and the Treasurer to continue to follow up with countries that had contributions outstanding for one triennium or more and to report back to the 79th meeting.

((UNEP/OzL.Pro/ExCom/77/76, Decision 77/1(c,d,e), para.24(c)-(e)).

The Seventy-ninth Meeting of the Executive Committee decided:

(c) To request the Chief Officer and the Treasurer to continue following up with countries that had contributions outstanding for one triennium or more and to report back to the 80th meeting.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/2, para 21).
(Supporting document: UNEP/OzL.Pro/ExCom/79/51).

The Eightieth Meeting of the Executive Committee decided:

(a) To note:

(ii) With appreciation that the Government of Azerbaijan was taking steps towards paying its contributions to the Multilateral Fund from 2017 onwards;

(d) To request the Chief Officer and the Treasurer to continue to follow up with contributing Parties that had contributions outstanding for one triennium or more and to report back to the 81st meeting.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/1, para 24).
(Supporting document: UNEP/OzL.Pro/ExCom/80/3).

The Eighty-first Meeting of the Executive Committee decided:

(a) To note:

(ii) With appreciation the partial payment made by the Government of Greece toward its outstanding

contributions and its commitment to pursue payment of the arrears, as expressed in its message to the Treasurer;

(iii) With appreciation the payment by the Government of Portugal of its outstanding contributions to the Multilateral Fund;

(d) To request the Chief Officer and the Treasurer to continue to follow up with Parties that had outstanding contributions for one triennium or more and to report back to the 82nd meeting.

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/1(a) and (d)).
(Supporting document: UNEP/OzL.Pro/ExCom/81/3).

The Eighty-second Meeting of the Executive Committee decided:

(b) To note with appreciation that the Government of Kazakhstan had started to pay its contributions to the Multilateral Fund from 2014 when the assessed contributions by Kazakhstan for the replenishment of the Multilateral Fund for the 2015–2017 triennium had been recorded for the first time, at the Twenty-Sixth Meeting of the Parties to the Montreal Protocol;

(c) To note with appreciation, the discussions between the representatives of the Government of Azerbaijan and the Secretariat and the Treasurer and to invite that Government to commence contributions to the Multilateral Fund;

(d) To note with appreciation, the discussions between the representatives of the Government of Israel and the Secretariat and the Treasurer and to invite that Government to commence contributions to the Multilateral Fund;

(e) To note with appreciation, the discussions between the representatives of the Government of Ukraine and the Secretariat and the Treasurer and to invite that Government to continue its internal discussions with a view to commencing contributions to the Multilateral Fund;

(g) To request the Treasurer to remove the 2001–2013 outstanding contributions of Kazakhstan from the accounts and the status of the Multilateral Fund without setting a precedent of removing from the report of the Treasurer on the status of contributions and disbursements or the accounts of the Fund the outstanding contributions to the Fund due from any other party; and

(h) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 83rd meeting.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/1(b)-(e), (g) and (h)).
(Supporting document: UNEP/OzL.Pro/ExCom/82/3).

The Eighty-third Meeting of the Executive Committee decided:

(b) Also to note, with appreciation, the receipt of the first contribution of the Government of Uzbekistan for 2019;

(c) To invite the Government of Azerbaijan to continue its internal discussions with a view to commencing contributions to the Multilateral Fund, noting, with appreciation, that discussions had also taken place between the representatives of that Government and the Secretariat;

(e) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more and to report back at the 84th meeting.

(UNEP/OzL.Pro/ExCom/83/48, Decision 83/2(b), (c) and (e)).
(Supporting document: UNEP/OzL.Pro/ExCom/83/3).

The Eighty-fourth Meeting of the Executive Committee decided:

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more and to report back at the 85th meeting.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/1(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/84/3).

The Eighty-fifth Meeting of the Executive Committee decided:

(d) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 86th meeting.

(UNEP/OzL.Pro/ExCom/85/67, Decision 84/1(d)).
(Supporting document: UNEP/OzL.Pro/ExCom/85/3).

The Eighty-sixth Meeting of the Executive Committee decided:

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 87th meeting;

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/3(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/86/3).

The Eighty-seventh Meeting of the Executive Committee decided:

(a) To request the Chief Officer and the Treasurer to continue following up with Parties that had contributions outstanding for one triennium or longer, and to report back at the 88th meeting;

(UNEP/OzL.Pro/ExCom/87/58, Decision 87/1(b))
(Supporting document: UNEP/OzL.Pro/ExCom/87/3).

The Eighty-eighth Meeting of the Executive Committee decided:

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 90th meeting.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/2(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/88/3).

The Ninetieth Meeting of the Executive Committee decided:

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 91st meeting.

(UNEP/OzL.Pro/ExCom/90/40, Decision 90/1(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/90/3).

The Ninety-first Meeting of the Executive Committee decided:

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back to the Committee at the 92nd meeting.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/2(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/91/3).

The Ninety-second Meeting of the Executive Committee decided:

(b) To note with appreciation, the discussions among the representatives of the Government of Israel, the Secretariat and the Treasurer, and to invite the Government of Israel to continue its internal discussions with a view to resuming contributions to the Multilateral Fund; and

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 93rd meeting.

(UNEP/OzL.Pro/ExCom/92/56, Decision 92/2).
(Supporting document: UNEP/OzL.Pro/ExCom/92/3).

The Ninety-third Meeting of the Executive Committee decided:

(b) To note also the discussions between the representatives of the Government of Israel and the Deputy Executive Director of UNEP, as well as the communication with the Secretariat, and to invite the Government to resume its contributions to the Multilateral Fund;

(c) To note further the discussions between the representatives of the Russian Federation and the Deputy Executive Director of UNEP, as well as the communication with the Treasurer, and to invite the Government to pay its outstanding contributions to the Multilateral Fund;

(d) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 94th meeting;

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/2(b to d)).
(Supporting document: UNEP/OzL.Pro/ExCom/93/3).

The Ninety-fourth Meeting of the Executive Committee decided:

(b) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 94th meeting

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/1(b)).

(Supporting document: UNEP/OzL.Pro/ExCom/94/3).

The Ninety-fifth Meeting of the Executive Committee decided:

(b) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 96th meeting

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/1(b)).
(Supporting document: UNEP/OzL.Pro/ExCom/95/3).

The Ninety-sixth Meeting of the Executive Committee decided:

(c) To request the Chief Officer and the Treasurer to continue following up with Parties that had outstanding contributions for one triennium or more, and to report back at the 97th meeting

(UNEP/OzL.Pro/ExCom/96/66, Decision 96/1(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/96/3).

The Ninety-seventh Meeting of the Executive Committee decided:

(b) To request the Chief Officer and the Treasurer to continue following up with parties that had outstanding contributions for one triennium or more, and to report back at the 98th meeting

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/1(b)).
(Supporting document: UNEP/OzL.Pro/ExCom/97/3).

Outstanding contributions from Parties that had not ratified the London Amendment

The Ninth Meeting of the Parties decided:

1. to agree to waive the outstanding contributions to the Multilateral Fund specified in Annex I.12 of this report as a one-time measure;
2. to agree that the issue of waiving outstanding contributions to the Multilateral Fund assessed before ratification of the London Amendment by any Party will neither be raised nor will this decision be cited as a precedent in future.

(UNEP/OzL.Pro.9/12, Decision IX/38).

The Ninth Meeting of the Parties also decided that the amount already paid by Cyprus to the Multilateral Fund should not be refunded.
(UNEP/OzL.Pro.9/12, Decision IX/39).

Additional contributions to the Multilateral Fund

The Seventy–seventh Meeting of the Executive Committee decided:

(d) With respect to the intended US $27 million fast-start contributions in 2017 from some of the non-Article 5 Parties:

(i) To accept, with appreciation, the additional contributions announced by a number of non-Article 5 Parties to provide fast-start support for implementation of the Kigali Amendment, noting that such funding was one-time in nature and would not displace donor contributions;

(ii) That the additional contributions mentioned in sub-paragraph (d)(i) above should be made available for Article 5 countries that had an HFC consumption baseline year between 2020 and 2022 and that had formally indicated their intent to ratify the Kigali Amendment and take on early HFC phase-down obligations in order to support their enabling activities, such as capacity building and training in handling HFC alternatives, Article 4B licensing, reporting, and project preparation activities, taking into account, but not restricted to, relevant guidelines and decisions of the Executive Committee;

(iii) To request the Secretariat to develop a document describing possible procedures for countries identified in sub-paragraph (d)(ii) above in accessing the additional fast-start contributions for enabling activities;

(iv) That the Treasurer would communicate with contributing non-Article 5 countries on procedures for making the additional contributions available to the Multilateral Fund for the purpose of early action in respect of the Kigali Amendment;

(v) That the Secretariat would report to the Executive Committee on the additional fast-start contributions

received separately from the pledged contributions to the Multilateral Fund; and

((UNEP/OzL.Pro/ExCom/77/76, Decision 77/59)
(Supporting document: UNEP/OzL.Pro/ExCom/77/70/Rev.1).

The Seventy–eighth Meeting of the Executive Committee decided:

(a) To note the report by the Treasurer on the status of the additional contributions to the Multilateral Fund as contained in documents UNEP/OzL.Pro/ExCom/78/3 and Corr.1;

(b) Further to note with appreciation the status of pledged additional contributions distributed among the 16 non-Article 5 Parties to provide fast-start support for implementation of the Kigali Amendment; and

(c) To request the Treasurer to report to the Executive Committee on the additional contributions received for fast-start support separately from the other pledged contributions to the Multilateral Fund at the 79th meeting.

((UNEP/OzL.Pro/ExCom/78/11, Decision 78/1)
(Supporting document: UNEP/OzL.Pro/ExCom/78/3 & Corr.1).

The Seventy–ninth Meeting of the Executive Committee decided:

(a) To note the report by the Treasurer on the status of additional contributions to the Multilateral Fund (decision 78/1(c)) contained in documents UNEP/OzL.Pro/ExCom/79/44 and Corr.1, and as orally amended during the meeting;

(b) Further to note with appreciation the six non-Article 5 countries that had made payments to provide fast-start support for the implementation of the HFC phase-down: Denmark, Finland, Ireland, Italy, Luxembourg and New Zealand; and

(c) To request the Treasurer, at the 80th meeting, to report to the Executive Committee on the status of the additional contributions for fast-start support separately from other pledged contributions to the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/42, para 133)
(Supporting document: UNEP/OzL.Pro/ExCom/79/44 & Corr.1).

The Eightieth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of additional contributions to the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/80/53, as orally amended during the meeting;
(b) Further to note with appreciation that 11 non-Article 5 countries had paid their pledged additional voluntary contributions to provide fast-start support for HFC phase-down; and
(c) To request the Treasurer to report again to the Executive Committee on the status of the additional contributions received for fast-start support separately from other pledged contributions to the Multilateral Fund at the 81st meeting.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/74, para 235)
(Supporting document: UNEP/OzL.Pro/ExCom/80/53).

The Eighty-first Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of additional contributions to the Multilateral Fund and availability of resources contained in document UNEP/OzL.Pro/ExCom/81/5;
(b) Further to note, with appreciation, that 16 non-Article 5 countries had paid the additional contributions that they had pledged to provide fast-start support for implementation of the HFC phase-down; and
(c) To request the Treasurer, at the 82nd meeting, to continue reporting on the status of the additional contributions received for fast-start support separately from other pledged contributions to the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/3(a)-(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/81/5).

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:
  (i) The report of the Treasurer on the status of additional contributions to the Multilateral Fund and availability of resources contained in document UNEP/OzL.Pro/ExCom/82/5;
  (ii) With appreciation that all 17 non-Article 5 countries had paid the additional contributions that they had pledged to provide fast-start support for implementation of the HFC phase-down; and
(b) To request the Treasurer, at the 83rd meeting, to report on the status of the additional contributions for fast-start support separately from other contributions pledged to the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/3(a) and (b)).
(Supporting document: UNEP/OzL.Pro/ExCom/82/5).

The Eighty-third Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of additional contributions to the Multilateral Fund and availability of resources contained in document UNEP/OzL.Pro/ExCom/83/5;
(b) To request the Treasurer, to submit to the 84th meeting, as part of the 2018 accounts of the Multilateral Fund, a certified statement of income and disbursements of the additional contributions for fast-start support for the implementation of HFC phase down separately from the regular contributions to the Multilateral Fund; and
(c) To consider at the 84th meeting how to use any remaining balances, taking into consideration the consultations on the issue between the Chief Officer and the 17 donor countries that had paid additional contributions to the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/83/48, Decision 83/4(a)-(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/83/5).

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of additional contributions to the Multilateral Fund and availability of resources contained in document UNEP/OzL.Pro/ExCom/84/5;
(b) To note with appreciation the agreement of donor countries to amalgamate the balances from the additional contributions for fast-start support for HFC phase-down with the regular contributions to the Multilateral Fund;
(c) To request the Treasurer:
  (i) To add, as additional income, the balance of US $13,698 remaining from the additional contributions to the regular contributions to the Multilateral Fund;
  (ii) To add, as additional income, the balances from completed projects and projects completed "by decision of the Executive Committee" remaining from the additional contributions that had been returned at the 84th meeting, or that would be returned at future meetings, to the regular contributions to the Multilateral Fund; and
(d) To note that, as of the 85th meeting, the status of the additional contributions to the Multilateral Fund would no longer be reported to the Executive Committee separately from the regular contributions to the Fund.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/3).
(Supporting document: UNEP/OzL.Pro/ExCom/84/5).

REPLENISHMENTS OF THE MULTILATERAL FUND

1994-1996 replenishment

At the Fourth Meeting of the Parties, the total contribution to the Fund for 1993 was set at US $113.34 million. The Parties committed themselves to a replenishment of the Fund in order to meet on grant or concessional terms the requirements of Parties operating under paragraph 1 of Article 5 of the Protocol, in respect of agreed incremental costs. Thus, a level of contribution of US $340-500 million was recommended for 1994-1996. The total contribution to the Fund for 1994 will not be less than the commitments for 1993.

The Fifth Meeting, the Parties adopted the budget for 1994-1996 of US $510 million for the Multilateral Fund for the implementation of the Montreal Protocol with the understanding that US $55 million of that sum will be provided by funds unallocated during the 1991-1993 period.

(UNEP/OzL.Pro/4/15 Decision IV/18 (section I.3).
(UNEP/OzL.Pro/5/12 Decision V/9 (section 1).

1997-1999 replenishment

The Eighth Meeting of the Parties decided:

1. to note with appreciation the report of the Executive Committee on the three-year rolling business plan and the report of the TEAP on replenishment;
2. to adopt a budget for 1997-1999 of US $540,000,000 with the understanding that US $74,000,000 of that sum will be provided by funds unallocated during 1994-1996: this US $74,000,000 figure does not include sums listed as disputed in document UNEP/OzL.Pro.8/L.2, which appears as Annex VIII to this report;
3. the agreed budget figure includes a sum of US $10 million to enable Parties operating under Article 5 to apply the measures contained in paragraph 2 of decision VII/8 of the Seventh Meeting of the Parties and to assist those Parties to start the implementation of any recommendations that might arise from the Ninth Meeting of the Parties on this matter;
4. to adopt the scale of contributions for the Multilateral Fund based on a replenishment of US $466,000,000 as set out in Annex I to this report of US $155,333,333 for 1997, US $155,333,333 for 1998 and US $155,333,333 for 1999;
5. that the Executive Committee should take action to ensure as far as possible that the whole of the budget for 1997-1999 is committed by the end of 1999, and that Parties not operating under Article 5 should accordingly make timely payments;
7. to agree that adjustments to the United Nations scale of assessment should not affect the rates of contributions of individual Parties during a replenishment period;
8. to agree that contributions of Parties not operating under Article 5 which ratify the London Amendment during a replenishment cycle should be calculated on a pro-rata basis for the balance of the replenishment cycle, starting with the date on which the London Amendment entered into force for it. Contributions of such countries should be considered as additional resources during the replenishment cycle; such Parties should be formally added to the list of contributors and taken into account in the distribution of assessments during the next replenishment.

(UNEP/OzL.Pro.8/12, Decision VIII/4, paras 1-5 and 7-8).

The Twenty-ninth Meeting of the Executive Committee noted that the total value of approved projects and activities in the 1997-1999 triennium was about US $509 million. Additionally, the value, as submitted, of projects and activities which it had not been possible to finalize at the Twenty-ninth Meeting amounted to some US $13 million, potentially increasing the total expenditure in the triennium to US $522 million. The Executive Committee decided that, in order to facilitate, as far as possible, committal of the 1997-1999 replenishment, those projects and activities included in that US $13 million amount should be resubmitted to the Thirtieth Meeting and counted against the 1999 business plans.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/20, para. 46).

2000-2002 replenishment

The Tenth Meeting of the Parties decided:

1. to request the Technology and Economic Assessment Panel to prepare a report for submission to the Eleventh Meeting of the Parties, and present it through the Open-ended Working Group at its nineteenth meeting, to enable the Eleventh Meeting of the Parties to take a decision on the appropriate level of the 2000-2002 replenishment of the Multilateral Fund. In preparing its report, the Panel should take into account, inter alia:
   (a) all control measures, and relevant decisions, agreed by the Parties to the Montreal Protocol, including decisions agreed by the Tenth Meeting of the Parties, in so far as these will necessitate expenditure by the Multilateral Fund during the period 2000-2002;
   (b) the need to allocate resources to enable all Article 5 Parties to maintain compliance with the Montreal Protocol;
   (c) agreed rules and guidelines for determining eligibility for funding of investment projects (including the production sector) and non-investment projects;
   (d) approved country programmes;

(e) financial commitments in 2000-2002 relating to sectoral phase-out projects agreed by the Executive Committee;

(f) experience to date, including limitations and successes of the phase-out of ozone-depleting substances achieved with the resources already allocated, as well as the performance of the Multilateral Fund and its Implementing Agencies;

(g) the impact that the controls and country activities are likely to have on the supply and demand for ozone-depleting substances, and the effect that this will have on the cost of ozone-depleting substances and the resulting incremental cost of investment projects during the period under examination;

(h) administrative costs of the Implementing Agencies, taking into account paragraph 6 of decision VIII/4, and the cost of financing the secretariat services of the Multilateral Fund, including holding meetings;

2. that, in undertaking this task, the Technology and Economic Assessment Panel should consult widely with relevant persons and institutions and other relevant sources of information deemed useful;

3. that the Panel shall strive to complete its work in time to enable its report to be distributed to all Parties two months before the nineteenth meeting of the Open-ended Working Group.

(UNEP/OzL.Pro.10/9, Decision X/13).

The Eleventh Meeting of the Parties decided:

1. to adopt a budget for 2000-2002 of 475,700,000 United States dollars on the understanding that 35,700,000 United States dollars of that sum will be provided by funds not allocated during 1997-1999. The Parties noted that outstanding contributions from some Parties with economies in transition in the period 1997-1999 stood at 34,703,856 United States dollars;

2. to adopt the scale of contributions for the Multilateral Fund based on a replenishment of 440,000,000 United States dollars, of 146,666,666 United States dollars for 2000, 146,666,666 United States dollars for 2001, and 146,666,666 United States dollars for 2002, as it appears in Annex VI to the report of the Eleventh Meeting of the Parties;

3. that the Executive Committee should take action to ensure as far as possible that the whole of the budget for 2000-2002 is committed by the end of 2002, and that Parties not operating under Article 5 should make timely payments in accordance with paragraph 7 of decision XI/6.

(UNEP/OzL.Pro.11/10, Decision XI/7).

2003-2005 replenishment

The Thirteenth Meeting of the Parties decided:

1. to request the Technology and Economic Assessment Panel to prepare a report for submission to the 14th Meeting of the Parties, and present it through the Open-ended Working Group at its 22nd meeting, to enable the 14th Meeting of the Parties to take a decision on the appropriate level of the 2003-2005 replenishment of the Multilateral Fund. In preparing its report, the Panel should take into account, inter alia:

(a) all control measures, and relevant decisions, agreed by the Parties to the Montreal Protocol and the Executive Committee including decisions agreed by the 13th Meeting of the Parties and the 35th Meeting of the Executive Committee, in so far as these will necessitate expenditure by the Multilateral Fund during the period 2003-2005;

(b) the need to allocate resources to enable all Article 5 Parties to maintain compliance with the Montreal Protocol;

(c) agreed rules and guidelines for determining eligibility for funding of investment projects (including those in the production sector) and non-investment projects;

(d) approved country programmes;

(e) financial commitments in 2003-2005 relating to sectoral phase-out projects agreed by the Executive Committee;

(f) experience to date, including limitations and successes of the phase-out of ozone-depleting substances achieved with the resources already allocated, as well as the performance of the Multilateral Fund and its Implementing Agencies;

(g) the impact that the controls and country activities are likely to have on the supply and demand for ozone-depleting substances, and the effect that this will have on the cost of ozone-depleting substances and the resulting incremental cost of investment projects during the period under examination;

(h) administrative costs of the Implementing Agencies, taking into account paragraph 6 of decision VIII/4, and the cost of financing the secretariat services of the Multilateral Fund, including the holding of meetings;

2. that, in undertaking this task, the Technology and Economic Assessment Panel should consult widely with relevant persons and institutions and other relevant sources of information deemed useful;

3. that the Panel shall strive to complete its work in time to enable its report to be distributed to all Parties two months before the 22nd Meeting of the Open-ended Working Group.

(UNEP/OzL.Pro/13/10, Decision XIII/1).

The Thirteenth Meeting of the Parties also decided to set up an Ad Hoc Working Group on the 2003-2005 replenishment with membership comprising the following Parties operating under Article 5: Argentina, Brazil (Co-Chair), China, Colombia, India, Islamic Republic of Iran, Nigeria, Tanzania and Zimbabwe; and the following Parties not operating under Article 5: Australia, Finland (Co-Chair), France, Germany, Italy, Japan, Poland, United Kingdom of Great Britain and Northern Ireland and United States of America. The ad hoc working group will meet following the 22nd Meeting of the Open-ended Working Group to provide initial feedback to the Technology and Economic Assessment Panel and advice on sensitivity analyses.

(UNEP/OzL.Pro/13/10, Decision XIII/2).

The Fourteenth Meeting of the Parties decided:

1. to adopt a budget for 2003-2005 of $573,000,000 on the understanding that $76,000,000 of that sum will be provided by funds not allocated during 2000-2002, and that $23,000,000 of the same sum will be provided from interest accruing to the Fund and other sources during the 2003-2005 triennium. The Parties noted that outstanding contributions from some Parties with economies in transition in the period 2000-2002 stood at $10,585,046;

2. to adopt the scale of contributions for the Multilateral Fund based on a replenishment of $474,000,000, of $158,000,000 for 2003, $158,000,000 for 2004, and $158,000,000 for 2005 as it appears in Annex II to the report of the Fourteenth Meeting of the Parties;

3. that the Executive Committee should take action to ensure, as far as possible, that the whole of the budget for 2003-2005 is committed by the end of 2005, and that Parties not operating under Article 5 should make timely payments in accordance with paragraph 7 of Decision XI/6.

(UNEP/OzL.Pro.14/9, Decision XIV/39).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to take note of the report on financial planning for the triennium 2003-2005 contained in UNEP/OzL.Pro/ExCom/39/7;

(b) to adopt a resource allocation of US $224 million in 2003, US $191 million in 2004, and US $158 million in 2005;

(c) to urge countries with economies in transition that had not previously paid to pay their contributions to the Fund for the 2003-2005 triennium to enable the compliance of Article 5 countries with the 2005 and 2007 control measures of the Montreal Protocol, and to avoid shortfalls arising from non-payment or delayed payment of pledged contributions during the compliance period for Article 5 countries;

(d) also to urge contributing Parties to make their payments for the year 2003 by June 2003, in accordance with paragraph 7 of decision XI/6 of the Eleventh Meeting of the Parties, to enable the timely implementation of the three-year phase-out plan;

(e) that the US $248 million in resources available for new commitments should be allocated according to the compliance needs of Article 5 countries;

(f) that the total allocation for the bilateral projects during the triennium, 2003-2005, was US $47.4 million for planning purposes only, not as an absolute cap on the value of bilateral projects that could be submitted;

(g) to request contributing Parties that had not submitted an annual business plan for 2003 and/or a three-year

business plan to do so prior to the 40th Meeting of the Executive Committee;

(h) also to request the Sub-Committee on Monitoring, Evaluation and Finance to consider, at its 20th Meeting, the allocation of any resources from the total bilateral allocation not anticipated to be required by contributing Parties based on the bilateral business plan submitted to the 40th Meeting of the Executive Committee, in view of the compliance requirements of all Article 5 Parties;

(i) to note that the level of the bilateral allocation planned for the triennium did not limit the right of a party to use up to 20 per cent of its contribution for bilateral projects.

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/5, para. 36).
(Supporting document: UNEP/OzL.Pro/ExCom/39/8/Rev.1).

2006-2008 replenishment

The Sixteenth Meeting of the Parties decided:

1. to request the Technology and Economic Assessment Panel to prepare a report for submission to the Seventeenth Meeting of the Parties, and to present it through the Open-ended Working Group at its twenty-fifth meeting, to enable the Seventeenth Meeting of the Parties to take a decision on the appropriate level of the 2006–2008 replenishment of the Multilateral Fund. In preparing its report, the Panel should take into account, among other things:
   (a) all control measures, and relevant decisions, agreed by the Parties to the Montreal Protocol and the Executive Committee including decisions agreed by the Sixteenth Meeting of the Parties and the Executive Committee at its forty-fifth meeting, in so far as the decisions will necessitate expenditure by the Multilateral Fund during the period 2006–2008; in addition, the Technology and Economic Assessment Panel report should include a scenario which indicates costs associated with implementation by Parties operating under paragraph 1 of Article 5 of the adjustment relating to methyl bromide proposed by the European Community;
   (b) the need to allocate resources to enable all Parties operating under paragraph 1 of Article 5 to maintain compliance with Articles 2A–2I of the Montreal Protocol;
   (c) agreed rules and guidelines for determining eligibility for funding of investment projects (including those in the production sector), non-investment projects and sectoral or national phase-out plans;
   (d) approved country programmes;
   (e) financial commitments in 2006–2008 relating to national or sectoral phase-out plans agreed by the Executive Committee;
   (f) the provision of funds for accelerating phase-out and maintaining momentum, taking into account the time lag in project implementation;
   (g) experience to date, including limitations and successes of the phase-out of ozone-depleting substances achieved with the resources already allocated, as well as the performance of the Multilateral Fund and its Implementing Agencies;
   (h) the current trends in the cost of ozone-depleting substances and the resulting incremental costs of investment projects during the period under review;
   (i) administrative costs of the Implementing Agencies and the cost of financing the secretariat services of the Multilateral Fund, including the holding of meetings;
2. that, in undertaking this task, the Technology and Economic Assessment Panel should give due consideration to the evaluation and review of the financial mechanism of the Montreal Protocol to be undertaken by the Parties in 2004, pursuant to decision XIII/3;
3. that, in undertaking this task, the Panel should consult widely with all relevant persons and institutions and other relevant sources of information deemed useful;
4. that the Panel shall strive to complete its work in time to enable its report to be distributed to all Parties two months before the twenty-fifth Meeting of the Open-ended Working Group.

(UNEP/OzL.Pro.16/17, Decision XVI/35).

The Forty-fourth Meeting of the Executive Committee decided that the Chair and the Vice-Chair, as well as the

Chief Officer, should cooperate fully with the Technical and Economic Assessment Panel's study on the 2006 2008 replenishment of the Multilateral Fund.
(UNEP/OzL.Pro/ExCom/44/73, Decision 44/62, para. 259).

The Seventeenth Meeting of the Parties decided:

1. to adopt a budget for the Multilateral Fund for the Implementation of the Montreal Protocol for 2006–2008 of $470,000,000 on the understanding that $59,600,000 of that budget will be provided from anticipated contributions due to the Multilateral Fund and other sources for the 2003–2005 triennium, and that $10,000,000 will be provided from interest accruing to the Fund during the 2006–2008 triennium. The Parties note that outstanding contributions from some Parties with economies in transition in the period 2003–2005 stand at $7,511,984;
2. to adopt the scale of contributions for the Multilateral Fund based on a replenishment of $133,466,667 for 2006, $133,466,667 for 2007, and $133,466,666 for 2008 as it appears in annex III to the report of the seventh meeting of the Conference of the Parties to the Vienna Convention for the Protection of the Ozone Layer and the Seventeenth Meeting of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer;
3. that the Executive Committee should take action to ensure, as far as possible, that the whole of the budget for 2006–2008 is committed by the end of 2008, and that Parties not operating under paragraph 1 of Article 5 should make timely payments in accordance with paragraph 7 of decision XI/6.

(UNEP/OzL.Pro.17/11, Decision XVII/40).

The Forty-eighth Meeting of the Executive Committee decided:

(a) to note the report on financial planning for the 2006-2008 triennium contained in document UNEP/OzL.Pro/ExCom/48/5;

(b) to adopt a resource allocation of US $164.47 million in 2006, US $165.57 million in 2007, and US $139.96 million in 2008;

(c) to urge contributing Parties to make payments for the year 2006 by 1 June 2006 in accordance with paragraph 7 of decision XI/6 of the Eleventh Meeting of the Parties, and to enable the full commitment of the US $470 million budget during the 2006-2008 triennium, as foreseen in decision XVII/40 of the Seventeenth Meeting of the Parties (paragraph 3);

(d) to urge contributing Parties to pay the arrears amounting to US $38.8 million remaining from the 2003-2005 triennium during 2006, as the contributing Parties had already paid US $21 million of the US $59.6 million in arrears due as part of the 2006-2008 replenishment;

(e) to urge contributing Parties using promissory notes to enable the Treasurer to accelerate the encashment of promissory notes in accordance with decision 25/2;

(f) to urge countries with economies in transition that had not paid previously to make their contributions to the Multilateral Fund for the 2006 2008 triennium to facilitate the full implementation of the three-year phase-out plan in order to enable Article 5 countries to comply with the control measures of the Montreal Protocol, and also to avoid shortfalls arising from non-payment or delayed payment of pledged contributions during the compliance period for Article 5 countries;

(g) to agree that the amount of US $142 million in resources available for new commitments during the 2006 2008 triennium should be allocated as a first priority for the compliance needs of Article 5 countries; and

(h) to request that bilateral agencies specify the costs of planned activities in their annual business plans.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/3, para. 35).
(Supporting document: UNEP/OzL.Pro/ExCom/48/5).

2009-2011 replenishment

The Nineteenth Meeting of the Parties decided:

1. to request the Technology and Economic Assessment Panel to prepare a report for submission to the Twentieth Meeting of the Parties, and to present it through the Open-ended Working Group at its twenty-eighth meeting, to enable the Twentieth Meeting of the Parties to take a decision on the appropriate level of the 2009–2011 replenishment of the Multilateral Fund. In preparing its report, the Panel should take

into account, among other things:

(a) all control measures and relevant decisions agreed by the Parties to the Montreal Protocol and the Executive Committee, including decisions agreed by the Nineteenth Meeting of the Parties and the Executive Committee at its fifty third and fifty-fourth meetings insofar as those decisions will necessitate expenditure by the Multilateral Fund during the period 2009–2011, including scenarios which indicate eligible incremental costs and cost-efficiencies associated with implementation by Parties operating under paragraph 1 of Article 5 of the adjustments and decisions relating to HCFCs, and, in addition, the Panel should provide indicative figures for the periods 2012–2014 and 2015–2017 in order to provide information to support a stable level of funding that would be updated prior to figures for those periods being finalized;

(b) the need to allocate resources to enable all Parties operating under paragraph 1 of Article 5 to maintain compliance with Articles 2A–2I of the Montreal Protocol and possible new agreed compliance measures relevant to the period 2009–2011 under the Montreal Protocol;

(c) rules and guidelines agreed by the Executive Committee, up to and including its Fifty-fourth meeting, for determining eligibility for funding of investment projects (including those in the production sector), non-investment projects and sectoral or national phase-out plans;

(d) approved country programmes;

(e) financial commitments in 2009–2011 relating to national or sectoral phase-out plans agreed by the Executive Committee;

(f) the provision of funds for accelerating phase-out and maintaining momentum, taking into account the time lag in project implementation;

(g) experience to date, including limitations and successes of the phase-out of ozone depleting substances achieved with the resources already allocated, as well as the performance of the Multilateral Fund and its implementing agencies;

(h) the impact that the international market, ozone-depleting substance control measures and country phase out activities are likely to have on the supply of and demand for ozone-depleting substances, the corresponding effects on the price of ozone-depleting substances and the resulting incremental costs of investment projects during the period under review;

(i) administrative costs of the implementing agencies and the cost of financing the secretariat services of the Multilateral Fund, including the holding of meetings;

2. that, in undertaking this task, the Panel should consult widely with all relevant persons and institutions and other relevant sources of information deemed useful;

3. to request the Panel to provide additional information on the levels of funding required for replenishment in each of the years 2012, 2013 and 2014 and to study the financial and other implications of a possible longer replenishment period, in particular whether such a measure would provide for more stable levels of contributions;

4. that the Panel shall strive to complete its work in time to enable its report to be distributed to all Parties two months before the twenty-eighth Meeting of the Open-ended Working Group;

5. to request the Panel to take into account the conclusions resulting from the study conducted by the Executive Committee pursuant to paragraph 2 of decision XVIII/9 in the event that proposals for control measures related to the subject of that study are submitted to the Ozone Secretariat.

(UNEP/OzL.Pro.19/7, Decision XIX/10).

The Twentieth Meeting of the Parties decided"

1. to adopt a budget for the Multilateral Fund for the Implementation of the Montreal Protocol for 2009–2011 of $490,000,000 on the understanding that $73,900,000 of that budget will be provided from anticipated contributions due to the Multilateral Fund and other sources for the 2006–2008 triennium, and that $16,100,000 will be provided from interest accruing to the Fund during the 2009–2011 triennium. The Parties note that outstanding contributions from some Parties with economies in transition in the period 2006–2008 stand at $5,604,438;

2. to adopt the scale of contributions for the Multilateral Fund based on a replenishment of $133,333,334 for 2009, $133,333,333 for 2010, and $133,333,333 for 2011 as it appears in annex III to the report of the eighth meeting of the Conference of the Parties to the Vienna Convention for the Protection of the Ozone Layer and the Twentieth Meeting of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer;
3. that the Executive Committee should take action to ensure, as far as possible, that the whole of the budget for 2009–2011 is committed by the end of 2011, and that Parties not operating under paragraph 1 of Article 5 should make timely payments in accordance with paragraph 7 of decision XI/6.

(UNEP/OzL.Pro.20/9, Decision XX/10).

The Executive Committee at its Fifty-seventh Meeting decided:

(a) to note the report on financial planning for the 2009-2011 triennium as contained in document UNEP/OzL.Pro/ExCom/57/5;

(b) to request that bilateral agencies specify the costs of planned activities in their annual business plans and attempt to remain within the estimates specified when submitting the relevant projects during the 2009-2011 triennium;

(c) to urge contributing Parties to make payments no later than 1 June each year in accordance with paragraph 7 of decision XI/6 of the Eleventh Meeting of the Parties so as to enable full commitment of the US $490 million budget during the 2009-2011 triennium, as provided in paragraph 3 of decision XX/10 of the Twentieth Meeting of the Parties;

(d) to urge those contributing Parties with arrears from the 2006-2008 triennium to pay them during 2009 as they accounted for US $43.2 million of the US $73.9 million carry-over from the 2006-2008 triennium;

(e) to request those contributing Parties that had not provided for accelerated encashment of promissory notes to consider allowing an accelerated encashment schedule or adjusting their encashment schedule for future promissory notes so that they corresponded to the year in which the contributions were due;

(f) to urge countries with economies in transition that had never paid to make their contributions to the Multilateral Fund for the 2009-2011 triennium;

(g) to adopt a resource allocation of US $106 million in 2009, US $181 million in 2010, and US $203 million in 2011;

(h) to consider the availability of cash flow for the 2011 budget at the first Meeting of the Executive Committee in 2011 in light of the collection of interest, the payment of contributions from countries that had not previously paid, and any losses due to non-payment or the fixed-exchange-rate mechanism; and

(i) in the context of business planning, to monitor the impact of the allocation of annual tranche funding in multi-year agreements on the new indicative allocation of US $340.6 million in the budget for the 2009-2011 triennium to enable as many HCFC phase-out plans for as many countries as possible to be accommodated during the triennium.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/4, para. 40).
(Supporting document: UNEP/OzL.Pro/ExCom/57/5).

The Executive Committee at its Sixty-third Meeting decided:

(a) To note the information on the availability of cash flow for the 2011 budget, as contained in document UNEP/OzL.Pro/ExCom/63/5;

(b) To agree on a 2011 budget of US $275.4 million, while noting that only US $220.6 million were likely to be available in 2011; and

(c) To urge Parties with fixed encashment schedules to accelerate those encashment schedules for their promissory notes, as needed.

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/3, para. 30).
(Supporting document: UNEP/OzL.Pro/ExCom/63/5).

2012-2014 replenishment

The Twenty-second Meeting of the Parties decided:

1. To request the Technology and Economic Assessment Panel to prepare a report for submission to the

Twenty-Third Meeting of the Parties, and to present it through the Open-ended Working Group at its thirty-first meeting, to enable the Twenty-Third Meeting of the Parties to take a decision on the appropriate level of the 2012–2014 replenishment of the Multilateral Fund;

2. That, in preparing the report referred to in the preceding paragraph, the Panel should take into account, among other things:
   (a) All control measures and relevant decisions agreed upon by the parties to the Montreal Protocol and the Executive Committee, in particular those related to the special needs of low volume and very-low-volume-consuming countries, and decisions agreed upon by the Twenty Second Meeting of the Parties and the Executive Committee at its sixty-first and sixty-second meetings insofar as those decisions will necessitate expenditure by the Multilateral Fund during the period 2012–2014;
   (b) The need to allocate resources to enable all parties operating under paragraph 1 of Article 5 of the Montreal Protocol to maintain compliance with Articles 2A–2E, 2G and 2I of the Protocol;
   (c) The need to allocate resources to enable all parties operating under paragraph 1 of Article 5 to meet 2013 and 2015 compliance obligations in respect of Articles 2F and 2H of the Protocol;
   (d) Rules and guidelines agreed upon by the Executive Committee at all meetings, up to and including its sixty-second meeting, for determining eligibility for the funding of investment projects, non-investment projects, including institutional strengthening, measures to combat illegal trade and sectoral or national phase-out plans, including hydrochlorofluorocarbon phase-out management plans, measures to manage banks of ozone-depleting substances and ozone-depleting substance destruction projects;
   (e) The impact that the international market, ozone-depleting substance control measures and country phase-out activities are likely to have on the supply of and demand for ozone-depleting substances, the corresponding effects on the price of ozone-depleting substances and the resulting incremental costs of investment projects during the period under review;
3. That, in preparing the report referred to above, the Panel should consult widely all relevant persons and institutions and other relevant sources of information deemed useful;
4. That the Panel shall strive to complete the report referred to above in time to enable it to be distributed to all parties two months before the thirty-first meeting of the Open-ended Working Group;
5. That the Panel should provide indicative figures for the periods 2015–2017 and 2018 2020 to support a stable and sufficient level of funding, on the understanding that those figures will be updated in subsequent replenishment studies;

(UNEP/OzL.Pro.22/9, Decision XXII/3).

The Twenty-third Meeting of the Parties decided:

1. To adopt a budget for the Multilateral Fund for the Implementation of the Montreal Protocol for 2012–2014 of $450,000,000 on the understanding that $34,900,000 of that budget will be provided from anticipated contributions due to the Multilateral Fund and other sources for the 2009 2011 triennium, and that $15,100,000 will be provided from interest accruing to the Fund during the 2012–2014 triennium. The parties note that outstanding contributions from some parties with economies in transition in the period 2009–2011 stand at $5,924,635;
2. To adopt the scale of contributions for the Multilateral Fund based on a replenishment of $133,333,334 for 2012, $133,333,333 for 2013, and $133,333,333 for 2014 as it appears in annex III to the report of the ninth meeting of the Conference of the Parties to the Vienna Convention and the Twenty-third Meeting of the Parties to the Montreal Protocol;
3. That the Executive Committee should take action to ensure, as far as possible, that the whole of the budget for 2012–2014 is committed by the end of 2014, and that parties not operating under paragraph 1 of Article 5 should make timely payments in accordance with paragraph 7 of decision XI/6;

(UNEP/OzL.Pro.23/11, Decision XXIII/15).

The Executive Committee at its Sixty-sixth Meeting decided:

(a) To take note of the report on financial planning for the 2012-2014 triennium contained in document

UNEP/OzL.Pro/ExCom/66/5;

(b) To request:

(i) That bilateral agencies specify the costs of planned activities in their annual business plans and make efforts to remain within the estimates specified when submitting those projects during the 2012-2014 triennium;

(ii) Those contributing Parties that did not provide for accelerated encashment of promissory notes to consider either allowing the Treasurer to accelerate the encashment schedule or adjusting their encashment schedules for future promissory notes to correspond to the year in which the contributions were due;

(iii) The Government of Germany to provide an update through the Treasurer on its efforts with regard to encashment of its promissory notes prior to the 67th meeting of the Executive Committee;

(c) To urge:

(i) Parties to pay their contributions for each year by June, in accordance with paragraph 7 of decision XI/6 of the Eleventh Meeting of the Parties, so as to enable full commitment of the US $450 million budget during the 2012-2014 triennium, as provided in paragraph 3 of decision XXIII/15 of the Twenty-third Meeting of the Parties;

(ii) Those contributing Parties with arrears from the 2009-2011 triennium to pay them during 2012, as they accounted for US $10.3 million of the US $34.9 million carry-over from the 2009-2011 triennium, noting that US $24.6 million of the funds carried over were available for commitment;

(iii) Countries with economies in transition that had not previously paid their contributions to make their contributions to the Multilateral Fund for the 2012 2014 triennium;

(d) To consider the availability of cash flow for the 2014 budget at the first meeting of 2014 in light of the collection of interest, the payment of contributions from Parties that had not previously paid, and any losses due to non-payment or the fixed-exchange-rate mechanism; and

(e) To adopt a resource allocation of US $145 million in 2012, US $145 million in 2013, and US $160 million in 2014, with any unallocated funds to be allocated subsequently during the 2012-2014 triennium.

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/3, para. 27).
(Supporting document: UNEP/OzL.Pro/ExCom/66/5).

2015-2017 replenishment

The Twenty-fifth Meeting of the Parties decided:

Recalling the parties' decisions on previous terms of reference for studies on the replenishment of the Multilateral Fund for the Implementation of the Montreal Protocol,

Recalling also the parties' decisions on previous replenishments of the Multilateral Fund,

1. To request the Technology and Economic Assessment Panel to prepare a report for submission to the Twenty-Sixth Meeting of the Parties, and to submit it through the Open-ended Working Group at its thirty-fourth meeting, to enable the Twenty-Sixth Meeting of the Parties to take a decision on the appropriate level of the 2015–2017 replenishment of the Multilateral Fund;

2. That, in preparing the report referred to in paragraph 1 of the present decision, the Panel should take into account, among other things:

(a) All control measures and relevant decisions agreed upon by the parties to the Montreal Protocol and the Executive Committee, in particular those pertaining to the special needs of low volume- and very-low-volume-consuming countries, in addition to small and medium-sized enterprises, and the decisions of the Twenty Fifth Meeting of the Parties and the Executive Committee at its seventieth and seventy-first meetings insofar as those decisions will necessitate expenditure by the Multilateral Fund during the period 2015–2017;

(b) The need to allocate resources to enable all parties operating under paragraph 1 of Article 5 to maintain compliance with Articles 2A–2E, 2G and 2I of the Protocol;

(c) The need to allocate resources to enable all parties operating under paragraph 1 of Article 5 to maintain or

meet 2013, 2015 and 2020 compliance obligations in respect of Articles 2F and 2H of the Protocol, taking into account the extended commitment provided by parties operating under paragraph 1 of Article 5 under approved hydrochlorofluorocarbon phase-out management plans;

(d) Dividing the funding relating to the 2020 target applicable to hydrochlorofluorocarbon consumption and production in an appropriate manner, including, but not limited to, one scenario that divides the funding relating to the 2020 target applicable to hydrochlorofluorocarbon consumption equally between the 2015-2017 and 2018–2020 replenishments;

(e) Rules and guidelines agreed upon by the Executive Committee at all its meetings, up to and including its seventy-first meeting, for determining eligibility for the funding of investment projects and non-investment projects, including, but not limited to, institutional strengthening;

(f) The need to allocate sufficient resources to the activities in the servicing sector in stage II of hydrochlorofluorocarbon phase-out management plans through technical assistance such as recovery, training and other necessary activities;

3. That, as a separate element to the funding requirement estimated in paragraph 2 of the present decision, the Panel should provide indicative figures for additional resources that would be needed to enable parties operating under paragraph 1 of Article 5 to gradually avoid high-global-warming-potential alternatives to ozone-depleting substances, taking into account the availability of safe, environmentally friendly, technically proven and economically viable technologies;

4. That, in preparing the said report, the Panel should consult widely all relevant persons and institutions and other relevant sources of information deemed useful;

5. That the Panel should strive to complete the report referred to above in good time to enable it to be distributed to all parties two months before the thirty-fourth meeting of the Open-ended Working Group;

6. That the Panel should provide indicative figures for the periods 2018–2020 and 2021 2023 to support a stable and sufficient level of funding, on the understanding that those figures will be updated in subsequent replenishment studies;

(UNEP/OzL.Pro.25/9, Decision XXV/8).

The Twenty-sixth Meeting of the Parties decided:

1. To adopt a budget for the Multilateral Fund for the Implementation of the Montreal Protocol for 2015–2017 of $507,500,000 on the understanding that $64,000,000 of that budget will be provided from anticipated contributions due to the Multilateral Fund and other sources for the 2012-2014 triennium, and that $6,000,000 will be provided from interest accruing to the Fund during the 2015–2017 triennium. The parties note that outstanding contributions from some parties with economies in transition in the period 2012–2014 stands at $8,237,606;

2. To adopt the scale of contributions for the Multilateral Fund based on a replenishment of $145,833,333 for 2015, $145,833,333 for 2016, and $145,833,333 for 2017 as it appears in annex III to the report of the tenth meeting of the Conference of the Parties to the Vienna Convention and the Twenty-Sixth Meeting of the Parties to the Montreal Protocol;

3. That the Executive Committee should take action to ensure, as far as possible, that the whole of the budget for 2015–2017 is committed by the end of 2017, and that parties not operating under paragraph 1 of Article 5 should make timely payments in accordance with paragraph 7 of decision XI/6;

(UNEP/OzL.Conv.10/7-UNEP/OzL.Pro.26/10, Decision XXVI/10).

The Seventy-fourth Meeting of the Executive Committee decided:

(e) To note that the Government of Germany had been able to reduce the schedule of payment of its promissory notes for the 2015-2017 replenishment period from five to four years and that it was committed to fitting the encashment schedule within the triennium for the 2018-2020 replenishment period.

(UNEP/OzL.Pro/ExCom/74/56, Decision 74/1 para.26 (e)).

The Seventy-fourth Meeting of the Executive Committee decided:

(c) To adopt a resource allocation of US $179.9 million in 2015, US $173.8 million in 2016, and US $153.8 million

in 2017, with any unallocated funds to be allocated subsequently during the 2015-2017 triennium; and

(d) To consider the availability of cash flow for the 2016 and 2017 budgets at the first meeting of 2016 in light of the collection of interest, unexpected return of unused balances from projects/agreements, the payment of pledges from trienniums prior to the last replenishment, any losses due to non-payment of pledges expected from the last replenishment, and any losses or gains due to the fixed-exchange-rate mechanism.

((UNEP/OzL.Pro/ExCom/74/56, Decision 74/3, para.34(c)and (d)).

2018-2020 replenishment

The Twenty-eighth Meeting of the Parties decided:

1. To request the Technology and Economic Assessment Panel to prepare a report for submission to the Twenty-Ninth Meeting of the Parties, and to submit it through the Open-ended Working Group at its thirty-ninth meeting, to enable the Twenty-Ninth Meeting of the Parties to adopt a decision on the appropriate level of the 2018–2020 replenishment of the Multilateral Fund;
2. That, in preparing the report referred to in paragraph 1 of the present decision, the Panel should take into account, among other things:
   (a) All control measures and relevant decisions agreed upon by the parties to the Montreal Protocol and the Executive Committee of the Multilateral Fund, in particular those pertaining to the special needs of low volume- and very-low-volume-consuming countries, in addition to small and medium-sized enterprises, and the decisions of the Twenty Eighth Meeting of the Parties and the Executive Committee at its meetings, up to and including its seventy-eighth meeting, insofar as those decisions will necessitate expenditure by the Multilateral Fund during the period 2018–2020;
   (b) The need to allocate resources to enable all parties operating under paragraph 1 of Article 5 of the Montreal Protocol (Article 5 parties) to achieve and/or maintain compliance with Articles 2A–2E, 2G, 2H, 2I and 2J of the Protocol;
   (c) The need to allocate resources to enable all Article 5 parties to meet compliance obligations relevant in the replenishment period 2018–2020 in respect of Article 2F of the Protocol, providing support for a transition to low-global-warming-potential (GWP) or zero-GWP alternatives in hydrochlorofluorocarbon (HCFC) phase-out, taking into account decision XIX/6 of the Meeting of the Parties and the extended commitments made by Article 5 parties under approved HCFC phase-out management plans;
   (d) Rules and guidelines agreed upon by the Executive Committee at all its meetings, up to and including its seventy-eighth meeting, for determining eligibility for the funding of investment projects and non-investment projects, including, but not limited to, institutional strengthening;
3. That the Technology and Economic Assessment Panel should provide indicative figures of the resources within the estimated funding required for phasing out HCFCs that could be associated with enabling Article 5 parties to encourage the use of low-GWP or zero-GWP alternatives and indicative figures for any additional resources that would be needed to further encourage the use of low-GWP or zero-GWP alternatives;
4. The need for additional resources to enable Article 5 parties to carry out initial activities related to the phase-down of HFCs listed under Annex F and controlled under Article 2J;
5. That in preparing the report the Panel should consult widely, including all relevant persons and institutions and other relevant sources of information deemed useful;
6. That the Panel should strive to complete the report in good time to enable it to be distributed to all parties two months before the thirty-ninth meeting of the Open-ended Working Group;
7. That the Panel should provide indicative figures for the periods 2021–2023 and 2024 2026 to support a stable and sufficient level of funding, on the understanding that those figures will be updated in subsequent replenishment studies;

(UNEP/OzL.Pro.28/11, Decision XXVIII/5).

The Twenty-ninth Meeting of the Parties decided:

1. To adopt a budget for the Multilateral Fund for the Implementation of the Montreal Protocol for the triennium 2018–2020 of $540,000,000, on the understanding that $34,000,000 of that budget will be provided from

anticipated contributions due to the Multilateral Fund and other sources for the triennium 2015–2017, and that $6,000,000 will be provided from interest accruing to the Fund during the triennium 2018–2020. The parties note that outstanding contributions from parties with economies in transition in the period 2015–2017 amount to $10,452,429;

2. Also to adopt the scale of contributions for the Multilateral Fund based on a replenishment of $166,666,667 for 2018, $166,666,667 for 2019 and $166,666,666 for 2020, as it appears in annex III to the report of the combined eleventh meeting of the Conference of the Parties to the Vienna Convention and the Twenty-Ninth meeting of the Parties to the Montreal Protocol;

3. That the Executive Committee should take action to ensure, to the extent possible, that the entire budget for the triennium 2018–2020 is committed by the end of 2020 and that parties not operating under paragraph 1 of Article 5 should make timely payments in accordance with paragraph 7 of decision XI/6;

(UNEP/OzL.Pro.29/8, Decision XXIX/1).

The Eighty-first Meeting of the Executive Committee decided:

(b) To adopt resource allocations of US $194.4 million in 2018, US $174.6 million in 2019, and US $171 million in 2020;

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/27(b), para 96)
(Supporting document: UNEP/OzL.Pro/ExCom/81/12).

2021-2023 replenishment

The Thirty-first Meeting of the Parties decided:

1. To request the Technology and Economic Assessment Panel to prepare a report for submission to the Thirty-Second Meeting of the Parties, and to submit it through the Open-ended Working Group at its forty-second meeting, to enable the Thirty-Second Meeting of the Parties to adopt a decision on the appropriate level of the 2021–2023 replenishment of the Multilateral Fund;
2. That, in preparing the report referred to in paragraph 1 of the present decision, the Panel should take into account, among other things:
   (a) All control measures and relevant decisions agreed upon by the parties to the Montreal Protocol and the Executive Committee of the Multilateral Fund, including decision XXVIII/2, and the decisions of the Thirty-First Meeting of the Parties and the Executive Committee at its meetings, up to and including its eighty-fifth meeting, insofar as those decisions will necessitate expenditure by the Multilateral Fund during the period 2021–2023;
   (b) The need to consider the special needs of low-volume-consuming and very-low-volume-consuming countries;
   (c) The need to allocate resources to enable all parties operating under paragraph 1 of Article 5 of the Montreal Protocol (Article 5 parties) to achieve and/or maintain compliance with Articles 2A–2J of the Protocol, taking into account decision XIX/6 of the Meeting of the Parties, and the reductions and extended commitments made by Article 5 parties under approved hydrochlorofluorocarbon (HCFC) phase-out management plans, and decision XXVIII/2, and noting that the Panel in its supplementary report shall provide any information or clarification as requested by any party relating to the allocation of resources;
   (d) Decisions, rules and guidelines agreed by the Executive Committee at all its meetings, up to and including its eighty-fifth meeting, in determining eligibility for the funding of investment projects and non-investment projects;
   (e) The need to allocate resources for Article 5 parties to comply with the Kigali Amendment to the Montreal Protocol, including the preparation and, if needed, the implementation of phase-down plans for hydrofluorocarbons (HFCs) that could include early activities in the servicing/end users sector in order to comply with the Kigali Amendment by addressing the high growth rate in HFC consumption;
   (f) The need to allocate resources to the low-volume-consuming countries for the introduction of zero-global-warming-potential or low-global-warming-potential alternatives to HFCs and to maintain energy efficiency in the servicing/end users sector, in line with any relevant decisions of the Executive Committee;

(g) Three scenarios representing different potential levels of ratification of the Kigali Amendment when estimating the funding requirement for the phase-down of HFCs;
(h) The cost of supporting a limited number of stand-alone projects transitioning out of HFCs, in accordance with paragraph 4 of decision XXX/5;

3. That the Panel should provide indicative figures of the resources within the estimated funding required for phasing out HCFCs that could be associated with enabling Article 5 parties to directly transition from HCFCs to the use of low-global-warming-potential or zero-global-warming-potential alternatives, taking into account global warming potential, energy use, safety and other relevant factors. The indicative figures should be provided for a range of typical scenarios, including a low-volume-consuming country, a small manufacturing country and a medium-sized manufacturing country;
4. That, in preparing the report, the Panel should consult widely, including all relevant persons and institutions and other relevant sources of information deemed useful;
5. That the Panel should strive to complete the report in good time to enable it to be distributed to all parties two months before the forty-second meeting of the Open-ended Working Group;
6. That the Panel should provide indicative figures for the periods 2024–2026 and 2027–2029 to support a stable and sufficient level of funding, on the understanding that those figures will be updated in subsequent replenishment studies.

(UNEP/OzL.Pro.31/9/Add.1, Decision XXXI/1).

The Thirty-third Meeting of the Parties decided:

1. To adopt the level of indicative contributions for the parties listed in table A, set forth in the annex to the present decision, for 2022 on an interim basis pending a final decision by the Meeting of the Parties on a revised budget for the Multilateral Fund for the triennium 2021–2023;
2. That any contributions made by parties in advance of a final decision on the revised budget for the Multilateral Fund for the triennium 2021–2023 shall be without prejudice to the overall level of the replenishment or to the agreed level of contributions by parties.

Annex to decision XXXIII/2

United Kingdom of Great Britain and Northern Ireland	USD 11 247 500

* Based on the amounts set out in annex III to the report of the combined eleventh meeting of the Conference of the Parties to the Vienna Convention and Twenty-Ninth Meeting of the Parties to the Montreal Protocol.

** Subject to government procedures and approval.

(UNEP/OzL.Pro.33/8/Add.1, Decision XXXIII/2).

The Fifth Extraordinary Meeting of the Parties decided:

1. To adopt a budget for the Multilateral Fund for the Implementation of the Montreal Protocol for the triennium 2021–2023 of $540,000,000, on the understanding that $65,000,000 of that budget will be provided from the contributions due to the Multilateral Fund and from other sources for the triennium 2018-2020;

2. To note that $246 million in remaining funds that were due to the Multilateral Fund during the triennium 2018–2020 will be used after 2023 to support the implementation of the Montreal Protocol;

3. To note that outstanding contributions from parties with economies in transition for the period 2018-2020 amount to $3,659,668;

4. To adopt the scale of contributions for the Multilateral Fund for the triennium 2021-2023 based on replenishment of $475 million for the triennium 2021–2023 as it appears in the annex to the report of the Fifth Extraordinary Meeting of the Parties to the Montreal Protocol;

5. That the Executive Committee of the Multilateral Fund should take action to ensure, to the extent possible, that the entire budget for the triennium 2021–2023 is committed by the end of 2023 and that parties not operating under paragraph 1 of Article 5 should make timely payments in accordance with paragraph 7 of decision XI/6.

(UNEP/OzL.Pro.ExMOP.5/3/Add.1, Decision Ex.V/1)

2024-2026 replenishment

The Thirty-fourth Meeting of the Parties decided:

1. To request the Technology and Economic Assessment Panel to prepare a report for submission to the Thirty-Fifth Meeting of the Parties to the Montreal Protocol, and to submit it through the Open-ended Working Group of the Parties to the Montreal Protocol at its forty-fifth meeting, to enable the Thirty-Fifth Meeting of the Parties to adopt a decision on the appropriate level of the 2024–2026 replenishment of the Multilateral Fund;

2. That, in preparing the report referred to in paragraph 1 of the present decision, the Panel should take into account, among other things:

(a) All control measures and relevant decisions agreed upon by the parties to the Montreal Protocol and the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, including paragraphs 9 to 25 of decision XXVIII/2, and the decisions of the Thirty Fourth Meeting of the Parties and the Executive Committee at its meetings, up to and including its ninety-second meeting, insofar as those decisions will necessitate expenditure by the Multilateral Fund during the period 2024–2026;

(b) The special needs of low volume-consuming and very low volume-consuming countries;

(c) The need to allocate resources to enable all parties operating under paragraph 1 of Article 5 of the Montreal Protocol to comply with Articles 2A–2J of the Protocol, and the reductions and extended commitments made by parties operating under paragraph 1 of Article 5 under approved hydrochlorofluorocarbon (HCFC) phase-out management plans and Kigali hydrofluorocarbon (HFC) implementation plans;

(d) Decisions, rules and guidelines agreed by the Executive Committee at all its meetings, up to and including its ninety-second meeting, in determining eligibility for the funding of investment projects and non-investment projects;

(e) The need to allocate resources for activities to maintain and/or enhance energy efficiency while phasing down HFCs, including those relating to pilot and demonstration projects, in accordance with any energy efficiency cost guidance developed by the Executive Committee, or, should the Executive Committee not adopt cost guidance in time to be considered in the report, for a scenario for a funding window to support such activities;

(f) The need to allocate resources for supporting activities related to gender mainstreaming as part of the gender policy of the Multilateral Fund, taking into account the implementing agencies' existing policies to promote gender mainstreaming and the mandate set out in Executive Committee decision 84/92;

(g) The need to allocate resources for a funding window for activities to support end-of-life management and disposal of controlled substances in an environmentally sound manner, in accordance with any relevant decisions by the Executive Committee, or, should the Executive Committee not adopt relevant decisions in time to be considered in the report, for a scenario for funding a limited number of demonstration projects;

(h) A scenario to increase funding for institutional strengthening and the compliance assistance programme to assist parties operating under paragraph 1 of Article 5 to strengthen their national capacities to address challenges associated with implementing the Kigali Amendment;

3. That, in estimating the funding requirement associated with the HCFC and HFC targets, the Panel will use a clearly explained compliance-based methodology that is informed by, but independent of, the business plan of the Multilateral Fund, taking into account policy guidance provided by the Meeting of the Parties and/or the Executive Committee;

4. That the Panel should provide indicative figures associated with enabling parties operating under paragraph 1 of Article 5 to implement HCFC phase-out management plans and Kigali HFC implementation plans in a coordinated manner. Indicative figures should be provided for a range of typical scenarios, using all relevant data available to the Panel;

5. That, in preparing the report, the Panel should consult widely, including all relevant persons and institutions and other relevant sources of information deemed useful;

6. That the Panel should strive to complete the report in good time to enable it to be distributed to all parties two months before the forty-fifth meeting of the Open-ended Working Group;

7. That the Panel should provide indicative figures for the periods 2027–2029 and 2030-2032 to support a stable and sufficient level of funding, on the understanding that those figures will be updated in subsequent replenishment studies.

(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/2).

The Thirty-fifth Meeting of the Parties decided:

1. To adopt a budget for the Multilateral Fund for the Implementation of the Montreal Protocol on Substances that Deplete the Ozone Layer for the triennium 2024–2026 of 965 million United States dollars, on the understanding that 428,699,680 dollars of that budget will be provided from anticipated contributions due to the Multilateral Fund and other sources for the triennium 2021–2023, and that 10,700,320 dollars will be provided from interest accruing to the Fund during the triennium 2024–2026;[1]
2. To adopt the scale of contributions for the Multilateral Fund based on a replenishment of 175.2 million dollars for 2024, 175.2 million dollars for 2025 and 175.2 million dollars for 2026, as set out in the annex to the present decision;
3. That the Executive Committee should take action to ensure, to the extent possible, that the entire budget for the triennium 2024–2026 is committed by the end of 2026, and that parties not operating under paragraph 1 of Article 5 of the Montreal Protocol should make timely payments in accordance with paragraph 7 of decision XI/6.

(UNEP/OzL.Pro.35/12/Add.1, Decision XXXV/1).

BUSINESS PLAN OF THE MULTILATERAL FUND

Three-year (1994-1996) business plan of the Multilateral Fund

The Executive Committee adopted the proposed three-year plan and budget (1994-1996) for submission to the meeting of the Open-ended Working Group (Geneva, August 1993).
(UNEP/OzL.Pro/ExCom/10/40, para. 144).
(Supporting document: UNEP/OzL.Pro/ExCom/10/40, Annex II).

Financial planning and projections of cash flow for the triennium 1997-1999

Having considered the report of the Secretariat on financial planning and projections of cash flow for the triennium 1997-1999 (UNEP/OzL.Pro/ExCom/21/5), the Executive Committee decided:

(a) to note that the 1997-1999 budget approved by the Parties consisted of US $74 million carried over from 1996 and US $466 million in new pledges, with the new pledges being assessed at US $155,333,333 for each year of the triennium;

(b) to agree that, as the most effective way of using the carry-over to assist all countries in meeting their 1999 freeze obligations, the entire US $74 million should be allocated to the 1997 budget, for planning purposes;

(c) that financial planning by the Executive Committee for the triennium should be based on the amounts that, based on historical precedent, it knew would actually be paid into the Multilateral Fund;

(d) that eligible projects for which no funding was immediately available would, as in the past, be cleared for approval pending receipt of the necessary funds;

(e) that the Executive Committee would review annually the level of pledged funds that were actually paid into the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/21/36, Decision 21/3, para. 9).
(Supporting document: UNEP/OzL.Pro/ExCom/21/5).

Three-year (1997-1999) business plan of the Multilateral Fund

The Twenty-first Meeting of the Executive Committee decided:

(a) to take note of the three-year (1997-1999) business plan of the Multilateral Fund;

(b) to note that decision 21/3, subparagraph (b), by which it decided to allocate all of the US $74 million carry-over from the triennium 1994-1996 to the budget for 1997, would be reflected in section III of the

[1] In decision Ex.V/1 on replenishment for the triennium 2021–2023, the parties noted, in paragraph 2, that 246 million United States dollars in remaining funds that were due to the Multilateral Fund during the triennium 2018–2020 would be used after 2023 to support the implementation of the Montreal Protocol.

1997-1999 business plan;

(c) that sections III and IV of the plan should be revised, and that section V should be expanded to take into account the comments made during the meeting;

(d) to note the need to improve the business plans for the year 1998 and future years, bearing in mind that, in preparing previous business plans, the most effective procedure had not always been followed, namely, planning of activities first, to be followed by implementation, which would be monitored, and, on the basis of that monitoring, revision and continuation of the activities.

(UNEP/OzL.Pro/ExCom/21/36, Decision 21/4 (para 10).
(Supporting document: UNEP/OzL.Pro/ExCom/21/6).

The Twenty-second Meeting of the Executive Committee decided:

(a) to endorse the targets for ODS approvals and expenditures for the triennium, noting that the 1998 and 1999 figures were indicative only and would be reviewed at the next meeting of the Executive Committee, and taking into consideration the following elements:

(i) the Multilateral Fund, in 1997 and the first half of 1998, would give priority to approving projects with the highest ODP value and short implementation duration for countries that had yet to meet their freeze obligations. This would allow these projects to be implemented before 1 July 1999 in order to curtail the ODS consumption growth in these countries;

(ii) the Fund would continue to provide funding for all ODS consumption sectors to enable all Article 5 countries to maintain the momentum of phase-out according to the strategies in their country programmes;

(iii) halon would continue to receive high priority due to its high ODP value and the cost-effectiveness of halon phase-out projects. This would include consideration of the first sectoral phase-out programme from an Article 5 country in the halon sector;

(iv) the Fund would continue the practice of setting up a special allocation for LVCs. Implementing Agencies should be encouraged to target funds to assist those countries;

(v) funding of full and gradual closure projects in the production sector would be considered during this triennium. Considering that the guidelines for shutting down ODS production facilities would be ready in 1997, and project formulation would be under way in the same year, allocations for the production sector would be made in 1998 and 1999;

(vi) future budgets should include project preparation funds for investment projects under investment, rather than non-investment, allocations;

(b) to request the Secretariat to send letters around mid-year to all countries involved in bilateral activities, asking whether they intended to utilize the full amount allocated to them for bilateral activities. If they did not intend to do so, those funds could be reallocated;

(c) to insert a new line in Table 3 of the three-year business plan of the Multilateral Fund (UNEP/OzL.Pro/ExCom/22/12), after the investment line, entitled "Funds reserved for preparation of investment projects";

(d) to take into account the possible increase in the importance of non-investment projects.

(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/11 (para 26).
(Supporting document: UNEP/OzL.Pro/ExCom/22/12).

Consolidated business plan of the Multilateral Fund for the year 2000

The Twenty-ninth Meeting of the Executive Committee decided:

(a) to note with concern the limited coverage of countries in the consolidated draft business plan for the year 2000;

(b) that, if the Parties were to agree a level of replenishment lower than the current triennium (1997-1999), the Executive Committee should maintain the indicative figure approved by the Executive Committee at its Twenty-eighth Meeting for the year 2000 and change the allocation for the years 2001 and 2002. If the agreed level of replenishment is higher, then the resource allocation should be increased equally on a pro

rata basis for each year of the triennium (2000 to 2002);

(c) to note that the issue of including in business plans countries that had not yet ratified the London Amendment would be reviewed by the Executive Committee at its Thirtieth Meeting.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/12, para. 31).

The Twenty-ninth Meeting of the Executive Committee also decided:

(a) to hold, at its Thirtieth Meeting, an in-depth debate among all members, focusing on the issues of the sectoral aspects of ODS phase-out, the status of all Article 5 countries in terms of meeting their commitments under the Montreal Protocol, an analysis of global needs for the attainment of ODS phase-out targets and a strategic plan for ensuring global coverage by the Multilateral Fund;

(b) to authorize the Secretariat of the Multilateral Fund to prepare the draft three-year business plan of the next triennium for consideration by the Executive Committee at its Thirtieth Meeting. This, together with other relevant Secretariat analyses, would be the platform for the discussion on the strategic planning for the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/13, para. 34).

The Thirtieth Meeting of the Executive Committee decided:

(a) to take note of the consolidated business plan of the Multilateral Fund for the year 2000 (UNEP/OzL.Pro/ExCom/30/10 and Corr.1);

(b) that countries which had not ratified the London Amendment might be maintained in the 2000 business plan of the Multilateral Fund;

(c) to request the Secretariat to write to Parties which had not ratified the London Amendment to the Montreal Protocol requesting them to proceed rapidly with ratification;

(d) also to request the Implementing Agencies to emphasize further the need to ratify the London Amendment to the Montreal Protocol in their consultations with Article 5 Parties;

(e) to adopt the disbursement target of US $148.8 million and the phase-out target of 29,542 ODP tonnes for the year 2000.

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/13, para. 32).

Consolidated business plan of the Multilateral Fund for the year 2001

The Thirty-second Meeting of the Executive Committee decided:

(a) to note the consolidated draft business plan of the Multilateral Fund for the year 2001 (UNEP/OzL.Pro/ExCom/32/11);

(b) to determine the appropriateness of mechanisms to ensure funding in 2001 for the compliance of Article 5 countries with the initial control measures of the Montreal Protocol, and establish the criteria for those mechanisms, if and where relevant.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/8, para. 19).
(Supporting document: UNEP/OzL.Pro/ExCom/32/11).

The Thirty-third Meeting of the Executive Committee decided:

(a) to note the planned increase in forward commitments and also the increase in the number of countries that appeared to be able to achieve compliance with the approval and implementation of planned activities in the 2001 business plan;

(d) to request the Multilateral Fund Secretariat to send a letter to Article 5 countries, in the context of future business planning, to advise on what was left of the ODS consumption in their domestic and commercial refrigeration manufacturing subsectors;

(e) to adopt a phase-out target of 13,926 ODP tonnes and a disbursement target of US $118 million for activities already financed by the Multilateral Fund to be achieved in 2001;

(f) to note the consolidated 2001 business plan of the Multilateral Fund (UNEP/OzL.Pro/ExCom/33/8 and Corr.1).

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/4, para. 21 (a, d, e, f)).
(Supporting document: UNEP/OzL.Pro/ExCom/33/8 and 33/8/Corr.1).

Consolidated business plan of the Multilateral Fund for the year 2002

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to note the consolidated draft business plan of the Multilateral Fund for the year 2002 contained in document UNEP/OzL.Pro/ExCom/35/5;

(b) to request Implementing Agencies to resolve data discrepancy issues before including projects from countries with data inconsistencies in their final 2002 business plans in the light of the Executive Committee's decisions on strategic planning;

(c) to approve a resource allocation of US $176 million for the purposes of the 2002 final business plan, including US $130 million for investment projects, US $22.7 million for non-investment projects, US $20 million for bilateral co-operation, and US $3.3 million for the Secretariat/Executive Committee/Monitoring and Evaluation function;

(e) also to authorize the Secretariat to adjust the resource allocation by the amount of interest and funds returned from completed and cancelled projects when the final accounts of the Fund for 2001 were available, taking into account the balances to be returned up to the 37th Meeting;

(g) also to request the Secretariat to include in its consolidated draft business plans updated versions of the reports on the status of Article 5 countries in achieving compliance, taking into account the Executive Committee's decisions on strategic planning;

(i) to encourage Implementing Agencies to continue to reach out to those countries at risk of non-compliance to provide proposals for activities to be included in the agencies' final business plans.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/2, para. 26 (a, b, c, e, g, h, i).
(Supporting document: UNEP/OzL.Pro/ExCom/35/5).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to note the consolidated 2002 business plan of the Multilateral Fund, as contained in UNEP/OzL.Pro/ExCom/36/8/Rev.1 and Add.1, and to convey its appreciation to Implementing Agencies for taking into account the Executive Committee's strategic planning approach by increasing the number of country-driven and compliance-driven projects in drafting their 2002 business plans;

(b) to adopt a phase-out target from approved projects and activities amounting to 15,936 ODP tonnes for investment projects and 624 ODP tonnes for non-investment projects, and a disbursement target of US $106.28 million for investment projects;

(c) to maintain projects and activities in the 2002 business plan for countries with sectoral data discrepancies in the light of Decision 35/57;

(d) to request the Implementing Agencies to submit to the 37th Meeting addenda to their 2002 final business plans in the light of any modification to the level of resource allocation for 2002;

(e) to adopt a weighting of 10 points for the performance indicator "timely submission of progress reports" with 5 points for submission of the report on time and 5 points for submission of a revision and responses to questions within five working days after receipt of comments.

(f) noting that the overall coordination of projects was the responsibility of the country concerned, that:

  (i) when CFC or ODS terminal phase-out plans were being prepared for a country, the country concerned should ensure that one agency assumed coordination for all related sectors and brought forward complete national proposals for the approval of the Executive Committee;

  (ii) implementing and bilateral agencies should coordinate among themselves when preparing activities for phase-out of ODS in the servicing sector, with a view to bringing to the Executive Committee one complete national proposal for the servicing sector, in line with the principles and requirements of Decision 31/48 on Refrigerant Management Plans (RMP);

  (iii) implementing and bilateral agencies should also coordinate among themselves and with the Fund Secretariat in their business planning for 2003 to ensure that countries that were at risk of non-compliance with either the halon or methyl bromide freezes and were still eligible for projects in those sectors were given special consideration;

(g) to request the Secretariat to monitor the approved and planned forward commitments in the context of business planning and reporting on progress;

(h) also to request the World Bank to provide the Secretariat with estimated figures for its forward commitments for 2003 and beyond before the end of the present Meeting and to report to the Executive Committee thereon.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/5, para. 38).
(Supporting document: UNEP/OzL.Pro/ExCom/36/8/Rev.1 and Add.1).

Consolidated business plan of the Multilateral Fund for the year 2003

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to note the consolidated 2003 business plan of the Multilateral Fund contained in UNEP/OzL.Pro/ExCom/39/8/Rev.1;

(b) to adopt 2003 phase-out targets of 22,936 ODP tonnes for consumption and 10,663 ODP tonnes for production, and a 2003 disbursement target of US $121 million for activities financed by the Multilateral Fund;

(c) to request the Secretariat:

(i) to identify funds not required in the current business plan year beginning with 2003 for possible allocation to the next business plan year for the needs of the Implementing Agencies in assisting Article 5 Parties to meet their compliance targets;

(ii) to propose for consideration by the Executive Committee at its 40th Meeting, criteria for the redeployment of identified funds to additional projects designed to meet additional compliance needs of Article 5 Parties to assist in early phase-out and/or maintain momentum.

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/6, para. 37).
(Supporting document: UNEP/OzL.Pro/ExCom/39/8/Rev.1).

Also, at its Thirty-ninth Meeting, the Executive Committee decided not to consider project proposals for phase-out that was not included in the 2003-2005 phase-out plan of the Multilateral Fund until the availability of funding for accelerated phase-out had been clarified and appropriate criteria for approval had been adopted.
(UNEP/OzL.Pro/ExCom/39/43, Decision 39/49, para. 87).

Revised resource allocation for the 2003-2005 triennium

The Fortieth Meeting of the Executive Committee decided:

(a) to note with appreciation the 2003-2005 business plan letters submitted by the Governments of Spain, Switzerland and the United States of America and the amendments to the 2003-2005 business plans of Canada, Czech Republic, France, Germany, Hungary and Sweden as contained in UNEP/OzL.Pro/ExCom/40/11, Add.1 and Add.2/Rev.1, the business plan submitted by Japan immediately preceding the 40th Meeting of the Executive Committee and summarized orally by the representative of Japan at the Executive Committee Meeting, as well as the information that a business plan letter would shortly be received from Austria;

(b) to request contributing Parties that had indicated their interest in undertaking bilateral projects during the triennium but had not submitted specific information with regard to such projects to do so as soon as possible and at a minimum to submit business plans prior to the 42nd Meeting of the Executive Committee, indicating, to the extent practicable, the following information:

(i) the projects planned to be submitted during the triennium;

(ii) the estimated value of each planned project; and

(iii) the phase-out associated with each planned project, where applicable;

(c) to urge contributing Parties to prioritize, for inclusion in their three-year business plans, projects required for countries to comply with impending Montreal Protocol control measures, using as a basis the three-year phase-out plan of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/6, para. 36).
(Supporting document: UNEP/OzL.Pro/ExCom/40/11, Add.1 and Add.2/Rev.1).

Consolidated business plan of the Multilateral Fund for the years 2004-2006

The Forty-second Meeting of the Executive Committee decided:

(a) to note the report on financial planning as contained in documents UNEP/OzL.Pro/ExCom/42/4 and Corrs.1 and 2;

(b) to adopt a resource allocation of US $237 million for 2004 and US $178 million for 2005, with any remaining funds from 2004 to be allocated to 2005;

(c) to note that all projects in the bilateral and Implementing Agencies' 2004 business plans for accelerating phase-out and maintaining momentum could be considered for funding in 2004.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/3 (a, b, c), para. 32 (a-c)).
(Supporting document: UNEP/OzL.Pro/ExCom/42/4 and Corrs. 1 and 2).

The Forty-second Meeting of the Executive Committee decided:

(a) to note the consolidated 2004-2006 business plan of the Multilateral Fund as contained in UNEP/OzL.Pro/ExCom/42/6 and Corr.1;

(b) to invite Executive Committee members to submit proposals on qualitative performance indicators to the Secretariat by 31 July 2004;

(c) to request the Implementing Agencies and the Secretariat to consider further the proposals on qualitative performance indicators, taking into account any proposals received from Executive Committee members, and to report thereon to the 44th Meeting of the Executive Committee; and

(d) also to request the Secretariat to present the development over time of the performance indicators for each Implementing Agency, in the consolidated business plan, to enable comparison and evaluation of their performances.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/5, para. 40).
(Supporting document: UNEP/OzL.Pro/ExCom/42/6 and Corr.1).

The Forty-fourth Meeting of the Executive Committee decided:

(a) to note the report on the status of the 2004 business plans as contained in documents UNEP/OzL.Pro/ExCom/44/5 and Add.1 and the submission of priority projects as requested in decision 43/3 (c) (iii); and

(b) having agreed that the need for a special funding window for accelerated phase out and maintaining momentum would have to be based on the availability of funds remaining after considering the funding required for projects to meet compliance needs that would be contained in the 2005 business plans of bilateral and Implementing Agencies, to consider the need for a funding window for accelerating phase-out and maintaining momentum in the context of the 2005 business plans to be submitted to the 45th Meeting.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/3, para. 38).
(Supporting document: UNEP/OzL.Pro/ExCom/44/5 and Add. 1).

Consolidated business plan of the Multilateral Fund for the years 2005-2007

The Forty-fifth Meeting of the Executive Committee decided:

(a) to note the consolidated 2005-2007 business plan of the Multilateral Fund (including its impact on the funding window as per decision 44/3 and status of compliance) as contained in document UNEP/OzL.Pro/ExCom/45/5;

(b) to maintain metered dose inhaler (MDI) transition strategies in countries with no remaining funding eligibility;

(c) in the light of decision XVI/13 of the Parties, to establish a funding window amounting to US $15.2 million for the chiller sector in 2005;

(d) to request the Secretariat to prepare a study, with input from the Implementing Agencies, on criteria and modalities for chiller demonstration projects, including how different regional funds for the chiller sector might come into operation, taking into account proposals submitted and comments made during the current Meeting, for consideration at the 46th Meeting, examining issues such as fairness of funding and any limits on the number or cost of projects to be funded, etc.;

(e) to handle HCFC survey projects in the manner prescribed in decision 45/6;

(f) to maintain in the business plan any CTC/TCA/methyl bromide projects for countries with a very low volume of consumption;

(g) to defer consideration of ODS destruction projects until the 46th Meeting;

(h) to note that, although planned activities exceeded the 2005 budget, it was expected that, based on historic performance, the funds actually approved were likely to be lower than those planned and therefore within the budget for the 2003-2005 triennium, enabling the Executive Committee to fulfil the Parties' directive to fully commit the 2003-2005 budget, pursuant to decision XIV/39 of the Parties;

(i) to note that, in the light of the expected availability of funds for all projects in the business plans and the fact that the business plans for 2005 included projects for accelerating phase-out and maintaining momentum, there was no need for a special funding window for that purpose; and

(j) to urge bilateral and multilateral Implementing Agencies to increase their efforts to implement approved projects to facilitate the 2005 reductions in consumption and production of controlled substances, bearing in mind that 96,734 ODP tonnes were scheduled to be phased out in 2005 from approved projects.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/4, para. 39).
(Supporting document: UNEP/OzL.Pro/ExCom/45/5/).

Consolidated business plan of the Multilateral Fund for the years 2006-2008

The Forty-eighth Meeting of the Executive Committee decided:

(a) to note the consolidated 2006-2008 business plan of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/48/6;

(b) to urge bilateral and multilateral implementing agencies to increase their efforts to implement approved projects to facilitate achieving the 2007 reduction in controlled substances, noting that 42,175 ODP tonnes were scheduled to be phased out in 2006 from approved projects; and

(c) to request bilateral and implementing agencies to strive to have as many terminal phase-out management plans as possible from their 2007 business plans ready for submission to the 50th Meeting of the Executive Committee, provided that the conditions in decisions 45/54 and 46/17 had been met, and on the understanding that the Executive Committee would consider funding the first tranche of those terminal phase-out management plans should sufficient funds be available.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/4, para. 41).
(Supporting document: UNEP/OzL.Pro/ExCom/48/6).

Consolidated business plan of the Multilateral Fund for the years 2007-2009

Having considered the priorities for the 2006-2008 triennium for the US $61 million not directly required for compliance with control measures up to the year 2010, the removal or maintenance of any non-priority activities in the 2007-2009 business plans, the need for the development of further guidance on eligible incremental costs for HCFC activities, the report on HCFC surveys by UNDP, and Germany's study on HCFC consumption and production in China, the Fifty-first Meeting of the Executive Committee decided:

(a) to note the 2007-2009 consolidated business plan of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/51/6 without prejudice to consideration of the individual business plans;

(b) to regard the following areas as priorities when allocating the US $61 million in unallocated funds to activities not required for compliance, according to the compliance-oriented, model rolling three-year phase out plan for 2007-2009:

  (i) additional funding initiatives outside the budget, namely:
    a. additional activities/studies currently outside the budget, on a case-by-case basis;
    b. CFC solvents;
    c. Activities in countries that were currently not Parties, on the understanding that funds would not be disbursed until the country had become a Party;
    d. terminal phase-out management plan (TPMP) preparation and a TPMP for Armenia;
    e. institutional strengthening, on a case-by-case basis;
    f. methyl bromide (MB) consumption in Parties that had not ratified the Copenhagen Amendment, on

the understanding that funds would not be disbursed until ratification had occurred, not even for project preparation;

g. acceleration of CFC production phase-out;

(c) also to consider the following areas as priorities, on a case-by-case basis:

(i) combating illegal trade;

(ii) halon not required by model rolling three-year phase-out plan;

(iii) accelerated MB phase-out;

(iv) MB non-investment projects;

(v) metered-dose inhaler activities, in accordance with decision 51/34;

(d) to remove HCFC activities and ODS disposal from the 2007-2009 business plans for the time being on the understanding that those issues would be considered at the first meeting of the Executive Committee in 2008; and

(e) to urge bilateral and implementing agencies to increase their efforts to implement approved projects to facilitate achieving the 2007 reduction in controlled substances, noting that 35,945 ODP tonnes were scheduled to be phased out in 2007 from approved projects.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/5 para. 58).
(Supporting document: UNEP/OzL.Pro/ExCom/51/6)

Consolidated business plan of the Multilateral Fund for the years 2008-2010

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to note the consolidated 2008-2010 business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/54/6;

(b) with respect to HCFC activities:

(i) to request the Secretariat to include an HCFC analysis in future versions of the compliance-oriented model/three-year phase-out plan;

(ii) to request implementing agencies to include tonnage for all HCFC activities, excluding preparatory projects, based on current practices or any modifications subsequently approved by the Executive Committee;

(iii) to remove from the business plans HCFC demonstration and investment activities and associated project preparation, and costs related to technical assistance for start-up, and to reconsider including those activities in the business plans at the 56th Meeting in the light of decision 54/39;

(c) to remove ODS disposal activities from the business plans but to maintain project preparation for Japan's ODS destruction demonstration project, on the understanding that it would not be submitted until 2009, as well as the study on ODS disposal pursuant to the conditions agreed in the context of the Executive Committee's consideration of the World Bank's business plan (see decision 54/10).

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/5 para. 49(a,b, c)).
(Supporting document: UNEP/OzL.Pro/ExCom/54/6).

Consolidated business plan of the Multilateral Fund for the years 2009-2011

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to note:

(i) the consolidated 2009-2011 business plan of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/57/7;

(ii) with concern that the amounts in the business plans exceeded the budget for the triennium owing largely to the uncertainty in the costing of HCFC activities;

(b) that requests for HCFC investment projects and sector plans should be consistent with the requirements of decision 54/39 and provide an indication of how those investment projects related to the HPMP and an indication of when the HPMP would be submitted;

(c) that the value of annual tranches for HCFC multi-year agreement activities should be considered in HPMP proposals in the light of budgetary restrictions;

(d) to urge bilateral and implementing agencies to continue their efforts to implement approved projects to ensure the expected phase-out of 8,836 ODP tonnes in 2009;

(e) to request the Secretariat to prepare, for the 59th Meeting, a strategic analysis to assist the Executive Committee in providing guidance to the bilateral and implementing agencies on how to equitably allocate, in their 2010 and 2011 business plans, funds for all eligible Article 5 countries to enable them to comply with the HCFC 2013 freeze and the 2015 10 per cent reduction, within the limits of available resources. The strategic analysis should take into consideration any decisions on HCFC costs and funding eligibility taken by the Executive Committee prior to the 59th Meeting, and present options on how funding could be allocated, taking into account countries' total HCFC consumption and the sectoral distribution of that consumption;

(f) to remove from the implementing agencies' business plans:

(i) all metered-dose inhaler strategies;

(ii) all HCFC production components;

(iii) all HCFC foam demonstration projects except:

Country	Agency	Sector / Sub-sector	Total value of demonstration project (US $)	Total ODS (ODP tonnes)	Project preparation (US $000)
Brazil	UNDP	Validation of methylal in foams	499,000	0.0	0
China	World Bank	Demonstration of pre-blended hydrocarbon polyol for foam system house	1,000,000*	60.0	86
China	World Bank	Use of hydrocarbon blowing agents in the insulation foam for solar energy water heaters	840,000	20.0	32
China	World Bank	Replace HCFC-141b with liquid carbon dioxide in spray foam applications	323,000	20.0	32
Egypt	UNDP	Validation of low cost hydrocarbons in foams	462,000	0.0	32

*An indicative cap on the value of this project was applied to the activity.

(iv) all HCFC refrigeration demonstration projects, noting that the project in Jordan had been reclassified as an investment project;

(v) all HCFC solvent demonstration projects;

(vi) all ODS disposal projects except:

Country	Agency	Project	Total value of demonstration project (US $)	Total ODS (ODP tonnes)	Project preparation cost (US $)
Brazil	UNDP	ODS disposal project	753,000	75	43,000
Ghana	UNDP	ODS disposal project	753,000	75	32,000
Indonesia	World Bank	ODS disposal project	0	60	54,000
Mexico	UNIDO	ODS disposal project	645,000	40	86,000
Philippines	World Bank	ODS disposal project	0	12	54,000
Turkey	UNIDO	ODS disposal project	538,000	14	65,000

Country	Agency	Project	Total value of demonstration project (US $)	Total ODS (ODP tonnes)	Project preparation cost (US $)
Regional: Asia and the Pacific	Japan	ODS disposal demonstration project	200,000	Not available	Not specified

(g) to include in Annex III to the present report the list of ODS disposal projects removed from the business plans and explanations of those maintained in the business plans with respect to selection criteria; and

(h) to request the Secretariat to prepare a document containing criteria and guidelines for the selection of ODS disposal projects for consideration of the Committee at its 58th Meeting, taking into account decision XX/7 of the Twentieth Meeting of the Parties, and the contact group discussions on ODS disposal project selection held at the 57th Meeting.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/6 para.61).
(Supporting document: UNEP/OzL.Pro/ExCom/57/7).

The Fifty-ninth Meeting of the Executive Committee decided to allow additional HCFC projects that demonstrated alternative or new technology and that could provide the information required by decision 55/43 to be included in the 2010 business plans of the bilateral and implementing agencies. This also covered demonstration projects to determine the effectiveness of low-global warming potential (GWP) alternatives to HCFCs in the air conditioning and refrigeration sector in high ambient temperature areas in Article 5 countries, as requested in decision XXI/9 of the Twenty-First Meeting of the Parties.:

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/9 para.60).
(Supporting document: UNEP/OzL.Pro/ExCom/59/11).

Consolidated business plan of the Multilateral Fund for the years 2010-2012

The Sixtieth Meeting of the Executive Committee decided:

(a) To note the consolidated 2010-2012 business plan of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/60/7 and the fact that it addressed activities for compliance with the 2015 control measures of the Montreal Protocol;

(b) To adopt a budget of US $193.9 million for 2010, while noting the budget of US $203 million for 2011, established by decision 57/4;

(c) To modify the multi-year agreement amounts in the agencies' business plans to reflect the records of the Fund Secretariat;

(d) To integrate terminal phase-out management plan activities beyond 2010 and those planned for Somalia into HCFC phase-out management plans;

(e) To request the bilateral and implementing agencies to consider the need for methyl chloroform activities in Haiti and the Democratic People's Republic of Korea;

(f) To amend the business plans of the bilateral and implementing agencies according to the model rolling three-year phase-out plan for institutional strengthening projects;

(g) To remove new project preparation requests for ODS disposal included in the business plans, except those required by decision 59/10 and requests for countries that had been considered at the 59th Meeting;

(h) To modify the allocation for the ODS disposal activity in China in the business plans of Japan to US $1,320,000 for 100 ODP tonnes and of UNIDO to US $1,320,000 for 100 ODP tonnes;

(i) To request the bilateral and implementing agencies at the 61st Meeting to suggest a level of funding for ODS activities in low-volume-consuming (LVC) counties in light of decision XXI/2 of the Twenty-first Meeting of the Parties;

(j) To establish a resource allocation for HCFC production in the business plans amounting to US $147,000,000 for the period 2010 to 2014, guided by the amount suggested by the UNEP's Technology and Economic Assessment Panel in its Assessment of the Funding Requirements for the Replenishment of the Multilateral Fund for the Period 2009-2011;

(k) To maintain activities in the business plans for additional HCFC demonstration projects beyond those for which project preparation had already been approved;

(l) To maintain activities in the business plans for HCFC demonstration projects with no phase-out;

(m) To remove from the business plans activities for HCFC demonstration projects to be submitted after 2010;

(n) To modify the business plans for HPMP, HCFC demonstration and HCFC investment project preparation to correspond to the values approved for such activities in the light of decisions 55/13 and 56/16;

(o) To request:

(i) A status report on establishing or modifying licensing systems, legislation and regulations pursuant to funding provided through decision 54/39(e) to address the accelerated phase out of HCFCs, to be submitted to the 61st Meeting in the context of the agencies' progress reports;

(ii) That the business plans to be submitted to the 61st Meeting address planning for the period 2010 to 2014 and the 63rd Meeting 2011 to 2014; and

(iii) Implementing agencies to indicate in their submissions to the 61st Meeting and in future business plans:

a. The level of HCFC phase-out, by chemical, for example HCFC-22 and HCFC-141b; and

b. The level of climate co-benefits that could be achieved through HCFC phase-out activities required to achieve compliance;

(p) To request the bilateral and implementing agencies to revise their 2010-2012 business plans to take into account the criteria for funding HCFC phase-out in the consumption sector adopted by the Executive Committee (see decision 60/44), and in particular:

(i) To ensure that the selection of projects in the business plans was consistent with the cut-off date applicable to HCFC-based capacity;

(ii) To include projects for second-stage conversions when they were necessary, and/or the most cost-effective projects in the manufacturing sector, to facilitate the compliance of Article 5 countries with HCFC control measures up to and including the 2020 reduction step;

(iii) To adjust the indicative costs of HCFC projects in the business plans to reflect the relevant parameters agreed with respect to incremental operating costs, phase-out costs in the refrigeration servicing sector, and cost-effectiveness thresholds; and

(iv) To ensure that for each Article 5 country included in the business plans, the year or years of HCFC consumption used to calculate the quantity of HCFC tonnage to be funded for phase-out to achieve compliance with the 2013 HCFC freeze and 2015 HCFC 10 per cent reduction corresponded to one of the two agreed options for the starting point for aggregate sustained reductions;

(q) To request the bilateral and implementing agencies to submit their revised business plans to the 61st Meeting of the Executive Committee taking into account the above, and

(r) To request the Secretariat to prepare a revised consolidated business plan for the 61st Meeting based on the revised business plans submitted.

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/5 para.57).
(Supporting document: UNEP/OzL.Pro/ExCom/60/7).

Revised 2010-2014 consolidated business plan of the Multilateral Fund

The Sixty-first Meeting of the Executive Committee decided:

(a) To note the revised consolidated business plan for the years 2010 2014 contained in documents UNEP/OzL.Pro/ExCom/61/7 and Corr.1, as adjusted, on the understanding that the costs and ODP values related to HCFCs were only indicative and did not restrict the submission of projects to those costs and values;

(b) To consider, at its 62nd Meeting, the issue of financing activities to meet the 2013 freeze target at future Executive Committee meetings as part of the project approval process;

(c) For countries for which ODP values in the business plans submitted by the bilateral and implementing

agencies exceeded the calculated starting point, to reduce the total ODP tonnage to reflect the calculated starting points as per decision 60/5(p)(iv) and pro-rated by agency;

(d) To reduce the HCFC investment component tonnage for Colombia in Canada's business plan to zero tonnage;

(e) To remove the HCFC phase-out management plan for Sri Lanka from the World Bank's business plan;

(f) To maintain terminal phase-out management plan and national phase-out plan entries for activities initially approved in 2008 or 2009 for Burundi, Eritrea and Iraq and allow for their submission up to the 63rd Meeting;

(g) To apply the cost-effectiveness values for the foam and refrigeration sectors (converted to US $/ODP) in the category "Combined Replenishment Study and Decision 60/44(f)" in Table 1 of document UNEP/OzL.Pro/ExCom/61/7/Corr.1, plus a 25 per cent climate premium as provided for in decision 60/44(f)(iv), including agency fees, to the ODP tonnages in the business plans as adjusted by sub-paragraphs (c) and (d) above for those sectors; and

(h) To allocate US $22,190,000 included in the adjusted business plans of the bilateral and implementing agencies from the 2010 and 2011 business plans for HCFC investment projects in non-low-volume-consuming countries that had not yet been approved, based on the overall ratio of reductions to the values in the business plans for the years 2010 and 2011 applied equally to all relevant bilateral and implementing agencies for the 2012-2014 triennium, pro rated by entry.

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/5 para.30).
(Supporting documents: UNEP/OzL.Pro/ExCom/61/7 and Corr.1).

The Sixty-second Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2010 business plans as contained in documents UNEP/OzL.Pro/ExCom/62/5 and Add.1 and the fact that US $44.2 million in activities required for compliance had not been submitted to the 62nd meeting;

(ii) With appreciation, that all annual tranches of multi-year agreements due for submission had been submitted on time to the 62nd meeting;

(iii) The reports provided by UNDP, UNEP and UNIDO on their dialogue with countries on the 2009 business plans' qualitative performance evaluations; and

(b) To request UNIDO to implement decision 61/17(d) with respect to Kyrgyzstan and to report to the 63rd meeting on the results of its consultations.

(UNEP/OzL.Pro/ExCom/62/62, Decision 62/3, para.22).
(Supporting documents: UNEP/OzL.Pro/ExCom/62/5 and Add.1).

Consolidated business plan of the Multilateral Fund for the years 2011-2014

The Sixty-third Meeting of the Executive Committee decided:

(a) To endorse the 2011-2014 consolidated business plan of the Multilateral Fund, as adjusted by the Secretariat and the Executive Committee and contained in document UNEP/OzL.Pro/ExCom/63/7, while noting that endorsement denoted neither approval of the projects identified therein nor their funding or tonnage levels, and:

(i) That the global project for information, communication and education activities in the development and implementation of a knowledge portal for HCFC phase out and HCFC phase-out management plan (HPMP) implementation could be implemented under the existing resources of UNEP's Compliance Assistance Programme (CAP);

(ii) To maintain the activities in the business plan for those countries that had already received funding to phase out more than 10 per cent of their estimated baseline/starting point;

(b) To maintain current levels of funding for institutional strengthening for business planning purposes until such time as a decision had been taken on the actual levels;

(c) To set a window for ODS destruction for low-volume-consuming countries, pursuant to decision XXI/2 of

the Twenty-first Meeting of the Parties, amounting to US $3 million;

(d) To allow the modification of performance indicators based on data in the business plans only if new Executive Committee decisions were applied to adjust the business plans submitted;

(e) To monitor the results of proposed funding distributions in the light of approved commitments to ensure that planned funding would be available to meet those commitments;

(f) That:

(i) Project preparation could be funded for stage II activities and might be included prior to the completion of stage I in business plans for the years 2012-2014;

(ii) The duration of the next business plan should be only for the next triennium 2012-2014, and include any multi-year funding after 2014;

(g) To remove the UNDP HPMP activities for Gambia (the) from UNDP's business plan, as requested by the Government of the Republic of the Gambia;

(h) To remove the UNDP individual foam project for Argentina from UNDP's business plan, as requested by the Government of Argentina, and to include the individual foam project in the World Bank's business plan;

(i) To transfer the HPMP preparation and the relevant lead agency role in Argentina from UNDP to UNIDO;

(j) To agree that any additional project preparation activity funding should be deducted from the funding eligibility for the HPMP if a country chose to assign an implementing agency other than the one originally approved to conduct the HPMP and to request the initial implementing agency to transfer the results of the HPMP preparation to the new implementing agency; and

(k) To request bilateral and implementing agencies to agree on a distribution of the tonnage for HPMPs, followed by agreement with the relevant countries, and to report to the 64th meeting on the agreement.

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/5 para.39).
(Supporting document: UNEP/OzL.Pro/ExCom/63/7).

The Sixty-fourth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2011 business plans as contained in documents UNEP/OzL.Pro/ExCom/64/5 and Add.1, and the fact that US $64.9 million in activities in plans required for compliance had not been submitted to the 64th meeting;

(ii) The information on annual tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by the World Bank as contained in document UNEP/OzL.Pro/ExCom/64/5;

(iii) That three out of four annual tranches of MYAs due for submission had been submitted on time to the 64th meeting; and

(b) To request the World Bank to work with the Government of India to expedite the signing of the agreements for the accelerated CFC production sector closure project (IND/PRO/59/INV/435) as soon as possible to enable the second tranche of the agreement to be submitted to the 65th meeting.

(UNEP/OzL.Pro/ExCom/64/53, Decision 64/3, para.27).
(Supporting documents: UNEP/OzL.Pro/ExCom/64/5 and Add.1).

The Sixty-fifth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2011 business plans as contained in document UNEP/OzL.Pro/ExCom/65/5;

(ii) The information on annual tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by UNDP and UNIDO, as contained in document UNEP/OzL.Pro/ExCom/65/5;

(iii) That two out of five annual tranches of MYAs due for submission had been submitted on time to the 65th meeting;

(b) That the balance of the 2011 budget would be included in the carry-over calculation for the next triennium to be addressed in the context of the funding requirements for 2012 2014:

(c) That the balance of US $453,747 set aside for a special funding facility, as per decision 55/2(b), would be included in the carry-over calculation;

(d) To request the Secretariat to send a letter to:

(i) The Government of Armenia to urge the submission of the second tranche of its HCFC phase-out management plan (HPMP) to the 67th meeting; and

(ii) The Government of Nigeria to urge the submission of the second tranche of its HPMP to the 66th meeting.

(UNEP/OzL.Pro/ExCom/65/60, Decision 65/3, para.30).
(Supporting documents: UNEP/OzL.Pro/ExCom/65/5).

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2012-2014 business plans and tranche submission delays contained in documents UNEP/OzL.Pro/ExCom/67/5 and Add.1;

(ii) The information on tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by UNDP, UNEP, UNIDO and Germany, as shown in Table 7 in document UNEP/OzL.Pro/ExCom/67/5;

(iii) That seven out of 18 tranches of MYAs due for submission had been submitted on time to the 67th meeting;

(iv) That the total value of Germany's business plan for the 2012-2014 triennium was within Germany's allocation for bilateral activities;

(b) To encourage implementing agencies to submit requests to enable funding for all remaining eligible countries that had not yet received funding for stage I HCFC phase-out activities during the current triennium and to take into account business plan allocation; and

(c) To request the Secretariat to send letters to the Governments of Brazil, Chile, the Islamic Republic of Iran, Mexico and Saint Lucia urging the submission of the second tranches of their HCFC phase-out management plans to the 68th meeting.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/4, para.27).
(Supporting documents: UNEP/OzL.Pro/ExCom/67/5 and Add.1).

Consolidated business plan of the Multilateral Fund for the years 2012-2014

The Sixty-sixth Meeting of the Executive Committee decided:

(a) To endorse the consolidated 2012-2014 business plan of the Multilateral Fund, as contained in documents UNEP/OzL.Pro/ExCom/66/7 and Add.1 as further adjusted by the Secretariat and the Executive Committee, while noting that endorsement denoted neither approval of the projects identified therein nor their funding or tonnage levels, and based on its consideration:

(i) To adjust the business plans of the bilateral and implementing agencies as proposed by the Secretariat in documents UNEP/OzL.Pro/ExCom/66/7 and Add.1;

(ii) To also adjust the business plans of the bilateral and implementing agencies by applying the cost-effectiveness threshold of US $6.92/kg to all foam projects, including those in the rigid polyurethane foam sector;

(iii) To limit new HCFC phase-out activities that would exceed a 10 per cent reduction of the baseline to no more than a 35 per cent reduction of the baseline in non-low-volume-consuming countries for those activities in the business plan that had not yet been submitted;

(iv) To maintain in the business plans of the bilateral and implementing agencies only those ODS destruction projects for which project preparation funds had already been approved by the Executive Committee;

(v) To remove phase-out activities involving swing plants, pending an Executive Committee decision on funding eligibility for swing plants, on the understanding that requests for such activities could be reintroduced into the business plans of the implementing agencies after the Executive Committee had agreed on the HCFC production sector guidelines, as appropriate;

(vi) To remove activities for the United Arab Emirates on the understanding that the Executive Committee would defer the request of the United Arab Emirates for assistance from the Multilateral Fund to a future meeting to allow more time for discussion with the country;

(vii) To further adjust all new activities in the business plan to the budget allocation for the 2012-2014 triennium;

(b) To maintain the project for promoting alternatives to HCFCs in air-conditioning sectors in high ambient temperature countries in West Asia in the business plan for 2012, with adjusted funding of US $250,000 for the entire project;

(c) To request the Fund Secretariat, in cooperation with the implementing agencies, to prepare guidelines for stage II of HCFC phase-out management plan preparation in the light of any comments raised during the meeting, including options for phase-out up to the 2020 control target and for total phase-out in accordance with the Montreal Protocol schedule, and to present a first draft of such guidelines to the 69th meeting of the Executive Committee;

(d) To request the Fund Secretariat to discontinue climate impact data reporting at the business plan stage of project consideration; and

(e) To monitor the results of proposed funding distributions in the light of approved commitments to ensure that planned funding would be available to meet commitments for both the HCFC consumption and production sectors.

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/5, para.37).
(Supporting documents: UNEP/OzL.Pro/ExCom/66/7 and Add.1).

The Sixty-eighth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2012-2014 business plans and tranche submission delays as contained in documents UNEP/OzL.Pro/ExCom/68/5 and Add.1;

(iv) The reports provided by UNEP and the World Bank on their discussions with countries on the 2011 business plan's qualitative performance evaluations;

(b) To request:

(i) UNEP to report to the 69th meeting on the action taken for projects in Haiti to improve training components and fund transfer and to provide sufficient technical advice for technology decision-making;

(ii) The bilateral and implementing agencies to address in their 2013-2015 business plans those activities not submitted in 2012 as planned, as contained in Annexes IV and V to the present report;

(iii) The Secretariat:

a. Through its coordination meeting with bilateral and implementing agencies to adjust all new activities in the 2013-2015 business plans for 2013 and 2014 to the budget allocation for the 2012-2014 triennium and for up to an allocation of US $150 million for all activities in 2015, for planning purposes;

(iv) The Secretariat and bilateral and implementing agencies to take into account the planned commitments and standard activities in business planning for new activities in 2015, assuming continued Compliance Assistance Programme, institutional strengthening, core unit and project preparation for HPMPs at current rates, with growth as allowed by existing decisions, for planning purposes.

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/3, para.31).
(Supporting documents: UNEP/OzL.Pro/ExCom/68/5 and Add.1).

Consolidated business plan of the Multilateral Fund for the years 2013-2015

The Sixty-ninth Meeting of the Executive Committee decided:

(a) To endorse the consolidated 2013-2015 business plan of the Multilateral Fund contained in documents UNEP/OzL.Pro/ExCom/69/6 and Corr.1 as further adjusted by the Secretariat and the Executive Committee, while noting that endorsement denoted neither approval of the projects identified therein nor their funding or tonnage levels;

(b) To adjust the value in the business plans for the production sector to maintain overall activities within the budget for the triennium;

(c) To remove the following projects:

(i) The ODS alternative mapping studies from UNDP's business plan;

(ii) The global project on bridging technology innovation gaps from UNEP's business plan;

(iii) The HCFC phase-out management plan (HPMP) for the Democratic People's Republic of Korea from the business plans of UNIDO and UNEP;

(iv) Funding for the methyl bromide technical assistance project in Ethiopia from UNIDO's business plan;

(d) To add to UNEP's business plan stage II of the HPMP project preparation funds for Kiribati in the amount of US $22,600 in the year 2018;

(e) To postpone the inclusion of the HPMPs for Libya and Tunisia in UNIDO's business plan to 2014;

(f) To reinstate the investment activities for stage II of the HPMP for Mexico in UNIDO's business plans for 2014 taking into account decision 64/45(e);

(g) To request a bilateral or implementing agency to include funding for stage I of the HPMP for Botswana in its business plan;

(h) To allow UNEP to include the logical framework analysis tables in the compliance assistance programme (CAP) budget document rather than in its business plan, as had been required by decision 48/7(d);

(i) To allow the submission of ODS destruction projects where project preparation had already been approved in accordance with the approved guidelines no later than the 72nd meeting of the Executive Committee;

(j) To move funding for the institutional strengthening project for Qatar to 2014 in UNIDO's business plan;

(k) To request the Secretariat and the implementing agencies to address the issue raised by the World Bank concerning performance indicators to be submitted to the 70th meeting; and

(l) To request the Senior Monitoring and Evaluation Officer and the implementing agencies to agree a schedule for the submission of project completion reports.

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/5, para.47).
(Supporting documents: UNEP/OzL.Pro/ExCom/69/6 and Corr.1).

Consolidated business plan of the Multilateral Fund for the years 2014-2016

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the consolidated 2014-2016 business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/71/7;

(b) To add to the 2014 business plans those multi-year agreement and institutional strengthening activities from the 2013 business plans that had not been submitted or not approved at the 71stmeeting;

(c) To remove activities in the refrigeration servicing sector in Bosnia and Herzegovina from Italy's business plan;

(d) To request bilateral and implementing agencies:

(i) To submit stage I HCFC phase-out management plan (HPMP) activities for Botswana not included in the business plans;

(ii) In future business plans:

a. To provide a distribution of tonnage for HPMPs according to the cost effectiveness of the overall HPMP agreement;

b. To indicate project funding requirements based on the estimated tonnage required to achieve the next scheduled reduction;

c. To indicate those countries for which business plan entries represented a 100 per cent phase-out in accordance with decision 62/10; and

(e) To endorse the consolidated 2014-2016 business plan of the Multilateral Fund, as adjusted by the Secretariat and the Executive Committee, while noting that endorsement denoted neither approval of the projects identified

therein nor their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/18 para.71).
(Supporting documents: UNEP/OzL.Pro/ExCom/71/7).

The Seventy-second Meeting of the Executive Committee decided:

(a) To note the update on the implementation of the 2014-2016 business plan of the Multilateral Fund and cash flow availability, as contained in documents UNEP/OzL.Pro/ExCom/72/5 and Add.1, and the remaining activities required/not required for compliance, as contained in Annex II to the present report; and

(b) To request the Secretariat to continue to monitor cash flow availability in the update on the implementation of the 2014-2016 business plan to be submitted to the 73rd meeting.

(UNEP/OzL.Pro/ExCom/72/47, Decision 72/3 para.34).
(Supporting documents: UNEP/OzL.Pro/ExCom/72/5 and Add.1).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the update on implementation of the 2014-2016 business plan and cash-flow availability (decision 72/3(b)) contained in document UNEP/OzL.Pro/ExCom/73/5; and

(b) To add to the 2015-2017 business plan the activities from the 2014 business plan that had not been approved in 2014, as contained in Annex II to the present report.

((UNEP/OzL.Pro/ExCom/73/62, Decision 73/3, para.24(c)).31).
(Supporting documents: UNEP/OzL.Pro/ExCom/73/5).

Consolidated business plan of the Multilateral Fund for the years 2015-2017

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the consolidated 2015-2017 business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/73/18;;

(b) To adjust the business plan as recommended by the Secretariat in document UNEP/OzL.Pro/ExCom/73/18;

(c) To further adjust the business plan as proposed during the discussion by the Executive Committee and/or the presentation of the business plans by bilateral and implementing agencies by:

  (i) Prorating new HCFC activities so that the total budget for the 2015 2017 business plan reflected the decision of the Twenty-sixth Meeting of the Parties on the level of replenishment of the Multilateral Fund for the 2015 2017 triennium;

  (ii) Removing:

    a. Project preparation activities for stages I and II of HCFC production phase-out management plans (HPPMPs);

    b. Activities in stage I of HPPMPs that had not previously been approved;

    c. The project for technical assistance for the HCFC servicing sector in the Asia and Pacific region;

    d. Those demonstration projects for alternatives with low global-warming potential (GWP) and district cooling feasibility studies in the business plan so that any demonstration projects and district cooling feasibility studies might be considered by the Executive Committee;

    e. Project preparation for district cooling feasibility studies unless such project preparation was deducted from the allocation for district cooling indicated in decision 72/40;

(d) To request that demonstration projects for low-GWP alternatives and technical assistance for feasibility studies in district cooling, be submitted as per decision 72/40(b), without a requirement for those activities to be included in business plans;

(e) To request bilateral and implementing agencies to include in their business plans activities in stage II of the HCFC phase-out management plan (HPMP) for Kenya; and

(f) To endorse the consolidated 2015-2017 business plan of the Multilateral Fund, as adjusted by the Secretariat and the Executive Committee, while noting that endorsement denoted neither approval of the projects identified therein nor approval of their funding or tonnage levels, on the understanding that agencies would place significantly greater emphasis on HCFC phase-out in the foam sector in stage II of the HPMPs included in

their business plans for the 2016-2018 period.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/27 para.98).
(Supporting documents: UNEP/OzL.Pro/ExCom/71/18).

The Seventy-fourth Meeting of the Executive Committee decided:

(a) To note:

(i) The update on the implementation of the consolidated 2015-2017 business plan of the Multilateral Fund and financial planning for the triennium 2015-2017, as contained in documents UNEP/OzL.Pro/ExCom/74/5, Corr.1 and Add.1;

(ii) That US $7,608,250 in activities pursuant to decision XXVI/9 (paragraph 4), which had not been included in the 2015-2017 business plans, had been submitted to the 74th meeting;

(iii) That the total estimated costs of the project preparation requested and proposed demonstration projects for low global-warming potential (GWP) alternatives exceeded the funding window of US$10 million established by decision 72/40;

((UNEP/OzL.Pro/ExCom/74/56, Decision 74/3, para.34(a)(i)-(iii)).
(Supporting documents: UNEP/OzL.Pro/ExCom/74/5 & Corr.1).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note:

(i) The update on the implementation of the 2015–2017 business plans contained in documents UNEP/OzL.Pro/ExCom/75/5 and Add.1;

(ii) That activities amounting to US $28,467,046 in the 2015 business plan had not been submitted to the 75th meeting, but that several of those activities had been included in the business plans of the bilateral and implementing agencies for the year 2016;

(b) With regard to actions to fully utilize the budget of the 2015-2017 triennium as per decision XXVI/10 of the Twenty-Sixth Meeting of the Parties:

(i) To encourage bilateral and implementing agencies, in agreements for stage II of HCFC phase-out management plans, to carefully plan the timing and value of tranches to reduce possible carryovers from late submissions; and

(ii) To note that Article 5 countries for which multiple tranche requests had been submitted to the same meeting due to major delays in implementation would submit revised plans of action to take into account the reallocation of the outstanding tranches.

((UNEP/OzL.Pro/ExCom/75/85, Decision 75/3, para.38)).
(Supporting documents: UNEP/OzL.Pro/ExCom/74/5 & Add.1).

Consolidated business plan of the Multilateral Fund for the years 2016-2018

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2016–2018 contained in document UNEP/OzL.Pro/ExCom/75/21;

(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/75/21;

(c) To further adjust the business plan by adding to the 2016 business plan the HCFC phase out management plans (HPMPs) from the 2015 business plan that had been deferred at the 75th meeting;

(d) To request bilateral and implementing agencies to include in their business plans project preparation for stage II of the HPMPs for Kenya and the Syrian Arab Republic; and

(e) To endorse the consolidated business plan of the Multilateral Fund for 2016–2018, as adjusted in sub-paragraphs (b) and (c) above, while noting that endorsement denoted neither approval of the projects identified therein nor their funding or tonnage levels.

((UNEP/OzL.Pro/ExCom/75/85, Decision 75/22, para.126)).
(Supporting documents: UNEP/OzL.Pro/ExCom/74/21).

The Seventy-sixth meeting of the Executive Committee decided:

(a) To note the update on the status of implementation of the 2016–2018 consolidated business plan of the Multilateral Fund contained in documents UNEP/OzL.Pro/ExCom/76/5, Add.1 and Add.1/Corr.1;

UNEP/OzL.Pro/ExCom/76/66, Decision 76/3, para 35(a)
(Supporting document: UNEP/OzL.Pro/ExCom/76/5 and Add.1).

The Seventy-seventh meeting of the Executive Committee took note of the update on the status of implementation of the 2016-2018 consolidated business plan of the Multilateral Fund contained in documents UNEP/OzL.Pro/ExCom/77/5 and Add.1;

UNEP/OzL.Pro/ExCom/77/76, para 28.
(Supporting document: UNEP/OzL.Pro/ExCom/77/5 and Add.1).

Consolidated business plan of the Multilateral Fund for the years 2017-2019

The Seventy-seventh meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2017–2019 contained in document UNEP/OzL.Pro/ExCom/77/20;
(b) To adjust the business plan:
  (i) As proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/77/20;
  (ii) By adding to the 2017 business plan the HCFC phase-out management plans (HPMPs) and institutional strengthening projects from the 2016 business plan that had been deferred at the 77th meeting;
  (iii) Based on decisions taken and the values for HPMPs approved or revised in principle at the 77th meeting;
(c) To request bilateral and implementing agencies to include in the business plans activities under stage II of the HPMPs for Kenya and Syrian Arab Republic;
(d) To endorse the consolidated business plan of the Multilateral Fund for 2017–2019, adjusted as per sub-paragraphs (b)(i) to (iii) above, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels; and
(e) To request the implementing agencies each to provide a detailed report to the 79th meeting on the feasibility studies of using not-in-kind technologies.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/27, para100)
(Supporting document: UNEP/OzL.Pro/ExCom/77/20).

The Seventy-ninth meeting of the Executive Committee decided:

(a) To note the update on the status of implementation of the 2017–2019 consolidated business plan contained in documents UNEP/OzL.Pro/ExCom/79/17 and Add.1; and
(b) Further to note that US $9,700,228 for HFC-related activities in the manufacturing sector pursuant to decision 78/3(g) had been submitted to the 79th meeting, but that it had not been included in the 2017–2019 consolidated business plan.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/23, para 82)
(Supporting document: UNEP/OzL.Pro/ExCom/79/17 & Add.1).

The Eightieth Meeting of the Executive Committee took note of the update on the implementation of the 2017-2019 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/80/14.

(UNEP/OzL.Pro/ExCom/80/59, para 107)
(Supporting document: UNEP/OzL.Pro/ExCom/80/14).

Consolidated business plan of the Multilateral Fund for the years 2018-2020

The Eightieth Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2018–2020 contained in document UNEP/OzL.Pro/ExCom/80/16;
(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/80/16;
(c) To further adjust the business plan as proposed at the 80th meeting during the discussions and/or during the presentation of the business plans by bilateral and implementing agencies:
  (i) By adding to the 2018 business plan HCFC phase-out management plans (HPMPs) and institutional strengthening activities from the 2017 business plan that had been deferred at the 80th meeting;
  (ii) By taking into account the values approved in principle for new HPMPs at the 80th meeting;
  (iii) By removing:

a. Activities related to stage III of HPMPs;
b. Project activities related to the Democratic People's Republic of Korea;

(iv) By adjusting the agency support cost for HFC enabling activities to seven per cent of the project costs;

(v) By prorating, pursuant to any decision taken by the Twenty-Ninth Meeting of the Parties on the level of replenishment of the Multilateral Fund for the 2018–2020 triennium, new HCFC and HFC activities in order to reach the total budget for the 2018–2020 business plan;

(d) To request bilateral and implementing agencies to include in their business plans the activities in stage II of the HPMPs for Mauritania and Syrian Arab Republic that had not been included;

(e) To endorse the consolidated business plan of the Multilateral Fund for 2018–2020, as adjusted according to sub-paragraphs (b) and (c) above, while noting that endorsement denoted neither approval of the projects identified therein nor their funding or tonnage levels; and

(f) To request the Secretariat to submit to the 81st meeting a document on the implications for Multilateral Fund institutions in terms of expected workload in the coming years, including in relation to the Kigali Amendment for the phase-down of HFCs.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/34, para 114)
(Supporting document: UNEP/OzL.Pro/ExCom/80/16).

The Eighty-first Meeting of the Executive Committee decided:

(a) To note:

(i) The update on the implementation of the consolidated 2018–2020 business plan of the Multilateral Fund and financial planning for the triennium 2018–2020 as contained in document UNEP/OzL.Pro/ExCom/81/12;

(ii) That US $21,912,004 in HFC phase-down activities had been submitted to the 81st meeting, including US $11,290,807 that had not been included in the 2018-2020 business plan;

(c) To urge bilateral and implementing agencies to submit all projects and activities endorsed in the business plan in order to utilize fully the resources available during the for 2018-2020 triennium; and

(d) To consider the availability of cash flow for the 2020 budget at the last meeting of 2019 in light of: the collection of interest; the unexpected return of unused balances from projects/Agreements; the payment of pledges from triennia prior to the previous replenishment; any losses due to non-payment of pledges expected from the previous replenishment; and any losses or gains due to the fixed-exchange-rate mechanism.

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/27(a)(i-ii),(c),(d), para 96)
(Supporting document: UNEP/OzL.Pro/ExCom/81/12).

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:

(i) The update on the status of implementation of the 2018–2020 consolidated business plan of the Multilateral Fund, contained in document UNEP/OzL.Pro/ExCom/82/23; and

(ii) That US $4,120,570 in HFC phase-down activities had been submitted at the 82nd meeting, including US $2,959,457 that had not been included in the 2018–2020 business plans.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/43).
(Supporting document: UNEP/OzL.Pro/ExCom/82/23).

Consolidated business plan of the Multilateral Fund for the years 2019-2021

The Eighty-second Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2019–2021 contained in document UNEP/OzL.Pro/ExCom/82/25;

(b) To adjust the business plan:

(i) As proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/82/25;

(ii) Further as proposed at the 82nd meeting during the discussions and/or during the presentation of the business plans by bilateral and implementing agencies:

a. By adding to the 2019 business plan HCFC phase-out management plans (HPMPs) from the 2018 business plan that had been deferred at the 82nd meeting;
b. By taking into account the values approved in principle for new HPMPs at the 82nd meeting;

(c) To allow:

(i) The inclusion of stage III of HPMPs in the 2019–2021 consolidated business plan only for those countries that had had stage II of an HPMP approved to meet a reduction target by 2020;

(ii) The inclusion of project preparation for stage III of HPMPs in the 2019–2021 consolidated business plan for those countries for which stage II of the HPMP went beyond 2020, with the understanding that requests for project preparation would not be submitted more than two years before the end date of stage II of the HPMP; and

(d) To endorse the consolidated business plan of the Multilateral Fund for 2019–2021, as adjusted according to sub paragraphs (b) and (c) above, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/45).
(Supporting document: UNEP/OzL.Pro/ExCom/82/25).

The Eighty-third Meeting of the Executive Committee decided:

(a) To note:
(i) The update on the status of implementation of the 2019–2021 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/83/13;
(ii) That HFC phase-down activities submitted to the 83rd meeting amounted to US $1,849,684, including US $64,200 for activities not included in the 2019–2021 business plans.

(UNEP/OzL.Pro/ExCom/83/48, Decision 83/46).
(Supporting document: UNEP/OzL.Pro/ExCom/83/13).

The Eighty-fourth Meeting of the Executive Committee decided to note:

(a) The update on the status of implementation of the 2019–2021 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/84/24; and
(b) That US $2,539,511 in HFC phase-down activities had been submitted to the 84th meeting, including US $1,101,777 that had not been included in the 2019–2021 business plans.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/44).
(Supporting document: UNEP/OzL.Pro/ExCom/84/24).

Consolidated business plan of the Multilateral Fund for the years 2020-2022

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2020–2022 contained in document UNEP/OzL.Pro/ExCom/84/26;
(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/84/26;
(c) To further adjust the business plan as proposed at the 84th meeting during the discussions and/or during the presentation of the business plans by bilateral and implementing agencies:
(i) By adding to the 2020 business plan HCFC phase-out management plans (HPMPs) from the 2019 business plan that had been deferred at the 84th meeting; and
(ii) By taking into account the values approved in principle for new HPMPs at the 84th meeting;
(d) To reinstate stage I of the HCFC production phase-out management plan and project preparation for India;
(e) To allow the submission of activities related to stage III of HPMPs for countries with an approved stage II of HPMPs with reduction targets below the 2025 compliance targets;
(f) To reinstate HFC phase-down preparation activities for countries that had not ratified the Kigali Amendment but had submitted a letter indicating their Government's intent to make best efforts to ratify the Kigali Amendment;
(g) To reinstate activities in the 2022 business plan related to HFC phase-down management plans submitted by countries that had ratified the Kigali Amendment; and
(h) To endorse the consolidated business plan of the Multilateral Fund for 2020–2022, as adjusted by the Secretariat and the Executive Committee, taking into consideration relevant decisions taken at the 84th meeting, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/46).
(Supporting document: UNEP/OzL.Pro/ExCom/84/26).

Consolidated business plan of the Multilateral Fund for the years 2021-2023

The Eighty-seventh Meeting of the Executive Committee noted:

(a) The update on the status of implementation of the 2021–2023 consolidated business plan of the Multilateral

Fund contained in document UNEP/OzL.Pro/ExCom/87/11;
(b) That the total value of activities submitted to the 87th meeting amounted to US $22,042,297 (including US $8,802,041 for HFC-related activities), of which US $1,003,880 was associated with project proposals not included in the 2021 business plan; and
(c) With appreciation, the report provided by UNIDO on the outcome of its discussions with the Government of Iraq on the issues raised in the assessment of its qualitative performance, in line with decision 86/8(b).

(UNEP/OzL.Pro/ExCom/87/58, para.95).
(Supporting document: UNEP/OzL.Pro/ExCom/87/11).

Consolidated business plan of the Multilateral Fund for the years 2022-2024

The Eighty-seventh Meeting of the Executive Committee noted:
(a) To note the consolidated business plan of the Multilateral Fund for 2022–2024 contained in document UNEP/OzL.Pro/ExCom/88/22;
(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/88/22;
(c) To further adjust the business plan:
(d) By adding to the 2022 business plan an HFC investment project that had been deferred at the 88th meeting;
(e) By taking into account the values approved in principle for revised and new HPMPs at the 88th meeting;
(f) To allow the submission of activities related to stage III of HPMPs including project preparation for countries with an approved stage II of HPMP with a reduction target beyond 2024;
(g) To reinstate the global HFC technical assistance project "Twinning of Ozone Officers and National Energy Policymakers to support Kigali Amendment Objectives"; and
(h) To endorse the consolidated business plan of the Multilateral Fund for 2022–2024, as adjusted by the Secretariat and the Executive Committee taking into consideration relevant decisions taken at the 88th meeting, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/34).
(Supporting document: UNEP/OzL.Pro/ExCom/88/22).

The Ninetieth Meeting of the Executive Committee noted:

(a) The update on the status of implementation of the 2022–2024 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/90/11;
(b) That the total value of activities submitted to the 90th meeting amounted to US $18,550,280 (including US $2,872,500 for HFC-related activities), of which US $1,043,745 was associated with project proposals not included in the 2022 business plan; and
(c) With appreciation, the report provided by UNIDO on the outcome of its discussion with the Government of Iraq on the issues raised in the assessment of its qualitative performance, in line with decision 88/8(b).

(UNEP/OzL.Pro/ExCom/90/40, Decision 90/29).
(Supporting document: UNEP/OzL.Pro/ExCom/90/11).

The Ninety-first Meeting of the Executive Committee noted:

(a) The update on the status of implementation of the 2022–2024 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/91/20; and
(b) That the total value of activities submitted to the 91st meeting amounted to US $83,048,165 (including US $4,829,989 for HFC-related activities), of which US $18,297,605 was associated with project proposals not included in the 2022 business plan.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/29).
(Supporting document: UNEP/OzL.Pro/ExCom/91/20).

Consolidated business plan of the Multilateral Fund for the years 2023-2025

The Ninety-first Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2023–2025 contained in document UNEP/OzL.Pro/ExCom/91/22;
(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/91/22;
(c) To adjust the business plan further:
(i) By adding to the 2023 business plan projects and activities that had been deferred at the 91st meeting;

(ii) By taking into account the values approved in principle for revised and new HCFC phase out management plans (HPMPs) at the 91st meeting;

(d) To allow Nigeria to submit stage IV of its HPMP in 2025 and the request for the associated project preparation in 2023;

(e) To maintain the energy-efficiency activities for Cambodia and Kyrgyzstan, which had agreements for the complete phase-out of HCFCs, noting that the implementing agencies concerned did not have any remaining HPMP tranches to request on behalf of those countries; and

(f) To endorse the consolidated business plan of the Multilateral Fund for 2023–2025, as adjusted by the Secretariat and the Executive Committee, taking into consideration relevant decisions taken at the 91st meeting, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/31).
(Supporting document: UNEP/OzL.Pro/ExCom/91/22).

The Ninety-second Meeting of the Executive Committee noted:

(a) The update on the status of implementation of the 2023–2025 consolidated business plan of the Multilateral Fund, as contained in document UNEP/OzL.Pro/ExCom/92/11; and

(b) That the total value of activities as requested at the 92nd meeting amounted to US $31,154,966 (including US $3,822,128 for HFC-related activities), of which US $1,544,028 was associated with project proposals not included in the 2023 business plan.

(UNEP/OzL.Pro/ExCom/92/56, para. 97).
(Supporting document: UNEP/OzL.Pro/ExCom/92/11).

The Ninety-third Meeting of the Executive Committee decided:

(a) To note:
(i) The update on the status of implementation of the 2023–2025 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/93/23;
(ii) That the total value of activities submitted to the 93rd meeting amounted to US $100,567,379 (including US $23,789,140 for HFC-related activities; US $7,419,281 for pilot projects for energy efficiency; and US $3,222,500 for the preparation of national inventories of banks of waste-controlled substances), of which US $12,521,905 was associated with project proposals not included in the 2023 business plan; and

(b) To allow, on an exceptional basis, bilateral and implementing agencies to submit, during 2024, projects for the preparation of national inventories of banks of waste-controlled substances under the funding window established pursuant to decision 91/66, even in cases where such projects had not been included in the agencies' business plans.

(UNEP/OzL.Pro/ExCom/93/105, decision 93/26).
(Supporting document: UNEP/OzL.Pro/ExCom/93/23).

Consolidated business plan of the Multilateral Fund for the years 2024-2026

The Ninety-third Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2024–2026 contained in document UNEP/OzL.Pro/ExCom/93/25;

(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/93/25;

(c) To further adjust the business plan:
(i) By adding to the 2024 business plan projects and activities that had been deferred at the 93rd meeting;
(ii) By taking into account the values approved in principle at the 93rd meeting for new HCFC phase-out management plans and Kigali HFC implementation plans; and

(d) To endorse the consolidated business plan of the Multilateral Fund for 2024–2026, as adjusted by the Secretariat and the Executive Committee, taking into consideration relevant decisions taken at the 93rd meeting, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/28).

(Supporting document: UNEP/OzL.Pro/ExCom/93/25).

The Ninety-fourth Meeting of the Executive Committee decided:

(a) To note:
  (i) The update on the status of implementation of the 2024–2026 consolidated business plan of the Multilateral Fund and financial planning for the triennium 2024–2026 contained in document UNEP/OzL.Pro/ExCom/94/12;
  (ii) That the total value of activities as requested at the 94th meeting amounted to US $62,835,221, including US $4,791,958 for HFC-related activities, US $2,830,001 for pilot projects on energy efficiency and US $2,418,400 for the preparation of national inventories of banks of waste-controlled substances, of which US $5,994,565 was associated with project proposals not included in the 2024 business plan;
  (iii) With appreciation, the report provided by UNDP on the outcome of its discussions with the Government of the Dominican Republic on the issues raised in the assessment of its qualitative performance, in line with decision 93/8(b);
(b) To adopt a resource allocation of US $181 million in 2024, US $392 million in 2025 and US $392 million in 2026, with any unallocated funds to be allocated subsequently during the 2024–2026 triennium;
(c) To urge implementing agencies to submit all projects and activities endorsed in the business plan in order to utilize fully the resources available during the 2024–2026 triennium; and
(d) To consider the availability of cash flow for the 2026 budget at the last meeting in 2025 in light of the collection of interest, the unexpected return of unused balances from projects/agreements, the payment of pledges from triennium prior to the replenishment for the period 2024–2026, any losses due to the non-payment of pledges expected from the replenishment for the period 2024–2026 and any losses or gains due to the fixed-exchange-rate mechanism.

(UNEP/OzL.Pro/ExCom/94/67, Decision 94/15).
(Supporting document: UNEP/OzL.Pro/ExCom/94/12).

The Ninety-fifth Meeting of the Executive Committee decided to note:

(a) The update on the status of implementation of the 2024–2026 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/95/23; and
(b) That the total value of activities recommended at the 95th meeting amounted to US $116,476,540 (including US $19,833,551 for HFC related activities; US $4,642,176 for pilot projects for energy efficiency pursuant to decision 91/65; US $1,170,247 for energy efficiency projects pursuant to decision 94/60; and US $2,638,600 for the preparation of national inventories of banks of waste controlled substances pursuant to decision 91/66), of which US $15,899,209 was associated with project proposals not included in the 2024 business plan.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/25).
(Supporting document: UNEP/OzL.Pro/ExCom/95/23).

Consolidated business plan of the Multilateral Fund for the years 2025-2027

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2025–2027 contained in document UNEP/OzL.Pro/ExCom/95/25;

(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/95/25;

(c) Also to adjust the business plan:
  i. By adding to the 2025 business plan projects and activities that had been deferred at the 95th meeting;
  ii. By taking into account the values approved in principle at the 95th meeting for new HCFC phase-out management plans and Kigali HFC implementation plans;

(d) To endorse the consolidated business plan of the Multilateral Fund for 2025–2027, as adjusted by the Secretariat and the Executive Committee, taking into consideration relevant decisions taken at the 95th meeting, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/27).
(Supporting document: UNEP/OzL.Pro/ExCom/95/25).

The Ninety-sixth Meeting of the Executive Committee decided to note:

(a) The update on the status of implementation of the 2025–2027 consolidated business plan of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/96/14; and

(b) That the total value of activities requested at the 96th meeting amounted to US $37,962,033 (including US $20,289,897 for HFC-related activities; US $1,713,080 for pilot projects for energy efficiency pursuant to decision 91/65; US $87,740 for energy-efficiency projects pursuant to decision 94/60; US $642,000 as submitted for the preparation of energy efficiency end-user projects using a revolving fund mechanism pursuant to decision 95/87; and US $1,124,000 for the preparation of national inventories of banks of waste controlled substances pursuant to decision 91/66), of which US $1,837,242 was associated with project proposals not included in the 2025 business plan.

(UNEP/OzL.Pro/ExCom/96/66, Decision 96/19).
(Supporting document: UNEP/OzL.Pro/ExCom/96/14).

The Ninety-seventh Meeting of the Executive Committee decided to note:

(a) The update on the status of implementation of the 2025–2027 consolidated business plan of the Multilateral Fund and financial planning for the triennium 2024–2026 contained in document UNEP/OzL.Pro/ExCom/97/19; and

(b) That the total value of activities recommended to the 97th meeting amounted to US $108,014,129 (including US $12,667,813 for HFC-related activities; US $3,987,881 for pilot projects for energy efficiency pursuant to decision 91/65; US $21,262,663 for energy efficiency projects pursuant to decision 94/60; and US $2,674,620 for the preparation of national inventories of banks of waste controlled substances pursuant to decision 91/66), of which US $10,304,295 was associated with project proposals not included in the 2025 business plan.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/23)
(Supporting document: UNEP/OzL.Pro/ExCom/97/19).

Consolidated business plan of the Multilateral Fund for the years 2026–2028

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note the consolidated business plan of the Multilateral Fund for 2026–2028 contained in document UNEP/OzL.Pro/ExCom/97/20;

(b) To adjust the business plan as proposed by the Secretariat in document UNEP/OzL.Pro/ExCom/97/20;

(c) To adjust the business plan also:

  (i) By adding to the 2026 business plan projects and activities that had been deferred at the 97th meeting;

  (ii) By taking into account the values approved in principle at the 97th meeting for new HCFC phase-out management plans and Kigali HFC implementation plans (KIPs);

(d) To request the Secretariat to prepare a brief document for consideration by the Executive Committee at its 99th meeting on updating the guidelines on project preparation for stage I of KIPs for use during preparation of stage II of KIPs; and

(e) To endorse the consolidated business plan of the Multilateral Fund for 2026–2028, as adjusted by the Secretariat and the Executive Committee, taking into consideration relevant decisions taken at the 97th meeting, while noting that endorsement did not denote approval of the projects identified therein or their funding or tonnage levels.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/24).
(Supporting document: UNEP/OzL.Pro/ExCom/97/20).

STRATEGIC PLANNING OF THE MULTILATERAL FUND

The Thirtieth Meeting of the Executive Committee decided:

(a) that the question of strategic planning should be discussed informally immediately prior to the Thirty-first Meeting of the Executive Committee and should also be included in the agenda of that Meeting for formal consideration;

(b) to request those members who had made detailed comments to submit them in written form to the Secretariat as early as possible;

(c) to request the Secretariat to prepare a paper containing the above comments and to provide it, together with the information summary prepared by the meeting of the informal advisory group, held in Paris from 19-21 January 2000 to Executive Committee members for the informal discussions to be held immediately prior to the Thirty-first Meeting;

(d) that the development of an overall strategy should be thorough and careful;

(e) that, in the meantime, however, in order to facilitate the process, to request the Implementing Agencies involved with institutional strengthening in those Article 5 countries unable to comply with the CFC freeze and also with the 2002 freeze on halons and methyl bromide to contact urgently the National Ozone Units of the countries concerned to assess what activities may need to be undertaken to ensure compliance; and

(f) to request the Implementing Agencies and the Secretariat to report to the Thirty-first Meeting of the Executive Committee on the results of the above contacts with the National Ozone Units with proposals for recommendations to be taken into account by the Executive Committee in their deliberations on activities of the Implementing Agencies.

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/57, para. 88).
(Supporting document: UNEP/OzL.Pro/ExCom/30/35).

Informal meeting on strategic planning

The Thirty-first Meeting of the Executive Committee decided to hold a two-day informal meeting on strategic planning of the Multilateral Fund in the compliance period immediately prior to the Sub-Committee meetings preceding the Thirty-second meeting of the Committee.
(UNEP/OzL.Pro/ExCom/31/61, Decision 31/46, para. 73(a)).

Framework on the objective, priorities, problems and modalities for strategic planning

At the Thirty-second Meeting, there was an exchange of views on the significance and consequences of adopting the "Draft framework on the objective, priorities, problems and modalities for strategic planning of the Multilateral Fund in the compliance period". There was general agreement that the framework could not be used as a basis for action until certain points were elaborated further. It was also evident to the members that, in order to achieve the desired result, the steps required to make the framework a solid basis for formulating implementable strategic planning should be taken as soon as possible. The Executive Committee therefore decided:

(a) to adopt the "Draft framework on the objective, priorities, problems and modalities for strategic planning of the Multilateral Fund in the compliance period", annexed to the report of the second informal meeting on strategic planning of the Multilateral Fund in the compliance period (UNEP/OzL.Pro/ExCom/32/43), as the basis for future work in strategic planning;

(b) to invite members of the Executive Committee to submit their ideas to the Secretariat for onward distribution to all members of the Executive Committee;

(c) to invite members of the Executive Committee to exchange ideas on the issue;

(d) to request the Secretariat of the Multilateral Fund to prepare an issue paper on this subject for submission to the Thirty-third Meeting of the Executive Committee;

(e) to hold a discussion on the issue at the Thirty-third Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/75, paras. 92 and 93).
(Supporting document: UNEP/OzL.Pro/ExCom/32/43).

The Executive Committee at its Thirty-third Meeting had a wide-ranging discussion on the issues raised in the document and reached a consensus on the need for a country-driven approach, allowing countries to retain the flexibility to determine the type of approach that would best enable Article 5 countries to meet their obligations under the Montreal Protocol. Representatives of several Article 5 countries emphasized the need for additional

funding for capacity-building and institutional strengthening that would enable National Ozone Units to compile accurate data and to effect a smooth transition towards a country-driven approach. Several other representatives emphasized that additional funding for such activities would need to be based on the understanding that Article 5 countries made a commitment to reduce national aggregate ODS consumption permanently. As some Article 5 country representatives stressed the need to consider the implications of this, it was understood that there would need to be further discussion of the issue before any use of such a concept. In discussing modalities for the new strategy, several representatives weighed its implications in relation to the roles and responsibilities of the various stakeholders, the issue of fixed shares for Implementing Agencies, the balance between investment and non-investment projects, and the need for clear administrative procedures. It was also noted that country programme updates and/or refrigerant management plans and their updates, could assist countries when preparing their national compliance strategies. It was noted that some representatives emphasized the importance of exchange of information between the Implementation Committee and the Executive Committee, which could be carried out by having the Chairs and Vice-Chairs of the respective Committees attend each other's meetings. The Executive Committee therefore decided:

(a) to adopt as the basis for future work in strategic planning the framework on the objectives, priorities, problems and modalities for strategic planning of the Multilateral Fund in the compliance period (Annex I.13);

(b) to request the Secretariat to prepare specific proposals for changes in procedures, implementation mechanisms, and modalities made necessary by paragraph (a) above on the understanding that it might not be possible or necessary to cover all topics at once and that consequently several papers might be needed for consideration at different future meetings of the Executive Committee;

(c) to note that updates to country programmes and refrigerant management plans would provide Article 5 countries with a mechanism for national phase-out strategies and to encourage Article 5 countries to take advantage of that opportunity.

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/54, paras 82-87).
(Supporting document: UNEP/OzL.Pro/ExCom/33/30).

The Thirty-fourth Meeting of the Executive Committee decided to take up the matter of extension of Decision 33/2, as outlined in paragraph 7 of document UNEP/OzL.Pro/ExCom/34/19, to other sectors in the context of its discussions on strategic planning under agenda item 7.

(UNEP/OzL.Pro/ExCom/34/58, Decision 34/17, para. 36).
(Supporting document: UNEP/OzL.Pro/ExCom/34/19).

Guide for resource planning for the triennium 2003-2005

The Thirty-seventh Meeting of the Executive Committee decided:

(a) to adopt document UNEP/Ozl.Pro/ExCom/37/66 and Corr.1, in addition to document UNEP/OzL.Pro/ExCom/37/18 and Corr.1, as a flexible guide for resource planning for the 2003-2005 triennium;

(b) to request the Secretariat to prepare, in collaboration with Implementing Agencies, bilateral agencies and Article 5 countries, a model rolling three-year phase-out plan for the Multilateral Fund, taking into account the results generated by the compliance-oriented model as included in Annex I to document UNEP/OzL.Pro/ExCom/37/66 and Corr.1, as well as UNEP/Ozl.Pro/ExCom/37/18 and Corr.1;

(d) to note that interested countries would produce conference room papers on the bidding concept and on alternative concepts for resource allocation, for consideration at the 38th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/68, para. 155 (a, b, d)).
(Supporting document: UNEP/OzL.Pro/ExCom/37/18, UNEP/OzL.Pro/ExCom/37/66 and Corr.1).

The Thirty-ninth Meeting of the Executive Committee decided to express its deep appreciation for the work of the Secretariat in the transition period from project-driven to compliance-driven planning, and for the Chief Officer's extraordinary guidance, talent and innovation in general and in formulating a new funding method based on strategic planning for the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/2, para. 22(b)).

MODEL THREE-YEAR PHASE-OUT PLAN

The Thirty-eighth Meeting of the Executive Committee decided:

(a) to note that the Multilateral Fund had been established to enable Article 5 countries to comply with the Montreal Protocol. The model three-year phase-out plan, as adjusted and corrected taking into account actions taken at the 38th Meeting of the Executive Committee, inter alia, suggested the reductions that would presumably be needed over the next three years to enable the compliance of all Article 5 countries with the interim compliance measures that had to be met in 2005 and 2007;

(b) to adopt the model three-year phase-out plan, as revised, as an important guide that should be considered by UNDP, UNIDO, the World Bank and, as appropriate, bilateral agencies, in the preparation of the annual and/or multi-year business plans of the agencies during the 2003 to 2005 triennium. The model may be further revised taking into consideration guidance provided by the 14th Meeting of the Parties, if any (and any further changes, consistent with and agreed under Decision 35/57 and related decisions as regards tables 1 to 4 of document UNEP/OzL.Pro/ExCom/38/58 and any changes agreed by the Secretariat and interested parties as regards tables 5 to 7, taking into account more detailed country specific information, where available);

(c) to request UNDP, UNIDO the World Bank and bilateral agencies, as appropriate, to take into account the ODS phase-out generated by the model as a basis for the preparation of multi-year agreements and consider allocating the annual funding tranches accordingly;

(d) that the Secretariat should report to the Executive Committee after each meeting of the Sub-Committee on Project Review regarding any changes or modification to the model three-year phase-out plan, and the possible implications that that may have for the approval of future projects presumed to be necessary to enable compliance;

(e) to urge Article 5 countries and their co-operating Implementing Agencies to accelerate the pace of implementation during the 2003 to 2005 timeframes, considering that the model also demonstrates that compliance over the next three years will also rest on the timely implementation of the very large number of already approved but unimplemented projects;

(f) to request the Secretariat to update the model at each last meeting of the Executive Committee of the calendar year for the following three years, in order to have a rolling model three-year ODS phase-out plan.

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/66, para. 111).
(Supporting document: UNEP/OzL.Pro/ExCom/38/58).

The Forty-first Meeting of the Executive Committee decided:

(a) a status report on the process undertaken up to the 41st Meeting in implementing the Fund's three-year model phase-out plan; and

(b) guidance on the funding allocations for the remainder of the triennium, including total allocations for 2004 and 2005, allocations of the Implementing Agencies and the bilateral agencies, and a possible allocation for a funding window on accelerated phase-out and maintaining momentum.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/81, para. 120).

The Forty-second Meeting of the Executive Committee decided:

(a) to note that the draft model three-year phase-out plan 2004-2006 presented in document UNEP/OzL.Pro/ExCom/42/5 had been used as the reference for the preparation of the 2004-2006 business plans of the Implementing Agencies;

(b) to adopt the model three-year phase-out plan 2004-2006 as a reference for resource planning for the corresponding triennium;

(c) to urge Article 5 countries with projects approved but not implemented and the cooperating implementing and bilateral agencies to accelerate the pace of implementation during the 2004-2006 triennium; and

(d) to request the Secretariat to present an updated model three-year rolling phase out plan for the years 2005-2007 to the first meeting of the Executive Committee in 2005 in order to provide guidance, as appropriate, for the preparation of the 2005-2007 business plan of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/4, para. 37).

(Supporting document: UNEP/OzL.Pro/ExCom/42/5).

The Forty-fourth Meeting of the Executive Committee decided:

(a) to adopt the 2005-2007 model three-year phase-out plan as a flexible guide for resource planning to phase out eligible ODS for the corresponding triennium, without prejudice to the level of funding to be agreed by the Parties for the 2005 2007 triennium;

(b) to urge Article 5 countries with approved projects not yet implemented and the cooperating bilateral and Implementing Agencies to accelerate the pace of implementation during the 2005-2007 triennium;

(c) to urge bilateral and Implementing Agencies to work with those countries that had been identified as needing immediate assistance to achieve the 2005 CTC and TCA phase-out targets and to include activities in their 2005-2007 business plans as appropriate; and

(d) to request the Secretariat to present an updated model three-year rolling phase out plan for the years 2006-2008 to the last Meeting of the Executive Committee in 2005 to provide guidance as relevant for the preparation of the 2006-2008 business plan of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/5, para. 45).
(Supporting document: UNEP/OzL.Pro/ExCom/44/7 and Corr.1).

The Forty-seventh Meeting of the Executive Committee decided:

(a) to adopt the 2006-2008 model three-year phase-out plan as a flexible guide for resource planning for the 2006-2008 triennium;

(b) to urge Article 5 countries with approved but not implemented projects and the cooperating bilateral and implementing agencies to accelerate the pace of implementation during the 2006-2008 triennium;

(c) to urge bilateral and implementing agencies to work with those countries that had been identified as needing immediate assistance to achieve the 2007 and 2010 Montreal Protocol's phase-out targets and to include activities in their 2006-2008 business plans as appropriate; and

(d) to request the Secretariat to present an updated model three-year rolling phase out plan for 2007-2010 to the last meeting in 2006 to provide guidance, as relevant, for the preparation of the 2007-2009 business plan of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/47/61, Decision 47/5, para. 34).
(Supporting document: UNEP/OzL.Pro/ExCom/47/7).

The Fiftieth Meeting of the Executive Committee decided:

(a) to adopt the 2007-2009 model three-year phase-out plan (UNEP/OzL.Pro/ExCom/50/7) as a flexible guide for resource planning for the corresponding triennium;

(b) to urge Article 5 countries with approved but not implemented projects and the cooperating bilateral and implementing agencies to accelerate the pace of implementation during the 2007-2009 triennium;

(c) to urge bilateral and implementing agencies to work with those countries that had been identified as needing immediate assistance to achieve the 2007 and 2010 phase-out targets in the Protocol and to include activities in their 2007-2009 business plans as appropriate;

(d) to request the Secretariat to present an updated model three-year rolling phase-out plan for the years 2008-2010 to the last Meeting of the Executive Committee in 2007 to provide guidance, as relevant, for the preparation of the 2008-2010 business plan of the Multilateral Fund; and

(e) to note that:

(i) some 40,254.8 ODP tonnes of ODS consumption and 54,509.0 ODP tonnes of ODS production had yet to be phased out in approved multi-year sectoral and national phase-out plans;

(ii) some 37,971.0 ODP tonnes of ODS consumption and 40,724.8 ODP tonnes of ODS production had yet to be phased out in approved individual or umbrella projects; and

(iii) sixty-four refrigerant management plan projects for low volume consuming countries; 32 terminal phase-out management plans for low-volume-consuming countries; and 35 national ODS phase-out plans for non-low-volume-consuming countries were currently being implemented.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/5 para. 49).

(Supporting document: UNEP/OzL.Pro/ExCom/50/7).

The Fifty-third Meeting of the Executive Committee decided:

(a) to adopt the 2008-2010 model rolling three-year phase-out plan as a flexible guide for resource planning for the corresponding period;

(b) to urge Article 5 countries with approved but not implemented projects, and the relevant implementing and bilateral agencies, to accelerate the pace of implementation during the 2008-2010 period;

(c) to urge bilateral and implementing agencies to work with those countries that had been identified as in need of immediate assistance to achieve the Protocol's 2007 and 2010 phase-out targets, and to include activities in their 2008-2010 business plans as appropriate;

(d) to request the Secretariat to present an updated model rolling three-year phase-out plan for the years 2009-2011 to the last Meeting in 2008 to provide guidance, as relevant, for the preparation of the 2009-2011 business plan of the Multilateral Fund;

(e) to note that:

(i) in total about 57,885.5 ODP tonnes of ODS consumption and 54,455.0 ODP tonnes of ODS production had yet to be phased out during the remainder of 2007 and in the 2008-2010 period;

(ii) fifty-three terminal phase-out management plans (TPMPs) for low-volume-consuming (LVC) countries, 42 national ODS phase-out plans for non-LVC countries, and 10 phase-out plans in the production sector in five non-LVC countries were currently being implemented; and

(iii) national phase-out plans (NPPs) for two non-LVC countries and TPMPs for 31 LVC countries had yet to be submitted for consideration and approval by the Executive Committee.

(UNEP/OzL.Pro/ExCom/53/67,Decision 53/5 para. 44).
(Supporting document: UNEP/OzL.Pro/ExCom/53/7).

The Fifth-sixth Meeting of the Executive Committee decided:

(a) To adopt the 2009–2011 model three-year phase-out plan as a flexible guide for resource planning for the corresponding triennium as contained in document UNEP/OzL.Pro/ExCom/56/7;

(b) To urge Article 5 countries with approved but not implemented projects, and the relevant bilateral and implementing agencies, to accelerate the pace of implementation during the 2009–2011 triennium;

(c) To urge bilateral and implementing agencies to work with those countries that had been identified as in need of immediate assistance to achieve the 2010 Protocol's phase out targets, and to include activities in their 2009-2011 business plans as appropriate;

(d) To request the Secretariat to present an updated model three-year rolling phase-out plan for the years 2010-2012 to the last meeting of the Executive Committee in 2009 to provide guidance, as relevant, for the preparation of the 2010–2012 business plan of the Multilateral Fund;

(e) To note that:

(i) In total around 12,197.8 ODP tonnes of ODS consumption and 7,997.0 ODP tonnes of ODS production had yet to be phased out during the remainder of 2008 and in the 2009-2011 triennium;

(ii) The 2007 HCFC consumption and production reported by 144 Article 5 countries was 26,367.8 ODP tonnes and 30,581.3 ODP tonnes, respectively. The level of HCFC consumption had been estimated at 32,606 ODP tonnes in 2013 and the HCFC production would follow the demand;

(iii) Eighty-six terminal phase-out management plans (TPMPs) for low volume consuming (LVC) countries, 40 national ODS phase-out plans for non LVC countries, and 12 phase-out plans in the production sector in seven non LVC countries were currently being implemented; and

(iv) A national phase-out plan for one non-LVC country and TPMPs for 10 LVC countries had yet to be submitted for consideration and approval by the Executive Committee.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/5 para 43)

(Supporting document: UNEP/OzL.Pro/ExCom/56/7).

The Fifth-ninth Meeting of the Executive Committee decided:

(a) To adopt the 2010-2012 model rolling three-year phase-out plan as a flexible guide for resource planning for the corresponding triennium, noting the significant uncertainty with regard to the amount of HCFC consumption to be addressed during this period;

(b) To urge Article 5 countries with approved but not implemented projects, and the relevant bilateral and implementing agencies, to accelerate the pace of implementation during the 2010-2012 triennium;

(c) To urge bilateral and implementing agencies to work with those countries that had been identified as being in need of immediate assistance to meet the 2010 Montreal Protocol phase-out targets, and to include activities in their 2010 business plans as appropriate;

(d) To request the Secretariat to present an updated model rolling three-year phase-out plan for the years 2011-2013 to the last Meeting of the Executive Committee in 2010 to provide guidance, as relevant, for the preparation of the 2011-2013 business plan of the Multilateral Fund; and

(e) To note that:

(i) Some 17,704 ODP tonnes of ODS consumption and 6,018 ODP tonnes of ODS production had yet to be phased out in approved multi-year sectoral and national phase out plans during the remainder of 2009 and in the 2010-2012 triennium;

(ii) Some 19,780 ODP tonnes of ODS consumption had yet to be phased out in approved individual or umbrella projects (on the basis of the progress report submitted by bilateral and implementing agencies to the 58th Meeting of the Executive Committee);

(iii) Three refrigerant management plan projects for low-volume-consuming (LVC) countries approved in accordance with decision 31/48 (e.g., to achieve the 2005 and 2007 CFC phase-out targets on time); 98 terminal phase-out management plans for LVC countries; 41 national ODS phase-out plans for non-LVC countries; and 12 phase-out plans in the production sector in seven non-LVC countries were currently being implemented.

(UNEP/OzL.Pro/ExCom/59/59 Decision 59/5 para 40)
(Supporting document: UNEP/OzL.Pro/ExCom/59/7).

The Sixty-second Meeting of the Executive Committee decided:

(a) To note the model rolling three-year phase-out plan of the Multilateral Fund for the years 2011-2013, as contained in document UNEP/OzL.Pro/ExCom/62/7;

(b) To urge Article 5 countries, with approved but not implemented projects, and the relevant bilateral and implementing agencies, to accelerate the pace of implementation during the period 2011-2013;

(c) To urge bilateral and implementing agencies to work with those countries that had been identified as being in need of immediate assistance to meet the 2013 and 2015 Montreal Protocol phase-out targets, and to include relevant activities in their 2011-2014 business plans, as appropriate;

(d) To request the Fund Secretariat to present an updated model three-year rolling phase-out plan for the years 2013-2015 to the second meeting of the Executive Committee in 2012 to provide guidance, as relevant, for the preparation of a business plan for the Multilateral Fund for 2013-2015;

(e) To note:

(i) That some 14,579.3 ODP tonnes of ODS consumption had yet to be phased out in approved multi-year sectoral and national phase out plans during the remainder of 2010 and in the period 2011-2013; and

(ii) That 41 national ODS phase-out plans for non-low-volume-consuming (non LVC) countries, 98 terminal phase-out management plans for LVC countries, and 12 phase-out plans in the production sector in seven non-LVC countries were currently being implemented.

(UNEP/OzL.Pro/ExCom/62/62 Decision 62/5 para 29)
(Supporting document: UNEP/OzL.Pro/ExCom/62/7).

Following clarification of the future status of the model rolling three-year phase-out plan, and its relationship to the planning process of the Multilateral Fund and to other documents, including that on status reports and compliance, the Executive Committee at its Sixty-sixth Meeting decided:

(a) To note the 2013-2015 model rolling three-year phase-out plan contained in document

UNEP/OzL.Pro/ExCom/67/7;

(b) To urge bilateral and implementing agencies to work with those Article 5 countries that did not yet have an approved HCFC phase-out management plan (HPMP) to complete the preparation of their HPMPs and to submit them for the Executive Committee's consideration; and

(c) To request the Secretariat to assess the HCFC compliance requirements for all Article 5 countries in the document on status reports and compliance to serve as a guide for preparation of the Multilateral Fund's business plan.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/6 para 32)
(Supporting document: UNEP/OzL.Pro/ExCom/67/7).

PROMISSORY NOTES

The Eleventh Meeting of the Executive Committee decided that promissory notes do constitute committable resources and that the deposit of a promissory note would be considered to be payment of a country's contribution to the Fund.

The Twelfth Meeting of the Executive Committee decided that arrears for 1993 and prior years should be paid in cash in accordance with the decision taken at the Eleventh Meeting of the Executive Committee on establishing promissory notes for payment of future contributions. However, in view of the difficulties experienced by countries with economies in transition in meeting their obligations, the Executive Committee decided to extend to them the facilities of payment of their arrears through promissory notes.
(UNEP/OzL.Pro/ExCom/12/37, para. 20).

Promissory notes would be encashed on a fixed schedule with the option of accelerated encashment on demand by the Treasurer in light of needs on a pro rata basis. If there was a need for an accelerated encashment, notes deposited prior to 1994 should be encashed before accelerated encashment of notes deposited in 1994 or after was required.

The scheduling of draw down from 1994 promissory notes would begin in 1995. If the notes deposited before 1994 were encashed in totality in 1994, the draw down from 1994 promissory notes could begin in 1994.
(UNEP/OzL.Pro/ExCom/11/36, para. 128).
(Supporting document: UNEP/OzL.Pro/ExCom/11/7).

Encashment schedule

The Twelfth Meeting of the Executive Committee agreed to adopt the following encashment schedule as an initial encashment schedule which could be modified later on the basis of experience gained:

Encashment dates	1994 portion scheduled	1995 portion scheduled	1996 portion scheduled
1 January 1995	1/6th 1994		
1 July 1995	1/6th 1994		
1 January 1996	1/6th 1994	1/6th 1995	
1 July 1996	1/6th 1994	1/6th 1995	
1 January 1997	1/6th 1994	1/6th 1995	1/6th 1996
1 July 1997	1/6th 1994	1/6th 1995	1/6th 1996
1 January 1998		1/6th 1996	1/6th 1995
1 July 1998		1/6th 1995	1/6th 1996
1 January 1999			1/6th 1996
1 July 1999			1/6th 1996

This schedule would be subject to acceleration in the light of needs. As also decided by the Committee, the schedule begins in 1995; if, however, notes deposited before 1994 were encashed in totality in 1994, the draw-down from 1994 notes could begin in 1994.
(UNEP/OzL.Pro/ExCom/12/37, para. 31, and Annex II).
(Supporting document: UNEP/OzL.Pro/ExCom/12/4).

The Executive Committee urged the Treasurer, in collaboration with the World Bank, to put in place modalities for transferring promissory notes from the Treasurer to the Bank, in consultation with the Parties concerned and as and when those Parties informed the Treasurer of their intention to pay their contributions in the form of promissory notes.
(UNEP/OzL.Pro/ExCom/13/47, para. 31).

The Twenty-first Meeting of the Executive Committee decided to express the hope that any outstanding issues related to the full use of promissory notes would be resolved by the time of the Twenty-second Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/21/36, Decision 21/1 d, para. 7).

The Twenty-fifth Meeting of the Executive Committee decided that, in view of the significant shift in the composition of cash and promissory notes in the resources of the Multilateral Fund and operational needs, the Treasurer should have the flexibility to implement the Executive Committee decision on accelerated encashment on need, provided that any accelerated encashment was done on a pro-rata basis across all the promissory notes received by the Treasurer, to provide fairness, and with a reasonable period of time of advance notice.
(UNEP/OzL.Pro/ExCom/25/68, Decision 25/2, para. 23(b)).

The Forty-first Meeting of the Executive Committee decided:

(a) to request the Treasurer to provide a report to the 42nd Meeting of the Executive Committee on the historical use of promissory notes. For each promissory note submitted to date, the report should include: country of origin, denomination, date of submission, place of custody, deposit bank of account, date of final Treasurer encashment, any exchange rate loss or gain that resulted to the Fund from the use of the note, schedule of encashment or other stipulation (if any) included by the country concerned with the submission of the note, but should not be drafted with a view to limiting countries' right to use promissory notes;

(b) also to request the Treasurer to report on rules and/or systems for the transparent and equitable encashment of promissory notes used in other forums, with a view to enabling the Executive Committee to determine the advisability of establishing more standardized rules for the use of promissory notes, and in an effort to ensure that the notes, as well as the contributions in cash, of all donors were treated equitably and exchange rate loss was minimized.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/4, para. 34).

The Forty-second Meeting of the Executive Committee decided:

(a) to take note of the additional information provided by the Treasurer; and

(b) to request UNEP to complete the study on the encashment of promissory notes and submit a report thereon to the Executive Committee at its 43rd Meeting.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/44, para. 143).

The Executive Committee at its Sixty-seventh Meeting decided:

(a) To note:

(iii) The feedback received from the Government of Germany on the proposed accelerated encashment schedule to the effect that it would not be possible to accelerate encashment of such notes during the current replenishment period and that the German Parliament's approval would be required to accelerate the encashment of promissory notes during the next replenishment period;

(iv) That the encashment schedule for Germany's promissory notes for the 2012-2014 triennium went beyond the replenishment period and that some of the notes would be due for encashment between 2015 and 2017;

(b) To request the Government of Germany to pursue with the relevant authorities the issue of encashment of Germany's promissory notes within the next replenishment period, and to inform the Executive Committee accordingly at its first meeting in 2014;

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/2, para. 23(a)(iii and iv) and (b)).
(Supporting document: UNEP/OzL.Pro/ExCom/67/3).

The Executive Committee at its Seventy-second Meeting decided:

(d) To further urge the Government of Germany to continue to consider the accelerated encashment of its promissory notes during the replenishment period.

(UNEP/OzL.Pro/ExCom/72/47, Decision 72/1, para. 27(d)).

Exchange rate fluctuations

The Twenty-fifth Meeting of the Executive Committee decided that contributing parties which issued promissory notes in currencies other than the United States dollar should be responsible for the upward or downward movement of the value of their promissory notes due to exchange rate fluctuations. The variance between the

value of the note when it was deposited and the value of the note when it was cashed should be credited or debited to the account of the note-issuing party and reflected in the contribution due from the party in the following year.
(UNEP/OzL.Pro/ExCom/25/68, Decision 25/2, para. 23(c)).

CONCESSIONAL LOANS

Assistance for investment projects shall generally be provided in the form of grants. However, where the investment project has a short payback period (e.g., one to two years), financing may take the form of highly concessional loans. If an Implementing Agency believes that a highly concessional loan is appropriate for a particular project, it shall recommend this action at the next meeting of the Executive Committee. The Committee shall make the final decision on the terms of assistance.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (sections V.1, V.2, V.3).

Facility for additional income from loans and other sources

The Fifty-fifth Meeting of the Executive Committee decided to consider a facility for additional income from loans and other sources to be maintained and the potential uses of those funds.
(UNEP/OzL.Pro/ExCom/55/53, Decision 55/2(f), para. 29(b)).

The Fifty-sixth Meeting of the Executive Committee decided to request that the discussions held at the 56th Meeting be taken into account when preparing a revision of the desk study on the evaluation of chiller projects and when preparing a policy paper on "a facility for additional income from loans and other sources" in response to decision 55/2.
(UNEP/OzL.Pro/ExCom/56/64, Decision 56/10 para 65).
(Supporting document: UNEP/OzL.Pro/ExCom/56/11/Add.1).

The Fifty-seventh Meeting of the Executive Committee decided to request the Secretariat:

(a) to take note of the document on the facility for additional income from loans and other sources (UNEP/OzL.Pro/ExCom/57/64).

(b) to prepare a paper on a special funding facility within the Multilateral Fund, together with an executive summary. The paper should take into account the views that had been expressed at the 57th Meeting as compiled by the Secretariat, and would be posted on its intranet, together with any views received by the Secretariat during the intersessional period; and

(c) to submit the revised paper to the Executive Committee at its 58th Meeting.
(UNEP/OzL.Pro/ExCom/57/69, Decision 57/37 para 192).
(Supporting document: UNEP/OzL.Pro/ExCom/57/64).

The Fifty-eighth Meeting of the Executive Committee decided:
(b) that the detailed account of the Executive Committee's discussion on the establishment of a facility for additional income and loans and other sources would be included in the Report of the Executive Committee to the Twenty-first Meeting of the Parties, together with a reference to the document considered by the Executive Committee on the subject (UNEP/OzL.Pro/ExCom/58/49);
(c) to request the Secretariat to prepare a further concept paper for the 59th Meeting expanding on papers presented to date with respect to the elements raised at the 58th Meeting, and in particular, highlighting a definition of a facility and the added value of establishing a facility;
(d) to request the Secretariat and the Treasurer to address the implications of optimally managing credits for climate change and other environmental benefits from the global carbon markets with a view to making that component of a facility operational;
(e) to request the Secretariat to seek advice from external carbon market specialists on how the market might best be employed in the longer term in the context of a facility;
(f) to accept the offer of the World Bank to make a representative from its Treasury Department available to the 59th Meeting of the Executive Committee to present mechanisms, such as advanced commitments, for dealing with additional financing and blending Multilateral Fund funds with carbon financing; and
(g) to defer consideration of requests for resource mobilization pending further discussion on this topic.
(UNEP/OzL.Pro/ExCom/58/53, Decision 58/37 para 171 (b, c, d, e, f).
(Supporting document: UNEP/OzL.Pro/ExCom/58/49).

The Fifty-ninth Meeting of the Executive Committee decided to request the Secretariat to consolidate the material

presented during the Meeting on the Special Funding Facility, with any additional contributions submitted by Members by the end of 2009, into a single agenda item addressing both the Facility as well as any issues related to decision XIX/6 paragraph 11(b) of the Nineteenth Meeting of the Parties for consideration at its 60th Meeting.
(UNEP/OzL.Pro/ExCom/59/59, Decision 59/48 para 263f).
(Supporting document: UNEP/OzL.Pro/ExCom/59/54).

The Sixtieth Meeting of the Executive Committee decided to request the Secretariat to present the report of the Executive Committee on the special funding facility to the 30th Meeting of the of the Open-ended Working Group of Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer (OEWG), based on Annex V to document UNEP/OzL.Pro/ExCom/60/50, the "Excerpt from Report of the 59th Meeting of the Executive Committee, Agenda item 12: Further Concept Paper for a Special Funding Facility for Additional Income from Loans and Other Sources (decision 58/37)"..
(UNEP/OzL.Pro/ExCom/60/54, Decision 60/48 para 209).
(Supporting document: UNEP/OzL.Pro/ExCom/60/50).

Study on concessional loan mechanism

The World Bank should be asked to prepare a study on how to set up a concessional loans mechanism; i.e., what options were available given current Implementing Agencies and their procedures, what steps would be required to put the mechanism in place, and to what extent could the Bank use its resources or the resources from other sources for phase-out in Article 5 countries.
(UNEP/OzL.Pro/ExCom/16/20, para. 82e).

The Twentieth Meeting of the Executive Committee decided:

(a) to take note of the joint World Bank/Fund Secretariat document on concessional lending for ODS phase-out;

(b) to take note of the information provided during the discussion in the Committee on the interest expressed by the Inter-American Development Bank in providing concessional loans for ODS phase-out and the possibility of mobilizing funding from other sources, including the private sector;

(c) to note also the reservations expressed by some members of the Committee with respect to the provision of concessional loans from the Multilateral Fund;

(d) that, in the light of the discussion at the current meeting of the Executive Committee, there was a need for a wider examination of the various possibilities of concessional lending for ODS phase-out;

(e) to request the Secretariat and the World Bank to prepare for submission to the Executive Committee, through its Sub-Committee on Financial Matters, a further report exploring the practical options for providing concessional loans for ODS phase-out in Article 5 countries, *inter alia*, through regional development banks and the private sector.

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/39, para. 58).
(Supporting document: UNEP/OzL.Pro/ExCom/20/59).

Innovative funding

The Twenty-first Meeting of the Executive Committee decided:

(a) to invite the Secretariat and the Implementing Agencies to submit for the consideration of the Executive Committee an innovative proposal for a demonstration project or projects to illustrate how concessional lending and other forms of innovative funding, including financing from the private sector, can be used to advance the phase-out of ozone-depleting substances by providing funding for projects and activities that may or may not otherwise be eligible for full funding in the form of grants from the Multilateral Fund;

(b) to approve the request of the World Bank for US $60,000 toward the cost of a concessional financing study to be carried out by the International Finance Corporation with a view to providing the Executive Committee with a comprehensive report that would:

  (i) explore ways in which private-sector finance can be mobilized to assist Article 5 countries in phasing out ozone-depleting substances, particularly in sectors with a good return on investments in ozone-friendly technologies;

  (ii) provide a final theoretical overview of ways in which concessional funding and other forms of innovative funding, including on-lending, can be used to augment and make most effective use of the

resources of the Multilateral Fund.
(UNEP/OzL.Pro/ExCom/21/36, Decision 21/39, para. 55).
(Supporting document: UNEP/OzL.Pro/ExCom/21/34).

The Twenty-third Meeting of the Executive Committee decided:

(a) to request the World Bank to consider how innovative funding could be applied to this or a similar project;

(b) that any project along these lines should be considered in the context of the paper on concessional loans currently being prepared by the World Bank.
(UNEP/OzL.Pro/ExCom/23/68, Decision 23/30, para. 55).

The Twenty-fourth Meeting of the Executive Committee decided:

(a) to request members of the Executive Committee to submit their thoughts on the issue of concessional loans, in writing, to the Secretariat by the end of April;

(b) to request the Secretariat to circulate those views to all members of the Executive Committee before the Twenty-fifth Meeting of the Executive Committee;

(c) to request the World Bank to submit to the Twenty-fifth meeting of the Executive Committee the results of its study on concessional loans, and to resubmit its project proposal on concessional loans in accordance with Decision 23/30; and

(d) to undertake substantive discussion on the subject of concessional loans at its Twenty-fifth Meeting.
(UNEP/OzL.Pro/ExCom/24/47, Decision 24/62, para. 104).

Open-ended contact group on concessional lending

The Twenty-fifth Meeting of the Executive Committee decided to establish an open-ended contact group, with no specific terms of reference to consolidate all views and formulate a consensus on concessional lending. The group should begin its discussions immediately and should report back to the next meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/25/68, Decision 25/53, para. 94).

The convener of the Contact Group on Concessional Lending, which had held two meetings in Cairo during the Twenty-sixth Meeting of the Executive Committee, gave a report on the work of the group and said that its conclusions were as follows:

(a) progress was made by the Group in getting a better understanding of both the fears of countries in initiating concessional financing, and the broad conceptual framework under which such financing could exist;

(b) there was agreement that it would be useful to more fully develop potential models for such financing, and provide examples, which, to the degree possible, describe how the fears were addressed;

(c) there was agreement that it would be useful to ask Implementing Agencies, bilateral donors, Article 5 countries and companies to, if they desired, bring forward innovative ideas in this area for the Executive Committee's consideration.

The Executive Committee took note of the presentation of the convener of the Contact Group on Concessional Lending and noted that the full report on its meetings would be circulated to all members of the Committee.
(UNEP/OzL.Pro/ExCom/26/70 (paras. 81 and 82).

The Twenty-seventh Meeting of the Executive Committee decided:

(a) to request the Secretariat, in co-operation with the Implementing Agencies, to prepare a document for the Twenty-eighth Meeting of the Executive Committee containing a compendium of past decisions and describing experiences so far with loan components;

(b) to request the Secretariat and the Implementing Agencies to collaborate on real-life scenarios, highlighting issues and problems that might be associated with them, including such concerns as the lack of management capacity in some countries and the fear of augmenting the national debt of countries that were already in economic crisis.

(c) to consider this subject again at the Twenty-eighth Meeting.
(UNEP/OzL.Pro/ExCom/27/48, Decision 27/84, para. 128).
(Supporting document: UNEP/OzL.Pro/ExCom/27/47).

The Twenty-eighth Meeting of the Executive Committee decided:

(a) to take note of the following principles presented by the representative of Canada and discussed by the Executive Committee:

  (i) recipient Governments should not be required to assume additional official debt as a result of agreeing to Multilateral Fund projects that utilized more innovative financing arrangements;

  (ii) if a country agreed to a project which included concessional lending or "innovative funding" arrangements, any funds which are eventually repaid to the project should be used, at the direction of the Executive Committee, to address further related needs within the same country;

  (iii) the parameters of innovative financing projects must be tailored to meet the needs of the project being considered and the capacity of the recipient country;

  (iv) the operation of concessional loans, or other innovative financing mechanisms, required an appropriate provision for administrative costs;

(b) to invite the members of the Executive Committee to submit to the Secretariat comments on these four principles or further such principles required, to be incorporated into a broad framework document to be considered at the Twenty-ninth Meeting of the Executive Committee;

(c) to discuss the issue and principles at the Twenty-ninth Meeting, both as an item on the agenda and in a large-scale informal meeting.

(UNEP/OzL.Pro/ExCom/28/57, Decision 28/48, para. 87).

The Twenty-ninth Meeting of the Executive Committee decided to take note of the documents on the subject, including an analysis prepared by the World Bank on past experience with concessional loans, and the proposed framework contained in pages 4 and 5 of document UNEP/OzL.Pro/ExCom/29/59, as a useful basis for further discussion, and to seek the guidance of the Meeting of the Parties on how to proceed further.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/71, para. 113).

The Thirtieth Meeting of the Executive Committee decided to include an item on concessional lending in the agenda of its Thirty-first Meeting.

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/2, para. 7).

The Thirty-second Meeting of the Executive Committee decided to defer further consideration of concessional lending at this time.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/83, para. 105).

The Thirty-third Meeting of the Executive Committee decided that concessional lending would be placed on the agenda of the Thirty-fourth Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/59 para. 101).

Technical workshop on concessional lending

The Thirty-fourth Meeting of the Executive Committee decided:

(a) to consider the proposal for a technical workshop on concessional lending at its 35th Meeting;

(b) to request the Secretariat, as preparation for that meeting:

  (i) to recirculate its document UNEP/OzL.Pro/ExCom/29/59, as well as the note produced by the representative of Canada, reporting on the informal meeting convened on 23 November 1999 during the 29th Meeting of the Executive Committee at Beijing;

  (ii) to prepare a report containing a compilation of the experience of the World Bank, which had applied innovative funding modalities to projects financed by the Multilateral Fund in Mexico, Thailand and Turkey, as well as other relevant information that could facilitate the understanding of the process of concessional lending;

(c) to take the proposal made by the Government of Japan as a basis of further discussion at its 35th Meeting, the text of which is reproduced as follows:

"The Executive Committee, having discussed the document submitted by the Government of Japan (UNEP/Ozl.Pro/ExCom/34/CRP. 1 of 22 June 2001):

"(a) decides to approve the convening of a technical workshop, in a project to be implemented by the Government

of Japan with the assistance of the Implementing Agencies, to:

"(i) promote exchange of views on the objectives and modalities of concessional lending including pros and cons to Article 5 countries among the Member Governments of the Executive Committee;

"(ii) deepen the understanding of operations of any practical and workable concessional lending schemes available within the United Nations system;

"(iii) review relevant experience of the Fund and the Implementing Agencies as well as Article 5 countries in innovative financing in this field;

"(b) requests the Government of Japan in co-operation with the Secretariat and interested Implementing Agencies to make substantive and the relevant logistical arrangements for the convening of the workshop in a most cost-effective manner, at a time in which the Japanese Government deems appropriate by the end of June 2002, on the understanding that the agencies should make substantive contributions based on their experience in this area; and

"(c) requests the Secretariat and, as appropriate, the agencies to report on the findings of the workshop to the 37th Meeting of the Executive Committee.

"(d) requests the Executive Committee at its 34th Meeting to approve US $[75,000] to support the participation of the relevant experts and resource persons from Article 5 countries. This amount should be offset against Government of Japan's 2001 contribution to the Multilateral Fund."

(UNEP/OzL.Pro/ExCom/34/58, Decision 34/69, para. 118).
(Supporting document: UNEP/OzL.Pro/ExCom/34/CRP.1).

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to take note with appreciation of the information paper provided by the World Bank on innovative financing for effective ODS phase-out;

(b) to approve the convening of a technical workshop, in the context of a project to be implemented by the Government of Japan with the assistance of the Implementing Agencies, to:

(i) promote exchange of views on the objectives and modalities of concessional lending including pros and cons, among Article 5 countries members of the Executive Committee;

(ii) deepen the understanding of operations of any practical and workable concessional lending schemes available within the United Nations system;

(iii) review relevant experience of the Fund and the Implementing Agencies, as well as Article 5 countries, in innovative financing in this field;

(c) to request the Government of Japan, in co-operation with the Secretariat and interested Implementing Agencies, to make the substantive and relevant logistical arrangements for the convening of the workshop in the most cost-effective manner at a time deemed appropriate by the Japanese Government, preferably back-to-back with the meeting of the Open-Ended Working Group of the Parties to the Montreal Protocol, to be held at the end of December 2002, on the understanding that the agencies would make substantive contributions based on their experience in this area;

(d) also to request the Secretariat and, as appropriate, the agencies to report on the findings of the workshop to the next appropriate Meeting of the Executive Committee;

(e) to approve US $75,000, on an exceptional basis, to support the substantive and relevant logistical arrangements, including the participation of Executive Committee members from Article 5 countries and the relevant experts and resource persons from Article 5 countries. This amount should be offset against the Government of Japan's 2001 contribution to the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/61, para. 134).

Report of the Fund Secretariat on the technical workshop on concessional lending

The Thirty-eighth Meeting of the Executive Committee decided:

(a) to note with appreciation the report of the Fund Secretariat on the Technical Workshop on Concessional Lending (UNEP/OzL.Pro/ExCom/38/67 and Corr.1) as well as the report of UNEP on the proceedings of the workshop (UNEP/OzL.Pro/ExCom/38/Inf.2);

(b) to express gratitude to the Government of Japan for the convening of the technical workshop with the assistance of UNEP;

(c) to note that the technical workshop served for useful exchange of views between Article 5 countries and non-Article 5 countries on concessional lending;

(d) to further note that the respective reports contained useful information on the modalities of concessional lending and their practical applications;

(e) to acknowledge the significant progress achieved in discussing the issue of concessional lending at the technical workshop and at the Thirty-eighth Meeting of the Executive Committee;

(f) to include an item on concessional lending on the agenda of the 39th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/75, para. 144).
(Supporting documents: UNEP/OzL.Pro/ExCom/38/67, 38/67/Corr.1 and UNEP/OzL.Pro/ExCom/38/Inf.2).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to defer consideration of the issue to the Forty-first Meeting of the Executive Committee;

(b) to request the Secretariat to prepare historical documentation on concessional lending for distribution to members of the Executive Committee.

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/57, para. 112).

The Forty-first Meeting of the Executive Committee decided:

(a) to note that, having reviewed the experiences of the Multilateral Fund and the progress made in the implementation of the projects on highly concessional terms approved to date for Article 5 countries, the Implementing Agencies and the Article 5 countries concerned had accumulated sufficient useful competence and expertise to further identify and implement projects with innovative financing; and

(b) to request the Secretariat, the Implementing Agencies and bilateral agencies to continue to explore opportunities and possibilities for carrying out more pilot and demonstration projects in countries that wished to do so in order to illustrate how concessional lending or other innovative financial mechanisms could be used in accordance with Article 10 of the Montreal Protocol and thereby facilitate and/or advance national compliance with the Protocol, and to report from time to time to the Executive Committee and to the Meeting of the Parties.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/96, para. 155).
(Supporting document: UNEP/OzL.Pro/ExCom/41/83).

FIXED EXCHANGE RATE MECHANISM

The Tenth Meeting of the Parties decided:

1. to request the Treasurer of the Multilateral Fund to prepare, in consultation with relevant institutions and Parties and in time for the nineteenth meeting of the Open-ended Working Group, a discussion paper which describes how a mechanism using fixed currency exchange rates could be implemented for the replenishment of the Multilateral Fund for the triennium 2000-2002. The paper should examine the administrative framework, the potential impact and any risks for the operation of the Fund that are associated with the adoption of such a mechanism. The paper should also include criteria for determining if a particular currency's fluctuations had been of such a magnitude that a fixed exchange rate mechanism would not be practical, in which case that country would continue to make its commitments and payments in United States dollars;

2. to request the Treasurer of the Multilateral Fund to monitor exchange rates of donor country currencies, including the Euro, between 1 March 1999 and 30 September 1999, and to submit in time for the Eleventh Meeting of the Parties a table showing the average exchange rate for each donor country currency with the United States dollar and Special Drawing Rights (SDRs) for this period.

(UNEP/OzL.Pro.10/9, Decision X/32).

The Eleventh Meeting of the Parties decided:

1. to urge Parties to pay their contributions to the Multilateral Fund promptly and in full;

2. that the purpose and objective of introducing the new mechanism is to ease some of the contributing Parties' administrative difficulties due to commitments in other than their national currencies, to promote the timely payment of contributions, and to ensure that there is no adverse impact on the level of available resources

of the Multilateral Fund;

3. to direct the Treasurer to proceed with the implementation of the fixed exchange-rate mechanism on a trial basis for the replenishment (2000-2002), so that payments by contributing Parties to the Fund for the triennium commencing in 2000, can be made in accordance with this mechanism;
4. that only Parties with inflation rate fluctuations of less than 10 per cent, as per the published figures of the International Monetary Fund, for the preceding triennium will be eligible to utilize the mechanism;
5. that Parties choosing to pay in national currencies will calculate their contributions based on an average United Nations exchange rate for the six months preceding the replenishment period. Parties not choosing to pay in national currencies may continue to pay in United States dollars;
6. that the Meeting of the Parties should review the implementation of the mechanism at the end of 2001 for consideration at the technical segment of the Meeting of the Parties to determine the impact of the mechanism on the operations of the Multilateral Fund and its impact on the funding of the phase-out of ozone-depleting substances in Article 5 countries during this triennium so that the ozone-depleting substances phase-out process is not adversely affected;
7. that, in order to ensure the efficient and effective operation of the Multilateral Fund, Parties should strive to pay their contributions as early in the calendar year as possible and no later than 1 June of each year. Parties unable to make their contributions by 1 June should notify the Treasurer as to when during the calendar or fiscal year their payment will be made, but contributing Parties should strive to pay their contributions no later than 1 November of that year.

(UNEP/OzL.Pro.11/10, Decision XI/6).

The Thirty-first Meeting of the Executive Committee decided to request the Treasurer to prepare for submission to the Committee at its Thirty-second meeting a status report on the implementation of paragraph 6 of decision XI/6 of the Parties.

(UNEP/OzL.Pro/ExCom/31/61, Decision 31/1, para. 15(e)).

The Thirty-second Meeting of the Executive Committee decided:

(c) to urge Parties eligible to use the fixed exchange rate mechanism to inform the Treasurer by the Thirty-third Meeting of the Executive Committee of their intention to do so;

(e) noting the provisions of para. 7 of Decision XI/6, request Parties unable to make contributions by 1 June of the current year to notify the Treasurer of their proposed payment schedule for the current triennium by the Thirty-third Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/2, para. 13 (c, e)).

The Thirteenth Meeting of the Parties decided:

1. to request the Treasurer and the Secretariat of the Multilateral Fund to finalize the review, as per decision XI/6, and give a final report to the Parties at the 22nd Meeting of the Open-ended Working Group; and
2. that in so doing, the Secretariat should:
   a. consult, as appropriate, other relevant multilateral funding institutions that use a fixed-exchange-rate mechanism, or similar mechanisms;
   b. identify options on how a fixed-exchange-rate mechanism could be implemented so that the process of phasing out ozone-depleting substances is not adversely affected, and hire consultants for that purpose, as appropriate.

(UNEP/OzL.Pro/13/10, Decision XIII/4).

The Fourteenth Meeting of the Parties decided:

1. to direct the Treasurer to extend the fixed-exchange-rate mechanism for a further trial period of three years;
2. that Parties choosing to pay in national currencies will calculate their contributions based on an average United Nations exchange rate for the twelve-months preceding the replenishment period. This average will be based on the twelve-month period immediately preceding the first day of the meeting of the Parties during which the replenishment level will be decided. Subject to paragraph 3 below, Parties not choosing to pay in

national currencies, pursuant to the fixed-exchange-rate mechanism, will continue to pay in United States dollars;

3. that no party should change the currency selected for its contribution in the course of the triennium period;
4. that only Parties with inflation rate fluctuations of less than 10 per cent, as per published figures of the International Monetary Fund, for the preceding triennium will be eligible to utilize the mechanism;
5. to urge Parties to pay their contributions to the Multilateral Fund in full and as early as possible in accordance with paragraph 7 of Decision XI/6;
6. to agree, if the fixed-exchange-rate mechanism is to be used for the next replenishment period, that Parties choosing to pay in national currencies will calculate their contributions based on an average United Nations exchange rate for the six-month period commencing 1 July 2004.

(UNEP/OzL.Pro.14/9, Decision XIV/40).

The Seventeenth Meeting of the Parties decided:

1. to direct the Treasurer to extend the fixed-exchange-rate mechanism for a further trial period of three years;
2. that Parties choosing to pay in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 July 2004. Subject to paragraph 3 below, Parties not choosing to pay in national currencies pursuant to the fixed-exchange-rate mechanism will continue to pay in United States dollars;
3. that no Party should change currency selected for its contribution in the course of the triennium period;
4. that only Parties with inflation rate fluctuations of less than 10 per cent, as per published figures of the International Monetary Fund, for the preceding triennium will be eligible to utilize the mechanism;
5. to urge Parties to pay their contributions to the Multilateral Fund in full and as early as possible in accordance with paragraph 7 of decision XI/6;
6. to agree if the fixed-exchange-rate mechanism is to be used for the next replenishment period, that Parties choosing to pay in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2008.

(UNEP/OzL.Pro.17/11, Decision XVII/41).

The Twentieth Meeting of the Parties decided:

1. to direct the Treasurer to extend the fixed exchange-rate mechanism to the period 2009–2011;
2. that Parties choosing to pay their contributions to the Multilateral Fund for the Implementation of the Montreal Protocol in national currencies will calculate their contributions based on the average United Nations exchange rate for the six month period commencing 1 January 2008;
3. that, subject to paragraph 4 below, Parties not choosing to pay in national currencies pursuant to the fixed-exchange-rate mechanism will continue to pay in United States dollars;
4. that no Party should change the currency selected for its contribution in the course of the triennium 2009–2011;
5. that only Parties with inflation rate fluctuations of less than 10 per cent, as per published figures of the International Monetary Fund, for the preceding triennium will be eligible to use the fixed exchange rate mechanism;
6. to urge Parties to pay their contributions to the Multilateral Fund in full and as early as possible in accordance with paragraph 7 of decision XI/6;
7. to agree that if the fixed-exchange-rate mechanism is to be used for the replenishment period 2012–2014 Parties choosing to pay their contributions in national currencies will calculate their contributions based on the average United Nations exchange rate for the six month period commencing 1 January 2011.

(UNEP/OzL.Pro.20/9, Decision XX/11).

The Forty-second Meeting of the Executive Committee decided:

(b) also to note the new information provided by the Treasurer on the gains and losses resulting from the fixed exchange rate mechanism;

(c) to request the Treasurer to break down the information on gains and losses resulting from the fixed exchange

rate mechanism by country and to include it in a separate column of the relevant table in future reports.
(UNEP/OzL.Pro/ExCom/42/54, Decision 42/2 (a, b, c), para. 28 (b-c)).

The Forty-third Meeting of the Executive Committee decided to take note of the new information provided by the Treasurer on the gains and losses resulting from the fixed-exchange-rate mechanism.

(UNEP/OzL.Pro/ExCom/43/61, Decision 43/1 (b), para. 25).

The Forty-eighth Meeting of the Executive Committee decided:

(b) to urge Parties eligible to use the fixed-exchange-rate mechanism option to inform the Treasurer by the 49th Meeting of the Executive Committee of their intention to do so;

(c) to request the Treasurer to add to his report to the 49th Meeting of the Executive Committee the list of countries opting to use the fixed-exchange-rate mechanism facility in making their contributions to the Fund for the triennium 2006-2008; and

(d) also to request the Treasurer to contact Parties with pending contributions urging them to pay their contributions to the Multilateral Fund in full as early as possible in accordance with paragraph 7 of decision XI/6.
(UNEP/OzL.Pro/ExCom/48/45, Decision 48/1, para. 23).

The Fifty-seventh Meeting of the Executive Committee decided:

(c) to urge Parties eligible to use the fixed-exchange-rate mechanism (FERM) to advise the Treasurer of their intention to do so before the 58th Meeting of the Executive Committee; and

(d) to request the Treasurer to add to his report to the 58th Meeting of the Executive Committee the list of Parties that had opted to use the FERM in making their contributions to the Fund during the replenishment period 2009-2011.
(UNEP/OzL.Pro/ExCom/57/69, Decision 57/2, para.30 ((c)(d)).

The Fifty-eighth Meeting of the Executive Committee decided:

(b) to note the list of Parties that had opted to use the fixed-exchange-rate mechanism when making their contributions to the Multilateral Fund during the 2009-2011 replenishment period, as contained in Annex I to the present report; and

(c) to urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.
(UNEP/OzL.Pro/ExCom/58/53, Decision 58/1, para.28 ((b)(c)).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) (ii) The list of Parties that had opted to use the fixed-exchange-rate mechanism in making their contributions to the Fund during the replenishment period 2009 2011 as contained in Annex I to the present report; and

(b) to urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.
(UNEP/OzL.Pro/ExCom/59/59, Decision 59/1, para.22 ((a)(ii) and (b)).

The Sixtieth Meeting of the Executive Committee decided to note:

(a) (ii) The list of Parties that had opted to use the fixed-exchange-rate mechanism in making their contributions to the Fund during the replenishment period 2009-2011, as contained in Annex I to the present report; and

(b) To urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/1 para.30 ((a)(ii) and(b)).

The Sixty-first Meeting of the Executive Committee decided:

(a) To note: (ii) The list of Parties that had opted to use the fixed-exchange-rate mechanism in making their contributions to the Fund during the replenishment period 2009-2011, as contained in Annex I to the present report; and

(b) To urge all Parties to pay their contributions to the Multilateral Fund in full and as early as possible.

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/1 para.20 ((a)(ii) and(b)).

The Twenty-third Meeting of the Parties decided:

1. To direct the Treasurer to extend the fixed-exchange-rate mechanism to the period 2012–2014;

2. That parties choosing to pay their contributions to the Multilateral Fund for the Implementation of the Montreal Protocol in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2011;
3. That, subject to paragraph 4 below, parties not choosing to pay in national currencies pursuant to the fixed-exchange-rate mechanism will continue to pay in United States dollars;
4. That no party should change the currency selected for its contribution in the course of the triennium 2012–2014;
5. That only parties with inflation rate fluctuations of less than 10 per cent, as per published figures of the International Monetary Fund, for the preceding triennium will be eligible to use the fixed-exchange-rate mechanism;
6. To urge parties to pay their contributions to the Multilateral Fund in full and as early as possible in accordance with paragraph 7 of decision XI/6;
7. To agree that if the fixed-exchange-rate mechanism is to be used for the replenishment period 2015–2017 parties choosing to pay their contributions in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2014;

(UNEP/OzL.Pro.23/11, Decision XXIII/16).

The Sixty-sixth Meeting of the Executive Committee decided:

(b) To urge all Parties eligible to use the fixed-exchange rate mechanism (FERM) to advise the Treasurer of their intention to do so before the 67th meeting of the Executive Committee;

(c) To request the Treasurer to add to his report to the Executive Committee the list of Parties that had opted to use the FERM in making their contributions to the Fund during the replenishment period 2012-2014;

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/1 para.20 (b) and(c)).

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To note:

(ii) That France should be added to the list of Parties that had opted to use the fixed exchange rate mechanism in making their contributions to the Fund during the replenishment period 2012-2014, as contained in Annex I to the present report;

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/2 para.23(a)(ii)).

The Twenty-sixth Meeting of the Parties decided:

1. To direct the Treasurer to extend the fixed-exchange-rate mechanism to the period 2015–2017;
2. That parties choosing to pay their contributions to the Multilateral Fund for the Implementation of the Montreal Protocol in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2014;
3. That, subject to paragraph 4 below, parties not choosing to pay in national currencies pursuant to the fixed-exchange-rate mechanism will continue to pay in United States dollars;
4. That no party should change the currency selected for its contribution in the course of the triennium 2015–2017;
5. That only parties with inflation rate fluctuations of less than 10 per cent, pursuant to published figures of the International Monetary Fund, for the preceding triennium will be eligible to use the fixed-exchange-rate mechanism;
6. To urge parties to pay their contributions to the Multilateral Fund in full and as early as possible in accordance with paragraph 7 of decision XI/6;
7. To agree that if the fixed-exchange-rate mechanism is to be used for the replenishment period 2018–2020, parties choosing to pay their contributions in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2017;

(UNEP/OzL.Conv.10/7-UNEP/OzL.Pro.26/10, Decision XXVI/11).

The Seventy–fourth Meeting of the Executive Committee decided:

(a) To note the report updated by the Treasurer on the status of contributions and disbursements, and the information on promissory notes and countries which had opted to use the fixed-exchange-rate mechanism (FERM) during the 2015–2017 triennium, as contained in Annex I to the present report

(c) To urge all Parties eligible to use the fixed-exchange rate mechanism (FERM) to advise the Treasurer of their intention to do so before the 75th meeting of the Executive Committee;\

(UNEP/OzL.Pro/ExCom/74/56, Decision 74/1 para.26 (a) and (c)).

The Seventy–fifth Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, the information on promissory notes, and the countries which opted to use the fixed exchange-rate mechanism (FERM) during 2015–2017 triennium contained in Annex I to the present report;

(b) To further note the exceptional basis for the Russian Federation making its contribution under the FERM in US dollars rather than in its national currency owing to a particular administrative banking constraint;

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/1 para.26 (a) and (b)).

The Seventy–sixth Meeting of the Executive Committee decided:

(a) To note the report by the Treasurer on the status of contributions and disbursements, the information on promissory notes, and the countries that opted to use the fixed exchange rate mechanism during the 2015–2017 triennium, as contained in Annex I to the present report;

(UNEP/OzL.Pro/ExCom/76/66, Decision 76/1 para.28 (a)).

The Seventy–seventh Meeting of the Executive Committee decided:

(a) To note the report by the Treasurer on the status of contributions and disbursements, the information on promissory notes, and the countries that opted to use the fixed exchange rate mechanism during the 2015–2017 triennium, as contained in Annex I to the present report;

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/1 para.24 (a)).

The Eightieth Meeting of the Executive Committee decided:

(a) To note:

  (i) The report of the Treasurer on the status of contributions and disbursements and the information on promissory notes, the countries that had opted to use the fixed exchange rate mechanism (FERM) during the 2015–2017 triennium, and the implementation of the FERM, contained in Annex I to the present report;

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/1(a)(i), para 24)
(Supporting document: UNEP/OzL.Pro/ExCom/80/3).

The Twenty-ninth Meeting of the Parties decided:

1. To direct the Treasurer to extend the fixed-exchange-rate mechanism to the period 2018–2020;
2. That parties choosing to pay their contributions to the Multilateral Fund for the Implementation of the Montreal Protocol in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2017;
3. That, subject to paragraph 4 below, parties not choosing to pay in national currencies pursuant to the fixed-exchange-rate mechanism will continue to pay in United States dollars;
4. That no party should change the currency selected for its contribution in the course of the triennium 2018-2020;
5. That only parties with inflation rate fluctuations of less than 10 per cent for the preceding triennium, pursuant to published figures of the International Monetary Fund, will be eligible to use the fixed-exchange-rate mechanism;
6. To urge parties to pay their contributions to the Multilateral Fund in full and as early as possible in accordance with paragraph 7 of decision XI/6;

7. To agree that, if the fixed-exchange-rate mechanism is to be used for the replenishment period 2021–2023, parties choosing to pay their contributions in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2020.

UNEP/OzL.Pro.29/8, Decision XXIX/2)

The Eighty-first Meeting of the Executive Committee decided:

(a) To note:

(i) The report of the Treasurer on the status of contributions and disbursements and the information on promissory notes and the countries that had opted to use the fixed exchange-rate mechanism (FERM) during the 2018–2020 triennium, contained in Annex I to the present report;

(b) To urge all Parties eligible to use the FERM to advise the Treasurer of their intention to do so before the 82nd meeting;

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/1(a)(i) and (b))

The Eighty-second Meeting of the Executive Committee decided:

(a) To note the report of the Treasurer on the status of contributions and disbursements, the information on promissory notes, and the countries that had opted to use the fixed exchange rate mechanism during the 2018–2020 triennium, contained in Annex I to the present report.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/1(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/82/3).

The Ninetieth Meeting of the Executive Committee decided:

(b) To note that the extension of the fixed-exchange-rate mechanism to the triennium 2021-2023 was pending a decision by the Fifth Extraordinary Meeting of the Parties; and

(UNEP/OzL.Pro/ExCom/90/40, Decision 90/1).
(Supporting document: UNEP/OzL.Pro/ExCom/90/3(b)).

The Fifth Extraordinary Meeting of the Parties decided:

1. To direct the Treasurer to extend the fixed-exchange-rate mechanism to the period 2021–2023;
2. That parties choosing to pay their contributions to the Multilateral Fund for the Implementation of the Montreal Protocol in national currencies will calculate their contributions on the basis of the average United Nations exchange rate for the six-month period commencing 1 January 2020;
3. That, subject to paragraph 4 of the present decision, parties not choosing to pay in national currencies pursuant to the fixed-exchange-rate mechanism will continue to pay in United States dollars;
4. That no party should change the currency selected for its contribution during the triennium 2021–2023;
5. That only parties with inflation rate fluctuations of less than 10 per cent for the preceding triennium, pursuant to published figures of the International Monetary Fund, will be eligible to use the fixed-exchange-rate mechanism;
6. To urge parties to pay their contributions to the Multilateral Fund in full and as early as possible in accordance with paragraph 7 of decision XI/6;
7. To agree that, if the fixed-exchange-rate mechanism is to be used for the replenishment period 2024–2026, parties choosing to pay their contributions in national currencies will calculate their contributions on the basis of the average United Nations exchange rate for the six-month period commencing 1 January or 1 July ending at least three months prior to the replenishment to be decided.

(UNEP/OzL.Pro.ExMOP.5/3/Add.1, Decision Ex.V/2)

The Thirty-fifth Meeting of the Parties decided:

1. To direct the Treasurer to extend the fixed-exchange-rate mechanism to the period 2024–2026;
2. That parties choosing to pay their contributions to the Multilateral Fund for the Implementation of the Montreal Protocol in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January 2023;

3. That, subject to paragraph 4 below, parties not choosing to pay in national currencies pursuant to the fixed-exchange-rate mechanism will continue to pay in United States dollars;
4. That no party should change the currency selected for its contribution in the course of the triennium 2024–2026;
5. That only parties with inflation rate fluctuations of less than 10 per cent for the preceding triennium, pursuant to published figures of the International Monetary Fund, will be eligible to use the fixed-exchange-rate mechanism;
6. To urge parties to pay their contributions to the Multilateral Fund in full and as early as possible, in accordance with paragraph 7 of decision XI/6;
7. To agree that if the fixed-exchange-rate mechanism is to be used for the replenishment period 2027–2029, parties choosing to pay their contributions in national currencies will calculate their contributions based on the average United Nations exchange rate for the six-month period commencing 1 January or 1 July and ending at least three months prior to the replenishment that is to be decided.

(UNEP/OzL.Pro.35/12/Add.1, Decision XXXV/2)

ACCOUNTS OF THE MULTILATERAL FUND

2001 accounts of the Multilateral Fund

The Thirty-seventh Meeting of the Executive Committee decided to take note with appreciation of the Accounts of the Multilateral Fund for the years 1991-2000 and the certified accounts for the year 2001 (UNEP/OzL.Pro/ExCom/37/8 and Corr.1).

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/6, para. 2).
(Supporting document: UNEP/OzL.Pro/ExCom/37/8 and Corr.1).

The Thirty-eighth Meeting of the Executive Committee decided:

(c) to request the Secretariat and the Treasurer to pursue their efforts to complete the reconciliation of the accounts of UNDP and the World Bank;

(d) also to request that a full reconciliation of the Accounts of the Fund with the data in the Implementing Agencies' progress reports be presented to the third meeting of the Executive Committee each year.

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/9, para. 40 (c, d)).
(Supporting document: UNEP/OzL.Pro/ExCom/38/12).

The Fortieth Meeting of the Executive Committee decided:

(e) to request UNDP to address the financial inconsistencies in the context of the reconciliation of accounts pursuant to Decision 38/9(d), noting that overruns should not be allowed pursuant to Decision 17/22.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/10, para. 48(e).

(h) to request UNEP to address any financial inconsistencies between the progress report data and the audited UNEP accounts in the context of the reconciliation of accounts pursuant to Decision 38/9(d), noting that overruns should not be allowed pursuant to Decision 17/22.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/11, para. 49(h).

(e) to request UNIDO and the Secretariat to address the financial inconsistencies between UNIDO's progress report and the Secretariat's Inventory of Approved Projects in the context of the reconciliation of accounts to be submitted to the 41st Meeting pursuant to Decision 38/9(d), noting that overruns should not be allowed pursuant to Decision 17/22.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/12, para. 50(e).

(h) to request the World Bank and the Secretariat to address the financial inconsistencies between the Bank's progress report and the Secretariat's Inventory of Approved Projects in the context of the reconciliation of accounts to be submitted to the 41st Meeting of the Executive Committee pursuant to Decision 38/9(d), noting that overruns should not be allowed pursuant to Decision 17/22.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/13, para. 51(h).

2002 accounts of the Multilateral Fund

The Fortieth Meeting of the Executive Committee decided:

(a) to take note of the report contained in UNEP/OzL.Pro/ExCom/40/19/Rev.1;

(b) to request the Implementing Agencies to submit audited accounts for 2002 to the Treasurer no later than 1 September 2003 for submission to the 41st Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/14, para.52)
(Supporting document: UNEP/OzL.Pro/ExCom/40/19/Rev.1).

The Forty-first Meeting of the Executive Committee decided:

(a) to note the reconciliation of accounts as presented in document UNEP/OzL.Pro/ExCom/41/12 and Schedules 1.1 to 1.7 of the 2002 accounts of the Fund, attached as Annex II to the present report;

(b) to request the Treasurer, together with the Secretariat, to review the following adjustments requested for UNEP and UNIDO and to report to the 42nd Meeting of the Executive Committee in the context of the reconciliation of accounts for 2002:

(i) add US $112,619 to the income of UNEP;
(ii) add US $1,169,476 to the income of UNIDO;

(c) also to request Implementing Agencies to ensure that the expenditures in their progress reports submitted to the Secretariat were consistent with their expenditures in the annual accounts of the Implementing Agencies submitted to the Treasurer; and

(d) further to request the Secretariat and the Treasurer to pursue their efforts to complete the reconciliation of the accounts of the World Bank on the basis of audited 2002 accounts and UNDP on the basis of the UNDP Comptroller's review, with reports on the status of these efforts at each meeting until the accounts were fully reconciled, noting that this was the second consecutive year that the accounts of UNDP and the World Bank had not been fully reconciled with their progress reports.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/10, para.41).
(Supporting document: UNEP/OzL.Pro/ExCom/41/12).

The Forty-second Meeting of the Executive Committee decided:

(a) to take note of the report on reconciliation of the 2002 accounts of the Multilateral Fund (follow-up to Decision 41/10(b)) contained in document UNEP/OzL.Pro/ExCom/42/46;

(b) to note the explanation by the Treasurer on how the following funds shown to be due to the Implementing Agencies were addressed in 2003, or what adjustments would be made in 2004 to provide the resources owed to the respective agencies as follows:

(i) US $112,619 for UNEP;
(ii) US $1,169,476 for UNIDO;

(c) to request the Secretariat, on behalf of the Executive Committee, to approach the board of external auditors of the United Nations for assistance in determining the initial start-up costs for UNDP;

(d) That adjustments should be made to the inventory of approved projects to reflect the amounts indicated in the World Bank's progress report for the projects listed in Annex III to document UNEP/OzL.Pro/ExCom/42/46;

(e) to request the Treasurer to complete the reconciliation of the accounts of the World Bank on the basis of audited 2002 accounts, and the accounts of UNDP on the basis of the UNDP Comptroller's review, based on the figures derived from the reconciliation presented in documents UNEP/OzL.Pro/ExCom/41/12 and UNEP/OzL.Pro/ExCom/42/46, as well as any relevant decisions taken at the 42nd Meeting of the Executive Committee; and

(f) to urge the World Bank and UNDP to submit the information required for reconciliation as soon as possible.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/41, para. 137)
(Supporting document: UNEP/OzL.Pro/ExCom/42/46).

Having considered the adjustments regarding UNDP's initial start-up costs and its 2002 accounts and given that the World Bank's audited 2002 accounts had not been submitted to the 43rd Meeting, the Forty-third Meeting of the Executive Committee decided:

(a) to note the reconciliation of the 2002 accounts as presented in documents UNEP/OzL.Pro/ExCom/43/52 and Add.1, together with Japan's reservation;

(b) also to note that the Treasurer would make the appropriate adjustments to account for the additional interest

reported by UNDP and the audited level of initial start-up costs as indicated by UNDP to be US $596,500; and

(c) to urge the World Bank to submit the audited 2002 accounts to the 44th Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/43/61, Decision 43/39, para. 137).

2003 accounts of the Multilateral Fund

The Forty-fourth Meeting of the Executive Committee decided:

(a) to take note of the report on the 2003 accounts of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/44/65/Rev.1;

(b) to continue with the particular practice of recording any changes reported by Implementing Agencies to a previous period's expenditures as part of the current period's transactions as a result of the reconciliation exercise between the Treasurer and the Implementing Agencies, without prejudice to existing United Nations financial rules and regulations;

(c) to note that, notwithstanding UNEP's policy regarding its own fund to the effect that any pledges to the Fund remaining unpaid after four years were written off with the approval of the Governing Council, in the case of the Multilateral Fund, any decision on writing off such unpaid amounts would remain the responsibility of the Meeting of the Parties; and

(d) to direct the Treasurer to review the pertinent aspects of the Implementing Agency agreements to address the issue of new cash advances being granted to Implementing Agencies when old ones had not been fully accounted for.
(UNEP/OzL.Pro/ExCom/44/73, Decision 44/54, para. 210).
(Supporting document: UNEP/OzL.Pro/ExCom/44/65/Rev.1).

Reconciliation of the 2002 and 2003 accounts

The Forty-fourth Meeting of the Executive Committee decided:

(a) to note the reconciliation of the 2002 and 2003 accounts presented in documents UNEP/OzL.Pro/ExCom/44/66, Corrs.1 and 2;

(b) to request the Treasurer to make the necessary adjustments in accordance with his ongoing responsibility to ensure sufficient funds to cover Executive Committee approvals;

(c) to request those bilateral agencies that advanced funds to Implementing Agencies, which were then placed in interest-bearing accounts, to return the interest collected as additional income to the Multilateral Fund in accordance with United Nations standard accounting practices, unless their agreements with Implementing Agencies stipulated otherwise; and

(d) to request the Treasurer, the Implementing Agencies and the Secretariat to hold a workshop in the margins of the next inter-agency coordination meeting on common terminology and procedures for the reconciliation of accounts and to forward the results of the workshop to the Executive Committee if deemed necessary by the workshop participants.
(UNEP/OzL.Pro/ExCom/44/73, Decision 44/55, para. 214).
(Supporting document: UNEP/OzL.Pro/ExCom/44/66, Corrs. 1 and 2).

Reconciliation of the 2003 and 2004 accounts

The Forty-seventh Meeting of the Executive Committee decided:

(a) to note:

(i) the reconciliation of the 2003 and 2004 accounts as presented in document UNEP/OzL.Pro/ExCom/47/51/Rev.1;

(ii) the changes to the Inventory of Approved Projects for the projects indicated in Table 2 of the document;

(b) to request the Treasurer to make the appropriate adjustments and to ensure that funds transferred to the implementing agencies were the net amounts authorized by the Executive Committee; and

(c) to request the Secretariat, in cooperation with the implementing agencies and the Treasurer, to submit a report, as a follow-up to the present decision, on options for a consistent approach to the application of miscellaneous income, exchange rate losses and gains, and bank charges for funds approved by the

Executive Committee and any consequences of alternative approaches, for consideration by the Executive Committee at its 48th Meeting.

(UNEP/OzL.Pro/ExCom/47/61, Decision 47/47, para. 172).
(Supporting document: UNEP/OzL.Pro/ExCom/47/51/Rev.1).

2005 accounts of the Multilateral Fund

The Forty-ninth Meeting of the Executive Committee decided:

(a) to take note of the Fund's 2005 provisional accounts as contained in document UNEP/OzL.Pro/ExCom/49/41;

(b) to note that the 2005 final accounts of the Fund would be submitted to the Committee at the 50th Meeting taking into account adjustments for prior years;

(c) to note the actions taken by the Treasurer to reflect adjustments resulting from the reconciliation of the 2003 -2004 accounts exercise;

(d) to request the Treasurer to make the necessary adjustments in 2006 to transfer bank charges on transfers made by the Treasurer to the implementing agencies from the Secretariat budget to the administrative costs, or as directed by the Executive Committee;

(e) to take note of the Treasurer's report on the audit of the Multilateral Fund accounts and the possibility that a separate audit of the financial statements of the Multilateral Fund might take place;

(f) to take note of the additional information provided on the outstanding contributions from countries with economies in transition and disputed contributions from countries not belonging to this category; and

(g) to note the explanations provided in respect of the submissions of the implementing agencies' provisional accounts to the Executive Committee.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/35, para. 150).
(Supporting document: UNEP/OzL.Pro/ExCom/49/41).

The Fiftieth Meeting of the Executive Committee decided:

(a) to note the audited financial statement of the Fund as at 31 December 2005;

(b) that the attention of the Meeting of the Parties should be drawn to the need for all outstanding contributions to be paid; and

(c) to note the auditors' statement on the need for reconciliation of the recorded figures as soon as the audited financial statements became available.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/43 para. 179).
(Supporting document: UNEP/OzL.Pro/ExCom/50/59).

The Fiftieth Meeting of the Executive Committee also decided:

(a) to request the Treasurer to present to the 51st Meeting of the Executive Committee an amended report on the reconciliation of the 2005 accounts containing additional information and explanations where required;

(b) to note:

  (i) that UNIDO had written to confirm that it would comply with decision 48/38(b) by assigning miscellaneous charges of US $361,966 for the period up to December 2005 to either project or administrative costs; and that it proposed to absorb US $107,048 against UNIDO's administrative costs and assign US $254,918 to project costs;

  (ii) that any interest received on behalf of the Swedish bilateral contribution would be returned to the Fund; and

  (iii) that the implementing agencies were unable to commit to project expenditures against promissory notes without assurance that the promissory notes were encashable upon demand and that that had already resulted in delays in implementation;

(c) to request the Treasurer to review the Executive Committee's policy on promissory notes in recognition of financial requirements to reflect the emerging business circumstances of the Multilateral Fund;

(d) to urge the Treasurer to provide a schedule of encashment of promissory notes;

(e) to request UNIDO to present, in the balances report to the 51st Meeting of the Executive Committee, the list of projects to which the charges of US $254,918 were proposed to be recorded at that Meeting;

(f) to acknowledge the updated status of overruns reported by UNDP, noting that whilst progress had been made further explanations were still required; and

(g) to request the Treasurer to make the following adjustments to funds approved for implementing agencies by offsetting these amounts against current or future approvals: UNDP US $2,370; UNEP US $373,357; World Bank US $96,680 for 2004 and US $622,257 for 2005.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/44 para. 184).
(Supporting document: UNEP/OzL.Pro/ExCom/50/60 and Add.1).

The Fifty-first Meeting of the Executive Committee decided:

(a) to note with appreciation the new and more informative report of the Treasurer on the status of contributions and disbursements contained in Annex I to the present report, which provided additional information on promissory notes;

(b) to note with concern the 9.87 per cent ratio of payments to 2007 pledges at the first meeting of the year; and

(c) to again urge all Parties to pay their contributions to the Multilateral Fund in full as early as possible.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/2 para. 3).
(Supporting documents:UNEP/OzL.Pro/ExCom/51/4).

The Fifty-first Meeting of the Executive Committee also decided:

(a) to note:

  (i) The reconciliation of 2005 accounts as presented in documents UNEP/OzL.Pro/ExCom/51/43 and Corr.1;

  (ii) The updated status of overruns reported by UNDP contained within those documents, and that the additional explanations requested by decision 50/44(f) had been provided;

  (iii) The following adjustments being made by the Treasurer: UNDP US $2,370, UNEP US $373,357, World Bank US $96,680 and US $622,257, as per normal practice of the World Bank; and

(b) to urge the Treasurer to provide information regarding UNEP support costs in time for the 52nd Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/37 para. 182).
(Supporting documents:UNEP/OzL.Pro/ExCom/51/43 and Corr.1).

2006 accounts of the Multilateral Fund

The Fifty-second Meeting of the Executive Committee decided:

(a) that the 2006 final accounts of the Fund would be submitted to the Executive Committee at its 53rd Meeting;
(b) the actions taken by the Treasurer to reflect adjustments resulting from the reconciliation of the 2005 accounts; and
(c) the return to the Fund by UNEP of the amount of US $143,956 that had previously been reported as a programme support cost charge.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/45, para. 188).
(Supporting documents:UNEP/OzL.Pro/ExCom/52/53).

The Fifty-third Meeting of the Executive Committee decided:

(a) to note the audited financial statement of the Multilateral Fund as at 31 December 2006;

(b) to note the auditors' request that the attention of the Meeting of Parties should once again be drawn to the necessity to declare as bad debts the longest-standing and largest debit balances;

(c) to request the Treasurer to advise the auditors to treat as closed their observations and recommendation on long-outstanding debts, considering the fact that the Executive Committee had already drawn the Parties' attention to the matter in its report to the Nineteenth Meeting of the Parties; and

(d) to request the Treasurer to record in the 2007 accounts the differences between the agencies provisional and final 2006 accounts as reflected in Tables 1 and 2 of document UNEP/OzL.Pro/ExCom/53/64.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/41, para. 217).
(Supporting documents:UNEP/OzL.Pro/ExCom/53/64).

The Fifty-third Meeting of the Executive Committee decided:

(a) to note the reconciliation of 2006 accounts as presented in document UNEP/OzL.Pro/ExCom/53/65;

(b) to request UNEP to review the Inventory of Approved Projects figures versus progress reports and to make corrections according to the approvals recorded in the reports of the Executive Committee;

(c) to request UNEP to present to the 54th Meeting of the Executive Committee a report on its findings on reconciling the amount of US $105,494 and the actions it proposed to take to reconcile the data in its progress report with that in its final financial statement;

(d) to note the explanations of UNDP, UNIDO and the World Bank on the expenditures of the programme support costs in respect of approved projects, and to request UNEP to do the same at the 54th Meeting so as to enable a better understanding of expenditures incurred against the agency's programme support costs;

(e) to request the Treasurer to report to the 54th Meeting on the methodology used by the implementing agencies when reporting on expenditures incurred against the programme support costs for approved projects;

(f) to request the World Bank to provide an explanation of the US $303 excess income in order to offset that amount against future transfers, if required; and

(g) to request the Treasurer and the agencies to make the adjustments required in the 2007 accounts as a result of the 2006 reconciliation exercise as reflected in Tables 1 and 2 of document UNEP/OzL.Pro/ExCom/53/65.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/42, para. 221).
(Supporting documents:UNEP/OzL.Pro/ExCom/53/65).

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to take note of the report on the reconciliation of the 2006 accounts contained in document UNEP/OzL.Pro/ExCom/54/55;

(b) to agree to UNEP's request to report on its findings with regard to the US $105,494 difference in expenditures recorded in its financial statement and its progress report, and the nature of the corrective action required, to the 55th Meeting;

(c) to note that further work would be undertaken in the administrative cost study to address the adequacy of the agency fees and core unit funding, as well as how programme support costs received for bilateral activities were recorded;

(d) to recommend that the consultant for the administrative cost study take into consideration document UNEP/OzL.Pro/ExCom/54/55;

(e) to note:

  (i) that there was no standard methodology for reporting on programme costs in the financial statements of the implementing agencies;

  (ii) that UNEP, UNDP and the World Bank had separate trust funds for their Montreal Protocol activities; and

  (iii) that UNDP and the World Bank had separate accounts for core unit costs and for agency fees.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/41, para. 180).
(Supporting documents:UNEP/OzL.Pro/ExCom/54/55).

The Fifty-fifth Meeting of the Executive Committee decided:

(a) to note UNEP's explanation on the cause of the difference of US $105,494 between the disbursements and obligations recorded in the progress report and UNEP's 2006 financial statements;

(b) to note that corrective action would be taken to reduce UNEP's 2006 expenditures by US $105,494 and bring them within the correct 2006 disbursement level as reflected in the progress report;

(c) to note that UNEP was taking corrective actions to adjust the same errors that were likely to have occurred in its 2007 accounts;

(d) to note that UNEP would put in place a system for ongoing projects to calculate and record support costs manually to eliminate the risk of incorrect generation of support costs in future; and

(e) to request UNEP to report to the 56th Meeting of the Executive Committee on progress made in implementing

those actions as part of the 2007 reconciliation of accounts exercise.
(UNEP/OzL.Pro/ExCom/55/53, Decision 55/46, para. 222).
(Supporting documents:UNEP/OzL.Pro/ExCom/55/51).

The Fifty-sixth Meeting of the Executive Committee decided:

(b) to note that, in order to complete the 2006 reconciliation exercise, a further update from UNEP and the World Bank was required on:

(i) US $105,494 project support cost expenditures;

(ii) US $303 excess in the World Bank's income to allow the Treasurer to offset that amount from future transfers.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/67 para 240 (b))
(Supporting document: UNEP/OzL.Pro/ExCom/56/60).

2007 financial statements

The Fifty-fifth Meeting of the Executive Committee decided:

(a) to take note of the Fund's 2007 provisional financial statements contained in document UNEP/OzL.Pro/ExCom/55/52;

(b) to note that the 2007 final accounts of the Fund would be submitted to the Executive Committee at the 56th Meeting;

(c) to note that the World Bank reflected expenditures against the chiller concessional loan project for Thailand (THA/REF/26/INV/104) in its 2007 financial statement and not in its progress report, which constituted a reconciling item in the 2007 reconciliation of the accounts exercise;

(d) to note that necessary actions had been taken by the Treasurer to reflect the adjustments resulting from the reconciliation of the 2006 accounts exercise;

(e) to request the Treasurer to report to the 56th Meeting audit observations and recommendations on the Multilateral Fund Secretariat accounts for the Committee's consideration; and

(f) to note the Secretariat's explanation relating to an overrun against certain budget lines in the Secretariat's main accounts.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/47, para. 226).
(Supporting documents:UNEP/OzL.Pro/ExCom/55/52).

The Fifty-sixth Meeting of the Executive Committee decided:

(a) to note the audited financial statement of the Fund as at 31 December 2007;

(b) to note the Auditors' request that the attention of the Meeting of the Parties should once again be drawn to the need for the long-outstanding contributions to be paid or written off; and

(c) to request the Treasurer to record in the 2008 accounts the differences between the agencies' provisional and final 2007 accounts as reflected in tables 1 and 2 of document UNEP/OzL.Pro/ExCom/56/59.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/66 para 237)
(Supporting document: UNEP/OzL.Pro/ExCom/56/59).

The Fifty-sixth Meeting of the Executive Committee decided:

(c) to note that the 2007 reconciliation of the accounts exercise was pending further explanation from the World Bank on the shortfall of US $2,686,741 in its income and US $45,161 surplus from UNEP in its income and to request UNEP and the World Bank to report on those two amounts to the 57th Meeting;

(d) to note that UNEP was still investigating an entry of US $93,622 in its 2007 final expenditures to explain the difference between the expenditures in its progress reports and in its provisional statement, and would report on those items at the 57th Meeting;

(e) to request UNDP to adjust its 2007 expenditures by US $6,445 in 2008;

(f) to request the Treasurer to record in 2008 the 2007 income of US $1,320,670 for UNDP, US $187,233 for UNEP, US $633,576 for UNIDO and US $1,838,022 for the World Bank in 2008; and

(g) to request the Treasurer to record the 2007 expenditures of US $299,485 for UNDP in 2008.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/67 para 240)

(Supporting document: UNEP/OzL.Pro/ExCom/56/60).

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to take note of the document on reconciliation of the 2006 and 2007 accounts as contained in document UNEP/OzL.Pro/ExCom/57/65;

(b) to note that reconciliation of the 2006 and 2007 accounts had been completed for UNEP;

(c) to note the return of the US $45,161 surplus for UNEP and to request the Treasurer to offset this amount against future transfers to UNEP;

(d) to note the World Bank's explanation on the shortfall of US $2,686,741 and to request the Treasurer to return US $1,176,270 to the World Bank;

(e) to note that follow-up actions on the 2006-2007 reconciliation of the accounts exercise had been completed for UNDP, UNEP and UNIDO; and

(f) that the 2006-2007 reconciliation of the accounts exercise is pending the following reports to be submitted to the 59th Meeting:

  (i) a report from the World Bank, on the amount of US $303; and

  (ii) a report from the Treasurer verifying that the amount of US $1,510,471 had been deducted twice from the transfers that had been made to the World Bank.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/38, para 196)
(Supporting document: UNEP/OzL.Pro/ExCom/57/65).

2008 accounts of the Multilateral Fund

The Fifty-eighth Meeting of the Executive Committee decided:

(b) to note:
  (i) the action taken by the Treasurer to reflect adjustments resulting from the reconciliation of the 2007 accounts exercise;
  (ii) that the 2008 final accounts of the Fund would be submitted to the Committee at its 59th Meeting; and
  (iii) that UNEP, including the Multilateral Fund, had been subject to an external audit in June - July 2009 and that the external auditors had visited Montreal from 15 to 26 June 2009.

(UNEP/OzL.Pro/ExCom/58/53, Decision 58/39, para 177, b)
(Supporting document: UNEP/OzL.Pro/ExCom/58/51).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To note the audited financial statement of the Fund as at 31 December 2008;

(b) To note that the final audit report on the 2008 financial statement would be submitted to the Committee as soon as it became available; and

(c) To request the Treasurer to record in the 2009 accounts the differences between the agencies' provisional statements and their final 2008 accounts as reflected in tables 1 and 2 of document UNEP/OzL.Pro/ExComm/59/55.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/49, para 265)
(Supporting document: UNEP/OzL.Pro/ExCom/59/55).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To note:

  (i) The reconciliation of the accounts as presented in document UNEP/OzL.Pro/ExCom/59/56;

  (ii) That the World Bank had adjusted its inventory of projects by US $303 and that the 2006 outstanding reconciling item of the US $303 from the World Bank on approved projects had been closed; and

  (iii) That all agencies had completed their 2006 reconciliation at approval, income and expenditure levels;

(b) To note with appreciation the report provided by the World Bank on the outstanding 2007 reconciling item of US $1,510,471;

(c) To request the Treasurer to return the amount of US $1,510,471 to the World Bank based on:

(i) The double reporting and deduction by the Treasurer of US $870,549 of the promissory note gains;

(ii) The double reporting and deduction by the Treasurer of US $640,225 on the unrealized investment loss;

(iii) The return of US $303 from the Bank to the Fund.

(d) To note the following outstanding reconciling items in the 2008 reconciliation of the accounts exercise:

UNDP

(i) An additional amount of US $11 in UNDP's records of approved projects to be aligned with the 2008 approved projects as per the Secretariat's Inventory;

(ii) US $18,567 in expenditure reported by UNDP as a project-level error adjusted in the progress report but not adjusted in the 2008 accounts;

UNEP

(iii) A shortfall of US $176,401 against project GLO/SEV/50/TAS/276 in the approved amounts in the progress report, to be adjusted in accordance with UNEP's balance report to the 59th Meeting;

(iv) A shortfall of US $1,905 in the 2008 expenditures in the accounts reported as expenditure in the 2009 accounts;

UNIDO

(v) A US $14 surplus in UNIDO's income;

(vi) A US $208 shortfall in 2008 final expenditures; and

World Bank

(vii) The 2008 standing reconciling item of US $5,375,000 in the World Bank's income related to the United States of America bilateral project in China on accelerated production phase-out (CPR/PRO/47/INV/439);

(e) To request the Treasurer to carry 2008 adjustments forward to 2009 by:

(i) Recording the amount of US $297,686 decision 59/51 related to UNDP 2008 expenditure in 2009; and

(ii) Recording of the amount of US $504,841 related to UNDP's 2008 interest income in 2009.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/50, para 269)
(Supporting document: UNEP/OzL.Pro/ExCom/59/56).

2009 accounts of the Multilateral Fund

The Sixty-first Meeting of the Executive Committee decided:

(a) To note the Fund's 2009 provisional accounts contained in document UNEP/OzL.Pro/ExCom/61/56;

(b) Also to note the actions taken by the Treasurer to reflect adjustments resulting from the reconciliation of the 2008 accounts exercise; and

(c) Further to note that the 2009 final accounts of the Multilateral Fund would be submitted to the Executive Committee at its 62nd Meeting.

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/49, para 118)
(Supporting document: UNEP/OzL.Pro/ExCom/61/56).

The Sixty-second Meeting of the Executive Committee decided:

(a) To note the audited financial statement of the Multilateral Fund as at 31 December 2009, contained in document UNEP/OzL.Pro/ExCom/62/58;

(b) Also to note that the audit report by the United Nations Board of Auditors referred to the ageing of the Multilateral Fund long-outstanding pledges and recommended that UNEP consider formulating an accounting policy for the treatment of long-outstanding pledges;

(c) To request the Treasurer:

(i) To bring to the Executive Committee's attention any change UNEP intended to make in the presentation of long-outstanding pledges in the Multilateral Fund accounts;

(ii) To bring to the Executive Committee's attention any change in the current practice of separating the

Multilateral Fund accounts from UNEP's accounts; and

(iii) To record in the 2010 accounts the differences between the agencies' provisional statements and their final 2009 accounts, as reflected in tables 1 and 2 of document UNEP/OzL.Pro/ExCom/62/58.

(UNEP/OzL.Pro/ExCom/62/62, Decision 62/64, para 164)
(Supporting document: UNEP/OzL.Pro/ExCom/62/58).

The Sixty-second Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2009 accounts, as presented in document UNEP/OzL.Pro/ExCom/62/59;

(b) To request the implementing agencies to carry out 2009 adjustments in 2010 as follows:

(i) UNDP to adjust its records of approved amounts by US $(19), and its records of income by US $9 in its progress report;

(ii) UNEP to adjust its records of approved amounts by $7 in its progress report; and US $222,749 income not reflected in its progress reports;

(c) To request the Treasurer:

(i) To transfer US $81 that had been overlooked during the transfers made to UNEP for the approved amounts at the 55th and 56th meetings of the Executive Committee;

(ii) To refund to the World Bank an amount of US $64,500 to rectify the double deduction on the transfer of the Chile halon project (CHI/HAL/42/TAS/156);

(d) To note the 2009 reconciling items as follows:

(i) US $197 additional expenditure in UNIDO's 2009 accounts;

(ii) US $8 reported as a rounding difference in UNEP's income;

(iii) US $1,198,946 for the return of the loan for the Thai Chiller project (THA/REF/26/INV/104), still recorded in the World Bank's 2009 Financial Statement as income;

(e) To note the standing reconciling items for UNDP and the World Bank as follows:

(i) UNDP standing reconciling items for unspecified projects at the amounts of US $68,300 and US $29,054;

(ii) World Bank standing reconciling items for the following projects:

- Sweden bilateral (THA/HAL/29/TAS/120) at the amount of US $225,985;
- United States bilateral (CPR/PRO/44/INV/425) at the amount of US $5,375,000;
- United States bilateral (CPR/PRO/47/INV/439) at the amount of US $5,375,000; and
- US $8 investment income adjustment.

(UNEP/OzL.Pro/ExCom/62/62, Decision 62/65, para 166)
(Supporting document: UNEP/OzL.Pro/ExCom/62/59).

2010 accounts of the Multilateral Fund

The Sixty-fourth Meeting of the Executive Committee decided:

(a) To take note of the Fund's 2010 provisional accounts contained in document UNEP/OzL.Pro/ExCom/64/51;

(b) To note that the 2010 final accounts of the Fund would be submitted to the Committee at its 65th meeting and that further adjustments would be introduced if required;

(c) To note the actions taken by the Treasurer in 2010 to reflect the adjustments resulting from the reconciliation of the 2009 accounts exercise; and

(d) To request the Treasurer to reclassify the fixed-exchange-rate mechanism loss, presently classified as Secretariat's expenditure, as a separate line item in the financial statement.

(UNEP/OzL.Pro/ExCom/64/53, Decision 64/52, para 180)
(Supporting document: UNEP/OzL.Pro/ExCom/64/51).

The Sixty-fifth Meeting of the Executive Committee decided:

(a) To note:

(i) The audited financial statement of the Multilateral Fund as at 31 December 2010, contained in document UNEP/OzL.Pro/ExCom/65/56;

(ii) The actions taken with respect to recording the loss on the fixed-exchange-rate-mechanism previously recorded as part of the Secretariat's expenditures as a separate line item in the accounts of the Fund and that any losses or gains under the mechanism would be recorded in UNEP's accounts using an identifying code;

(iii) The action taken regarding the return of bilateral project balances in cash as part of prior years' contributions instead of miscellaneous income;

(iv) The indicative breakdown of the US $500,000 annual fees of the Treasurer, provided by the Treasurer as a supplement to the 2010 accounts only;

(v) That document UNEP/OzL.Pro/ExCom/65/58 on the revised 2012, approved 2013 and proposed 2014 budgets contained the Secretariat's report on monitoring staff costs and assessing the appropriate rate of increase for future years;

(vi) That the final audit report on the 2010 financial statement for the year ended 31 December 2010 was pending UNEP's review; and

(b) To request the Treasurer to record in the 2011 accounts the differences between the agencies' provisional statements and their final 2010 accounts, as reflected in tables 1 and 2 of document UNEP/OzL.Pro/ExCom/65/56.

(UNEP/OzL.Pro/ExCom/65/60, Decision 65/50, para 194)
(Supporting document: UNEP/OzL.Pro/ExCom/65/56).

The Sixty-fifth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2010 accounts, as presented in document UNEP/OzL.Pro/ExCom/65/57;

(b) To request the implementing agencies to carry out 2010 adjustments in 2011 as follows:

(i) UNDP to adjust its records of approved amounts by US $(33) in its progress report;

(ii) UNEP to adjust its records of approved amounts by US $3,984 and its income by US $22,807 and US $13,494 in its progress report; and

(iii) UNIDO to adjust its records of approved amount by US $(14) and its income by US $226,429 and US $3,015 in its progress report;

(c) To request the Treasurer to refund to UNDP an amount of US $32,642 to rectify the overstated interest income reported by UNDP as of September 2010;

(d) To note the 2010 outstanding reconciling items as follows:

(i) US $11 difference in income in UNDP's 2010 accounts;

(ii) US $(12) in income and US $184 additional expenditure in UNIDO's 2010 accounts; and

(iii) Shortfall in income of US $38,234 in the World Bank's 2010 accounts;

(e) To note the standing reconciling items as follows:

(i) UNDP standing reconciling items for unspecified projects at the amounts of US $68,300 and US $29,054; and

(ii) World Bank standing reconciling items for the following projects:

a. Sweden bilateral (THA/HAL/29/TAS/120) at the amount of US $225,985;

b. United States of America bilateral (CPR/PRO/44/INV/425) at the amount of US $5,375,000; and

c. United States of America bilateral (CPR/PRO/47/INV/439) at the amount of US $5,375,000.

(UNEP/OzL.Pro/ExCom/65/60, Decision 65/51, para 196)
(Supporting document: UNEP/OzL.Pro/ExCom/65/57).

2011 accounts of the Multilateral Fund

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The Multilateral Fund's provisional 2011 accounts;

(ii) That the final 2011 accounts of the Fund would be submitted to the Committee at the 68th meeting, and that further adjustments would be introduced as required;

(iii) The actions taken by the Treasurer in 2011 to reflect the adjustments resulting from the reconciliation of the 2010 accounts exercise; and

(b) To request the Secretariat to bring to the attention of the Executive Committee elements of the 2010-2011 audit of UNEP's accounts by the United Nations Board of Auditors of relevance to the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/33, para 114)
(Supporting document: UNEP/OzL.Pro/ExCom/67/35).

The Sixty-eighth Meeting of the Executive Committee decided:

(a) To note the audited financial statement of the Multilateral Fund as at 31 December 2011 contained in document UNEP/OzL.Pro/ExCom/68/48;

(b) To note that the final audit report on the 2011 financial statement for the year ended 31 December 2011 had been completed;

(c) To take note of the United Nations Board of Auditors' findings and recommendations on the MLF's 2011 accounts and:

(i) To request the Treasurer:

a. To note that the auditors had undertaken a review of the appropriateness of the current reporting arrangements for expenditures by the Trust Fund of the Multilateral Fund, and determined that the inclusion, and the presentation as a separate statement, were proper under United Nations System Accounting Standards (UNSAS);

b. To request UNEP to consult the Executive Committee prior to any decision regarding possible integration of the accounts of the Multilateral Fund with the accounts of UNEP under the International Public Sector Accounting Standards (IPSAS);

c. To reflect the footnote regarding the Russian Federation in the 2012 accounts, as directed by the Executive Committee in decision 67/1(c), requesting the Treasurer to maintain the outstanding contributions of the Russian Federation in the outstanding contributions category of the Fund's accounts;

d. To ensure that the recommendation by the United Nations Board of Auditors to record audited statements from implementing agencies (World Bank and UNIDO) would not prevent the annual reconciliation of the accounts taking place within the same time frame;

e. To request UNEP to inform the Executive Committee of any options it considers to mitigate exchange rate risks prior to their implementation;

(ii) To request UNEP, as implementing agency, to advise the Executive Committee if it determines that any changes to its current practices and procedures related to cash advances may be needed; and

(d) To request the Treasurer to record in the 2012 accounts the differences between the agencies' provisional statements and their final 2011 accounts, as reflected in tables 1 and 2 of document UNEP/OzL.Pro/ExCom/68/48.

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/43, para 180)
(Supporting document: UNEP/OzL.Pro/ExCom/68/48).

The Sixty-eighth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2011 accounts, as presented in document UNEP/OzL.Pro/ExCom/68/49;

(b) To request the implementing agencies to carry out the following 2011 adjustments in 2012:

(i) UNDP to adjust its records of approved amounts by US $33 in its progress report;

(ii) UNEP to adjust its progress report records on approved amounts by US $-21,960 and the Secretariat by

US $-6,232;

(iii) UNEP to adjust its income by US $10,939 and US $9,720 in its progress report;

(iv) UNIDO to adjust its records of approved amounts by US $1,506;

(c) To request the Treasurer:

(i) To withhold from its future transfers to UNDP an amount of US $321,101, representing the additional interest income reported by UNDP;

(ii) To refund to UNEP an amount of US $10,939 to rectify an over-recovery reported by UNEP;

(d) To note the 2011 outstanding reconciling items as follows:

(i) US $39 difference in income in UNEP's 2011 accounts;

(ii) US $-12 in income and US $6 less expenditure in UNIDO's 2011 accounts;

(iii) US $-10 in the World Bank's approved amounts;

(e) To note the standing reconciling items as follows:

(i) UNDP standing reconciling items for unspecified projects at the amounts of US $68,300 and US $29,054;

(ii) World Bank standing reconciling items for the following projects:

- Thailand chiller Project (THA/REF/26/INV/104) at the amount of US $1,198,946;
- Sweden bilateral (THA/HAL/29/TAS/120) at the amount of US $225,985;
- United States of America bilateral (CPR/PRO/44/INV/425) at the amount of US $5,375,000; and
- United States of America bilateral (CPR/PRO/47/INV/439) at the amount of US $5,375,000.

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/44, para 182)
(Supporting document: UNEP/OzL.Pro/ExCom/68/49).

2012 accounts of the Multilateral Fund

The Seventieth Meeting of the Executive Committee decided:

(a) To take note of the Fund's 2012 provisional accounts contained in document UNEP/OzL.Pro/ExCom/70/56;

(b) To note:

(i) That the 2012 final accounts of the Fund would be submitted to the Committee at the 71st meeting and that further adjustments would be introduced as required;

(ii) The actions taken by the Treasurer in 2012 to reflect the adjustments resulting from the reconciliation of the 2011 accounts exercise;

(iii) The following responses provided by the Treasurer as a follow-up to decision 68/43(c)(i):

a. A decision on the methodology to be adopted to integrate the accounts of the Fund with those of UNEP was still pending the outcome of discussions involving UNEP, the International Public Sector Accounting Standard team at United Nations headquarters, and the United Nations Board of Auditors;

b. A footnote reflecting the outstanding contribution of the Russian Federation was not necessary in the light of accounting standards, rules and practices, according to which any outstanding contributions not written off were maintained in the outstanding contributions category of the accounts;

c. The issue of recording only the audited financial statements of UNIDO and the World Bank instead of their provisional accounts, as was currently the practice, was pending further discussions on the subject with the new external audit team from the National Audit Office of the United Republic of Tanzania;

(c) As UNEP had not yet addressed the issue of mitigating exchange rate risks, to request the Treasurer to follow the matter up with UNEP, as requested by decision 68/43(c)(i)e, and to report back at the 71st meeting;

(d) To note the response provided by UNEP, as implementing agency, as a follow-up to decision 68/43(c)(ii), on its current practices and procedures relating to cash advances; and

(e) To request UNEP to update the Committee at its 71st meeting on the procedures set by the UNEP-wide

standard on cash advances and the potential impact on Multilateral Fund-funded project implementation.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/24, para 134)
(Supporting document: UNEP/OzL.Pro/ExCom/70/56).

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the final financial statements of the Multilateral Fund as at 31 December 2012 contained in document UNEP/OzL.Pro/ExCom/71/60;

(b) To note that UNEP had yet to receive the final audit report of the 2012 accounts from the United Nations Board of Auditors;

(c) To request the Treasurer to record in the 2013 accounts of the Multilateral Fund the differences between the implementing agencies' provisional financial statements and their final 2012 accounts, as reflected in Tables 1 and 2 of document UNEP/OzL.Pro/ExCom/71/60;

(d) To request the Treasurer to report to the Executive Committee at its 72nd meeting on the:

  (i) Consolidation of the Multilateral Fund accounts with those of UNEP under the International Public Sector Accounting Standards;

  ii) Mitigation of exchange rate risks on pledged contributions;

  (iii) Procedures set by the UNEP-wide standard on cash advances and the potential impact on Multilateral Fund-funded project implementation; and

(e) To request the Secretariat, in cooperation with the implementing agencies and the Treasurer, to further consider the impact of fund transfers to implementing agencies from the Treasurer, including information on rates of return on interest, in the light of the information provided in document UNEP/OzL.Pro/ExCom/71/58, and to report back to the Executive Committee at its 72nd meeting.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/46, para 175)
(Supporting document: UNEP/OzL.Pro/ExCom/71/60)

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2012 accounts, as presented in document UNEP/OzL.Pro/ExCom/71/61;

(b) To request UNEP to adjust its income by US $11,982 in interest accrued and US $3,675 in prior years' savings in its next progress report;

(c) To request the Treasurer:

  (i) To reflect in UNIDO's 2013 accounts as prior years' adjustment:

    a. Income transfers made to UNIDO in 2012 related to the refund on completed projects amounting to US $104,472;

    b. Interest earned amounting to US $221,896 for the 2nd and 3rd quarters of 2012, as adjusted at the 68th meeting;

    c. US $99,041 for the 4th quarter of 2012, as adjusted at the 69th meeting;

    d. The difference in interest income between the provisional and final accounts for 2012, amounting to US $50,951;

  (ii) To withhold from future transfers to UNDP an amount of US $551,278, representing the additional interest income reported by UNDP in its final financial statement but not in its provisional financial statement, and a US $12 historical difference in income, and to reflect these amounts as a prior year adjustment in UNDP's 2013 accounts;

  (iii) To withhold from future transfers to the World Bank an amount of US $71,078, representing interest earned in the 4th quarter of 2011, which had not been deducted from the 2012 approvals, as the Treasurer had made no payments to the World Bank at the 66th and 67th meetings owing to a large return in balances; and

  (iv) To note that the adjustments of US $2,880 returned twice by UNIDO against five projects, and US $810 in agency support costs returned twice by UNEP against one project, had been effected in the report on

balances and availability of resources (document UNEP/OzL.Pro/ExCom/71/4) for each agency separately;

(d) To note the 2012 outstanding reconciling items as follows:

(i) US $3,119 in income between UNEP's progress report and final accounts;

(ii) US $15 in income and US $1,197 in expenditure between UNIDO's progress report and final accounts; and

(iii) US $9 in income between the World Bank's progress report and final accounts; and

(e) To note the standing reconciling items as follows:

(i) UNDP for unspecified projects in the amounts of US $68,300 and US $29,054; and

(ii) World Bank for the following projects implementing with other bilateral agencies where applicable:

- Thailand chiller project (THA/REF/26/INV/104) in the amount of US $1,198,946;
- Sweden bilateral (THA/HAL/29/TAS/120) in the amount of US $225,985;
- United States of America bilateral (CPR/PRO/44/INV/425) in the amount of US $5,375,000; and
- United States of America bilateral (CPR/PRO/47/INV/439) in the amount of US $5,375,000.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/47, para 177).
(Supporting document: UNEP/OzL.Pro/ExCom/71/61).

The Seventy-second Meeting of the Executive Committee decided:

(a) To note the accounts of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/72/44;

(b) To request the Treasurer:

(i) To report on the status of consolidation of the accounts of the Multilateral Fund to the 74th meeting once the International Public Sector Accounting Standards and Umoja were fully operational;

(ii) To seek, in consultation with the Secretariat, expert views on the issue of fund transfers from the Treasurer to the implementing agencies and to report back to the 73rd meeting; and

(iii) To include in the next report on the accounts of the Multilateral Fund integrated information on the UNEP-wide standard on cash advances and the 20 per cent disbursement threshold for tranches of HCFC phase-out management plans to show clearly the relationship between the two issues, together with further information on the criteria used for the placement of funds to ensure risk reduction and the maximization of interest accrual.

(UNEP/OzL.Pro/ExCom/72/47, Decision 72/42, para 199).
(Supporting document: UNEP/OzL.Pro/ExCom/72/44).

2013 accounts of the Multilateral Fund

The Seventy-third Meeting of the Executive Committee decided:

(a) To note:

(i) The final financial statements of the Multilateral Fund as at 31 December 2013 contained in documents UNEP/OzL.Pro/ExCom/73/55 and Corr.1;

(ii) That UNEP had received the report of the United Nations Board of Auditors for the biennium ending 31 December 2013 and that there were no major issues of relevance to the Multilateral Fund;

(iii) That the report of the Treasurer (UNEP/OzL.Pro/ExCom/73/57), produced pursuant to decision 72/42(b)(ii) and (iii), contained the information requested on the issue of funds transfers from the Treasurer to the implementing agencies and on the UNEP-wide standard on cash advances and the 20 per cent disbursement threshold for tranches of HCFC phase-out management plans, and clearly showed the relationship between the two issues, and also contained further information on the criteria used for the placement of funds to ensure risk reduction and the maximization of interest accrual; and

(b) To request the Treasurer to record in the 2014 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2013 financial accounts and final 2013 accounts as reflected in Tables 1 and 2 of documents UNEP/OzL.Pro/ExCom/73/55 and Corr.1.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/66, para 216)

(Supporting document: UNEP/OzL.Pro/ExCom/73/55 and Corr.1).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2013 accounts contained in document UNEP/OzL.Pro/ExCom/73/56;

(b) To request UNDP to adjust, in its progress report, the previously understated support costs under the Nigeria HCFC phase-out management plan project preparation (NIR/FOA/57/PRP/123) by US $144;

(c) To request the Treasurer:

(i) To withhold from its future transfers to UNDP an amount of US $205,719 representing the additional interest income reported by UNDP in its provisional financial statement, but not in its final financial statement, and to reflect that amount as a prior year adjustment in UNDP's 2014 accounts;

(ii) To record the decrease in expenditure, in the amount of US $157,470, between UNDP's provisional and final financial statements in 2014;

(iii) To withhold from its future transfers to UNIDO an amount of US $17,064 representing an additional interest income reported by UNIDO in its final statements, but not in its provisional statements, and to reflect that amount as a prior year adjustment in UNIDO's 2014 accounts;

(d) To note the 2013 outstanding reconciling items as follows:

(i) US $322,396 in income and US $1,578 in expenditure between UNEP's progress report and final accounts;

(ii) US $16 in income and US $57 in expenditure between UNIDO's progress report and final accounts;

(iii) US $8 in income between the World Bank's progress report and final accounts;

(e) To note the standing reconciling items as follows:

(i) UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054; and

(ii) The World Bank, for the following projects implemented with other bilateral agencies where applicable:

a. The refund by Government of the Philippines of US $28,434, representing an undocumented balance to the ODS project special account, which was a new item;

b. Thailand chiller project (THA/REF/26/INV/104) in the amount of US $1,198,946;

c. Japan bilateral (THA/PHA/68/TAS/158) in the amount of US $342,350, which was a new item;

d. Sweden bilateral (THA/HAL/29/TAS/120) in the amount of US $225,985;

e. United States of America bilateral (CPR/PRO/44/INV/425) in the amount of US $5,375,000; and

f. United States of America bilateral (CPR/PRO/47/INV/439) in the amount of US $5,375,000.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/67, para 218)
(Supporting document: UNEP/OzL.Pro/ExCom/73/56).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the report on fund transfers from the Treasurer to the implementing agencies (decision 72/42(b)(ii) and (iii)) contained in document UNEP/OzL.Pro/ExCom/73/57;

(b) To maintain the current system for the management and transfer of funds under the Multilateral Fund from the Treasurer to implementing agencies.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/68, para 221)
(Supporting document: UNEP/OzL.Pro/ExCom/73/57).

2014 accounts of the Multilateral Fund

The Seventy-fourth Meeting of the Executive Committee decided:

(a) To note the report on the status of consolidation of the accounts of the Multilateral Fund (decision 72/42(b)(i)), contained in document UNEP/OzL.Pro/ExCom/74/52;

(b) To request the Treasurer:

(i) To submit the final 2014 accounts of the Multilateral Fund containing the required information on the fixed-exchange rate mechanism, promissory notes, outstanding contributions, and counterpart contribution by the Government of Canada, to the 75th meeting;

(ii) To continue submitting separate sub-accounts for each implementing agency, one for the budget of the Fund Secretariat, and another on the financial status of the Multilateral Fund, using the same format when the accounts were reported under United Nations System Accounting Standards;

(iii) To report on the status of the Multilateral Fund bank account located in New York and its impact on the

financial operation of the Fund Secretariat and the Multilateral Fund to the 75th meeting; and

(iv) To organize, together with the Fund Secretariat, an information workshop to update the implementing agencies on the reporting requirement under International Public Sector Accounting Standards prior to the 75th meeting.

(UNEP/OzL.Pro/ExCom/74/56, Decision 74/52, para 168)
(Supporting document: UNEP/OzL.Pro/ExCom/74/52).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note:
  (i) The final financial statements of the Multilateral Fund as at 31 December 2014 prepared in accordance with decision 74/52(b) contained in document UNEP/OzL.Pro/ExCom/75/80;
  (ii) That UNEP had received the report of United Nations Board of Auditors for the biennium ended 31 December 2014 and that there were no major issues of relevance to the Multilateral Fund;
  (iii) The feedback from the Treasurer on the bank account of the Multilateral Fund in New York;
  (iv) That under the International Public Sector Accounting Standards (IPSAS) contributions outstanding for up to three years are reported under the "voluntary pledges receivable" category and contributions outstanding for more than three years were maintained under "the doubtful accounts receivable" category;
  (v) The report of the workshop on the reporting requirements under IPSAS contained in Annex II to document UNEP/OzL.Pro/ExCom/75/80;
(b) To request the Treasurer to record in the 2015 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2014 financial statements and their final 2014 statements as reflected in Tables 1 and 2 of the document UNEP/OzL.Pro/ExCom/75/80; and
(c) To authorize the Treasurer to restate the 2014 expenditure balance in the 2015 accounts so that the UNIDO 2014 accounts met the IPSAS reporting requirements.

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/70, para 288)
(Supporting document: UNEP/OzL.Pro/ExCom/75/80).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2014 accounts contained in document UNEP/OzL.Pro/ExCom/75/81;
(b) To request the Treasurer to adjust the accounts of UNDP and UNIDO by US $82,831 and US $24,667, respectively, representing a higher interest income reported in their provisional financial statements than in their final financial statements;
(c) To note the 2014 outstanding reconciling items as follows:
  (i) US $157,952 between UNEP's progress report and the Secretariat's inventory of approved projects; US $36,178 in income and US $2,962,802 in expenditure between UNEP's progress report and the final accounts;
  (ii) US $10 in income between the World Bank's progress report and the final accounts;
(d) To request UNEP to submit a revised 2014 progress report to the 76th meeting with a view to completing the 2014 reconciliation of accounts exercise;
(e) To request UNIDO to adjust in its 2015 accounts the expenditures of US $58,045, representing the difference in agency support costs; US $33 in income between UNIDO's progress report and final accounts; and US $15 between UNIDO's progress report and the Secretariat's inventory of approved projects;
(f) To note the standing reconciling items as follows:
  (i) UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054; and
  (ii) The World Bank, for the following projects implementing with bilateral agencies where applicable:
    - Thailand chiller project (THA/REF/26/INV/104) in the amount of US $1,198,946;
    - Japan bilateral (THA/PHA/68/TAS/158) in the amount of US $342,350;
    - Sweden bilateral (THA/HAL/29/TAS/120) in the amount of US $225,985;
    - United States of America bilateral (CPR/PRO/44/INV/425) in the amount of US $5,375,000; and
    - United States of America bilateral (CPR/PRO/47/INV/439) in the amount of US $5,375,000.

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/71, para 290)
(Supporting document: UNEP/OzL.Pro/ExCom/75/81).

The Seventy-sixth meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2014 accounts (decision 75/71(d)) contained in document UNEP/OzL.Pro/ExCom/76/61;

(b) To note with appreciation the submission by UNEP of a revision to its progress report as at 31 December 2014;

(c) To request UNEP to reconcile in the 2015 accounts:

(i) US $182,570, representing the differences between the accounts in the United Nations System Accounting Standards and the revised 2014 progress report of UNEP; and

(ii) US $39,000, representing more expenditure in the revised 2014 progress report of UNEP than in the International Public Sector Accounting Standards.

UNEP/OzL.Pro/ExCom/76/66, Decision 76/53, para 186)
(Supporting document: UNEP/OzL.Pro/ExCom/76/61).

2015 accounts of the Multilateral Fund

The Seventy-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The final financial statements of the Multilateral Fund as at 31 December 2015, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/77/72;

(ii) The report of the United Nations Board of Auditors (UNBoA) for the year ending 31 December 2015 submitted to UNEP;

(iii) The UNBoA observation and recommendation indicating that UNEP should bring the issue of long-outstanding contributions receivable to the attention of the Executive Committee for its consideration or write-off, and the subsequent response by UNEP, taking into account the Secretariat's comments on the issue;

(b) To request the Treasurer to record in the 2016 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2015 financial statements and their final 2015 statements, as reflected in Table 1 of document UNEP/OzL.Pro/ExCom/77/72; and

(c) To request the Chair of the Executive Committee to report, to the Twenty-Ninth Meeting of the Parties to the Montreal Protocol, the UNBoA observation and recommendation that UNEP should "bring again the matter to the attention of the Multilateral Fund Executive Committee for its consideration or write-off".

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/61, para. 219)
(Supporting document: UNEP/OzL.Pro/ExCom/77/72).

The Seventy-seventh Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2015 accounts contained in document UNEP/OzL.Pro/ExCom/77/73;

(b) To request the Treasurer:

(i) To deduct from future transfers to UNDP the amount of US $105,346, on account of an interest income reported in its 2015 final accounts that was higher than in its provisional accounts;

(ii) To transfer US $21,467 to UNIDO, which represented interest earned for China in 2012, which had been offset twice, against approvals at the 71st and 74th meetings;

(c) To request UNEP to make the following adjustments in its 2016 accounts:

(i) US $329,000 in expenditure adjustments required for 2015;

(ii) US $221,570 in expenditure representing an unreconciled amount carried forward from 2014;

(iii) US $907,514 representing 2014 reconciliation items not adjusted/actioned in 2015;

(iv) US $219,231 in agency support costs recorded incorrectly in the final 2015 accounts;

(d) To request UNEP to make the following adjustments in its 2016 progress report:

(i) US $217,633 in income recorded in UNEP's 2015 accounts but not in the progress report; and

(ii) US $123,412 in expenditure, and US $190,385 in savings reflected in UNEP's 2015 accounts but not in its progress report;

(e) To request UNIDO to reflect in its 2016 accounts US $2,040,715 in 2015 income not recorded in 2015;

(f) To note that the following 2015 outstanding reconciling items would be updated prior to the 80th meeting by relevant implementing agencies:

(i) Differences of US $41,106 in income and US $18,992 in expenditure between UNEP's progress report and final accounts;

(ii) Differences of:

a. US $26 between UNIDO's progress report and the Secretariat's inventory of approved projects, to be adjusted by UNIDO in its progress report;

b. US $43 in income between UNIDO's progress report and final accounts;

c. US $37,725 in agency support costs expenditure between UNIDO's progress report and the final accounts; and

(iii) A difference of US $143,940 in income between the World Bank's progress report and final accounts;

(g) To note the standing reconciling items as follows:

(i) UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054; and

(ii) The World Bank, for the following projects, being implemented with other bilateral agencies where applicable:

- The bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;
- The bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
- The bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;
- The bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000;
- The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946;
- Stage I of the HCFC phase-out management plan for Thailand (THA/PHA/74/INV/164 and 165), in the amount of US $10,385,585; and
- Stage I of the HCFC production phase-out management plan for China (CPR/PRO/75/INV/568), in the amount of US $17,740,800.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/62, para. 221)
(Supporting document: UNEP/OzL.Pro/ExCom/77/73).

2016 accounts of the Multilateral Fund

The Eightieth Meeting of the Executive Committee decided:

(a) To note the final financial statements of the Multilateral Fund as at 31 December 2016, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/80/5; and

(b) To request the Treasurer to record in the 2017 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2016 financial statements and their final 2016 financial statements, as reflected in Table 1 of document UNEP/OzL.Pro/ExCom/80/5.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/3, para 30)
(Supporting document: UNEP/OzL.Pro/ExCom/80/5).

The Eightieth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2016 accounts contained in document UNEP/OzL.Pro/ExCom/80/6;
(b) To request the Treasurer to deduct from the future transfers:
    (i) To UNDP, US $309,668, on account of an interest income reported in its 2016 final accounts that was higher than in its provisional accounts;
    (ii) To UNIDO, US $78,754, on account of an interest income reported in its 2016 final accounts that had yet to be offset against new approvals;
    (iii) To the World Bank, US $131,618, on account of an investment income reported in its 2016 accounts that had yet to be offset against new approvals;
(c) To request UNDP to make the following adjustments in its 2017 progress report:
    (i) US $56,760 in income, representing additional funds approved for a project (IDS/PHA/64/INV/195) at the 66th meeting but not adjusted in the 2016 progress report;
    (ii) US $312,406, representing interest from the HCFC phase-out management plan for China, adjusted in UNDP's income but not reflected in its 2016 progress report;
    (iii) US $39, representing an incorrect adjustment for one project (DOM/PHA/77/INV/60) in its 2016 progress report;
    (iv) US $34, representing a rounding difference in agency support costs adjusted in UNDP's 2015 progress report but not in its 2016 progress report;
(d) To request UNIDO:
    (i) To make an adjustment of US $1,122 in its 2017 progress report, representing balances returned for several projects incorrectly reflected in its 2016 progress report;
    (ii) To reflect in its 2017 accounts US $2,055,000 in 2016 income not recorded in 2016;
(e) To request the World Bank to address the rounding difference of US $7 for 2016, of which US $4 had been carried forward from 2015;
(f) To note that the following 2016 outstanding reconciling items would be updated prior to the 82nd meeting by relevant implementing agencies:
    (i) Differences of US $110,654 in income between UNEP's progress report and final accounts;
    (ii) Differences of US $135,304 in income between the World Bank's progress report and final accounts;
(g) To note the standing reconciling items as follows:
    (i) UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;
    (ii) The World Bank, for the following projects, being implemented with other bilateral agencies, where applicable:
        - The bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;
        - The bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
        - The bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;
        - The bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and
        - The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/4, para 32)
(Supporting document: UNEP/OzL.Pro/ExCom/80/6).

2017 accounts of the Multilateral Fund

The Eighty-second Meeting of the Executive Committee decided:

(a) To note the final audited financial statements of the Multilateral Fund as at 31 December 2017, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/82/6; and
(b) To request the Treasurer to record in the 2018 accounts of the Multilateral Fund, the differences between the implementing agencies' provisional 2017 financial statements and their final 2017 financial statements as

reflected in Table 1 of document UNEP/OzL.Pro/ExCom/82/6.
(UNEP/OzL.Pro/ExCom/82/72, Decision 82/4)
(Supporting document: UNEP/OzL.Pro/ExCom/82/6).

The Eighty-second Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2017 accounts contained in document UNEP/OzL.Pro/ExCom/82/7;
(b) To request the Treasurer to deduct from future transfers:
    (i) To UNDP, US $634,258, on account of income from interest reported in its 2017 final accounts that had yet to be offset against new approvals;
    (ii) To the World Bank, US $122,167, on account of income from investment reported in its 2017 final accounts that had yet to be offset against new approvals;
(c) To request UNDP to make an adjustment of US $410,975 in its 2018 progress report, representing interest from the HCFC phase-out management plan (HPMP) for China, adjusted in the income of UNDP but not reflected in its 2017 progress report;
(d) To request UNIDO:
    (i) To make an adjustment of US $38,693 in its 2018 progress report, representing income recorded in its 2017 accounts and returned in 2018;
    (ii) To reflect in its 2018 accounts, US $2,069,358 in income that had been recorded in 2017; and US $61,894, representing interest from the HPMP for China that had been offset in 2017 but not reflected in its 2017 accounts;
(e) To request the World Bank to make an adjustment of US $4,813 in its 2018 progress report, representing funds returned from income from investment in relation to a project (CPR/PHA/73/INV/551);
(f) To note that the following 2017 outstanding reconciling items would be updated prior to the 84th meeting by relevant implementing agencies:
    (i) Differences of US $6,117 in income and US $60,213 in expenditure between the progress report and final accounts of UNIDO;
    (ii) Differences of US $135,299 in income between the progress report and final accounts of the World Bank;
(g) To request UNEP to submit a revised 2017 progress report at the 83rd meeting with a view to completing the 2017 reconciliation of accounts exercise, noting the following outstanding reconciliation items:
    (i) Differences of US $7,357 in income between the progress report and final accounts of UNEP;
    (ii) Differences of US $15,528,515 in expenditures between the progress report and final accounts of UNEP; and
(h) To note the standing reconciling items as follows:
    (i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;
    (ii) For the World Bank, for the following projects implementing with other bilateral agencies where applicable:
        a. Bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;
        b. Bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
        c. Bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and
        d. The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.
(UNEP/OzL.Pro/ExCom/82/72, Decision 82/5).
(Supporting document: UNEP/OzL.Pro/ExCom/82/7).

The Eighty-third Meeting of the Executive Committee decided:

(a) To note:
    (i) The reconciliation of the 2017 accounts contained in document UNEP/OzL.Pro/ExCom/83/6;
    (ii) The submission by UNEP of a revision to its progress report as at 31 December 2017;
(b) To request UNEP to reflect in its 2018 accounts:

(i) US $7,357 in income representing exchange-rate gains in prior years that had not been recorded in its 2017 final accounts; and
(ii) US $317,438 in expenditure representing the difference between projected and actual agency support costs that had not been recorded in its 2017 final accounts.

(UNEP/OzL.Pro/ExCom/83/48, Decision 83/5).
(Supporting document: UNEP/OzL.Pro/ExCom/83/6).

2018 accounts of the Multilateral Fund

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note the final audited financial statements of the Multilateral Fund as at 31 December 2018, prepared in accordance with the International Public Sector Accounting Standards, and the certified statement of income and disbursements of the additional contributions for fast-start support for the implementation of HFC phase-down pursuant to decision 83/4(b), all contained in documents UNEP/OzL.Pro/ExCom/84/6 and Corr.1; and
(b) To request the Treasurer to record in the 2019 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2018 financial statements and their final 2018 statements reflected in Table 1 of document UNEP/OzL.Pro/ExCom/84/6.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/4)
(Supporting document: UNEP/OzL.Pro/ExCom/84/6).

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2018 accounts contained in document UNEP/OzL.Pro/ExCom/84/7;
(b) To request the Treasurer to deduct from future transfers:
    (i) To UNDP, US $827,039, on account of income from interest reported in its 2018 final accounts that had yet to be offset against new approvals;
    (ii) To UNEP, US $616,416, on account of income from interest earned in 2018, US $449,123, on account of income from interest earned in prior years, and US $28,906, on account of income from exchange-rate gain reported in its 2018 final accounts that had yet to be offset against new approvals;
    (iii) To the World Bank, US $441,943, on account of income from investment reported in its 2018 final accounts that had yet to be offset against new approvals;
(c) To request UNDP:
    (i) To make an adjustment of US $33 in its 2019 progress report, representing rounding differences related to agency support costs;
    (ii) To reflect in its 2019 accounts, US $246,281, representing a bilateral expenditure misreported in its 2018 final accounts;
(d) To request UNEP to make adjustments, in its 2019 progress report, of US $317,438 and US $83,383, representing the difference in projected and actual agency support costs in the 2017 and 2018 final accounts, respectively;
(e) To request UNIDO:
    (i) To make an adjustment of US $109,825 in its 2019 progress report, representing income recorded in its 2018 accounts and balances returned only in 2019;
    (ii) To reflect, in its 2019 accounts, US $2,083,871 in income that had been recorded in 2018 and US $88,547, representing interest from the HCFC phase-out management plan for China that had been offset in 2018 but not reflected in its 2018 accounts;
(f) To request the World Bank, in its 2019 progress report, to make adjustments of US $4,813, representing funds returned from income from an investment project (CPR/PHA/73/INV/551), and US $1,102,100, representing funds approved at the 80th and 81st meetings;
(g) To note that the following 2018 outstanding reconciling items would be updated prior to the 86th meeting by the relevant implementing agencies:
    (i) Differences of US $11,093 in income and US $65,856 in expenditures, between the progress report and final accounts of UNIDO;

(ii) Differences of US $120,198 in income, between the progress report and final accounts of the World Bank;

(h) To note the standing reconciling items as follows:
   (i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;
   (ii) For the World Bank, for the following projects implemented with other bilateral agencies where applicable:
      a. Bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;
      b. Bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
      c. Bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;
      d. Bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and
      e. The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/5).
(Supporting document: UNEP/OzL.Pro/ExCom/84/7).

2019 accounts of the Multilateral Fund

The Eighty-sixth Meeting of the Executive Committee decided:

(a) To note:
   (i) The final audited financial statements of the Multilateral Fund as at 31 December 2019 prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/86/5;
   (ii) The return of US $1,782,262 (US $1,735,073 from the approved 2019 budget of the Fund Secretariat and US $47,189 from the approved budget for the monitoring and evaluation work programme) to the Multilateral Fund at the 86th meeting; and
(b) To request the Treasurer to record in the 2020 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2019 financial statements and their final 2019 statements reflected in Table 1 of document UNEP/OzL.Pro/ExCom/86/5.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/5)
(Supporting document: UNEP/OzL.Pro/ExCom/86/5).

The Eighty-sixth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2019 accounts contained in document UNEP/OzL.Pro/ExCom/86/6;
(b) To request the Treasurer to deduct from future transfers:
   (i) To UNDP, US $1,302,751, on account of income from interest reported in its 2019 final accounts that had yet to be offset against new approvals;
   (ii) To UNEP, US $450,092, on account of income from interest earned in 2019, US $1,094,455, on account of income from interest earned in prior years, and US $41, on account of income from exchange rate gain, all reported in its 2019 final accounts, that had yet to be offset against new approvals;
   (iii) To the World Bank, US $1,930,263, on account of income from investment earned in the fourth quarter of 2018 and in 2019, and US $4,436,475, on account of funds returned from the 83rd and 84th meetings, both reported in its 2019 final accounts, that had yet to be offset against new approvals;
(c) To request UNIDO to make adjustments in its 2020 accounts of US $174,682, representing income adjustments that had been recorded in different years, and US $2,098,458 in income that had been recorded in 2019;
(d) To request the World Bank to make adjustments of US $1,060,319 in its 2020 progress report, representing funds returned in relation to one project (PHI/SEV/80/TAS/01);
(e) To note that the following 2019 outstanding reconciling items would be updated by relevant implementing agencies prior to the 88th meeting:
   (i) Differences of US $12,597 in income and US $61,615 in expenditures between the progress report and the final accounts of UNIDO;

(ii) A difference of US $115,560, in income, between the progress report and the final accounts of the World Bank;

(f) To note the standing reconciling items as follows:
   (i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;
   (ii) For the World Bank, for the following projects, implemented with other bilateral agencies where applicable:
      a. Bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;
      b. Bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
      c. Bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;
      d. Bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and
      e. The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/6)
(Supporting document: UNEP/OzL.Pro/ExCom/86/6).

2020 accounts of the Multilateral Fund

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note the final audited financial statements of the Multilateral Fund as at 31 December 2020, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/88/5; and
(b) To request the Treasurer to record in the 2021 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2020 financial statements and their final 2020 statements reflected in Table 1 of document UNEP/OzL.Pro/ExCom/88/5.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/4)
(Supporting document: UNEP/OzL.Pro/ExCom/88/5).

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2020 accounts contained in document UNEP/OzL.Pro/ExCom/88/6;
(b) To request the Treasurer to deduct from future transfers:
   (i) To UNEP, US $1,080,630, on account of income from interest earned in 2020 and prior years, reported in its 2020 final accounts that had yet to be offset against new approvals;
   (ii) To UNIDO, US $85,020, on account of income from interest reported in its 2020 final accounts that had yet to be offset against new approvals;
   (iii) To the World Bank, US $22,119, on account of income from interest reported in its 2020 final accounts that had yet to be offset against new approvals;
(c) To request UNDP to make adjustments of US $6,740 in its 2021 progress report, representing the amount withheld for penalty in relation to a project (SRL/PHA/86/INV/58);
(d) To request UNEP to make adjustments of US $4,723 in its 2021 progress report, representing the amount withheld for penalty in relation to a project (SRL/PHA/86/TAS/56);
(e) To request UNIDO to make adjustments of US $2,022,000 in its 2021 accounts, representing income that had been recorded in 2020; and US $89,600 in its 2021 progress report, in grants closed in 2020 but funds returned in 2021;
(f) To request the World Bank to make adjustments in its 2021 progress report of:
   (i) US $314,015 representing the closing balance of US $33,907 in relation to a project (CPR/PRO/57/INV/487) and US $280,108 in relation to a project (CPR/FOA/56/INV/478);
   (ii) US $1,060,319, representing funds returned in relation to a project (PHI/SEV/80/TAS/01);
(g) To note that the following 2020 outstanding reconciling items would be updated prior to the 91st meeting by relevant implementing agencies:

(i) Differences of US $12,657 in income, and US $69,436 in expenditures between the progress report and the final accounts of UNIDO;
(ii) Differences of US $121,562, in income between the progress report and the final accounts of the World Bank;

(h) To note the standing reconciling items as follows:
(i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;
(ii) For the World Bank, for the following projects implementing with other bilateral agencies where applicable:
a) Bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;
b) Bilateral cooperation of the Government of Japan (VIE/PHA/76/TAS/71) and (VIE/PHA/84/INV/75), in the amount of US $234,170;
c) Bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
d) Bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;
e) Bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and
f) The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/5)
(Supporting document: UNEP/OzL.Pro/ExCom/88/6).

2021 accounts of the Multilateral Fund

The Ninety-first Meeting of the Executive Committee decided:

(a) To note the final audited financial statements of the Multilateral Fund as at 31 December 2021, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/91/5; and

(b) To request the Treasurer to record in the 2022 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2021 financial statements and their final 2021 statements reflected in table 1 of document UNEP/OzL.Pro/ExCom/91/5.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/4).

(Supporting document: UNEP/OzL.Pro/ExCom/91/5).

The Ninety-first Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2021 accounts contained in document UNEP/OzL.Pro/ExCom/91/6;

(b) To request the Treasurer to deduct from future transfers:
(i) To UNEP, US $540,089, on account of income from interest earned in 2021 and prior years reported in its 2021 final accounts that had yet to be offset against new approvals;
(ii) To UNIDO, US $104,843, on account of income from interest reported in its 2021 final accounts that had yet to be offset against new approvals;

(c) To request UNIDO to make:
(i) In its 2022 accounts, adjustments of US $2,036,154 representing income that had been recorded in 2021, US $11,317 representing grants closed in 2021 that had been recorded in 2021 progress report but not in the final accounts and US $65,400 representing deferred income from grants that had been recorded in 2021 in the progress report but not in the final accounts;
(ii) In its 2022 progress report, an adjustment of US $63,435 representing expenditure that had not been recorded in 2021;

(d) To note that the following 2021 outstanding reconciling items would be updated by relevant implementing agencies prior to the 93rd meeting:

(i) Differences of US $1,377 in income and US $173,352 in expenditure between the progress report and the final accounts of UNIDO;

(ii) Differences of US $417,517 in income between the progress report and the final accounts of the World Bank;

(e) To note the standing reconciling items as follows:

(i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;

(ii) For the World Bank, for the following projects implemented with other bilateral agencies where applicable:

a. Bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;

b. Bilateral cooperation of the Government of Japan (VIE/PHA/76/TAS/71) and (VIE/PHA/84/INV/75), in the amount of US $234,170;

c. Bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;

d. Bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;

e. Bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and

f. The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/5).
(Supporting document: UNEP/OzL.Pro/ExCom/91/6).

2022 accounts of the Multilateral Fund

The Ninety-third Meeting of the Executive Committee decided:

(a) To note the final audited financial statements of the Multilateral Fund as at 31 December 2022, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/93/5;

(b) To request the Treasurer to record in the 2023 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2022 financial statements and their final 2022 statements reflected in table 1 of document UNEP/OzL.Pro/ExCom/93/5; and

(c) To note that the audited 2022 financial report of UNEP referred to the matter of outstanding contribution receivables.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/4).
(Supporting document: UNEP/OzL.Pro/ExCom/93/5).

The Ninety-third Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2022 accounts contained in document UNEP/OzL.Pro/ExCom/93/6;

(b) To request the Treasurer to deduct from future transfers:

(i) To UNDP, at the 93rd meeting, US $457,877, on account of income from interest reported in its 2022 final accounts that had yet to be offset against new approvals;

(ii) To the World Bank, at the 95th meeting, US $45,143, on account of income from cumulative interest accrued during stage I and stage II of the HCFC production phase-out management plan (HPPMP) between 2015 and 2019 that had been reported in its final accounts but that had yet to be offset against the future approval of the third tranche of stage II of the HPPMP as per subparagraph (c) of decision 86/99;

(c) To request UNDP to make the following adjustments:

(i) In its 2023 progress report, adjustments of US $316,592, representing expenditure that had been recorded in the 2022 final accounts but not in the progress report, and of US $1,805,836, representing expenditure that had been overstated in the 2022 progress report;
(ii) In its 2023 accounts, adjustments of US $455,191, representing expenditure from agency support costs that had been recorded in the 2022 progress report but not in the final accounts, and of US $886, representing over-expenditure reflected in the financial statement but not in the progress report;

(d) To request UNIDO, in its 2022 accounts, to make adjustments of US $2,050,407, representing income that had been recorded in 2021, and of US $122,492, representing interest for China deducted in its 2021 accounts but not yet offset against payments by UNIDO;
(e) To note that the following 2022 outstanding reconciling items would be updated by the relevant implementing agencies prior to the 95th meeting:
(i) Differences of US $288 in income and US $1,524,873 in expenditure between the progress report and the final accounts of UNIDO;
(ii) Differences of US $390,363 in income between the progress report and the final accounts of the World Bank;
(f) To note also the standing reconciling items as follows:
(i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;
(ii) For the World Bank, for the following projects implemented with other bilateral agencies, where applicable:
a. Bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $339,013;
b. Bilateral cooperation of the Government of Japan ((VIE/PHA/76/TAS/71) and (VIE/PHA/84/INV/75)), in the amount of US $234,170;
c. Bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
d. Bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;
e. Bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and
f. The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/5).
(Supporting document: UNEP/OzL.Pro/ExCom/93/6).

2023 accounts of the Multilateral Fund

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note the final audited financial statements of the Multilateral Fund as at 31 December 2023, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/95/5; and
(b) To request the Treasurer to record in the 2024 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2023 financial statements and their final 2023 statements, as reflected in table 1 of document UNEP/OzL.Pro/ExCom/95/5.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/3).
(Supporting document: UNEP/OzL.Pro/ExCom/95/5).

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2023 accounts contained in document UNEP/OzL.Pro/ExCom/95/6;
(b) To request the Treasurer to deduct from future transfers at the 95th meeting:
(i) To UNEP, US $659,258, owing to income from interest reported in its 2023 final accounts that had yet to be offset against new approvals;
(ii) To the World Bank, US $705,796, owing to income from interest reported in its 2023 final accounts that had yet to be offset against new approvals;

(c) To request UNDP to make adjustments in its 2024 accounts of US $5,871, representing expenditure that had been reflected in its 2023 progress report but not in the final accounts;
(d) To request UNIDO to make adjustments in its 2024 accounts of US $2,264,760, representing income that had been recorded in 2023, and US $121,092, representing interest for China deducted in the 2023 accounts of UNIDO but not yet offset against payments by the agency;
(e) To note that the following 2023 outstanding reconciling items would be updated prior to the 97th meeting by relevant implementing agencies:
    (i) Differences of US $66,187 in income and US $1,959,198 in expenditure between the progress report and the final accounts of UNIDO;
    (ii) Differences of US $336,162 in income and US $198,115 in expenditure between the progress report and the final accounts of the World Bank;
(f) To note the standing reconciling items as follows:
    (i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;
    (ii) For the World Bank, for the following projects implemented with bilateral agencies where applicable:
        a. Bilateral cooperation of the Government of Japan (THA/PHA/68/TAS/158), in the amount of US $342,350;
        b. Bilateral cooperation of the Government of Japan (VIE/PHA/76/TAS/71), (VIE/PHA/84/INV/75) and (VIE/PHA/87/INV/79), in the amount of US $234,170;
        c. Bilateral cooperation of the Government of Sweden (THA/HAL/29/TAS/120), in the amount of US $225,985;
        d. Bilateral cooperation of the Government of the United States of America (CPR/PRO/44/INV/425), in the amount of US $5,375,000;
        e. Bilateral cooperation of the Government of the United States of America (CPR/PRO/47/INV/439), in the amount of US $5,375,000; and
        f. The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/4).
(Supporting document: UNEP/OzL.Pro/ExCom/95/6).

2024 accounts of the Multilateral Fund

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note the final audited financial statements of the Multilateral Fund as at 31 December 2024, prepared in accordance with the International Public Sector Accounting Standards, contained in document UNEP/OzL.Pro/ExCom/97/5; and
(b) To request the Treasurer to record in the 2025 accounts of the Multilateral Fund the differences between the implementing agencies' provisional 2024 financial statements and their final 2024 statements as reflected in table 1 of document UNEP/OzL.Pro/ExCom/97/5.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/3).
(Supporting document: UNEP/OzL.Pro/ExCom/97/5).

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note the reconciliation of the 2024 accounts contained in document UNEP/OzL.Pro/ExCom/97/6;
(b) To request the Treasurer to deduct from future transfers at the 97th meeting:
    (i) To UNDP, US $845,811, on account of income from interest reported in its 2024 final accounts that had yet to be offset against new approvals;
    (ii) To UNEP, US $136,654, on account of income from interest reported in its 2024 final accounts that had yet to be offset against new approvals;
(c) To request UNDP to make the following adjustments in its 2025 accounts: US $6,018 representing expenditure that had been reflected in its 2024 progress report but not in the final accounts and US $148,798 representing expenditure that had been overstated in its final accounts;
(d) To request UNIDO to make the following adjustment in its 2025 accounts: US $2,279,213 representing income that had been recorded in 2024;

(e) To note that the following 2024 outstanding reconciling items would be updated prior to the 99th meeting by relevant implementing agencies:

(i) Differences of US $67,642 in income and US $403,024 in expenditure, between the progress report and the final accounts of UNIDO;

(ii) Differences of US $97,253 in income between the progress report and the final accounts of the World Bank;

(f) To note the standing reconciling items as follows:

(i) For UNDP, for unspecified projects, in the amounts of US $68,300 and US $29,054;

(ii) For the World Bank, for the following projects:

a. Bilateral cooperation projects of Japan (THA/PHA/68/TAS/158 in the amount of US $342,350; and VIE/PHA/76/TAS/71, VIE/PHA/84/INV/75 and VIE/PHA/87/INV/79 in the amount of US $261,402), Sweden (THA/HAL/29/TAS/120 in the amount of US $225,985) and the United States of America (CPR/PRO/44/INV/425 in the amount of US $5,375,000 and CPR/PRO/47/INV/439 in the amount of US $5,375,000); and

b. The Thailand chiller project (THA/REF/26/INV/104), in the amount of US $1,198,946.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/4).
(Supporting document: UNEP/OzL.Pro/ExCom/97/6).

Workshop on common terminology and procedures for reconciliation of accounts

The Forty-fifth Meeting of the Executive Committee decided:

(a) to take note of the report on the workshop on common terminology and procedures for the reconciliation of accounts contained in document UNEP/OzL.Pro/ExCom/45/50;

(b) to request that draft agreements/memorandums of understanding between the Treasurer and the Implementing Agencies be submitted to the Executive Committee for review and endorsement;

(c) to note that a detailed description of procedures, roles and responsibilities for the reconciliation of the accounts would be available in the minutes of the workshop and that further work was required by the Secretariat in cooperation with the Treasurer and the Implementing Agencies to finalize and develop a manual/primer on reporting and recording of the Multilateral Fund accounts; and

(d) to note the Treasurer's explanation on the issue of new cash advances being granted to Implementing Agencies when old ones had not been fully accounted for.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/58, para. 190).
(Supporting document: UNEP/OzL.Pro/ExCom/45/50).

Application of miscellaneous income, exchange rate losses and gains, and bank charges

The Forty-eighth Meeting of the Executive Committee decided:

(a) To note the report on options for a consistent approach to the application of miscellaneous income, exchange rate losses and gains, and bank charges for funds approved by the Executive Committee, and any consequences resulting from alternative approaches (follow-up to decision 47/47) as contained in document UNEP/OzL.Pro/ExCom/48/43);

(b) To confirm that the costs approved for implementing agencies should be classified as either project or administrative costs; and

(c) To request that all implementing agencies that had any costs charged to their Multilateral Fund accounts that were not assigned to either project or administrative costs identify those costs relating to the last replenishment period, and before that, where possible, and inform the Executive Committee at the 49th Meeting.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/38, para. 167).
(Supporting document: UNEP/OzL.Pro/ExCom/48/43).

The Forty-ninth Meeting of the Executive Committee decided:

(a) to note the report on costs charged to the Multilateral Fund accounts that had not been assigned to either project or administrative costs with respect to the application of miscellaneous income, exchange-rate losses and gains, and bank charges (follow up to decision 48/38) as contained in document UNEP/OzL.Pro/ExCom/49/40;

(b) to note, with appreciation, that all the costs of UNDP and the World Bank had been assigned to either project or administrative costs;

(c) to note, with appreciation, UNEP's agreement that all costs would be classified as either project or administrative costs and that expenditures amounting to US $60,556 that had previously not been so assigned would be categorized as such; and

(d) to request UNIDO to continue its efforts to comply with decision 48/38(b) and to report on the outcome to the 50th Meeting of the Executive Committee in the context of the annual reconciliation of accounts required by decision 38/9(d).

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/34, para. 135).

REQUESTS BY THE PARTIES

Performance and reporting

The Fifth Meeting of the Parties requested the Executive Committee to continue to make its best efforts to ensure, in accordance with national priorities and procedures and in conformity with the terms of reference of the Multilateral Fund for the Implementation of the Montreal Protocol, that:

(a) continued improvements are made to the implementation processes for country programmes, workplans and projects with the aim of ensuring their speedy implementation and, in particular, the disbursement of funds; and

(b) the Fund Secretariat, Implementing Agencies and the Parties concerned develop implementation processes to avoid duplication of effort, working within their respective areas of expertise.

The Parties also requested the Executive Committee to ensure that its annual reports cover the achievements of the operation of the Fund in accordance with its terms of reference, paying particular attention to priorities set, actions taken and progress made.

(UNEP/OzL.Pro/5/12 Decision V/7 (section 3).

Review of the operation of the Multilateral Fund

The Fifth Meeting of the Parties requested the Executive Committee to prepare a report in respect of the review referred to in paragraph 8 of Article 5 of the Montreal Protocol, taking into account section II, paragraph 4, of decision IV/18 (to evaluate and review, by 1995, the Financial Mechanism established by Article 10 of the Protocol and Section I of the present decision, with a view to ensuring its continue effectiveness, taking into account chapters 9, 33 and 34, and all other relevant chapters of Agenda 21 as adopted by the United Nations Conference on Environment and Development, held in Rio de Janeiro in June 1992), and submit it to the Open-Ended Working Group of the Parties through the Secretariat by 31 December 1994 and to prepare, and submit through the Secretariat, an addendum to its report no later than three months before the 1995 Meeting of the Parties with a view to its consideration at that Meeting. Such a report shall include consideration of:

(a) the operation of the Fund to date;

(b) the rate at which low and non-ozone depleting substance technologies are being transferred to or developed by Parties operating under Article 5, including the report on the actual implementation of these technologies;

(c) the progress made and problems encountered by Article 5 Parties in implementing their country programmes;

(d) the current plans of Article 5 Parties as articulated in their country programmes;

(e) the financial implications of various phase-out strategies, including a comparison in achieving the targets set in the London and the Copenhagen Amendments;

(f) the feasibility of achieving the greatest possible reduction as soon as possible.

NOTE: This review is separate from the review of the Financial Mechanism for which Decision V/12 of the Fifth Meeting of the Parties requested the Open-Ended Working Group to develop a terms of reference.

(UNEP/OzL.Pro/5/12 Decision V/11 (section 1).

The Twelfth Meeting of the Executive Committee decided that the review referred to in paragraph 8 of Article 5 of the Montreal Protocol should be prepared by a well-qualified consulting firm with experience in Article 5 countries. The Fund Secretariat was requested to invite consulting firms to tender bids based on the terms of reference of the report as soon as possible so that they could be received before 1 May 1994. The Chairman and Vice-Chairman of the Executive Committee would inform the Treasurer of the additional allocation to cover the costs of the review. The funds would be transferred to the account of the Fund Secretariat and recorded in the report of the Thirteenth Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/12/37 (paras. 170, 177).

The Executive Committee further decided that the review should take into account:

(a) the current plans of Article 5 Parties as articulated in their country programmes;

(b) the Report on the Operation of the Fund (UNEP/OzL.Pro/ExCom/10/36) updating the pertinent information;

(c) the progress made and problems encountered by Article 5 Parties in implementing their country programmes, determining, on the basis of the country programmes approved by the Executive Committee, the current status of ODS technologies used in Article 5 countries and the current per capita consumption, as well as the likely growth in consumption of ODS in Article 5 countries;

(d) provide information on legislation being enacted in Article 5 countries in consonance with the strategies and action plans included in the country programmes;

(e) describe market dynamics impacting the phase-out of controlled substances in Article 5 countries, including determination of the background of the industrial structure of Article 5 countries and the impact of ODS phase-out on the small-scale and informal industrial sector.

(UNEP/OzL.Pro/ExCom/12/37 (Annex V).
(Supporting document: UNEP/OzL.Pro/ExCom/12/35).

The requests by the Executive Committee to the Consultant's draft Report are presented in Annex I.14.

The Fifteenth Meeting of the Executive Committee authorized the Secretariat to transmit the document to the Ozone Secretariat.
(UNEP/OzL.Pro/ExCom/15/45 (paras. 135, 137).

Declaration of 2007 as "International Year of the Ozone Layer"

The Sixteenth Meeting of the Parties, considering that entry into force of the Montreal Protocol has resulted in:

(a) a decline in the level of ozone-depleting substances in the atmosphere;

(b) the expectation that the ozone layer will recover by about 2050 if there is full compliance with the provisions of the Montreal Protocol;

(c) the avoidance of further significant increases in ultraviolet radiation reaching the Earth's surface; and, thereby, improved the expectations of human health and reduced environmental risks for life on Earth,

Gratified by the transcendent success of the Montreal Protocol,

Declares 2007 "International Year of the Ozone Layer".
(UNEP/OzL.Pro.16/17, Decision XVI/45).

Dialogue on key future challenges to be faced by the Montreal Protocol

The Eighteenth Meeting of the Parties decided:

1. to convene a two-day open-ended dialogue, including participation by the Assessment Panels, the Ozone Secretariat, the Multilateral Fund secretariat and the implementing agencies, and inviting other relevant multilateral environmental agreement secretariats and non-governmental organizations as observers, to discuss issues related to the future key challenges of the Montreal Protocol, in accordance with the agenda contained presented below this decision;

2. that the above-mentioned dialogue will be held during the two days immediately preceding the twenty-seventh meeting of the Open-ended Working Group and that interpretation in the six United Nations languages will be provided;

3. to request the Secretariat, liaising with the appropriate Montreal Protocol bodies, to prepare and to post on its website by 30 April 2007 a background document to serve as context for the above-mentioned dialogue,

containing:

(a) a summary of the key achievements of the Montreal Protocol, lessons learned and its present status;

(b) volumes of ozone-depleting substances phased out and phased in, including feedstock, by substance and by category of Parties (i.e., Parties operating under paragraph 1 of Article 5 and Parties not so operating), forecasts of future trends in production and consumption and emissions from ozone-depleting substance banks;

(c) a compilation of submissions by Parties received in accordance with paragraph 4 of the present decision;

(d) concise factual information on the topics contained in the agenda of the dialogue;

(e) data on the ozone-depleting substances phased out and phased in under projects approved and implemented under the Multilateral Fund;

(f) An overview of the current and predicted future state of the ozone layer;

4. to invite Parties to submit to the Secretariat by 16 April 2007 any suggestions they may have on the topics to be discussed under the agenda contained in the annex;

5. to further request the Secretariat to prepare, in cooperation with the co-chairs of the dialogue, a summary report of the discussions that take place during the dialogue;

6. that a summary of key issues arising from the dialogue will be prepared by the co chairs of the dialogue and presented at the twenty-seventh meeting of the Open-ended Working Group;

7. to select Mr. Khaled Klaly (Syrian Arab Republic) and Mr. Tom Land (United States of America) as co-chairs of the dialogue.

Agenda for a dialogue on key future challenges faced by the Montreal Protocol
Nairobi, Kenya.
Day 1
Welcome / Introduction
Speech by an eminent person
Summary of key achievements of the Montreal Protocol (Ozone Secretariat)
Questions / Discussion of summary presented by the Ozone Secretariat
Lunch
Future challenges related to scientific assessment, analysis and monitoring of the state of the ozone layer
Challenges in phasing-out HCFCs. Open discussion.
Key future policy challenges related to the further management, control and/or phase-out of ozone depleting substances other than HCFCs
Day 2
Issues related to sustaining compliance, maintaining enforcement and combating illegal trade beyond 2010
Lunch
Improving cooperation and coordination of the Montreal Protocol with other multilateral environmental agreements and processes
The future of the Multilateral Fund beyond 2010
Administration and institutional issues related to the Montreal Protocol including issues related to the Meeting of the Parties, the assessment panels, the Implementation Committee and the Ozone Secretariat
Summary and conclusions
(UNEP/OzL.Pro.18/10, Decision XVIII/36).

RELATIONSHIP BETWEEN THE MONTREAL PROTOCOL AND OTHER INTERNATIONAL AGREEMENTS

Cooperation between the Multilateral Fund Secretariat and other relevant conventions or organizations

With respect to the cooperation between the Multilateral Fund Secretariat and other relevant conventions or organizations, the Forty-ninth Meeting of the Executive Committee decided to request the Multilateral Fund Secretariat:

(i) to enhance its communication of information to the Executive Committee by adding to its reports on Secretariat activities any known or anticipated requests for information about, or for interactions with, the Multilateral Fund;

(ii) to respond to the request by the Subsidiary Body for Implementation of the United Nations Framework Convention on Climate Change for information on the Multilateral Fund, in line with the information already provided, attaching the full text of Article 10 of the Montreal Protocol.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/1, para. 27 (b)).

The Fifty-first Meeting of the Executive Committee decided to request the Secretariat to transmit any relevant official documents issued by other multilateral environmental agreements, and the Global Environment Facility, to the Executive Committee.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/1 para. 22 (b)).

The Fifty-fourth Meeting of the Executive Committee decided to request the Secretariat to circulate, via e-mail, the draft responses to the requests from the Executive Secretary of the Rotterdam Convention on the Prior Informed Consent Procedure and the Chemicals Branch of UNEP/DTIE on experiences relevant to the Convention and experiences gained in technology transfer or technical support to developing countries, respectively, before issuing them.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/1 para.24 (b)).

The Seventy-first Meeting of the Executive Committee decided:

(b) To request the Secretariat to incorporate into future reports on Secretariat activities an additional section summarizing the advice given by the Secretariat to other bodies and organizations to enable monitoring and to ensure consistency.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/1(b) para.23 (b)).

The Seventy-ninth Meeting of the Executive Committee decided:

(b) To request the Secretariat to include in Annex I to future reports on Secretariat activities a full and comprehensive overview of the status of all discussions with multilateral environment agreements and other relevant organizations, rather than only providing new information;

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/1, para 20)
(Supporting document: UNEP/OzL.Pro/ExCom/79/51).

Implementation of the Montreal Protocol in the light of the Kyoto Protocol

The Tenth Meeting of the Parties decided to request, with a view in particular to assisting the Parties to the Montreal Protocol to assess the implications for the implementation of the Montreal Protocol of the inclusion of HFCs and PFCs in the Kyoto Protocol, the relevant Montreal Protocol bodies, within their areas of competence:

(a) to provide relevant information on HFCs and PFCs to the Secretariat of the Framework Convention on Climate Change by 15 July 1999 in accordance with operative paragraph 1 of the above-mentioned decision;

(b) to convene a workshop with the Intergovernmental Panel on Climate Change which will assist the bodies of the Framework Convention on Climate Change to establish information on available and potential ways and means of limiting emissions of HFCs and PFCs in accordance with operative paragraph 2 of the above-mentioned decision;

(c) to continue to develop information on the full range of existing and potential alternatives to ozone depleting substances for specific uses, including alternatives not listed in Annex A of the Kyoto Protocol;

(d) to otherwise continue to co-operate with the relevant bodies under the United Nations Framework Convention on Climate Change and IPCC on these matters; and

to report to the Open Ended Working Group at its nineteenth meeting and to the Eleventh Meeting of the Parties to the Montreal Protocol on this work.

(UNEP/OzL.Pro.10/9, Decision X/16).

Intergovernmental Panel on Climate Change assessment report on ODS

The Seventeenth Meeting of the Parties decided:

1. to request the Ozone Secretariat to organize an experts workshop in the margins of the twenty-sixth meeting of the Open-ended Working Group in 2006, to consider issues as described in paragraph 3 of the present decision, arising from the special report of the Intergovernmental Panel on Climate Change and the Technology and Economic Assessment Panel and the Technology and Economic Assessment Panel's supplementary report;

2. to request Parties to provide nominations for experts to participate in the workshop to the Ozone Secretariat by 30 March 2006, aiming for a balanced representation from regional groups;
3. to request the Technology and Economic Assessment Panel to present a summary of the reports at the workshop and that experts then produce a list of practical measures relating to ozone depletion that arise from the reports, indicating their associated ozone-depleting substances cost effectiveness and taking into account the full costs of such measures. The list should also contain information on other environmental benefits, including those relating to climate change, that would result from these measures;
4. to request the Ozone Secretariat to produce a report of the workshop to the Parties by 1 September 2006 and report to the Eighteenth Meeting of the Parties;
5. to request the Ozone Secretariat to inform the Secretariat of the United Nations Framework Convention on Climate Change of the workshop and invite its representatives to attend as observers and report back to the United Nations Framework Convention on Climate Change;
6. to request the Technology and Economic Assessment Panel to coordinate with the World Meteorological Organization and the Scientific Assessment Panel to clarify the source of the discrepancy between emissions determined from bottom-up methods and from atmospheric measurement, with a view to:
   (a) identifying the use patterns for the total production forecast for the period 2002–2015 in both Parties operating under paragraph 1 of Article 5 of the Montreal Protocol and Parties not so operating;
   (b) making improved estimates of future emissions from banks, including those in the refrigeration, foams and other sectors, given the accuracy of calculations of the size of banks and the emissions derived from them, as well as servicing practices, and issues relating to recovery and recycling and end-of-life;
7. to request the Technology and Economic Assessment Panel to report to the Parties at their Eighteenth Meeting on the activities referred to in paragraph 6.

(UNEP/OzL.Pro.17/11, Decision XVII/19).

The Eighteenth Meeting of the Parties decided:

1. to request the Technology and Economic Assessment Panel to further assess the measures listed in the report of Ozone Secretariat workshop on the Intergovernmental Panel on Climate Change/Technology and Economic Assessment Panel special report, in the light of current and expected trends of ozone-depleting substance production and consumption and with a focus on hydrochlorofluorocarbons, taking into account timing, feasibility and environmental benefits in Parties operating under Article 5 and Parties not operating under Article 5 of the Protocol;
2. to request the Technology and Economic Assessment Panel to provide information on current and future demand for, and supply of, hydrochlorofluorocarbons, giving full consideration to the influence of the Clean Development Mechanism on hydrochlorofluorocarbon-22 production, as well as on the availability of alternatives to hydrochlorofluorocarbons;
3. to request the Ozone Secretariat to facilitate consultations, as appropriate, by the Technology and Economic Assessment Panel with relevant organizations, namely, the United Nations Framework Convention on Climate Change Secretariat, the Intergovernmental Panel on Climate Change, the Executive Board of Clean Development Mechanism of the Kyoto Protocol, and the secretariat of the Multilateral Fund, to enable the Technology and Economic Assessment Panel to draw on the work already carried out under these organizations, including any work relating to hydrochlorofluorocarbon-22, and consider, in cooperation with the Scientific Assessment Panel, the implications of these findings for the recovery of the ozone layer;
4. to request the Technology and Economic Assessment Panel to report its findings on the issues mentioned in paragraphs 1 and 2 above to the Open-ended Working Group at its twenty-seventh meeting for consideration, with a view to providing a final report to the Nineteenth Meeting of the Parties.

(UNEP/OzL.Pro.18/10, Decision XVIII/12).

International Conference on Chemicals Management

The Forty-ninth Meeting of the Executive Committee decided:

(c) to request the Chair of the Executive Committee to bring to the attention of the Ozone Secretariat, prior to the Eighteenth Meeting of the Parties, the invitation by the first session of the International Conference on

Chemicals Management (ICCM) to the Montreal Protocol and its Multilateral Fund to consider whether and how these might support implementation of appropriate and relevant strategic approach objectives within their mandates and to report to the ICCM; and

(d) to request the Chief Officer of the Multilateral Fund, in her response to the Deputy Executive Director of UNEP, to inform him of the procedure started under subparagraph (c) above.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/1, para. 27 (c, d)).

The Fifty-seventh Meeting of the Executive Committee decided:

(b) to request the Secretariat:

(i) to prepare a report for the second session of the International Conference on Chemical Management (ICCM2), taking into account the guidance provided at the 57th Meeting and the letter sent to the Secretariat of the Rotterdam Convention;

(ii) to circulate the draft report to interested Executive Committee Members and the Chair, by mid-April 2009 for review, before sending it to the Strategic Approach to International Chemicals Management Secretariat in time for the May meeting;

(c) to request the Chief Officer to report back to the Executive Committee at its 58th Meeting on her attendance at ICCM2.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/1, para. 26 (b,c)).

World Summit on Sustainable Development

The Thirty-seventh Meeting of the Executive Committee decided to request the Secretariat to continue to explore the possibility of further participation at the World Summit on Sustainable Development.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/1, para. 22(a)).

Relationship between the Montreal Protocol and the World Trade Organization

The Fourteenth Meeting of the Parties decided:

1. to request the Ozone Secretariat to report to the Parties to the Montreal Protocol on any meetings it attends at the World Trade Organization and any substantive contacts with the World Trade Organization Secretariat and its Committee Secretariats;

2. to request the Secretariat to monitor developments in the negotiations of the World Trade Organization Committee on Trade and Environment in special session and report to the Parties;

3. to further request that the Ozone Secretariat, in coordination with the Multilateral Fund Secretariat, when called upon to provide general advice to the World Trade Organization on trade provisions of the Montreal Protocol and activities of the Multilateral Fund, consult with the Parties of the Montreal Protocol and the Executive Committee before providing this advice. If the Ozone Secretariat is asked for interpretations of the Protocol's trade provisions, the Secretariat should refer the matter to the Parties before providing that advice.

(UNEP/OzL.Pro.14/9, Decision XIV/11).

RECOMMENDATIONS TO THE PARTIES BY THE EXECUTIVE COMMITTEE

The Executive Committee recommended that the Seventh Meeting of the Parties, through the Open-ended Working Group of the Parties at its Eleventh Meeting, should give consideration to the following:

(a) that, as a consequence of active and welcome action within Article 5 countries, there had been a substantial increase in project development and presentation and, therefore, in funding requests;

(b) in this regard, the level of contributions agreed for the 1994-1996 period, was not expected to enable approval in 1995 of a significant proportion of projects that had already been identified by Implementing Agencies and Article 5 countries; and

(c) the current difference between available funds and anticipated project requests could mean that the phase-out efforts of Article 5 countries would be slower than otherwise possible and could also be expected to create a number of other difficulties in smooth implementation of Article 5 ODS phase-out programmes.

(UNEP/OzL.Pro/ExCom/16/20, para. 32h).

FUTURE OF THE MONTREAL PROTOCOL

The Forty-ninth Meeting of the Executive Committee decided to include in the agenda of its 50th Meeting an

item dealing with the preparation of a discussion paper on the issues raised at the 26th Meeting of the Open-Ended Working Group with regard to the future of the Montreal Protocol, as they related to the Multilateral Fund, taking into account the comments made on the issue at the Eighteenth Meeting of the Parties.
(UNEP/OzL.Pro/ExCom/49/43, Decision 49/38, para. 157).

The Fifty-ninth Meeting of the Executive Committee took note of the presentations and agreed that no further discussion was necessary at the current Meeting. Members were urged to present their views to the Ozone Secretariat to assist it in preparing for the open-ended dialogue on the matter.
(UNEP/OzL.Pro/ExCom/50/62, para. 174).

IMPLICATIONS FOR MULTILATERAL FUND INSTITUTIONS IN TERMS OF EXPECTED WORKLOAD IN THE COMING YEARS, INCLUDING IN RELATION TO THE KIGALI AMENDMENT FOR THE PHASE-DOWN OF HFCS

The Eighty-first Meeting of the Executive Committee decided:

(a) To note the overall analysis of the implications for Multilateral Fund institutions in terms of expected workload in the coming years, including in relation to the Kigali Amendment for the phase-down of HFCs (decision 80/34(f)), contained in document UNEP/OzL.Pro/ExCom/81/55;
(b) To request the Secretariat to submit to the 84th meeting an analysis, conducted in consultation with the bilateral and implementing agencies, of the implications of parallel or integrated implementation of HCFC phase-out and HFC phase-down activities, taking into account, inter alia, resource availability and cost-effectiveness and the capacity of Fund institutions and Article 5 countries, especially national ozone units and programme management units; and
(c) To further request the Secretariat to take into account in the analysis relevant partnerships and the engagement of Fund institutions with other institutions, particularly in HFC phase down activities, supported by the Multilateral Fund, in line with the Kigali Amendment.

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/69, para 223)
(Supporting document: UNEP/OzL.Pro/ExCom/81/55).

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note the analysis of the implications of parallel or integrated implementation of HCFC phase-out and HFC phase-down activities contained in document UNEP/OzL.Pro/ExCom/84/65; and
(b) To request the Secretariat:
(i) To prepare an update of the analysis referred to in sub-paragraph (a), above, for the 87th meeting; and
(ii) In light of document UNEP/OzL.Pro/ExCom/84/65, to take into account the opportunities for integrated implementation of the phase-out of HCFC and phase-down of HFCs in the refrigeration servicing sector when developing the document on an analysis of the level and modalities of funding for the HFC phase-down in the refrigeration servicing sector requested by decision 83/65.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/86)
(Supporting document: UNEP/OzL.Pro/ExCom/84/65).

The Eighty-nineth Meeting of the Executive Committee decided:

(a) To note the status of the analysis of the implications of parallel or integrated implementation of HCFC phase-out and HFC phase-down activities contained in document UNEP/OzL.Pro/ExCom/89/5; and
(b) To request the Secretariat to prepare an analysis related to the capacity of the Multilateral Fund institutions to address HFC phase-down, for the consideration of the Executive Committee at its 91st meeting.

(UNEP/OzL.Pro/ExCom/89/16, Decision 89/4)
(Supporting document: UNEP/OzL.Pro/ExCom/89/5).

The Ninety-first Meeting of the Executive Committee decided:

(a) To note the overall analysis related to the capacity of the Multilateral Fund institutions to address HFC phase-down (decision 89/4), contained in document UNEP/OzL.Pro/ExCom/91/67, as a framework for the discussions that would take place under other agenda items and further to the documents submitted under those agenda items; and

(b) To request the Secretariat to continue discussions with the implementing agencies on their perspectives regarding the additional resources needed on the basis of the expected increase in workload associated with HFC phase-down and to consider them in its review of the administrative cost regime of the Multilateral Fund, to be submitted at the 93rd meeting.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/67).
(Supporting document: UNEP/OzL.Pro/ExCom/91/67).

ASSESSMENT OF THE MULTILATERAL FUND BY THE MULTILATERAL ORGANISATION PERFORMANCE ASSESSMENT NETWORK (MOPAN)

The Eighty-ninth Meeting of the Executive Committee decided:

(a) To note document UNEP/OzL.Pro/ExCom/89/2 and the report contained in document UNEP/OzL.Pro/ExCom/89/2/Add.1 which outlined observations and actions proposed by the Secretariat related to the five key areas of improvement identified in the 2019 Assessment of the Multilateral Fund by the Multilateral Organisation Performance Assessment Network (MOPAN);

(b) To request the Senior Monitoring and Evaluation Officer, taking into account the discussions on the matter at part I of the 89th meeting, to include, in the monitoring and evaluation work programme for the year 2023 for consideration by the Executive Committee at its 91st meeting, the actions to enhance the evaluation function outlined in paragraphs 13 to 18 of document UNEP/OzL.Pro/ExCom/89/2/Add.1;

(c) To request the Secretariat, taking into account the discussions on the matter at part I of the 89th meeting:

  (i) To develop a results framework and a scorecard that fit the operations of the Multilateral Fund for consideration by the Executive Committee at its 92nd meeting;

  (ii) To update the information strategy of the Multilateral Fund, to include a detailed plan for information and knowledge management, the website/information technology requirements, the resources needed and clear timelines for implementation and to submit the strategy for consideration by the Executive Committee at the 91st meeting;

  (iii) To explore opportunities to further highlight how the sustainability of activities supported by the Multilateral Fund would be ensured, including by further clarifying in the documents submitted by the Secretariat how partner capacity, risks and critical assumptions were considered, and to report to the Executive Committee at its 91st meeting; and

  (iv) To prepare, for consideration by the Executive Committee at its 91st meeting, a draft management response from the Executive Committee to the Secretariat of MOPAN in relation to its 2019 Assessment of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/89/15, Decision 89/1).
(Supporting document: UNEP/OzL.Pro/ExCom/89/2 & Add.1).

The Ninety-second Meeting of the Executive Committee decided:

(a) To note the information provided relative to a results framework that fits the operations of the Multilateral Fund, contained in document UNEP/OzL.Pro/ExCom/92/52;

(b) To request the Secretariat to develop, for consideration of the Executive Committee at its 93rd meeting, taking into account the discussions of the Executive Committee at its 92nd meeting:

  (i) A revised results framework;

  (ii) A scorecard based on the revised results framework referred to in subparagraph (b)(i) above;

(c) To note the communication tool for the achievements of the Multilateral Fund referred to in document UNEP/OzL.Pro/ExCom/92/53; and

(d) To request the Secretariat to disseminate the communication tool referred to in subparagraph (c) above.

(UNEP/OzL.Pro/ExCom/92/56, Decision 92/41).
(Supporting document: UNEP/OzL.Pro/ExCom/92/52).

Sustainability of Multilateral Fund-Supported Activities

The Ninety-first Meeting of the Executive Committee took note of the report on opportunities to further highlight how the sustainability of activities supported by the Multilateral Fund would be ensured (decision 89/1(c)(iii)) contained in document UNEP/OzL.Pro/ExCom/91/68.

(UNEP/OzL.Pro/ExCom/91/72 paras.275-277)
(Supporting document: UNEP/OzL.Pro/ExCom/91/68).

ANNEX I.1: ACTIONS TO IMPROVE THE FINANCIAL MECHANISM FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL

Action 1

(a) Completion of the development by the Executive Committee of (i) a systematic approach to policy development, (ii) monitoring and evaluation guidelines, bearing in mind that operational responsibility remains with Governments, financial intermediaries or the Implementing Agencies, (iii) project templates for all sectors, with a view to having a project evaluation system in place by the end of 1995.

(b) The Executive Committee to examine the integration of Agencies' and Secretariat's project review activities no later than six months after it has concluded that the preconditions for increased delegation set out in the recommendations in paragraphs 90 and 91 have been met.

(c) Further delegation by the Executive Committee in due course, with a view to achieving appropriate delegation on over time.

(d) Evaluation of the Small Project Approval Process (SPAP) by the Executive Committee on completion of the current project group.

Action 2

(a) The Executive Committee to develop and take decisions on policy issues already identified, so that a satisfactory number of such issues have been clearly addressed by late 1996. New policy issues are likely to continue to emerge, but would be dealt with more expeditiously with refined administrative processes.

(b) A list of foreseeable policy issues to be drafted by the Executive Committee with the help of the Implementing Agencies and the Fund Secretariat over the next two meetings.

(c) The Fund Secretariat and designated consortia of Implementing Agencies to produce consensus options for consideration by the Executive Committee.

(d) Decisions proposed for the consideration of the Executive Committee should clearly indicate the implications for project proposals if the decisions were to be adopted.

Action 3

The Committee members should normally refrain from speaking on projects in which they have a direct interest. However, this should not apply to projects which present policy issues, on which the Chair may invite all members to speak, in order to expedite consideration of such projects. It should be evident from records of Meetings of the Executive Committee that all projects are given equal treatment by the Committee.

Action 4

The Executive Committee should oversee the completion by the Implementing Agencies and the Secretariat, jointly, by the end of 1995 of a comprehensive, integrated database common to all agencies and the Secretariat, in conjunction with the completion of standard project outlines (templates), with a view to achieving a decrease in the number of projects undergoing substantial revision or reduction in proposed project costs due to the project review process and review the database in mid-1996.

Action 5

(a) The Executive Committee should examine the effectiveness of its policy dissemination procedures in early 1996. The procedures should include the provision of practical examples of the application of policy decisions, with a view to reducing the extent of project revision during the review process, and also examine the degree to which national ozone protection units and consultants consider they have sufficient information to guide project development.

(b) The Executive Committee should develop operational guidelines for agencies and their consultants.

(c) The Executive Committee should consider a report on incremental costs for the production of CFC-substitutes and establish firm compensation policies with a view to completing incremental cost guidelines for the production of CFC-substitutes by mid-1996.

Action 6

The Executive Committee should evaluate the regime adopted for 1995, taking into account the study's

recommendations, including the recommendation that: "Cost-effectiveness norms should be prepared based on model projects of different capacities under standard conditions. Thereafter, projects should be assessed on their own merits." Nonetheless, all eligible projects shall continue to be funded overtime irrespective of their relative cost-effectiveness. In case of delayed funding, however, lump-sum payments could be considered.

Action 7

(a) Relevant Implementing Agencies should review institutional strengthening experiences and present a combined paper to the Executive Committee, which will include guidelines on the possible proportionate commitment of Article 5 countries in such areas as financial, organizational and human resource support, with a view to enhancing the effectiveness of ODS phase-out strategies.

(b) Institutional strengthening could include, at the request of Article 5 countries, assistance to meet their country programme goals relative to laws and regulations.

Action 8

The Executive Committee should select a lead Agency to prepare the framework for a policy dialogue with Article 5 countries by the end of 1996, with a view to enhancing regulatory support to ODS phase-out in Article 5 countries.

Action 9

The Executive Committee should request a lead Implementing Agency, with the other Agencies and the Secretariat, to further develop, as appropriate, the guidelines for country programmes, taking into account these recommendations, with a view to the adoption by the Executive Committee of revised guidelines. The Executive Committee will consider these guidelines in the light of its experience to date taking into account, as appropriate, the sectoral approach to technology transfer. However, approval of eligible projects should not be made contingent upon revision of country programmes. Any revision of the country programme would be at the request of the Party concerned.

Action 10

The study by the World Bank on the establishment of a concessional loan mechanism, requested by the Executive Committee at its Sixteenth Meeting, should be completed as soon as possible, and analyzed and discussed by the Executive Committee at its Nineteenth Meeting, and a decision on suitable future steps be taken by the Executive Committee by its Twentieth Meeting or by the Meeting of the Parties in 1996, as appropriate, with a view to starting the use of concessional loans by the end of 1996, to the extent that the need and demand exist.

Action 11

The Executive Committee should examine the issue of industrial consolidation, taking into account national industrial strategies of Article 5 countries, with a view to achieving more effective approaches to ODS phase-out.

Action 12

Noting that the Executive Committee approved funding for Latin American and African Networks, the Executive Committee should review the existing similar networks and establish new networks, as appropriate.

Action 13

The Implementing Agencies should report to the Executive Committee on measures to include ODS phase-out issues into their ongoing dialogue on development programming and on measures they could to take to mobilize non-Fund resources in support of Montreal Protocol objectives, with a view to achieving an increase in the number of ozone-protection projects.

Action 14

The Executive Committee should consider the need for new Implementing Agencies for loan programmes in the light of emerging sectoral strategy policies and for methyl bromide after the Seventh Meeting of the Parties.

Action 15

The Executive Committee should urge the Article 5 countries concerned to select Implementing Agencies and mode of implementation keeping in mind the need to implement projects without delay.

Action 16

The World Bank should report on the training and incentive structure and, at its Nineteenth Meeting, the Executive Committee should consider this report and the relationship of the costs of training to total overhead costs, in order to ensure that the Executive Committee is fully informed about the role, resourcing and effectiveness of Financial Intermediaries.

Action 17

The Executive Committee should request each Implementing Agency to report, as and when the issue arises, on legal and institutional impediments to project implementation and measures taken to address them as soon as possible.

Action 18

(a) The World Bank and all other institutions associated with the Financial Mechanism should propose measures to assist UNEP in collecting contributions in arrears.

(b) The World Bank should review with UNEP the processes for acceptance of promissory notes.

Action 19

The Executive Committee should monitor the extent to which the available bilateral component is utilized.

Action 20

The Executive Committee should pay attention to training directly related to investment projects and consider training of technical experts from Article 5 countries, especially when addressing the needs of small-ODS users. Where the Fund supports eligible projects of research to adapt technology to local circumstances, it should encourage the involvement of Article 5 country technical experts in the discussions of technical options, and the effective involvement of local experts in field missions.

Action 21

(a) The Executive Committee should prepare an itemized progress report on measures taken so far, in the context of Article 10 of the Protocol, to establish a mechanism specifically for the transfer of technology and the technical know-how at fair and most favorable conditions necessary to phase-out ozone-depleting substances; and at the same time.

(b) The Executive Committee should request UNEP to intensify its efforts to collect information from relevant sources, and to prepare an inventory and assessment of environmentally sound and economically viable technologies and know-how conducive to phase-out of ozone-depleting substances. This inventory should also include an elaboration of terms under which transfers of such technologies and know-how could take place.

(c) The Executive Committee should consider what steps can practicably be taken to eliminate any impediments in the international flow of technology.

(d) The Executive Committee should further elaborate the issue of the eligible incremental costs of technology transfer, including costs of patents and designs and the incremental costs of royalties as negotiated by the recipient enterprises.

The actions in subparagraphs (a), (b) and (c) should be completed by its Nineteenth Meeting and updated periodically, and the action in subparagraph (d) should be taken immediately.
(UNEP/OzL.Pro.7/12, Annex V).

ANNEX I.2: TERMS OF REFERENCE FOR THE STUDY ON THE MANAGEMENT OF THE FINANCIAL MECHANISM OF THE MONTREAL PROTOCOL

Preamble

1. The financial mechanism was established by Article 10 of the Montreal Protocol to provide financial and technical cooperation to Parties operating under paragraph 1 of article 5 to enable their compliance with the control measures set out in articles 2A-2E and 2I, as well as any control measures contained in Articles 2F-2H, that are decided pursuant to paragraph 1 bis of Article 5. The mechanism includes a multilateral fund, financed by contributions from Parties not operating under paragraph 1 of Article 5. An executive committee was established by the Parties to develop and monitor the implementation of specific operational policies, guidelines and administrative arrangements, including the disbursement of resources for the purpose of achieving the objectives of the Multilateral Fund. A secretariat assists the Executive Committee in the discharge of its functions. The assistance activities requested by parties operating under paragraph 1 of Article 5 approved by the Executive Committee and funded by the Multilateral Fund are implemented by four multilateral Implementing Agencies (the United Nations Development Programme, the United Nations Environment Programme, the United Nations Industrial Development Organization and the World Bank) and also by bilateral agencies as agreed in decision II/8.

2. The Fourth Meeting of the Parties, which established the Multilateral Fund on a permanent basis, recognized the need to review periodically the operation of the financial mechanism in order to ensure maximum effectiveness in addressing the goals of the Montreal Protocol. Accordingly, in decision IV/18, the Parties requested an evaluation study, which was carried out in 1995. Based on the results of that study, the seventh Meeting of the Parties adopted Decision VII/22, in which they decided:

(a) to request the Executive Committee to consider innovative mobilization of existing and additional resources in support of the objectives of the Protocol and any further action by the end of 1996 and to report thereon to the eighth Meeting of the Parties;

(b) that the actions set out in annex V to the report of the seventh Meeting of the Parties should be taken to improve the functioning of the financial mechanism.

Purpose

3. Recognizing that more than five years after that first study it was appropriate to evaluate and review the financial mechanism, the Thirteenth Meeting of the Parties decided in its decision XIII/3:

(a) to evaluate and review, by 2004, the financial mechanism established by Article 10 of the Montreal Protocol with a view to ensuring its consistent, effective functioning in meeting the needs of Article 5 Parties and non-Article 5 Parties in accordance with Article 10 of the Protocol and to launch a process for an external, independent study in that regard to be made available to the Sixteenth Meeting of the Parties;

(b) that the study should focus on the management of the financial mechanism of the Montreal Protocol;

(c) that the terms of reference and modalities of the study should be submitted to the fifteenth Meeting of the Parties;

(d) to consider the necessity to launch such an evaluation on a periodic basis;

(e) to request the existing evaluation mechanism in place within the United Nations system to provide the Meeting of the Parties, for its consideration, with any relevant findings on the management of the financial mechanism of the Montreal Protocol at any time such findings are available.

Scope

4. In carrying out the study, the consultant should consider the management of the financial mechanism of the Montreal Protocol as follows:

(a) Executive Committee decision-making process:

(i) review of the adequacy of planning and implementation process of activities to ensure compliance;

(ii) the adequacy of information presented to the Executive Committee to enable it to take decisions on projects and policies;

(iii) coherence and effectiveness in project review process;

(iv) cost-effectiveness of approved ODS phase-out projects and programmes;

(v) effectiveness and cost of the administrative organization of the Executive Committee, including the structure and functions of the Subcommittee for Project Review and the Subcommittee for Monitoring, Evaluation and Finance and their role in the Executive Committee. This should include analysis of options for management in the future, given implementation of the new country driven and compliance-focused programme;

(vi) assessment of the necessary level of confidentiality of the Executive Committee meeting documentation, bearing in mind the interest of project proponents;

(vii) use of performance indicators;

(b) Multilateral Fund secretariat activities:

(i) appraisal of the efficiency and effectiveness of the review process of ODS phase-out projects and programmes with respect to the goals of the Montreal Protocol and decisions of the Meetings of the Parties;

(ii) monitoring the efficiency of the implementation of projects and programmes, in particular the monitoring and management of fund transfer and disbursement;

(iii) adequacy and comprehensiveness of the information provided to the Executive Committee on the financial reports submitted for the Executive Committee's consideration;

(c) activities implemented by multilateral and bilateral Implementing Agencies:

(i) review of the adequacy in identifying plans and projects to assist national compliance with the Montreal Protocol;

(ii) evaluation of the fund management and disbursement policy of each Implementing Agency;

(iii) investment strategy of cash advances;

(iv) assessment of the use of the administrative costs, with special consideration to smaller versus larger projects;

(v) cost-effectiveness of each agency, taking separately into account the investment projects and other activities (institutional support, ODS officer network management, etc.)

(vi) assessment of the proportion of approved funds between investment and non investment projects in the different agencies;

(vii) adequacy and effectiveness of fund disbursements, and fund disbursement management, including reporting to the Multilateral Fund secretariat;

(viii) additional costs for the Multilateral Fund, if any, of overlapping activities between agencies;

(d) Fund management:

(i) assessment of past experience of fund management as performed by the Treasurer;

(ii) comparison with management and financial practices of other funds (Global Environment Facility, development banks) as benchmarks;

(e) additional matters:

(i) adequacy of the interaction between the Implementing Agencies, the Multilateral Fund secretariat and relevant subsidiary bodies;

(ii) analysis and reconciliation of financial data from different sources (Treasurer, Implementing Agencies, Multilateral Fund secretariat accounts and audited United Nations Environment Programme Fund accounts);

(iii) performance of donor countries in fulfilling their obligation vis-à-vis the Multilateral Fund.

Conclusions and recommendations

5. In carrying out the study, the consultant(s) will identify the strengths, weaknesses, opportunities and threats and, where relevant, make recommendations suggesting possible improvements. The study will include a general

overall review of the achievements of the Fund in phasing out controlled substances and in enabling the compliance of Article 5 Parties with the Montreal Protocol.

Source of information for the evaluation

6. The Ozone Secretariat, the Executive Committee, the Treasurer, the Multilateral Fund Secretariat, the Implementing Agencies (multilateral and bilateral), ozone offices, recipient countries and companies and non-Article 5 Parties are invited to cooperate with the consultant(s) and to provide all necessary information. The report should take into account the relevant decisions of the Meetings of the Parties and the Executive Committee.

7. The consultant(s) should consult widely with relevant persons and institutions and other relevant sources of information deemed useful.

8. The following table presents tentative milestones for the study.

November 2003	Approval of the terms of reference by the Fifteenth Meeting of the Parties
	Selection of a panel
December 2003	Finalization of the procedure for the selection of qualified external and independent consultant(s)
	Analysis of bids by the Ozone Secretariat and recommendation to the steering panel
	Independent consultant(s) selected by the panel
	Contract awarded
January 2004	Independent consultant(s) meet with the steering panel to discuss study modalities and details
May 2004	Mid-term review/preliminary draft report review by the steering panel
Mid-June	First draft report submitted to the Open-ended Working Group at its Twenty-fourth meeting
November 2004	Submission to the Sixteenth Meeting of the Parties

(UNEP/OzL.Pro.15/9, Decision XV/47, and Annex V).

ANNEX I.3: PRELIMINARY ASSESSMENT OF THE FINANCIAL MECHANISM OF THE MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL

General recommendation	Considered Yes	Considered No	Implem. Ongoing	Time to implement Short	Time to implement Medium	Time to implement Long	Recommended action
General recommendations							
1. Make further structural changes to the ExCom, if necessary to specifically address compliance.	X		X				
2. Continue to evaluate ExCom structure and consider reduction of annual meeting numbers.	X		X				
Technical Recommendations							
3. Develop a primer to provide background on the Fund for new ExCom members.	X			X			
4. Ensure that results of review of project implementation delay are not only applied to determine project cancellation, monitoring, or removal from the list of delays, but also to inform IAs of how to avoid future delays.	X			X			
5. Request the Secretariat to take action to develop prescriptive approaches to address project implementation delays.	X		X				
6. Build on Decision 40/19 and the subsequent report submitted by UNEP (UNEP/OzL.pro/ExCom/41/Inf.2) to assist countries that consume very low quantities of methyl bromide, CTC, and methyl chloroform.	X		X				
7. Continue to collaborate with the Secretariat and IAs to maintain effectiveness in dealing with issues of project overlap, ineligible funding, and inflated costs.	X		X				
8. Reclassify ExCom meeting documentation as general distribution.	X			X			
9. Extend performance indicators to bilateral Implementing Agencies.	X				X		
10. Add performance indicators to address project identification.	X				X		
11. Increase the weighting of the performance indicator "ODS phased-out for individual projects vs. those planned per progress reports."	X				X		
12. Continue process of developing qualitative indicators.	X		X				
13. Share results of performance evaluations with upper management of IA.	X		X				
14. Eliminate selected administrative indicators if relevant administrative problems are resolved.	X			X			
15. Increase efforts to improve country level data reporting.	X		X				
16. Continue efforts to reduce/avoid project implementation delays.	X		X				Obvious
Financial recommendations							
17. Increase communication between IAs and the Treasurer when promissory notes are transferred, received and encashed.	X		X				
18. Continue to maximize proportion of budget spent on implementation and minimize proportion of budget spent on core components.	X		X				
19. Request IAs to explain significant increases in their core budget expenses.	X		X				Obvious
20. Conduct a study regarding the efficiency of IA administration of smaller projects.	X				X		
21. Monitor the use of funds for non investment versus investment activities within national or sectoral phase out plans.	X		X				

General recommendation	Considered		Implem.	Ongoing	Time to implement			Recommended action
	Yes	No			Short	Medium	Long	
22. Provide in Table 1 of the status report on contributions and disbursements the incremental income, allocations and provisions, and balance available for new allocations, in addition to the cumulative totals of these financial components.	X		X					
23. Document the internal procedures and practices of the Treasurer.	X			X				
24. Take action to encourage timely payment by the donor countries.	X			X				
25. Implement internal quality control measures to improve the accuracy of recordkeeping.	X			X				
26. Clarify how, when, and what financial data should be accounted and reported by IAs.	X				X			
27. Consider engaging an independent auditor to assist with account reconciliation if financial discrepancies persist.		X						Has not been necessary, un auditing system if necessary
28. Continue to analyse the FERM's effect on Fund value.		X						Cannot be addressed by the excom, should be addressed by the parties

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/60, para. 251).

ANNEX I.4: ASSESSMENT REPORT ON THE RECOMMENDATIONS IN THE 2004 EVALUATION AND REVIEW OF THE FINANCIAL MECHANISM OF THE MONTREAL PROTOCOL

Report of the Executive Committee

1. As requested by decision XVI/36 of the Sixteenth Meeting of the Parties, the Executive Committee has reviewed the general recommendations made by the Consultant and submits the following report for the consideration of the Meeting of the Parties.

2. After the deliberation at its 45th Meeting, the Executive Committee considers that 11 general recommendations are related to ongoing activities of the Executive Committee, the Secretariat, the Implementing Agencies and the Treasurer and do not need any new action, but instead require regular follow-up at meetings of the Committee. The Executive Committee will report back to the Meeting of the Parties on these recommendations, as appropriate, in the context of its Annual Report.

3. Ten general recommendations are related to ongoing activities of the Executive Committee, the Secretariat, the Implementing Agencies and the Treasurer but may require new actions in the short term. The Executive Committee will report back to the Meeting of the Parties on these recommendations, as appropriate, in the context of its Annual Report.

4. Seven general recommendations were considered not necessary to be implemented. Six because future action would be redundant in the light of recent developments or existing practices. One because of the potential negative incentive. The Executive Committee considers that there is no need for further reporting on these recommendations.

5. The general recommendations that correspond to the previous three paragraphs of this chapeau are:

Category	General Recommendation Numbers
PARAGRAPH 2	2, 6, 7, 15, 16, 18, 21, 22, 24, 25, 28
PARAGRAPH 3	1, 3, 4, 9, 11, 12, 17, 20, 23, 26
PARAGRAPH 4	5, 8, 10, 13, 14, 19, 27

GENERAL RECOMMENDATION 1: Make further structural changes to the Executive Committee, if necessary to specifically address compliance. The Executive Committee felt that there was no need for a structural change to the Executive Committee to address compliance as this was being addressed under the existing structure through planning, monitoring, and funding activities. In addition, the Committee at its 45th Meeting decided to consider at its 46th Meeting a process for intersessional approval that might expedite project approval for new Parties and Parties in non-compliance or at risk of non-compliance. The Executive Committee will continue to consider further structural changes if necessary for compliance and report to the Parties as appropriate on any new developments.

GENERAL RECOMMENDATION 2: Continue to evaluate Executive Committee structure and consider reduction of annual meeting numbers. The Executive Committee considered structural changes to the Executive Committee including the reduction in the annual number of meetings and an intersessional approval process that were discussed at the 44th and 45th Meetings. At its 45th Meeting, the Committee decided to continue to meet three times each year due to the current workload of the Committee. The Executive Committee will continue to evaluate its structure and report to the Parties as appropriate on any new developments.

GENERAL RECOMMENDATION 3: Develop a primer to provide background on the Fund for new Executive Committee members. After considering this issue, the Executive Committee requested the Secretariat to prepare a draft outline of an Executive Committee primer for consideration at the 46th Meeting of the Executive Committee with the aim of a draft primer being presented to the 47th Meeting. The primer would be a living document and would therefore be updated. The Executive Committee will report the completion of the first primer to the Meeting of the Parties and provide copies to all Parties.

GENERAL RECOMMENDATION 4: Ensure that results of review of project implementation delay are not only applied to determine project cancellation, monitoring, or removal from the list of delays, but also to inform implementing agencies of how to avoid future delays. After considering this issue, the Executive Committee requested the implementing agencies to provide information on how to avoid future delays as part of a lessons

learned document to be considered at the 46th Meeting of the Executive Committee. The Executive Committee will update the Parties on its future decision and report subsequently, as appropriate.

GENERAL RECOMMENDATION 5: Request the Secretariat to take action to develop prescriptive approaches to address project implementation delays. Although the recommendation includes a request to the Secretariat, the Executive Committee felt that it was responsible for taking such actions instead of the Secretariat. Moreover, the Executive Committee has prescriptive approaches to avoiding delays currently in place and under enforcement. Prescriptive approaches are enforced to address project implementation delays primarily through the process of monitoring such projects at each meeting and other decisions related to reasons for delays such as delays due to counterpart funding and customs clearance. In view of these facts, the Committee felt that this recommendation should not be implemented as stated but was being implemented by the Committee.

GENERAL RECOMMENDATION 6: Build on decision 40/19 and the subsequent report submitted by UNEP (UNEP/OzL.pro/ExCom/41/Inf.2) to assist countries that consume very low quantities of methyl bromide, CTC, and methyl chloroform. At its 45th Meeting, the Executive Committee endorsed business plans and approved work programmes that included projects for countries with very low consumption of methyl bromide, CTC and methyl chloroform. It adopted guidelines for CTC and methyl chloroform projects for countries with baselines of 2 ODP tonnes and lower. Guidelines already exist for addressing low-volume countries consuming very low quantities of methyl bromide. The Executive Committee will continue to report as appropriate on the extent to which it assists countries with very low quantities of these substances.

GENERAL RECOMMENDATION 7: Continue to collaborate with the Secretariat and implementing agencies to maintain effectiveness in dealing with issues of project overlap, ineligible funding, and inflated costs. The Secretariat and bilateral and implementing agencies meet annually to avoid project overlap and any potential overlaps are brought to the attention of the Executive Committee in the context of annual business plans. As well, the Secretariat brings cases of ineligible funding and inflated costs to the attention of the Executive Committee at every meeting. As suggested by the recommendation, the Executive Committee will continue to collaborate to avoid project overlaps, ineligible funding and inflated costs and would report to the Parties on any new developments as appropriate.

GENERAL RECOMMENDATION 8: Reclassify Executive Committee meeting documentation as general distribution. The Executive Committee decided that from the 46th Meeting onwards pre-session documents would be classified as General Distribution while restricting access to any project document that a Party had requested to be classified as such until the Committee's consideration of the matter.

The Executive Committee also requested that the Secretariat publish all documents starting from the 46th Meeting on the web site in the languages produced for the meetings pursuant to decision II/8. Since the Committee has agreed to reclassify its meeting documentation as general distribution unless restricted at the request of a Party, the Executive Committee felt that the recommendation was implemented.

GENERAL RECOMMENDATION 9: Extend performance indicators to bilateral implementing agencies. After considering this issue, the Executive Committee requested the Secretariat to prepare a paper addressing the feasibility and desirability of extending the current and proposed performance indicators (see general recommendation 12) to bilateral implementing agencies for submission to the 46th Meeting of the Executive Committee. Based on the decision at the 45th Meeting, the Executive Committee considered this matter ongoing to be completed in the short term with the results to be reported back to the Parties.

GENERAL RECOMMENDATION 10: Add performance indicators to address project identification. Based on its consideration of this issue at the 45th Meeting, the Executive Committee considered that this recommendation should not be implemented, as project development or identification are tied to compliance needs and are coordinated effectively by the agencies and the Secretariat.

GENERAL RECOMMENDATION 11: Increase the weighting of the performance indicator "ODS phased-out for individual projects versus those planned per progress reports". Based on the discussion at its 45th Meeting, the Executive Committee decided to consider at its 46th Meeting whether a further review of the weighting of the quantitative performance indicators is warranted based on their application in the Evaluation of the Implementing Agencies' 2004 Business Plans to be submitted to the 46th Meeting. In the light of this decision, the Executive Committee considered this matter to be ongoing for completion in the short term with results to be reported back to the Parties.

GENERAL RECOMMENDATION 12: Continue process of developing qualitative indicators. Pursuant to decision 44/6, National Ozone Units have been given an opportunity to consider proposed qualitative performance indicators that were developed by the Committee at its 44th Meeting. The results of their consideration of the matter will be submitted to the 46th Meeting. The Executive Committee considered this matter to be ongoing for completion in the short term with the results to be reported back to the Parties.

GENERAL RECOMMENDATION 13: Share results of performance evaluations with upper management of implementing agencies. Based on the discussion at its 45th Meeting, the Executive Committee believed that it had the ability to share such evaluations with upper management or others when it felt that such an approach was warranted, as it had done at its 32nd Meeting. Therefore, it considered that the recommendation should not be implemented on a regular basis, but implemented as needed.

GENERAL RECOMMENDATION 14: Eliminate selected administrative indicators if relevant administrative problems are resolved. Based on the discussion at its 45th Meeting, the Executive Committee believed that the elimination of these indicators might encourage poorer performance. Therefore, it considered that the recommendation should not be implemented.

GENERAL RECOMMENDATION 15: Increase efforts to improve country-level data reporting. The Executive Committee continues to seek improvements in data reporting by supporting institutional strengthening projects and UNEP's Compliance Assistance Programme. It should be noted that 2003 data reporting was excellent, with only a very few countries not reporting in time. Nevertheless, the Executive Committee would continue to seek improvement in country level data reporting and report back to the Meeting of the Parties as appropriate.

GENERAL RECOMMENDATION 16: Continue efforts to reduce/avoid project implementation delays. The Executive Committee considered that the past and ongoing efforts to reduce/avoid implementation delays were being effectively implemented through the effort of the agencies and the Secretariat. The Executive Committee would, however, continue its efforts to reduce delays and report back to the Parties as appropriate.

GENERAL RECOMMENDATION 17: Increase communication between implementing agencies and the Treasurer when promissory notes are transferred, received and encashed. After having considered this matter, the Executive Committee decided to request the Treasurer to circulate to the Secretariat and implementing agencies prior to each Executive Committee meeting a ledger indicating when promissory notes are transferred, received and encashed. The Executive Committee will report back to the Meeting of the Parties on the implementation of the reporting mechanism for promissory notes and would continue to report as appropriate on its efforts to increase communication between the agencies and the Treasurer.

GENERAL RECOMMENDATION 18: Continue to maximize proportion of budget spent on implementation and minimize proportion of budget spent on core components. The Executive Committee determined that this recommendation was being implemented on an ongoing basis through the annual review of the core unit costs and that it would continue to report to the Parties on this matter as appropriate.

GENERAL RECOMMENDATION 19: Request implementing agencies to explain significant increases in their core budget expenses. At its 44th Meeting, the Executive Committee requested implementing agencies to provide more in-depth information on their administrative costs in the context of the required annual review of such costs. The Committee requested this information in order to *inter alia* understand all core budget expenses including those cases where there may have been a significant increase. Since the Committee has already requested this information, the Committee considered that this recommendation had been implemented.

GENERAL RECOMMENDATION 20: Conduct a study regarding the efficiency of implementing agency administration of smaller projects. The Executive Committee was of the view that this issue was partially addressed in the context of the post-2007 RMP review. An Administrative costs study will be submitted to the 46th Meeting. The Executive Committee will report back to the Meeting of the Parties on any new action it might take at its 46th Meeting and report subsequently if needed.

GENERAL RECOMMENDATION 21: Monitor the use of funds for non-investment versus investment activities within national or sector phase-out plans. The Executive Committee monitors the use of all funds for all activities in national and sector phase-out plans. The Committee will continue to monitor the use of all funds and report back to the Meeting of the Parties as appropriate.

GENERAL RECOMMENDATION 22: Provide in Table 1 of the status report on contributions and disbursements the incremental income, allocations and provisions, and balance available for new allocations, in addition to the cumulative totals of these financial components. The Executive Committee agreed that Table 1 of the status report on contributions and disbursements contains the information requested in this recommendation. The Committee would continue to report on this matter as appropriate.

GENERAL RECOMMENDATION 23: Document the internal procedures and practices of the Treasurer. After considering the issue of documenting the internal procedures and practices of the Treasurer, the Executive Committee decided at its 45th Meeting to request the Treasurer to report on final progress in this regard to the 46th Meeting. The Executive Committee will report back to the Parties once the internal procedures and practices of the Treasurer had been documented and would report subsequently as appropriate.

GENERAL RECOMMENDATION 24: Take action to encourage timely payment by the donor countries. The Executive Committee will continue to take action to encourage timely payment by donor countries and will continue to report to the Parties on any actions that it might take as appropriate.

GENERAL RECOMMENDATION 25: Implement internal quality control measures to improve the accuracy of recordkeeping. After considering the issue of internal quality control, the Executive Committee decided at its 45th Meeting to request the Treasurer to provide a detailed report once each year, and interim reports at other times as appropriate, on quality control measures to improve the accuracy of recordkeeping. The Executive Committee considered this recommendation as ongoing and would report to the Parties as appropriate.

GENERAL RECOMMENDATION 26: Clarify how, when, and what financial data should be accounted and reported by implementing agencies. After considering the report of the workshop on common terminology and procedures for the reconciliation of accounts, the Executive Committee found that the roles of the agencies in terms of data reporting had been clarified. Agreements between the Treasurer and each agency were under development, and the Secretariat in cooperation with the Treasurer and the Implementing Agencies intended to produce a primer to clarify how, when and what financial data should be accounted and reported by implementing agencies. The Executive Committee would report back to the Parties when these agreements were in place and when the primer had been developed. The Committee would report to a subsequent Meeting of the Parties as appropriate.

GENERAL RECOMMENDATION 27: Consider engaging an independent auditor to assist with account reconciliation if financial discrepancies persist. Since any audit of United Nations agencies, when necessary, has to be conducted under UN financial rules, the Executive Committee was of the view that this recommendation could not be implemented.

GENERAL RECOMMENDATION 28: Continue to analyze the FERM's effect on Fund value. At its 44th Meeting, the Committee noted that in Annex XIX to the report, the issue of FERM was a matter for decision by the Meeting of the Parties. After its review at the 45th Meeting, the Committee noted that the impact of the FERM on the value of resources available to the Fund was monitored by the Treasurer as part of his report on the Status of Contributions and Disbursements to each meeting of the Executive Committee. The Executive Committee would continue analyzing FERM and report to the Parties as appropriate.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/59, para. 193).

(Supporting document: UNEP/OzL.Pro/ExCom/45/59 Annex XVII).

ANNEX I.5: TERMS OF REFERENCE FOR AN EVALUATION OF THE FINANCIAL MECHANISM OF THE MONTREAL PROTOCOL

A. Preamble

1. The achievements of the financial mechanism of the Montreal Protocol have often been recognized by the international community, and there is no doubt that the mechanism is both a cornerstone of the Protocol and an outstanding example of multilateral cooperation. Indeed, by the end of 2009 the Multilateral Fund had approved projects to phase out the consumption and production of about 458,000 ozone depleting potential (ODP) tonnes of ozone-depleting substances in developing countries, and over 85 per cent of this amount had already been phased out. As a result of those activities, nearly all parties operating under paragraph 1 of Article 5 of the Protocol are in compliance with their obligations under the Protocol, while most of their consumption and production of ozone depleting substances, except for hydrochlorofluorocarbons (HCFCs), has been eliminated.

2. The financial mechanism was established by Article 10 of the Montreal Protocol to provide financial and technical cooperation to parties operating under paragraph 1 of Article 5 to enable their compliance with the Protocol's control measures. The Fourth Meeting of the Parties to the Montreal Protocol recognized the need to review periodically the operation of the financial mechanism to ensure maximum effectiveness in pursuing the goals of the Montreal Protocol. Since its inception in 1991, the mechanism, which includes the Multilateral Fund, an Executive Committee, a Secretariat and implementing and bilateral agencies, has been evaluated twice by the parties, in 1994–1995 and 2003 2004.

3. The year 2010 is a landmark year in the history of both the Montreal Protocol and the financial mechanism, as virtually all remaining production and consumption of chlorofluorocarbons (CFCs), halons and carbon tetrachloride was to be phased out by 1 January 2010. In the light of this major milestone, it is particularly timely for the parties to the Protocol to take a retrospective look at the achievements of the financial mechanism, the challenges that it has faced, the manner in which they have been addressed and the lessons that have been learned, with a view to ensuring that the mechanism is well placed to address the challenges of the future effectively. Those challenges include phasing out HCFCs and the remaining consumption of methyl bromide and implementing ozone depleting substance destruction pilot projects.

B. Purpose

4. In the light of the above, and considering that it has been more than five years since the last evaluation was conducted, the Twenty-Second Meeting of the Parties decided that it was appropriate to evaluate and review the financial mechanism with a view to ensuring its effective functioning in meeting the needs of parties operating under paragraph 1 of Article 5 and parties not so operating in accordance with Article 10 of the Protocol. The study should be based on the present terms of reference, defined by the scope described below and carried out by an independent evaluator and completed by May 2012, in time for consideration by the Open ended Working Group of the Parties to the Montreal Protocol at its thirty second meeting.

C. Scope

5. In carrying out the study, the evaluator should consider the results, policy framework, organizational structure and lessons learned associated with the financial mechanism as follows:

(a) Results of the financial mechanism:

(i) Extent to which both investment and non-investment projects approved under the Multilateral Fund have contributed to phasing out ozone-depleting substances in parties operating under paragraph 1 of Article 5 in accordance with Montreal Protocol compliance targets;

(ii) Total reductions of ozone-depleting substances in ODP-tonnes and metric tonnes resulting from Multilateral Fund activities;

(iii) Analysis of other environmental and health co-benefits, including climate benefits, as well as adverse effects resulting from activities funded by the Multilateral Fund to phase out ozone-depleting substances;

(iv) Comparison of ozone-depleting substance phase-out planned in approved projects and ozone depleting substance phase-out achieved;

(v) Comparison of planned cost-effectiveness of approved projects and actual cost effectiveness;

(vi) Comparison of planned project implementation time and implementation time achieved;

(vii) Effectiveness of capacity-building provided, including institutional strengthening and compliance assistance;

(b) Policies and procedures:

(i) Effectiveness of timing between meetings, submission deadlines and reporting deadlines;

(ii) Effectiveness, consistency and efficiency of procedures and practices to develop, review and approve project proposals under the Multilateral Fund;

(iii) Ability of the project and activity planning and implementation process to ensure compliance;

(iv) Effectiveness and efficiency of monitoring, reporting procedures and practices;

(v) Ability and efficiency of internal evaluation and verification mechanisms to monitor and confirm results, including an analysis of existing databases;

(vi) Extent to which policies and procedures are adapted or improved based on experiences and relevant circumstances;

(c) Other issues:

(i) Review of the distribution of funding among regions where parties operating under paragraph 1 of Article 5 are located, as well as between low volume consuming countries and non-low-volume consuming countries;

(ii) Extent to which programmes and projects approved under the financial mechanism have facilitated the implementation of the technology transfer provisions under Articles 10 and 10A of the Montreal Protocol and related decisions of the Parties, taking into account the geographical origin by region of technology provided in a representative sample of projects;

(d) Lessons learned:

(i) Lessons learned in view of the future challenges of the Montreal Protocol and the Multilateral Fund;

(ii) Lessons learned from other international environmental institutions and agreements.

D. Form and presentation of the study

6. The study shall be presented using a practical, easy-to-use and easy-to-read layout, and should include a comprehensive summary for policymakers of some 30 pages and a detailed index followed by the body of the study and its annexes.

E. Conclusions and recommendations

7. In carrying out the study, the evaluator will identify the strengths, weaknesses, opportunities and threats associated with the financial mechanism and, where relevant, make recommendations suggesting possible improvements with regard to: results achieved; organizational effectiveness and decision-making processes; effectiveness of technology transfer; information dissemination and capacity-building activities; cooperation with other organizations; and any other area of particular relevance.

F. Sources of information

8. The Multilateral Fund Secretariat, the Ozone Secretariat, the Executive Committee, the implementing and bilateral agencies, the Treasurer, ozone offices, recipient countries and companies are invited to cooperate with the evaluator and to provide all necessary information including information on cost-effectiveness. The Multilateral Fund Secretariat is invited to provide all necessary data related to the items listed above in paragraphs 5 (a) (i), (ii), (iv), (v) and (vi). The evaluation should take into account the relevant decisions of the Meeting of the Parties and the Executive Committee.

9. The evaluator should widely consult relevant persons and institutions and other relevant sources of information deemed useful.

G. Time frame and milestones

10. The following table presents a tentative time frame and milestones for the study.

November 2010	Approval of the terms of reference by the Meeting of the Parties
	Selection of a steering panel by the Meeting of the Parties
January 2011	Finalization of the criteria and procedure for the selection of the qualified external and independent evaluator
March 2011	Analysis of bids by the Ozone Secretariat and, on the basis of the criteria, recommendations to steering panel
	Independent evaluator selected by the panel
April 2011	Contract awarded
	Evaluator provides an inception report and meets the steering panel to discuss study modalities and details
December 2011	Mid-term review: preliminary draft report submitted to and reviewed by the steering panel
February 2012	Final draft report submitted to and reviewed by the steering panel
May 2012	Final draft report submitted to the Open-ended Working Group at its thirty-second meeting
September 2012	Final report submitted to the Twenty-Fourth Meeting of the Parties

(UNEP/OzL.Pro.22/9, Decision XXII/2)

ANNEX I.6: AGREEMENT BETWEEN UNEP AS TREASURER OF THE MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE EXECUTIVE COMMITTEE OF THE MULTILATERAL FUND ESTABLISHED BY THE PARTIES TO THE MONTREAL PROTOCOL

WHEREAS the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer ("Protocol") to the Vienna Convention for the Protection of the Ozone Layer ("Parties") have established the Multilateral Fund for the Implementation of the Montreal Protocol ("Fund") to operate under the authority of the Parties through an Executive Committee to provide the financing of agreed incremental costs to enable Parties operating under paragraph 1 of Article 5 of the Protocol to comply with the control measures of the Protocol,

WHEREAS, at the request of the Parties, the Fund was established in accordance with the Financial Regulations and Rules of the United Nations and the Executive Committee entrusted the Executive Director of the United Nations Environment Programme ("UNEP") with its administration,

WHEREAS, the Parties have designated the United Nations Development Programme ("UNDP"), the World Bank ("Bank"), the United Nations Environment Programme ("UNEP") and the United Nations Industrial Development Organization (UNIDO) as Implementing Agencies for the work programme of the Fund,

WHEREAS, by decision of the Executive Committee, UNEP in addition to being designated as an Implementing Agency has acted as "Treasurer" of the Fund since 1991 free of charge, with responsibility for disbursing funds for activities to each of the Implementing Agencies, including itself, under the guidance of the Executive Committee,

NOW THEREFORE, the Executive Committee and UNEP hereby agree as follows:

Article I

1.1 UNEP, in its capacity as Treasurer, will administer the Fund in accordance with the Financial Regulations and Rules of the United Nations.

1.2 UNEP, in its capacity as Treasurer will at the beginning of each calendar year inform all Parties not operating under paragraph 1 of Article 5 of the Protocol of their contributions due to the Fund and request remittance of Parties' contributions. In this regard, UNEP will apply the fixed exchange rate mechanism approved by Decision XIV/40 of the Fourteenth Meeting of the Parties to the Montreal Protocol or in future amendments to this Decision to those Parties which qualify to use the mechanism.

1.3 UNEP, in its capacity as Treasurer, will acknowledge receipt of contributions from Parties and shall, from time to time, issue reminders to Parties whose contributions are outstanding.

1.4 UNEP, in its capacity as Treasurer, will administer any voluntary contributions from other sources.

1.5 UNEP, in the capacity as Treasurer, will collect and maintain an accurate accounting of pledges and contributions from donors, including bilateral contributions.

1.6 UNEP, in its capacity as Treasurer, will maintain an accurate account of funds approved by the Executive Committee as bilateral cooperation assistance and offset these funds against the concerned Party's contribution to the Fund.

1.7 UNEP, in its capacity as Treasurer, will place contributions paid by Parties in a bank account it will establish for the purpose of receiving such contributions.

1.8 UNEP, in its capacity as Treasurer, will provide, when requested, information on the rate of return on the investment of the Multilateral Fund trust funds held by UNEP.

1.9 UNEP, in its capacity as Treasurer, will design and manage a transparent system for issuance and encashment of promissory notes in accordance with predetermined schedules or as funds are needed by Implementing Agencies.

1.10 UNEP, in its capacity as Treasurer, will not be responsible for unpaid contributions by Parties.

1.11 The accounts of the Fund will be maintained in United States dollars.

Article II

2.1 UNEP, in its capacity as Treasurer, will design and maintain a financial reporting system for transfers, disbursements, interest and expenditures (consistent with Executive Committee decisions) that will allow uniformity, transparency and consistency when tracking flow of funds and facilitate comparability and

reconciliation.

2.2 UNEP, in its capacity as Treasurer, will remit to the Implementing Agencies funds approved for them by the Executive Committee, and maintain a payment system to these agencies.

2.3 Funds remitted to the Implementing Agencies will be disbursed by them in accordance with their respective financial regulations and rules.

2.4 UNEP, in its capacity as Treasurer, will remit to UNEP the funds approved for the budget of the Fund Secretariat.

2.5 UNEP, in its capacity as Treasurer, will not be obligated to remit funds over and above those available in the Fund account.

Article III

3.1 The Executive Committee agrees to remunerate UNEP in its capacity as Treasurer, US $500,000 annually for services it will provide pursuant to this Agreement, taking into account the functions described in Appendix I to this Agreement. This sum will remain unchanged for a period of five years as of the date of entry into force of this Agreement.

Article IV

4.1 UNEP, in its capacity as Treasurer, will submit accounts of the Fund to the Executive Committee for each calendar year based upon the expenditures incurred by the Fund Secretariat, the statements of expenditure submitted by the Implementing Agencies, taking into account interest earned by them on Fund balances they have held, as well as interest earned by UNEP on balances it holds as Treasurer of the Fund. In addition, UNEP will prepare clear reports on the status of the Fund to be submitted through the Fund Secretariat to the meetings of the Executive Committee.

4.2 UNEP, in its capacity as Treasurer, will undertake preparation of studies requested by the Executive Committee and / or by Meetings of the Parties to the Montreal Protocol, as relevant. UNEP will draw to the attention of the Executive Committee any circumstances where the costs of such studies would exceed the resources available.

4.3 UNEP, in its capacity as Treasurer, will provide direct support to the Executive Committee and its subsidiary bodies as necessary, including participation in Executive Committee meetings.

4.4 The accounts of the Fund will be subject solely to the Internal and External Audit of the United Nations. Should there be any comments made by the Auditors relating to the accounts, UNEP, in its capacity as Treasurer, will advise the Chief Officer of the Fund Secretariat and the Chairman of the Executive Committee immediately.

Article V

5.1 Any dispute, controversy or claims arising out of, or in connection with, this Agreement, will, unless they are settled by direct negotiation, be settled by arbitration in accordance with the Arbitration Rules of the United Nations Commission on International Trade Law (UNICTRAL) as at present in force. The Executive Committee and UNEP agree to be bound by any arbitration award rendered in accordance with this section as the final adjudication of any dispute.

Article VI

6.1 This Agreement shall enter into force upon signature by both parties and shall supersede previous Agreements.

6.2 This Agreement shall remain in force until such time as both parties agree to terminate it. Should one party wish to terminate the Agreement, such termination notice shall be given 90 days prior to its intended termination.

6.3 Any amendment to this Agreement shall require the concurrence in writing of both parties.

6.4 In case of conflict between the terms and conditions of this Agreement and the Financial Regulations of the United Nations, the latter will prevail.

Appendix I: Functions of Treasurer of the Multilateral Fund

1. Multilateral Fund trust fund:

1.1. establishment and management of a trust fund for the management of the Multilateral Fund resources and financial reports;

1.2. calculation of the triennial and yearly pledges by each Party (some 42 Parties) in accordance with the terms of reference approved by the Parties to the Montreal Protocol in US dollars and national currencies as applicable;

1.3. keeping updated tools for the calculation of the distribution of pledges to the Parties which do not operate under Article 5 of the Montreal Protocol, in accordance with the United Nations scale of assessment;

1.4. calling for and sending reminders to the Parties for contribution payments, receiving the contributions, acknowledging the receipts and managing the bank account and the appropriate accounting for the transactions; and

1.5. making remittances to the Implementing Agencies in accordance with the approvals of the Executive Committee of the Multilateral Fund.

2. Multilateral Fund bank account(s):

2.1. establishment of a bank account for receiving contributions by Parties and other voluntary contributions and effecting transfers and payments in accordance with the approvals of the Executive Committee;

2.2. management of the resources in the bank account with a view to maximizing the returns on any surplus funds not immediately needed; and

2.3. management of any other subsidiary (bank) accounts that are opened for the smooth operation of the Fund, for example, for the management of promissory notes and their subsequent encashments.

3. Bilateral cooperation assistance

3.1. maintaining an accurate report on the bilateral cooperation assistance (up to 20 per cent of a Party's assessed contribution per annum) approved for Parties by the Executive Committee for its direct implementation;

3.2. adjustment of pledges of Parties to account for bilateral cooperation assistance approved by the Executive Committee; and

3.3. introduction of the bilateral cooperation assistance's adjustments as reported in the annual progress reports on their implementation.

4. Fixed exchange rate mechanism:

4.1. monitoring and recording of the countries' inflationary parameters needed for the application of the fixed exchange rate mechanism in determining the Parties which qualify to using the mechanism and, secondly, fixing the national currency rates;

4.2. monitoring and recording of the various currencies exchange rates needed in the calculation of the fixed exchange rates for use in calculating the national currency pledges by the Parties which qualify to use the mechanism;

4.3. requesting the Parties qualifying to use the fixed exchange rate mechanism for confirmation of their decision to either make their payments to the Fund in national currencies or in United States dollars;

4.4. monitoring and recording of the performance of the fixed exchange rate mechanism by each Party, using the mechanism with a view to updating the shortfall or gain realized by the mechanism in totality;

4.5. monitoring and recording of the value of the promissory notes established within the fixed exchange rate mechanism with a view to having the current value at any time of the reporting on the status of the Fund;

4.6. monitoring and recording of the net gain or loss due to the implementation of the fixed exchange rate mechanism in order to properly factor it into the calculation of the net funds available for programming in the report on the status of the Fund; and

4.7. preparing any reports on the implementation of the fixed exchange rate mechanism as the Executive Committee or the Meeting of the Parties to the Montreal Protocol may require from time to time.

5. Multilateral Fund reports on the status of the Fund:

5.1. monitoring and recording of the yearly payments in the various forms (cash, promissory notes, bilateral cooperation assistance, and promissory notes encashments) by Parties to the Fund from inception to date for inclusion in the reports on the status of the Fund;

5.2. monitoring and recording of the other income elements such as interest and miscellaneous income (at the levels of the Treasurer and the Implementing Agencies) from inception to date for inclusion in the reports on the status of the Fund;

5.3. monitoring and recording of cash transfers and promissory notes transfers to Implementing Agencies or reservation of promissory notes for Implementing Agencies and any subsequent promissory notes encashments following approvals by the Executive Committee from inception to date for inclusion in the reports on the status of the Fund;

5.4. monitoring and recording of commitments and expenditures of the Multilateral Fund Secretariat following approvals of the Executive Committee from inception to date for inclusion in the reports on the status of the Fund; and

5.5. preparing the aggregate report on the status of the Fund for the Executive Committee's meetings giving the pertinent information on all elements of income and expenditures/disbursements/commitments and the balance available for new approvals.

6. Multilateral Fund financial reports:

6.1. preparation of the cumulative financial reports, including the statement of income and expenditure, and the report on changes in reserve and fund balance and cumulative fund balance;

6.2. preparation of the annual financial reports, including the statements of income and expenditure, and the report on changes in reserve and fund balance and cumulative fund balance;

6.3. preparation of the Implementing Agencies' summarized/aggregated expenditures reports annually and cumulatively; and

6.4. preparation of the Multilateral Fund Secretariat's reports on the annual expenditures vis-à-vis the approvals by the Executive Committee.

7. Reconciliation of the Treasurer's accounts with bilateral and Implementing Agencies and the Multilateral Fund Secretariat:

7.1. reconciliation of approvals by the Executive Committee, taking into account funds returned from completed projects, cancelled projects and adjustments to approvals, including projects transferred from one Implementing Agency to another;

7.2. reconciliation of cash resources transferred by the Treasurer and received by the Implementing Agencies;

7.3. reconciliation of promissory notes transferred to the World Bank considering the actual amounts realized in encashments;

7.4. reconciliation of reported interest income earned by Implementing Agencies and approvals granted by the Executive Committee to the agencies; and

7.5. reconciliation of adjustments to the bilateral cooperation assistance to Parties as per annual implementation progress reports made to the Executive Committee through the Multilateral Fund Secretariat and approvals granted by the Executive Committee.

ANNEX I.7: AGREEMENT BETWEEN THE UNITED NATIONS ENVIRONMENT PROGRAMME AS THE TREASURER OF THE MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE UNITED NATIONS DEVELOPMENT PROGRAMME ("UNDP")

WHEREAS the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer ("Protocol") to the Vienna Convention for the Protection of the Ozone Layer ("Parties") have established the Multilateral Fund for the Implementation of the Montreal Protocol ("Fund") to operate under the authority of the Parties through an Executive Committee to provide the financing of agreed incremental costs to enable Parties operating under paragraph 1 of article 5 of the Protocol to comply with the control measures of the Protocol;

WHEREAS the Parties established an Executive Committee to develop and monitor the implementation of specific operational policies, guidelines and administrative arrangements including the disbursement of resources for the purpose of achieving the objectives of the Fund with the co-operation and assistance of the World Bank ("Bank"), the United Nations Environment Programme ("UNEP"), the United Nations Industrial Development Organization ("UNIDO") and the United Nations Development Programme ("UNDP");

WHEREAS at the request of the Parties, the Fund was established in accordance with the Financial Regulations and Rules of the United Nations;

WHEREAS by decision of the Executive Committee, UNEP has been appointed as Treasurer of the Fund;

WHEREAS the roles and responsibilities of the Treasurer have been set out in the 2004 revised Agreement between the Executive Committee and UNEP as the Treasurer of the Fund;

WHEREAS UNDP has agreed to provide for the establishment of accounts to be constituted by the funds provided to UNDP in accordance with the Agreement concluded on 19 June 1991 and 21 August 1991 as amended on 31 July 1998 and 14 August 1998 respectively between the Executive Committee of the Multilateral Fund and UNDP, together with any other assets and receipts received for the benefit of the Parties;

WHEREAS the Executive Committee and UNDP have agreed on the administrative arrangements and procedures covering UNDP involvement in the implementation of the work programme of the Fund, pursuant to which the Treasurer will transfer funds to UNDP to enable UNDP to administer and manage projects and activities approved by the Executive Committee for implementation by UNDP;

NOW THEREFORE, UNDP and the Treasurer hereby agree as follows:

Article I

1.1 The Treasurer shall transfer the amounts approved by the Executive Committee, in advance of the implementation of planned projects and activities approved by the Executive Committee for implementation by UNDP, to the UNDP bank account.

1.2 Funds held in the account and not immediately required will be invested in accordance with the regular practice of UNDP, and the income from investments will be added to the resources held.

Article II

2.1 The accounts of the Fund will be administered by UNDP in accordance with the Financial Regulations and Rules of UNDP.

2.2 Project management and expenditures will be governed by the Financial Regulations and Rules of UNDP.

Article III

3.1 UNDP will provide financing from the accounts for the purpose of meeting the costs of the projects and activities approved by the Executive Committee for implementation by UNDP.

3.2 In line with the terms of Articles 1 and 2 of the 1998 Amendment to the 1991 Agreement between the Executive Committee and UNDP, UNDP will not make commitments before the receipt of funds or in the case of Promissory Notes before receipt of written confirmation from the Treasurer.

3.3 Notwithstanding the completion of projects financed from the accounts, UNDP will continue to hold all unutilized resources in the accounts until all commitments and liabilities in the implementation of these projects have been satisfied and project activities have been brought to an orderly conclusion. Any resources that remain unexpended after such commitments and liabilities have been satisfied will be transferred back

to the Fund or used as the Executive Committee and UNDP may jointly determine.

3.4 If the unutilized resources prove insufficient to meet such commitments and liabilities UNDP will consult with the Chief Officer of the Fund Secretariat and the Executive Committee on the manner in which such commitments and liabilities may be satisfied.

Article IV

4.1 UNDP will provide the Treasurer with an annual provisional financial statement in the format agreed by all the implementing agencies. The provisional financial statement should be duly signed by an authorized official of UNDP and should reach the Treasurer by 31 January of the following year to allow for the timely compilation of the annual accounts of the Fund.

4.2 UNDP will provide the Treasurer by 30 September with a certified annual statement or audited biennial statement of income and expenditure for the previous year, including any pertinent comments made by the Auditors. In addition, the Treasurer will at the same time be provided with the financial statement in the format agreed by all the implementing agencies.

4.3 Financial statements submitted to the Treasurer in accordance with paragraph 4.2 above will be audited in accordance with the audit rules and procedures of UNDP.

4.4 The Treasurer will maintain and after each meeting of the Executive Committee of the Multilateral Fund distribute to UNDP a year-to-date payment ledger for the purposes of reconciliation of accounts.

4.5 The Treasurer will manage a transparent system for the issuance and encashment of Promissory Notes, in accordance with predetermined schedules or as funds are needed by UNDP. The Treasurer will circulate annually, the ledger on Promissory Notes for the purpose of the reconciliation of the accounts.

4.6 The accounts of the Fund maintained by the Treasurer will be subject solely to the Internal and External Audit of the United Nations.

Article V

5.1 These arrangements will remain in force until such time as either party agrees to terminate the Agreement. Should one party wish to terminate these arrangements, such termination notice will be given 180 days prior to its intended termination.

5.2 Notwithstanding the termination of this Agreement, UNDP will continue to hold unutilized funds and interest income earned thereon until all commitments and liabilities incurred in the implementation of activities approved by the Executive Committee have been satisfied and activities have been brought to an orderly conclusion.

5.3 Any funds that remain after such commitments and liabilities have been satisfied will be transferred by UNDP to the Fund or used as the Executive Committee and UNDP may jointly determine.

Article VI

6.1 This Agreement shall enter into force on the date of the last signature by the authorized representatives of the signatories. The Agreement may be modified only by written agreement between the signatories.

ANNEX I.9: AGREEMENT BETWEEN THE UNITED NATIONS ENVIRONMENT PROGRAMME AS THE TREASURER OF THE MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION ("UNIDO")

WHEREAS the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer ("Protocol") to the Vienna Convention for the Protection of the Ozone Layer ("Parties") have established the Multilateral Fund for the Implementation of the Montreal Protocol ("Fund") to operate under the authority of the Parties through an Executive Committee to provide the financing of agreed incremental costs to enable Parties operating under paragraph 1 of article 5 of the Protocol to comply with the control measures of the Protocol;

WHEREAS the Parties established an Executive Committee to develop and monitor the implementation of specific operational policies, guidelines and administrative arrangements including the disbursement of resources for the purpose of achieving the objectives of the Fund with the co-operation and assistance of the World Bank ("Bank"), the United Nations Environment Programme ("UNEP"), the United Nations Industrial Development Organization ("UNIDO") and the United Nations Development Programme ("UNDP");

WHEREAS at the request of the Parties, the Fund was established in accordance with the Financial Regulations and Rules of the United Nations;

WHEREAS by decision of the Executive Committee, UNEP has been appointed as Treasurer of the Fund;

WHEREAS the roles and responsibilities of the Treasurer have been set out in the 2004 revised Agreement between the Executive Committee and UNEP as the Treasurer of the Fund;

WHEREAS UNIDO has agreed to provide for the establishment of accounts to be constituted by the funds provided to UNIDO in accordance with the Agreement concluded on 19 June 1991 and 21 August 1991 as amended on 31 July 1998 and 14 August 1998 respectively between the Executive Committee of the Multilateral Fund and UNIDO, together with any other assets and receipts received for the benefit of the Parties;

WHEREAS the Executive Committee and UNIDO have agreed on the administrative arrangements and procedures covering UNIDO involvement in the implementation of the work programme of the Fund, pursuant to which the Treasurer will transfer funds to UNIDO to enable UNIDO to administer and manage projects and activities approved by the Executive Committee for implementation by UNIDO;

NOW THEREFORE, UNIDO and the Treasurer hereby agree as follows:

Article I

1.1 The Treasurer shall transfer the amounts approved by the Executive Committee, in advance of the implementation of planned projects and activities approved by the Executive Committee for implementation by UNIDO, to the UNIDO bank account.

1.2 Funds held in the account and not immediately required will be invested in accordance with the regular practice of UNIDO, and the income from investments will be added to the resources held.

Article II

2.1 The accounts of the Fund will be administered by UNIDO in accordance with the Financial Regulations and Rules of UNIDO.

2.2 Project management and expenditures will be governed by the Financial Regulations and Rules of UNIDO.

Article III

3.1 UNIDO will provide financing from the accounts for the purpose of meeting the costs of the projects and activities approved by the Executive Committee for implementation by UNIDO.

3.2 UNIDO will make commitments for financing under these arrangements before the receipt of funds in the accounts and in line with the terms of Articles 1 and 2 of the 1998 Amendment to 1992 Agreement between the Executive Committee and UNIDO.

3.3 Notwithstanding the completion of projects financed from the accounts, UNIDO will continue to hold all unutilized resources in the accounts until all commitments and liabilities in the implementation of these projects have been satisfied and project activities have been brought to an orderly conclusion. Any resources that remain unexpended after such commitments and liabilities have been satisfied will be transferred back

to the Fund or used as the Executive Committee and UNIDO may jointly determine.

3.4 If the unutilized resources prove insufficient to meet such commitments and liabilities UNIDO will consult with the Chief Officer of the Fund Secretariat and the Executive Committee on the manner in which such commitments and liabilities may be satisfied.

Article IV

4.1 UNIDO will provide the Treasurer with an annual provisional financial statement in the format agreed by all the implementing agencies. The provisional financial statement should be duly signed by an authorized official of UNIDO and should reach the Treasurer by 31 January of the following year to allow for the timely compilation of the annual accounts of the Fund.

4.2 UNIDO will provide the Treasurer by 30 September with a certified annual statement or audited biennial statement of income and expenditure for the previous year, including any pertinent comments made by the Auditors. In addition, the Treasurer will at the same time be provided with the financial statement in the format agreed by all the implementing agencies.

4.3 Financial statements submitted to the Treasurer in accordance with paragraph 4.2 above will be audited in accordance with the audit rules and procedures of UNIDO.

4.4 The Treasurer will maintain and after each meeting of the Executive Committee of the Multilateral Fund distribute to UNIDO a year-to-date payment ledger for the purposes of reconciliation of accounts.

4.5 The Treasurer will manage a transparent system for the issuance and encashment of Promissory Notes, in accordance with predetermined schedules or as funds are needed by UNIDO. The Treasurer will circulate annually, the ledger on Promissory Notes for the purpose of the reconciliation of the accounts.

4.6 The accounts of the Fund maintained by the Treasurer will be subject solely to the Internal and External Audit of the United Nations.

Article V

5.1 These arrangements will remain in force until such time as either party agrees to terminate the Agreement. Should one party wish to terminate these arrangements, such termination notice will be given 180 days prior to its intended termination.

5.2 Notwithstanding the termination of this Agreement, UNIDO will continue to hold unutilized funds and interest income earned thereon until all commitments and liabilities incurred in the implementation of activities approved by the Executive Committee have been satisfied and activities have been brought to an orderly conclusion.

5.3 Any funds that remain after such commitments and liabilities have been satisfied will be transferred by UNIDO to the Fund or used as the Executive Committee and UNIDO may jointly determine.

ANNEX I.10: AGREEMENT BETWEEN THE UNITED NATIONS ENVIRONMENT PROGRAMME AS THE TREASURER OF THE MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT AS TRUSTEE OF THE OZONE PROJECTS TRUST FUND

WHEREAS the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer ("Protocol') to the Vienna Convention for the Protection of the Ozone Layer ("Parties") have established the Multilateral Fund for the Implementation of the Montreal Protocol ("Fund") to operate under the authority of the Parties to provide the financing of agreed incremental costs to enable Parties operating under paragraph 1 of article 5 of the Protocol to comply with the control measures of the Protocol;

WHEREAS the Parties established an Executive Committee to develop and monitor the implementation of administrative arrangements for the purposes of achieving the objectives of the Fund with the co-operation and assistance of the International Bank for Reconstruction and Development ("Bank") the United Nations Environment Programme ("UNEP"), the United Nations Industrial Development Organization ("UNIDO") and the United Nations Development Programme ("UNDP");

WHEREAS at the request of the Parties, the Fund was established in accordance with the Financial Regulations and Rules of the United Nations;

WHEREAS by decision of the Executive Committee, UNEP has been appointed as Treasurer of the Fund;

WHEREAS the roles and responsibilities of the Treasurer have been set out in the 2004 revised Agreement between the Executive Committee and UNEP as the Treasurer of the Fund;

WHEREAS the Bank has decided to provide for the establishment of the Ozone Projects Trust Fund ("OTF") constituted by the funds provided to the Bank pursuant to the agreements between the Bank and the Executive Committee, together with any other assets and receipts received for the benefit of the Parties;

WHEREAS the Executive Committee and the Bank have agreed on the administrative arrangements and procedures covering the Bank's involvement in the implementation of the work programme of the Fund, pursuant to which the Treasurer will transfer funds to the OTF to enable the Bank to administer and manage the Bank's projects and activities approved by the Executive Committee for implementation by the Bank;

NOW THEREFORE, the Bank and the Treasurer hereby agree as follows:

Article I

1.1 The Treasurer shall transfer the amounts approved by the Executive Committee (the "Contributions"), in advance of the implementation of planned projects and activities approved by the Executive Committee for implementation by the Bank into the following account of the Bank, under reference to "Ozone Projects Trust Fund, Project Number TF20075":

Wachovia Bank, NA, New York

Swift Bic Code: PNBPUS3NNYC
Internal Route Code: PNBPNY
Fed ABA Number: 026005092.

1.2 Funds held in the OTF and not immediately required will be invested in accordance with the regular practice of the Bank, and the income from investments will be added to the resources of the OTF.

Article II

2.1 The OTF will be administered by the Bank in accordance with the Operational Policies and Procedures of the Bank.

2.2 Project management and expenditures will be governed by the Operational Policies and Procedures of the Bank.

Article III

3.1 The Bank as trustee of the OTF will provide financing from the OTF for the purpose of meeting the costs of

the projects and activities approved by the Executive Committee for implementation by the Bank.

3.2 The Bank as trustee of the OTF will make no commitments for financing under these arrangements before the receipt of funds in the OTF.

3.3 Notwithstanding the completion of projects financed from the OTF, the Bank will continue to hold all unutilized resources in the OTF until all commitments and liabilities in the implementation of these projects have been satisfied and project activities have been brought to an orderly conclusion. Any resources that remain unexpended after such commitments and liabilities have been satisfied will be transferred back to the Fund or used as the Executive Committee and the Bank may jointly determine.

3.4 If the unutilized resources prove insufficient to meet such commitments and liabilities the Bank will consult with the Chief Officer of the Fund Secretariat and the Executive Committee on the manner in which such commitments and liabilities may be satisfied.

Article IV

4.1 The Bank will maintain separate records and ledger accounts in respect of the Contributions and the disbursements thereof. The Bank will prepare, on a cash basis, an unaudited statement of receipts, disbursements and fund balance with respect to the OTF and forward a copy to the Treasurer by 31 January. The statement will be expressed in United States dollars, the currency in which the Bank will maintain the funds. The Treasurer will at the same time be provided with the financial statement in the format agreed by all the implementing agencies.

4.2 The Bank will annually provide the Treasurer by 30 September with a management assertion, together with an attestation from the Bank's external auditors concerning the adequacy of internal control over cash-based financial reporting for trust funds as a whole. The costs of such attestations will be borne by the Bank. The Treasurer will be provided with the same statement in a format agreed by all implementing agencies.

4.3 The Bank will cause a financial statement audit of the OTF to be performed by the Bank's external auditors annually and upon completion, the costs of such an audit, including the internal costs of the Bank with respect to such an audit, will be charged to the OTF. The Bank will provide the Treasurer with a copy of the auditors' report. In the event that there are insufficient funds in the OTF to conduct such audits, the World Bank should notify the Executive Committee of the shortfall. Subject to approval by the Executive Committee, the Treasurer shall pay-in such a shortfall as instructed by the Executive Committee. In addition, if the Treasurer wishes to request, on an exceptional basis, a financial statement audit by the Bank's external auditors of the OTF at a more frequent interval, the Treasurer and the Bank will first consult as to whether such an external audit is necessary. The Bank and the Treasurer will agree on the most appropriate scope and terms of reference of such audit. Following agreement on the scope and terms of reference, the Bank will arrange for such external audit. The costs of any such audit, including the internal costs of the Bank with respect to such audit, will be paid by the Fund after approval by the Executive Committee.

4.4 The Treasurer will manage a transparent system for the issuance and encashment of promissory notes, in accordance with predetermined schedules or as funds are needed by the Bank. The Treasurer will circulate annually, the ledger on promissory notes for the purpose of the reconciliation of the accounts.

4.5 The Treasurer’s accounts of the Fund will be subject solely to the Internal and External Audit of the United Nations.

Article V

5.1 These arrangements will remain in force until such time as either party decides to terminate them. Should one party wish to terminate these arrangements, such termination notice will be given 30 days prior to its intended termination.

5.2 Notwithstanding termination of this Agreement, the Bank will continue to hold unutilized funds and interest earned by the OTF until all commitments and liabilities incurred in the implementation of activities approved by the Executive Committee have been satisfied and activities have been brought to an orderly conclusion.

5.3 Any funds that remain after such commitments and liabilities have been satisfied will be transferred by the Bank to the Fund.

Article VI

6.1 This Agreement shall enter into force on the date of the last signature by the authorized representatives of the signatories. This Agreement may be modified only by written agreement between the signatories hereto.

ANNEX I.11: AGREEMENT BETWEEN THE GOVERNMENT OF CANADA AND THE MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE 1987 MONTREAL PROTOCOL REGULATING MATTERS RESULTING FROM THE ESTABLISHMENT IN CANADA OF THE MULTILATERAL FUND AND ITS ORGANS

The Government of Canada and the Multilateral Fund for the Implementation of the 1987 Montreal Protocol on Substances that Deplete the Ozone Layer:

NOTING the undertaking of the Government of Canada to ensure the availability of all the necessary facilities to enable the Multilateral Fund to perform its functions, including its scheduled programmes of work and any related activities;

DESIRING, therefore, to conclude an Agreement regulating matters resulting from the establishment in Canada of the Multilateral Fund for the Implementation of the *1987 Montreal Protocol* and its organs;

HAVE AGREED AS FOLLOWS:

ARTICLE 1
Definitions

For the purposes of the present Agreement:

(a) "Montreal Protocol" means the *1987 Montreal Protocol on Substances that Deplete the Ozone Layer* and its amendments;

(b) "Multilateral Fund" means that Multilateral Fund for the Implementation of the *1987 Montreal Protocol on Substances that Deplete the Ozone Layer* and its amendments;

(c) "Secretariat', means the Secretariat of the Multilateral Fund;

(d) "Executive Committee" means Executive Committee of the Multilateral Fund;

(e) "Office Premises" means the buildings or part of buildings occupied permanently or temporarily by any organ of the Multilateral Fund or by meetings convened in Canada by the Multilateral Fund;

(f) "Member States" means the States that are parties to the *Montreal Protocol;*

(g) "Representative of a Member State" means a person charged by a Member State with the duty of acting on its behalf;

(h) "Officials of the Secretariat" means United Nations officials assigned by the United Nations to service the Secretariat, irrespective of nationality, with the exception of those who are recruited locally and are assigned to hourly rates;

(i) "Expert" means a person, other than a United Nations official, or any other official of the Secretariat performing missions for the Multilateral Fund;

(j) "Agreement" means the Agreement between the United Nations and the Government of Canada concerning the Privileges, Immunities and other Facilities of the United Nations Officials Servicing the Secretariat of the Multilateral Fund for the Implementation of the *1987 Montreal Protocol on Substances that Deplete the Ozone Layer;* and

(k) "Convention" means the *Convention on the Privileges and Immunities of the United Nations* adopted by the General Assembly of the United Nations on 13 February 1946.

ARTICLE 2
Juridical Personality and Capacity

The Multilateral Fund shall possess juridical personality. It shall have the capacity:

(a) to contract;

(b) to acquire and dispose of immovable and movable property; and

(c) to institute legal proceedings.

ARTICLE 3
Inviolability and Protection

1. The Office Premises shall be inviolable. The competent Canadian authorities shall not enter the Office

Premises to perform their official duties except with the consent of and under conditions agreed to by the Chief Officer of the Secretariat. These provisions shall not prevent the reasonable application of fire regulations.

2. The Government of Canada shall accord to the Office Premises the same protection as is given to diplomatic missions in Canada.

3. The archives and documents of the Multilateral Fund shall be inviolable at any time wherever located.

ARTICLE 4
Property, Funds and Assets

1. The Multilateral Fund, its property, funds and assets, including funds administered in furtherance of its constitutional functions, wherever located and by whomsoever held, shall enjoy immunity from every form of legal process except insofar as in any particular case it has expressly waived its immunity, it being understood that the waiver shall not extend to any measure of execution of legal actions.

2. The property, funds and assets of the Multilateral Fund, wherever located and by whomsoever held, shall be immune from search, requisition, confiscation, expropriation and any other form of interference, whether by executive, administrative, judicial, or legislative action.

3. The Multilateral Fund may hold funds, gold and currencies of any kind and operate accounts in any currency. It shall be free to transfer its funds, gold and currencies within Canada and from Canada to any other country and to convert any currency held by it into any other currency.

4. The Multilateral Fund shall prevent the office Premises from becoming refuge either for persons who are avoiding arrest or for persons who are endeavouring to avoid service of legal process.

ARTICLE 5
Exemption from Taxes and Duties

1. The Multilateral Fund, its property, funds and assets shall be:

   (a) exempt from all direct taxes; it is understood, however, that the Multilateral Fund will not claim exemption from taxes which are no more than charges for public utility services;

   (b) exempt from customs duties and prohibitions and restrictions on imports and exports in respect of articles imported or exported by the Multilateral Fund for its official use. It is understood, however, that articles imported under such exemption will not be sold in Canada except under conditions agreed with the Government of Canada;

   (c) exempt from customs duties and prohibitions and restrictions on imports and exports in respect of its publications.

2. While the Multilateral Fund will not, as a general rule, claim exemption from excise duties and from taxes on the sale of movable and immovable property which form part of the price to be paid, nevertheless when the Multilateral Fund is making important purchases for official use of property on which such duties and taxes have been charged or are chargeable, the Government of Canada will make appropriate administrative arrangements for the remission or return of the amount of duty or tax.

ARTICLE 6
Communications Facilities

1. The Multilateral Fund shall enjoy in Canada for its official communications, treatment not less favorable than that accorded by the Government of Canada to any other Government including its diplomatic mission in matters of establishment and operation, priorities, tariffs, charges on mail and cablegrams and on teleprinter, facsimile, telephone and other communications, as well as rates for information to the press and radio. No censorship shall be applied to the official correspondence and other official communications of the Multilateral Fund.

2. The Multilateral Fund shall have the right to use codes and to dispatch and receive its correspondence by courier or in bags, which shall have the same immunities and privileges as diplomatic couriers and bags.

3. The facilities provided for in this Article may, to the extent necessary for efficient operation, be established and operated outside the Office Premises with the consent of the Government of Canada.

ARTICLE 7
Interruption of Public Services

In case of interruption or threatened interruption of public services, including communications and transportation, the Government of Canada will consider the needs of the Multilateral Fund as being of equal importance with the similar needs of its essential agencies and attempt to ensure that the work of the Multilateral Fund is not prejudiced.

ARTICLE 8
Access to Office Premises

1. The competent Canadian authorities shall not impose any impediments to transit to or from the Office Premises of representatives of Member States, officials of the Secretariat, experts or other persons invited thereto on official business.
2. Visas, where required, for persons referred to in paragraph 1, shall be issued by the Government of Canada free of charge and as promptly as possible.
3. The provisions of paragraphs 1 and 2 shall also apply to the spouses and members of the families forming part of the households of the persons referred to in those paragraphs.
4. Except as provided above and in the relevant provisions of the Agreement, the Government of Canada retains full control and authority over the entry of persons or property into the territory of Canada and the conditions under which persons may remain or reside there.

ARTICLE 9
Privileges and Immunities for the Representatives of Member States and Experts

1. Representatives of Member States shall, while exercising their functions and during their journeys to and from the place of meetings, enjoy the following privileges and immunities:
   (a) immunity from personal arrest or detention and from seizure of personal baggage, and immunity from legal process of every kind in respect of words spoken or written and all acts performed in their capacity as representatives of Member States;
   (b) inviolability of all papers and documents;
   (c) the right to use codes and to receive and send papers or correspondence by courier or in sealed bags;
   (d) exemption in respect of themselves and their spouses and members of their family forming part of their households from immigration restrictions, alien registration or national service obligations;
   (e) the same facilities in respect of currency or exchange restrictions as are accorded to diplomatic agents;
   (f) the same exemption from examination of personal baggage as accorded to diplomatic agents;
   (g) such other privileges, immunities and facilities not inconsistent with the foregoing as diplomatic envoys enjoy, except that they shall have no right to claim exemption from customs duties on goods imported, otherwise than as part of their personal baggage, or from excise duties or sales taxes.
2. Experts shall be entitled to the privileges, immunities and facilities set out in Article VI and Section 26 of Article VII of the Convention.

ARTICLE 10
Privileges and Immunities of the Officials of the Fund

Officials of the Multilateral Fund other than Officials of the United Nations shall enjoy in Canada the following privileges and immunities:

(a) immunity from legal process in respect of words spoken or written and any act performed by them in their official capacity;
(b) the right to deduct from the national income tax otherwise payable by them an amount determined in respect of the amount of the staff assessment levied by the Multilateral Fund in lieu of national income tax on salaries and emoluments paid by the Multilateral Fund to these officials;
(c) immunity for themselves, their spouses and relatives dependent on them, from immigration restrictions

and alien registration procedures;

(d) immunity from national service obligations;

(e) the same repatriation facilities in time of international crisis for themselves, their spouses and relatives dependent on them, as are accorded to diplomatic agents;

(f) the same exchange facilities as accorded to officials of comparable rank forming part of diplomatic missions in Canada; and

(g) the right to import free of duty their furniture and effects, including motor vehicles, but excluding alcoholic beverages and tobacco products, at the time of first entry into Canada, or in the case of former residents of Canada returning to Canada to resume residence in Canada after having been residents of another country, the right, subject to the applicable legislation, to import free of duty their furniture and effects, including motor vehicles, at the time of their return to Canada.

ARTICLE 11
Waiver of Immunities

1. The privileges and immunities of officials of the Multilateral Fund other than officials of the United Nations and of experts are accorded not for the personal benefit of the individuals themselves, but in order to safeguard the independent exercise of their functions in connection with the Multilateral Fund.
2. The Chairman of the Executive Committee not only has the right, but is under the duty to waive the immunity referred to in paragraph 1 in any case where in his or her opinion, the immunity would impede the course of justice and it could be waived without prejudice to the purpose for which the immunity is accorded.

ARTICLE 12
Respect for the Laws and Regulations of Canada

1. Without prejudice to their privileges and immunities, it is the duty of all persons enjoying such privileges and immunities to respect the laws and regulations of Canada. They also have the duty not to interfere in the internal affairs of Canada.
2. The Multilateral Fund shall co-operate at all times with the appropriate authorities of Canada to facilitate the proper administration of justice, secure the observance of police regulations and avoid the occurrence of any abuse in connection with the privileges, immunities and facilities referred to in this Agreement.

ARTICLE 13
Notification Procedure

No persons shall be accepted as a representative of a Member State, an official of the Multilateral Fund or and Expert for purposes of Article 9 and 10 unless and until his or her name and status have been duly notified to the Minister of Foreign Affairs of Canada.

ARTICLE 14
Settlement of Disputes

1. Any dispute concerning the interpretation or implementation of this Agreement that is not settled by negotiation or other agreed method of settlement shall, at the request of either Party, be referred to a tribunal of three arbitrators, one to be appointed by the Minister of Foreign Affairs of Canada, one to be appointed by the Chairman of the Executive Committee and the third to be appointed by the two arbitrators. If, within thirty days of the request for arbitration, either Party has not appointed an arbitrator or if, within fifteen days of the appointment of two arbitrators, the third arbitrator has not been appointed, either Party may request the President of the International Court of Justice to appoint an arbitrator.
2. The procedure or arbitration shall be determined by the arbitrators, and the expenses of the arbitration shall be borne by the Parties as assessed by the arbitrators. The arbitral award shall contain a statement of the reasons on which it is based and shall be accepted by the Parties as the final adjudication of the disputes.
3. The Multilateral Fund shall take the measures necessary for ensuring the proper settlement of:

(a) disputes arising out of contracts or other disputes of a private law character to which the Multilateral Fund is a party; and

(b) disputes involving any official of the Multilateral Fund other than an official of the United Nations who by reason of his or her official position enjoys immunity, if immunity has not been waived by the Chairman of the Executive Committee.

ARTICLE 15
Final Provisions

1. This Agreement shall enter into force upon signature.
2. This Agreement may be amended by mutual consent at any time at the request of either Party.
3. This Agreement shall continue in effect indefinitely.
4. This Agreement shall cease to be in force if the Multilateral Fund is relocated from the territory of Canada, except for such provisions as may be applicable in connection with the orderly termination of the operations of the Multilateral Fund in Canada and the disposition of its property therein.

IN WITNESS WHEREOF, the undersigned, duly authorized to that affect, have signed this Agreement.

United Arab Emirates	0	0	366,317	366,317	330,909	1,063,543
Uzbekistan	-	216,390	453,535	453,535	239,474	1,362,934
Total	525,416	3,973,651	5,738,959	6,022,071	3,975,966	20,236,063

Notes:

(1) A hyphen (-) indicates that the country has not been assessed for that year, either due to classification as operating under paragraph 1 of Article 5 or due to non-ratification of the Protocol, while a zero (0) indicates that the contributions due prior to the ratification of the London Amendment have been paid.

(2) The London Amendment entered into force on 10 August 1992.

(UNEP/OzL.Pro.9/12, Decision IX/38 Annex X).

ANNEX I.13: FRAMEWORK ON THE OBJECTIVE, PRIORITIES, PROBLEMS AND MODALITIES FOR STRATEGIC PLANNING OF THE MULTILATERAL FUND IN THE COMPLIANCE PERIOD

Objective

The overall objective of the strategic planning is to provide to the Executive Committee, the Implementing Agencies and the Fund Secretariat the basis for the creation of a number of consistent policies and guidelines which would enhance the effectiveness of the ongoing support to Article 5 countries to enable them to achieve compliance with their obligations under the Montreal Protocol until 2010.

Priorities

The Multilateral Fund would give funding priority to enable:

- Countries which have existing ODS sectoral phase-out agreements with the Executive Committee (e.g. CFC production, solvent, halons, tobacco, etc.) to implement their annual reduction targets;
- Countries which are experiencing difficulty in implementing their CFC freeze obligation to do so in an expedient manner;
- Countries which may have difficulty in complying with the freeze obligation for halons and methyl bromide in January 2002 to do so;
- Countries to sustain the momentum achieved in their national ODS phase-out programmes so that they will be able to meet the next reduction targets in 2005, including the 85 per cent reduction in CTC, as well as further reduction targets in 2007 and beyond;
- Countries to implement the compliance with the TCA freeze in 2003;
- The maintaining of momentum in countries that are meeting their future obligations;
- Early and accelerated phase-out in countries willing to do so;
- The reduction of the supply of ODS by continuing to address the production sector;
- An appropriate mix of investment and non-investment activities in line with a country's needs to achieve compliance;
- Strengthening of NOUs in national governments under conditions and terms to be negotiated later on.

Problems

There is clearly a need to improve on the reliability and accuracy of ODS consumption and production data for business planning and the determination of compliance.

There is an urgent need to reduce the consumption and production of halons and methyl bromide since the freeze obligations for those substances are drawing close.

There is an urgent need for contributing Parties to pay their contributions on time under the newly introduced fixed exchange rate mechanism to enable the funding of programmes and projects to assist with compliance.

There is an urgent need to reduce ODS use by SMEs and to address the ODS use of small and micro ODS users as a subset.

There is a need to examine ways to make use of the Multilateral Fund more effectively to take advantage of the accumulation of funds with the Implementing Agencies and the Treasurer.

There is an urgent need to examine the issues related to fixed shares for Implementing Agencies, taking into consideration that flexible, rather than fixed, shares might better assist the Article 5 countries in achieving compliance under the Montreal Protocol.

Modalities

Country-driven and compliance-driven programming should be followed in the compliance period. This should draw fully on the support and expertise of the Implementing Agencies, including the networks, which have been extensively developed over the pre-compliance period. However, during the compliance period, the role of the country must be much more than approving the submission of projects to the Executive Committee. During the compliance period, the country must establish and develop national goals, policies and actions necessary to

ensure compliance, and must direct the agencies to work in specific areas to achieve its national compliance strategic plans.

A national compliance strategic plan may incorporate individual projects, sectoral plans or both. Parties should be fully informed in order for them to make decisions on the appropriate approach.

The additional flexibility in sector plans makes them a choice likely to be preferred, provided that:

- The transition from a project-by-project to a sector approach is given sufficient time and funding in order to allow for careful preparation of sector strategies;
- The Article 5 countries agree to have verification and monitoring activities carried out by independent experts.

In either case, funding must be predicated on a commitment by the country to achieve sustainable, permanent aggregate reductions in consumption and production, as relevant.

There should be a re-examination of the roles and functions of the various stakeholders in the new environment to ensure that, on the one hand, Article 5 countries are being placed in the responsible role of implementing the Montreal Protocol commitments they have assumed and, on the other, the appropriate accountability mechanisms are put in place.

There should be an examination of ways to strengthen the interaction between the Executive Committee and the Implementation Committee, as well as the involvement of the Parties concerned, including the exchange of information in order to address better the situation of possible non-compliance by any Article 5 Party with its obligations under the Montreal Protocol.

In order to assist the developing countries in the planning and implementation of ODS phase-out programmes in an effective manner, the Fund Secretariat and the Implementing Agencies should compile systematically, possibly drawing upon the regional networks, information and knowledge including know-how and expertise which they have accumulated in implementing sector plans and projects, thus providing Article 5 countries with data to enable them to share such information and know-how with each other.

Article 5 government capacities should be strengthened to be able to plan and manage their national ODS phase-out programmes. In so doing, the results of the institutional strengthening evaluation should be taken into consideration.

Countries should enact regulatory measures to reduce dependence on ODS.

Efforts should be made to enhance public awareness on ODS-related issues.

It is acknowledged that many of the details above need further examination and elaboration. This relates in particular to implementation mechanisms that have to be adjusted and modified to suit the new strategies and modalities.

The plan covers 10 years until the year 2010, although the controls of the Montreal Protocol extend beyond that date. The plan is a dynamic document, which needs to be updated periodically, as required.
(UNEP/OzL.Pro/ExCom/33/32, Decision 33/54, paras. 82-87).
(Supporting document: UNEP/OzL.Pro/ExCom/33/30).

ANNEX I.14: CHANGES REQUESTED BY THE EXECUTIVE COMMITTEE ON THE REPORT IN RESPECT OF THE REVIEW REFERRED TO IN PARAGRAPH 8 OF ARTICLE 5

The Executive Committee decided at its Fourteenth Meeting to instruct the Consultant to make the following changes:

(a) to explain how the model simulates the initiation of projects;

(b) to prepare an additional table for the 98 model projects showing figures for ODS use, capital costs, operating costs, duration of operating costs and Unit Abatement Costs. Copies of model projects will be provided to Executive Committee members upon request;

(c) to clarify Exhibit 4-5 showing the amount of consumption projected for countries without country programmes;

(d) to include an additional column in the tables to reflect actual costs defined in all aspects as identical to the real resource costs with one exception, namely, that rising ODS prices shall be assumed, and to include explanatory text on how prices were forecast;

(e) to incorporate the key information given by the Consultant to the meeting in the next version of the report;

(f) to insert an amount of US$ 700 million corresponding to the mid-point in the range given for production phase-out costs in the column of Fund costs; the sum to be included pro rata over the number of years remaining until the target phase-out date;

(g) to make the best possible effort to determine the fraction of ODS consumption in developing countries that is used for export to countries not operating under Article 5 and to calculate the reduction in real resource costs and the actual costs as defined by the Sub-Committee as a result of these exports;

(h) to develop explanatory material on chlorine loading factors in the Consultant's report and the Executive Summary;

(i) to amplify paragraphs 202, 207 and 236 of the Consultant's report;

(j) to summarize all major policy assumptions in one section of the Consultant's report and clarify that the assumptions contained therein should not prejudice any future policy decisions of the Executive Committee;

(k) to provide a table of operating costs and capital costs by sector;

(l) to provide explanatory text on technology forecasting as presented in Exhibit F.

(m) to include in the Executive Summary and the body of the report:

  (i) reference to the difficulty in forecasting rising prices of ODS, and

  (ii) the substantial sensitivity of projected costs to variations in ODS prices.

(n) provide details of assumptions used to determine the operating life of each type of refrigeration and air-conditioning equipment used in the Consultant's models.

(UNEP/OzL.Pro/ExCom/14/15 (Annex II).

The Executive Committee, at its Fifteenth Meeting, approved the Sub-Committee's recommendation that the following clarifications should be included in the final report:

(a) the last sentence of paragraph 150 should be clarified to indicate that phase-out would proceed at the same rate as in non-Article 5 countries;

(b) at the beginning of the Executive Summary and Chapter 6, it should be emphasized that:

  (i) unless otherwise noted, a 10 per cent discount rate had been used; and

  (ii) price forecasts used in the study represented the best available data.

(c) the Executive Summary and the Report should be expanded to specify that assumptions about the policies of the Executive Committee made for the purposes of the study did not prejudice any future decisions of the Committee.

(d) a complete list of all policy assumptions used to generate the quantitative results presented in Chapter 6 should be annexed to the Executive Summary. This list should include assumptions about the role of banking and essential use exemptions in the construction of the ODS emissions forecasts for non-Article 5 countries and the discounting of production phase-out costs.

(e) the basis of the estimate for production phase-out costs presented in paragraph 39 of the report should be explained.

(f) the report should emphasize that the quantitative results generated by the study did not reflect the amount of funds committed to the Fund to date nor the amounts approved by the Executive Committee and their resulting ODS reductions.

(g) the presentation in ES-9 should be clarified to specify the year of the peak concentrations and the year in which the concentration returned to 2 ppb.

(h) the study should indicate that the feasibility of each phase-out scenario was contingent upon the indicated level of resources from the Multilateral Fund being available and a statement should be included regarding the historic level of contributions received.

(i) the terms of reference should be annexed to the report and the document numbers of the Sub-Committee reports referred to in the body of the report of the consultant should be included.

(j) technology transfer resulting from bilateral contributions should be mentioned in the report.

(k) the language in paragraph 146 should be amended to indicate that "typical" rather than "average" values had been used in the construction of model project cost estimates.

(l) the report should clarify that ODS-use growth rates used in the model analysis were applicable to target-driven segments and not to accelerated segments.

(m) section 3.4.3.5 should clarify that technology penetration included the amount of time to needed to implement the project on the shop floor.

II. EXECUTIVE COMMITTEE

ESTABLISHMENT

The Second Meeting of the Parties established the Executive Committee to develop and monitor the implementation of operational policies, guidelines and administrative arrangements, including the disbursement of resources for the purpose of achieving the objectives of the Multilateral Fund.
(UNEP/OzL.Pro/2/3 Decision II/8, para. 6)).
(UNEP/OzL.Pro/4/15 Decision IV/8 (section I.4)

COMPOSITION

The Executive Committee shall consist of seven Parties from the group of Parties operating under paragraph 1 of Article 5 of the Montreal Protocol and seven Parties from the group of Parties not so operating. Each group shall select its Committee members, and shall be endorsed by the Parties.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rule 11).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).

The Chairman and Vice-Chairman of the Executive Committee shall be selected from the fourteen members. The office of Chairman is subject to rotation, on an annual basis, between the Parties operating under paragraph 1 of Article 5, and the Parties not so operating. The group of Parties entitled to the chairmanship shall select the Chairman from among their members of the Executive Committee. The Vice-Chairman shall be selected by the other group from within their number.
(UNEP/OzL.Pro/2/3 Appendix II of Decision II/8, para. 3).

Members

Pursuant to paragraphs 2 and 3 of the terms of reference of the Executive Committee laid down in Appendix II of Decision II/8, the Meetings of the Parties endorsed annually the selection of seven Parties each by the groups of Parties not operating under paragraph 1 of Article 5 of the Protocol and those Parties operating under paragraph 1 of Article 5 of the Protocol to serve on the Executive Committee. The member Parties to the Montreal Protocol are presented Annex II.1.

The Second Meeting of the Parties pointed out that the selection of nominees had been endorsed on the understanding that, within the three-year mandate of the Executive Committee, members representing either one or the other of the two groups referred to in paragraph 2 of the terms of reference of the Committee could be changed in accordance with the wishes of the group concerned.
(UNEP/OzL.Pro/2/3 Section V. A. (paras. 44, 45).

The Ninth Meeting of the Parties decided that the members of the Executive Committee whose selection was endorsed by the Eighth Meeting of the Parties shall remain in office until 31 December 1997. Thereafter, the term of office of the members of the Committee shall be the calendar year commencing on 1 January of the calendar year after the date of their endorsement by the Meeting of the Parties.
(UNEP/OzL.Pro.9/12, Decision IX/16, para. a).

The Eleventh Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat, in the year 1999.
(UNEP/OzL.Pro.11/10, Decision XI/9, para. 1).

The Twelfth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat, in the year 2000.
(UNEP/OzL.Pro.12/9, Decision XII/4, para. 1).

The Thirteenth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat, in the year 2001.
(UNEP/OzL.Pro.13/10, Decision XIII/27, para. 1).

The Fourteenth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat, in the year 2002.
(UNEP/OzL.Pro.14/9, Decision XIV/38, para. 1).

The Fifteenth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat, in the year 2003.
(UNEP/OzL.Pro.15/9, Decision XV/46, para. 1).

The Sixteenth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat, in the year 2004.
(UNEP/OzL.Pro.16/17, Decision XVI/43. para. 1).

The Seventeenth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund secretariat in 2005.
(UNEP/OzL.Pro.17/11, Decision XVII/44, para.1).

The Eighteenth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat in 2006.
(UNEP/OzL.Pro.18/10, Decision XVIII/2, para. 1).

The Nineteenth Meeting of the Parties noted with appreciation the work done by the Executive Committee, with the assistance of the Fund Secretariat in 2007.
(UNEP/OzL.Pro.19/7, Decision XIX/3, para. 1).

The Twentieth Meeting of the Parties noted with appreciation the work done by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol with the assistance of the Fund secretariat in 2008.
(UNEP/OzL.Pro.20/9, Decision XX/22 para (1)).

The Twenty-first Meeting of the Parties noted with appreciation the work done by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol with the assistance of the Fund secretariat in 2009.
(UNEP/OzL.Pro.21/8, Decision XXI/27 para (1)).

The Twenty-second Meeting of the Parties noted with appreciation the work done by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol with the assistance of the Fund secretariat in 2010.
(UNEP/OzL.Pro.22/9, Decision XXII/24 para (1)).

The Twenty-third Meeting of the Parties noted with appreciation the work done by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol with the assistance of the Fund secretariat in 2011.
(UNEP/OzL.Pro.23/11, Decision XXIII/19 para (1)).

The Twenty-fourth Meeting of the Parties noted with appreciation the work done by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol with the assistance of the Fund secretariat in 2012.
(UNEP/OzL.Pro.24/10, Decision XXIV/22 para (1)).

The Twenty-fifth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2013.
(UNEP/OzL.Pro.25/9, Decision XXV/18 para (1)).

The Twenty-sixth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2014.
(UNEP/OzL.Conv.10/7 - UNEP/OzL.Pro.26/10, Decision XXVI/19 (para (1)).

The Twenty-seventh Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2015.
(UNEP/OzL.Pro.27/13, Decision XXVII/13 (para (1))

The Twenty-eighth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2016.
(UNEP/OzL.Pro.28/12, Decision XXVIII/14 (para (1)).

The Twenty-ninth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2017.
(UNEP/OzL.Pro.29/8, Decision XXIX/22 (para (1)).

The Thirtieth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2018.
UNEP/OzL.Pro.30/11, Decision XXX/18 (para (1)).

The Thirty-first Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2019.
UNEP/OzL.Pro.31/9/Add.1, Decision XXXI/14 (para (1)).

The Thirty-second Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2021.
UNEP/OzL.Pro.32/8/Add.1, Decision XXXII/9 (para (1)).

The Thirty-third Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2021.
UNEP/OzL.Pro.33/8/Add.1, Decision XXXIII/11 (para (1)).

The Thirty-fourth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2022.
(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/20 (para (1)).

The Thirty-fifth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2023.
(UNEP/OzL.Pro.35/12/Add.1, Decision XXXV/23 (para (1)).

The Thirty-sixth Meeting of the Parties noted with appreciation the work carried out by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, with the assistance of the Fund secretariat, in 2024.
(UNEP/OzL.Pro.36/9/Add.1, Decision XXXVI/19 (para (1)).

Equitable geographical representation in the Executive Committee

The Sixteenth Meeting of the Parties decided:

1. to amend paragraph 2 of the terms of reference of the Executive Committee, as modified by the Ninth Meeting of the Parties in decision IX/16, to read:

   "2. The Executive Committee shall consist of seven Parties from the group of Parties operating under paragraph 1 of Article 5 of the Protocol and seven Parties from the group of Parties not so operating. Each group shall select its Executive Committee members. Seven seats allocated to the group of Parties operating under paragraph 1 of Article 5 shall be allocated as follows: two seats to Parties of the African region, two seats to Parties of the region of Asia and the Pacific, two seats to Parties of the region of Latin America and the Caribbean, and one rotating seat among the regions referred, including the region of Eastern Europe and Central Asia. The members of the Executive Committee shall be endorsed by the Meeting of the Parties";

2. that the issue of seats for Parties operating under paragraph 1 of Article 5 of the Montreal Protocol and Parties not so operating shall be added to the agenda of the twenty-fifth meeting of the Open-ended Working Group.

(UNEP/OzL.Pro.16/17, Decision XVI/38).

The Thirty-fourth Meeting of the Parties decided to request the Executive Committee to consider increasing the funding allocated for travel by parties operating under paragraph 1 of Article 5 in the budget of the secretariat of the Multilateral Fund, with a view to supporting the participation in Executive Committee meetings of one party operating under paragraph 1 of Article 5 of the Protocol that is not eligible through the existing rotation system for a seat on the Executive Committee for the year in question, on the understanding that the party concerned could be co-opted by another party operating under paragraph 1 of Article 5 holding the rotating seat

for the year in question.

(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/17).

FUNCTIONS

The Executive Committee shall undertake the following functions:

(a) develop and monitor the implementation of specific operational policies, guidelines and administrative arrangements, including the disbursement of resources;

(b) develop the three-year plan and budget for the Multilateral Fund, including allocation of resources among the Implementing Agencies;

(c) supervise and guide the administration of the Multilateral Fund;

(d) develop the criteria for project eligibility and guidelines for the implementation of activities supported by the Fund;

(e) review regularly the performance reports on the implementation of activities supported by the Fund;

(f) monitor and evaluate expenditures incurred under the Fund;

(g) consider and, where appropriate, approve country programmes for compliance with the Protocol and, in the context of those country programmes, assess and, where applicable, approve all project proposals or groups of project proposals where the agreed incremental costs exceed US $500,000;

(h) review any disagreement by a Party operating under paragraph 1 of Article 5 with any decision taken with regard to a request for financing by the Party of a project or projects where the agreed incremental costs are less than US $500,000;

(i) assess annually whether the contributions through bilateral co-operation, including particular regional cases, comply with the criteria set out by the Parties for consideration as part of the contributions to the Multilateral Fund;

(j) report annually to the meeting of the Parties on the activities exercised and to make recommendations as appropriate;

(k) nominate, for appointment by the Executive Director of UNEP, the Chief Officer of the Fund Secretariat, who shall work under the Executive Committee and report to it; and

(l) perform such other functions as may be assigned to it by the Meeting of the Parties.

(UNEP/OzL.Pro/2/3 Appendix II of Decision II/8, para. 10).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix II).

The Executive Committee nominated Mr. O. El-Arini, for appointment by the Executive Director of UNEP, as Chief Officer of the Interim Multilateral Ozone Fund.
(UNEP/OzL.Pro/ExCom/2/5/Rev.1, para. 20).

The Third Meeting of the Executive Committee decided that in the documentation of the Committee the title of the Fund should be that used in Decision II/8 of the Second Meeting of the Parties, which established the Fund: the Interim Multilateral Fund for the Implementation of the Montreal Protocol (abbreviated title: Multilateral Fund).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1, para. 20).

The Fifteenth Meeting of the Parties decided:

1. to take note with appreciation of the presentation by the Chairman of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol and of the report of the Executive Committee contained in document UNEP/OzL.Pro.15/8;

2. to consider amending, at the Sixteenth Meeting of the Parties, the relevant provision of the terms of reference of the Executive Committee relating to the nomination and appointment of the Chief Officer, taking into account the proposals of the Chair of the Executive Committee given in the annex to the present decision, and also those made by other Parties;

3. to request the Executive Committee to enter into consultations with the United Nations Secretariat and the Executive Director of the United Nations Environment Programme on that matter and to report thereon to the Sixteenth Meeting of the Parties.

Annex. Add the following understanding on paragraph 10 (k) of the terms of reference of the Executive Committee: "The Executive Committee should prepare a short list of the eligible candidates, together with its recommendation, from which the Secretary-General would make a final selection."

(UNEP/OzL.Pro.15/9, Decision XV/48).

The Forty-second Meeting of the Executive Committee decided to request the Chair, on behalf of the Executive Committee, to enter into consultations with the Secretary-General of the United Nations, the Executive Director of UNEP, the United Nations Office of Human Resources Management, and the United Nations Office of Legal Affairs, regarding the terms of reference of the Executive Committee and the legal and administrative implications related to this matter, and to report to the Committee at a future meeting.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/48, para. 152).

The Forty-third Meeting of the Executive Committee decided:

(a) to take note, with appreciation, of the efforts made by the Chair and to request that the consultations required by Executive Committee decision 42/48 continue; and

(b) to request the Secretariat to circulate to members of the Executive Committee the draft of the report intended for presentation to the Sixteenth Meeting of the Parties as requested in decision XV/48 of the Fifteenth Meeting of the Parties so as to enable members to submit their comments prior to that Meeting.

(UNEP/OzL.Pro/ExCom/43/61, Decision 43/42, para. 164).

The Fifty-seventh Meeting of the Executive Committee decided to note that the Chair might attend, as an observer, coordination meetings held in the margins of the Executive Committee Meetings. At the last Meeting of the year, if it was felt that the incoming Vice-Chair would benefit from continuity measures, the incumbent Chair could bring the matter to the attention of the Executive Committee.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/1, para.26(d)).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To note:

  (i) That the Chair might attend coordination meetings held in the margins of Executive Committee Meetings, as an observer; and

  (ii) That, at the last meeting of the year, if it was felt that the incoming Chair would benefit from continuity measures, the incumbent Chair could bring the matter to the attention of the Executive Committee (decision 57/1(d));

(b) To request the Secretariat to identify the activities of the incoming Chair and Vice Chair, along with information on possible relevant missions, and to provide that information to the Chair and Vice-Chair to facilitate the smooth transition of the incoming leadership;

(c) To encourage the Chair to attend meetings of the Implementation Committee so as to better understand issues related to maintaining compliance, an important part of the Executive Committee's deliberations;

(d) To encourage Vice-Chairs unfamiliar with the working of the Executive Committee to attend briefings of the Chair;

(e) To note that the Executive Committee had decided at its 11th Meeting (UNEP/OzL.Pro/ExCom/11/36, paragraph 24) that budget line 3301 of the Secretariat's budget could be used to support travel of the Chair or Vice-Chair of the Executive Committee, irrespective of whether or not they represented countries operating under paragraph 1 of Article 5, if such travel was required to enable the Chair or Vice-Chair to represent the Executive Committee; and

(f) To note with appreciation that the approved budget had been effectively reduced over the period 2006-2009 and the proposed budget of US $15,000 for travel associated with Executive Committee-related activities in 2010, as proposed by the Multilateral Fund Secretariat (UNEP/OzL.Pro/ExCom/59/58), would be sufficient.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/53, para.286).

Requests for policy papers

The Twentieth Meeting of the Executive Committee decided to review, at the end of each Meeting, its requests for policy papers from the Secretariat so that a realistic timeframe could be agreed for their preparation and discussion.

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/14, para. 25).

Transmittal of reports to Article 5 Parties

The Fifth Meeting of the Executive Committee decided to transmit to Article 5 Parties which were not members of the Executive Committee, all its decisions and reports together with all other additional information.
(UNEP/OzL.Pro/ExCom/5/16, para. 30).

Interaction between the Executive Committee and the Implementation Committee

The Fourteenth Meeting of the Parties decided:

1. to request the Executive Committee to therefore make it clear that its funding decisions are always without prejudice to a Party's duty to meet its obligations under the Protocol, and are also without prejudice to the operation of the mechanisms in the Protocol that exist for the treatment of Parties in non-compliance. Accordingly, the Executive Committee should include language to this effect in its funding decisions where non-compliance is potentially at issue;
2. to note that while the Implementation Committee may take into account information from the Executive Committee consistent with paragraph 7(f) of the non-compliance procedure, the Executive Committee has no formal role in the crafting of Implementation Committee recommendations;
3. to further note that in no case should any Implementation Committee action be construed as directly requiring the Executive Committee to take any specific action regarding the funding of any specific project;
4. to note that the Executive Committee and Implementation Committee are independent of each other. However, pursuant to Article 10, the Multilateral Fund operates under the authority of the Parties and, pursuant to the non-compliance procedure of the Montreal Protocol, the Implementation Committee reports its recommendations to the Parties for possible decision.

(UNEP/OzL.Pro.14/9, Decision XIV/37).

At is twenty-sixth meeting the Implementation Committee agreed that in order further to facilitate the exchange of information between the two Committees, the Chair and Vice-Chair of the Executive Committee should be invited to attend the Implementation Committee's meetings. Similarly, the Committee expressed the wish for the President and Vice-President to be invited to attend the Executive Committee's meeting on a reciprocal basis.
(UNEP/OzL.Pro/ImpCom/26/5, paragraph 51).

ASSISTANCE FROM IMPLEMENTING AGENCIES

The Executive Committee shall discharge its tasks and responsibilities specified in its terms of reference as agreed by the Parties, with the co-operation and assistance of the World Bank, UNEP, UNDP, or other appropriate agencies depending on their respective areas of expertise. (UNIDO became the fourth Implementing Agency in October 1992).
(UNEP/OzL.Pro/2/3 Decision II/8, para. 6).
(UNEP/OzL.Pro/4/15 Decision IV/8 (section I.4).

Other agencies, in particular regional development banks, shall be invited by the Executive Committee to co-operate with and assist it in carrying out its functions.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 3d).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV).

Employment of Executive Committee members by Implementing Agencies

The Thirty-third Meeting of the Executive Committee decided that, where a member of an Executive Committee delegation was employed by one of the Implementing Agencies to perform ozone layer-related work, that delegation should refrain from speaking on projects related to the work for which the delegate had been hired.
(UNEP/OzL.Pro/ExCom/33/32, Decision 33/53, para. 81).

RULES OF PROCEDURES

The Second Meeting of the Parties endorsed the Rules of Procedures for meetings of the Executive Committee. Unless otherwise provided by the Protocol or by the decision of the Parties, or excluded by these Rules of Procedures, the Rules of Procedures for Meetings of the Montreal Protocol on Substances that Deplete the Ozone Layer shall apply mutatis mutandis to the proceedings of any meeting of the Executive Committee (Annex II.2).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).
(UNEP/OzL.Pro/3/11 Decision III/22 (b) and Annex VI).
(Supporting document: UNEP/OzL.Pro/3/11 Annex VI).

Meetings of the Executive Committee in 1997 and future years

The Twentieth Meeting of the Executive Committee decided:

(a) that three Executive Committee meetings should be held in 1997;

(b) that the first meeting, to be held from 17 to 19 February 1997, in accordance with decision 20/54, should consider the Implementing Agencies' 1997 business plans and work programmes, and any residual projects from 1996;

(c) that the second and third meetings could be held close to the dates of the meetings of the Open-ended Working Group of the Parties to the Montreal Protocol and the Meeting of the Parties, respectively, with the precise dates to be determined later in the year, but if the Twenty-second Meeting was held in the same venue as the meeting of the Open-ended Working Group, this would not constitute a precedent and subsequent meetings of the Executive Committee would normally be held in Montreal.

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/10, para. 21).

The Twenty-third Meeting of the Executive Committee decided to adopt the Calendar of Meetings and Work Programme of the Executive Committee for 1998 as presented in Annex II.3 which took into consideration the projection of workload during 1998, the timing of other related important events such as the seventeenth OEWG meeting (6-10 July 1998) and the Tenth Meeting of the Parties (tentatively 17-27 November 1998).
(UNEP/OzL.Pro/ExCom/23/68, Decision 23/56, para. 98).

The Nineteenth Meeting of the Parties decided to amend paragraph 8 of the terms of reference of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, as modified by the Ninth Meeting of the Parties in decision IX/16 and the Sixteenth Meeting of the Parties in decision XVI/38, to read: "8. The Executive Committee shall have the flexibility to hold two or three meetings annually, if it so decides, and shall report at each Meeting of the Parties on any decision taken there. The Executive Committee should consider meeting, when appropriate, in conjunction with other Montreal Protocol meetings."
(UNEP/OzL.Pro.19/7, Decision XIX/11).

The Thirty-second Meeting of the Executive Committee decided:

(b) that the Chair, the Vice-Chair and the Secretariat should give consideration to opportunities to attend regional meetings of environment ministers, avail themselves of such opportunities in the future and prepare a detailed report on their attendance at such meetings, which would be circulated by the Secretariat.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/1, para. 11(b)).

Organization of Ozone Secretariat and Multilateral Fund meetings

The Thirty-second Meeting of the Executive Committee decided: That when meetings organized by the Ozone Secretariat and the Multilateral Fund Secretariat are organized back-to-back, the two secretariats should coordinate arrangements to the greatest extent possible and, where possible and advantageous to the Parties, should seek to negotiate joint agreements with the hosting venue.

The Twelfth Meeting of the Parties decided that when meetings organized by the Ozone Secretariat and the Multilateral Fund Secretariat are organized back-to-back, the two secretariats should coordinate arrangements to the greatest extent possible and, where possible and advantageous to the Parties, should seek to negotiate joint agreements with the hosting venue.
(UNEP/OzL.Pro/12/9, Decision XII/16).

Executive Committee's term of office

Having noted the recommendation of the Sub-Committee that, beginning with the current year, the Executive Committee's term of office should be a calendar year, thus removing the direct linkage with the date of the Meeting of the Parties at which the new composition of the Executive Committee was decided, the Twenty-second Meeting of the Executive Committee decided to request the Chief Officer to contact the Ozone Secretariat with a view to transmitting the recommendation to the Meeting of the Parties.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/13, para. 28).

The Twenty-second Meeting of the Executive Committee decided:

(a) to recommend to the Meeting of the Parties that the Executive Committee should hold three meetings a year. It should, however, retain the flexibility to take advantage of the opportunity provided by other Montreal Protocol meetings to convene additional meetings where special circumstances made this desirable;

(b) to adopt the calendar of meetings and the work programme attached as Annex II.3 to the present report.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/14, para. 29).

The Twenty-second Meeting of the Executive Committee decided that the new schedule of meetings should be put into effect as soon as possible and therefore to hold its Twenty-third Meeting in late November or early December 1997 in accordance with the new schedule.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/15, para. 30).

Observers

The Seventy-seventh meeting decided to request the Secretariat:

(a) To continue informing members, by correspondence, of requests for observer status made by non-governmental organizations (NGOs) as long as the requests had been received at least one week ahead of the meeting of the Executive Committee in question; and

(b) That if no objections were received from members within three working days of receipt of the correspondence, the Secretariat should notify the NGOs that they had been permitted by the Executive Committee to attend the meeting as observers.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/67, para 234)

(Supporting document: UNEP/OzL.Pro/ExCom/77/Inf.2).

AGREEMENTS

The Executive Committee has approved and signed the following agreements:

Agreement with UNDP

Agreement with the United Nations Development Programme (UNDP). This agreement was adopted by the Fourth Meeting of the Parties for use by the Multilateral Fund (the content of this agreement is presented in Annex II.4).
(UNEP/OzL.Pro/ExCom/4/3/Rev.2, para. 38).
(UNEP/OzL.Pro/4/15 Decision IV/18, Section I.7).
(Supporting document: UNEP/OzL.Pro/ExCom/5/Inf.3).

The Twenty-fifth Meeting of the Executive Committee decided to approve the proposed amendments to the agreement between the Executive Committee and UNDP and authorize the Chairman of the Executive Committee to sign it on its behalf.
(UNEP/OzL.Pro/ExCom/25/68, Decision 25/2, para. 23(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/25/68, Annex II).

Agreement with UNEP

Agreement with the United Nations Environment Programme (UNEP). This agreement was adopted by the Fourth Meeting of the Parties for use by the Multilateral Fund (the content of this agreement is presented in Annex II.5).
(UNEP/OzL.Pro/ExCom/4/3/Rev.2, para. 38).
(UNEP/OzL.Pro/4/15 Decision IV/18, Section I.7).
(Supporting document: UNEP/OzL.Pro/ExCom/5/Inf.4).

Agreement with UNIDO

Agreement with the United Nations Industrial Development Organization (UNIDO). This agreement was adopted by the Fourth Meeting of the Parties for use by the Multilateral Fund (the content of this agreement is presented in Annex II.6).
(UNEP/OzL.Pro/ExCom/8/29, para. 64).
(UNEP/OzL.Pro/4/15 Decision IV/18, Section I.7).
(Supporting document: UNEP/OzL.Pro/ExCom/8/29 Annex IV).

The Twenty-fifth Meeting of the Executive Committee decided to approve the proposed amendments to the agreement between the Executive Committee and UNDP and authorize the Chairman of the Executive Committee to sign it on its behalf.
(UNEP/OzL.Pro/ExCom/25/68, Decision 25/2, para. 23(a)).
(Supporting document: UNEP/OzL.Pro/ExCom/25/68, Annex II).

Agreement with World Bank

Agreement with the International Bank for Reconstruction and Development (World Bank). This agreement was adopted by the Fourth Meeting of the Parties for use by the Multilateral Fund (the content of this agreement is

presented in Annex II.7).
(UNEP/OzL.Pro/ExCom/4/3/Rev.2, para. 38).
(UNEP/OzL.Pro/4/15 Decision IV/18, Section I.7).
(Supporting document: UNEP/OzL.Pro/ExCom/5/Inf.2).

SUB-COMMITTEES

The Executive Committee established a sub-committee to prepare, prior to its Third Meeting, proposals for more detailed implementation guidelines and criteria for project selection, including procedures for consideration and approval of proposals with costs up to $500,000.
(UNEP/OzL.Pro/ExCom/2/5/Rev.1, para. 28).

Sub-committee on financial matters

The Ninth Meeting of the Executive Committee established a Sub-Committee on Financial Matters to review and assess the existing financial arrangements and procedures, and recommend modifications, where appropriate. The terms of reference for the Sub-Committee on Financial Matters appear in Annex II.8.

The Twelfth Meeting of the Executive Committee appointed representatives of Australia, Cameroon (Chairman of Sub-Committee), France and India to the Sub-Committee on Financial Matters.
(UNEP/OzL.Pro/ExCom/12/37, para. 9).

The Fifteenth Meeting of the Executive Committee appointed representatives of Australia, Austria (Chairman of the Sub-Committee), Colombia and Thailand to the Sub-Committee on Financial Matters.
(UNEP/OzL.Pro/ExCom/15/45, para. 21).

The Nineteenth Meeting of the Executive Committee decided to convene a meeting of the Sub-Committee on Financial Matters (Australia, Austria, Philippines (Chairman) and Senegal).
(UNEP/OzL.Pro/ExCom/19/64, para. 15).

Monitoring, Evaluation, and Finance Sub-Committee

The Twenty-first Meeting of the Executive Committee, having considered a revised draft of a proposed monitoring and evaluation system prepared by the consulting firm Universalia and an oral and slide presentation by a representative of Universalia on the proposed monitoring and evaluation system, as well as the replies of the representative to a number of comments and queries by members of the Committee, decided:

(a) to replace the Sub-Committee on Financial Matters with a standing sub-committee to be called the Monitoring, Evaluation, and Finance Sub-Committee;

(b) to adopt the terms of reference contained in Annex II.9 to the present report for the Monitoring, Evaluation and Finance Sub-Committee;

(c) to request the Monitoring, Evaluation, and Finance Sub-Committee:

  (i) to review the cycle for business planning and the submission of work programmes;

  (ii) to review monitoring of approved projects; and

  (iii) to make recommendations on these matters to the Executive Committee at its Twenty-second Meeting;

(d) to revise the terms of reference, as necessary, following its review of the recommendations made by the Sub-Committee.

(e) that the membership of the Monitoring, Evaluation and Finance Sub-Committee would consist of Antigua and Barbuda, Costa Rica and Zimbabwe, from Parties operating under Article 5 of the Protocol, and Australia, Belgium and the United Kingdom, from Parties not so operating. Australia would act as Chairman.

(UNEP/OzL.Pro/ExCom/21/36, Decision 21/35, para. 49).
(Supporting document: UNEP/OzL.Pro/ExCom/21/30).

The Twenty-second Meeting of the Executive Committee noted the Sub-Committee's request that it be allotted more time in future for its meetings, as it had not had sufficient time to give due attention to all the items on its agenda and decided to request the Secretariat, in conjunction with the Chairman and Vice-Chairman of the Executive Committee, to take this into account as far as possible when planning the next Executive Committee meeting.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/17, para. 32).

The Chairman of the Executive Committee announced that the composition of the Sub-Committee on Sub-Committee on Monitoring, Evaluation and Finance for 1998 would be as follows: Article 5 countries: Costa

Rica, Jordan and Zimbabwe (Chairman). Non-Article 5 countries: Belgium, Canada and Japan.
(UNEP/OzL.Pro/ExCom/23/68, para. 99).

The composition of the Sub-Committee on Monitoring, Evaluation and Finance for 1999 would be as follows: Bahamas, Belgium (Chairman), Canada, China, Sweden and Uganda.
(UNEP/OzL.Pro/ExCom/27/48, para. 20).

The composition of the Sub-Committee on Monitoring, Evaluation and Finance for 2000 would be as follows: Australia, Bahamas (Chairman), China, Dominican Republic, Netherlands, Sweden and Uganda.
(UNEP/OzL.Pro/ExCom/30/41, para. 21).

The composition of the Sub-Committee on Monitoring, Evaluation and Finance for 2001 would be as follows: Australia, Dominican Republic, Finland (Chair), Jordan, Netherlands, Nigeria and Poland.
(UNEP/OzL.Pro/ExCom/33/32, para. 14).

The composition of the Sub-Committee on Monitoring, Evaluation and Finance for 2002 would be as follows: Canada, El Salvador, Finland, Netherlands, Nigeria, Syrian Arab Republic (Chair) and United Republic of Tanzania.
(UNEP/OzL.Pro/ExCom/36/36, para. 34).

The composition of the Sub-Committee on Monitoring, Evaluation and Finance for 2003 would be as follows: Austria, Belgium, Canada (Chair), El Salvador, Hungary, Jordan and Mauritius.
(UNEP/OzL.Pro/ExCom/39/43, para. 35).

Sub-committee on Project Review

The Eleventh Meeting of the Executive Committee decided to establish a sessional Project Review Sub-Committee as needed. Subsequently, the Fifteenth Meeting of the Executive Committee approved the terms of reference for the Sub-Committee on Project Review as appear in Annex II.10.
(UNEP/OzL.Pro/ExCom/11/36, para. 156.8).
(UNEP/OzL.Pro/ExCom/15/45, para. 173).
(Supporting document: UNEP/OzL.Pro/ExCom/11/34).

The Twentieth Meeting of the Executive Committee decided to amend the terms of reference of the Sub-Committee on Project Review to allow three NGO representatives - one nominated by the environmental NGOs, one by industrial NGOs and one by NGOs from the academic community - to attend meetings of the Sub-Committee but not to participate in its deliberations.
(UNEP/OzL.Pro/ExCom/20/72, Decision 20/52, para. 81).

The Twelfth Meeting of the Executive Committee decided to set up a project review sub-committee composed of representatives of Algeria (Chairman of Sub-Committee), Argentina, Australia, France, Malaysia and the United States of America to study policy issues identified by the Fund Secretariat in connection with project proposals.
(UNEP/OzL.Pro/ExCom/12/37, para. 10).

The Fifteenth Meeting, of the Executive Committee appointed representatives of Algeria, Argentina, Australia, Islamic Republic of Iran, the United Kingdom (Chairman of the Sub-Committee), and the United States of America to the Sub-Committee on Project Review.
(UNEP/OzL.Pro/ExCom/15/45, para. 29).

The Nineteenth Meeting of the Executive Committee convened a meeting of the Sub-Committee on Project Review (Australia, Colombia (Chairman), Egypt, India, United Kingdom and United States of America).
(UNEP/OzL.Pro/ExCom/19/64, para. 16).

The Twenty-first Meeting of the Executive Committee convened a meeting of the Sub-Committee on Project Review (India, Peru, Senegal, Switzerland (Chairman), United Kingdom and United States of America).
(UNEP/OzL.Pro/ExCom/21/36, para. 13).

The Chairman of the Executive Committee announced that the composition of the Sub-Committee on Project Review for 1998 would be as follows: Article 5 countries: India (Chairman), Peru and Burkina Faso. Non-Article 5 countries: Italy, Switzerland and United States of America.
(UNEP/OzL.Pro/ExCom/23/68, para. 99).

The composition of the Sub-Committee on Project Review for 1999 would be as follows: Brazil, Burkina Faso, India, Italy, Japan (Chairman) and the United States of America.
(UNEP/OzL.Pro/ExCom/27/48, para. 32).

The composition of the Sub-Committee on Project Review for 2000 would be as follows: Brazil, Germany, India, Japan, Slovakia, Tunisia (Chairman) and the United States of America.

(UNEP/OzL.Pro/ExCom/30/41, para. 43).

The composition of the Sub-Committee on Project Review for 2001 would be as follows: Brazil, Germany, India, Japan, Slovakia, Tunisia (Chairman) and the United States of America.
(UNEP/OzL.Pro/ExCom/33/32, para. 30).

The composition of the Sub-Committee on Project Review for 2002 would be as follows: Burundi, China, Colombia (Chair), France, Japan, Poland and the United States of America.
(UNEP/OzL.Pro/ExCom/36/36, para. 51).

The composition of the Sub-Committee on Project Review for 2002 would be as follows: of Bolivia, Burundi, France (Chair), India, Japan, Saint Lucia and the United States of America.
(UNEP/OzL.Pro/ExCom/39/43, para. 51).

Membership of the Sub-committees

The Twenty-third Meeting of the Executive Committee decided:

(a) that the membership of both the Sub-Committee on Monitoring, Evaluation and Finance and the Sub-Committee on Project Review should be balanced between Parties representing Article 5 countries and Parties representing non-Article 5 countries;

(b) that it was within the purview of each geographical group to decide which Parties would be represented on each Sub-Committee;

(c) that nothing precluded a Party from being represented simultaneously on both Sub-Committees, should that be the decision of the group concerned.

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/6, para. 19).

Composition of the two Sub-Committees

The Twenty-ninth Meeting of the Executive Committee decided that, from the year 2000 onwards, the Sub-Committee on Project Review and the Sub-Committee on Monitoring, Evaluation and Finance, in addition to having three members from Article 5 countries and three members from non-Article 5 countries, would each have a seventh member. In even-numbered years, the seventh member on the Sub-Committee on Project Review would be from the group of non-Article 5 countries and the seventh member on the Sub-Committee on Monitoring, Evaluation and Finance would be from the group of Article 5 countries. In odd-numbered years, the opposite would hold true.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/75, para. 123).

Reports of the two Sub-Committees

The Twenty-ninth Meeting of the Executive Committee decided:

(a) to request the Chairs of the two Sub-Committees, at future meetings, to indicate those parts of their reports that they would wish to see reflected in the report adopted by the Executive Committee;

(b) to request the Secretariat to place the adopted reports of the Sub-Committees on the website of the Secretariat of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/76, para. 125).

Re-organization of the work within the Sub-Committees

The Thirty-seventh Meeting of the Executive Committee decided to request the Secretariat to prepare proposals, for consideration by the Executive Committee at its 39th Meeting, on how to re-organize the work within the Sub-Committee on Project Review and the Sub-Committee on Monitoring, Evaluation and Finance, for the monitoring of national phase-out plans and ensuring compliance through those plans.
(UNEP/OzL.Pro/ExCom/37/71, Decision 37/69, para. 119).

The Thirty-ninth Meeting of the Executive Committee decided to request the Secretariat to submit the document containing proposals on how to re-organize the work of the Sub-Committee on Project Review and the Sub-Committee on Monitoring, Evaluation and Finance for the monitoring of national phase-out plans and ensuring compliance through those plans to the 40th Meeting of the Executive Committee, indicating that Parties wishing to provide input should do so by 18 April 2003 so that their comments could be incorporated in the draft document.
(UNEP/OzL.Pro/ExCom/39/43, Decision 39/2(c), para. 22).

The Fortieth Meeting of the Executive Committee decided:

(a) that the financial plan of the Fund, three year and annual business plans, and major problems affecting compliance, should be addressed by the full Executive Committee;

(b) that issues such as return of balances from cancelled or completed projects, and such other routine activities as the Executive Committee might decide, should be handled administratively between the Secretariat and responsible Implementing Agencies with appropriate reports, including audited financial reports, to the Executive Committee; and

(c) to request the Secretariat to prepare a document for consideration at the 41st Meeting further exploring the options for restructuring its work and that of its Sub Committees, and in particular examining the issues involved in retaining the two Sub Committees but with revised terms of reference or functions.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/52, para. 101).
(Supporting document: UNEP/OzL.Pro/ExCom/40/48).

Co-opted members of the Executive Committee

The Thirty-fifth Meeting of the Executive Committee decided that comments, both oral and written, provided by members of the Executive Committee should be unified submissions delivered directly and solely in the name of the Executive Committee member.
(UNEP/OzL.Pro/ExCom/35/67, Decision 35/62, para. 137).

Sub-committee for the review of paragraph 8 of Article 5

The Twelfth Meeting of the Executive Committee decided to establish a sub-committee for the review referred to in paragraph 8 of Article 5 of the Montreal Protocol, and appointed representatives of Australia (Chairman of Sub-Committee), Brazil, Denmark, India, United States of America and Venezuela to serve as members of the sub-committee. The Committee further authorized additional travel and per diem funds for sub-committee members to meet as needed. Those funds would also be transferred to the account of the Fund Secretariat and recorded in the report of the Thirteenth Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/12/37 (paras. 12, 178).
(Supporting document: UNEP/OzL.Pro/ExCom/12/35).

The Fourteenth Meeting of the Executive Committee decided that the composition of the Sub-Committee should remain unchanged until its mandate had been completed.
(UNEP/OzL.Pro/ExCom/14/15, para. 42).

NEW REGIME OF THE EXECUTIVE COMMITTEE

The Forty-first Meeting of the Executive Committee decided:

(a) starting with its first meeting in 2004, to eliminate the Sub-Committee on Monitoring, Evaluation and Finance and the Sub-Committee on Project Review and to examine all items in plenary, making use of working groups as necessary;

(b) to start each meeting with an organizational session which would examine the business plans, the availability of resources and the status of compliance;

(c) to follow that organizational session with the review of projects;

(d) to adopt the new regime on a trial basis for a year and retain the possibility of recreating the two Sub-Committees if it felt that the trial had not been successful;

(e) to examine whether the new regime provided sufficient time-saving to permit reducing the number of meetings to two per year; and

(f) bearing in mind the objectives in subparagraphs (d) and (e) above, to request the Secretariat to submit to the final meeting in 2004 a report on operation of the first two meetings in the year.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/92, para. 145).

The Forty-fourth Meeting of the Executive Committee decided:

(a) to renew the arrangement by which the work of the Executive Committee took place in plenary rather than in sub-committees;

(b) to continue discussing, throughout 2005, the issues of reducing the number of Executive Committee meetings and establishing a procedure for intersessional approval;

(c) also to request the Secretariat to produce a document compiling the views of Executive Committee members and providing an estimate of the financial implications of various scenarios; and

(d) to request interested Parties and Implementing Agencies to submit comments in writing, by 4 February 2005, for incorporation into the document to be prepared by the Secretariat.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/57, para. 231).
(Supporting document: UNEP/OzL.Pro/ExCom/44/69).

The Forty-fifth Meeting of the Executive Committee decided:

(a) to continue to meet three times a year; and

(b) to reconsider the proposals set out in document UNEP/OzL.Pro/ExCom/44/69 regarding the establishment of an intersessional approval procedure with a view to resuming discussion of the issue at the 46th Meeting.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/56, para. 181).
(Supporting document: UNEP/OzL.Pro/ExCom/45/48).

The Forty-sixth Meeting of the Executive Committee decided to re-examine the issue of the operation of the Executive Committee at its 50th Meeting.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/40, para. 170).

The Fiftieth Meeting of the Executive Committee decided:

(a) to continue to meet three times a year;

(b) to request the Chair of the Executive Committee to write to the Parties, through the Ozone Secretariat for consideration to be given at the Nineteenth Meeting of the Parties to the request of the Executive Committee to change the terms of reference of the Executive Committee to grant it the flexibility to modify the number of times it meets if necessary; and

(c) to revisit the issue of the number of Executive Committee Meetings at the 53rd Meeting in the light of the guidance given by the Nineteenth Meeting of the Parties.

(UNEP/OzL.Pro/ExCom/50/62, Decision 50/41 para. 166).

The Fifty-third Meeting of the Executive Committee decided to defer consideration of the issue the operation of the Executive Committee until the 54th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/40 para. 215).

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to note the report on the operation of the Executive Committee contained in document UNEP/OzL.Pro/ExCom/54/57; and

(b) to maintain the status quo of holding three meetings per year, but to place the issue on the agenda for consideration at its 57th Meeting.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/43 para. 187).

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to maintain the status quo of holding three meetings a year;

(b) to request the Secretariat to organize, within the next year, one meeting with a duration of four days, rather than five days;

(c) to request the Secretariat to monitor the time and workload at Meetings of the Executive Committee as compared to meetings of the Parties to the Montreal Protocol and the Open-Ended Working Group; and

(d) to place the issue of the operation of Executive Committee Meetings on the agenda for the 61st Meeting, taking into consideration the experience gained pursuant to sub paragraph (b) and the findings of sub-paragraph (c) above.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/39, para.200).
(Supporting document: UNEP/OzL.Pro/ExCom/57/66).

The Sixty-first Meeting of the Executive Committee decided:

(a) To maintain the status quo of holding three meetings a year for at least 2011, 2012 and 2013; and

(b) To review the issue of the number of meetings per year at the first meeting of 2013 in view of the workload related to HCFC phase-out management plans and any other issues at that stage.

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/48, para.116).
(Supporting document: UNEP/OzL.Pro/ExCom/61/55).

The Sixty-ninth Meeting of the Executive Committee decided:

(a) To take note of the document on the operation of the Executive Committee (UNEP/OzL.Pro/ExCom/69/36) prepared pursuant to decision 61/48; and

(b) To request the Secretariat to prepare an analysis of the implications of holding only two meetings a year without any intersessional approval procedure for consideration by the Executive Committee at its 70th meeting.

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/25, para.125).
(Supporting document: UNEP/OzL.Pro/ExCom/69/36).

The Seventieth Meeting of the Executive Committee decided:

(a) To take note of the document on the operation of the Executive Committee (UNEP/OzL.Pro/ExCom/70/55), prepared pursuant to decision 69/24;

(b) To convene two meetings of the Executive Committee in 2014 on a trial basis, preferably in mid-April/early-May for the first meeting, and prior to the Twenty Sixth Meeting of the Parties for the second meeting, on the understanding that:

(i) The revised schedule of tranche requests for stage I of HCFC phase-out management plans (HPMPs) for Article 5 countries would be submitted between the first and the last meetings, as contained in Annex XXIV to the present report;

(ii) The terminal report and the plan of future action associated with the renewal of institutional strengthening projects could be submitted to the meeting immediately preceding the set date, namely, six months before the end of the previously approved period, to avoid any delay in the approval of such projects and on the understanding that they were in compliance with all relevant decisions;

(iii) Tranche requests for HPMPs with a funding level of up to US $5 million (including agency support costs) would be included in the list of projects and activities recommended for blanket approval, provided that they contained no policy issues and all technical and cost issues had been agreed between the Secretariat and relevant bilateral and/or implementing agencies;

(iv) The 2014-2016 business plan of the Multilateral Fund would be submitted to the last meeting of the year, beginning in 2013;

(v) The document on the 2014 business plan and tranche submission delays would be submitted to both the first and last meetings of the year, thus amending decision 53/3(c);

(vi) A revised 2015-2017 business plan could be submitted to the first meeting of 2015 following the adoption of the 2015-2017 replenishment of the Multilateral Fund by the Parties to the Montreal Protocol;

(vii) The evaluation of the 2013 business plans would be submitted to the last meeting in 2014;

(viii) With regard to progress and financial reports:

a. Bilateral and implementing agencies would be requested to continue submitting their annual progress and financial reports to the Secretariat by 1 May each year;

b. The Secretariat would be requested to finalize the consolidated progress report and the relevant progress reports of the bilateral and implementing agencies and to post those documents on the Secretariat's intranet, once finalized, for consideration to the last meeting of the year;

c. The Secretariat would be authorized to request relevant bilateral and implementing agencies to provide status reports on issues identified during the review of the annual progress and financial reports;

(c) To note that the Executive Committee could request the Secretariat to organize an intersessional meeting to discuss any urgent policy issues or project proposals that would need to be addressed between the first and last meetings where the compliance of an Article 5 country with its obligations under the Montreal Protocol was at risk; and

(d) To review the two meetings per year scenario at the last meeting of 2014.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/23 para.132).
(Supporting document: UNEP/OzL.Pro/ExCom/70/55).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the review of the operation of the Executive Committee prepared pursuant to decision 70/23(d) contained in document UNEP/OzL.Pro/ExCom/73/59;

(b) To agree to continue convening two meetings of the Executive Committee from 2015 onwards with the possibility of holding an additional brief meeting if required between those meetings to consider project proposals;

(c) To note:

(i) That the three-year business plan of the Multilateral Fund would be submitted to the last meeting of the year;

(ii) That a document entitled "Country programme data and prospects for compliance" would be submitted to the first and last meetings of the year;

(iii) With regard to progress and financial reports:

a. That bilateral and implementing agencies would be requested to submit their annual progress and financial reports to the Secretariat 12 weeks in advance of the last meeting of the year;

b. That the consolidated progress report and the relevant progress reports of the bilateral and implementing agencies would be considered at the last meeting of the year;

(d) To note that, in the absence of an agreement by the Executive Committee on the composition of the Sub-group on the Production Sector, the documents for the first meeting of the Sub-group in a given year would be conveyed only to the heads of Executive Committee delegations, with the consent of the country or countries concerned;

(e) To invite bilateral and implementing agencies to submit projects proposals and reports in advance of the prescribed deadlines wherever possible, in order to facilitate their timely review by the Secretariat;

(f) To request the Secretariat to continue reviewing the standard agenda items of the Executive Committee meetings with a view to streamlining and improving the efficiency of the operation of the Executive Committee;

(g) To request the Secretariat to prepare a document on the main procedures of the operation of the Executive Committee, including the roles of the Secretariat and the implementing agencies regarding their provision of advice to the Executive Committee and, where applicable, to beneficiary countries, in order to provide a basis for discussion of the roles and responsibilities of the Executive Committee, the Secretariat and implementing agencies of the Multilateral Fund, for presentation to the Executive Committee at its last meeting in 2015, with a view to improving understanding and initiating changes where necessary; and

(h) To review the scenario of two Executive Committee meetings per year at the first meeting of the Committee in 2016.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/70 para.232).
(Supporting document: UNEP/OzL.Pro/ExCom/73/59).

The Seventy-sixth meeting of the Executive Committee decided:

(a) To note document UNEP/OzL.Pro/ExCom/76/63 on the review of the operation of the Executive Committee, prepared pursuant to decision 73/70(h); and

(b) To defer a decision on the number, timing and agenda of meetings, and on the deadlines for submission of documents, to the 77th meeting.

UNEP/OzL.Pro/ExCom/76/66, Decision 76/55, para 195-)
(Supporting document: UNEP/OzL.Pro/ExCom/76/63).

The Seventy-seventh meeting of the Executive Committee decided:

(a) To note the document UNEP/OzL.Pro/ExCom/77/71 on the operation of the Executive Committee, prepared pursuant to decisions 73/70(h) and 76/55(b);
(b) To continue convening two meetings of the Executive Committee from 2017 onwards, preferably in the second or third week of June for the first meeting, and in late November or the first week of December for the second meeting, with the possibility of holding an additional brief meeting if required to consider project proposals or specific requests from the Parties to the Montreal Protocol;
(c) To request the Secretariat to reorganize agenda items for Executive Committee meetings according to the classification scheme described in document UNEP/OzL.Pro/ExCom/77/71 and as formulated in the illustrative agendas for the first and second meetings contained in the document;
(d) To note:
(i) With regard to progress and financial reports:
a. That bilateral and implementing agencies would be requested to submit their annual progress and

financial reports for the previous year to the Secretariat by 1 May if the first meeting were convened on or after 1 July, otherwise 12 weeks prior to the second meeting of the year;

b. That the consolidated progress report and the relevant progress reports of the bilateral and implementing agencies would be considered at the first meeting of the year if that meeting were convened on or after 1 July, and at the second meeting of the year if it were convened earlier;

(ii) That the sub-agenda item on the evaluation of the performance of implementing agencies would be considered at the first meeting of the year if that meeting were convened on or after 1 July, and at the second meeting of the year if it were convened earlier; and

(e) To continue to invite bilateral and implementing agencies to submit projects proposals and reports in advance of the prescribed deadlines wherever possible, in order to facilitate their timely review by the Secretariat.
(UNEP/OzL.Pro/ExCom/77/76, Decision 77/60-, para 216)
(Supporting document: UNEP/OzL.Pro/ExCom/77/71).

EXECUTIVE COMMITTEE PRIMER

The Forty-sixth Meeting of the Executive Committee decided:

(a) to note the draft outline of an Executive Committee primer as contained in document UNEP/OzL.Pro/ExCom/46/46; and

(b) to request the Secretariat to proceed with the development of a draft primer for submission to the 47th Meeting, taking into account the comments made at the 46th Meeting.
(UNEP/OzL.Pro/ExCom/46/47, Decision 46/41, para.180).
(Supporting document: UNEP/OzL.Pro/ExCom/46/46).

The Forty-seventh Meeting of the Executive Committee decided:

(a) to note the draft Executive Committee primer contained in document UNEP/OzL.Pro/ExCom/47/58;

(b) to request Executive Committee members to submit their written comments on the draft primer to the Secretariat by 6 January 2006; and

(c) having taken account of those comments, to request the Secretariat to circulate the draft primer for final clearance by current Executive Committee members prior to finalization and distribution to new Executive Committee members in advance of the first meeting of 2006, on the understanding that it would be further updated on an ongoing basis.
(UNEP/OzL.Pro/ExCom/47/61, Decision 47/53, para. 206).
(Supporting document: UNEP/OzL.Pro/ExCom/47/58).

COST OF EXECUTIVE COMMITTEE MEETINGS

The Fifty-ninth Meeting of the Executive Committee decided to request the Secretariat to prepare for consideration by the Executive Committee at its Sixtieth Meeting an historical analysis of the cost of Executive Committee Meetings.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/43, para. 203).
The Executive Committee at its Sixtieth Meeting took note of the historical analysis of the cost of Executive Committee Meetings (decision 57/43(d)), as contained in document UNEP/OzL.Pro/ExCom/60/52.
(UNEP/OzL.Pro/ExCom/60/54, para. 203).
(Supporting document UNEP/OzL.Pro/ExCom/60/52)

ADVISORY GROUPS

Technical group

The Executive Committee decided to establish an independent technical advisory group which would meet as directed. The modalities and operational aspects of the group would be worked out by the Fund Secretariat and submitted to the Thirteenth Meeting of the Executive Committee for decision.
(UNEP/OzL.Pro/ExCom/12/37, para. 144).

Group on production of substitutes

The Twelfth Meeting of the Executive Committee requested the Secretariat to convene a group composed of experts on process engineering related to the production of ODS substitutes and financial experts to consider issues associated with the calculation of incremental costs in the production of ODS substitutes. The Secretariat would

request the participation of the representatives of Implementing Agencies and experts from developed and developing countries as deemed appropriate. The group would strive where possible to identify specific areas that should be considered by the Executive Committee before approving production projects and to recommend potential solutions that could usefully inform the Executive Committee's consideration.
(UNEP/OzL.Pro/ExCom/12/37, para. 109).

The Fifteenth Meeting of the Executive Committee approved the terms of reference of the Expert Group on the Production of Substitutes for Ozone- Depleting Substances as appear in Annex II.11, and decided that the draft terms of reference to be prepared for the purpose of audit of the ODS producing industries in each of the ODS producing Article 5 countries by the Expert Group on the Production of Substitutes for ODS should not include policy and strategic issues as those were to be addressed by the country in its sector strategy.
(UNEP/OzL.Pro/ExCom/15/45, para. 158).

The Eighteenth Meeting of the Executive Committee decided that the next meeting of the working group should be attended by four members of the Executive Committee, two from Article 5 and two from non-Article 5 countries, to be selected as soon as the new membership of the Executive Committee was determined by the Seventh Meeting of the Parties.
(UNEP/OzL.Pro/ExCom/18/75, Decision 18/24, para. 55 (c).

The Twentieth Meeting of the Executive Committee decided:

(a) to accept the report and refer the matter back to the Expert Group on Production of Substitutes for Ozone-Depleting Substances for further work in the light of the comments made on the presentation by various representatives;

(b) to request India to make a presentation on enforced idleness to the Expert Group;

(c) to recommend that the Executive Committee to be appointed by the Eighth Meeting of the Parties re-establish the Subgroup on the Production Sector as a matter of urgency;

(d) to request the Expert Group to resubmit the report, including information on enforced idleness, through the Subgroup on the Production Sector, to the Twenty-first Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/43, para. 65).
(Supporting document: UNEP/OzL.Pro/ExCom/20/63).

Sub-group on the Production Sector

The Twenty-third Meeting of the Executive Committee decided:

(a) that the Subgroup on the Production Sector be reconstituted from amongst members of the next Executive Committee;

(b) that the next meeting of the Subgroup be held on 17-19 February 1998 in Washington;

(c) to request the Subgroup to continue its work and report the results of its meeting in February 1998 to the next meeting of the Executive Committee;

(d) to accept the offer of the representative of the United States of America to host the meeting in Washington; and

(e) to make a provision of additional US $30,000 in the budget of the Secretariat for the meeting of the Subgroup in February 1998 and for another potential meeting after March 1998.

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/50, para. 89).

The Chairman of the Executive Committee announced that the composition of the Subgroup on the Production Sector for 1998 would be as follows: Article 5 countries: China, Costa Rica and India. Non-Article 5 countries: Canada (Facilitator), Italy and United States of America.
(UNEP/OzL.Pro/ExCom/23/68, para. 99).

The Twenty-sixth Meeting of the Executive Committee decided:

(a) to expand the Subgroup’s mandate to include discussions on actual project proposals and the formulation of recommendations on projects relating to the closure of ODS production-sector facilities, in order to enable the Subgroup to bring its recommendations on projects directly to the Executive Committee for its consideration;

(b) to request the Secretariat to retain the services of the technical audit consultant for an additional mandate to assist the Subgroup in its deliberations on projects during the first part of 1999 and to entrust the Subgroup

with drafting the terms of reference for the services of the consultant, following the completion of the technical audit report.

(UNEP/OzL.Pro/ExCom/26/70, Decision 26/40, para. 70).

The Twenty-sixth Meeting of the Executive Committee further noted that, because of the change of membership of the Executive Committee, it might be necessary to replace some members of the Subgroup in 1999. The Committee also took note of the Subgroup's recommendation that countries and Implementing Agencies submitting projects should be invited, at the Subgroup's discretion, to attend Subgroup meetings.

The Thirtieth Meeting of the Executive Committee decided to re-establish the Subgroup on the Production Sector, composed of Australia (convener), Brazil, China, Dominican Republic, Germany, India and the United States of America.

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/3, para. 10).

The Thirty-fifth Meeting of the Executive Committee decided to include in the agenda of the 36th Meeting of the Executive Committee the reconstitution of the Sub-Group on the production sector.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/59, para. 129(c)).

The Thirty-sixth Meeting of the Executive Committee decided, pursuant to Decision 35/59, to re-constitute the Subgroup on the Production Sector, composed of: Burundi, Canada, China, Colombia, El Salvador, France, Netherlands and United States of America. The Subgroup selected Canada as its facilitator.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/54, para. 112).

The Thirty-ninth Meeting of the Executive Committee agreed that the Subgroup would be composed of representatives of Bolivia, Canada, El Salvador, France, India and the United States of America, and that it should appoint its own facilitator at its first meeting. The Subgroup selected Canada as its facilitator.

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/1, para. 13).

The Forty-second Meeting of the Executive Committee decided to reconstitute the Subgroup on the Production Sector with the following composition: Bangladesh, Canada (facilitator), China, Cuba, Japan, Mauritius, the United Kingdom, and the United States of America.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/1, para. 15).

The Forty-fifth Meeting of the Executive Committee decided to reconstitute the Subgroup on the Production Sector with the following composition: Brazil, Canada (facilitator), Japan, the Syrian Arab Republic, Thailand, the United Kingdom of Great Britain and Northern Ireland, the United States of America and Zambia.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/1, para. 15).

The Fifty-third Meeting of the Executive Committee decided that the production sector sub-group would be reconvened at the 55th Meeting to consider issues pertaining to the phase-out of HCFC production, taking into account decision XIX/6 of the Nineteenth Meeting of the Parties and the following issues [see Hydrochlorofluorocarbons under Controlled Substances section], as well as further elaboration and analysis of those issues to be prepared by the Secretariat in consultation with technical experts:

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/37 (g), para. 201).

The Fifty-fifth Meeting of the Executive Committee decided:

(a) not to reconvene the Sub-group on the production sector at the 55th Meeting;
(b) that the open-ended contact group should continue to discuss the issues related to the HCFC production sector at the 56th Meeting of the Executive Committee based on document UNEP/OzL.Pro/ExCom/55/45.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/42, para.193).

The Seventy-seventh Meeting of the Executive Committee agreed to reconvene the Sub-group on the Production Sector with the following composition: Argentina, Austria, Canada (facilitator), China, Germany, India, Japan, Jordan, Mexico and the United States of America.:

(UNEP/OzL.Pro/ExCom/77/76, para. 11).

The Seventy-eighth Meeting of the Executive Committee agreed to reconstitute the Sub-group on the Production Sector, with the following composition: Australia, Argentina, Austria, China, Germany, Lebanon, Mexico and the United States of America. That would allow work to begin at the 79th meeting, when the facilitator of the group would also be chosen.

(UNEP/OzL.Pro/ExCom/78/11, para. 123).

The Seventy-ninth Meeting of the Executive Committee agreed to reconvene the Sub-group on the Production Sector constituted at the 78th meeting with the following composition: Argentina, Australia (facilitator), Austria,

China, Germany, Lebanon, Mexico and the United States of America.
(UNEP/OzL.Pro/ExCom/79/51, para. 13).

The Eightieth Meeting of the Executive Committee agreed to reconvene the Sub-group on the Production Sector, constituted at the 78th meeting, with the following composition: Argentina, Australia (facilitator), Austria, China, Germany, Lebanon, Mexico and the United States of America.
(UNEP/OzL.Pro/ExCom/80/59, para. 13).

The Eighty-first Meeting of the Executive Committee agreed to reconvene the Sub-group on the Production Sector with the following composition: Argentina, Canada (facilitator), the Dominican Republic, France, India, Nigeria, Norway and the United States of America.
(UNEP/OzL.Pro/ExCom/81/58, para. 11).

The Eighty-second Meeting of the Executive Committee agreed to reconvene the Sub-group on the Production Sector with the following composition: Argentina, Canada (facilitator), the Dominican Republic, France, India, Nigeria, Norway and the United States of America.
(UNEP/OzL.Pro/ExCom/82/72, para. 15).

The Eighty-third Meeting of the Executive Committee agreed to reconvene the Sub-group on the Production Sector with the following composition: Argentina, Canada, China, France, Grenada, Niger, Norway and the United States of America.
(UNEP/OzL.Pro/ExCom/83/48, para. 15).

The Eighty-fourth Meeting of the Executive Committee agreed to reconvene the Sub-group on the Production Sector, with the following composition: Argentina, Canada (facilitator), China, France, Grenada, Niger, Norway and the United States of America.
(UNEP/OzL.Pro/ExCom/84/75, para. 18).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2020, with the following composition: Australia (facilitator), Bahrain, Chile, India, Suriname, Switzerland, the United Kingdom of Great Britain and Northern Ireland and the United States of America.

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2021, with the following composition: Armenia, Australia (facilitator), China, Paraguay, Suriname, Switzerland, the United Kingdom of Great Britain and Northern Ireland, and the United States of America.

(UNEP/OzL.Pro/ExCom/86/100, paras. 15-16).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2021, with the following composition: Armenia, Australia (facilitator), China, Paraguay, Suriname, Switzerland, the United Kingdom of Great Britain and Northern Ireland, and the United States of America.

(UNEP/OzL.Pro/ExCom/87/58, para. 12).

The Executive Committee further agreed to reconvene the Sub-group on the Production Sector, with the following composition: Armenia, Australia (facilitator), China, Paraguay, Suriname, Switzerland, the United Kingdom of Great Britain and Northern Ireland, and the United States of America.

(UNEP/OzL.Pro/ExCom/88/79, para. 12).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2022, with the following composition: Brazil, Canada (facilitator), Cuba, Finland, India, Italy, the United States of America and Zimbabwe.

(UNEP/OzL.Pro/ExCom/90/40, para. 9).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2023 with the following composition: Brazil, Canada, Cuba, Finland, India, Italy, the United States of America and Zimbabwe.

(UNEP/OzL.Pro/ExCom/91/72, para. 21).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2023 with the following composition: Australia, Brazil, China, Cuba, Finland, Italy, Kenya and the United States of America.

(UNEP/OzL.Pro/ExCom/92/56, para. 11).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2023 with the following composition: Australia, Brazil, China, Cuba, Finland, Italy, Kenya and the United States of America.

(UNEP/OzL.Pro/ExCom/93/105, para. 11).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2024 with the following composition: Argentina, Canada, Cuba, India, Italy, Jordan, Sweden and the United States of America.

(UNEP/OzL.Pro/ExCom/94/67, para. 15).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2024 with the following composition: Argentina, Canada, Cuba, India, Italy, Jordan, Sweden and the United States of America.

(UNEP/OzL.Pro/ExCom/95/94, para. 14).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2025 with the following composition: Argentina, Canada, China, Cuba, Italy, Lesotho, Sweden and the United States of America.

(UNEP/OzL.Pro/ExCom/96/66, para. 16).

The Executive Committee agreed to reconvene the Sub-group on the Production Sector for 2025 with the following composition: Argentina, Canada, China, Cuba, Italy, Lesotho, Sweden and the United States of America.

(UNEP/OzL.Pro/ExCom/97/91, para. 13).

Contact group on SME

The Twenty-second Meeting of the Executive Committee formed a contact group, with the participation of the representatives of Australia, China, Costa Rica, India, Peru, Switzerland, United Kingdom and United States of America.

Based on an information paper submitted by Sweden and Malaysia and the recommendations submitted by the contact group, the Twenty-second Meeting of the Executive Committee decided:

(a) that the contact group should meet at the next Executive Committee meeting to continue the discussion. In order to have a fruitful discussion, members of the contact group should come with the following information:

  (i) national experience in managing the ODS phase-out by SMEs;

  (ii) problems and challenges in achieving phase-out by SMEs in their country;

  (iii) proposals on national strategies and plans to move ahead on SMEs phase-out;

(b) to set up a pilot programme on SMEs at the next meeting. For that purpose, the Group will present proposals on:

  (i) the sector/sub-sectors to be focused on;

  (ii) the criteria to be applied;

  (iii) that the Sweden/Malaysia information paper provided to the contact group be included as part of the documentation for the pilot programme.

(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/67 (paras. 89 and 90).

The Twenty-third Meeting of the Executive Committee decided:

(a) to note the report of the Contact Group on SMEs presented by its Chair (Costa Rica);

(b) to request the Secretariat to provide the following information to the members of the Group by the end of 1997:

  a break-down by sector, including information on cost, cost-effectiveness and ODS phase-out, from the inventory of approved projects of the SMEs already funded, using the definitions of SMEs from the UNDP/UNEP paper (UNEP/OzL.Pro/ExCom/19/54).

  national studies and surveys on SMEs available to the Secretariat (noting that Mexico promises to send its national survey on SMEs once the survey is completed in January 1998, and China promises to send its report on SMEs, to the Secretariat for circulation to members of the Group).

  completion reports and elaborated progress reports on ongoing projects from Implementing Agencies on approved SME projects. Therefore the Implementing Agencies are requested to submit these data to the

Secretariat no later than 4 December 1997.

(c) to encourage members of the Contact Group that had not already done so to submit to the Secretariat their national perspective on the problems and approaches on ODS phase-out by SMEs; and

(d) to note that the draft proposal of the Contact Group would be presented to the first meeting of the Executive Committee in 1998.

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/54, para. 94).

At its Twenty-fourth Meeting, the Chairman of the Executive Committee announced that Peru would be the new chairperson of the Contact Group.

The Twenty-fourth Meeting of the Executive Committee decided that Implementing Agencies, countries and members of the Contact Group should provide their reports or views by 1 May 1998 to enable the Contact Group to coordinate and present a further report to the next meeting of the Committee.

(UNEP/OzL.Pro/ExCom/24/47, Decision 24/63 (paras. 106 and 107).

ANNEX II.2: RULES OF PROCEDURE FOR MEETINGS OF THE EXECUTIVE COMMITTEE

Venue

The meetings of the Executive Committee shall take place at the seat of the Fund Secretariat, unless other appropriate arrangements are made by the Fund Secretariat in consultation with the Executive Committee.
UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rule 3).
UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).

Meetings of the Executive Committee shall be held at least twice every year. At each meeting, the Executive Committee shall fix the opening date and duration of the next meeting. The Secretariat shall notify all Committee members of the dates and venue of meetings at least six weeks before the meeting.
(UNEP/OzL.Pro/2/3 Appendix II of Decision II/8, para. 8).
(UNEP/OzL.Pro/3/11 Annex VI to Decision III/22 (Rules 4,5).

The Ninth Meeting of the Parties decided that the Executive Committee shall hold three meetings a year while retaining the flexibility to take advantage of the opportunity provided by other Montreal Protocol meetings to convene additional meetings where special circumstances make this desirable.
(UNEP/OzL.Pro.9/12, Decision IX/16, para. b).

Observers

The Secretariat shall notify the President of the Bureau and the Implementing Agencies - inter alia, UNEP, UNDP and the World Bank - of any meeting of the Executive Committee so that they may participate as observers. Such observers may, upon invitation of the Chairman, participate without the right to vote in the proceedings of any meeting.

The Secretariat shall notify any body or agency, whether national or international, governmental or non-governmental, qualified in the field related to the work of the Executive Committee, that has informed the Secretariat of its wishes to be represented, of any meeting so that it may be represented by an observer subject to the condition that their admission to the meeting is not objected to by at least one third of the Parties present at the meeting. However, the Executive Committee may determine that any portion of its meetings involving sensitive matters may be closed to observers. Non-governmental observers should include observers from developing and developed countries and their total number should be limited as far as possible. Such observers may, upon invitation of the Chairman and if there is no objection from the Committee members present, participate without the right to vote in the proceedings of any meeting in matters of direct concern to the body or agency which they represent.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rules 6, 7).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).

Agenda

In agreement with the Chairman and the Vice-Chairman, the Secretariat shall prepare the provisional agenda for each meeting. The Secretariat shall report to the meeting on the administrative and financial implications of all substantive agenda items submitted to the meeting, before their consideration. Unless the meeting decides otherwise, no such item shall be considered until at least twenty-four hours after the meeting has received the Secretariat's report on the administrative and financial implications. Any item of the agenda which has not been completed during the meeting shall be included automatically in the agenda of the next meeting, unless otherwise decided by the Executive Committee.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rules 8-10).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).

Representations

Each Executive Committee member shall be represented by an accredited representative who may be accompanied by such alternate representatives and advisors as may be required.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rule 12).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).

If the Chairman is temporarily unable to fulfill the obligation of the office, the Vice-Chairman shall in the interim assume all the obligations and authorities of the Chairman. If the Chairman or Vice-Chairman is unable to complete the term of office the Committee members representing the group which selected that officer shall select a replacement to complete the term of office.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rules 13, 14).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).

Secretariat functions

The Secretariat shall:

(a) make the necessary arrangements for the meetings including the issue of invitations and preparation of documents and reports;

(b) arrange for the custody and preservation of the documents in the archives of the international organization designated as Secretariat of the Convention; and

(c) generally perform other functions that the Executive Committee may require.

The Chief Officer of the Secretariat shall be the Secretary of any meeting of the Executive Committee.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rules 15, 16).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex II).

Decision process

Decisions shall be taken by consensus whenever possible. If all efforts at consensus have been exhausted and no agreement reached, decisions shall be taken by a two-thirds majority of the Parties present and voting, representing a majority of the Parties operating under paragraph 1 of Article 5 and a majority of the Parties not so operating present and voting.
(UNEP/OzL.Pro/2/3 Appendix II of Decision II/8, para. 4).
(UNEP/OzL.Pro.3/11 Annex VI to Decision III/22 (Rule 17).

Official languages

The meetings of the Executive Committee shall be conducted in those official languages of the United Nations required by members of the Executive Committee. Nevertheless the Executive Committee may agree to conduct its business in one of the United Nations official languages.
(UNEP/OzL.Pro/2/3 Appendix II of Decision II/8, para. 5).
(UNEP/OzL.Pro/3/11 Annex VI to Decision III/22 (Rule 18).

Costs

Costs of meetings, including travel and subsistence of Executive Committee participants from Parties operating under paragraph 1 of Article 5 shall be disbursed from the Multilateral Fund as necessary.
(UNEP/OzL.Pro/2/3 Appendix II of Decision II/8, para. 6).
(UNEP/OzL.Pro/4/15 Annex X to Decision IV/8, para. 6).

The Executive Committee decided that budget line 3301 could be used to support travel of the Chairperson or Vice-Chairperson of the Executive Committee, irrespective of whether or not they represented countries operating under paragraph 1 of Article 5, if such travel was required to enable the Chairperson or Vice-Chairperson to represent the Executive Committee.
(UNEP/OzL.Pro/ExCom/11/36, para. 24).

The Executive Committee decided in 1992 that when the President of the Bureau of the Meeting of the Parties to the Montreal Protocol is a national of a developing country operating under Article 5, paragraph 1, the costs of travel and daily subsistence allowance for his/her attendance or attendance of his/her representative as observer at the meeting should be paid from the Fund.
(UNEP/OzL.Pro/ExCom/5/16, para. 65).

The rules of procedures may be amended according to Rule 17 (voting) and formally endorsed by the Meeting of the Parties to the Montreal Protocol.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rule 19).

In the event of any conflict between any provision of the rules of procedures and any provision of the Montreal Protocol, the Protocol shall prevail.
(UNEP/OzL.Pro/3/11 Annex VI of Decision III/22 (Rule 20).

ANNEX II.3: CALENDAR OF MEETINGS AND WORK PROGRAMME FOR THE EXECUTIVE COMMITTEE

Mtg. No	Timing	Interval from previous mtg.	Work to be done in the interval	Agenda
1st	First half of March	months	Revise draft business plans. Finalize work programmes. Prepare policy papers	Approve projects Review/approve policy papers Approve revised business plans. Approve work programmes. Review status of phase-out
2nd	End of June/early July	months	Project development. Policy paper preparation. Progress report preparation. Preparation of evaluation of previous year's business plans. ANNEX II.4: AGREEMENT BETWEEN THE EXECUTIVE COMMITTEE OF THE INTERIM MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE UNITED NATIONS DEVELOPMENT PROGRAMME

The Executive Committee and UNDP signed an agreement on 21 August 1991. Under this agreement:

UNDP shall establish a Trust Fund under its financial regulations and rules for the receipt and administration of the contribution;

The Executive Committee shall place at the disposal of UNDP the contribution for agreed activities. To this effect, the Executive Committee shall transfer the agreed amounts for each activity in full, on approval, to the UNDP Contributions Account Number 015-002284, Chemical Bank, New York (all financial accounts and statements shall be expressed in United States dollars);

The Trust Fund shall be utilized by UNDP for the purpose of meeting the costs of the projects as set out in the relevant project documents and work programmes as well as the costs of support services relating thereto as specified in the following paragraph.

The Trust Fund shall be charged with a percentage of all project expenditures made from the Trust Fund which shall, in accordance with UNDP regulations, rules and directives, be utilized by UNDP in reimbursement for support services provided by the selected executing agencies and/or by UNDP itself and would include other support services as required. The amount required for such costs shall be specified in the approved project documents and work programme.

Any interest income derived from contributions to the Trust Fund shall be credited to the Trust Fund in accordance with UNDP procedures.

The Trust Fund shall be administered by UNDP in accordance with UNDP regulations, rules and directives, applying its normal procedures for the execution of its projects. Project management and expenditures shall be governed by the regulations, rules and directives of UNDP and, where applicable, the regulations, rules and directives of the selected executing agency.

The implementation of the responsibilities of UNDP and of the selected executing agencies pursuant to this Agreement and the relevant project documents and/or work programmes will depend on the timely receipt by UNDP of the contribution.

The aggregate of the amounts budgeted for the projects and work programmes, including the estimated costs of reimbursement of related support services, shall not exceed the total resources available under this Agreement.

If unforeseen increases in expenditures or commitments are expected or realized, UNDP shall submit, through the Chief Officer of the Fund Secretariat to the Executive Committee, on a timely basis a supplementary estimate detailing the further financing that will be necessary. The Executive Committee shall use its best efforts to obtain the additional funds required.

If the contribution-payments are not received in accordance with the payment schedule as specified in the work programme, or if the additional financing required in accordance with above paragraph is not forthcoming from the Executive Committee or other sources, the assistance to be provided pursuant to this Agreement may be reduced, suspended or terminated by UNDP. No commitments shall be made by UNDP prior to the receipt of these contributions-payments.

Income not spent in a budget year may be carried forward from one year to the next within the financial validity of this Agreement.

The accounts shall be subject to the internal and external auditing procedures provided in the financial regulations, rules and directives of UNDP.

UNDP reserves the right only to accept a regional or eligible bilateral contribution under the Fund, by a country not operating under paragraph 1 of Article 5, where the provided services can be effectively utilized by the recipient country.

At the specific request of the recipient countries operating under paragraph 1 of Article 5 of the Protocol and when technically justified, eligible in-kind support can be provided in the form of expert personnel, technology, technical documentation and training under projects or programmes implemented by UNDP. Such inputs shall be incorporated in the relevant project documents.

UNDP shall notify the Chief Officer of the Fund Secretariat and the Executive Committee when all activities relating to the purposes for which the Trust Fund was established have been completed.

Notwithstanding the completion of the projects financed from the Trust Fund, UNDP shall continue to hold unutilized contribution-payments until all commitments and liabilities incurred in implementation of the projects have been satisfied and project activities brought to an orderly conclusion.

If the unutilized contribution-payments are insufficient to meet such commitments and liabilities, UNDP shall notify the Chief Officer of the Fund Secretariat and will consult both with the Chief Officer and the Executive Committee on the manner in which such commitments and liabilities may be satisfied.

In the event of termination of this Agreement, UNDP shall continue to hold unutilized contribution-payments until all commitments and liabilities incurred in implementation of the projects and programmes have been satisfied and project and programme activities brought to an orderly conclusion.

Any contribution-payments that remain unexpended after such commitments and liabilities have been satisfied shall be transferred to the Executive Committee through the Chief Officer of the Fund Secretariat.
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section A: Financial Procedures).

As specified by the Parties and on the invitation of the Executive Committee, UNDP shall consult regularly with the other Implementing Agencies and, in particular, with the World Bank and UNEP to facilitate programme coordination and prevent duplication of activities.

UNDP, as requested by the Executive Committee in the context of country programmes developed to facilitate compliance with the Montreal Protocol, will co-operate with and assist the Parties within its respective areas of expertise.

UNDP, jointly with the Fund Secretariat and other Implementing Agencies, shall co-operate with the Parties to provide information on funding available for relevant projects, to secure the necessary contacts and to coordinate, when requested by the interested Party, projects financed from other sources with activities financed under the Protocol.

The financing of activities or other costs, including resources channeled to third party beneficiaries, shall require the concurrence of the recipient Government concerned. The recipient Government shall be fully associated with the planning of the projects and programmes.

The annual UNDP work programme under this Agreement, including proposed budgets, will be submitted through the Chief Officer of the Fund Secretariat to the Executive Committee for approval.

In the design and selection of projects, UNDP will follow the Executive Committee's criteria for project eligibility and its guidelines for the implementation of activities supported by the Multilateral Fund.

The Executive Committee will consider and, where appropriate, approve country programmes for compliance with the Protocol and, in the context of those country programmes, assess and, where applicable, approve those project proposals or group of project proposals formulated by UNDP independently or by UNDP in co-operation with other Implementing Agencies where the agreed incremental costs exceed US $500,000.

The Executive Committee will review any disagreement by a Party operating under paragraph 1 of Article 5 with any decision taken with regard to a request for financing by that Party of a project or projects where the agreed incremental costs are less than US $500,000 and where UNDP is involved in whole or in part as an Implementing Agency.
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section B: Operational Procedures).

Ownership of equipment, supplies and other property financed from the contribution shall vest in UNDP for the duration of the specific project or programme activity, after which the ownership shall be transferred to the appropriate institution or agency in the recipient country in accordance with the relevant policies and procedures of UNDP, taking into account recommendations that may be received from the Chief Officer of the Fund Secretariat.
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section C: Ownership and Disposal of Property).

The Administrator of UNDP, or his designated representative, will participate in meetings of the Executive Committee to report and consult on UNDP's activities under these arrangements.
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section D: Participation at Meetings).

As approved by the Executive Committee and in accordance with UNDP accounting and reporting procedures,

UNDP shall submit to the Executive Committee through the Fund Secretariat the following reports:

(a) semi-annual progress reports on substantive project activities;

(b) an annual report in implementation of activities or prior approved work programmes and activities related to country programmes;

(c) an annual report on the status of UNDP activities related to country programmes including the activities of concerned UNDP field offices;

(d) an annual report on income and expenditures for the previous years; and

(e) a revision of the current year's budget, where necessary, and the following year's budget and workplan.

UNDP shall contribute to an annual report to be prepared by the Fund Secretariat on the interagency work programme and coordination of activities.

The Executive Committee will review periodically performance reports on UNDP's implementation of activities supported by the Fund and will monitor and evaluate expenditures incurred. The Executive Committee will transmit its findings to UNDP for comment and follow-up.
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section E: Reports).

Any dispute, controversy or claims arising out of, or in connection with, this Agreement or any breach thereof shall, unless it is settled by direct negotiation, be settled by arbitration in accordance with the UNCITRAL Arbitration Rules as at present in force. The Executive Committee and UNDP agree to be bound by any arbitration award rendered in accordance with this section as the final adjudication of any dispute.
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section F: Settlement of Disputes).

The present arrangements may be amended by agreement in writing between the Executive Committee and UNDP. These arrangements will terminate at the option of either the Executive Committee or UNDP upon six months written notice.
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section G: Amendments or Termination of the Agreement).

This Agreement entered into force on 21 August 1991 (date of its signature).
(UNEP/OzL.Pro/ExCom/5/Inf.3, Section H: Effective Date of Agreement).

AMENDMENT TO THE AGREEMENT BETWEEN THE EXECUTIVE COMMITTEE OF THE (THEN INTERIM) MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE UNITED NATIONS DEVELOPMENT PROGRAMME (UNDP), SIGNED ON 21 AUGUST 1991

1. For purposes of making commitments in respect of agreed activities, UNDP shall consider as resources at its disposal:
   a) contribution payments in cash transferred to UNDP by the Executive Committee through the Treasurer of the Fund (UNEP), and
   b) resources allocated to UNDP by the Executive Committee, held by the Treasurer on behalf of the Executive Committee in irrevocable promissory notes.
2. Resources held and allocated to UNDP by the Treasurer of the Fund shall be considered by UNDP to be available for purposes of making commitments after UNDP receives written confirmation to this effect from the Treasurer.
3. Cash transfers will be made by the Executive Committee through the Treasurer to cover the disbursement requirements of agreed activities. These will be based on periodic cash flow estimates submitted by UNDP.
4. The Executive Committee shall ensure, through the Treasurer of the Fund, that adequate cash is made available to UNDP in advance to cover at least one year's estimated disbursement requirements for agreed activities, provided cash flow estimates for any given period are submitted well in advance by UNDP (preferably three months).
5. The details related to cash flow estimates and cash transfers will be agreed between UNDP and the Treasurer of the Fund.
6. This amendment supersedes those relevant stipulations of the agreement which relate to commitments and transfers of contribution payments

ANNEX II.5: AGREEMENT BETWEEN THE EXECUTIVE COMMITTEE OF THE INTERIM MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE UNITED NATIONS ENVIRONMENT PROGRAMME

The Executive Committee and UNEP signed an agreement on 19 June 1991. Under this agreement:

UNEP agrees to co-operate with the Executive Committee and eligible Parties in the areas detailed under its scope of co-operation, and for this purpose a work programme and budget will be presented annually by UNEP to the Executive Committee for its approval. The work programme and budget shall be made available in sufficient time prior to the meeting of the Executive Committee at which the work programme is to be considered. The work programmes shall identify the nature of the activity for which financing is requested, its timing and duration, cost details, participants, and expected outcome of the activity. The work programme shall be accompanied by a budget for proposed activities. In preparing its work programme, UNEP shall take into consideration requests by Parties operating under paragraph 1 of Article 5 of the Protocol for assistance in implementing their proposed programme of activities under the Protocol. Funds for these support activities shall be included in the annual work programme.

In developing its work programme, UNEP shall consult with the World Bank and the UNDP before making proposals to the Executive Committee on matters of interest to them and will pay due regard to their views. UNEP shall keep the other Implementing Agencies continuously and adequately informed in a timely manner of its activities covered by these arrangements as they affect the other Agencies.

UNEP shall co-operate with the Secretariat of the Fund to provide Parties with information on funding available for relevant projects, to secure the necessary contacts, and to coordinate, when requested by the interested Party, projects financed from other sources with activities financed under the Protocol.

In discharging its responsibilities, UNEP will use, as appropriate, its Headquarters Secretariat, its Regional Offices, its Specialized Offices, especially its Industry and Environment Office.
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section A: Financial Procedures).

Upon approval by the Executive Committee of the programme of activities proposed by UNEP, UNEP will administer and manage the approved projects under a specific Trust Fund established in accordance with:

(a) the financial rules, regulations and procedures of the Environment Fund of UNEP;
(b) the application of considerations relevant to effective and economically efficient implementation of programmes an projects that are consistent with any criteria adopted by the Parties; and
(c) the guidelines for the implementation of activities supported by the Fund as adopted by the Executive Committee; and

The Executive Committee shall approve the transfer to UNEP of resources allocated by the Committee for the implementation of the activities approved by it. At the specific request of the recipient countries operating under paragraph 1 of Article 5 of the Protocol and when technically justified, eligible in-kind support can be provided in the form of expert personnel, technology, technical documentation and training under projects or programmes implemented by UNEP. Such inputs shall be incorporated in the relevant project documents.

Any interest income derived from contributions to the trust fund shall be credited to the fund in accordance with UNEP procedures.

The Trust Fund shall be charged with a percentage of all project expenditures made from the Trust Fund, which amount shall, in accordance with UNEP regulations, rules and directives, be utilized by UNEP in reimbursement for support services provided by any selected Implementing Agencies other than UNEP and/or by UNEP itself. The amount required for such costs shall be specified in the approved project documents and work programmes.

The accounts of the resources transferred to UNEP shall be subject to the internal and external audit procedures applicable to the United Nations.

UNEP will present to the Executive Committee, with the six monthly and financial reports any requests for meeting unforeseen increases in costs of the implementation of the approved activities.

UNEP shall not be required to start any activity supported by the Fund before the transfer of resources.

If unforeseen increases in expenditures or commitments are expected or realized, UNEP shall submit through the Chief Officer of the Fund Secretariat to the Executive Committee on a timely basis a supplementary estimate detailing the further financing that will be necessary. The Executive Committee shall use its best efforts to obtain the additional funds required.

UNEP may agree to co-financing arrangements, on terms determined consistently with the financial provisions in

this agreement, in cases in which such financing is to be provided for purposes of the Protocol.

UNEP shall continue to hold all unutilized contribution payments until all commitments and liabilities incurred in the implementation of the projects have been satisfied and project activities brought to an orderly conclusion. Upon completion of its activities and fulfillment of its obligations, UNEP shall return all unused resources to the Fund unless otherwise agreed.
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section B: Operational Procedures).

Ownership of equipment, supplies and other property financed from the contribution shall vest in UNEP for the duration of the specific project or programme activity. Following the completion of the above specified project or programme activity, ownership shall be transferred to the appropriate institution or agency in the recipient country in accordance with the relevant policies and procedures of UNEP, taking into account recommendations that may be received from the Chief Officer of the Fund Secretariat.
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section C: Ownership and Disposal of Property).

The Executive Director of UNEP, or his representative, shall be invited to participate in meetings of the Executive Committee to report and consult on UNEP's activities under these arrangements.
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section D: Participation at Meetings).

As approved by the Executive Committee and in accordance with UNEP accounting and reporting procedures, UNEP shall submit to the Executive Committee through the Fund Secretariat the following reports:

(a) semi-annual progress reports on substantive project activities;
(b) an annual report on implementation of activities of prior approved work programmes and activities related to country programmes;
(c) an annual report of the status of UNEP activities related to country programmes;
(d) an annual report on income and expenditures for the previous years; and
(e) a revision of the current year's budget where necessary and the following year's budget and workplan.

UNEP shall contribute to the annual report to be prepared by the Fund Secretariat on the interagency work programme and coordination of activities.

The Executive Committee will review periodically performance reports on UNEP's implementation of activities supported by the Fund and will monitor and evaluate expenditures incurred. The Executive Committee will transmit its findings to UNEP for comment and follow-up.
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section E: Reports).

Any dispute, controversy or claims arising out of, or in connection with this Agreement, or any breach thereof shall, unless it is settled by direct negotiation, be settled by arbitration, in accordance with the UNCITRAL Arbitration Rules as at present in force. UNEP and the Executive Committee agree to be bound by any arbitration award rendered in accordance with this section as the final adjudication of any dispute,
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section F: Settlement of Disputes).

Nothing in or relating to any provision in the Arrangement shall be deemed a waiver, expressed or implied, of the privileges and immunities of the United Nations, including UNEP.
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section G: General Provision).

The present arrangements may be amended by agreement in writing between the Executive Committee and UNEP.

These arrangements will terminate at the option of either the Executive Committee or UNEP upon six months' written notice.
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section H: Amendments or Termination of the Agreement).

This Agreement entered into force on 19 June 1991 (date of its signature).
(UNEP/OzL.Pro/ExCom/5/Inf.4, Section I: Effective Date of Agreement).

ANNEX II.6: AGREEMENT BETWEEN THE EXECUTIVE COMMITTEE OF THE INTERIM MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION

The Executive Committee and UNIDO signed an agreement on 22 October 1992. Under this agreement:

UNIDO shall establish a Special Account in accordance with its financial regulations and rules and administrative instructions or directives for the receipt and administration of the afore-said contribution, including interest accruing. Accordingly, personnel shall be engaged and administered; equipment, supplies and services purchased; and contracts entered into in accordance with such regulations, rules and directives.

The Executive Committee shall place at the disposal of UNIDO the contributions to a Special Account for agreed activities. To this effect, the Executive Committee shall transfer the agreed amounts in fully convertible currencies for each activity in full, on approval, to the UNIDO/OPF Dollar Account Number 0422-01004/00, Creditanstalt Bankverein, Vienna International Centre, A-1400 Vienna, Austria.

All financial accounts and statements shall be expressed in United States dollars, and there shall be no accounting or reporting in other currencies. For the purpose of recording receipts and/or payments, all transactions shall be converted into United States dollars at the official United Nations rate of exchange applicable on the date of receipt and/or payment.

The contributions shall be utilized by UNIDO for the purpose of meeting the costs of the projects as set out in the relevant project documents and work programmes as well as the costs of support services relating thereto as specified in paragraph below.

The Special Account shall be charged with a percentage of all project expenditures made from the Special Account which shall, in accordance with UNIDO regulations, rules and directives, be utilized by UNIDO and would include other support services as required. The amounts required, as well as agency support costs, shall be specified in the approved project documents and work programmes.

Any interest income derived from contributions to the Special Account shall be credited to the Special Account in accordance with the financial regulations, rules and directives of UNIDO.

The Special Account shall be administered by UNIDO in accordance with UNIDO regulations, rules and directives, applying its standard procedures for the execution of its projects. Project management and expenditures shall be governed by the regulations, rules and directives of UNIDO.

The implementation of the responsibilities of UNIDO pursuant to this Agreement and the relevant project documents and/or work programmes will depend on the timely receipt by UNIDO of the contribution. The Executive Committee undertakes to meet the actual costs of the services approved by UNIDO in accordance with this Agreement and the work programme. UNIDO shall commence and continue to implement projects only on receipt of a sufficient contribution.

The aggregate of the amounts budgeted for the projects and work programmes shall not exceed the total resources available under this Agreement.

If UNIDO considers that changes between the components and/or budget lines in the projects or work programme are necessary in order to meet the objectives of the project concerned, UNIDO may effect such changes, provided the total amount of the project budget in the projects or work programme is not exceeded.

If the contribution-payments are not received in accordance with the payment schedule as specified in the work programme, or if the additional financing required is not forthcoming from the Executive Committee or other sources, the assistance to be provided pursuant to this Agreement may be reduced, suspended or terminated by UNIDO. No commitments shall be made by UNIDO prior to the receipt of these contribution-payments.

Income not spent in a budget year may be carried forward from one year to the next within the financial validity of this Agreement.

The accounts shall be subject exclusively to the internal and external auditing procedures provided in the financial regulations, rules and directives of UNIDO.

UNIDO reserves the right only to accept a regional or eligible bilateral contribution under the Fund, by a country not operating under paragraph 1 of Article 5, where the provided services can be effectively utilized by the recipient country.

At the specific request of the recipient countries operating under paragraph 1 of Article 5 of the Protocol, and when technically justified, eligible in-kind support can be provided in the form of expert personnel, technology, technical documentation and training under projects or programmes implemented by UNIDO. Such inputs shall be incorporated in the relevant project documents.

UNIDO shall notify the Chief Officer of the Fund Secretariat and the Executive Committee when all activities relating to the purposes for which the Special Account was established have been completed.

Notwithstanding the completion of the projects financed from the Special Account, UNIDO shall continue to hold unutilized contribution-payments until all commitments and liabilities incurred in implementation of the projects have been satisfied and project activities brought to an orderly conclusion.

If the unutilized contribution-payments are insufficient to meet such commitments and liabilities, UNIDO shall notify the Chief Officer of the Fund Secretariat and will consult both with the Chief Officer and the Executive Committee on the manner in which such commitments and liabilities may be satisfied.

UNIDO shall notify the Executive Committee when the purposes for which the contributions were provided have been realized and the approved projects have been operationally completed.

In the event of termination of this Agreement, UNIDO shall continue to hold unutilized contribution-payments until all commitments and liabilities incurred in implementation of the projects and programmes have been satisfied and project and programme activities brought to an orderly conclusion.

Any contribution-payments that remain unexpended after such commitments and liabilities have been satisfied shall be transferred to the Executive Committee through the Chief Officer of the Fund Secretariat. Thereafter UNIDO's responsibilities under this Agreement shall be considered terminated.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section A: Financial Provisions).

As specified by the Parties and on the invitation of the Executive Committee, UNIDO shall consult regularly with the other Implementing Agencies and, in particular, with UNDP, the World Bank and UNEP to facilitate programme coordination and prevent duplication of activities.

UNIDO as requested by the Executive Committee, in the context of projects developed to facilitate compliance with the Protocol will co-operate with and assist the Parties within its respective areas of expertise.

UNIDO, jointly with the Fund Secretariat and other Implementing Agencies, shall co-operate with the Parties to provide information on funding available for relevant projects, to secure the necessary contacts and to coordinate, when requested by the interested Party, projects financed from other sources with activities financed under the Protocol.

The financing of activities or other costs, including resources channeled to third party beneficiaries, shall require the concurrence of the recipient Government concerned. The recipient Government shall be fully associated with the planning of the projects and programmes.

The annual UNIDO work programme under this Agreement, including proposed budgets, will be submitted through the Chief Officer of the Fund Secretariat to the Executive Committee for approval. Upon approval of the work programme by the Executive Committee, UNIDO shall implement projects in accordance with the work programme and, as appropriate, in accordance with the legal arrangements to be concluded between UNIDO and the recipient governments.

In the design and selection of projects UNIDO will follow the Executive Committee's criteria for project eligibility and its guidelines for the implementation of activities supported by the Fund.

The Executive Committee will assess and, where applicable, approve those project proposals or group of project proposals formulated by UNIDO independently or by UNIDO in co-operation with other Implementing Agencies, and, where the agreed incremental costs exceed US $500,000.

The Executive Committee will review any disagreement by a Party operating under paragraph 1 of Article 5 with any decision taken with regard to a request for financing of a project or projects where the agreed incremental costs are less than US $500,000 and where UNIDO is involved in whole or in part as an Implementing Agency.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section B: Operational Procedures).

Ownership of equipment, supplies and other property financed from the contribution shall vest in UNIDO for the duration of the specific project or programme activity. Following operational completion of the project, the ownership shall be transferred to the appropriate institution or agency in the recipient country in accordance with

the relevant policies and procedures of UNIDO, taking into account recommendations that may be received from the Chief Officer of the Fund Secretariat.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section C: Ownership and Disposal of Property).

The Director-General of UNIDO, or his designated representative, will participate as appropriate in meetings of the Executive Committee to report and consult on UNIDO's activities under these arrangements.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section D: Participation at Meetings).

As approved by the Executive Committee and in accordance with UNIDO accounting and reporting procedures, UNIDO shall submit to the Executive Committee through the Fund Secretariat the following reports:

(a) semi-annual progress reports on substantive project activities;

(b) an annual progress report on implementation of activities of prior approved projects and work programmes;

(c) an annual financial statement on the overall status of the Donor's contributions, supported by delivery reports for each project financed from the Special Account;

(d) a revision of the current year's budget, where necessary, and the following year's project budgets and work plans;

(e) a final report including assessment of the results achieved, upon operational completion of the projects; and

(f) a final financial report on the implementation of the completed projects, within six months of the end of the year in which the final disbursement was made on account of the projects.

UNIDO shall contribute to an annual report to be prepared by the Fund Secretariat on the inter-agency work programme and coordination of activities.

The Executive Committee will review periodically performance reports on UNIDO's implementation of activities supported by the Fund and will monitor and evaluate expenditures incurred. The Executive Committee will transmit its findings to UNIDO for comment and follow-up.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section E: Reports).

Any dispute, controversy or claims between the Parties to this agreement, arising out of, or in connection with, this Agreement or any breach thereof shall, unless it is settled by direct negotiation, be settled by arbitration in accordance with the UNCITRAL Arbitration Rules as at present in force. The Executive Committee and UNIDO agree to be bound by any arbitration award rendered in accordance with this section as the final adjudication of any dispute.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section F: Settlement of Disputes).

The present arrangements may be amended by agreement in writing between the Executive Committee and UNIDO, and will terminate at the option of either the Executive Committee or UNIDO upon six months written notice.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section G: Amendments or Termination of the Agreement).

This Agreement entered into force on 22 October 1992 (date of its signature).
(UNEP/OzL.Pro/ExCom/8/29 Annex IV, Section H: Effective Date of Agreement).

AMENDMENT TO THE AGREEMENT BETWEEN THE EXECUTIVE COMMITTEE OF THE (THEN INTERIM) MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE UNITED NATIONS INDUSTRIAL DEVELOPMENT ORGANIZATION, SIGNED 22 OCTOBER 1992

1. For purposes of making commitments in respect of agreed activities, UNIDO shall consider as resources at its disposal:
   a) Contribution payments in cash transferred to UNIDO by the Executive Committee through the Treasurer of the Fund (UNEP), and
   b) Subject to confirmation by the Treasurer of the Fund in accordance with paragraph 2 below, resources allocated to UNIDO by the Executive Committee and held by the Treasurer on behalf of the Executive Committee in irrevocable promissory notes.
2. Resources held and allocated to UNIDO by the Treasurer of the Fund shall be considered by UNIDO to be available for purposes of making commitments after UNIDO receives written confirmation to this effect from the Treasurer.
3. Cash transfers shall be made by the Executive Committee through the Treasurer to cover the disbursement requirements of agreed activities. These will be based on periodic cash flow estimates submitted by UNIDO.
4. The Executive Committee shall ensure, through the Treasurer of the Fund, that adequate cash is made available to UNIDO in advance to cover at least one year's estimated disbursement requirements for agreed activities, provided cash flow estimates for any given period are submitted well in advance by UNIDO (preferably three months).
5. The details related to cash flow estimates and cash transfers will be agreed between UNIDO and the Treasurer of the Fund.
6. This amendment supersedes those relevant stipulations of the agreement which relate to commitments and transfers of contribution payments.

ANNEX II.7: AGREEMENT BETWEEN THE EXECUTIVE COMMITTEE OF THE INTERIM MULTILATERAL FUND FOR THE IMPLEMENTATION OF THE MONTREAL PROTOCOL AND THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT (WORLD BANK).

The Executive Committee and the World Bank signed an agreement on 9 July 1991. Under this agreement:

The World Bank will co-operate with the Executive Committee and assist it in accordance with these arrangements in administering and managing the programme under the authority of the Parties to finance the agreed incremental costs of Parties operating under paragraph 1 of Article 5 of the Protocol. In performing its functions under these arrangements, the World Bank will act through the Ozone Projects Trust Fund (OTF) and will apply only those considerations relevant to effective and economically efficient programmes and projects which are consistent with criteria adopted by the Parties and guidelines adopted by the Executive Committee.
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section A: Scope of Co-operation).

The World Bank will prepare a work programme in co-operation with recipient countries, UNEP and UNDP, for its activities under these arrangements, including a budget, for approval by the Executive Committee on an annual basis. The work programme as approved by the Executive Committee will be consistent with the relevant decisions of the parties and guidelines adopted by the Executive Committee regarding project eligibility and the implementation of activities supported by the Fund.

The World Bank will co-operate with the Parties, UNEP, UNDP, and the Executive Committee through the Secretariat of the Fund, to provide information on funding available for relevant projects, to secure the necessary contacts, and to coordinate, when requested by the interested Party, projects financed from other sources with activities financed under the Protocol.

The World Bank will co-operate with the Parties operating under paragraph 1 of Article 5 of the Protocol and assist them, as requested by them and in accordance with the approved work programme referred to in paragraph 2, in developing each Party's country programme (CP) as envisaged in the Terms of Reference of the Fund, as well as projects to facilitate compliance with the Protocol.

The World Bank will review each CP in respect of which it will perform its functions under these arrangements, and submit its views to the Executive Committee. Upon approval of the CP by the Executive Committee, the World Bank will assist the party to implement the projects contained in it. The World Bank will do so by following its rules and procedures and in accordance with the approved work programmes in co-operation with UNEP and UNDP. The World Bank may approve a request for financing by the Party of a project or projects pursuant to the approved CP if the agreed incremental costs are less than US $500,000. Additional financing from the Fund for unforeseen increases in expenditure for any project will be subject to approval by the World Bank, except that if the additional financing would cause the total expenditures for the project to exceed US $500,000, the financing will be subject to approval by the Executive Committee as adjustment to the current, or part of the next, work programme. For projects where the agreed incremental cost exceeds US $500,000 financing by the World Bank is subject to the approval of the Executive Committee as part of a CP.

Any disagreement by a Party operating under paragraph 1 of Article 5 with any decisions taken with regard to a request for financing by that Party of a project or projects where the agreed incremental costs are less than US $500,000 may, at the request of the Party, be referred to the Executive Committee for review.

Pending the preparation of country programmes, the procedures in above two-paragraphs will apply also as appropriate to projects consistent with the ozone layer protection policies of Parties operating under paragraph 1 of Article 5 of the Protocol, which the Executive Committee finds in compliance with the control measures of the Protocol.
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section B: Operational Procedures).

The Bank will hold and administer funds provided to the Bank pursuant to this agreement in trust, together with any other assets and receipts of the OTF, for the benefit of the Parties in accordance with the decision by the World Bank to provide for the establishment of the OTF and these arrangements.

The Executive Committee will arrange for the transfer of funds contributed by the Parties and allocated by the Executive Committee to the OTF for expenses incurred or to be incurred by the World Bank for the activities it undertakes pursuant to these arrangements and for the implementation of approved country programmes and projects, as soon as the funds become available. The transfer will be made in cash in United States dollars or at the request of the Executive Committee by the deposit of notes or similar obligations denominated in United States dollars and issued by the government of a Party or the depository designed by such Party, which shall be non-

negotiable, non-interest bearing and payable in United States dollars at their par value on demand to the OTF or in accordance with a schedule of encashment agreed by the World Bank, provided that in exceptional cases and as administratively feasible on the basis of appropriate arrangements, as determined by the World Bank, contributions may be made also in other currencies.

Funds held in the OTF will be invested pending disbursement in accordance with the regular practice of the Bank, and the income of investment will be added to the resources of the OTF.

The World Bank will be reimbursed annually in full for the expenses incurred by it for the activities it undertakes pursuant to these arrangements. The reimbursement will be made on the basis of estimated costs, subject to adjustment as of the end of the Bank's financial year, and will be charged against the resources of the OTF.

The World Bank will present to the Executive Committee detailed annual financial statements expressed in United States dollars, externally audited, as part of its annual report.

The World Bank will make no commitments for financing under these arrangements in advance of the receipt of financing in the OTF to finance the commitments.

The Executive Committee will notify the World Bank through the Secretariat if a shortfall in resources for the approved work programme is anticipated or if the work programme needs to be adjusted for this reason.

The World Bank may agree to co-financing arrangements with Parties and others for the purpose of these arrangements.

The World Bank will provide financing from the OTF in the form of grants denominated in United States dollars.

The World Bank will continue to hold all unutilized resources in the OTF until all commitments and liabilities under these arrangements have been satisfied, project activities have been brought to an orderly conclusion and reimbursement under paragraph 11 has been made, after which any remaining resources will be transferred as the Executive Committee may determine. If the unutilized resources prove insufficient to meet such commitments, liabilities and reimbursement, the World Bank will consult with the Executive Committee on the manner in which such commitments, liabilities and reimbursement may be satisfied.
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section C: Financial Provisions).

The President of the World Bank, or his representative, will participate in meetings of the Executive Committee in order to report and consult on the World Bank's activities under these arrangements.
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section D: Participation in Meetings).

The World Bank will provide to the Executive Committee through the Secretariat semi-annual progress reports and an annual report on implementation by the World Bank of previously approved work programmes and activities related to country programmes and projects, including coordination with UNEP and UNDP under these arrangements. The financial statements will be attached to the annual report.

The reports will include proposals if necessary to revise the current year's budget; provide for the work programme, including a budget, for the following year, and describe any disagreement by a Party operating under paragraph 1 of Article 5 of the Protocol with any decision taken by the World Bank with regard to a request for financing by that Party of a project or projects where the agreed incremental costs are less than US $500,000. After the OTF shall have been fully used, the World Bank will present a final report on the operations financed under these arrangements.
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section E: Reporting by the World Bank).

These arrangements may be amended by agreement of the Executive Committee and the World Bank in writing at any time.
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section F: Amendment).

These arrangements will terminate thirty days after either the Executive Committee or the World Bank may have given notice in writing to the other party of its decision to terminate them, in which event the World Bank will take all necessary action for the expeditious and orderly winding up of its activities under these arrangements pursuant to paragraph 17.
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section G: Termination).

This Agreement entered into force on 9 July 1991 (date of its signature).
(UNEP/OzL.Pro/ExCom/5/Inf.2, Section H: Effective Date of Agreement).

ANNEX II.8: TERMS OF REFERENCE OF THE SUB-COMMITTEE ON FINANCIAL MATTERS

The Executive Committee established at its Ninth Meeting a Sub-Committee on Financial Matters to review and assess the existing financial arrangements and procedures, and recommend modifications, where appropriate. It will pay particular attention to the need for:

(a) a uniform format for financial reporting by the Implementing Agencies and methodology of tracking financial transactions, on an ongoing basis;

(b) modalities for the disbursement of funds to Implementing Agencies and the development of cash flow requirements;

(c) independent financial and project audits, as appropriate.

The Sub-Committee will address issues pertaining to the receipt of contributions to the Fund, and any other matter that the Executive Committee deems appropriate.

The Sub-Committee shall consist of two Executive Committee members from Parties operating under paragraph 1 of Article 5 of the Protocol and two Committee members from Parties not so operating. The Chair of the Sub-Committee will be determined by the membership and alternate among members from one meeting to the next.

The Treasurer and the Secretariat will assist the Sub-Committee in its work and participate in Sub-Committee meetings. Implementing agencies may be invited to participate. The Sub-Committee is empowered to require the attendance of any Implementing Agency on any financial matter causing concern to the Sub-Committee.

The Sub-Committee will be a standing committee. It will be appointed for a period of one year coinciding with the terms of the office of the Chair and Vice-Chair.

(UNEP/OzL.Pro/ExCom/9/20, para. 32, Annex II).
(Supporting document: UNEP/OzL.Pro/ExCom/9/20 Annex II).

ANNEX II.9: TERMS OF REFERENCE OF THE MONITORING, EVALUATION, AND FINANCE SUB-COMMITTEE

The Executive Committee at its Twenty-first Meeting decided to create a standing sub-committee entitled the Monitoring, Evaluation and Finance Sub-Committee which will replace the Sub-Committee on Financial Matters established at the Ninth Meeting of the Executive Committee.

The Sub-Committee will be a standing committee. It will be appointed for a period of one year coinciding with the term of the Chair and Vice-Chair of the Executive Committee. In accordance with past practice, the Chair of the Sub-Committee will be determined by the membership and alternate among members from one Meeting of the Parties to the next.

The Sub-Committee shall consist of three Executive Committee members form Parties operating under paragraph 1 of Article 5 of the Protocol and three members from Parties not so operating, as determined by the respective groups. The Treasurer and the Secretariat will assist the Sub-Committee in its work and participate in Sub-Committee meetings. Implementing agencies may be invited to participate. The Sub-Committee is empowered to require the attendance of any Implementing Agency on any matter causing concern to the Sub-Committee.

The Sub-Committee will be a closed Committee. Executive Committee members may be admitted as observers with the express agreement of the Chairman. With the concurrence of all members of the Sub-Committee, the Chairman could invite the observers to speak. Three representatives from non-governmental organizations (NGOs) - one nominated by environmental NGOs, one by industry NGOs and one by NGOs from the academic community - may observe the meeting of the Sub-Committee but may not participate.

The working language of the meeting of the Sub-Committee will be English.

The Sub-Committee will address issues concerning monitoring and evaluation of approved projects, progress reports, business plans, and the business planning process under the Multilateral Fund. All of the responsibilities of the Sub-Committee on Financial Matters established at the Ninth Meeting of the Executive Committee are transferred to the Monitoring, Evaluation, and Finance Sub-Committee.
(UNEP/OzL.Pro/ExCom/21/36, Decision 21/35(para. 49).

ANNEX II.10: TERMS OF REFERENCE FOR THE SUB-COMMITTEE ON PROJECT REVIEW

The Executive Committee, at its Fifteenth Meeting, approved the terms of reference for the Sub-Committee on Project Review.

The Sub-Committee on Project Review will:

(a) consider and review projects and activities submitted to the Executive Committee under bilateral co-operation; Implementing Agencies' work programmes; country programmes; and investment projects submitted by the Implementing Agencies;

(b) address issues arising from projects and activities submitted to the Executive Committee in accordance with established guidelines and criteria;

(c) identify and clarify outstanding policy issues arising from projects submitted to the Executive Committee;

(d) report and make recommendations on the above to the Executive Committee; and

(e) consider any other matter the Executive Committee deems appropriate.

The Sub-Committee shall consist of three Executive Committee members from Parties operating under paragraph 1 of Article 5 of the Montreal Protocol and three Executive Committee members from Parties not so operating. The Chairman of the Sub-Committee will be determined by the membership and will alternate among members between Article 5 and non-Article 5 Parties from one Meeting of the Parties to the next.

The Secretariat will assist the Sub-Committee in its work and participate in Sub-Committee meetings. Implementing agencies are required to participate. The Sub-Committee may invite representatives of the established Technical Advisory Group and the Group on Production of Substitutes or other experts to participate in the meetings.

The Sub-Committee will be a Standing Committee. It will be appointed for a period coinciding with the terms of the office of the Chairman and Vice-Chairman of the Executive Committee.

The Sub-Committee will convene its meetings as determined by the Executive Committee.

The Sub-Committee will be a closed Committee. Executive Committee members may be admitted as observers with the express agreement of the Chairman. With the concurrence of all members of the Sub-Committee the Chairman could invite the observers to speak. Three representatives from non-governmental organizations (NGOs) -one nominated by the environmental NGOs, one by industrial NGOs and one by NGOs from the academic community- may observe the meeting of the Sub-Committee but may not participate. Implementing agencies will explain details of projects before the Sub-Committee and provide information to assist the Sub-Committee in its deliberations.

The Sub-Committee will require final details of all projects it is to consider to be distributed to members no later than seven days before the meeting.

The working language of the meetings of the Sub-Committee will be English."
(UNEP/OzL.Pro/ExCom/15/45, para. 173).
(UNEP/OzL.Pro/ExCom/20/72, Annex VII).

ANNEX II.11: TERMS OF REFERENCE FOR THE EXPERT GROUP ON THE PRODUCTION OF SUBSTITUTES FOR OZONE-DEPLETING SUBSTANCES

Title and Status: The title of this group is Expert Group on the Production of Substitutes for Ozone- Depleting Substances.

The Group would have an advisory status with the Executive Committee. It may attend the Meetings of the Executive Committee or a future production sector sub-committee if so requested by the Committee.

This Expert Group would:

(a) advise on operational policies and guidelines on various technical and economic issues associated with the production of substitutes for ozone-depleting substances (ODS). In formulating such advice, consideration should be given to non-global warming alternatives, wherever possible.

(b) draft the terms of reference for an audit of the ODS producing industries in each of the ODS producing Article 5 countries.

The purpose of such an audit is to examine:

- the structure and status of the existing plants;
- the current technologies applied;
- the likely conversion paths, taking into consideration the countries' strategies for phasing out ODS, the industrial policy of the country, the economies of scale and the market development; and
- estimate at national level a minimum the country should receive as incremental capital and operating costs to convert/close all of its existing ODS producing industries.

The end product from this audit will serve as the framework against which the Executive Committee will review production sector projects from that country.

(c) advise on any other issues in the production sector as may be requested by the Executive Committee.

The composition of the Group would be as follows:

(a) fields of expertise required:

- chemical engineering, with emphasis on process engineering in fluorochemical industry and not-in-kind substitutes such as high purity hydrocarbons and ammonia;
- technology transfer with background in fluorocarbon and chlorofluorocarbon production; and
- knowledge in ODS and substitute production and marketing.

(b) principles in selecting membership

Bearing in mind that this is an Expert Group established for a very specialized subject, the following principles are proposed to be followed in selecting the membership:

- members of the Group serve on the Group in their own capacity and not as representatives of the organizations they belong to;
- technical and professional expertise;
- balance between Article 5 and non-Article 5 countries with due regard for geographical representation; and
- independence of the individuals.

For effective conduct of business, it is proposed to limit the size of the Expert Group to ten members.

The Group will work closely with the Fund Secretariat. The Chief Officer will be the contact point between the Group and the Executive Committee, and is responsible for providing Secretariat assistance to the Group in conducting its business. Meetings of the Group will be attended by representatives of the relevant Implementing Agencies that are likely to be involved in production sector projects.

The proceedings and the report of the meetings of the Expert Group remain confidential until they are cleared by the Group and presented to the Executive Committee.

The preliminary list of issues to be reviewed by the expert group includes:

Types of anticipated projects

1. conversion or partial conversion of existing CFC-11/12 manufacturing facilities to produce substitutes: e.g. HFCs (HFC-134a, HFC-152a), hydrocarbons (cyclopentane, iso-butane, etc.) ammonia, HCFCs.
2. shut down of equivalent ODS production capacities.

3. production of halon substitutes (e.g. ABC powder, CO_2, nitrogen).
4. shut down of equivalent halon production facilities.
5. establishing production facilities for the processing, production, storage or distribution of nonfluorocarbons, e.g. high purity hydrocarbons and ammonia.
6. enforced idleness of ODS plants.

Policy issues that are likely to be encountered

Technology transfer

(a) availability of technologies to Article 5 countries;

(b) terms and conditions of technology transfer from non-Article 5 country suppliers
   - patents, know-how (cost).
   - transfer to one enterprise, group of enterprises, or to the country
   - modalities of license payment, lump-sum, royalties, etc.

(c) development of indigenous technology
   - feasibility
   - scope of support from the fund
   - timing
   - intellectual property rights
   - cost-effectiveness.

Incremental costs

- conversion and establishment of new production facilities
- what would be the baseline scenario?
- what would be the capital costs?
- what would be the operating costs?
- duration
- savings and benefits
- future revenues (and future price and sales estimate).
- designed or utilized capacities, growth projection.

Double-counting

- linkage with consumer sector in the country
- export potential to Article 5 vs. non-Article 5 countries
- certain costs which could be incurred in the shut-down of the old plant can be balanced at the stage when the new plant is constructed (e.g. unemployment insurance and foregone profits).
- project lifetime to be used as the basis for calculation.
- production vs. imports (cost-effectiveness, tariffs).
- preferential exports from Article 5 countries vs. savings to the Multilateral Fund.
- economies of scale: size of plants and project specific vs sector phase-out plans.

Shut down of ODS production facilities

- remaining useful life
- computation of profit foregone
- social benefits
- production capacity vs actual production and replacement of specific chemicals

Modernization and expansion of production

- How to measure direct (increased output) and indirect benefits (environmental, socio-environmental)?

Choice of technology

Possibility of developing cost norms on the basis of type of technology employed.

Other issues:

1. eligibility of funding raw material and feedstock production
   - shut down of CTC plants
   - new chlorinated solvents production facilities

- production of raw material vs. import (cost-effectiveness, safety concerns).

2. eligibility of funding production of chemicals and materials indirectly involved in ODS phase-out (optional).
   - polyols for foam-blowing, polyalkylene glycol and polyester lubricants
   - production vs. import

(UNEP/OzL.Pro/ExCom/15/45, para. 157).

III. FUND SECRETARIAT

VENUE

The Executive Committee decided that the Fund Secretariat, co-located with UNEP, should have Montreal as its venue. The Executive Committee accepted the offer of the Government of Canada to cover any additional costs of locating and operating the Secretariat in Canada relative to costs associated with UNEP Headquarters. The coverage of these costs should be included in the host country agreement to be concluded between Canada and UNEP and adjusted on an annual basis.
(UNEP/OzL.Pro/ExCom.1/2, para. 14)

FUNCTIONS

The Fund Secretariat operating under the Chief Officer shall assist the Executive Committee in the discharge of its functions. The Fund Secretariat, co-located with UNEP, should have Montreal as its venue. The Terms of Reference of the Fund Secretariat are presented in Annex III.1.

The Executive Committee decided that the Chief Officer and the Fund Secretariat be given all the necessary means of performing their functions in the most independent, efficient and effective manner possible.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1, para. 31).

REPORTING AND DOCUMENTATION

The Chief Officer shall submit to the Executive Committee semi-annual reports covering budget and financial issues, and shall also report when necessary, on activities during the reporting period, including those requiring action by the Executive Committee:

(a) revision of current year's budget for the Secretariat;

(b) proposals for subsequent year's budget for the Secretariat;

(c) report on contributions, fund disbursements and investments;

(d) report on contributions through bilateral and regional co-operation;

(e) annual assessment of bilateral co-operation;

(f) operational policies and guidelines of the Fund;

(g) three-year plan and budget for the Fund; and

(h) performance reports and assessments of Implementing Agencies and their activities.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section VI.1).

Meeting overview paper

The Fund Secretariat should prepare a meeting overview paper for distribution to Committee members before Committee meetings.
(UNEP/OzL.Pro/ExCom/11/36, para. 156.11).
(Supporting document: UNEP/OzL.Pro/ExCom/11/34).

BUDGET AND COSTS

The Executive Committee accepted the offer of the Government of Canada to cover any additional costs of locating and operating the Secretariat in Canada relative to costs associated with UNEP Headquarters.
(UNEP/OzL.Pro/ExCom/1/2, para. 14).

The Multilateral Fund shall cover Secretariat costs, based on regular budgets submitted to the Executive Committee for decision.

The Executive Committee decided that the Fund budget should be in two separate parts: the administrative budget, consisting of the budget of the Fund Secretariat, and the budget for operational activities.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1, para. 21).

The Chief Officer should have flexibility to switch expenditures between budget lines within each component (two-figure code) but not between components. If the Chief Officer faced a situation in which he considered it desirable to switch funds between components, he could do so up to a limit of 20 per cent of the component budget allocation, but for greater amounts he should seek the approval of the Executive Committee.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 17).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1, para. 30).

The Eighteenth Meeting of the Executive Committee decided that in the event that the resources allocated under

any one budget component were not fully expended, the remaining resources should be used for Secretariat staff training programmes and that these should not be restricted to technical training. In future budgets, an explicit provision for staff training should be made.
(UNEP/OzL/Pro.ExCom/18/75, Decision 18/2, para. 13(b).

1996 budget

The Eighteenth Meeting of the Executive Committee decided to approve the revised 1996 budget for the Fund Secretariat and the proposed budgets for 1997 and 1998 on the understanding that the necessary resources would need to be approved at the last meeting of the Executive Committee in 1996.
(UNEP/OzL/Pro.ExCom/18/75, Decision 18/2, para. 13(a).

1997 budget

The Twentieth Meeting of the Executive Committee decided:

(a) to approve the revised budget of the Fund Secretariat for 1997, including the new budget line for staff training introduced in accordance with Executive Committee decision 18/2;

(b) to note that a further revision of the 1997 budget might be necessary during 1997 to reflect the Executive Committee's decisions on the monitoring and evaluation system for the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/2, para. 11).
(Supporting document: UNEP/OzL.Pro/ExCom/20/72 Annex II).

1998 budget

The Twenty-third Meeting of the Executive Committee decided:

(a) to approve the revised 1998 budget for the Fund Secretariat and the provisions for Secretariat staff salary costs for the period 1999-2001, with the addition of a footnote relating to provision for a fourth meeting of the Executive Committee stating that the budgeted funds were only for the purpose of that meeting;

(b) to add provision for meetings of the Production Sector Subgroup (see Decision 23/50).

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/10, para. 24).

The Twenty-sixth Meeting of the Executive Committee decided to approve the budget for the Fund Secretariat for 1999.
(UNEP/OzL.Pro/ExCom/26/70, Decision 26/12, para. 31).

2000 budget

The Twenty-ninth Meeting of the Executive Committee decided to approve the budget of the Fund Secretariat for the year 2000.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/19, para. 41).

2001 budget

The Thirty-second Meeting of the Executive Committee decided to approve the budget of the Fund Secretariat for the year 2001.
(UNEP/OzL.Pro/ExCom/29/65, Decision 32/14, para. 25).

2002 budget

The Thirty-fifth Meeting of the Executive Committee decided to approve the budget of the Fund Secretariat for the year 2002.
(UNEP/OzL.Pro/ExCom/35/67, Decision 35/15, para. 45).

2003 budget

The Thirty-eighth Meeting of the Executive Committee decided to approve the budget of the Fund Secretariat for the year 2003.
(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/10, para. 41).

2004 budget

The Forty-first Meeting of the Executive Committee decided:

(a) to approve the revised 2003 budget at an amount of US $3,770,650, the proposed 2004 budget at an amount of US $3,798,558, including staff salaries for the Secretariat, the revised staff component for 2005, and the proposed staff component for 2006; and

(b) to request the Secretariat to base future budgets on more realistic estimates and to provide explanations for any increases which exceeded the current rate of inflation.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/11 para. 43).
(Supporting document UNEP/OzL.Pro/ExCom/41/87, Annexes III and IV).

2005 budget

The Forty-fourth Meeting of the Executive Committee decided to approve:

(a) the revised 2005 budget of the Fund Secretariat totalling US $3,867,547 to cover the 2005 salary component of the budget already approved at the 41st Meeting of the Executive Committee and the operational costs of the Secretariat as well as the cost of the upgrade of a GS post from G5 to G7;

(b) the revised 2006 salary component of the budget totalling US $2,563,624 with an increase of 0.5 per cent as a result of the upgrade of a GS post from G5 to G7; and

(c) the proposed 2007 salary component of the budget totalling US $2,676,214.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/56, para. 218).
(Supporting document UNEP/OzL.Pro/ExCom/44/73, Annex XVI).

2006 budget

The Forty-seventh Meeting of the Executive Committee decided:

(a) the amount of US $1,023,680 in the revised 2006 budget of the Fund Secretariat totalling US $3,572,455 to cover the 2006 salary component already approved at the 44th Meeting of the Executive Committee and the 2006 operational costs of the Secretariat, as well as the upgrade of a General Service post from G4 to G5 and an additional P2 post;

(b) the amount of US $102,589 in the revised 2007 salary component of the budget totalling US $2,778,803, including an increase of 3.69 per cent as a result of the upgrade of a General Service post from G4 to G5 and the additional P2 post;

(c) the proposed 2008 salary component of the budget, totalling US $2,898,976; and

(d) that the Secretariat withhold an amount of US $100,000 from its next transfer of US $500,000 to UNEP pursuant to its agreement with UNEP pending the report from the Secretariat on the issue to the 48th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/47/61, Decision 47/48, para. 178).
(Supporting document UNEP/OzL.Pro/ExCom/47/61, Annex XII).

The Forty-eighth Meeting of the Executive Committee decided to approve:

(a) an increase of US $349,717 in the 2006 budget to cover both the 2005 retroactive payment and the 2006 payment of the salary increase of 8.5 per cent for general service staff effective 1 January 2005, resulting in a total revised 2006 budget of US $5,085,732;

(b) an increase of US $150,000 for consultancy costs in the budget for 2006; and

(c) an increase of US $59,458 in the 2007 budget and US $82,198 in the 2008 budget as a consequence of the 8.5 per cent increase in the general service staff allowance, resulting in total revised budgets for 2007 and 2008 of US $2,838,261 and US $2,980,174 respectively.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/39, para. 171).
(Supporting document UNEP/OzL.Pro/ExCom/48/45, Annex XIV).

2007 budget

The Fiftieth Meeting of the Executive Committee decided to approve the revised 2007, 2008 and proposed 2009 budgets of the Fund Secretariat as follows:

(a) to approve the amount of US $2,426,000 in the revised 2007 budget of the Fund Secretariat totalling US $5,264,261 to cover the 2007 salary component already approved at the 48th Meeting of the Executive Committee, the 2007 operational costs of the Secretariat and the amount of US $500,000 for the 2007 treasury fee;

(b) to further note that while approving the 2007 treasury fee of US $500,000, a sum of US $200,000 is withheld, pending legal advice;

(c) to request the Secretariat to seek legal advice in respect of the terms of the contract with UNEP as Treasurer, specifically focusing on the issue of the P5 post;

(d) to request the Chair of the Executive Committee to write to the Executive Director of UNEP advising him of the Executive Committee's decisions taken at the 50th Meeting and outlining the reasons for withholding the sum of US $200,000;

(e) to note the amount of US $2,980,174 for the salary component in 2008 already approved at the 49th Meeting;

(f) to approve the proposed 2009 salary component of the budget totalling US $3,129,183; and

(g) to approve an additional amount in the 2007 budget to cover the cost of the study on destruction of unwanted ODS.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/45 para. 191).
(Supporting document UNEP/OzL.Pro/ExCom/50/45, Annex XII).

The Fifty-first Meeting of the Executive Committee decided:

(a) to note with appreciation the reply received from the Executive Director of UNEP on the filling of the P5 post;

(b) to release the US $200,000 amount withheld at the 50th Meeting;

(c) to agree to the upgrade of the P4 post of the Administrative and Fund Management Officer to P5 with additional responsibilities related to the financial management of the Trust Fund, and to charge the difference in cost associated with the upgrade to the treasury fees being paid to UNEP;

(d) to request UNEP/UNON, in their capacities as treasurer, to continue to attend the meetings of the Executive Committee and provide the relevant financial information; and

(e) to revise the Fund Secretariat's budget to reflect the upgrade of the P4 post to P5 and to include the amount agreed to by the Members of the Executive Committee for a comprehensive independent assessment of the administrative costs required for the 2009-2011 triennium.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/39 para. 189).

2008 budget

The Fifty-third Meeting of the Executive Committee decided:

(a) to approve the amount of US $2,784,087 in the revised 2008 budget of the Fund Secretariat totalling US $5,764,261 to cover the 2008 salary component already approved at the 50th Meeting of the Executive Committee and the 2008 revised operational costs of the Secretariat;

(b) to note the amount of US $3,129,183 for the salary component in 2009 already approved at the 50th Meeting;

(c) to approve the proposed 2010 salary component of the budget totalling US $3,285,641;

(d) to approve the revised 2008, 2009 and 2010 budgets of the Multilateral Fund Secretariat as contained in Annex XXVII to the final report; and

(e) to note the request from the Secretariat regarding flexibility to revert to the Executive Committee during 2008 with a revised staffing structure.

(UNEP/OzL.Pro/ExCom/53/67,Decision 53/43 para. 227).
(Supporting document UNEP/OzL.Pro/ExCom/53/66).

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to approve the upgrading of one Deputy Chief Officer post from P5 to D1 starting in 2009;

(b) to approve a new P3 post and to downgrade one post from P5 to P3 starting in 2008;

(c) to upgrade the post of the Associate Executive Assistant from P2 to P3 starting in 2008;

(d) to approve two new G6 posts starting in 2008; and

(e) to approve a revised budget of US $5,867,208 in 2008, US $3,421,091 in 2009 and US $3,592,146 in 2010 as contained in Annex XX to the present report.

(UNEP/OzL.Pro/ExCom/54/59,Decision 54/44 para. 190).
(Supporting document UNEP/OzL.Pro/ExCom/54/58).

2009 budget

The Fifty-sixth Meeting of the Executive Committee decided:

(a) to approve the amount of US $2,714,587 in the revised 2009 budget of the Fund Secretariat contained in Annex XVIII to the present report to cover the operational costs of the Secretariat, resulting in a total of

US $6,135,678 with the inclusion of the 2009 salary component already approved at the 54th Meeting of the Executive Committee;

(b) to note the amount of US $3,592,146 for the salary component in 2010 already approved at the 54th Meeting;

(c) to approve the proposed 2011 salary component of the budget totalling US $3,771,753;

(d) to allow the Secretariat, on a one-time basis, flexibility in the 2008 budget to exceed the 20 per cent limit to reallocate funds among budget lines and move anticipated savings of approximately US $50,000 from the sub-contract component to cover the overrun on conference service costs under the Executive Committee line in respect of having held the 55th Meeting of the Executive Committee in Bangkok, back-to-back with the meeting of the Open-ended Working Group of the Montreal Protocol in July 2008;

(e) that the funds allocated to the position of the temporary staff assuming the role of the Senior Monitoring and Evaluation Officer in 2009 were limited to the budgetary allocation for that position only; and

(f) to reconsider the budget for this position concurrently with its decision on the future priorities and arrangements for the monitoring and evaluation programme.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/68 para 246)
(Supporting document: UNEP/OzL.Pro/ExCom/56/61).

2010 budget

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To approve the additional amount of US $3,144,869 in the revised 2010 budget of the Fund Secretariat to cover the operational costs of the Secretariat and the Treasury fees as per decision 59/51(b) as contained in Annex IX to the present report, which includes the Multilateral Fund climate impact indicator allocation of US $50,000 and multi-year agreement table on-line access of US $60,000, noting that the latter should be deducted from the Senior Monitoring and Evaluation Officer's work programme, resulting in a total of US $6,737,950;

(b) To approve the proposed 2012 salary staff component costs of the budget totalling US $3,888,905 as contained in Annex IX to the present report, which was calculated on a basis of a 3 per cent inflation rate against the 2011 staff cost levels;

(c) To request the Secretariat to provide supporting documents from UNEP to justify a 5 per cent annual increase and had been normally applied against staff costs and to report the findings back to the 60th Meeting of the Executive Committee, taking into account the practice of United Nations agencies based in Montreal;

(d) To consider, at its 60th Meeting, whether the Committee would like to revisit the salary staff component costs of the 2011 and 2012 budget to reflect the discussion as described in subparagraph (c) above;

(e) To request the Secretariat to facilitate this process with the help of an informal budget group in the margins of the 60th Meeting of the Executive Committee;

(f) To note that the approved 2010 budget was based on the typical costs of holding Executive Committee Meetings in Montreal; and

(g) To note that the Secretariat had had to move anticipated savings in 2009 under some budget components in order to cover the overrun on conference service costs with respect to holding the 59th Meeting of the Executive Committee in Port Ghalib, Egypt.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/52 para 282)
(Supporting document: UNEP/OzL.Pro/ExCom/59/58).

The Sixtieth Meeting of the Executive Committee decided:

(a) To maintain the annual increase in salary for staff for 2011 and 2012 approved at the 59th Meeting, as presented in Annex IX to document UNEP/OzL.Pro/ExCom/59/59, which had been approved for 2011 on the basis of a 5 per cent increase against the 2010 staffing costs and for 2012 on the basis of a 3 per cent increase against the 2011 staffing costs; and

(b) To request the Secretariat to continue monitoring staff costs to assess the appropriate rate of increase for future years and to report back to the Executive Committee when presenting the 2010 accounts of the Fund at the 65th Meeting in 2011.

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/49 para 217)
(Supporting document: UNEP/OzL.Pro/ExCom/60/53).

2011 budget

The Sixty-second Meeting of the Executive Committee decided:

(a) To approve the additional amount of US $3,834,869 in the revised 2011 budget of the Fund Secretariat, as contained in Annex XXIII to the present report, to cover the operational costs of the Fund Secretariat, as well as the funding for technical audits of the production sector, resulting in a total of US $7,606,622 with the inclusion of the 2011 personnel component costs already approved at the 56th meeting of the Executive Committee;

(b) To note the amount of US $3,884,905 for the 2012 personnel component costs already approved at the 59th meeting and maintained at the 60th meeting;

(c) To approve the proposed 2013 personnel component costs of the budget totalling US $4,001,453; and

(d) To note that the personnel component costs referred to in paragraphs (b) and (c) above would be subject to any decision taken at the 65th meeting of the Executive Committee on the 3 per cent inflation rate applied in line with decision 60/49(b).

(UNEP/OzL.Pro/ExCom/62/62, Decision 62/67 para 170)
(Supporting document: UNEP/OzL.Pro/ExCom/62/61).

2012 budget

The Sixty-fifth Meeting of the Executive Committee decided:

(a) To note the Secretariat's feedback on the appropriate rate of increase for staff costs, contained in document UNEP/OzL.Pro/ExCom/65/58;

(b) To maintain the 3 per cent rate applied to the 2012, 2013 as well as 2014 budgets and to request the Secretariat to revisit the rate of 3 per cent in 2012 to further assess the most appropriate rate once all positions had been filled and occupied for at least two years;

(c) To approve the amount of US $3,034,869 in the revised 2012 budget of the Fund Secretariat, as contained in Annex XXXIV to the [report of the Sixty-fifth Meeting], to cover the operational costs of the Secretariat and the 2012 revised personnel component cost, resulting in a total of US $6,919,774;

(d) To approve the additional amount of US $42,063 in the revised 2013 personnel component costs of the budget totalling US $4,043,516; and

(e) To approve the proposed 2014 personnel component costs of the budget totalling US $4,164,821;

(f) To request the Secretariat to report to the Executive Committee in the future on any balances returned to the Fund and provide information on how such balances were utilized in the document of the final accounts of the Fund.

(UNEP/OzL.Pro/ExCom/65/60, Decision 65/52 para 198)
(Supporting document: UNEP/OzL.Pro/ExCom/65/58).

Revised 2012, 2013 and 2014 and proposed 2015 budgets of the Fund Secretariat

The Sixty-eighth Meeting of the Executive Committee decided:

(a) To approve the revised 2012 budget totalling US $6,988,442, as contained in Annex XXVI to the present report [report of the 68th meeting], which included an additional amount of US $68,668 to cover the cost differential of holding the 67th meeting in Bangkok rather than in Montreal;

(b) To approve the amount of US $3,024,031 in the revised 2013 budget of the Fund Secretariat to cover the operational costs of the Secretariat and the 2013 personnel component cost, resulting in a total of US $7,067,547;

(c) To note the amount of US $4,164,821 for the salary component in 2014 already approved at the 65th meeting;

(d) To approve the proposed 2015 personnel component costs of the budget totalling US $4,287,391;

(e) To note the Secretariat's feedback on the appropriate rate of increase for staff costs and to maintain the 3 per cent rate applied to the 2013, 2014 as well as 2015 budgets; and

(f) To note the change in title of Post 1104 for the Senior Project Management Officer to Deputy Chief Officer on Financial and Economic Affairs, on the understanding that the post was, and would remain, at P5 level until otherwise decided by the Executive Committee.

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/45 para 191)
(Supporting document: UNEP/OzL.Pro/ExCom/68/50).

Revised 2013, 2014 and 2015 and proposed 2016 budgets of the Fund Secretariat

The Seventy-first Meeting of the Executive Committee decided:

(a) To take note of the revised 2013, 2014, 2015 and proposed 2016 budgets of the Fund Secretariat, as contained in Annex XXV to the present report;

(b) To approve the revised 2013 budget to reflect transfers between budget lines (BLs) 1101 and 1102 and transfers between BL 1333 and BL1334, noting that the total budget of US $7,067,547 remained at the same level as approved at the 68th meeting;

(c) To approve the revised 2014 budget in the amount of US $6,983,852 to reflect:

  (i) An additional amount of US $2,819,031 to cover the operational costs;

  (ii) Maintaining the posts 1301 and 1310 at G7 level in 2014, 2015 and 2016, pending further information;

(d) To note the approved staff component costs of the 2015 budget totalling US $4,287,391 which included programme support costs;

(e) To approve the proposed staff component costs of the 2016 budget totalling US $4,416,013, including programme support costs;

(f) To request the Secretariat to discuss with UNEP options for cost savings through reduced programme support costs, including an 8 per cent programme support cost rate scenario, and potential implications on the provision of services and staffing, including a detailed breakdown of programme support costs, and to report to the Executive Committee by the 72nd meeting;

(g) To request the Secretariat to resubmit the revised 2014 and 2015 and proposed 2016 budgets, based on a revised format; and

(h) To request the Secretariat to submit to the 72nd meeting information on options regarding the reclassification results and the financial and operational implications of those options for the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/48 para 183)
(Supporting document: UNEP/OzL.Pro/ExCom/71/62).

Revised 2014 and proposed 2015 and 2016 budgets of the Fund Secretariat

The Seventy-second Meeting of the Executive Committee decided:

(a) To take note of the revised 2014, and proposed 2015 and 2016 budgets of the Secretariat contained in Annex II of document UNEP/OzL.Pro/ExCom/72/45;

(b) To approve the revised 2014 budget, as contained in Annex XV to the present report, based on two Executive Committee meetings per year, to reflect:

  (i) The upgrade of posts 1301 and 1310 from G7 to P2 under BL 1115 and BL 1116, respectively, effective June 2014, with a transfer of US $12,500 from BL 1201 and US $12,500 from BL 1335 to BL 1115 and BL 1116, respectively, to offset the increase in personnel costs due to a six month upgrade of the two posts; and that post under BL 1303 is classifiable at P2 level and could be accommodated within the Secretariat staff allocation;

  (ii) A decrease in the following budget lines:

4101	Office stationery	(US $5,265)
5201	Reproduction costs	(US $4,590)
5302	Freight charges	(US $4,050)
5401	Hospitality	(US $7,200)

  resulting in a total cost of US $6,818,463, including 9 per cent in programme support costs;

(c) To approve the revised 2015 budget, as contained in Annex XV to the present report to reflect the two upgrades with additional transfers of US $12,500 compared to 2014 from BL 1201 and BL 1335 to BL 1115 and BL 1116, respectively, to cover the 12-month upgrade of posts BL 1115 and BL 1116, and to introduce operational costs at the same level as 2014 in the additional amount of US $2,807,073, totalling US $6,940,604, including

9 per cent programme support costs, and on the understanding that no allocation was made for a third meeting in 2015; and

(d) To approve the revised 2016 budget, as contained in Annex XV to the present report to reflect the two upgrades, to introduce operational costs in the additional amount of US $2,808,848 for 2016 to cover the two upgrades, and operational costs at the same level as 2015, totalling US $7,066,385, including 9 per cent programme support costs, on the understanding that no allocation was made for a third meeting in 2016.

(UNEP/OzL.Pro/ExCom/72/47, Decision 72/43 para 205 and UNEP/OzL.Pro/72/47/Corr.1)
(Supporting document: UNEP/OzL.Pro/ExCom/72/45).

Approved 2014, 2015 and 2016 and proposed 2017 budgets of the Fund Secretariat

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the approved 2014, 2015, 2016 and proposed 2017 budgets of the Fund Secretariat contained in Annex I of document UNEP/OzL.Pro/ExCom/73/58;

(b) To authorize the Secretariat to reallocate the sum of US $118,750 from the approved 2014 budget under budget lines 1200, 1600 and 3301 to budget lines 1333, 1334 and 3302, as indicated in Table 2 of document UNEP/OzL.Pro/ExCom/73/58, and as contained in Annex XX to the present report, in order to accommodate the additional cost of having the 73rd meeting of the Executive Committee in Paris, noting that the proposed transfer among budget lines was above the 20 per cent limit; and

(c) To approve the proposed staff and operational costs of the 2017 budget, as contained in Annex XX to the present report, totalling US $7,190,229 based on a scenario of two meetings per year.

(d) To take note of the revised 2014, and proposed 2015 and 2016 budgets of the Secretariat contained in Annex II of document UNEP/OzL.Pro/ExCom/72/45.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/69 para 225)
(Supporting document: UNEP/OzL.Pro/ExCom/72/58).

Approved 2015, 2016 and 2017 and proposed 2018 budgets of the Fund Secretariat

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note the approved 2015, 2016 and 2017, and proposed 2018 budgets of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/75/82;

(b) To authorize the Secretariat to reallocate funding among budget lines in the 2015 approved budget to absorb the additional costs incurred due to the introduction of UMOJA in June 2015 and a higher number of documents than originally estimated, on the understanding that if funding transfers exceeded the 20 per cent limit within the Chief Officer's authority, the Secretariat would report back to the Executive Committee at its 77th meeting; and

(c) To approve the proposed staff and operational costs of the 2018 budget contained in Annex XXXIII to the present report, totalling US $7,268,801 based on a scenario of two meetings per year, while giving the Secretariat the option to update its budget and submit it to the 76th meeting.

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/72 para 295)
(Supporting document: UNEP/OzL.Pro/ExCom/75/82).

The Seventy-sixth meeting of the Executive Committee decided:

(a) To note the document on the approved 2016, 2017 and 2018 budgets of the Fund Secretariat (decision 75/72(c)) contained in UNEP/OzL.Pro/ExCom/76/62; and

(b) To request the Secretariat to revise the 2015, 2016, 2017 and 2018 budgets of the Fund Secretariat and to propose a 2019 budget, taking into consideration the outcome of the review by a United Nations classification officer of the job descriptions currently classified at the P-3 level, and to submit it to the 77th meeting.

UNEP/OzL.Pro/ExCom/76/66, Decision 76/54, para 188)
(Supporting document: UNEP/OzL.Pro/ExCom/76/62).

Approved 2015, 2016, 2017, 2018 and proposed 2019 budgets of the Fund Secretariat

The Seventy-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The document on approved 2015, 2016, 2017 and 2018, and proposed 2019 budgets of the Fund Secretariat contained in UNEP/OzL.Pro/ExCom/77/74;
(ii) That US $402,099 in expenditure not recorded in the 2015 accounts (composed of US $378,099 relating to the budget of the Fund Secretariat and US $24,000 relating to the budget of Senior Monitoring and Evaluation Officer) had been reallocated to the 2016 approved budget;
(iii) The return of US $1,477,253 (composed of US $1,449,117 from the approved 2015 budget for the Fund Secretariat and US $28,136 from the approved 2015 budget of the Senior Monitoring and Evaluation Officer) to the Multilateral Fund at the 77th meeting;

(b) To approve as contained in Annex XXX to the present report:
(i) The revised 2016 budget of US $7,561,218 reflecting a reallocation of unrecorded expenditures of US $378,099 in addition to a credit of US $25,934 under budget line 1309 in 2015, and an increase of US $30,800 associated with higher document translation costs for the 77th meeting of the Executive Committee;
(ii) The upgrade of four P3 posts to P4, the downgrade of one G7 post to G6, and the upgrade of one G5 post to G6, at an additional cost of US $39,500, effective as of 1 January 2017;
(iii) The revised 2017 budget totalling US $7,748,982, including one additional meeting of the Executive Committee at a cost US $355,800 and US $92,791 for other Executive Committee meeting-related costs;
(iv) The revised 2018 budget totalling US $7,829,038 based on three meetings of the Executive Committee and on the 2017 revised budget; and
(v) The proposed 2019 budget with US $7,961,748 based on three meetings of the Executive Committee, the revised 2018 budget and a 3 per cent increase in staff costs.

UNEP/OzL.Pro/ExCom/77/76, Decision 77/63, para 224)
(Supporting document: UNEP/OzL.Pro/ExCom/77/63).

Approved 2018, 2019 and proposed 2020 budgets of the Fund Secretariat

The Eightieth Meeting of the Executive Committee decided:

(a) To note:
(i) The document on approved 2017, revised 2018 and 2019, and proposed 2020 budgets of the Fund Secretariat contained in UNEP/OzL.Pro/ExCom/80/7;
(ii) That US $62,802 in expenditures not recorded in the 2016 accounts had been reallocated to the 2017 approved budget;
(iii) The return of US $1,388,758 (comprising US $1,345,650 from the approved 2016 budget for the Secretariat and US $43,108 from the approved 2016 budget for the monitoring and evaluation work programme) to the Multilateral Fund at the 80th meeting;

(b) To approve as contained in Annex II to the present report:
(i) The revised 2018 and 2019 budgets amounting to US $7,402,419 and US $7,540,205, respectively; and
(ii) The proposed 2020 budget of US $7,682,125, based on the revised 2019 budget, including two meetings of the Executive Committee and a three per cent increase in staff costs.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/5, para 39).
(Supporting document: UNEP/OzL.Pro/ExCom/80/7).

Approved 2019, 2020 and proposed 2021 budgets of the Fund Secretariat

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:
(i) The approved 2018, revised 2019 and 2020, and proposed 2021 budgets of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/82/8;
(ii) That US $11,005 in expenditure not recorded in the 2017 accounts had been reallocated to the 2018 budget;
(iii) The return of US $1,665,431 (comprising US $1,631,096 from the approved 2017 budget for the Secretariat and US $34,335 from the approved 2017 budget for the monitoring and evaluation work programme) to the Multilateral Fund at the 82nd meeting;
(iv) The return of US $58,470 from the 2019 and 2020 approved budgets associated with adjustments to the following budget lines (BL): BL 4101, BL 5103, BL 5301, BL 5302 and BL 5303 to the Multilateral Fund at the 82nd meeting; and

(b) To approve, as contained in Annex II to the present report:
(i) The revised 2019 and 2020 budgets amounting to US $7,510,970 and US $7,652,890, respectively; and

(ii) The proposed 2021 budget amounting to US $7,799,067, based on the revised 2020 budget, including two meetings of the Executive Committee and a three-per-cent increase in staff costs.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/6).
(Supporting document: UNEP/OzL.Pro/ExCom/82/8).

Approved 2019, 2020 and 2021, and proposed 2022 budgets of the Fund Secretariat

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:
   (i) The document on the approved 2019, 2020 and 2021, and proposed 2022 budgets of the Fund Secretariat contained in UNEP/OzL.Pro/ExCom/84/8;
   (ii) That US $97,506 in expenditures not recorded in the final 2018 accounts had been reallocated to the 2019 budget;
   (iii) The return of US $1,646,463 (US $1,624,548 from the approved 2018 budget of the Fund Secretariat and US $21,915 from the approved 2018 budget for the monitoring and evaluation work programme to the Multilateral Fund at the 84th meeting;

(b) To approve, as contained in Annex II to the present report:
   (i) The upgrade of the posts of the Associate Database Officer (BL 1116) from P-2 to P-3, the Team Assistant (BL 1309) from G-4 to G-5 and the Finance and Budget Assistant (BL 1312) from G-6 to G-7, with the corresponding change in titles starting in 2020;
   (ii) The proposed 2022 budget of the Fund Secretariat of US $7,949,630, based on the 2021 budget, including two meetings of the Executive Committee in Montreal and a 3 per cent increase in staff costs; and

(c) To request the Fund Secretariat to continue monitoring its staff costs to assess the appropriate rate of increase for future years and to report back at the 86th meeting, taking into account the Fund Secretariat's expenses as presented in the final 2019 accounts.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/6).
(Supporting document: UNEP/OzL.Pro/ExCom/84/8).

Approved 2021 and 2022, and proposed 2023 budgets of the Fund Secretariat

The Eighty-seventh Meeting of the Executive Committee decided:

(a) To note:
   (i) The approved 2020 and 2021, revised 2022 and proposed 2023 budgets of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/87/5;
   (ii) That US $24,209 in expenditures not recorded in the final 2019 accounts had been reallocated to the 2020 budget;

(b) To approve, as contained in Annex II to the present report:
   (i) The revised 2022 budget of US $6,915,766, based on the analysis of staff costs in response to decision 84/6(c), resulting in the return of US $1,033,864 to the Multilateral Fund at the 87th meeting; and
   (ii) The proposed 2023 budget of US $7,039,830, based on the revised 2022 budget, which included two meetings of the Executive Committee in Montreal, and a 3 per cent increase in staff costs.

(UNEP/OzL.Pro/ExCom/87/58, Decision 87/3).
(Supporting document: UNEP/OzL.Pro/ExCom/87/5).

Revised 2022, approved 2023 and proposed 2024 budgets of the Fund Secretariat

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note:
   (i) The revised 2022, approved 2023 and proposed 2024 budgets of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/88/7;
   (ii) The return, to the Multilateral Fund at the 88th meeting, of US $2,430,831, comprising US $2,427,831 from the approved 2020 budget of the Fund Secretariat and US $3,000 from the approved 2020 budget for the monitoring and evaluation work programme;

(b) To approve, as contained in Annex II to the present report:

(i) The revised 2022 budget of the Fund Secretariat of US $7,364,366, including US $448,600 to cover the cost of holding one additional meeting of the Executive Committee that year; and

(ii) The proposed 2024 budget of US $7,167,615, which was based on the approved 2023 budget, the holding of two meetings of the Executive Committee in Montreal and a 3 per cent increase in staff costs.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/6).
(Supporting document: UNEP/OzL.Pro/ExCom/88/5).

Approved 2023 and 2024, and proposed 2025 budgets of the Fund Secretariat

The Ninety-first Meeting of the Executive Committee decided:

(a) To note:

(i) The document on the revised 2023, 2024 and proposed 2025 budget of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/91/7;

(ii) The return, to the Multilateral Fund at the 91st meeting, of US $1,491,964 from the approved 2021 budget of the Fund Secretariat;

(b) To agree to include the following in the revised budget:

(i) Two staff positions at P-4 level, each in the amount of US $247,700 in 2023, and thereafter subject to a 3 per cent inflation rate;

(ii) Travel and daily subsistence allowance for the attendance of one additional Article 5 delegate at Executive Committee meetings, in the amount of US $7,700 in 2023 and thereafter, in line with decision XXXIV/17 of the Parties, while noting that the related budget would be returned to the Fund in the year when the Article 5 party in question was a member of the Executive Committee;

(iii) The development of a knowledge management system, in the amount of US $358,000 in 2023 and US $542,000 in 2024;

(iv) Support related to the United Nations Umoja management system, in the amount of US $115,000 in 2023 and US $60,000 in 2024 and thereafter;

(c) To approve the proposed format being used in the revised 2023, 2024 and approved 2025 budgets contained in Annex III to the present report, for the presentation of the budget of the Fund Secretariat;

(d) To approve also:

(i) The revised 2023 budget of US $8,645,326, as contained in Annex III to the present report, based on the 2022 actual staff costs, including the projected overrun of US $290,000; a 3 per cent increase in staff costs; and US $976,100 of related costs arising from the additional requirements referred to in subparagraph (b) above;

(ii) The revised 2024 budget of US $8,610,023, as contained in Annex III to the present report, based on the 2023 revised budget, excluding the 2022 projected overrun; a 3 per cent increase in staff costs; and US $1,119,962 of related costs arising from the additional requirements referred to in subparagraph (b) above; and

(iii) The proposed 2025 budget of US $8,224,624, as contained in Annex III to the present report, based on the 2024 revised budget; a 3 per cent increase in staff costs; and US $593,269 of related costs arising from the additional requirements referred to in subparagraph (b) above, noting that phase 3 of the development of the knowledge management system had not been included therein.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/7).
(Supporting document: UNEP/OzL.Pro/ExCom/91/6).

Approved 2024 and 2025, and proposed 2026 budgets of the Fund Secretariat

The Ninety-third Meeting of the Executive Committee decided:

(a) To note:

(i) The document on the revised 2023, 2024 and 2025 and proposed 2026 budgets of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/93/7;

(ii) The return, to the Multilateral Fund at the 93rd meeting, of US $51,558 from the approved 2022 budget of the Fund Secretariat;

(iii) The reallocation of funds between budget lines in the 2023 approved budget to absorb the recurrent additional non-staff costs, on the understanding that, if funding transfers exceeded the 20 per cent limit

that was within the Chief Officer's authority, the Secretariat would report back to the Executive Committee at its 94th meeting;

(b) To agree to include the following additional resources, totalling US $671,063, for the Secretariat in the revised budget for 2024 and thereafter:
   (i) Additional resources of US $62,800 for other personnel;
   (ii) Additional resources of US $582,400 for meetings and travel costs;
   (iii) Additional resources of US $25,863 for operational, equipment and supplies;

(c) To approve:
   (i) The revised 2024 budget of US $9,281,086, as contained in annex II to the present report, which included the additional resources referred to in subparagraph (b) above;
   (ii) The revised 2025 budget of US $8,895,687, as contained in annex II to the present report, which included the additional resources referred to in subparagraph (b) above, noting that phase 3 of the knowledge management system had not been included therein; and
   (iii) The proposed 2026 budget of US $9,056,985, as contained in annex II to the present report based on the 2025 revised budget, which included the additional resources referred to in subparagraph (b) above and a 3 per cent increase in staff costs.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/7).
(Supporting document: UNEP/OzL.Pro/ExCom/93/6).

Approved 2025 and 2026, and proposed 2027 budgets of the Fund Secretariat

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note:
   (i) The document on the revised 2025, 2026 and proposed 2027 budgets of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/95/7;
   (ii) The return, to the Multilateral Fund at the 95th meeting, of US $350,542, comprising US $296,045 from the approved 2023 budget of the Fund Secretariat and US $54,497 from the monitoring and evaluation work programme;

(b) To agree to include the following additional resources for the Secretariat:
   (i) For the knowledge management system, US $680,000 in 2025, US $200,000 in 2026 and US $100,000 in 2027;
   (ii) For the upgrade of the existing P2 Associate Administrative Officer position to P3 level, US $86,567 in 2025 and in the following years with a cumulative 3 per cent inflation rate as of 2026;

(c) To approve, as contained in annex II to the present report:
   (i) The revised 2025 budget of US $9,670,045 related to the additional resources referred to in sub-paragraph (b) above;
   (ii) The revised 2026 budget of US $9,354,175 related to the additional resources referred to in sub-paragraph (b) above; and
   (iii) The proposed 2027 budget of US $9,423,228 based on the additional resources referred to in sub-paragraph (b) above; and a 3 per cent increase in staff costs on the basis of the 2026 revised budget.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/5).
(Supporting document: UNEP/OzL.Pro/ExCom/95/7).

Revised 2026, 2027 and proposed 2028 budgets of the Fund Secretariat

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note:
   (i) The revised 2026, 2027 and proposed 2028 budgets of the Fund Secretariat contained in document UNEP/OzL.Pro/ExCom/97/7;
   (ii) The return, to the Multilateral Fund at the 97th meeting, of US $830,809, consisting of US $789,795 from the approved 2024 budget of the Fund Secretariat and US $41,014 from the monitoring and evaluation work programme;

(b) To approve, as contained in annex II to the present report:

(i) The revised 2026 budget in the amount of US $9,670,045;

(ii) The revised 2027 budget in the amount of US $9,581,735; and

(iii) The proposed 2028 budget in the amount of US $9,670,045.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/5)
(Supporting document: UNEP/OzL.Pro/ExCom/97/7).

INFORMATION APPROACH

The Fund Secretariat in co-operation with the Implementing Agencies should provide, Article 5 Parties, up front, with an information kit which should include: information on Implementing Agencies; project presentation guidelines; sample project proposals; standard grant, and where applicable, legal and disbursement agreements; information on the selection and use of financial intermediaries; and, procedural flow charts.
(UNEP/OzL.Pro/ExCom/8/29 Annex III, para. 3.3).

The Thirty-seventh Meeting of the Executive Committee decided to develop a framework for an information strategy for the Multilateral Fund, to be included on the agenda of the 38th Meeting of the Executive Committee, to be held in November in Rome.
(UNEP/OzL.Pro/ExCom/37/71, Decision 37/1, para. 22(b)).

Framework for an information strategy for the Multilateral Fund

The Thirty-eighth Meeting of the Executive Committee decided:

(a) to take note of the Secretariat's paper on the framework for an information strategy for the Multilateral Fund;

(b) to request those delegations that wished to submit further proposals on the mission statement to do so within a period of four weeks;

(c) that the Secretariat should prepare an elaborate strategy with the assistance of other institutions dealing with ozone depletion matters, in particular, the Ozone Secretariat, and submit it to the Executive Committee at its 39th Meeting.

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/78, para. 151).
(Supporting document: UNEP/OzL.Pro/ExCom/38/68).

The Thirty-ninth Meeting of the Executive Committee decided to request the Secretariat to utilize the proposals it had made in order to submit a work plan to the Executive Committee at its 40th Meeting, taking into account the views expressed by the Committee, with a time framework and with the attendant cost estimates for an information strategy, noting that the cost estimates should be prepared taking into account the need to use the existing resources through normal budgeting procedure of the Fund.
(UNEP/OzL.Pro/ExCom/39/43, Decision 39/55, para. 103).
(Supporting document: UNEP/OzL.Pro/ExCom/39/41).

The Fortieth Meeting of the Executive Committee decided to approve US $104,750 to develop the information strategy, as set out in the following Table:

Item	Time line	Estimated costs (US$)*
Hardware (2 servers and security equipment)		
09/03	23,000	
Software and associated licenses		
09/03	21,750	
Development of web site (total from Table 1)	11/03 (launch)	0
Development of intranet/extranet (sub-total from Table 2)	11/03 (launch)	13,000
Development of expanded content and functionality for intranet/extranet (sub-total from Table 2)	12/03-03/04	22,000
Translation of public web site into 2 languages (translation costs plus additional cost of development and graphic elements)		
2004	0	
	Total (one off)	79,750
Maintenance- hardware and system maintenance, software upgrades, and translation of revised texts		
2004-2005	25,000	
	Total (2003-2005)	104,750

*A zero cost is indicated when the costs of the activity will be covered through the existing Secretariat budget
(UNEP/OzL.Pro/ExCom/40/50, Decision 40/53, para.105).
(Supporting documents: UNEP/OzL.Pro/ExCom/40/49).

Update on the Information strategy

The Ninety-first Meeting of the Executive Committee decided:

(a) To note the report on the update of the information strategy of the Multilateral Fund, including a detailed plan for information and knowledge management, website and information technology requirements, resources needed and clear timelines for implementation (decision 89/1(c)(ii)), contained in document UNEP/OzL.Pro/ExCom/91/70;

(b) To approve the actions for the implementation of the new knowledge management system described in the document referred to in subparagraph (a) above, with their corresponding timelines and estimated associated costs for phases 1 and 2;

(c) To request the Secretariat to report on the progress of implementation of the new knowledge management system until the completion of phases 1 and 2 as part of the Secretariat activities; and

(d) To request the Secretariat to submit an update of the plan for phase 3 and a request for funding for the implementation of phase 3 after phases 1 and 2 had been completed.

UNEP/OzL.Pro/ExCom/91/72, Decision 91/69).
(Supporting documentS: UNEP/OzL.Pro/ExCom/91/70 and UNEP/OzL.Pro/ExCom/91/Inf.2).

CONTRACT OF THE CHIEF OFFICER

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to request the Chairman of the Executive Committee to convey to the Executive Director of UNEP the content of the discussion at the 36th Meeting of the Executive Committee and to explore the circumstances under which the contract of Dr. Omar E. El-Arini might be extended;

(b) to annex the texts of both proposals, which formed the basis of the understanding of the Executive Committee, to the present report (Annex III.2).

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/57, para. 127).
(Supporting document: UNEP/OzL.Pro/ExCom/36/36, Annexes XI and XII)).

The Thirty-eighth Meeting of the Executive Committee decided:

(a) formally to request the Executive Director of UNEP to seek an extension of the contract of the current Chief Officer of the Multilateral Fund Secretariat, Dr. Omar El-Arini, at the D2 level for a period of up to two years;

(b) to request the Chairman, on behalf of the 14 Parties to the Montreal Protocol members of the Executive Committee, to visit United Nations Headquarters in New York, in collaboration with the Executive Director and with such assistance as needed, to seek the extension of the Chief Officer's contract;

(c) also to request the Chairman of the Executive Committee, with such assistance as needed, to review the job vacancy notice prepared by UNEP and to provide comments thereon consistent with the terms of reference of the Executive Committee;

(d) to request UNEP to ensure that the hiring of the next Chief Officer will be consistent with the following provision in the Terms of Reference of the Executive Committee (Decision IV/18): "to nominate, for appointment by the Executive Director of UNEP, the Chief Officer of the Fund Secretariat, who shall work under the Executive Committee, and report to it".

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/78, para. 165).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to take note with appreciation of the report of the Chair of the Executive Committee on his visit to United Nations Headquarters, undertaken at the request of the Executive Committee (Decision 38/80);

(b) to endorse the understandings reached by the Chair and United Nations Headquarters officials with respect to the terms of reference of the Chief Officer, process of recruitment, nomination and appointment of the

Chief Officer and further extension of the term of office of the current incumbent, Dr. El Arini, beyond 31 August 2003;

(c) to note that the United Nations Office of Human Resources Management had issued a vacancy announcement for the Chief Officer's post on 10 March 2003, with the deadline for applications set at 9 May 2003;

(d) to amend the education qualification therein as follows: "Advanced university degree (preferably Ph.D.) in economics, business administration, finance, public administration or any other equivalent field."

(e) to request the United Nations Secretariat to reissue the amended announcement immediately;

(f) to apply mutatis mutandis the procedure employed in 1990 (See UNEP/OzL.Pro.ExCom.1/2, paragraph 15, and UNEP/OzL.Pro/ExCom/2/5/Rev.1, paragraph 13) for the recruitment, nomination and appointment of the Chief Officer;

(g) that a recruitment committee headed by Japan (Chair) and composed of representatives of Bolivia, Burundi, France, India, and the United States of America might review all applications, interview leading candidates and make a recommendation to the 40th Meeting of the Executive Committee, it being understood that:

(i) the recruitment committee was authorized to meet early in June 2003 to establish a short list and, if necessary, to meet once more or hold a teleconference early in December 2003;

(ii) the recruitment committee was also authorized to invite the Executive Secretary of the Ozone Secretariat to attend as an observer;

(iii) a representative of the UNEP Secretariat, accompanied by supporting staff, would assist the recruitment committee technically and administratively throughout the process of selecting the candidates and would provide a briefing on the use of the established interviewing method within the United Nations;

(h) to nominate the Chief Officer for appointment by the Secretary-General at its 40th Meeting;

(i) to request the Secretary-General and the Executive Director of UNEP to expedite the timely appointment of the Chief Officer in order to ensure continuity of the work of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/58, para. 116).

The Fortieth Meeting of the Executive Committee decided:

(b) to express appreciation to the Chief Officer and the Secretariat's staff for their work;

(c) to convey the Committee's best wishes to the Chief Officer for the future.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/1, para. 19 (b, c)).

The Forty-first Meeting of the Executive Committee decided:

(a) to note with appreciation the outstanding efforts made by the Chair of the Executive Committee to bring about the nomination and appointment of the Chief Officer;

(b) to express its warm welcome to Ms. Maria Nolan and best wishes on her appointment as Chief Officer; and

(c) to place the issue of Decision XV/48 of the Fifteenth Meeting of the Parties on the agenda of the Executive Committee for its 42nd Meeting.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/1, para. 15).

RETIREMENT OF DR. OMAR EL ARINI

At the Fortieth Meeting of the Executive Committee, statements of appreciation were made by the representative of Canada as the host country, the representatives of Bolivia, Burundi, Jordan, Mauritius and Saint Lucia on behalf of Article 5 countries and their respective regional groups, the United States of America on behalf of non-Article 5 countries, Austria on behalf of European countries, UNIDO on behalf of the Implementing Agencies, and the statement by a representative of the Secretariat on behalf of Secretariat staff (Annex III.3). Subsequently, the Committee decided:

(a) to express deep gratitude to Dr. Omar El Arini for his outstanding contribution to the development and management of the Multilateral Fund Secretariat, as well as his excellent assistance to the Executive Committee in the formulation of Fund policies, planning, management and evaluation;

(b) in view of his remarkable contribution to the work of the Multilateral Fund over an extended period from its inception, to grant the title of "Honorary Chief Officer" to Dr. Omar El Arini, which he might use in his

post-career life after his retirement;

(c) to note the Executive Committee's own intention to continue to benefit from Dr. Omar El Arini's experience and knowledge for its work as appropriate; and

(d) to convey the Executive Committee's best wishes to the Chief Officer for the future.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/57, para. 116).

RECRUITMENT PROCESS FOR THE POSITION OF THE CHIEF OFFICER OF THE MULTILATERAL FUND SECRETARIAT

At its Sixty-seventh meeting, the Executive Committee decided:

(a) To request the Secretariat to update the documentation relating to the recruitment process for the position of Chief Officer of the Multilateral Fund Secretariat and to provide it to the Executive Committee for consideration at its 68th meeting; and

(b) To request the Secretariat also to make the necessary arrangements for the Executive Committee to undertake its usual recruitment procedure in relation to the position of Chief Officer of the Multilateral Fund Secretariat.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/37, para. 125).

At its Sixty-eighth meeting, the Executive Committee decided:

(a) To take note of documents UNEP/Ozl.Pro/ExCom/68/51 and Add.1;

(b) To approve the vacancy announcement for the post of third Chief Officer as approved at the 68th meeting and attached as Annex XXVII to the present report [final report of the meeting];

(c) To request UNEP to expedite the launching of the vacancy announcement, as approved by the Executive Committee at its 68th meeting, in INSPIRA and to facilitate the selection process;

(d) To approve the establishment of a selection panel consisting of: three representatives of Article 5 countries, three representatives of non-Article 5 countries and two representatives of UNEP, who would review all applications, interview leading candidates and make a recommendation, if possible, to the 69th meeting of the Executive Committee, it being understood that:

  (i) The Secretariat would work expeditiously with Executive Committee members intersessionally to identify the three representatives of Article 5 countries and the three representatives of non-Article 5 countries, including the Chair of the Executive Committee, to serve on the selection panel;

  (ii) The Executive Committee would take a decision intersessionally on the composition of the selection panel;

  (iii) The selection panel would be co-chaired by a representative of UNEP and the Chair of the Executive Committee in 2013 in her capacity as first reporting officer;

  (iv) UNEP would assist the selection panel throughout the process of selecting the candidates and would provide a briefing on the use of the established interviewing method within the United Nations;

  (v) One of the two UNEP representatives on the selection panel would be the Executive Secretary of the Ozone Secretariat;

  (vi) The selection panel should provide its recommendations to the Executive Committee, if possible, at the 69th meeting;

  (vii) After considering the recommendations of the selection panel, the Executive Committee should forward its decision on the recommendations to the hiring manager;

(e) To request the Executive Director of UNEP to work with the Chair of the Executive Committee to keep the Executive Committee informed of progress made throughout the hiring process; and

(f) To request the Secretary-General of the United Nations and the Executive Director of UNEP to expedite the timely appointment of the Chief Officer in order to ensure continuity of the work of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/46, para. 198).
(Supporting documents: UNEP/OzL.Pro/ExCom/68/51 and Add.1).

At its Sixty-ninth meeting, the Executive Committee decided:

(a) To take note of documents UNEP/OzL.Pro/ExCom/69/37 and Add.1;

(b) To approve the revised vacancy announcement for the post of third Chief Officer of the Multilateral Fund Secretariat with a closing date of 24 April 2013, attached as Annex XIV to the [final] report [of the meeting];
(c) To note the Executive Director's reply to the Chief Officer of 22 March 2013 regarding the two UNEP representatives on the selection panel;
(d) To approve the establishment of a selection panel composed of: Ms. Fiona Walters (United Kingdom of Great Britain and Northern Ireland), Co-Chair, Mr. Atsushi Suginaka (Japan) and Mr. John Thompson (United States of America), representing non Article 5 countries, and Mr. R. R. Rashmi (India), Ms. Margaret Aanyu (Uganda) and Mr. Luis Santos (Uruguay), representing Article 5 countries, and Mr. Achim Steiner, Co-Chair, or Ms. Amina Mohamed on Mr. Steiner's behalf, and Mr. Marco Gonzalez, representing UNEP;
(e) To note the Chief of UNEP's Executive Office correspondence of 27 March and 12 April 2013 to the Chair of the Executive Committee on the selection process for the Chief Officer;
(f) To request the members of the selection panel to work intersessionally on the matters within its purview, including the definition of the selection process, the dates for interviews in person and the assessment matrix for attributing scores to candidates; and
(g) To request the selection panel to report to the 70th meeting of the Executive Committee, through its Chair, on progress made in the process of selecting the Chief Officer.

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/26, para. 128).
(Supporting documents: UNEP/OzL.Pro/ExCom/69/37 and Add.1).

At its Seventieth meeting, the Executive Committee decided:

(a) To take note of the progress report on the selection of the Chief Officer of the Multilateral Fund Secretariat, as presented by the Chair of the Executive Committee and Co-chair of the Selection Panel to the 70th meeting of the Executive Committee;
(b) To authorize the Chair of the Executive Committee to forward the Selection Panel's report and recommendation, on behalf of the Executive Committee and through the Executive Director of UNEP, to the Senior Review Group and to the United Nations Secretary General; and
(c) To request the Chair of the Executive Committee to closely monitor the process and report to the Executive Committee at its 71st meeting.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/27, para. 145).
(Supporting documents: UNEP/OzL.Pro/ExCom/70/59).

At the Seventy-first Meeting of the Executive Committee the Chair of the Executive Committee provided the meeting with an oral report on the process of the selection of the Chief Officer of the Multilateral Fund Secretariat, as requested by decision 70/27(c).

(Supporting documents: UNEP/OzL.Pro/ExCom/71/64).

At its Eighty-sixth meeting, the Executive Committee decided:

(a) To note, with appreciation, the report on Secretariat activities contained in document UNEP/OzL.Pro/ExCom/86/2;
(b) To note that the issue of the recruitment of the Chief Officer of the Secretariat of the Multilateral Fund would be added to the agenda of the 86th meeting, to be held in March 2021;
(c) To request the Secretariat, in line with decisions 67/37 and 68/46:
    (i) To update the documentation relating to the recruitment process for the position of Chief Officer of the Secretariat of the Multilateral Fund and to submit it for consideration by the Executive Committee at its 87th meeting; and
    (ii) To make the necessary arrangements for the Executive Committee to undertake its usual recruitment procedure for the position of Chief Officer of the Secretariat of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/1).
(Supporting documents: UNEP/OzL.Pro/ExCom/86/2).

At its Eighty-sixth meeting, the Executive Committee decided:

(d) To note, with appreciation, the participation of a representative of the UNEP Executive Director in the process to select the fourth Chief Officer;
(e) To approve the vacancy announcement for the post of the fourth Chief Officer as contained in Annex I to the present report;

(f) To request UNEP to launch the vacancy announcement referred to in sub-paragraph (e) above, in the United Nations Inspira human resources gateway and to facilitate the selection process;
(g) To establish a selection panel consisting of three members representing Article 5 Parties, three members representing non-Article 5 Parties, and two representatives of UNEP, including the Executive Secretary of the Ozone Secretariat, that would review all applications, interview leading candidates and make a recommendation, on the understanding that:
    (i) The Secretariat would work with Executive Committee members intersessionally to identify the three representatives of Article 5 Parties and the three representatives of non-Article 5 Parties, which would include the Chair of the Executive Committee, to serve on the selection panel;
    (ii) The Executive Committee would decide on the composition of the selection panel at its 87th meeting;
    (iii) The selection panel would be co-chaired by a representative of UNEP and the Chair of the Executive Committee in 2021 in his capacity as first reporting officer;
    (iv) UNEP would assist the selection panel throughout the process of selecting the candidates and would provide a briefing on the use of the established interviewing method within the United Nations; and
(h) To request the Secretariat to report on the progress made on the recruitment process at the 87th meeting.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/2 (d)-(h)).
(Supporting documents: UNEP/OzL.Pro/ExCom/86/2/Add.1).

At its Eighty-seventh meeting, the Executive Committee decided:

(a) To note:
    (i) The report on the progress made on the recruitment process for the position of Chief Officer of the Secretariat of the Multilateral Fund (decision 86/2(h)) contained in document UNEP/OzL.Pro/ExCom/87/55;
    (ii) The job opening for the post of fourth Chief Officer, with its closing date of 3 August 2021, as contained in Annex I to document UNEP/OzL.Pro/ExCom/87/55;
    (iii) The reply of 18 May 2021 from the Executive Director of UNEP to the Chief Officer regarding the two UNEP representatives to serve on the selection panel;
(b) To approve the establishment of a selection panel composed of: Ms. Annie Gabriel (Australia), Mr. Alain Wilmart (Belgium) (Co-Chair), Mr. John Thompson (United States of America), representing non-Article 5 Parties; Ms. Liana Ghahramanyan (Armenia), Mr. Li Yonghong (China) and Ms. Erika Spiess (Paraguay), representing Article 5 Parties; and Ms. Inger Anderson (Executive Director of UNEP) (Co-Chair) and Ms. Megumi Seki (Executive Secretary of the Ozone Secretariat), representing UNEP;
(c) To request the members of the selection panel to work intersessionally on the matters within its purview, including the definition of the selection process, the dates for interviews, to be held virtually, and the assessment matrix for attributing scores to candidates; and
(d) To request the selection panel to report, through the Chair of the Executive Committee, at the 88th meeting on progress made in the process to select the fourth Chief Officer.

(UNEP/OzL.Pro/ExCom/87/58, Decision 87/54).
(Supporting documents: UNEP/OzL.Pro/ExCom/87/55).

At its Eighty-eighth meeting, the Executive Committee decided:

(a) To note that the selection panel established in decision 87/54(b) had reported, through the Chair of the Executive Committee, on the progress made in selecting the fourth Chief Officer of the Secretariat of the Multilateral Fund for the Implementation of the Montreal Protocol, in line with decision 87/54(d); and
(b) To request the Chair of the Executive Committee to monitor progress in the selection of the fourth Chief Officer and to report to the Committee thereon at its 89th meeting.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/76).

STAFF POLICY MATTERS

The Seventy–ninth Meeting of the Executive Committee decided:

(c) Further to request the Secretariat to keep the Executive Committee informed about the ongoing discussions on the application to the Secretariat of the rotational staff policy of the United Nations.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/1, para 20)
(Supporting document: UNEP/OzL.Pro/ExCom/79/51).

ANNEX III.1: TERMS OF REFERENCE OF THE FUND SECRETARIAT

The Fund Secretariat shall:

(a) respond to enquiries about the Fund and be the liaison with Parties, Implementing Agencies and other bilateral and multilateral institutions;

(b) develop the three-year plan and budget for the Fund;

(c) develop a system for disbursement of funds to the Implementing Agencies;

(d) dispatch to all Parties the proposed budget estimates at least 60 days before the date fixed for the opening of the meeting of the Parties at which they are to be considered;

(e) monitor and evaluate expenditures incurred under the Fund for review by the Committee;

(f) assess and, where appropriate, offer recommendations to the Committee regarding country programmes and work programmes developed by Implementing Agencies;

(g) complete reports for the Committee on project proposals where the agreed incremental costs exceed US $500,000;

(h) prepare reports for the Committee on disagreements for requests for funding where the agreed incremental costs are less than US $500,000;

(i) maintain and circulate periodically a current inventory of projects to avoid duplication of effort between the Implementing Agencies and other institutions;

(j) prepare the Committee's annual assessment of whether bilateral contributions comply with criteria set out by the Parties for consideration as part of the contributions to the Fund;

(k) prepare performance reports on the implementation of activities under the Fund for review by the Committee;

(l) serve as liaison between the Committee, interested governments and Implementing Agencies as necessary to the day-to-day functioning of the Fund;

(m) monitor the activities of the Implementing Agencies based on their oral and written reports;

(n) encourage the Parties to make prompt payment of their contributions towards the Fund;

(o) provide other administrative and support functions for the Committee;

(p) at the end of each calendar year, the Chief Officer shall submit to the Parties accounts for the year, and shall also (as soon as practicable) submit the audited accounts for each period so as to coincide with the accounting procedure of the Implementing Agencies;

(q) make arrangement for meetings of the Committee including the issue of invitations, preparation of documents, and reports of meetings;

(r) arrange for necessary interpretation at meetings;

(s) receive, and arrange for translation, reproduction, and distribution of the documents of meetings;

(t) publish and circulate the official documents of meetings;

(u) make and arrange for keeping of sound recordings of meetings;

(v) arrange for the custody and preservation of the documents of the meeting in the archives of the international organization designated as secretariat of the Vienna Convention; and

(w) perform other functions that the Committee may require.

(UNEP/OzL.Pro/ExCom/1/2, para. 14).
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section I.2).

ANNEX III.2: PROPOSAL BY CHINA, NIGERIA AND THE UNITED STATES OF AMERICA

Background

On February 21, the United States wrote a letter to the Chairman and Vice Chairman of the Executive Committee proposing that the Committee seek a contract extension for Dr. El Arini until February 10, 2005. A copy of the letter, which is annexed to this proposal was sent to all Executive Committee members prior to the meeting. That letter explains the reasons why such an extension is thought to be in the best interest of Multilateral Fund and the Executive Committee.

Proposal

The Executive Committee decides:

To request the Chairman of the Executive Committee to communicate with the Executive Director of UNEP in order to express the desire of the Executive Committee to extend the contract of Dr. El Arini until 10 February 2005, for the reasons stated in the Appendix to this document.

Further Considerations

In subsequent discussions, China, Nigeria and the United States discussed their full agreement with the intent of the letter and the proposal noted above. They also shared an understanding that a request from the Executive Committee to UNEP would be based specifically on the unique facts of this situation which can be summarized as follows:

a. that in accordance with the Terms of Reference of the Executive Committee as agreed by the Parties and UNEP, the Secretariat is "co-located" with UNEP

b. that consistent with the Fund Secretariat being co-located with UNEP, UNEP and the Executive Committee had previously agreed on a unique process for the selection of the Chief Officer, under which the Executive Committee itself was delegated significant responsibility for selection of the Chief Officer.

Given these highly unique circumstances, it was understood that this request would in no way establish a precedent for other Secretariats.

United States Environmental Protection Agency
Washington, D.C 20460
Office of Air and Radiation

21 February, 2002

Honourable Engineer Bakare D. Usman
Chairman, Executive Committee
of the Multilateral Fund
Honourable Mr. Tadanori Inomata
Vice Chairman, Executive Committee
of the Multilateral Fund

Dear Sirs,

I am writing as a long serving member of the Executive Committee regarding the post of the Chief Officer of the Secretariat of the Multilateral Fund. It has come to our attention that, in the absence of some intervention by the Executive Committee of the Multilateral Fund, the Chief Officer of the Fund, Dr. Omar El Arini, will retire at age 62 on 10 February, 2003. While his retirement on that date may be consistent with the United Nations (UN) policies on retirement, the United States believes that it is not at all certain that the UN policy applies to Dr. E1 Arini, as he was selected by the Executive Committee (not by the UN) to head a "collocated" Secretariat which is not formally a UN body. In any event, even if the normal UN rules are found to be applicable to the case of Dr. El Arini, we are aware that exceptions to the UN retirement policy are made when such exceptions are agreed to be in the best interest of the organization being served.

The purpose of this note is to explain the situation with Dr. El Arini, and explain why the United States believes it would be in the best interest of the Multilateral Fund to retain the services of Dr. El Arini for at least two years beyond 10 February 2003. Through this note, we would also urge you to work with the Executive Director of UNEP and through him, the United Nations in New York to clarify the applicability of the retirement rules to Dr. El Arini. Finally, if those rules are found to apply, we urge you to seek the views of the Executive Committee and UNEP to, if agreed important, gain an exception from the retirement age policy on the basis that Dr. El Arini's continuation in the job for at least two more years is indeed uniquely needed, and therefore, in the best interest of the organization-

As you know, the Multilateral Fund was established to enable developing countries to meet their obligations under the Montreal Protocol. Under the terms of the Montreal Protocol and it's decisions, the Multilateral Fund's Secretariat is to be "collocated" with UNEP. In accordance with the terms of reference of the Fund, the Chief officer of the Fund is to be selected by the Executive Committee, which then recommends the selected individual to the Executive Director of UNEP for placement. The only time related provisions of Protocol decisions have been invoked was 11 years ago, during the selection of Dr. Omar El Arini. At that time, the Executive Committee asked UNEP to advertise the position under terms of reference approved by the Executive Committee. The Executive Committee then established a recruiting team from among its membership to review and short list applicants, undertake initial interviews, and recommend a candidate to the Executive Committee. On the basis of this process, the Executive Committee selected Dr. El Arini, and asked UNEP to place him in the position of Chief Officer - an action which UNEP took promptly. This novel procedure differs substantially from the procedure usually involved with United Nations selections, and demonstrates that, as a collocated body, we may not always have to be bound by specific UN personnel policies.

In any event, we believe that Dr. El Arini's service as Chief Officer of the Fund Secretariat has been exemplary, and that in that role, he has steadfastly carried out the duties that the Executive Committee and the Parties have requested of him. We believe he has consistently acted above and beyond the call of duty to meet the requirements of the Executive Committee and further the goals of the Multilateral Fund. His creative input and ability to translate the vision of Executive Committee members into workable policies has enabled the Executive Committee to make great progress over the last decade. In such a situation, if it were not for the potential application of any retirement policy, we do not believe there would be any question about Dr. El Arini staying on. However, it must be noted that the situation now faced by the Fund is far from normal, and our need for his

continued service goes well beyond the need to can out the routine historic duties of the Secretariat. Instead, the Fund is now facing a significant turning point in its history in which the guidance of Dr. El Arini's assets, including his historic prospective and understanding is more critical than ever. Let me explain more fully.

Over the course of the last 12 years, the Multilateral Fund and its policies have evolved slowly and carefully. During the first 10 years of the Fund, while developing countries were in their "grace period" and did not have compliance obligations, the Fund established precedents that were designed to drive down the use of ozone depleting substances by focusing on the most cost effective reductions possible. The Fund had this luxury, because compliance obligations for Article 5 countries did not start until the middle of 2000. It is then, for the first time, that developing countries had to demonstrate compliance with the Protocol's control provisions. To prepare us for this transition, in 1999, Dr. El Arini and his able staff enabled the Executive Committee to effectively examine the myriad of key policy and technical issues related to transitioning the work of the Executive Committee to a new mode of operation that was focused directly on ensuring that all countries could use the Fund to ensure compliance with the Protocol's direct obligations.

After over 18 months of discussion of issues related to strategic planning and with the direct help of papers prepared by Dr. El Arini and the Secretariat, the Executive Committee at its last meeting took a large initial group of decisions aimed at redirecting the work of the Executive Committee. These initial decisions are just the beginning of a process which can be expected, over the next three years, to revolutionize the operation of the Fund. Their implementation will take a great deal of understanding of the history of the decisions and hard work on the part of the Secretariat. For this reason alone, it would be critical that there be continuity in the position of Chief Officer. In addition, however, there are other compelling reasons to retain the Chief Officer at this key moment.

Between 2002 and 2005, developing countries will have to go from meeting their first compliance obligation (a relatively simple freeze in one group of chemicals - CFCs) to meeting very significant reduction obligations on a large number of chemicals including CFCs, halons, Methyl Bromide, Carbon tetra chloride, and methyl chloroform. The United States strongly believes that at this time, continuity in the post of Chief Officer is absolutely essential. If we are to maintain the momentum of the Executive Committee during this critical time of evolution in focus, and at the same time ensure compliance with all of the upcoming control obligations, we do not believe that we can rely on a newcomer who knows neither the history of the Fund or the reasons the Executive Committee decided as it did. This is all the more essential due to two key facts: First, the average duration of an Executive Committee member is less than 3 years. This makes continuity in the Secretariat imperative. Second, when the Executive Committee began, it took 7 meetings over two years before the first investment project was approved! At this critical time, with so many reduction obligations coming due, the Fund simply can not afford to lose such momentum. In such a situation, we believe it is in the best interest of the Fund, indeed, it is critical for the Fund, to seek to retain Dr. El Arini's service until at least 2/2005. Given the above noted concerns, we write to you, as officers of the Fund, to pursue a clarification of the applicability of the retirement policies to our situation, and, if found necessary and agreed useful by the Executive Committee, to explore an exception from those policies to keep Dr. El Arini in his post until at least 2/2005. In that regard, we urge you in your role as officers of the Fund to appropriately put this issue before a future meeting of the Executive Committee. Please be assured of the support of the United States to help in any aspect of this effort in which we can be of assistance and feel free to call me at 1-202-564-9109.

Please accept the assurance of my highest regard.

(signature).
Paul Horwitz
Member, Executive Committee
United States of America

Term of service of the Chief Officer of the Multilateral Fund Secretariat (Japanese Proposal).

Amendment to the proposal by China, Nigeria and United States of America contained in UNEP/OzL.Pro/ExCom/36/CRP.2.

1. Insert the following after the words "The Executive Committee" in the first line of the draft decision:

   Having considered the letter of 21 February 2002 from the United States member of the Executive Committee and the proposal by China, Nigeria and the United States of America (CRP.2),

2. Add after the word "decides" as part of the first operative paragraph of the draft decision:

   To take note of the United Nations Staff Regulation 9.5, which reads that "Staff members shall not be retained in active service beyond the age of sixty years or, if appointed on or after 1 January 1990, beyond the age of sixty-two years. The Secretary-General may, in the interest of the Organization, extend this age limit in exceptional cases".

3. Replace the words "for the reasons stated in Annex" by "taking into account the reasons stated in the letter from the United States of America".

4. Add the following as the second operative paragraph:

   Further decides to establish by the end of 2003 a procedure and modalities by which to select and nominate by the middle of 2004 for appointment by the Executive Director of UNEP a future Chief Officer serving for a term beginning on 11 February 2005, with the understanding that the agreed nominee will have the opportunity to be familiarized with the work of the Fund Secretariat in advance so as to ensure the continuity of the work of the Secretariat.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/57, para. 127).
(Supporting document: UNEP/OzL.Pro/ExCom/36/36,Annexes XI and XII).

ANNEX III.3: RETIREMENT OF DR. OMAR EL-ARINI, CHIEF OFFICER OF THE MULTILATERAL FUND

Canada

The representative of Canada said that his country was honoured to host the Multilateral Fund Secretariat and he paid tribute to the Fund's successes and achievements under Dr. El Arini's stewardship. His wisdom, leadership and ability to understand the complex issues had made a major contribution to the Fund's success. He concluded by lightheartedly paying tribute to Dr. El-Arini's fortitude in withstanding 13 Canadian winters.

Bolivia

The representative of Bolivia, speaking on behalf of all Article 5 countries, said that the Montreal Protocol owed Dr. El-Arini more appreciation than could be expressed, and that history would surely give him the recognition he deserved for his work for the good of humanity.

He said that it was an honour for Article 5 countries to have worked with Dr. El-Arini, who had surpassed expectations in fulfilling his mandate under the Montreal Protocol with a boundless sense of honesty, integrity and responsibility. It was his hard work and success over the past 13 years or so that had made it possible for the Multilateral Fund to grow and mature as a relevant and effective body within the international community. As direct beneficiaries of the work done by the Secretariat under Dr. El-Arini, Article 5 countries were sincerely and permanently grateful for the proactive, humble, respectful, generous and wise attitude toward every task.

It was difficult to pinpoint which existing international awards and marks of recognition would suffice to pay tribute to all that Dr. El-Arini had done, but he could be sure of the gratitude of several generations of billions of inhabitants of the planet, and many millions of children who would be able to enjoy the natural environment like those before them. Dr. El Arini had proved an exemplary human being, teacher and adviser, and after thanking him for having fulfilled his mission so competently, he wished him further success, good health and serenity in the future.

Burundi

The representative of Burundi, speaking on behalf of African countries, said that he was proud to have been associated with the remarkable work of the Multilateral Fund. Gratitude was due not only from those who worked to protect the ozone layer, but also from all of humanity. The achievements of the Multilateral Fund were cited as a prime example of successful environmental cooperation. As a mark of appreciation, the African countries had mandated him to invite Dr. El-Arini to attend the Africa network meeting in Mauritius as their guest.

Jordan

The representative of Jordan also wished to express his appreciation to Dr. El-Arini, noting that he and all members of his Secretariat had worked indefatigably to implement the Montreal Protocol and to assist developing countries in respecting their commitments to the environment. The efforts that he had deployed over the preceding years had been an incentive to those countries to make extra efforts themselves.

Mauritius

The representative of Mauritius recalled with pleasure the many times, both professional and social, that he had spent with Dr. El-Arini, and said that he looked forward to welcoming him personally to Mauritius.

Saint Lucia

The representative of Saint Lucia, speaking on behalf of the countries of the English speaking Caribbean, echoed the sentiments and good wishes of other speakers and suggested that Dr. El-Arini might like to exchange the cold Canadian winters for the warm beaches of the Caribbean.

United States of America

The representative of the United States of America, speaking on behalf of the non Article 5 countries, noted that in the beginning the Montreal Protocol had represented a politically crafted compromise and a great deal of blank paper, with the hope of the global community that the participants would be able to find a way to make it work. The Multilateral Fund could have had a number of different chief officers and the blank pages could have been filled in many different ways, but today it was acknowledged as one of the most effective parts of the United Nations system, something that was attributable to Dr. El-Arini, his vision and his leadership. An expression of that leadership had been his insistence on standards of excellence, an insistence to which the Secretariat staff had responded fully.

It was not enough to express the appreciation of the United States or of the Executive Committee; the whole global community had benefited from Dr. El-Arini's work to restore the ozone layer. He expressed the hope that the Executive Committee would continue to benefit from that wisdom as it tackled difficult issues in the future. He was certain that a telephone call to Dr. El-Arini about a particular problem would bring a reasoned response. It was not a time for saying goodbye but both for celebrating what had been accomplished and for looking forward to a different form of collaboration in the future.

Austria

The representative of Austria, speaking on behalf of European countries, thanked Dr. El Arini for all he had accomplished. He said that it had been a great pleasure and honour to work with him and hoped that he would enjoy life after the Multilateral Fund.

UNIDO

The representative of UNIDO wished to express the sincere appreciation of the Implementing Agencies to Dr. El-Arini for his cooperation and guidance over the past dozen years. When the Multilateral Fund had been set up in 1990, it was the first financial mechanism of its kind. Dr. El-Arini had guided its development, ensuring a copious flow of information and finding solutions acceptable to all interested parties in often difficult negotiations. Through the lessons and learning experiences gained, the work of the Multilateral Fund was regarded as an environmental success story. Dr. El-Arini had contributed significantly to that success and would be sorely missed.

Multilateral Fund Secretariat

Speaking on behalf of the Secretariat, Mr. Richard Abrokwa-Ampadu noted that Dr. El Arini had always striven for work of excellent quality and that, as a man of principle, he had always courageously defended both his convictions and those of his staff. Not only had he been loyal to the cause of the Executive Committee which he had been appointed to serve, but he had also been loyal to the staff of the Secretariat, and had always been ready to share his ideas, his vision and his innermost feelings with them.

Mr. Abrokwa-Ampadu said that the activities of the Secretariat had been facilitated by the strong sense of objectivity and adherence to the principle of impartiality instilled by Dr. El Arini in his staff, and their work. It was the strong sense of mission, diligence and commitment to duty shown by Dr. El-Arini that had inspired everyone, without exception, to commit themselves to long hours of hard work in order to give their best. Many would remember him as an unsurpassed role model, a man always ready to praise, commend or reward a good effort.

Mr. Abrokwa-Ampadu recalled that all good things must come to an end one day, and that Dr. El-Arini could not be begrudged his well-deserved rest. He noted however that to simply say that Dr. El-Arini would be greatly missed would be the greatest of understatements. He said it remained to simply, and in all sincerity, state on behalf of all the members of the Secretariat, as well as all temporary staff, how proud and honoured they had been to have had the opportunity to work with Dr. El-Arini over the years, and to have been called his friend. In conclusion, he wished both Dr. El-Arini and his wife continued success in their future endeavours and assured Dr. El-Arini that they could both always count on the friendship of the staff of the Secretariat.

Statement by Dr. Omar El-Arini

Dr. Omar El-Arini thanked the members of the Executive Committee, the Implementing Agencies and the Secretariat for their kind words. He also recalled with appreciation many people who were not in the room, including former Chairs and Vice-Chairs of the Executive Committee, Chairs of the Sub-Committees, heads of working groups, and past members of staff. In particular, he would like to thank the Government of Canada for its hospitality, which had made Montreal a home from home for the Secretariat staff. He thanked all the staff and management of the Implementing Agencies, noting that they had been very responsive to the needs of the Multilateral Fund, and also the members of the Technology and Economic Assessment Panel (TEAP) for their guidance and innovation. The staff of the GEF Secretariat and the Ozone Secretariat also deserved thanks for their strong support, together with non governmental organizations for their contributions. He also wished to pay a special tribute to Mr. Sarma, former Executive Secretary of the Ozone Secretariat, and Mr. Marco Gonzalez, the current Executive Secretary, without forgetting Mr. Theodor Kapiga, who had long represented the Treasurer of the Fund. Thanks were also due to ICAO and to UNEP as co-hosts of the Fund Secretariat. He paid tribute to all who supported the Executive Committee's meetings: interpreters, report-writers, and conference room attendants.

Above all, he wished to thank his colleagues in the Multilateral Fund Secretariat for their perseverance and dedication in furthering the goal of the Montreal Protocol. Noting that there would soon be a different voice speaking from the Chief Officer's chair, he expressed his confidence that the Secretariat would remain professional and neutral in the execution of its duties to the full satisfaction of the Executive Committee.

He concluded by referring to his predilection for Middle Eastern culture, poetry and literature and in parting wished to cite some words that expressed his feelings:

"How shall I go in peace and without sorrow?
No, not without a wound in the spirit shall I leave your company.
Too many fragments of my spirit have I scattered in documents, corridors, aeroplanes, offices, and conference rooms; and I cannot withdraw from them without a burden and an ache.
It is not a garment I cast off this day but a skin that I tear with my own hands.
Nor is it a thought I leave behind me, but a heart made bigger with toil, sweat and hope.
Let it be said that my day of parting is the day of coming together, and let it be said that my eve amongst you is in truth a dawn for a new day and glorious future for the Multilateral Fund."
You are the guardian of this Fund and I am sure with your wisdom you will maintain its future and its independence.
Do not give it up for adoption nor commit it to an old people's home; you will find a middle way for it to fulfill your dreams that conceived it and nurtured it.
God bless you all".

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/57, para.11)

UNEP

Multilateral Fund for the Implementation of the Montreal Protocol

POLICIES, PROCEDURES, GUIDELINES AND CRITERIA

(As at January 2026)

CHAPTER IV: BILATERAL COOPERATION

The Multilateral Fund Secretariat

IV. BILATERAL COOPERATION 1
Criteria 1
In-kind contribution 1
Guidelines for cost assessment of bilateral and regional activities 1
Documentation for assessment 1
Intersessional approval of bilateral co-operation activities 2
Flexibility of timing for crediting bilateral co-operation funding 2
Rate of disbursement in bilateral projects 2
Programme support costs of the bilateral cooperation projects 2
Focal point in bilateral projects 3
Business plans for bilateral co-operation 3
Business plans for bilateral co-operation for the year 1999 3
Business plans for bilateral co-operation for the year 2000 3
Business plans for bilateral co-operation for the year 2001 4
Business plans for bilateral co-operation for the year 2002 4
Business plans for bilateral co-operation for the years 2004-2006 5
Business plans for bilateral co-operation for the years 2005-2007 5
Business plans for bilateral co-operation for the years 2006-2008 5
Business plans for bilateral co-operation for the years 2007-2009 6
Business plans for bilateral co-operation for the years 2008-2010 6
Business plans for bilateral co-operation for the years 2009-2011 7

Business plans for bilateral co-operation for the years 2022-2024 9
Business plans for bilateral co-operation for the years 2023-2025 10
Business plans for bilateral co-operation for the years 2024-2026 10
Business plans for bilateral co-operation for the years 2025-2027 10
Business plans for bilateral co-operation for the years 2026–2028 10
Progress report on bilateral cooperation 10
Verification of data against the Inventory of Approved Projects 17

IV. BILATERAL COOPERATION

CRITERIA

Bilateral and, in particular cases agreed by a decision of the Parties, regional co-operation may, up to 20 per cent and consistent with any criteria specified by decision of the Parties, be considered as a contribution to the Multilateral Fund, provided that such co-operation as a minimum:

(a) strictly related to compliance with the provisions of the Protocol;

(b) provides additional resources; and

(c) meets agreed incremental costs.

(UNEP/OzL.Pro/2/3 Annex IV, Appendix IV of Decision II/8, para. 8).

The amount representing the annual bilateral co-operation would be credited for the year designated by the non-Article 5 Party, as part of its contribution.

(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 12).

The Executive Committee in its annual report to the meeting of the Parties shall provide recommendations in respect of contributions of specific Parties to the Multilateral Fund made through regional co-operation. The amount representing regional co-operation accepted by the Parties shall be credited against contributions due from a non-Article 5 Party to the Fund for the year designated by the country.

(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 13, 14).

In-kind contribution

If the bilateral or regional assistance will be in the form of a contribution in-kind, both the non-Article 5 Party and the beneficiary country shall agree on the financial cost of such contribution according to the measures adopted by the Executive Committee for costing contributions in-kind.

(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 7).

GUIDELINES FOR COST ASSESSMENT OF BILATERAL AND REGIONAL ACTIVITIES

The Seventh Meeting of the Executive Committee adopted guidelines for cost assessment of bilateral and regional activities. In assessing the costs claimed as bilateral or regional contributions to the Fund, it was decided that the following criteria should be used:

(a) donor countries should submit a detailed account of how the assistance conforms to incremental costs;

(b) lists of maximum costs by level of ODS consumption by project type, e.g., those used for institutional strengthening, should be developed and claims for bilateral or regional contributions should not exceed the maximum levels; and

(c) activities that involve more than one Article 5 country may be considered bilateral activities providing that the above criteria are met and a pro rata share is determined which accounts for participation of any non-Article 5 country.

(UNEP/OzL.Pro/ExCom/7/30, para. 82 and Annex IV).
(Supporting document: UNEP/OzL.Pro/ExCom/7/30 Annex IV).

Non-Article 5 Parties intending to withhold up to 20 per cent of their contribution for the purpose of bilateral or regional assistance should, to the extent possible, indicate this in writing to the Fund Secretariat, specifying the year to which it should be credited. The Secretariat shall circulate such information to all non-Article 5 Parties and to the Implementing Agencies.

(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 4).

Documentation for assessment

Non-Article 5 Parties shall submit to the Secretariat, as early as possible, the documentation for assessment of their bilateral or regional contributions. The documentation shall identify beneficiary countries and the proposed activities to be implemented, with timetables and estimated budgets. It shall also indicate whether an agreement has been reached with a beneficiary country and the relationship with the country programme of the beneficiary country.

(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 5, 6).

The Twelfth Meeting of the Executive Committee agreed that any future bilateral contribution projects that exceeded US $500,000 should follow the same procedures as applied to projects submitted by the Implementing Agencies.

(UNEP/OzL.Pro/ExCom/12/37, para. 35).

The Fund Secretariat shall prepare an assessment of all proposals for bilateral or regional assistance against project eligibility criteria set out by the Executive Committee, and shall report this assessment to the Committee. The Committee shall assess these proposals in light of the recommendations provided by the Secretariat.
(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 8, 9).

In some particular cases, in order to avoid delays in starting bilateral assistance projects, the Fund Secretariat pending the forthcoming meeting of the Executive Committee, may consult with the Chairman and Vice-Chairman, and shall transmit the result of such consultations to the other members of the Committee for their information. Should any member notify objection to the proposed activities by telex, fax or mail within two weeks of receiving the document, the proposal would be considered at the next Executive Committee meeting. If no member objected to the document within that time period, the Secretariat could advise the non-Article 5 Party whether or not the proposal satisfied the criteria stated above and therefore qualified as eligible.
(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 10).
(UNEP/OzL.Pro/ExCom/14/15, para. 45).

A progress report on bilateral or regional activities, including financial reporting, should be submitted by the donor country to the Secretariat semi-annually.
(UNEP/OzL.Pro/ExCom/5/16 Annex IV, para. 11).

Intersessional approval of bilateral co-operation activities

The Executive Committee, noting that bilateral co-operation activities had not been specifically exempted from its decision at the Sixteenth Meeting to suspend intersessional approval of projects, decided to reinstate intersessional approval of bilateral co-operation activities.
(UNEP/OzL.Pro/ExCom/17/60, Decision 17/3 para. 11).

Flexibility of timing for crediting bilateral co-operation funding

The Twenty-fifth Meeting of the Executive Committee decided to allow flexibility in the year for which bilateral projects would be credited, provided that:

(a) the bilateral agencies submit their work plans in time at the beginning of the year, so that the Secretariat could transmit them to the Monitoring, Evaluation and Finance Sub-Committee for consideration during discussions of the business plans at the Committee's first meeting of the year; and

(b) any project proposal by a bilateral agency exceeding US $2 million be submitted for full review by the Executive Committee and not approved intersessionally.

(UNEP/OzL.Pro/ExCom/25/68, Decision 25/13, para. 38).

The Forty-ninth Meeting of the Executive Committee decided to continue to inform the Meeting of the Parties of cases where bilateral cooperation exceeded 20 per cent of its 2006 contribution in the current replenishment period, in particular where they relate to commitments for existing multi-year agreements.
(UNEP/OzL.Pro/ExCom/49/43, Decision 49/19 para. 103 (a)).

Rate of disbursement in bilateral projects

The Thirty-first Meeting of the Executive Committee decided to request the bilateral agencies to strive to achieve the same rate of disbursement (70 per cent for all funded projects) as required for the Implementing Agencies by decision 24/4.
(UNEP/OzL.Pro/ExCom/31/61, Decision 31/5, para. 23(c)).

Programme support costs of the bilateral cooperation projects

The Forty-first Meeting of the Executive Committee decided to request the Secretariat, in consultation with bilateral agencies, to compile historical data of the rates of programme support costs of the bilateral cooperation projects and the methodology used for the calculation of such rates with a view to examining the applicability of the current administrative cost regime established by Decision 38/68 to bilateral agencies, and to report thereon to the 42nd Meeting.
(UNEP/OzL.Pro/ExCom/41/87, Decision 41/94, para. 150(c)).

The Forty-second Meeting of the Executive Committee decided:

(a) to take note of the report on programme support costs of bilateral cooperation projects (UNEP/OzL.Pro/ExCom/42/50);

(b) to note with appreciation the inputs from Australia, Canada, Germany, Israel, Italy, and Japan;

(c) to defer further consideration of the programme support costs of bilateral cooperation projects until its 43rd Meeting;

(d) to invite the bilateral agencies to make further submissions giving their views on the matter in order to facilitate discussion at the 43rd Meeting; and

(e) to include in the provisional agenda of the 43rd Meeting an item entitled "Rights and obligations of bilateral agencies under the Montreal Protocol and its Multilateral Fund".

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/45, para. 145).
(Supporting document: UNEP/OzL.Pro/ExCom/42/50).

The Forty-third Meeting of the Executive Committee decided to request the Secretariat, in cooperation with interested Parties, to prepare a paper, for consideration at the 45th Meeting, on a procedure for using support costs, consistent with Decision 26/41, in a more flexible manner to address the issues raised in paragraph 146 of document UNEP/OzL.Pro/ExCom/42/54 while allowing bilateral agencies to decide which modalities would apply to them.
(UNEP/OzL.Pro/ExCom/43/61, Decision 43/40, para. 152).

The Forty-fifth Meeting of the Executive Committee after a discussion of the proposal by the representative of Japan to modify the proposed procedures and guidelines for a core unit funding advance, decided:

(a) to defer consideration of the agenda item to the 46th Meeting of the Executive Committee; and

(b) to invite Japan to submit its proposed principles and guidelines for a core unit funding advance for bilateral agencies to the 46th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/57, para. 185).
(Supporting document: UNEP/OzL.Pro/ExCom/45/49).

Focal point in bilateral projects

The Twenty-ninth Meeting of the Executive Committee decided to request that one donor be nominated in the project proposal to act as the focal point with responsibility for communications with the Secretariat on reviewing, managing and reporting on the project.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/25, para. 53).

BUSINESS PLANS FOR BILATERAL CO-OPERATION

Business plans for bilateral co-operation for the year 1999

The Twenty-seventh Meeting of the Executive Committee decided:

(a) to take note with appreciation of the business plans for bilateral co-operation submitted by Belgium, Canada, Finland, France, Germany, Japan, New Zealand and Sweden (UNEP/OzL.Pro/ExCom/27/6, annexes I to VIII);

(b) to request countries to submit their draft business plans for bilateral co-operation to the Executive Committee at its third meeting each year;

(c) to request the Secretariat to advise countries engaged in bilateral co-operation and Implementing Agencies on possible duplication of business plan activities;

(d) to include in the agenda of the next meeting of the Sub-Committee on Monitoring, Evaluation and Finance the subject of bilateral co-operation with regard to its impact on Implementing Agencies' shares;

(e) to agree that, for the bilateral business plans to achieve their primary objectives, the beneficiary countries should be advised to avoid duplication by consulting with relevant agencies, including the ozone units.

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/3, para. 22).

Business plans for bilateral co-operation for the year 2000

The Thirtieth Meeting of the Executive Committee decided:

(a) to take note with appreciation of the business plans for bilateral co-operation submitted by Australia, Canada, Czech Republic, Denmark, France, Germany, Japan, New Zealand, Sweden and the United Kingdom;

(b) to urge that, when preparing business plans for bilateral co-operation, there should be ongoing discussion among the bilateral donors, the Implementing Agencies and the Fund Secretariat in order to avoid overlapping and to provide consistency;

(c) to note the explanations given by the representative of Sweden concerning the projects in its business plan for bilateral co-operation in 2000;

(d) to request the Government of France to review the chiller replacement projects in its business plan in the light of decisions taken by the Executive Committee on the funding of such projects.

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/14, para. 34).
(Supporting document: UNEP/OzL.Pro/ExCom/30/11, and Corr.1).

Business plans for bilateral co-operation for the year 2001

The Thirty-second Meeting of the Executive Committee decided:

(a) to note, with appreciation, the draft business plans for bilateral co-operation submitted by Canada, Germany and Japan and the letters sent by Australia and the United Kingdom;

(b) to request all Parties planning to submit requests for bilateral co-operation to submit final business plans to the Thirty-third Meeting.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/9, para. 20).
(Supporting document: UNEP/OzL.Pro/ExCom/32/12).

The Thirty-third Meeting of the Executive Committee decided:

(a) to reaffirm decision 30/56 (e) with regard to Japanese bilateral activities in China's solvent sector;

(b) to reaffirm decision 30/14 (b) with regard to avoiding overlapping and ensuring consistency when preparing business plans for bilateral co-operation;

(c) to note, with appreciation, the information on the 2001 planned bilateral co-operation activities of Australia, Canada, France, Germany, Italy, Japan, New Zealand, Sweden and the United Kingdom.

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/5, para. 22).

Business plans for bilateral co-operation for the year 2002

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to note with appreciation the draft business plans for bilateral co-operation for the year 2002 submitted by Australia, Canada, Germany, Italy, Japan and Sweden, as contained in document UNEP/OzL.Pro/ExCom/35/6, as well as planned bilateral funding by the United Kingdom;

(b) to request all bilateral agencies planning to submit activities in 2002 to obtain the clearance of the respective Article 5 countries before submitting activities for funding by the Executive Committee;

(c) to note that the World Bank would adjust approved programme funds allocated for 2002 for the National CFC Phase-out Plans for Thailand and Malaysia when and if the World Bank sub-contracted Sweden for CTC/TCA strategies and MAC technical assistance projects included in Sweden's draft 2002 business plan. The funds would then be credited against Sweden's contribution to the Multilateral Fund, and this would take place in future years when and if this arrangement occurred again;

(d) further to request Parties planning to submit bilateral co-operation projects in 2002 to submit final business plans to the 36th Meeting.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/3, para. 28).
(Supporting document: UNEP/OzL.Pro/ExCom/35/6).

The Thirty-fifth Meeting of the Executive Committee also decided to request bilateral agencies to submit their final business plans by the due date, indicating the total level of funds needed and, in the light of this, to authorize the Secretariat to adjust the resource allocation for projects accordingly and account for any changes in allocations that might result from discussions of strategic planning, including additional funds that might be needed for country programme updates and increased allocation for institutional strengthening.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/2, para. 26(d)).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to note with appreciation the business plans and letters on bilateral co-operation submitted by: Australia, Canada, Czech Republic, France, Germany, Israel, Italy, Japan, Sweden, and the United Kingdom, as addressed in UNEP/OzL.Pro/ExCom/36/9;

(b) to request bilateral agencies to coordinate with other agencies before the 37th Meeting to resolve any potential overlaps before submitting requests for funding, in consultation with the countries concerned, notwithstanding any action on funding requests made to the 36th Meeting.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/8, para. 42).

Business plans for bilateral co-operation for the years 2004-2006

The Forty-second Meeting of the Executive Committee decided:

(a) to note with appreciation the business plans and letters on bilateral cooperation submitted by: Canada, the Czech Republic, Germany, Italy, Japan, the Slovak Republic, Sweden, Switzerland and the United States of America as addressed in document UNEP/OzL.Pro/ExCom/42/7;

(b) also to note the withdrawal by Hungary of its business plan, which included funding for the European Network;

(c) to note with appreciation the significant support for the European Network provided by the Czech Republic, Hungary and the Slovak Republic;

(d) to request the Czech Republic and the Slovak Republic to withdraw their business plans, which included funding for the European Network, as UNEP had incorporated the Network into its funding requests for its Compliance Assistance Programme (CAP);

(e) further to note the statement made by the representative of Japan with respect to the activities proposed and to maintain them in the business plan of Japan; and

(f) in the case of multiyear projects which would result in forward commitments into the next replenishment period, to request bilateral agencies to establish arrangements such as agreements with other implementing and bilateral agencies that were in a position to do so, which would ensure that the project received the full funding approved.

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/6, para. 45).
(Supporting document: UNEP/OzL.Pro/ExCom/42/7).

Business plans for bilateral co-operation for the years 2005-2007

The Forty-fifth Meeting of the Executive Committee decided:

(a) to note with appreciation the 2005-2007 business plans on bilateral cooperation submitted by: Canada, France, Germany, Italy, Japan, Portugal and Sweden, contained in documents UNEP/OzL.Pro/ExCom/45/6 and Corr.1;

(b) to note that Germany had received agreement from the Governments of Angola, India, and Papua New Guinea to defer funding for activities in Germany's 2005 business plan until 2006;

(c) to request that bilateral agencies cooperate with other Implementing Agencies to resolve any potential or actual overlaps before submitting requests for funding; and

(d) to remove the chiller projects and activities from the 2005-2007 business plans and to invite demonstration projects and project preparation for chiller projects to be presented at the 47th Meeting of the Executive Committee within the funding window for a global chiller programme, based on the criteria to be agreed at the 46th Meeting of the Executive Committee; and

(e) to defer consideration of ODS destruction projects until the 46th Meeting.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/5, para. 42).
(Supporting document: UNEP/OzL.Pro/ExCom/45/6 and Coor.1).

Business plans for bilateral co-operation for the years 2006-2008

The Forty-eighth Meeting of the Executive Committee decided:

(a) to note with appreciation the 2006-2008 business plans on bilateral cooperation submitted by Australia, Canada, France, Germany, Japan and Sweden, as contained in document UNEP/OzL.Pro/ExCom/48/7;

(b) to maintain the network activity for the Pacific Island Countries included in Australia's business plan;

(c) to note the fact that the Executive Committee had committed all but US $35,469 of Germany's 20 per cent bilateral contribution for the 2006-2008 triennium through annual tranches of multi-year agreements due during the current triennium;

(d) in view of the compliance requirements associated with the TPMPs and another activity required for compliance identified in Germany's business plan, to request the Fund Secretariat to explore with Germany and other agencies the most effective way in which those activities required for compliance in the 13 African countries concerned could be expedited within the allocation of available funds;

(e) if, by the 49th Meeting, Germany did not have sufficient funds available in its 20 per cent allocation for the triennium to finance projects in its business plans required for compliance with the 2007 and 2010 targets, Germany would consult with the relevant countries and the bilateral and implementing agencies regarding the transfer of those projects. Consequently, a decision on the transfer would be made by all the parties concerned;

(f) to note that the requirements of the present decision did not adversely affect any existing "in principle approved tranches" of multi-year agreements and any new activity not related to the 2007 and 2010 compliance needs;

(g) to remove ODS destruction activities from Germany's 2006-2008 business plan;

(h) to move ODS destruction activities in Japan's business plan from 2006 to 2008, with a cap of US $200,000 to cover such activities;

(i) to maintain the inclusion in Sweden's 2006 business plan of an activity related to a network for combating illegal trade.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/5, para. 48)
(Supporting document: UNEP/OzL.Pro/ExCom/48/7).

Business plans for bilateral co-operation for the years 2007-2009

The Fifty-first Meeting of the Executive Committee decided:

(a) to note with appreciation the 2007-2009 business plans on bilateral cooperation, without prejudice to the Parties' discussions on replenishment following the 2006 2008 triennium, submitted by Canada, France, Germany, Italy and Japan as addressed in document UNEP/OzL.Pro/ExCom/51/7;

(b) to note the agreement of India to the proposed procedure to accommodate activities in Germany's 2007 and 2008 business plans that currently exceeded its bilateral contribution, which involved funding part of the 2008 tranche for India's national phase-out plan in 2009;

(c) to request Germany to report to the 52nd Meeting on the proposed terminal phase out management plan (TPMP) projects for Botswana and Swaziland noting that if, at that time, Germany did not have sufficient funds available in its 20 per cent allocation for the triennium, Germany would consult with the relevant countries and the bilateral and implementing agencies regarding the transfer of those projects, reaching a decision agreed by all the parties involved concerning the transfer of those projects;

(d) to note that the TPMP for Angola had been removed from Germany's business plan, at the request of Germany;

(e) to maintain the CFC-113 solvent project for the Democratic Republic of the Congo included in Italy's 2007 business plan in light of decision 35/57; and

(f) to urge bilateral agencies and implementing agencies to coordinate with each other when preparing TPMP proposals.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/6 para. 62).
(Supporting document: UNEP/OzL.Pro/ExCom/51/7).

Business plans for bilateral co-operation for the years 2008-2010

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to note with appreciation the 2008-2010 business plans on bilateral cooperation. submitted by Canada, France, Germany, Italy and Japan as addressed in document UNEP/OzL.Pro/ExCom/54/7, without prejudice to the Parties' discussions on replenishment for the period 2009-2011 triennium, and to maintain:

  (i) the combating of illegal trade (second year funding) in Canada's business plan;

  (ii) the ODS destruction activity in the business plan of Japan, in the light of decision 54/5(c);

  (iii) the MDI activity in India in Italy's business plan in the light of decision 54/5(d);

(b) to remove HCFC activities in Germany's business plan in the light of decision 54/5(b)(iii);

(c) to note that Germany had indicated with respect to potential over-programming in its business plan that, if all the funding could be approved in the current year, it would team up with other agencies to share the activities, and that all the countries that could be affected by the over-programming had been made aware that Germany might not have sufficient funds to submit their activities for funding in 2008; and

(d) to allow Switzerland's request for funding to be considered as its business plan to enable it to use up to 20 per cent of its pledges for the 2006-2008 triennium for bilateral cooperation.

(UNEP/OzL.Pro/ExCom/54/49, Decision 54/6 para. 55).
(Supporting document: UNEP/OzL.Pro/ExCom/54/7).

Business plans for bilateral co-operation for the years 2009-2011

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to note with appreciation the 2009-2011 business plans on bilateral cooperation submitted by Canada, the Czech Republic, France, Germany, Hungary, and Japan as addressed in document UNEP/Oz.L.Pro/ExCom/57/8;

(b) to note sub-paragraph (f)(iii) in decision 57/6 in connection with the HCFC foam demonstration project in Germany's business plan;

(c) to request the Government of Germany to provide input on the amounts for ODS phase out in Germany's business plan;

(d) to remove:

(i) additional project preparation for the refrigeration servicing sector in India in Germany's business plan;

(ii) the regional refrigeration association in Eastern Europe and Central Asia in Hungary's business plan.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/7 para. 68).
(Supporting document: UNEP/OzL.Pro/ExCom/57/8).

Business plans for bilateral co-operation for the years 2010-2012

The Sixtieth Meeting of the Executive Committee, pursuant to decision on the consolidated 2010-2012 business plan, took note of the 2010-2012 business plans of Canada, the Czech Republic, France, Germany Italy and Japan, as contained in document UNEP/OzL.Pro/ExCom/60/8.

(UNEP/OzL.Pro/ExCom/60/54, para.58).
(Supporting document: UNEP/OzL.Pro/ExCom/60/8).

Business plans for bilateral co-operation for the years 2010-2014

The Sixty-first Meeting of the Executive Committee decided to note the 2010-2014 business plans for bilateral cooperation submitted by Canada, the Czech Republic, France, Germany, Italy and Japan, addressed in document UNEP/OzL.Pro/ExCom/61/8, as adjusted, taking into account any modifications based on the consideration of the issues and activities addressed in the context of the revised consolidated business plan.

(UNEP/OzL.Pro/ExCom/61/58,Decision 61/6 para.32).
(Supporting document: UNEP/OzL.Pro/ExCom/61/8).

Business plans for bilateral co-operation for the years 2011-2014

The Sixty-third Meeting of the Executive Committee decided:

(a) To note the 2011-2014 business plans for bilateral cooperation submitted by the Governments of Australia, the Czech Republic, Germany, Italy and Japan, as addressed in document UNEP/OzL.Pro/ExCom/63/8;

(b) Further to note that, with respect to potential over-programming in the Government of Germany's business plan, if all the funding could be approved in 2011, the Government of Germany would join with other agencies to share the activities, and that all the countries that could be affected by the over-programming had been made aware that the Government of Germany might not have sufficient funds to submit their activities for funding in 2011; and

(c) To remove the activity on regional customs cooperation in Europe and Central Asia from the business plan of the Government of the Czech Republic.

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/6 para.41).
(Supporting document: UNEP/OzL.Pro/ExCom/63/8).

Business plans for bilateral co-operation for the years 2012-2014

The Sixty-sixth Meeting of the Executive Committee decided:

(a) To take note of the 2012-2014 business plans for bilateral cooperation submitted by the Governments of Germany and Japan, as addressed in document UNEP/OzL.Pro/ExCom/66/8;

(b) To note Germany's confirmation that it would continue to adjust its business plan, including by taking the

necessary steps with Article 5 partner countries and bilateral or implementing agencies, so that it remained within the range of its 20 per cent bilateral contribution; and

(c) To request that Germany report to the 67th meeting of the Executive Committee on progress on adjusting its business plan to ensure that the total value of its activities was within the range of Germany's bilateral allocations for the 2012-2014 triennium.

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/6 para. 39).
(Supporting document: UNEP/OzL.Pro/ExCom/66/8).

Business plans for bilateral co-operation for the years 2013-2015

The Sixty-ninth Meeting of the Executive Committee decided to note the 2013-2015 business plans for bilateral cooperation submitted by the Governments of Germany and Japan, as addressed in document UNEP/OzL.Pro/ExCom/69/7.

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/6 para. 49).
(Supporting document: UNEP/OzL.Pro/ExCom/69/7).

Business plans for bilateral co-operation for the years 2014-2016

The Seventy-first Meeting of the Executive Committee decided to take note of the 2014-2016 business plans of bilateral agencies submitted by the Germany, Italy and Japan, as addressed in document UNEP/OzL.Pro/ExCom/71/8.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/19 para. 73).
(Supporting document: UNEP/OzL.Pro/ExCom/71/8).

Business plans for bilateral co-operation for the years 2015-2017

The Seventy-third Meeting of the Executive Committee decided

(a) The 2015-2017 business plans of bilateral agencies submitted by Germany, Italy, Japan and Poland contained in document UNEP/OzL.Pro/ExCom/73/19; and

(b) That, at the 74th meeting, Germany's 2015-2017 business plan should be reconsidered in light of the 20 per cent bilateral allocation and the general approach applied in the financial planning document for the 2015-2017 triennium.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/28 para.101).
(Supporting document: UNEP/OzL.Pro/ExCom/73/19).

Business plans for bilateral co-operation for the years 2016-2018

The Seventy-fifth Meeting of the Executive Committee decided

(a) To note:
  (i) The bilateral agencies' business plans for 2016–2018 submitted by the Governments of Germany and Italy contained in document UNEP/OzL.Pro/ExCom/75/22;
  (ii) That further approvals after the 75th meeting under the 2015–2017 business plan for Germany should not exceed US $1,018,810, and that at current replenishment levels, approvals in principle for the years 2018–2020 should not exceed US $2,572,768; and

(b) To request the Government of Germany to indicate how it would rationalize its remaining new business plan activities amounting to US $1.5 million in 2016 and 2017 taking into account approvals and forward commitments at the 75th meeting, and to report back to the 76th meeting.

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/23 para.129).
(Supporting document: UNEP/OzL.Pro/ExCom/75/22).

The Seventy-sixth meeting of the Executive Committee decided:

(c) to take note of the revised 2016–2018 business plan provided by the Government of Germany.
UNEP/OzL.Pro/ExCom/76/66, Decision 76/3, para 35(c))

(Supporting document: UNEP/OzL.Pro/ExCom/76/5).

Business plans for bilateral co-operation for the years 2017-2019

The Seventy-seventh meeting of the Executive Committee decided:

(a) To note the bilateral agencies' business plans for 2017–2019, submitted by the Governments of Germany, Italy and Japan, contained in document UNEP/OzL.Pro/ExCom/77/21, as well as the additional information provided by the Government of Germany;

(b) Further to note that approvals in principle for the Government of Germany for the 2018-2020 triennium should not exceed US $2,604,720, based on the assumption that there would be the same level of replenishment as for the 2015–2017 triennium.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/28, para102)
(Supporting document: UNEP/OzL.Pro/ExCom/77/21).

Business plans for bilateral co-operation for the years 2018-2020

The Eightieth Meeting of the Executive Committee decided:

(a) To note the bilateral agencies' business plans for 2018–2020 submitted by the Governments of Germany, Italy and Japan contained in document UNEP/OzL.Pro/ExCom/80/17; and
(b) That Germany's 2018–2020 business plan should be reconsidered at the 81st meeting in the light of the bilateral activity allocation for the 2018–2020 triennium.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/35, para 118)
(Supporting document: UNEP/OzL.Pro/ExCom/80/17).

The Eighty-first Meeting of the Executive Committee decided:

(a)(iii) To note the bilateral agency business plans for 2018–2020 submitted by the Governments of Canada and Germany and
(a)(iv) That the 2018–2020 business plans of the Governments of Canada and Germany did not exceed 20 per cent of the Governments' bilateral contributions for the triennium;.

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/26, para 96)
(Supporting document: UNEP/OzL.Pro/ExCom/81/12).

Business plans for bilateral co-operation for the years 2019-2021

The Eighty-second Meeting of the Executive Committee took note of the business plans of the bilateral agencies for 2019–2021 submitted by the Governments of Germany and Japan, contained in document UNEP/OzL.Pro/ExCom/82/26.

(UNEP/OzL.Pro/ExCom/82/72, para 182)
(Supporting document: UNEP/OzL.Pro/ExCom/82/26)

Business plans for bilateral co-operation for the years 2020-2022

The Eighty-fourth Meeting of the Executive Committee decided to note:

(a) The business plans of the bilateral agencies for 2020–2022 submitted by the Governments of Australia and Germany, contained in document UNEP/OzL.Pro/ExCom/84/27; and

(b) That the 2020–2022 business plan of the Government of Germany should be reconsidered at the 85th meeting in the light of the bilateral activity allocation for the 2018–2020 triennium, on the understanding that funding and activities for low-volume-consuming countries supported by the Government of Germany would not be affected.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/47)
(Supporting document: UNEP/OzL.Pro/ExCom/84/27)

Business plans for bilateral co-operation for the years 2021-2023

The Eighty-sixth Meeting of the Executive Committee took note of the business plans of the bilateral agencies for 2021–2023, submitted by the Governments of Germany, Japan and the United Kingdom of Great Britain and Northern Ireland and contained in document UNEP/OzL.Pro/ExCom/86/26.

(UNEP/OzL.Pro/ExCom/86/100, para 187)
(Supporting document: UNEP/OzL.Pro/ExCom/86/26)

Business plans for bilateral co-operation for the years 2022-2024

The Eighty-eighth Meeting of the Executive Committee took note of the business plans of the bilateral agencies for 2022-2024 submitted by the Governments of Germany, Japan and the United Kingdom of Great Britain and Northern Ireland, contained in document UNEP/OzL.Pro/ExCom/88/23.

(UNEP/OzL.Pro/ExCom/88/79, para 129
(Supporting document: UNEP/OzL.Pro/ExCom/88/23)

Business plans for bilateral co-operation for the years 2023-2025

The Ninety-first Meeting of the Executive Committee decided to note:

(a) The business plans of the bilateral agencies for 2023–2025 submitted by the Governments of Germany, Japan and the United Kingdom of Great Britain and Northern Ireland, as contained in document UNEP/OzL.Pro/ExCom/91/23; and

(b) That the level of the activities in the business plans of the Governments of Austria and Germany for 2023-2025 should be considered in the light of the bilateral activity allocation for the triennium 2021–2023.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/32).
(Supporting document: UNEP/OzL.Pro/ExCom/91/23).

Business plans for bilateral co-operation for the years 2024-2026

The Ninety-third Meeting of the Executive Committee decided to note:

(a) The business plan for 2024–2026 submitted by the Government of Germany and contained in document UNEP/OzL.Pro/ExCom/93/26; and

(b) That the level of activities in the business plan of the Government of Germany for 2024-2026 should be considered in light of the bilateral activity allocation for the triennium 2024–2026.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/29).
(Supporting document: UNEP/OzL.Pro/ExCom/93/26).

Business plans for bilateral co-operation for the years 2025-2027

The Ninety-fifth Meeting of the Executive Committee decided to note:

(a) The business plans for 2025–2027 submitted by the Governments of Australia, Czechia, France, Germany and the United Kingdom of Great Britain and Northern Ireland, contained in document UNEP/OzL.Pro/ExCom/95/26; and

(b) That the level of activities in the business plan of the Government of Germany for 2025-2027 should be considered in light of the bilateral activity allocation for the triennium 2024-2026.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/28).
(Supporting document: UNEP/OzL.Pro/ExCom/95/26).

Business plans for bilateral co-operation for the years 2026–2028

The Ninety-seventh Meeting of the Executive Committee decided to note:

(a) The business plans for 2026–2028 submitted by the Governments of Australia, France, Germany, Italy and the United Kingdom of Great Britain and Northern Ireland, contained in document UNEP/OzL.Pro/ExCom/97/21; and

(b) That the level of activities in the business plan of the Government of Germany for 2026–2028 should be considered in light of the bilateral activity allocation for the triennium 2024–2026.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/25).
(Supporting document: UNEP/OzL.Pro/ExCom/97/21).

PROGRESS REPORT ON BILATERAL COOPERATION

The Forty-sixth Meeting of the Executive Committee decided:

(a) to note with appreciation the progress reports submitted by the Governments of Australia, Canada, the Czech Republic, Finland, France, Germany, Hungary, Italy, Japan, the Slovak Republic, Spain, Sweden and Switzerland;

(b) to request the Governments of the United Kingdom and the United States of America to provide their progress reports to the 47th Meeting of the Executive Committee;

(c) to request the Governments of France, Germany, Italy, Japan and Sweden to provide reports on projects with implementation delays to the 47th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/9, para. 55 (a, b, c)).
(Supporting document: UNEP/OzL.Pro/ExCom/46/11).

The Forty-ninth Meeting of the Executive Committee decided:

(a) to note with appreciation the progress reports submitted by the Governments of Australia, Canada, Finland, France, Germany, Italy, Japan, Spain and Sweden (UNEP/OzL.Pro/ExCom/49/10);

(c) to request the Governments of Portugal, Switzerland and the United States of America to submit their progress reports to the 50th Meeting of the Executive Committee;

(d) to request the Governments of Canada, France, Germany, Italy, Japan, Sweden and Switzerland to submit reports on projects with implementation delays to the 50th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/8, para. 70 (a, c, d)).

The Fifty-second Meeting of the Executive Committee decided:

(a) to note with appreciation the progress reports submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan, Spain and Switzerland;

(b) to request the Governments of Finland, Portugal, Sweden and the United States of America to provide their progress reports to the 53rd Meeting of the Executive Committee as a matter of urgency;

(c) to request the Governments of Canada, France, Germany, Italy, Japan, Spain and Sweden to provide reports on the projects with implementation delays to the 53rd Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/9 (a, b, c), para. 66).
(Supporting document: UNEP/OzL.Pro/ExCom/52/11).

The Fifty-fifth Meeting of the Executive Committee decided:

(a) to note with appreciation the progress reports submitted by the Governments of Australia, Canada, France, Germany, Italy, Portugal, Spain, Sweden and the United States of America;

(b) to request the Governments of Finland, Japan and Switzerland to provide their progress reports to the 56th Meeting of the Executive Committee;

(c) to request the Governments of Canada, France, Germany, Japan, Portugal and Spain to provide reports on the projects with implementation delays to the 56th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/6 (a, b, c), para. 55).
(Supporting document: UNEP/OzL.Pro/ExCom/55/10).

The Fifty-eighth Meeting of the Executive Committee decided:

(a) to note with appreciation the progress reports submitted by the Governments of Australia, Canada, Finland, France, Germany, Italy, Japan, Spain, Sweden, Switzerland, and the United States of America contained in document UNEP/OzL.Pro/ExCom/58/11;

(b) to note that since decision 17/22, no overruns had been allowed for Fund-supported activities;

(c) to request that, in light of decision 17/22, the Governments of France and Japan address the rule of no overruns in their next progress reports to the Executive Committee and adjust their accounting accordingly;

(d) to request the Governments of Israel and Portugal to provide their progress reports to the 59th Meeting of the Executive Committee;

(e) to request the Governments of Australia, Canada, Italy, Japan, and Spain to provide reports on the projects with implementation delays contained in Table 1 of Annex V to the report to the 59th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/58/53, Decision 58/9 (a, b, c, d, e), para. 59).
(Supporting document: UNEP/OzL.Pro/ExCom/58/11).

The Sixty-first Meeting of the Executive Committee decided:

(a) To note with appreciation the progress reports submitted by the Governments of Australia, Canada, Czech Republic, Finland, France, Germany, Italy, Japan, Spain, Sweden and the United States of America contained in document UNEP/OzL.Pro/ExCom/61/14;

(b) To also note that the Governments of Australia, Canada, France, Israel, Italy, Japan, Portugal and Spain would report on the projects with implementation delays to the 62nd Meeting of the Executive Committee; and

(c) To request:

(i) The Governments of Israel, Portugal and Switzerland to provide their progress reports to the

62nd Meeting of the Executive Committee;

(ii) The submission to the 62nd Meeting of the Executive Committee of additional status reports for the projects and agencies as listed in Annex VIII to the present report.

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/12, para.46).
(Supporting document: UNEP/OzL.Pro/ExCom/61/14).

The Sixty-fourth Meeting of the Executive Committee decided:

(a) To note with appreciation the progress reports submitted by the Governments of Australia, Canada, the Czech Republic, Finland, France, Germany, Italy, Japan, Portugal, Spain and Sweden contained in document UNEP/OzL.Pro/ExCom/64/10;

(b) To request the Governments of Israel and Switzerland to provide their progress reports to the 65th meeting of the Executive Committee;

(c) To request the Governments of Australia, Canada, France, Italy, Japan, Portugal, and Spain to provide reports to the 65th meeting on the projects with implementation delays listed in table 2 of document UNEP/OzL.Pro/ExCom/64/10; and

(d) To request the submission of additional status reports to the 65th meeting on the following:

(i) The CFC phase-out plan in the Lao People's Democratic Republic (LAO/PHA/61/INV/21), implemented by France, in order to monitor fund disbursement;

(ii) The identification of co-financing options for each of the countries participating in the "strategic demonstration project for accelerated conversion of CFC chillers in five African countries (Cameroon, Egypt, Namibia, Nigeria and Sudan)" (AFR/REF/48/DEM/36), implemented by France;

(iii) An agreement for a training institution for the project "African customs enforcement network in the African sub-regional trade organizations (CEMAC, COMESA, SACU and UEMOA)" (AFR/SEV/53/TAS/39), implemented by France;

(iv) Completion of the demonstration project to validate the use of super-critical CO2 in the manufacture of sprayed polyurethane rigid foam" in Colombia (COL/FOA/60/DEM/75), implemented by Japan, if it had not been completed by the 65th meeting;

(v) The identification of co-financing options for each of the countries participating in the "strategic demonstration project for accelerated conversion of CFC chillers in five African countries (Cameroon, Egypt, Namibia, Nigeria and Sudan)" (AFR/REF/48/DEM/35), implemented by Japan; and

(vi) Project preparation for a demonstration project on ODS disposal in the Asia and Pacific region (ASP/DES/54/PRP/53), implemented by Japan, if the request for funding was not submitted to the 65th meeting.

(UNEP/OzL.Pro/ExCom/64/53, Decision 64/7, para.45).
(Supporting document: UNEP/OzL.Pro/ExCom/64/10).

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To note with appreciation the progress reports submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan, Portugal, Spain and Sweden contained in document UNEP/OzL.Pro/ExCom/67/11;

(b) To request:

(i) The Governments of the Czech Republic, Israel and Switzerland to provide their progress reports;

(ii) The Governments of the Czech Republic, France, Israel, Italy, Japan and Spain to provide reports to the 68th meeting on the projects with implementation delays listed in Table 2 of document UNEP/OzL.Pro/ExCom/67/11;

(iii) The submission of additional status reports to the 68th meeting to monitor:

a. The resolution of the financial mechanism and co-financing issues for Nigeria, Senegal and the Sudan by the 68th meeting as a milestone for achievement in order to avoid consideration of possible cancellation in those countries of the "strategic demonstration projects for accelerated conversion of CFC chillers in African countries" (AFR/REF/48/DEM/35, implemented by Japan, and AFR/REF/48/DEM/36, implemented by France);

b. The initiation of the action plan in order to avoid consideration of possible cancellation of the project "African customs enforcement networks for preventing illegal trade of ODS in the African sub-regional trade organizations" (AFR/SEV/53/TAS/39), implemented by France;

c. Project implementation progress for the HCFC phase-out management plans with low disbursement rates in Afghanistan (AFG/PHA/63/INV/13), the Islamic Republic of Iran (IRA/PHA/63/INV/201), and Papua New Guinea (PNG/PHA/63/INV/11), implemented by Germany;

d. Actions taken by Botswana towards the establishment of the licensing system for ODS imports and exports as part of the HPMP project preparation project (BOT/PHA/60/PRP/14), implemented by Germany;

e. Project implementation progress for the CFC phase-out project with a low disbursement rate in Senegal (SEN/PHA/57/INV/28), implemented by Italy;

f. The completion of the HCFC demonstration project in Colombia (COL/FOA/60/DEM/75), implemented by Japan, if it had not been completed by the 68th meeting; and

g. The preparation of a demonstration project on ODS disposal in the Asia and Pacific Region (ASP/DES/54/PRP/53), implemented by Japan, if the request for funding was not submitted to the 68th meeting.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/9, para.44).
(Supporting document: UNEP/OzL.Pro/ExCom/67/11).

The Seventieth Meeting of the Executive Committee decided:

(a) To note with appreciation the progress reports submitted by the Governments of Australia, Canada, the Czech Republic, France, Germany, Italy, Japan and Spain as contained in document UNEP/OzL.Pro/ExCom/70/11;

(b) To note that, for the refrigeration servicing sector CFC phase-out plan in China: first tranche (CPR/REF/44/INV/420) and second tranche (CPR/REF/47/INV/438), project costs should be reassigned to support costs so that the overall project and support costs remained within the budget approved for those projects;

(c) To cancel the project "African customs enforcement networks for preventing illegal trade of ODS in the African sub regional trade organizations" (AFR/SEV/53/TAS/39), implemented by France;

(d) To request:

(i) The Governments of Israel, Portugal and Switzerland to provide their progress reports to the 71st meeting of the Executive Committee;

(ii) The Governments of France, Israel and Spain to provide reports to the 71st meeting on the projects with implementation delays listed below:

Agency	Code	Project title	Category of delays
France	AFR/SEV/53/TAS/39	African customs enforcement networks for preventing illegal trade of ODS in the African sub-regional trade organizations (CEMAC, COMESA, SACU and UEMOA)	12 and 18 months delays
Israel	GLO/FUM/56/TAS/296	International methyl bromide compliance assistance workshop	12 months delays
Spain	LAC/FUM/54/TAS/40	Technical assistance to introduce chemical alternatives in countries which have rescheduled methyl bromide phase out plan (Argentina and Uruguay)	12 months delays

(iii) The submission of additional status reports to the 71st meeting to monitor:

a. Progress in project implementation for the tranches of the HCFC phase out management plans (HPMPs) with low rates of disbursement in the following countries: Afghanistan, the Islamic Republic of Iran and Zimbabwe, implemented by Germany;

b. Regarding the preparation of an HPMP in Botswana (BOT/PHA/60/PRP/14), implemented by Germany, the actions taken by Botswana towards the establishment of the licensing system for ODS imports and exports to enable its HPMP to be submitted based on the guidelines in decision 60/44;

c. The completion of the demonstration project to validate the use of super critical CO2 in the manufacture of sprayed polyurethane rigid foam in Colombia (COL/FOA/60/DEM/75), implemented by Japan, if it had not been completed by the 71st meeting;

d. The finalization of the financial scheme with beneficiaries in Senegal and Sudan for the strategic demonstration project for accelerated conversion of CFC chillers in African countries (AFR/REF/48/DEM/35), implemented by Japan; and

e. The preparation of a demonstration project on ODS disposal for the Asia and Pacific region (ASP/DES/54/PRP/53), implemented by Japan, if the request for funding was not submitted to the 71st meeting.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/8, para.56).
(Supporting document: UNEP/OzL.Pro/ExCom/70/11).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note:
   (i) With appreciation, the progress reports as at 31 December 2013 submitted by the Governments of Australia, Canada, the Czech Republic, France, Germany, Israel, Italy, Japan and Spain contained in document UNEP/OzL.Pro/ExCom/73/11, as well as the progress report for Switzerland that was submitted during the 73rd meeting; and
   (ii) That Spain would report to the 74th meeting on one project with implementation delays, as indicated in Annex IV to the present report, and Germany on two projects, Italy on one project and Spain on one project recommended for additional status reports, as indicated in Annex V to the present report.

UNEP/OzL.Pro/ExCom/73/62, Decision 73/9 para. 52).
(Supporting document: UNEP/OzL.Pro/ExCom/73/11).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note:
   (i) With appreciation the progress reports [as at 31 December 2014] submitted by the Governments of Australia, the Czech Republic, France, Germany, Italy, Japan and Spain contained in document UNEP/OzL.Pro/ExCom/75/13;
   (ii) That the bilateral agencies would report to the 76th meeting on three projects with implementation delays and on 10 projects recommended for additional status reports, as indicated in Annexes IV and V, respectively, to the present report;
(b) To request:
   (i) The Governments of Israel and Portugal to provide their progress reports to the 76th meeting; and
   (ii) The Governments of France and Japan to submit to the 76th meeting an update on the status of the strategic demonstration project for accelerated conversion of CFC chillers in five African Countries, (AFR/REF/48/DEM/36) and (AFR/REF/48/DEM/35), respectively, given that the Executive Committee had agreed to extend the required completion dates of December 2015 by six months, to June 2016.

UNEP/OzL.Pro/ExCom/75/85, Decision 7511 para. 90).
(Supporting document: UNEP/OzL.Pro/ExCom/75/13).

The Seventy-seventh Meeting of the Executive Committee decided:

(a) To note:
   (i) With appreciation the progress reports submitted by the Governments of Australia, Germany, Italy, Japan and Spain contained in document UNEP/OzL.Pro/ExCom/77/12;
   (ii) That the bilateral agencies would report to the 79th meeting on one project with implementation delays and on four projects recommended for additional status reports, as indicated in Annexes III and IV, respectively, to the present report; and
(b) To request the Government of France to submit its progress report to the 79th meeting.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/9, para 58(a)-(b))
(Supporting document: UNEP/OzL.Pro/ExCom/77/12)

The Seventy-ninth Meeting of the Executive Committee decided:

(a) To note with appreciation the progress reports submitted by the Governments of Australia, France, Germany, Italy, Japan, the Russian Federation and Spain contained in document UNEP/OzL.Pro/ExCom/79/9;

(b) To approve the actions related to ongoing projects with specific issues contained in Annex II to the present report.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/8, para 45)
(Supporting document: UNEP/OzL.Pro/ExCom/79/9).

The Eighty-second Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports submitted by the Governments of Australia, France, Germany, Italy, Japan, the Russian Federation and Spain contained in document UNEP/OzL.Pro/ExCom/82/15; and

(b) To approve the actions related to ongoing projects with specific issues contained in Annex III to the present report.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/12)
(Supporting document: UNEP/OzL.Pro/ExCom/82/15).

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan, the Russian Federation and Spain contained in document UNEP/OzL.Pro/ExCom/84/17; and

(b) To approve the recommendation related to an ongoing project with specific issues contained in Annex V to the present report.

(UNEP/OzL.Pro/ExCom/84/75, Decision 82/13)
(Supporting document: UNEP/OzL.Pro/ExCom/84/17).

The Eighty-sixth Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan, the Russian Federation and Spain contained in document UNEP/OzL.Pro/ExCom/86/16; and

(b) To approve the recommendations related to ongoing projects with specific issues contained in Annex III to the present report.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/14)
(Supporting document: UNEP/OzL.Pro/ExCom/86/16).

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan and Spain contained in document UNEP/OzL.Pro/ExCom/88/13;

(b) To approve the extension of the completion dates of the projects listed below to allow for completion of the remaining ongoing activities as reflected in Table 1 of document UNEP/OzL.Pro/ExCom/88/13:

  (i) HCFC phase-out management plan (HPMP) for Zimbabwe (stage I, fourth tranche) (refrigeration servicing sector) (ZIM/PHA/80/INV/54) to 31 March 2022; and

  (ii) HPMP for Zimbabwe (stage I, fifth tranche) (ZIM/PHA/86/INV/62) to 30 June 2022;

(c) To approve the extension of the completion date, to 30 September 2022, of the enabling activities for HFC phase-down for Papua New Guinea (PNG/SEV/80/TAS/01+), to allow for completion of the remaining ongoing activities as reflected in Table 3 of document UNEP/OzL.Pro/ExCom/88/13; and

(d) To approve the recommendations related to ongoing projects with specific issues contained in Annex III to the present report.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/12)
(Supporting document: UNEP/OzL.Pro/ExCom/88/13).

The Ninety-first Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan and Spain contained in document UNEP/OzL.Pro/ExCom/91/13;

(b) To approve the extension, to 30 June 2023, of the completion date of stage I of the HCFC phase out management plan for Zimbabwe (fourth tranche – refrigeration servicing sector (ZIM/PHA/80/INV/54) and fifth tranche (ZIM/PHA/86/INV/62)), to allow for completion of the remaining ongoing activities as reflected in table 5 of document UNEP/OzL.Pro/ExCom/91/13;

(c) To approve the extension, to 31 December 2022, of the completion date of the enabling activities for HFC phase-down for Liberia (LIR/SEV/80/TAS/01+), to allow for completion of the remaining ongoing activities as reflected in table 7 of document UNEP/OzL.Pro/ExCom/91/13; and

(d) To approve the recommendations related to ongoing projects with specific issues contained in Annex IV to the present report.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/11).
(Supporting document: UNEP/OzL.Pro/ExCom/91/13).

The Ninety-third Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports, as at 31 December 2022, submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan and Spain contained in document UNEP/OzL.Pro/ExCom/93/15;

(b) To approve the extension, to 30 June 2024, of the completion date of stage II of the HCFC phase-out management plan for Egypt (second tranche) (EGY/PHA/84/INV/142) to allow completion of the remaining ongoing activities, as reflected in table 5 of document UNEP/OzL.Pro/ExCom/93/15; and

(c) To approve the recommendations related to ongoing projects with specific issues contained in annex III to the present report.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/12).
(Supporting document: UNEP/OzL.Pro/ExCom/93/15).

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports as at 31 December 2023, submitted by the Governments of Australia, Canada, France, Germany, Italy, Japan and Spain and contained in document UNEP/OzL.Pro/ExCom/95/15; and

(b) To approve the recommendations related to ongoing projects with specific issues contained in annex V to the present report.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/13).
(Supporting document: UNEP/OzL.Pro/ExCom/95/15).

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note, with appreciation, the progress reports as at 31 December 2024, submitted by the Governments of Australia, Austria, France, Germany, Italy, Japan, Spain and the United Kingdom of Great Britain and Northern Ireland, contained in document UNEP/OzL.Pro/ExCom/97/12;

(b) To approve the extension of the completion dates of the projects listed below to allow completion of the remaining ongoing activities, as reflected in table 5 of document UNEP/OzL.Pro/ExCom/97/12:

  (i) Conversion from HFC-134a to isobutane in the manufacture of domestic refrigerators at Capri (SME Harare) for Zimbabwe (ZIM/REF/82/INV/56) (implemented by the Government of France), to June 2026;

  (ii) Preparation of a national inventory of banks of waste controlled substances and development of a national plan for the management of those substances (decision 91/66) for Liberia (LIR/DES/93/PRP/36) and Seychelles (SEY/DES/93/PRP/31) (implemented by the Government of Germany), to December 2026; and

(c) To approve also the recommendations related to ongoing projects with specific issues contained in annex IV to the present report.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/10).
(Supporting document: UNEP/OzL.Pro/ExCom/97/12).

VERIFICATION OF DATA AGAINST THE INVENTORY OF APPROVED PROJECTS

The Thirty-seventh Meeting of the Executive Committee decided to request bilateral agencies to verify their data against the Inventory of Approved Projects before submitting their progress reports.
(UNEP/OzL.Pro/ExCom/37/71, Decision 37/10, para. 36 (d)).

V. IMPLEMENTING AGENCIES

TERMS OF REFERENCE

The Executive Committee shall discharge its tasks and responsibilities specified in its terms of reference as agreed by the Parties, with the co-operation and assistance of the World Bank, UNEP, UNDP, or other appropriate agencies depending on their respective areas of expertise. (UNIDO became the fourth Implementing Agency in October 1992).
(UNEP/OzL.Pro/2/3 Decision II/8, para. 6).
(UNEP/OzL.Pro/4/15 Decision IV/8 (section I.4).

Under the guidance and supervision of the Executive Committee, Implementing Agencies shall:

(a) be requested by the Committee, in the context of country programmes to facilitate compliance with the Protocol, to co-operate with and assist the Parties within their respective areas of expertise; and

(b) to develop an inter-agency agreement and specific agreements with the Committee acting on behalf of the Parties.

They shall apply only those considerations relevant to effective and economically efficient programmes and projects consistent with criteria adopted by the Parties. In fulfilling their responsibilities in respect of the Fund, they shall consult each other regularly, and meet at least once a year to report on their activities and consult on co-operative arrangements. They shall be entitled to receive support costs for the activities they undertake having reached specific agreements with the Committee.
(UNEP/OzL.Pro/ExCom/1/2, para. 20).
(UNEP/OzL.Pro/2/3 Annex IV, Appendix IV of Decision II/8, para. 2).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV)

ASSISTANCE TO ARTICLE 5 COUNTRIES

In developing its country programme and/or its project proposals, an Article 5 Party may request technical assistance, other services and support from the Implementing Agencies within their respective areas of expertise and within the context of work programmes approved by the Executive Committee.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section II.1.3).

Article 5 Parties should select an approved Implementing Agency before preparing projects for submission to the Executive Committee. They should work together to expedite the preparation of country programmes, work programmes, and project proposals, and should develop proposed timeliness for the preparation and implementation of projects.
(UNEP/OzL.Pro/ExCom/8/29 Annex III, para. 3.1, 3.2, 3.5).

UNDP

The Executive Committee invited UNDP to co-operate and assist in feasibility and pre-investment studies and in other technical assistance measures.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 3b).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV).

Functions

UNDP shall:

(a) report on the status of activities related to country programmes including the activities of field offices;

(b) prepare periodic progress reports on projects;

(c) prepare an annual report on income and expenditures of the previous years; and

(d) prepare a final report after completion and/or termination of each project.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section VI.2.1).

Agreement

The Executive Committee and UNDP signed an agreement on 21 August 1991 (Annex II.4).

UNEP

The Executive Committee invited UNEP to co-operate and assist in the political promotion of the objectives of the Protocol, as well as in research, data gathering and the clearing-house functions.

Functions

Clearing-house functions include:

(a) assisting Parties, operating under paragraph 1 of Article 5, through country specific studies and other technical co-operation, to identify their needs;

(b) facilitating technical co-operation to meet identified needs;

(c) distributing information, holding workshops and training sessions, and other related activities for the benefit of Parties that are developing countries; and

(d) facilitating and monitoring other multilateral, regional, and bilateral co-operation available to Parties that are developing countries.

(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 3a).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV).

UNEP shall:

(a) report on training, country studies, political promotion and communication efforts and clearing-house activities; and

(b) prepare an annual audited report on the income and expenditures of the Multilateral Fund.

(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section VI.2.2).

Agreement

The Executive Committee and UNEP signed an agreement on 19 June 1991 (Annex II.5).

Budget cycle

The Eighteenth Meeting of the Executive Committee requested UNEP to follow the same budget cycle as the other Implementing Agencies.

(UNEP/OzL/Pro.ExCom/18/75, Decision 18/11, para. 23(c).

The Twenty-second Meeting of the Executive Committee, bearing in mind its Decision 17/22 prohibiting budget overruns, decided that as an exceptional measure, UNEP should be allowed to offset its budget overrun for 1995 against its underrun for the same year.

(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/57, para. 77).

Levels of funding

The Twenty-first Meeting of the Executive Committee, having considered the 1997 work programme of UNEP together with the comments and recommendations of the Fund Secretariat thereon, as well as the recommendations of the Sub-Committee on Project Review, decided:

(a) to approve a total amount of US $1.05 million for recurring information-exchange activities that are ongoing in nature (namely, the collection of sectoral data from world-wide sources; updated OAIC diskette version; dissemination of information materials; direct query-response service; maintenance of contact database of experts and mailing list of OzonAction programme publications; halon bank management clearing-house services; publication of the OzonAction newsletter and special supplements);

(b) to approve a total amount of US $0.335 million for the remaining, non-recurring information-exchange activities in the UNEP 1997 work programme, including delivery of the OzonAction newsletter and other information through the World Wide Web home page site;

(c) to approve a total amount of US $1.1 million for networking activities;

(d) the amounts of US $1.05 million approved for recurring information exchange activities, which are outlined in subparagraph (a) above, and US $1.1 million for networking activities, which are outlined in sub-paragraph (c) above, would represent caps, and the levels of funding for those activities would not be increased in future years except by a factor of up to 5 per cent to cover inflation. The levels of future funding for non-recurring activities would be considered on the basis of the individual proposals submitted by UNEP;

(f) that UNEP should have the flexibility to apportion, according to its own priorities, the amounts referred to in subparagraphs 24 (a) to 24 (c) above.

(UNEP/OzL.Pro/ExCom/21/36, Decision 21/14, para. 24).
(Supporting document: UNEP/OzL.Pro/ExCom/21/16).

The Thirtieth Meeting of the Executive Committee, while considering two projects on the methyl bromide sector submitted by UNEP, decided that:

(b) UNEP be requested, in its annual business planning, to examine and re-prioritize its core programme to increase the effort directed towards information dissemination and awareness-raising on emerging needs such as methyl bromide;

(c) UNEP also be requested to make every effort to incorporate any future projects of this nature within its re-prioritized core programme.

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/38, paras 63(b) and (c)).

The Thirty-second Meeting of the Executive Committee decided to:

(b) request that similar project components (project assistance monitoring and evaluation) not come forward to future meetings of the Executive Committee;

(c) request UNEP to produce a paper showing how the 13 per cent allowance for support costs was utilized in general terms and also in specific similar projects already implemented;

(d) re-examine, in the light of the above paper, whether the other Implementing Agencies might be in a better position to implement the non-investment activities in question in an RMP within the 13 per cent agency support costs.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/31, para. 43 (b, c, d).

Compliance Assistance Programme

The Thirty-fifth Meeting of the Executive Committee decided to approve the Compliance Assistance Programme (CAP) budget for UNEP (Annex V.1), with the following conditions:

(a) the use of this budget and related CAP employees shall not be used for implementation of projects approved before 2002;

(b) UNEP will submit a preliminary report to the 38th Meeting of the Executive Committee on the use of the programme support cost, with a detailed report to be submitted at the 40th Meeting in 2003;

(c) UNEP should also report to the Executive Committee during 2002 on the progress made in the implementation of the CAP programme, specifically on the lessons learned during the first steps of CAP implementation;

(d) funds approved annually for the CAP but not spent should be returned to the Multilateral Fund for re-programming at the second meeting of the Executive Committee in the year following that for which they had been approved;

(e) consideration by the Executive Committee should be given to benefit of developing a unified budget in future years, and UNEP should provide a proposal for such a budget at the 38th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/36, para. 69).
(Supporting document: UNEP/OzL.Pro/ExCom/35/26).

The Thirty-eighth Meeting of the Executive Committee decided to request UNEP, in the preparation of future budgets, to take into account the comments and concerns expressed by the Sub-Committee and, if possible, to prepare unified budgets, internalizing the programme support costs, if necessary in an indicative way.
(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/36, para. 69 (b)).

The Fortieth Meeting of the Executive Committee decided to set targets for UNEP's CAP with a view to full data reporting by Article 7 Parties based on the following performance indicators:

(i) number of countries with missing data that received specific CAP assistance for data reporting in order to determine compliance baselines. UNEP should give a clear indication of the assistance provided; and

(ii) number of countries reporting data in compliance with Article 7 of the Protocol.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/11, para. 49(b)).

The Forty-first Meeting of the Executive Committee decided:

(b) to consider future programme support costs on the basis of a future Executive Committee decision taken after consideration of the investigation to be carried out by UNEP, as recommended in paragraph 74 below; and

(c) to review the CAP budget in one year's time on the basis of the results achieved, including its contribution to the regional networks, in consultation with the countries in the region.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/38(b, c), para. 73).

The Forty-first Meeting of the Executive Committee decided:

(a) to investigate how it could prepare unified budgets for the Compliance Assistance Programme (CAP), possibly based on the concept of the general trust funds and integrating all the administrative costs and related expenses, as well as programme support costs, into an administrative budget; and

(b) to submit the result of the above investigation to the 43rd Meeting of the Executive Committee for its consideration.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/39, para. 74).

The Forty-fourth Meeting of the Executive Committee decided to request UNEP to continue to report to the Executive Committee on the actual allocation and use of the 8 per cent programme support costs between support services pertaining to the implementation of the CAP and the administrative support costs charged by the United Nations Office at Nairobi.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/27, para. 134 (b)).

The Forty-seventh Meeting of the Executive Committee decided:

(a) to approve the UNEP's Compliance Assistance Programme (CAP) budget for 2006 (Annex IV to the present report) at the amount of US $7,770,000 plus support costs of US $621,600 on the basis that:

  (i) UNEP would not in future seek separate funding through its business plans or work programme amendments for awareness or public information activities, including the regional awareness programme previously funded at US $200,000 per year;

  (ii) UNEP would include in the annex to the CAP budget details regarding the use of all funds that support global awareness activities;

  (iii) requests for future increases in the CAP budget would be limited to 3 per cent, unless the Executive Committee was given evidence that inflationary pressures justified otherwise;

  (iv) UNEP was encouraged to continue to extend the prioritization of funding between CAP budget lines so as to accommodate changing priorities; and

(b) to request the Secretariat to liaise with UNEP and monitor the return of unspent funds in accordance with decision 35/36(d).

(UNEP/OzL.Pro/ExCom/47/61, Decision 47/24, para. 96).

The Fiftieth Meeting of the Executive Committee decided:

(a) to approve the CAP budget for 2007 at the amount of US $8,003,000 plus agency support costs of 8 per cent amounting to US $640,240 on the basis that:

  (i) UNEP would, in future submissions, provide details on the activities for which the funds for global awareness-raising would be used;

  (ii) UNEP was encouraged to continue extending the prioritization of funding among CAP budget lines so as to accommodate changing priorities; and

  (iii) the CAP budget should only be spent in accordance with the terms of reference for the financial mechanism contained in Article 10 of the Montreal Protocol and therefore resources should not be spent on inter-multilateral environmental agreement coordination activities;

(b) to request UNEP to prepare a paper on how the MDI thematic workshops would be conducted based on the actual needs, including costs, of the different networks. The paper should be presented at the 51st Meeting of the Executive Committee;

(c) to request the Secretariat to continue liaising with UNEP to monitor the return of unspent funds in accordance with decision 35/36(d).

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/26 para. 116).
(Supporting document: UNEP/OzL.Pro/ExCom/50/20).

The Fifty-second Meeting of the Executive Committee decided:

(a) to request the Senior Monitoring and Evaluation Officer to reorganize the final report on the evaluation of

the Compliance Assistance Programme (CAP), (UNEP/OzL.Pro/ExCom/52/9), around the seven issues identified in paragraphs 9(a) to 9(g) of that document;

(b) to request UNEP to consider further regionalization of CAP resources;

(c) to request UNEP to focus the CAP on:

(i) countries in potential or actual non-compliance, taking into account the likely difficulties of a number of countries in meeting the 85 per cent reduction target for CFC in 2007, to be followed by the total phase-out of CFCs, halons and carbon tetrachloride by 31 December 2009;

(ii) latecomers to the Montreal Protocol, in order:

a. to strengthen their institutional structures and develop local capacities;

b. to facilitate the establishment of appropriate ODS-related legislation and regulations; and

c. to support their public awareness activities.

(iii) further involving more advanced and experienced Article 5 countries to assist and advise less advanced in the same region;

(iv) further strengthening local capacities of trained trainers and partner training institutes formed during the "train the trainers" phase to enable future and continued training of customs officers and refrigeration technicians on a sustainable basis. UNEP should also develop a strategy that would integrate the local training capacity created, placing emphasis on national ownership and securing access to appropriate know-how beyond 2010;

(v) further promoting collaboration between customs and environmental authorities, in cooperation with professional associations, in order to strengthen the enforcement of legal regulations;

(vi) assisting, where applicable, the enforcement of unified regulations in regional customs unions or other areas of political and economic cooperation; and

(d) to urge UNEP and the other agencies to ensure close coordination of activities in order to avoid overlapping actions; in particular, UNEP should always consult with the lead agency for national phase-out plans, terminal phase-out management plans or other phase-out plans and projects before providing technical or policy advice.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/7, para. 57).
(Supporting document: UNEP/OzL.Pro/ExCom/52/9).

The Fifty-third Meeting of the Executive Committee decided:

(a) to approve the Compliance Assistance Programme (CAP) budget, attached as Annex XXII to the final report, on the condition that UNEP submit to the Secretariat a revised budget in the amount of US $8,243,090 plus agency support costs of 8 per cent amounting to US $659,447, representing a 3 per cent increase on the previous year consistent with decision 47/24;

(b) to request UNEP, in future submissions on the CAP budget, to continue:

(i) providing detailed information on the activities for which the global funds would be used;

(ii) extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities and to provide details on the reallocations made in its budget following Executive Committee decisions 47/24 and 50/26; and

(c) to request UNEP to report on current staff post levels and to inform the Executive Committee of any changes therein particularly as they related to increased budget allocations.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/21, para. 118).
(Supporting document: UNEP/OzL.Pro/ExCom/53/20).

The Fifty-sixth Meeting of the Executive Committee decided not to approve the request for a compliance contingency budget and asked UNEP to include the activities within the UNEP Compliance Assistance Programme (CAP) budget, using the flexibility provided by decision 47/24 to reallocate funding between UNEP CAP budget lines to accommodate changing priorities.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/34 para 149)

(Supporting document: UNEP/OzL.Pro/ExCom/56/16).

The Fifty-sixth Meeting of the Executive Committee decided:

(a) to approve the request to establish a separate network for Pacific island countries (PIC), maintaining an allocation for those countries within the UNEP Compliance Assistance Programme (CAP) to allow their

participation in network meetings in the Asia and the Pacific region and encourage coordination; and

(b) to note the above when approving the UNEP CAP budget and in reviewing the proposal to ensure linkage to the South East Asia and Pacific (SEAP) network.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/33 para 147)
(Supporting document: UNEP/OzL.Pro/ExCom/56/16).

The Fifty-sixth Meeting of the Executive Committee decided:

(a) to approve the CAP budget for 2009 at the amount of US $8,490,000 plus agency support costs of 8 per cent amounting to US $679,200 [as contained in Annex XII to the final report of the 56th Meeting] and apply decision 56/41 to the budget accordingly and to agree to the changes submitted by UNEP in its budget proposal;

(b) to request UNEP, in future submissions on the CAP budget to continue:

  (i) to provide detailed information on the activities for which the global funds would be used;

  (ii) to expand the prioritization of funding between CAP budget lines to accommodate changing priorities; and to provide details on the reallocations made in its budget following decisions 47/24 and 50/26; and

  (iii) to report on the current post levels of staff and to inform the Executive Committee of any changes therein particularly in respect of increased budgetary allocations.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/43 para 181)
(Supporting document: UNEP/OzL.Pro/ExCom/56/21).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To approve the 2010 Compliance Assistance Programme (CAP) budget [as contained in Annex VII to the final report of the 59th Meeting], at a level of US $8,745,000, plus support costs of US $699,600; and

(b) To further request UNEP, in future submissions of the CAP budget:

  (i) To continue to provide detailed information on the activities for which the global funds would be used;

  (ii) To continue to expand the prioritization of funding between CAP budget lines so as to accommodate changing priorities; and to provide details on the reallocations made for its budget following decisions 47/24 and 50/26; and

  (iii) To continue to report on the current staff post levels and to inform the Executive Committee of any changes therein, particularly in respect of any increased budgetary allocations.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/27 para 136)
(Supporting document: UNEP/OzL.Pro/ExCom/56/27).

The Sixty-second Meeting of the Executive Committee decided:

(a) To approve the Compliance Assistance Programme (CAP) budget for 2011 at the amount of US $9,007,000, plus agency support costs of 8 per cent amounting to US $720,560,[as contained in Annex VI to the final report of the Sixty-second Meeting], while:

  (i) Noting the elimination of the Information Officer post and redeployment of related funds towards the creation of new regional assistant posts; and

  (ii) Requesting UNEP:

    a) To ensure that the primary function of the new regional assistant posts proposed in the 2011 budget focused on assisting countries, particularly low-volume-consuming countries, with the implementation of HCFC phase-out management plans, including supporting outreach activities;

    b) To examine and monitor South-South cooperation activities, and report on the outcomes of such activities, including detailed reports by region on the utilization of related budgets, to the 65th meeting of the Executive Committee in the context of its 2012 CAP budget;

(b) To request UNEP, in future submissions of the CAP budget:

  (i) To continue to provide detailed information on the activities for which the global funds would be used;

  (ii) To continue to extend the prioritization of funding between CAP budget lines so as to accommodate changing priorities; and provide details on the reallocations made for its budget pursuant to decisions 47/24 and 50/26;

(iii) To continue to report on the current staff post levels and inform the Executive Committee of any changes therein, particularly in respect of any increased budget allocations; and

(iv) To make every effort to avoid an increase in the budget lines for activities in the 2012 CAP budget.

(UNEP/OzL.Pro/ExCom/62/62, Decision 62/24 para 76)
(Supporting document: UNEP/OzL.Pro/ExCom/62/16).

The Sixty-fifth Meeting of the Executive Committee decided:

(a) To approve the Compliance Assistance Programme (CAP) budget for 2012 at the amount of US $8,987,000, plus agency support costs of 8 per cent, amounting to US $718,960 for UNEP, [as contained in Annex VI to the Sixty-fifth meeting report];

(b) To request UNEP, in future submissions of the CAP budget:

(i) To continue to provide detailed information on the activities for which the global funds would be used;

(ii) To continue to extend the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details on the reallocations made for its budget following decisions 47/24 and 50/26, on the condition that such reallocations did not result in savings from movement of personnel-related costs to other activity lines;

(iii) To continue to report on the current staff post levels and to inform the Executive Committee of any changes thereto, particularly in respect of increased budget allocations; and

(iv) To provide a report in the context of UNEP's role in implementation of HCFC phase-out management plans (HPMPs), clearly delineating expenditures made from the CAP budget and those made from HPMP funds.

(UNEP/OzL.Pro/ExCom/65/60, Decision 65/17 para 89)
(Supporting document: UNEP/OzL.Pro/ExCom/65/19).

The Sixty-eighth-first Meeting of the Executive Committee decided:

(a) To approve the Compliance Assistance Programme (CAP) budget for 2013 at the amount of US $9,158,000, plus agency support costs of 8 per cent amounting to US $732,640 for UNEP, as shown in Annex XI to the present report;

(b) To request UNEP, in future submissions of the CAP budget, to continue:

(i) Providing detailed information on the activities for which the global funds would be used;

(ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and providing details on the reallocations made in its budget pursuant to decisions 47/24 and 50/26; and

(iii) Reporting on the current staff post levels and informing the Executive Committee of any changes thereto, particularly in respect of any increased budget allocations.

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/18 para 95)
(Supporting document: UNEP/OzL.Pro/ExCom/68/20).

The Seventy-first Meeting of the Executive Committee decided:

(a) To approve the UNEP's Compliance Assistance Programme (CAP) budget for 2014 in the amount of US $9,338,000, plus agency support costs of 8 per cent, amounting to US $747,040, as contained in Annex XIX to the present report;

(b) To request UNEP, in future submissions of the CAP budget to continue:

(i) To provide detailed information on the activities for which the global funds would be used;

(ii) To extend the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details on the reallocations made in its budget pursuant to decisions 47/24 and 50/26;

(iii) To report on the current staff post levels and to inform the Executive Committee of any changes thereto, particularly in respect of any increased budget allocations; and

(c) To request UNEP to report to the Executive Committee on the implications of its adoption of the International Public Sector Accounting Standards (IPSAS) in meeting the requirements of decision 35/36(d), requiring the

return of the balances of CAP funds, by the 74th meeting.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/33 para 126)
(Supporting document: UNEP/OzL.Pro/ExCom/71/23).

The Seventy-third Meeting of the Executive Committee decided:

(a) To approve UNEP's Compliance Assistance Programme (CAP) budget for 2015, contained in Annex XVI to the present report, in the amount of US $9,459,000, plus agency support costs of 8 per cent, amounting to US $756,720, on the understanding that, for the implementation of agreed activities, the expenditure of CAP funds and the responsibilities and placement of staff would remain as submitted, and that, were any changes to be proposed, UNEP would report them to the Executive Committee as soon as possible for its consideration and a decision thereon;

(b) To request UNEP to report to the 74th meeting actions taken to implement the recommendations 1, 3, 4, and 7 listed below, taken from the May 2014 report of the United Nations Office of Internal Oversight Services on the audit of the UNEP OzonAction Branch, in accordance with all relevant Executive Committee decisions relating to the operation of UNEP as an implementing agency of the Multilateral Fund:

(i) Recommendation 1: UNEP should review the existing organizational arrangements to ensure that they provide for a clear accountability and efficient and effective delivery of the OzonAction Branch programme of work in accordance with the decisions of the Executive Committee;

(ii) Recommendation 3: UNEP should put in place a mechanism to ensure that funds are used as approved by the Executive Committee, variances are disclosed in a timely basis, and unspent balances are returned to the Executive Committee in a timely manner;

(iii) Recommendation 4: UNEP should define a mechanism to ensure that projects are financially closed no more than 18 months after the date of operational completion, and that unutilized balances are returned to the Fund for the Implementation of the Montreal Protocol in a timely manner;

(iv) Recommendation 7: UNEP should ensure that the OzonAction Branch does not enter into contractual agreements which duplicate the services of the Compliance Assistance Project;

(c) To further request UNEP, in future submissions of the CAP budget, to continue:

(i) Providing detailed information on the activities for which the global funds would be used;

(ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made; and

(iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations.

UNEP/OzL.Pro/ExCom/73/62, Decision 73/53, para.159).
(Supporting document: UNEP/OzL.Pro/ExCom/73/30).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To approve UNEP's Compliance Assistance Programme (CAP) activities and budget for 2016 in the amount of US $9,540,000, plus agency support costs of 8 per cent, amounting to US $763,200, contained in Annex XVII to the present report;

(b) To note the 2016–2018 rolling strategy proposed by UNEP for its CAP and the approaches contained therein;

(c) To request UNEP to continue to submit an annual work programme and budget for the CAP, including:

(i) Providing detailed information on the progress of the four new activities identified in the 2016 work programme where the global funds would be used until their completion;

(ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details on the reallocations made in its budget pursuant to decisions 47/24 and 50/26; and

(iii) Reporting on the current staff post levels and informing the Executive Committee of any changes thereto, particularly in respect to any increased budget allocations.

UNEP/OzL.Pro/ExCom/75/85, Decision 75/38, para.174).
(Supporting document: UNEP/OzL.Pro/ExCom/73/33/Rev.1).

The Seventy-seventh Meeting of the Executive Committee decided:

(a) To approve the UNEP's Compliance Assistance Programme (CAP) activities and budget for 2017 in the amount of US $9,776,000, plus agency support costs of 8 per cent, amounting to US $782,080, contained in Annex XV to the present report;
(b) To request UNEP to continue to submit an annual work programme and budget for the CAP that included:
(i) Detailed information on the progress of the four new activities identified in the 2016 work programme for which global funds would be used until their completion;
(ii) Extension of the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and details on the reallocations made in its budget pursuant to decisions 47/24 and 50/26;
(iii) Reporting on the current levels of staff posts and information for the Executive Committee on any changes thereto, particularly with respect to any increased budget allocations; and
(c) To further request UNEP to review the overall structure of the CAP and to consider its operations and regional structure in addressing emerging needs and new challenges, and to submit a final report of that review to the Executive Committee for consideration at its 79th meeting.

UNEP/OzL.Pro/ExCom/77/76, Decision 73/38, para.139 and Annex V).
(Supporting document: UNEP/OzL.Pro/ExCom/77/32).

The Eightieth Meeting of the Executive Committee decided:

(a) To approve UNEP's Compliance Assistance Programme (CAP) activities and budget for 2018 in the amount of US $9,863,000, plus agency support costs of eight per cent, amounting to US $789,040, as contained in Annex XIV to the present report;
(b) To request UNEP to provide:
(i) A final report to the 81st meeting on the review of the overall structure of the CAP and its operations and regional structure in addressing emerging needs and new challenges in Article 5 countries;
(ii) A final report to the 82nd meeting on the four global activities (national ozone officer training programme, refrigerant drivers licence programme, global training programme for the refrigeration servicing sector, and ODS management in the fisheries sector) which were identified in the 2016–2018 three-year rolling strategy, providing details on the overall cost, achievements and outputs and how these had contributed to the compliance for Article 5 countries within the CAP mandate, in line with decision 75/38(c)(i);
(c) To further request UNEP, in future submissions of the CAP budget, to continue:
(i) Providing detailed information on the activities for which the global funds would be used;
(ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;
(iii) Reporting on the current post levels of CAP staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations; and
(iv) Providing a budget for the year in question, and a report on the estimated costs incurred in the previous year, noting sub-paragraphs (c)(ii) and (c)(iii) above.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/55, para 166)
(Supporting document: UNEP/OzL.Pro/ExCom/80/28).

The Eighty-second meeting of the Executive Committee decided:

(a) To note the proposed UNEP Compliance Assistance Programme (CAP) 2019 work plan and budget contained in document UNEP/OzL.Pro/ExCom/82/37;
(b) To approve the CAP activities and budget for 2019 in the amount of US $9,974,000, plus agency support costs of eight per cent, amounting to US $797,920, as contained in Annex XVII to the present report, noting the adjustments to the staff component as originally proposed; and
(c) Further to request UNEP, in future submissions of the CAP budget, to continue:
(i) Providing detailed information on the activities for which the global funds would be used;
(ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities and providing details, pursuant to decisions 47/24 and 50/26, on the reallocations made;
(iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations; and

(iv) Providing a budget for the year in question and a report on the costs incurred in the year prior to the last year, noting sub-paragraphs (c)(ii) and (c)(iii) above.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/57).
(Supporting document: UNEP/OzL.Pro/ExCom/82/37).

The Eighty-fourth meeting of the Executive Committee decided:

(a) To note the proposed work plan and budget for UNEP Compliance Assistance Programme (CAP) in 2020 contained in document UNEP/OzL.Pro/ExCom/84/37;
(b) To approve the CAP activities and budget for 2020 in the amount of US $9,974,000, plus agency support costs of 8 per cent, amounting to US $797,920, as contained in Annex XVIII to the present report;
(c) To further request UNEP, in future submissions of the CAP budget, to continue:
  (i) Providing detailed information on the activities for which the global funds would be used;
  (ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;
  (iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations; and
  (iv) Providing a budget for the year in question, and a report on the costs incurred in the year prior to the previous year, noting sub-paragraphs (c)(ii) and (c)(iii), above.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/60).
(Supporting document: UNEP/OzL.Pro/ExCom/84/37).

The Eighty-sixth meeting of the Executive Committee decided:

(a) To note the proposed three-year strategy for the period 2021–2023 and the 2021 work plan and budget for the UNEP Compliance Assistance Programme (CAP) contained in document UNEP/OzL.Pro/ExCom/86/36;
(b) To note also, with appreciation, that UNEP, recognizing that Article 5 and non-Article 5 countries were facing health, financial and social challenges because of the coronavirus disease pandemic, and that CAP activities during 2020 were affected by the unprecedented crisis, would return, at the 86th meeting, in advance of the completion of the 2020 work plan, on an exceptional basis and without setting a precedent, the uncommitted funding balance of US $1,074,023, plus agency support costs of US $85,922;
(c) To approve the CAP activities and budget for 2021 in the amount of US $9,974,000, plus agency support costs of 8 per cent amounting to US $797,920, as contained in Annex XIX to the present report, noting the adjustments proposed therein; and
(d) To request UNEP, in future submissions of the CAP budget, to continue:
  (i) Providing detailed information on the activities for which the global funds would be used;
  (ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;
  (iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations; and
  (iv) Providing a budget for the year in question, and a report on the costs incurred in the year prior to the previous year, noting sub-paragraphs (c)(ii) and (c)(iii) above.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/61).
(Supporting document: UNEP/OzL.Pro/ExCom/86/36).

The Eighty-eighth meeting of the Executive Committee decided:

(a) To note the 2022 work plan and budget for UNEP Compliance Assistance Programme (CAP) contained in document UNEP/OzL.Pro/ExCom/88/34;

(b) To note also, with appreciation, that UNEP, recognizing that Article 5 and non-Article 5 countries continued to face health, financial and social challenges because of the coronavirus disease pandemic, and that CAP activities during 2021 were affected by this ongoing crisis, would return at the 88th meeting, in advance of the completion of the 2021 work plan, on an exceptional basis and without setting a precedent, the uncommitted funding balance of US $1,744,743, plus agency support costs of US $139,580;

(c) To approve the CAP activities and budget for 2022 in the amount of US $9,988,900, plus agency support costs of 8 per cent amounting to US $799,112, as contained in Annex XVI to the present report, noting the adjustments proposed therein;

(d) To further request UNEP, in future submissions of the CAP budget, to continue:

(i) Providing detailed information on the activities for which the global funds would be used;

(ii) Extending the prioritization of funding between CAP budget lines so as to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;

(iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations; and

(iv) Providing a budget for the year in question, and a report on the costs incurred in the year prior to the last year, noting sub-paragraphs (ii) and (iii) above.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/42).
(Supporting document: UNEP/OzL.Pro/ExCom/88/34).

The Ninety-first meeting of the Executive Committee decided:

(a) To note:

(i) The 2022 progress report and 2023 work plan for the UNEP Compliance Assistance Programme (CAP) contained in document UNEP/OzL.Pro/ExCom/91/58;

(ii) That UNEP had identified the need to enhance the CAP over the subsequent few years to meet the evolving needs of Article 5 countries, particularly in the light of implementation of the Kigali Amendment, and that UNEP would present specific proposals for consideration by the Executive Committee at a future meeting;

(iii) That UNEP, recognizing the health, financial and social challenges caused by the coronavirus disease pandemic and that CAP activities were also affected, would return at the 91st meeting, in advance of the completion of the 2022 work plan, on an exceptional basis and without setting a precedent, the uncommitted funding balance of US $828,000, plus agency support costs of US $66,240;

(b) To approve the CAP activities and budget for 2023, as contained in Annex XXIX to the present report, in the amount of US $10,129,162, plus agency support costs of 8 per cent amounting to US $810,333, noting the adjustments proposed therein;

(c) To request UNEP, in future submissions of the CAP budget, to continue:

(i) Providing detailed information on the activities for which the global funds would be used;

(ii) Extending the prioritization of funding between CAP budget lines to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;

(iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations; and

(iv) Providing a budget for the year in question, and a report on the costs incurred in the year prior to the last year, noting subparagraphs (ii) and (iii) above.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/61).
(Supporting document: UNEP/OzL.Pro/ExCom/91/58).

The Ninety-third meeting of the Executive Committee decided:

(a) To note the 2023 progress report, the proposed three-year strategy for 2024–2026 and the 2024 work plan and budget for the UNEP Compliance Assistance Programme (CAP) contained in document UNEP/OzL.Pro/ExCom/93/94;

(b) To approve the CAP activities and budget for 2024, as set out in annex LXI to the present report, in the amount of US $10,631,200, plus agency support costs of 8 per cent amounting to US $850,496;
(c) To note that in line with decision 93/95(d), the approval referred to in subparagraph (b) above included an increase of US $200,000 for the provision of technical and policy assistance to low-volume-consuming (LVC) countries to support the implementation of Kigali HFC implementation plans, that had to be used within 24 months and balances would be returned to the Multilateral Fund;
(d) To request UNEP, in future submissions of the CAP budget, to report on the technical and policy assistance activities carried out for LVC countries and their impact in line with decision 93/95(d), and to continue:
    (i) Providing detailed information on the activities for which the global funds would be used;
    (ii) Extending the prioritization of funding between CAP budget lines to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;
    (iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations;
    (iv) Providing a budget for the year in question and a report on the costs incurred in the year prior to the last year, noting subparagraphs (c)(ii) and (c)(iii) above; and
    (e) To also request UNEP to submit a final report detailing lessons learned from the implementation of the first phase of the global technical assistance project for the twinning of national ozone officers and national energy-efficiency policymakers to support the Kigali Amendment objectives when submitting the second phase of the project at the second meeting in 2024.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/11).
(Supporting document: UNEP/OzL.Pro/ExCom/93/94).

The Ninety-fifth meeting of the Executive Committee decided:

(a) To note the 2024 progress report and the 2025 work plan and budget for the UNEP Compliance Assistance Programme (CAP) contained in document UNEP/OzL.Pro/ExCom/95/83;
(b) To approve, on an exceptional basis, the CAP activities and budget for 2025, as set out in annex LIII to the present report, in the amount of US $11,191,331, plus agency support costs of 8 per cent amounting to US $895,306, noting the adjustments proposed therein, on the understanding that future CAP budget increases would remain within 3 per cent in accordance with decision 47/24;
(c) To request UNEP, in future submissions of the CAP budget, to continue:
    (i) Providing detailed information on the activities for which the global funds would be used;
    (ii) Extending the prioritization of funding between CAP budget lines to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;
    (iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations;
    (iv) Providing a budget for the year in question, and a report on the costs incurred in the year prior to the previous year, noting subparagraphs (c)(ii) and (c)(iii) above; and
(d) To further request UNEP to submit a final report detailing lessons learned from the implementation of the first phase of the global technical assistance project for the twinning of national ozone officers and national energy-efficiency policymakers to support Kigali Amendment objectives when submitting the second phase of the project at the first meeting in 2025.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/83).
(Supporting document: UNEP/OzL.Pro/ExCom/95/83).

The Ninety-seventh meeting of the Executive Committee decided:

(a) To note the 2025 progress report and the 2026 work plan and budget for the UNEP Compliance Assistance Programme (CAP), as contained in document UNEP/OzL.Pro/ExCom/97/83;
(b) To approve the CAP activities and budget for 2026, as set out in annex LIX to the present report, in the amount of US $11,276,967, plus agency support costs of 8 per cent amounting to US $902,157, noting the adjustments proposed therein;
(c) That the human and financial resources approved for UNEP through the CAP budget should continue to be used only for activities approved by the Executive Committee in accordance with the terms of reference for the financial mechanism contained in Article 10 of the Montreal Protocol and in line with decisions 50/26(c) and 73/53;

(d) To request UNEP, in future submissions of the CAP budget, to continue:
   (i) Providing detailed information on the activities for which the global funds would be used;
   (ii) Extending the prioritization of funding between CAP budget lines to accommodate changing priorities, and to provide details, pursuant to decisions 47/24 and 50/26, on the reallocations made;
   (iii) Reporting on the current post levels of staff and informing the Executive Committee of any changes thereto, particularly with respect to any increased budget allocations; and
   (iv) Providing a budget for the year in question, and a report on the costs incurred in the year prior to the previous year, noting subparagraphs (d)(ii) and (d)(iii) above.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/85).
(Supporting document: UNEP/OzL.Pro/ExCom/97/83).

Global awareness campaign

The Thirty-fifth Meeting of the Executive Committee decided to request UNEP to make a presentation to its 36th Meeting on the progress in the global public awareness and education campaign to sustain the phase-out established by Decision 34/35.
(UNEP/OzL.Pro/ExCom/35/67, Decision 35/63, para. 138).

UNIDO

The Executive Committee invited UNIDO to co-operate and assist in project development and implementation comprising pre-investment studies and in other technical assistance measures.
(UNEP/OzL.Pro/ExCom/8/29 Annex IV (page 29).
(Supporting document: UNEP/OzL.Pro/8/29 Annex IV).

Agreement

The Executive Committee and UNIDO signed an agreement on 22 October 1992 (Annex II.6).

WORLD BANK

The Executive Committee invited the World Bank to co-operate and assist in administering and managing the programme to finance the agreed incremental costs.
(UNEP/OzL.Pro/2/3 Appendix IV of Decision II/8, para. 3c).
(Supporting document: UNEP/OzL.Pro/2/3 Annex IV, Appendix IV).

Functions

The World Bank shall:

(a) report on activities related to country programmes and on project proposals or groups of project proposals including those which require Executive Committee approval; and

(b) prepare a final report on operations financed by the Fund.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section VI.2.3).

Agreement

The Executive Committee and the World Bank signed an agreement on 9 July 1991 (Annex II.7).

INTER-AGENCY AGREEMENT

The Executive Committee took note of the tripartite agreement among UNEP, UNDP and the World Bank on Procedural Arrangements for Co-operation and Assistance in Protecting the Ozone Layer in the Context of the Vienna Convention for the Protection of the Ozone Layer and its Montreal Protocol on Substances that Deplete the Ozone Layer (Annex V.2).
(UNEP/OzL.Pro/ExCom/2/5/Rev.1, para. 18).
(Supporting document: UNEP/OzL.Pro/ExCom/2/5/Rev.1 Annex I).

OTHER IMPLEMENTING AGENCIES

The Third Meeting of the Executive Committee agreed that regional and national agencies were in principle not excluded from being considered as Implementing Agencies provided that they were invited to co-operate with the Committee and were considered by it to have appropriate expertise.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1, para. 45).

Other Implementing Agencies (e.g., regional banks) who undertake projects financed from the Fund shall be

required to report as appropriate based on the nature of these activities.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section VI.2.4).

ADMINISTRATIVE COSTS OF THE IMPLEMENTING AGENCIES

The Eighth Meeting of the Parties decided that the Executive Committee should, over the next three years, work toward the goal of reducing agency support costs from their current level of 13 per cent to an average of below 10 per cent to make more funds available for other activities. The Executive Committee should report to the Parties annually on their progress, and the Parties may adjust the goal accordingly.
(UNEP/OzL.Pro.8/12 Decision VIII/4.7).

The Twenty-first Meeting of the Executive Committee decided:

(a) to recall paragraph 6 of decision VIII/4, by which the Eighth Meeting of the Parties decided that the Executive Committee should, over the next three years, work towards the goal of reducing agency support costs from the current level of 13 per cent to an average of below 10 per cent;

(b) to recognize that, while the 13 per cent charge levied over the initial years of the Multilateral Fund could probably be reduced as a result of economies of scale being achieved, the percentage could be different for large and small projects, for umbrella projects, and for projects that covered many small-scale enterprises;

(c) to emphasize that, whether or not a reduced rate was agreed upon, the Committee must in no way discourage proper supervision, verification and evaluation of ongoing projects, and that agency support costs should not become a negotiating point on individual projects;

(d) to agree that an independent consultant should be recruited to work with the Secretariat and Implementing Agencies to identify options and approaches for reducing the overall level of administrative costs, focusing on revising the current uniform, fee-based system;

(e) to approve the terms of reference for the consultancy as contained in Annex V.3 to the present report.
(UNEP/OzL.Pro/ExCom/21/36, Decision 21/2, para. 8).
(Supporting document: UNEP/OzL.Pro/ExCom/21/4).

The Twenty-fifth Meeting of the Executive Committee decided:

(a) to defer further consideration of the subject (administrative costs of the Implementing Agencies) to its 26th Meeting;

(b) to request the Implementing Agencies to take into account the suggestions made and the views expressed in the course of the discussion when preparing their 1999 business plans, with a view to reaching the goal of reducing agency support costs from their current level of 13 per cent to an average of below 10 per cent so as to make more funds available for other activities.
(UNEP/OzL.Pro/ExCom/25/68, Decision 25/54, para. 98).
(Supporting document: UNEP/OzL.Pro/ExCom/25/66).

The Twenty-sixth Meeting of the Executive Committee decided:

(a) to apply an agency fee of 13 per cent on projects up to a value of $500,000;

(b) that for projects with a value exceeding $500,000 but up to and including $5,000,000, an agency fee of 13 per cent should be applied on the first $500,000 and 11 per cent on the balance;

(c) to assess projects with a value exceeding $5 million on a case-by-case basis;

(d) that the agency fee for projects submitted under the SME window (Decision 25/56) should be 13 per cent;

(e) that agencies implementing projects under the SME window should report back to the Executive Committee on the actual administrative costs of such projects;

(f) to request the Secretariat and the Implementing Agencies to develop standardized cost items for future reporting on administrative costs;

(g) to review the results of implementation of this decision at the second meeting of the Executive Committee in 1999 and to report to the Eleventh Meeting of the Parties in 1999, in line with decision VIII/4 of the Meeting of the Parties;

(h) to apply this decision to projects approved beginning with the current meeting.
(UNEP/OzL.Pro/ExCom/26/70, Decision 26/41, para. 77).
(Supporting document: UNEP/OzL.Pro/ExCom/26/67).

Administrative cost regime

The Thirty-eighth Meeting of the Executive Committee decided:

(a) to adopt a new administrative cost regime for the 2003-2005 triennium that includes US $1.5 million, subject to annual review, for a core unit funding budget per year, applying in addition:

  (i) an agency fee of 7.5 per cent for projects with a project cost at or above US $250,000, as well as institutional strengthening projects and project preparation;

  (ii) an agency fee of 9 per cent for projects with a project cost below US $250,000, including country programme preparation;

(b) to apply the above regime to UNDP, UNIDO and the World Bank;

(c) to urge Implementing Agencies to strive toward achieving optimization of these support costs, taking into account the goal of Decision VIII/4 of the Eighth Meeting of the Parties to reduce agency support costs to an average below 10 per cent, recognizing that new challenges in the implementation of projects during the compliance period would require substantial support from Implementing Agencies;

(d) review the administrative cost regime and its core unit funding budget at the 41st Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/68, para. 116).
(Supporting document: UNEP/OzL.Pro/ExCom/38/59).

The Forty-first Meeting of the Executive Committee decided to continue to monitor the administrative cost regime adopted by Decision 38/68 in the context of budget requests for future years bearing in mind the need to maintain an overall rate of administrative costs below 10 per cent as was achieved in 2002 and 2003.
(UNEP/OzL.Pro/ExCom/41/87, Decision 41/94, para. 150(d)).
(Supporting document: UNEP/OzL.Pro/ExCom/41/81).

The Forty-fourth Meeting of the Executive Committee decided:

(c) to request a review of the current administrative cost regime and provide recommendations either for its continuance or for an alternative administrative cost regime for the 2006-2008 triennium; and

(d) to request the Implementing Agencies to provide more in-depth information on their administrative costs, in time for it to be used in the review of the administrative cost regime to be presented by the Secretariat at the 46th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/7, para. 58 (c, d)).
(Supporting document: UNEP/OzL.Pro/ExCom/44/9 and Corr.1).

The Forty-sixth Meeting of the Executive Committee decided:

(a) to note the review of administrative costs presented in document UNEP/OzL.Pro/ExCom/46/40;

(b) to extend the operation of decision 38/68 and its administrative cost regime for the 2006-2008 triennium, with the following modifications:

  (i) the base rate for core unit costs for UNDP and UNIDO would be US $1.7 million instead of US $1.5 million;

  (ii) an annual increase of up to 3 per cent for UNDP, UNIDO and the World Bank based on budgets to be submitted for approval at the last Meeting of the year for the following year;

(c) to review the operation of the administrative cost regime as modified by the present decision before the end of the following triennium; and

(d) to note that, for UNIDO to maintain its current level of administrative costs, it would need either to increase its revenue significantly, including continued and increasing subsidies from UNIDO, or to significantly reduce its administrative costs, or both.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/35, para. 144).
(Supporting document: UNEP/OzL.Pro/ExCom/46/40).

The Fifty-sixth Meeting of the Executive Committee decided:

(a) to note the report on 2008 core unit costs for UNDP, UNIDO and the World Bank as presented in document UNEP/OzL.Pro/ExCom/56/20; and

(b) to approve the requests for US $1,857,636 for core unit funding for 2009 for UNDP, US $1,857,636 for UNIDO,

and US $1,663,347 for the World Bank, in accordance with decision 46/35 and in the light of the above report and decision 56/41(b) on key issues arising from the assessment of the administrative costs required for the 2009-2011 triennium contained in document UNEP/OzL.Pro/ExCom/56/19.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/42 para 175)
(Supporting document: UNEP/OzL.Pro/ExCom/56/20).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To note the report on 2010 core unit costs for UNDP, UNIDO and the World Bank as presented in document UNEP/OzL.Pro/ExCom/59/18;

(b) To approve the requests for core unit funding of US $1,913,365 for UNDP; US $1,913,365 for UNIDO; and US $1,701,466 for the World Bank in accordance with decision 56/41; and

(c) To discuss at the 60th Meeting, a methodology to assist UNIDO in identifying project related costs, if any, in its annual report on administrative costs.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/28 para 143)
(Supporting document: UNEP/OzL.Pro/ExCom/59/18).

The Sixtieth Meeting of the Executive Committee took note of document UNEP/OzL.Pro/ExCom/60/51 on the methodology for identifying project-related costs in UNIDO's annual report on administrative costs (decision 59/28(c)).

(UNEP/OzL.Pro/ExCom/60/54, para 209)
(Supporting document: UNEP/OzL.Pro/ExCom/60/51).

The Sixty-second Meeting of the Executive Committee decided:

(a) To note the report on 2011 core unit costs for UNDP, UNIDO and the World Bank as contained in documents UNEP/OzL.Pro/ExCom/62/17 and Corr.1;

(b) To approve the core unit budgets as requested amounting to: US $1,970,766 for UNDP, US $1,970,766 for UNIDO and US $1,713,000 for the World Bank; and

(c) That the extension of the administrative cost regime for the 2012-2014 triennium could be based on the report on 2012 core unit costs to be prepared by the Fund Secretariat by the 65th meeting.

(UNEP/OzL.Pro/ExCom/62/62, decisión 62/25 para 78)
(Supporting document: UNEP/OzL.Pro/ExCom/62/17 and Corr.1).

The Sixty-fifth Meeting of the Executive Committee decided:

(a) To note the report on the 2012 core unit costs for UNDP, UNIDO and the World Bank, and on the administrative cost regime for the 2012-2014 triennium, as presented in document UNEP/OzL.Pro/ExCom/65/20;

(b) To approve the 2012 core unit budgets in the following amounts:

  (i) US $1,984,561 for UNDP, representing a 0.7 per cent increase over 2011 levels;

  (ii) US $1,984,561 for UNIDO, representing a 0.7 per cent increase over 2011 levels;

  (iii) US $1,724,644 for the World Bank, representing a 0.68 per cent increase over 2011 levels;

(c) To request:

  (i) The implementing agencies to consider the options in document UNEP/OzL.Pro/ExCom/65/20 and other possible options for an administrative cost regime for 2012-2014 and to report thereon to the Fund Secretariat;

  (ii) The Fund Secretariat, taking into account the input provided by the implementing agencies as per sub-paragraph (c)(i) above, to provide a further assessment of administrative costs for the 2012-2014 triennium to the 66th meeting, including options that were discussed during the 65th meeting; and

(d) At its 66th meeting, to consider further requesting the implementing agencies to provide an estimation of the use of administrative costs for reporting, project implementation and internal requirements.

(UNEP/OzL.Pro/ExCom/65/60, decisión 65/18 para 93)
(Supporting document: UNEP/OzL.Pro/ExCom/65/20).

The Sixty-sixth Meeting of the Executive Committee decided:

(a) To take note of the information on the assessment of options for an administrative cost regime for the 2012-2014 triennium, as contained in document UNEP/OzL.Pro/ExCom/66/19;

(b) To reconsider administrative costs at its 67th meeting, including the options in document UNEP/OzL.Pro/ExCom/66/19 and options discussed by the contact group at the 66th meeting;

(c) To apply the existing administrative cost regime to the first tranche of agreements approved at the 66th meeting and to reconsider the agency fee for subsequent tranches at the 67th meeting;

(d) To maintain the existing administrative cost regime for UNEP; and

(e) To continue discussion at the 68th meeting on the possible need for terms of reference for the assessment of the administrative cost regime for the 2015-2017 triennium and how to modify the terms of reference in the light of the previous terms of reference.

(UNEP/OzL.Pro/ExCom/66/54, decisión 66/17 para 79)
(Supporting document: UNEP/OzL.Pro/ExCom/66/19).

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To continue to apply the existing administrative cost regime to UNEP and the bilateral agencies during the 2012–2014 triennium;

(b) To apply a new administrative cost regime for the 2012–2014 triennium to UNDP, UNIDO and the World Bank, consisting of annual core unit funding for which an annual increase of up to 0.7 per cent could be considered subject to annual review, and to apply the following agency fees on the basis of funding per agency:

  (i) An agency fee of 7 per cent for projects with a project cost above US $250,000, as well as institutional strengthening projects and project preparation;

  (ii) An agency fee of 9 per cent for projects with a project cost at or below US $250,000;

  (iii) An agency fee no greater than 6.5 per cent, to be determined on a case-by-case basis for projects in the production sector; and

(c) To review the administrative cost regime and its core unit funding budget at the 74th meeting of the Executive Committee, i.e. the last meeting of the 2012–2014 triennium.

(UNEP/OzL.Pro/ExCom/67/39, decisión 67/15 para 59)
(Supporting document: UNEP/OzL.Pro/ExCom/67/17).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the review of the administrative cost regime for the 2015 2017 triennium (decision 71/45) contained in document UNEP/OzL.Pro/ExCom/73/51;

(b) To apply the existing administrative cost regime for the bilateral and implementing agencies during the 2015-2017 triennium;

(c) To request a review of the administrative cost regime and its core unit funding budget at the first meeting of 2017; and

(d) To request that the terms of reference for the review mentioned in paragraph (c) above be submitted to the Executive Committee for its consideration at its last meeting of 2015.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/62 para.198).
(Supporting document: UNEP/OzL.Pro/ExCom/73/51).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note:

  (i) The report on 2016 core unit costs for UNDP, UNIDO and the World Bank as presented in document UNEP/OzL.Pro/ExCom/75/34;

  (ii) With appreciation, that the World Bank's core unit operation was again below its budgeted level and that it would be returning unused balances; and

(b) To approve the requested core unit budgets for UNDP in the amount of US $2,040,715, for UNIDO in the amount of US $2,040,715, and for the World Bank in the amount of US $1,725,000.

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/39 para.174).
(Supporting document: UNEP/OzL.Pro/ExCom/75/34).

The Seventy-seventh Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on 2017 core unit costs for UNDP, UNIDO and the World Bank presented in document UNEP/OzL.Pro/ExCom/77/33;
  (ii) The status of the review of the administrative cost regime and its core unit funding budget as per decision 75/69(b);
  (iii) With appreciation, that the World Bank's core unit operation was again below its budgeted level and that it would be returning unused balances to the Multilateral Fund at the 79th meeting;
(b) To approve the requested core unit budgets:
  (i) For UNDP in the amount of US $2,055,000;
  (ii) For UNIDO in the amount of US $2,055,000; and
  (iii) For the World Bank in the amount of US $1,725,000.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/39 para.145).
(Supporting document: UNEP/OzL.Pro/ExCom/77/33).

The Eightieth Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on the 2018 core unit costs for UNDP, UNIDO and the World Bank contained in documents UNEP/OzL.Pro/ExCom/80/29, Corr.1 and Corr.2;
  (ii) The use of the revised format for reporting administrative costs by UNDP, UNIDO and the World Bank, pursuant to decision 79/41(e);
  (iii) With appreciation, that the World Bank's core unit operation was again below its budgeted level and that it would be returning unused balances of US $62,476 to the Multilateral Fund at the 80th meeting;
(b) To approve the requested core unit budgets for:
  (i) UNDP in the amount of US $2,069,385;
  (ii) UNIDO in the amount of US $2,069,385; and
  (iii) The World Bank in the amount of US $1,735,000.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/56, para 170)
(Supporting document: UNEP/OzL.Pro/ExCom/80/29, Corr.1 and Corr.2).

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on the 2019 core unit costs for UNDP, UNIDO and the World Bank as contained in documents UNEP/OzL.Pro/ExCom/82/38 and Corr.1;
  (ii) With appreciation, that the core unit operation of the World Bank was again below its budgeted level and that the Bank had returned unused balances of US $60,070 to the Multilateral Fund at the 82nd meeting; and
(b) To approve the requested 2019 core unit budgets for:
  (i) UNDP in the amount of US $2,083,871;
  (ii) UNIDO in the amount of US $2,083,871; and
  (iii) The World Bank in the amount of US $1,735,000.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/58)
(Supporting document: UNEP/OzL.Pro/ExCom/82/38 and Corr.1).

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on the 2020 core unit costs for UNDP, UNIDO and the World Bank contained in document UNEP/OzL.Pro/ExCom/84/38;
  (ii) With appreciation, that the core unit operations of UNIDO and the World Bank were below their budgeted levels and that the agencies would be returning unused balances of US $7,931 and US $6,940, respectively, to the Multilateral Fund at the 84th meeting;
(b) To approve the requested 2020 core unit budgets for:

(i) UNDP in the amount of US$2,098,458;

(ii) UNIDO in the amount of US$2,098,458;

(iii) The World Bank in the amount of US$1,735,000; and

(c) To request the Secretariat to present, at the 86th meeting, the outcomes of the analysis on the administrative cost regime and core unit funding, taking into consideration relevant decisions by the Executive Committee, including those at its 84th and 85th meetings, on the basis of which the Committee would decide whether the administrative cost regime of the Multilateral Fund for the 2018−2020 triennium could be maintained for the 2021−2023 triennium.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/61)
(Supporting document: UNEP/OzL.Pro/ExCom/84/38).

The Eighty-sixth Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on the 2021 core unit costs for UNDP, UNIDO and the World Bank, as contained in document UNEP/OzL.Pro/ExCom/86/37;
  (ii) With appreciation, that the core unit operation of the World Bank was again below its budgeted level and that the Bank would be returning unused balances of US $43,894 to the Multilateral Fund at the 86th meeting;
(b) To approve the requested 2021 core unit budgets for:
  (i) UNDP in the amount of US $2,113,148;
  (ii) UNIDO in the amount of US $2,022,000; and
  (iii) The World Bank in the amount of US $1,735,000; and
(c) To note that the levels of the 2021 core unit budgets indicated in sub-paragraph (b) above could be adjusted on the basis of the outcomes of the discussion on the Analysis of the administrative cost regime and core unit funding (decision 84/61(c)), at the postponed 86th meeting.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/62)
(Supporting document: UNEP/OzL.Pro/ExCom/86/37).

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note:

  (i) The report on the 2022 core unit costs for UNDP, UNIDO and the World Bank as contained in document UNEP/OzL.Pro/ExCom/88/35;

  (ii) With appreciation, that the core unit operation of UNDP, UNIDO and the World Bank were below their budgeted levels and that UNDP and UNIDO would return unused balances of US $32,878 and US $49,404, respectively and the World Bank has returned the unused balances of US $443,204, to the Multilateral Fund at the 88th meeting;

(b) To approve the requested 2022 core unit budgets for:

  (i) UNDP in the amount of US $2,127,940;

  (ii) UNIDO in the amount of US $2,036,154; and

  (iii) The World Bank in the amount of US $1,735,000.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/44)
(Supporting document: UNEP/OzL.Pro/ExCom/88/35).

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note the information contained in document UNEP/OzL.Pro/ExCom/88/68 on analysis of the administrative cost regime and core unit funding (decision 84/61(c));
(b) To allow bilateral and implementing agencies to continue to use the existing administrative cost regime for projects to be submitted in 2022 and 2023; and
(c) To request the Secretariat to present, at the last meeting of 2023, analysis of the administrative cost regime and core unit funding, taking into consideration relevant decisions by the Executive Committee, including those taken up to the meeting prior to the last meeting of 2023, on the basis of which the Committee would decide whether the administrative cost regime of the Multilateral Fund for the triennium 2021−2023 should be

maintained for the triennium 2024−2026.
(UNEP/OzL.Pro/ExCom/88/79, Decision 88/74)
(Supporting document: UNEP/OzL.Pro/ExCom/88/68).

The Ninety-first Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the 2023 core unit costs for UNDP, UNIDO and the World Bank contained in document UNEP/OzL.Pro/ExCom/91/59;

(ii) With appreciation, that the core unit operation of UNIDO and the World Bank was below their budgeted levels and that UNIDO and the World Bank would return unused balances of US $670,186 and US $260,155, respectively, to the Multilateral Fund at the 91st meeting;

(b) To approve the 2023 core unit budgets as requested for:

(i) UNDP in the amount of US $2,142,835;

(ii) UNIDO in the amount of US $2,050,407; and

(iii) The World Bank in the amount of US $1,735,000.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/62).
(Supporting document: UNEP/OzL.Pro/ExCom/91/59).

The Ninety-third Meeting of the Executive Committee decided:

(a) To note:
(i) The report on the 2024 core unit costs for UNDP, UNIDO and the World Bank as contained in document UNEP/OzL.Pro/ExCom/93/95;
(ii) With appreciation, that the core unit operations of UNIDO and the World Bank were below their budgeted levels and that UNIDO and the World Bank would return unused balances of US $382,680 and US $280,124, respectively, to the Multilateral Fund at the 93rd meeting; and
(b) To approve the requested 2024 core unit budgets for:
(i) UNDP in the amount of US $2,357,835;
(ii) UNIDO in the amount of US $2,264,760; and
(iii) The World Bank in the amount of US $1,947,145.
(UNEP/OzL.Pro/ExCom/93/105, Decision 93/92).
(Supporting document: UNEP/OzL.Pro/ExCom/93/95).

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note:
(i) The report on the 2025 core unit costs for UNDP, UNIDO and the World Bank contained in document UNEP/OzL.Pro/ExCom/95/84;
(ii) With appreciation, that the core unit operations of the World Bank were below its budgeted levels and that the World Bank would return unused balances of US $70,433 to the Multilateral Fund at the 95th meeting;
(b) To approve the requested 2025 core unit budgets for:
(i) UNDP, in the amount of US $2,372,940;
(ii) UNIDO in the amount of US $2,279,213; and
(iii) The World Bank, in the amount of US $1,947,145.
(UNEP/OzL.Pro/ExCom/95/94, Decision 95/84).
(Supporting document: UNEP/OzL.Pro/ExCom/95/84).

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note:
(i) The report on the 2026 core unit costs for UNDP, UNIDO and the World Bank contained in document UNEP/OzL.Pro/ExCom/97/84;
(ii) With appreciation, that the core unit operations of the World Bank were below its budgeted levels and that the World Bank would return unused balances of US $10,220 to the Multilateral Fund at the 97th meeting;
(b) To approve the requested 2026 core unit budgets for:
(i) UNDP, in the amount of US $2,388,151;

(ii) UNIDO, in the amount of US $2,293,768; and
(iii) The World Bank, in the amount of US $1,947,145.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/86).
(Supporting document: UNEP/OzL.Pro/ExCom/97/84).

Assessment of the administrative costs

The Thirty-fourth Meeting of the Executive Committee decided:

(a) to consider in greater depth, at its 35th Meeting, the issue of support costs, particularly with regard to the possibility of:
   (i) adjusting the distribution of support costs between the substantive departments and the administrative departments within the Implementing Agencies;
   (ii) increasing the support costs paid to Implementing Agencies for administering smaller projects, without increasing the overall proportion of resources for such costs;
   (iii) ensuring that any adjustment of support costs would be fully in line with the financial rules and regulations of the United Nations system;
(b) to request the Secretariat of the Multilateral Fund to prepare an issue paper in consultation with the UNEP Treasurer and UNEP/DTIE.

(UNEP/OzL.Pro/ExCom/34/58, Decision 34/65, para. 85).

The Fiftieth Meeting of the Executive Committee decided:

(c) to authorize the Secretariat to undertake a comprehensive independent assessment of the administrative costs required for the 2009–2011 triennium, using independent consultants or consulting firms as needed, and to report its conclusions to the first Meeting of the Executive Committee in 2008; and
(d) to request the implementing agencies to facilitate the participation of internal auditors, or other financial management personnel as appropriate, in the study team.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/27 para. 119 (c,d)).

The Fifty-first Meeting of the Executive Committee decided to adopt the draft terms of reference, as orally amended, noting that the Fund Secretariat would present the costs based on bids received from qualified consultants to the Executive Committee at its 52nd Meeting.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/38 para. 186).
(Supporting document: UNEP/OzL.Pro/ExCom/51/44).

The Fifty-second Meeting of the Executive Committee decided:

(a) to note the report on the costs for carrying out a comprehensive independent assessment of the administrative costs required for the 2009-2011 triennium (follow-up to decision 51/38) as contained in document UNEP/OzL.Pro/ExCom/52/50; and
(b) to approve US $60,000 to cover the additional analytical study costs and US $35,000 for travel costs related to the contract on administrative costs required for the 2009 2011 triennium.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/42, para. 178).
(Supporting document: UNEP/OzL.Pro/ExCom/52/50).

At its Fifty-fourth Meeting, after noting the information provided in the progress report, as presented in document UNEP/OzL.Pro/ExCom/54/56 and the presentation given by the consultant at the 54th Meeting, the Executive Committee decided to request the implementing agencies to provide adequate information to ensure that the assessment of the administrative costs required for the 2009-2011 triennium was as exhaustive and beneficial as possible.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/42, para. 184).
(Supporting document: UNEP/OzL.Pro/ExCom/54/56).

At its Fifty-fifth Meeting, the Committee decided to reconsider the matter at its 56th Meeting in the context of the evaluation of the UNEP CAP and applicable implementing agencies' core unit costs budgets, and requested the Secretariat to prepare, for that meeting, a review of the report, laying out some of the key issues for consideration by the Committee, including the issue of developing a common definitivion of administrative costs.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/44, para. 212).
(Supporting document: UNEP/OzL.Pro/ExCom/55/48).

At its Fifty-sixth Meeting, the Executive Committee decided:

(a) to note the report on key issues arising from the assessment of the administrative costs required for the 2009-2011 triennium, prepared pursuant to decision 55/44 and contained in document UNEP/OzL.Pro/ExCom/56/19;

(b) to maintain the existing administrative cost regimes for the bilateral and implementing agencies for the 2009-2011 triennium;

(c) to request implementing agencies to provide sufficient actual data in order to monitor the differences between administrative cost income and the costs incurred; and

(d) to request UNIDO to provide the assumption for its administrative costs model, and in future requests for core unit funding to furnish administrative cost information distinguishing project-related activities from administrative costs.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/41 para 173)
(Supporting document: UNEP/OzL.Pro/ExCom/56/19).

The Sixty-eighth Meeting of the Executive Committee decided to defer consideration of the terms of reference for the assessment of the administrative cost regime for the 2015-2017 triennium until its 70th meeting, or until after the preparation of the guidelines for stage II of HCFC phase-out management plans had been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/68/53, decisión 68/10 para 64)
(Supporting document: UNEP/OzL.Pro/ExCom/68/13).

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the options for assessment of the administrative cost regime for the 2015-2017 triennium contained in document UNEP/OzL.Pro/ExCom/71/59; and

(b) To request the Secretariat to submit to the last meeting in 2014 a document reviewing the current administrative cost regime, in consideration of the administrative cost regime for the 2015-2017 triennium.

(UNEP/OzL.Pro/ExCom/71/64, decisión 71/45 para 173)
(Supporting document: UNEP/OzL.Pro/ExCom/71/59).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note the draft terms of reference for the review of the administrative cost regime and its core unit funding budget (decision 73/62(d)), contained in document UNEP/OzL.Pro/ExCom/75/79;

(b) To approve the revised terms of reference for the review of the administrative cost regime and its core unit funding budget contained in Annex XXXII to the present report, for the assessment of administrative costs for the 2018–2020 triennium;

(c) To approve a one-off cost of US $60,000 for the Secretariat to conduct the administrative cost study; and

(d) To request the Secretariat to submit the report on the review of the administrative cost regime and its core unit funding budget, for its consideration by the Executive Committee at its first meeting in 2017, in line with decision 73/62(c).

(UNEP/OzL.Pro/ExCom/75/85, decision 75/69 para 286)
(Supporting document: UNEP/OzL.Pro/ExCom/75/79).

The Seventy-ninth meeting decided:

(a) To note the report on the review of the administrative cost regime and its core unit funding budget (decision 75/69) contained in document UNEP/OzL.Pro/ExCom/79/43;

(b) To note with appreciation the information provided by the implementing agencies through the questionnaire that had been developed to collect information on administrative costs;

(c) To maintain the current administrative cost regime of the Multilateral Fund for the 2018−2020 triennium;

(d) To request the Secretariat to continue monitoring use of the administrative cost regime and to report back to the Executive Committee, as relevant;

(e) To request UNDP, UNIDO and the World Bank to present their annual reports on core unit funding using the revised format contained in Annex XVIII to the present report;

(f) To request the Secretariat to prepare a document for the last meeting of 2018 describing the duties and costs

associated with project management units and an analysis of:

(i) How those costs and duties related to: institutional strengthening; the Compliance Assistance Programme; project preparation funding; and support costs for project implementation and verification activities; and

(ii) The extent to which agencies passed on administrative duties to other institutions.

UNEP/OzL.Pro/ExCom/79/51, decision 79/41 para 131).
(Supporting document: UNEP/OzL.Pro/ExCom/79/43).

The Eighty-second Meeting decided of the Executive Committee decided:

(a) To note the analysis of the duties and costs associated with project management units (PMUs) and the extent to which agencies passed on administrative duties to other institutions (decision 79/41(f)) contained in document UNEP/OzL.Pro/ExCom/82/63;

(b) To request the Secretariat to prepare, for the 83rd meeting, in consultation with the implementing agencies, a document providing detailed analysis by country on PMUs, institutional strengthening projects, and implementing agencies, including in relation to: activities and funding under the UNEP Compliance Assistance Programme; the core units of UNDP, UNIDO and the World Bank and other elements of the administrative cost regime; and information on national level independent verification; and

(c) To request Article 5 countries, through the relevant bilateral and implementing agencies, to include the specific roles and responsibilities of the PMU and the NOU in Appendix 5-A when finalizing their Agreement with the Executive Committee on multi-year national plans to phase out controlled substances.

UNEP/OzL.Pro/ExCom/82/72, decision 82/82).
(Supporting document: UNEP/OzL.Pro/ExCom/82/63).

The Eighty-third Meeting decided of the Executive Committee decided:

(a) To note the review of administrative cost regime: analysis by country, of project management units (PMUs), institutional strengthening, and implementing agencies, including activities and funding under the Compliance Assistance Programme, core units and other elements of the administrative cost regime, and information on national-level independent verification (decision 82/82(b)), contained in document UNEP/OzL.Pro/ExCom/83/39; and

(b) To request bilateral and implementing agencies, when submitting tranche funding requests for HCFC phase-out management plans, to include: in the tranche implementation plan, the specific activities that would be implemented by the PMU, and the associated funding; and in the implementation report of the previous tranche, the activities implemented by the PMU and the associated funding disbursed.

UNEP/OzL.Pro/ExCom/83/48, decision 83/61).
(Supporting document: UNEP/OzL.Pro/ExCom/83/39).

The Ninety-third Meeting decided of the Executive Committee decided:

(a) To note the review of the administrative cost regime of the Multilateral Fund (decisions 88/74(c) and 91/67(b)), as contained in document UNEP/OzL.Pro/ExCom/93/101;

(b) To approve an increase in the core unit funding for UNDP, UNIDO and the World Bank, by US $200,000 each, for each year of the triennium 2024–2026, for the strengthening of their capacity to provide technical and policy support to Article 5 countries, on the understanding that the increase only applied to the triennium 2024–2026;

(c) That the administrative cost regime of the Multilateral Fund for the triennium 2021–2023 would be maintained for the triennium 2024–2026, except for agency fees for stage I of Kigali HFC implementation plans (KIPs) for low-volume-consuming (LVC) countries, which would be applied starting from the 93rd meeting as follows:
   (i) At 13 per cent for projects up to a value of US $500,000;
   (ii) At 13 per cent on the first US $500,000 and 11 per cent on the balance for projects with a value exceeding US $500,000;

(d) To approve the increase in the Compliance Assistance Programme (CAP) budget for the years 2024, 2025 and 2026 by US $200,000, US $150,000 and US $150,000, respectively, for providing technical and policy assistance to LVC countries to support KIP implementation, on the understanding that:
   (i) The funding allocation for each year would be used within 24 months and the balances would be returned to the Multilateral Fund;
   (ii) UNEP would report on the technical and policy assistance activities provided to LVC countries and their impact as part of the narrative of their CAP annual progress reports; and

(e) To review the administrative cost regime and its core unit funding budget at the last meeting of 2026, (i.e. the last meeting of the triennium 2024–2026), including a review of the implementation of subparagraph (b).
(UNEP/OzL.Pro/ExCom/93/105, decision 93/95).
(Supporting document: UNEP/OzL.Pro/ExCom/93/101).

Services provided by financial intermediaries

The Twenty-ninth Meeting of the Executive Committee decided:

(a) to request the World Bank to clarify which of those services, strictly speaking, could fall under the heading of project preparation and to report to the Executive Committee at its Thirtieth Meeting;

(b) to request the other Implementing Agencies to report to the Executive Committee at its Thirtieth Meeting on the arrangements which they made to have such services performed;

(c) to request the Sub-Committee on Monitoring, Evaluation and Finance to examine the above-noted issues related to administrative costs at the time of the Thirtieth Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/73, para. 115).

Administrative budget

The Thirty-seventh Meeting of the Executive Committee decided to continue examining the possibility of an administrative budget for the Implementing Agencies.
(UNEP/OzL.Pro/ExCom/37/71, Decision 37/64, para. 97).

Also, at its Thirty-seventh Meeting the Executive Committee decided to request the Secretariat in collaboration with bilateral agencies and the Implementing Agencies to assess the feasibility of replacing or changing the current system of project support costs by providing the agencies with administrative budgets together with a reduced rate of support costs for individual activities, and report to the 38th Meeting of the Executive Committee, it being understood that total administration costs would not exceed existing total administrative costs.
(UNEP/OzL.Pro/ExCom/37/71, Decision 37/68, para. 115(c)).

Procurement procedures of the Implementing Agencies

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to request the Implementing Agencies to update rosters of competent suppliers regularly, taking into consideration the need to add new competent suppliers;

(b) also to request the Secretariat, in consultation with the Implementing Agencies, to provide citations to allow countries to find the following information:

  (i) the criteria applied by each Implementing Agency when establishing the rosters;

  (ii) the procedure applied by each Implementing Agency when inviting new competent suppliers to be included in the rosters;

  (iii) the contact point of each Implementing Agency for information on the international competitive bidding and procurement procedure;

  (iv) the current rosters established by each Implementing Agency (or how to access the list of rosters).
(UNEP/OzL.Pro/ExCom/39/43, Decision 39/11, para. 45).
(Supporting document: UNEP/OzL.Pro/ExCom/39/15).

The Fortieth Meeting of the Executive Committee decided:

(a) to note the information provided in document UNEP/OzL.Pro/ExCom/40/10;

(b) to request Implementing Agencies to exchange information on the capacity, efficiency and experience of suppliers and consultants in delivering projects; and

(c) to include in the Multilateral Fund Secretariat's web site links to the Implementing Agencies' relevant sites to assist those interested in providing services or goods.
(UNEP/OzL.Pro/ExCom/40/50, Decision 40/5, para. 34).
(Supporting document: UNEP/OzL.Pro/ExCom/40/10).

RESOURCE ALLOCATION AMONG IMPLEMENTING AGENCIES

The Seventeenth Meeting of the Executive Committee decided:

(a) to take note of the following proposal agreed by the World Bank, UNIDO and UNDP:

(i) that funding for investment projects (i.e. all projects other than work programme activities) be allocated as follows: World Bank 45 per cent, UNDP 30 per cent and UNIDO 25 per cent. These shares to be fully effective in 1996, while for 1995 the agencies would attempt to adhere broadly to them;

(ii) any shortfall in the shares of the World Bank and UNDP to be filled by UNIDO project approvals, effective immediately;

(iii) UNDP and UNIDO to coordinate their project preparation activities in low-ODS-consuming countries, so that only one agency would be responsible for each such country;

(b) that the proposed allocation provided an indicative basis for the Implementing Agencies to develop 1996 work programmes and business plans for the consideration of the Executive Committee at its Eighteenth Meeting.

(UNEP/OzL.Pro/ExCom/17/60, Decision 17/21 para. 30).

Reallocation of agency shares

The Twenty-fifth Meeting of the Executive Committee decided:

(a) to reduce investment project shares of UNDP by 1 per cent, that of the World Bank by 2 per cent and that of UNIDO by 3 per cent;

(b) that the unallocated amount should be reserved for projects in the aerosol and halon sectors and could be bid for by each agency for up to half of the unallocated amount;

(c) to request the Sub-Committee on Project Review to examine barriers to the submission and implementation of such halon and aerosol projects.

(UNEP/OzL.Pro/ExCom/25/68, Decision 25/4, para. 25).

The Twenty-eighth Meeting of the Executive Committee decided, for business planning purposes:

(a) to restore the distribution of shares for the Implementing Agencies for investment projects set out in the consolidated business plan for 1998 (UNEP/OzL.Pro/ExCom/24/4), namely, UNDP (30 per cent), UNIDO (25 per cent), World Bank (45 per cent), while removing special funding windows for methyl bromide , SMEs, aerosols and halons;

(b) to request the Implementing Agencies to use an indicative figure of one-third of the amount for the 1997-1999 triennium when preparing their draft business plans for the year 2000.

(UNEP/OzL.Pro/ExCom/28/57, Decision 28/23, para. 48).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to note the report on modifications to resource allocations for 2002, as contained in document UNEP/OzL.Pro/ExCom/36/14/Rev.1;

(b) to distribute among the Implementing Agencies, according to investment shares, all remaining investment share allocations from 2001 and remaining allocations from bilateral agencies in 2002 business plans, and to request the relevant Implementing Agencies to prepare addenda to their business plans for submission to the 37th Meeting of the Executive Committee. Investment activities included in those addenda should be in conformity with the following principles:

(i) cost-effectiveness standards for the corresponding sector of activities;

(ii) no overlap of agency activities;

(iii) consistent and reliable country data for submission of a request in the form of a letter for each project.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/13, para. 47).
(Supporting document: UNEP/OzL.Pro/ExCom/36/14/Rev.1).

WORK PROGRAMMES

The Executive Committee shall invite the Implementing Agencies and other appropriate agencies depending on their expertise, to develop work programmes in co-operation with potential recipient countries.

(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section II.2.1).

The Implementing Agencies and the Fund Secretariat should meet in December to consider work programme activities for the following year and to establish their relation to the three-year plan and budget.

(UNEP/OzL.Pro/ExCom/11/36, para. 156.2).
(Supporting document: UNEP/OzL.Pro/ExCom/11/34).

Content of work programmes

Work programmes should specify:

(a) types of activities and projects on which agreement has been reached between the Implementing Agency and the concerned Party;

(b) types of activities and projects which must be sufficiently defined to allow the Executive Committee to review and monitor these activities;

(c) means of coordinating with other Implementing Agencies;

(d) time frame for action;

(e) expected outcomes; and

(f) estimated budget by major categories and fiscal quarters.

(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section II.2.2)).

In developing the work programmes, the following guidelines should be followed:

(a) the language and terminology used should be in accordance with the Montreal Protocol;

(b) the eligibility of countries should be verified;

(c) there should be effective, results-oriented coordination among the operational units of all the Implementing Agencies. Such coordination would recognize that those countries operating under paragraph 1 of Article 5 might select services from the most appropriate agency, as provided for in Appendix IV of the Report of the Second Meeting of the Parties.

(UNEP/OzL.Pro/ExCom/3/18/Rev.1, para. 66)).

The Twenty-third Meeting of the Executive Committee decided to note the importance which the Sub-Committee attached to close coordination among the Implementing Agencies in the preparatory stages in order to avoid duplication.

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/33, para. 59(c)).

The Executive Committee also decided:

(a) to request the Implementing Agencies to co-operate more closely in the development of their work programmes;

(b) to request the Secretariat to facilitate coordination among the Implementing Agencies with a view to avoiding duplication and ensuring a common approach to the achievements of targets.

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/42, para. 70).

Approval of work programmes

Work programmes shall be approved by the Executive Committee on an annual basis and reviewed semi-annually. Approval of work programmes should be based on project eligibility criteria.

(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III, Section II.2.3).

The implementation of any aspect of the work programme shall be subject to the availability of funds. In the event of a shortage of available funds the Executive Committee shall provide guidance to the Implementing Agencies concerning priorities for implementation.

(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III, Section II.2.4).

The Twenty-first Meeting of the Executive Committee decided that, rather than approving an amount within the work programme for unforeseen requests for project preparation activities, as provided for in its decision 19/10, it would consider work programme amendments for such activities submitted by UNDP, UNIDO and the World Bank in the course of the year (1997).

(UNEP/OzL.Pro/ExCom/21/36, Decisions 21/11 (b), 21/12 (b), 21/13 (b), paras. 20, 22, 23).

Consolidated document

The Secretariat with the co-operation of the Implementing Agencies should prepare a consolidated document that contains a sector by sector description of activities, a consolidated country by country summary of those activities, and the expected outputs of such activities to the extent such information is available. Proposed budgets for each Implementing Agency's activities should be included in the consolidated document.

(UNEP/OzL.Pro/ExCom/5/16, para. 48c).

Supervision of projects

Each Implementing Agency is responsible for implementation and supervision of projects within its work programme. The agency shall report to the Executive Committee annually on the progress of the work programmes. *(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III, Section II.2.5).*

BUSINESS PLANS/PROGRAMMES

Rolling business plan

The Seventh Meeting of the Parties requested the Executive Committee to provide to the Parties at their Eighth Meeting a full three-year rolling business plan based on the outline and framework approved by the Parties at their Seventh Meeting. The three-year rolling business plan must reflect the purpose of the Multilateral Fund, which is to enable Parties operating under paragraph 1 of Article 5 to meet their Protocol obligations. The plan would be based on the level of replenishment decided by the Parties and should be used as a basis for projecting beyond the period of the current replenishment. The plan should be based on, inter alia, the intersectoral priorities and strategies contained in the country programmes and should be consistent with agreed commitments under the Montreal Protocol.
(UNEP/OzL.Pro.7/12 Decision VII/23 (paras 2, 3).

The Nineteenth Meeting of the Executive Committee decided:

(a) to request the Secretariat to finalize the paper to the extent possible in the light of the discussion; and

(b) to submit it to the next meeting of the Open-ended Working Group.
(UNEP/OzL.Pro/ExCom/19/64, Decision 19/35, para. 62).

The Seventeenth Meeting of the Executive Committee decided:

(a) that the task of working with the Implementing Agencies in the development of business plans/programmes was best entrusted to the Sub-Committee on Project Review and its Chairman;

(b) to suggest that it might be useful for the Sub-Committee on Project Review to meet with the Implementing Agencies around the time of the Twelfth Meeting of the Open-ended Working Group of the Parties to the Montreal Protocol, to be held in Geneva from 28 August to 1 September 1995, following which the business plans/programmes could be reviewed by the Sub-Committee in the normal way prior to the Eighteenth Meeting of the Executive Committee;

(c) to invite those members of the Executive Committee with ideas on what might constitute a business plan/programme for the Implementing Agencies to submit their comments to the Chairman of the Sub-Committee, through the Secretariat, within a week or so of the closure of the Seventeenth Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/17/60, Decision 17/19 para. 28).

The Eighteenth Meeting of the Executive Committee decided that the model for the preparation of the business plans be adopted to serve as guidance when preparing future plans. It also decided that the business plans of the Implementing Agencies should be reviewed early in 1996 with a view to ensuring that the Implementing Agencies, when preparing their 1997 business plans, reflected the agreed distribution of resources among sectors.
(UNEP/OzL/Pro.ExCom/18/75, Decision 18/13, para. 25(b).

Noting that several Implementing Agencies had not followed the format for the preparation of business plans, the Twenty-second Meeting of the Executive Committee decided that future business plans would not be approved if not presented in the prescribed format.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/6, para. 21).

The Nineteenth Meeting of the Executive Committee decided:

(a) that project preparation activities additional to the 1996 business plans should not be funded;

(b) that, notwithstanding subparagraph (a) above, activities related to country programme preparation and institutional-strengthening projects, even in the event that they were additional to the 1996 business plans, should continue to be approved;

(c) to request the Implementing Agencies, commencing with the 1997 business plans, to set aside 10 to 15 per cent of their total project preparation funding to cover unforeseen project preparation activities.
(UNEP/OzL.Pro/ExCom/19/64, Decision 19/10, para. 27).

The Twenty-third Meeting of the Executive Committee decided:

(a) to request Implementing Agencies to include in their business plans information on ongoing activities in addition to new projects;

(b) to urge Implementing Agencies to comply with the eight-week deadline for the submission of business plans.
(UNEP/OzL.Pro/ExCom/23/68, Decision 23/43, para. 71).

The Seventy-third Meeting of the Executive Committee decided:

(c)(i) To note that the three-year business plan of the Multilateral Fund would be submitted to the last meeting of the year;
(UNEP/OzL.Pro/ExCom/73/62, Decision 73/70(c)(i), para.232).
(Supporting document: UNEP/OzL.Pro/ExCom/73/59).

Review of business plans

The Twenty-third Meeting of the Executive Committee decided:

(a) that the Sub-Committee on Monitoring, Evaluation and Finance shall consider and make recommendations to the Executive Committee on the draft and final versions of the Implementing Agencies' business plans;

(b) that the Executive Committee should take final action on the business plans in the light of those recommendations and any that might be submitted by members of the Committee;

(c) that, in order to assist the Executive Committee, the Secretariat should append the terms of reference of both Sub-Committees to the documents sent to members of the Committee;

(d) in the light of experience, the Executive Committee should consider whether the foregoing procedure was satisfactory.
(UNEP/OzL.Pro/ExCom/23/68, Decision 23/38, para. 66).

Projects not in business plans

The Thirty-fourth Meeting of the Executive Committee decided:

(a) to make every effort to submit projects in accordance with approved business plans;

(b) to replace projects in a business plan or contingency list only when confirmation was provided that:

  (i) the government concerned had been informed in writing by the Implementing Agency of the reasons why its project or projects had been deferred or deleted from the agency's business plan;

  (ii) the replacement project or projects would be essential to enable a country to meet a compliance commitment and any delay in their approval and implementation would result in the country being in non-compliance with the Montreal Protocol.
(UNEP/OzL.Pro/ExCom/34/58, Decision 34/19, para. 38).

Business plans and work programmes for 1997

The Twentieth Meeting of the Executive Committee decided to request the Implementing Agencies to prepare their 1997 business plans and work programmes after consultation with the Article 5 countries with whom they would be working in 1997 and to focus on compliance with commitments under the Montreal Protocol, with due attention to Executive Committee decision 19/4.
(UNEP/OzL.Pro/ExCom/20/72, Decision 20/9, para. 20).

The Twentieth Meeting of the Executive Committee decided that:

(a) on a one-time basis UNDP would nevertheless receive its full share in 1997;

(b) UNIDO and the World Bank would receive an additional amount to make up their full share for 1996;

(c) the actual figures for the shares for 1997 would be discussed during the consideration of the Implementing Agencies' 1997 business plans.
(UNEP/OzL.Pro/ExCom/20/72, Decision 20/11, para. 22).

The Twenty-first Meeting of the Executive Committee decided:

(a) to take note of the 1997 business plans of the Implementing Agencies;

(b) to request the Implementing Agencies to revise their 1997 business plans in the light of Executive Committee decision 21/3, subparagraph (b), and in conformity with its decisions 21/11, 21/12, 21/13 and 21/14, on the 1997 work programmes of the Implementing Agencies, and to submit them to the Executive Committee at its Twenty-second Meeting;

(c) to request the Implementing Agencies, when implementing their 1997 business plans, to integrate the preparation of projects for national recovery and recycling in low-volume-consuming countries into refrigerant management plans;

(d) to request the Secretariat to work with the Implementing Agencies to develop more standardized criteria for evaluating their performance so that it would be possible to examine the relative performance of the agencies prior to consideration of their 1998 business plans;

(e) to request the Secretariat to work with the Implementing Agencies to produce a summary status report for each Article 5 country that would, using the latest available data, include information on the consumption of each country, the number of tonnes to be reduced through implementation of projects already approved by the Fund, the status of implementation of such projects, the amount of ODS that was expected to be reduced through planned approvals in 1997, and an indication of the relative difficulty that each country might face in meeting the 1999 freeze and, as far as practicable, subsequent control measures;

(f) to request the Secretariat to submit a report to the Executive Committee on the exercises referred to in subparagraphs (d) and (e) above. The Monitoring, Evaluation and Finance Sub-Committee established by decision 21/35 would consider this report and make recommendations to the Executive Committee.

(
UNEP/OzL.Pro/ExCom/21/36, Decision 21/5 (para 12).
(Supporting document: UNEP/OzL.Pro/ExCom/21/7, 21/8, 21/9, 21/10).

The Twenty-third Meeting of the Executive Committee decided to authorize Implementing Agencies to submit to the Twenty-fourth Meeting project proposals emanating from their 1997 business plans with funding requests amounting to the unused portion of their 1997 shares.

(UNEP/OzL.Pro/ExCom/23/68, Decision 23/36, para. 62).

1998 business plans of UNDP, UNEP, UNIDO and the World Bank

The Twenty-fourth Meeting of the Executive Committee decided to approve the business plans of UNDP, UNIDO and the World Bank without approving the amounts of funding contained therein, subject to the following conditions:

(a) the shortfall in phase-out from the 1997 business plans should be added to the Implementing Agencies' phase-out targets for 1998 from projects approved up to the end of 1997;

(b) the disbursement target for each Implementing Agency for 1998 should be 70 per cent of the funds approved up to the end of 1997 for all funded projects;

(c) countries that had experienced significant implementation delays should be informed that they could be eliminated from the business plans if they did not address the causes of delay;

(d) the agencies should be given flexibility to reallocate their business plan activities within 15 per cent of the value of the plan;

(e) the Implementing Agencies should include in their business plans the information they had been requested to provide in a standardized manner.

(UNEP/OzL.Pro/ExCom/24/47, Decision 24/4, para. 22).

The Committee further decided:

(a) to request the Secretariat to review the experience of agencies in meeting the disbursement target (a target of 70 per cent for disbursement by the agencies for projects approved and funded up to the end of 1997) and, in the light of this review, to propose alternative targets that would better assess the agencies' performances; and

(b) to reconsider the Implementing Agencies' funding shares of the investment project allocation at its next meeting in light of the review of performance.

(UNEP/OzL.Pro/ExCom/24/47, Decisions 24/3 and 24/5 (paras. 21(b) and 23).

The Committee also decided:

(a) to approve the business plan of UNEP, in the light of the recommendations of the Sub-Committee on Project Review on UNEP's work programme amendments; and

(b) to urge UNEP to achieve the same performance level as the other Implementing Agencies and include in its reports a better description of performance against performance indicators.

(UNEP/OzL.Pro/ExCom/24/47, Decision 24/6, para. 24).

The Twenty-fifth Meeting of the Executive Committee decided that, in order to allow a period of grace in view of the changes made to the business planning process, for 1998 agencies be allowed to submit projects up to the first meeting in 1999. The Sub-Committee would then reconsider whether to discontinue the practice of allowing agencies to complete their business plans during the following year.

(UNEP/OzL.Pro/ExCom/25/68, Decision 25/7, para. 29).

1999 business plans of UNDP, UNEP, UNIDO and the World Bank

The Twenty-seventh Meeting of the Executive Committee decided:

(a) to endorse UNDP's 1999 business plan, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to note that, at the Sub-Committee's meeting, UNDP had revised its investment project targets for ODP phase-out from 3,800 to 6,000 ODP tonnes and for disbursement from US $36,160,000 to US $40,160,000. It had also revised its non-investment project targets for appropriate and timely policies indicated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening to four countries and for a reduction in ODS consumption over and above that effected by investment projects to 20 ODP tonnes;

(c) to approve the performance indicators for UNDP presented in tables below;

(d) to set a target of 2.7 per cent of 1999 investment project submissions for the cost of project preparation on the understanding that the issue of project preparation costs could be discussed at the next meeting of the Sub-Committee.

Investment project performance indicators

Items	1999 Targets
Weighted indicators	
ODP phased out in from previous approvals (ODP tonnes)	3,800
Funds disbursed (US$)*	$36,160,000
Satisfactory project completion reports received (percentage)**	50%
Distribution of projects among countries in business plans (number)	37
Non-weighted indicators	
Value of projects to be approved (US$)*	$37,459,500
ODP from projects to be approved (ODP tonnes)	3,104
Cost of project preparation (per cent of submission)	3.5%
Cost-effectiveness from projects to be approved (US$/ODP in kg)	$12.60
Speed of delivery until first disbursement (months from approval)	12 months
Speed of delivery until project completion (months from approval)	30 months
Net emission/reduction of ODP resulting from implementation delays/early completion **	5,896 ODP
*Includes agency support costs of 13 per cent but excludes 15 per cent over-programming	
**Not included in business plan but provided subsequently to the Secretariat by fax.	

Non-investment performance indicators

Items	1999 Targets
Weighted Indicators	
Number of Projects to be completed	10
Funds Disbursed (US$)	$2,260,000
Speed of delivery until first disbursement (months from approval)	9 months
Speed of delivery until project completion (months from approval)	27 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	N/p
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	N/p

N/a – Not applicable in previous years.
N/p – Not provided.
* Includes agency support costs but excludes 15 per cent over-programming.

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/4, para. 23).
(Supporting document: UNEP/OzL.Pro/ExCom/27/7).

The Twenty-seventh Meeting of the Executive Committee decided:

(a) to endorse UNEP's 1999 business plan, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to note that UNEP had been requested to revise its disbursement target to US $5.3 million, including agency fees, and its number of projects to be completed to 72;

(c) to approve the performance indicators for UNEP set out in tables below.

Non-investment performance indicators

Items	1999 Targets
Weighted Indicators	
Number of Projects to be Completed	60% of approved projects
Funds Disbursed (US$)*	60% of approved funding
Speed of delivery until first disbursement (months from approval)	6 months
Speed of delivery until project completion (months from approval)	17 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	3 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	3 tonnes

UNEP-specific non-investment performance indicators

Items	1999 Targets
Update of OAIC Diskette version	1 update
Number of newsletters	4 newsletters
Number of joint/regional activities which Network members are involved	1 per region
Improvement over previous years in data reporting and enacting the legislation and policies for ODS phase-out in Networking and institutional strengthening countries	80 per cent of all Network member countries
The extent of awareness-raising activities initiated by the countries as a result of UNEP's publications	UNEP stated that this indicator is qualitative but could be expressed in the number of brochures, awareness raising products produced by the countries
The extent to which experience achieved through UNEP's activities is used in the adoption and adjustment of ODS phase-out strategies by Network countries	UNEP stated that this indicator is qualitative
The extent to which the networks are used by the Agencies and the Secretariat in developing their work or explaining new policies	UNEP stated that this indicator is qualitative and also stated that the results could be reported by the agencies and the Secretariats

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/5, para. 24).
(Supporting document: UNEP/OzL.Pro/ExCom/27/8).

The Twenty-seventh Meeting of the Executive Committee decided:

(a) to endorse UNIDO's 1999 business plan, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to approve the performance indicators for UNIDO set out in tables below, for the project completion report target, while noting that UNIDO's disbursement target exceeded 70 per cent of the approvals up to the end of 1998.

Investment project performance indicators

Items	1999 Targets
Weighted indicators	
ODP phased out in from previous approvals (ODP tonnes)	5,875
Funds disbursed (US$)*	$27,612,000
Satisfactory project completion reports received (percentage)	80%
Distribution of projects among countries in business plans (number)	30
Non-weighted indicators	
Value of projects to be approved (US$)*	$21,112,867**
ODP from projects to be approved (ODP tonnes)	3,445**
Cost of project preparation (per cent of submission)	2%
Cost-effectiveness from projects to be approved (US$/ODP in kg)	$6.12
Speed of delivery until first disbursement (months from approval)	7 months
Speed of delivery until project completion (months from approval)***	26 months
Net emission/reduction of ODP resulting from implementation delays/early completion	5,761 ODP
N/p – Not provided.	
* Includes agency support costs but excludes 15 per cent over-programming.	
** Excluding methyl bromide and aerosol projects.	
***Not included in business plan but provided subsequently to the Secretariat by fax.	

Non-investment performance indicators

Items	1999 Targets
Weighted Indicators	
Number of projects to be completed	3
Funds Disbursed (US$)*	$746,000**
Speed of delivery until first disbursement (months from approval)	5 months
Speed of delivery until project completion (months from approval)	10 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	Advanced preparation of a national plan on methyl bromide alternatives; in one country package of measures supporting ODS phase-out, bans, and sanctions; in one country a working group on standards for phase-out programmes
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	Completion of sector phase-out for domestic refrigeration and solvent sector in an unspecified country and meeting the freeze in 4 countries
* Includes agency support costs but excludes 15 per cent over-programming.	

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/6, para. 25).
(Supporting document: UNEP/OzL.Pro/ExCom/27/9).

The Twenty-seventh Meeting of the Executive Committee decided:

(a) to endorse the World Bank's 1999 business plan, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to note that the World Bank had revised its cost of project preparation from 4 per cent to 2.8 per cent of 1999 submissions;

(c) to approve the performance indicators for the World Bank set out in tables below.

Investment project performance indicators

Items	1999 Targets
Weighted indicators	
ODP phased out in from previous approvals (ODP tonnes)	17,174
Funds disbursed (US$)*	$52,276,000
Satisfactory project completion reports received (percentage)	77%

Distribution of projects among countries in business plans (number)	12
Non-weighted indicators	
Value of projects to be approved (US$)*	$51,980,000
ODP from projects to be approved (ODP tonnes)	20,200
Cost of project preparation (per cent of submission)	4.0%
Cost-effectiveness from projects to be approved in 1999 (US$/ODP in kg)	$2.4
Speed of delivery until first disbursement (months from approval)	22 months
Speed of delivery until project completion (months from approval)	35 months
Net emission/reduction of ODP resulting from implementation delays/early completion (ODP tonnes)	5,550
N/a – Not applicable in previous years.	
* Includes agency support costs but excludes 15 per cent over-programming.	

Non-investment performance indicators

Items	1999 Targets
Weighted indicators	
Number of projects to be completed	6
Funds Disbursed (US$)	$2,600,000
Speed of delivery until first disbursement (months from approval)	17 months
Speed of delivery until project completion (months from approval)	32 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	Specific policies identified for 4 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	20 from recovery and recycling projects
* Includes agency support costs of 13 per cent.	

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/7, para. 26).
(Supporting document: UNEP/OzL.Pro/ExCom/27/10).

Consolidated 1999 business plan

The Twenty-sixth Meeting of the Executive Committee decided to request the Implementing Agencies to finalize their 1999 business plans, taking into account the following considerations:

(a) the total amount not allocated in the consolidated draft 1999 business plans should remain unallocated but be assigned to the production sector as a priority;

(b) no agency should be allowed to submit projects in excess of its allocation;

(c) the allocation for methyl bromide in the business plans should be considered adequate, but this did not prejudge any decision on the level of funding for the two large-scale investment projects in Brazil and Argentina;

(d) in view of the large number of projects that could conceivably raise policy issues, the Committee should accelerate the resolution of the relevant policy issues, as well as guidelines still pending;

(e) to request the Secretariat to determine the level of ODS phase-out targets for each agency for each year for future business plans based on progress reports and to ask the Implementing Agencies to explain any deviation from that level;

(f) that UNEP should adjust its business plan:

  (i) to reduce the number of regional halon banking management plans to one pilot programme;

  (ii) to rationalize the number of methyl bromide activities and to provide more information on the delivery mechanism, output and content of such activities.

(UNEP/OzL.Pro/ExCom/26/70, Decision 26/8, para. 24).

The Twenty-sixth Meeting of the Executive Committee also urged the Implementing Agencies to take into account the specific comments made by the members of the Sub-Committee in relation to their business plans in the revision of those plans to be submitted for final approval by the Executive Committee at its first meeting in 1999.

(UNEP/OzL.Pro/ExCom/26/70, Decision 26/9, para. 25).

The Twenty-seventh Meeting of the Executive Committee decided:

(a) to take note of the consolidated business plan;

(b) to approve the following targets for ODS phase-out calculated by the Secretariat in accordance with decision 26/8 (e):

Agency	ODS phase-out target
UNDP	11,876 ODP tonnes
UNIDO	5,883 ODP tonnes
World Bank	15,542 ODP tonnes
Total	33,301 ODP tonnes

(c) to reaffirm the minimum disbursement target of 70 per cent of project funds approved up to the end of 1998 for investment projects;

(d) to set a target for all agencies of 100 per cent for submission of project completion reports, taking into account that the project completion report should be submitted six months after completion of the project.

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/2, para. 21).

Business plans for the year 2000 of UNDP, UNEP, UNIDO and the World Bank

The Twenty-ninth Meeting of the Executive Committee decided that UNDP should finalize its business plan for the year 2000, taking into account the following:

(a) the technical assistance project with net incremental savings should not be included;

(b) activities related to the halon sector should be increased;

(c) the cost-effectiveness threshold from approvals in the non-weighted indicators for investment projects should be revised;

(d) ODP phase-out targets as a performance indicator should be established at 13,646 ODP tonnes as calculated by the Secretariat in line with decision 26/8;

(e) UNDP had changed its project completion report target to 100 per cent;

(f) UNDP should reassess its speed of delivery indicators.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/14, para. 35).

The Twenty-ninth Meeting of the Executive Committee decided that UNEP should finalize its business plan for the year 2000, on the understanding that:

(a) UNEP should provide targets for both its non-weighted performance indicators in its final business plan;

(b) UNEP should remove Saudi Arabia and United Arab Emirates from its business plan;

(c) the preparation of the country programme for Kuwait should, for the time being, be retained in the business plan and the Secretariat should send a letter urging the country to seek other means of satisfying its needs, possibly through trust fund arrangements with UNIDO.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/15, para. 36).

The Twenty-ninth Meeting of the Executive Committee decided that UNIDO should finalize its business plan for the year 2000 and the revised performance indicators as provided by fax to the Secretariat.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/17, para. 39).

The Twenty-ninth Meeting of the Executive Committee decided that the World Bank should finalize its business plan for the year 2000.

(UNEP/OzL.Pro/ExCom/29/65, Decision 29/18, para. 40).

The Thirtieth Meeting of the Executive Committee decided:

(a) to endorse the revised business plan of UNDP for the year 2000, while noting that the endorsement did not denote approval of the projects identified therein nor of their funding level;

(b) to reaffirm the targets set by the Executive Committee in decision 29/14 as 13,646 ODP tonnes for the target "ODP phased out from previous approvals" and 100% for the target "satisfactory project completion reports received";

(c) to approve the performance indicators for UNDP set out in the following tables and sub-paragraph (b) above

and the figure of 6,750 ODP tonnes as the performance indicator for net emissions/reductions of ODP resulting from implementation delays/early project completion.

Investment Project Performance Indicators

Items	Year 2000 Targets
Weighted indicators	
ODP phased out from previous approvals (ODP tonnes)	6,000 (UNDP's own target), but 13,646 ODP tonnes was established for UNDP by Decision 29/14
Funds disbursed (US$)*	$45,200,000**
Satisfactory project completion reports received (percentage)	50% (UNDP's own target), but 100% was established for UNDP by Decision 29/14
Distribution of projects among countries in business plans (number)	33
Non-weighted indicators	
Value of projects to be approved (US$)*	$35,169,550
ODP from projects to be approved (ODP tonnes)	4,566
Cost of project preparation (per cent of submission)	3%
Cost-effectiveness from projects to be approved in 1999 (US$/ODP in kg)	$7.8
Speed of delivery until first disbursement (months from approval)	14 months
Speed of delivery until project completion (months from approval)	36 months
Net emission/reduction of ODP resulting from implementation delays/early completion (ODP tonnes)	N/p

*Including agency fees, but not over-programming.
**The fund disbursed is based on US $40 million plus agency fees.

Non-Investment Performance Indicators

Items	Year 2000 targets
Weighted indicators	
Number of projects to be completed	8
Funds disbursed (US$)*	$2,033,013**
Speed of delivery until first disbursement (months from approval)	12 months
Speed of delivery until project completion (months from approval)	36 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	5
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	30

*Including agency fees.
**The fund disbursed is based on US $1,799,127 plus agency fees.

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/15, paras 35).
(Supporting document: UNEP/OzL.Pro/ExCom/30/12 and Corr.1).

The Thirtieth Meeting of the Executive Committee decided:

(a) to endorse the revised business plan of UNEP for the year 2000 (UNEP/OzL.Pro/ExCom/30/13), while noting that the endorsement did not denote approval of the projects identified therein nor of their funding level;

(b) to approve the performance indicators for UNEP set out in the following tables in the year 2000 business plan of UNEP.

Non-Investment Performance Indicators

Items	2000 Targets
Weighted Indicators	
Number of Projects to be Completed	60% of total projects approved
Funds Disbursed (US$)	73% of approved funding

Speed of delivery until first disbursement (months from approval)	6 months
Speed of delivery until project completion (months from approval)	17 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	10 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	40

As requested, UNEP provided targets for its two non-weighted performance indicators:

* Reduction in ODS consumption over and above that effected by investment projects (40 MT ODS).
* Appropriate and timely policies initiated by countries either as a result of networking, training, information exchange, country programme development and/or institutional strengthening (10 countries to adopt policies during 2000).

UNEP-Specific Non-Investment Performance Indicators

Items	2000 Targets
Update of OAIC Diskette version	1 update
Number of newsletters	4 newsletters
Number of joint/regional activities which Network members are involved	1 per region
Improvement over previous years in data reporting and enacting the legislation and policies for ODS phase-out in Networking and institutional strengthening countries	80 per cent of all Network member countries
The extent of awareness-raising activities initiated by the countries as a result of UNEP's publications	UNEP stated that this indicator is qualitative but could be expressed in the number of brochures, awareness raising products produced by the countries
The extent to which experience achieved through UNEP's activities is used in the adoption and adjustment of ODS phase-out strategies by Network countries	UNEP stated that this indicator is qualitative
The extent to which the networks are used by the Agencies and the Secretariat in developing their work or explaining new policies	UNEP stated that this indicator is qualitative

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/16, paras 36).
(Supporting document: UNEP/OzL.Pro/ExCom/30/13 and Corr.1).

The Thirtieth Meeting of the Executive Committee decided:

(a) to endorse the revised business plan of UNIDO for the year 2000, while noting that the endorsement did not denote approval of the projects identified therein nor of their funding level;

(b) to take note of the performance indicators for non-weighted non-investment projects, namely, one to two countries for the indicator "Appropriate and timely policies initiated by countries either as a result of networking, training, information exchange, CP development and/or institutional strengthening" and 5-10 ODP tonnes to result from ongoing training programmes in the recovery and recycling projects;

(c) to approve the performance indicators for UNIDO set out in the following tables in the year 2000 business plan of UNIDO and sub-paragraph (b) above;

(d) to note the revisions to UNIDO's business plan to replace the tobacco sector project in its contingency list and to add to its business plan's contingency list contingency projects that might be used to replace projects for Kenya.

Investment Project Performance Indicators

Items	Final business plan targets
Weighted indicators	
ODP phased out from previous approvals (ODP tonnes)	3,311.21
Funds disbursed (US$)*	$30,808,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plans (number)	27
Non-weighted indicators	

Value of projects to be approved (US$)*	$28,856,270
ODP from projects to be approved (ODP tonnes)	4,441.5
Cost of project preparation (per cent of submission)	3%
Cost-effectiveness from projects to be approved in 1999 (US$/ODP in kg)	a) $6.14 excluding MB b) $6.61 including MB
Speed of delivery until first disbursement (months from approval)	8 months
Speed of delivery until project completion (months from approval)	28 months
Net emission/reduction of ODP resulting from implementation delays/early completion (ODP tonnes)	9,147.13

*Including agency fees but not over-programming

Non-Investment Performance Indicators

Items	Year 2000 targets
Weighted indicators	
Number of projects to be completed	3
Funds disbursed (US$)*	$1,228,000
Speed of delivery until first disbursement (months from approval)	6 months
Speed of delivery until project completion (months from approval)	18 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	Specific policies identified for 2 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	Not provided

*Including agency fees

(UNEP/OzL.Pro/ExCom/30/41, Decision 30/17, paras 37).
(Supporting document: UNEP/OzL.Pro/ExCom/30/14 and Corr.1).

The Thirtieth Meeting of the Executive Committee decided:

(a) to endorse the revised business plan of the World Bank for the year 2000, while noting that the endorsement did not denote approval of the projects identified therein nor of their funding level;

(b) to approve the performance indicators for the World Bank set out in the following tables in the year 2000 business plan of the World Bank.

Investment project performance indicators

Items	Year 2000 targets
Weighted indicators	
ODP phased out from previous approvals (ODP tonnes)	12,585
Funds disbursed (US$)*	72,876,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plans (number)	14
Non-weighted indicators	
Value of projects to be approved (US$)*	52,220,000
ODP from projects to be approved (ODP tonnes)	14,217
Cost of project preparation (per cent of submission)	3.2%
Cost-effectiveness from projects to be approved in 1999 (US$/ODP in kg)	$3.57
Speed of delivery until first disbursement (months from approval)	24 months
Speed of delivery until project completion (months from approval)	38 months
Net emission/reduction of ODP resulting from implementation delays/early completion (ODP tonnes)	7,800

*Including agency fees, but not over-programming

Non-investment performance indicators

Items	Final business plan targets
Weighted Indicators	
Number of Projects to be Completed	4

Funds Disbursed (US$)	$1,911,000
Speed of delivery until first disbursement (months from approval)	19 months
Speed of delivery until project completion (months from approval)	33 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	Specific policies identified for 4 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	20 from recovery and recycling projects

*Including agency fees
(UNEP/OzL.Pro/ExCom/30/41, Decision 30/18, paras 38).
(Supporting document: UNEP/OzL.Pro/ExCom/30/15 and Corr.1).

Business plans for the year 2001 of UNDP, UNEP, UNIDO and the World Bank

The Thirty-second Meeting of the Executive Committee decided:

(a) to note the draft business plan of UNDP for the year 2001 (UNEP/OzL.Pro/ExCom/32/13);

(c) to request UNDP to submit a final business plan taking into account the requested modifications to the Thirty-third Meeting.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/10, para. 21 (a, c)).
(Supporting document: UNEP/OzL.Pro/ExCom/32/13).

The Thirty-second Meeting of the Executive Committee decided:

(a) to ensure that, after taking into account the non-investment activities planned by the other Implementing Agencies, the addition of UNEP's planned activities for 2001 did not exceed the resource allocation for non-investment projects;

(b) to remove the project "SME conversion manual" (US $180,000) from the business plan and ensure that the proposed "Study on development of ODS phase-out strategy for SMEs" would review and provide information on the manner in which different countries have phased out ODS from SMEs in different sectors, noting the importance of avoiding any duplication of UNEP's existing project, "Training modules on management of ODS phase-out in SMEs";

(c) to rationalize its proposed "Regional compliance workshops" and "Harmonized subregional ODS legislative and regulatory import mechanisms" in the light of the capacity to address these issues created through existing regional network and institutional strengthening projects;

(d) to include the Economic Community of West African States (ECOWAS) in the list of interregional trade organizations it intends to use to carry out its subregional projects to improve monitoring and control of ODS consumption in the 2001 business plan;

(e) to ensure that methyl bromide activities in countries that have not signed the Copenhagen Amendment are for non-investment projects only;

(f) to extend the full services of the existing African regional networks to all Portuguese-speaking African countries;

(g) to coordinate activities with the other Implementing Agencies in Yemen, taking into account that the refrigeration management plan should contain a full strategy for the refrigeration servicing sector, in order to avoid any overlaps;

(h) to submit a final business plan taking into account the requested modifications to the Thirty-third Meeting.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/11, para. 22).
(Supporting document: UNEP/OzL.Pro/ExCom/32/14).

The Thirty-second Meeting of the Executive Committee decided:

(a) to note the draft business plan of UNIDO (UNEP/OzL.Pro/ExCom/32/15);

(b) to request UNIDO to examine the need to assist Yugoslavia in achieving a freeze on halon consumption, which currently does not display a high probability of success;

(c) to request UNIDO to submit a final business plan taking into account the requested modifications to the Thirty-third Meeting.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/12, para. 23).
(Supporting document: UNEP/OzL.Pro/ExCom/32/15).

The Thirty-second Meeting of the Executive Committee decided:

(a) to note the draft business plan of the World Bank (UNEP/OzL.Pro/ExCom/32/16);

(b) to request the World Bank to examine the possibility of assisting countries which do not display a high potential of achieving a halon freeze to do so;

(c) to note, with regard to the proposed national CFC phase-out plan for the Philippines, that a Swedish bilateral project approved at the Twenty-ninth Meeting of the Executive Committee covers the phase-out strategy for the refrigeration servicing sector, the largest remaining sector, and that the outputs of the two projects, once approved by the Government, will have to be submitted jointly by the two agencies to the Executive Committee;

(d) to request the World Bank to submit a final business plan taking into account the requested modifications to the Thirty-third Meeting.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/13, para. 24).
(Supporting document: UNEP/OzL.Pro/ExCom/32/16).

The Thirty-third Meeting of the Executive Committee decided:

(a) to endorse the 2001 business plan of UNDP in document UNEP/OzL.Pro/ExCom/33/10, noting that the endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to approve the following performance indicators:

Investment Project Performance Indicators

Items	2001 Targets
Weighted indicators	
ODP phased out from previous approvals (ODP tonnes)	6,000
Funds disbursed (US$)*	$39,200,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plans (number)	35
Non-weighted indicators	
Value of projects to be approved (US$)*	$38,779,440
ODP from projects to be approved (ODP tonnes)	4,514
Cost of project preparation (per cent of submission)	2.7%
Cost-effectiveness from projects to be approved in 1999 (US$/ODP in kg)	$7.6
Speed of delivery until first disbursement (months from approval)	14 months
Speed of delivery until project completion (months from approval)	36 months
Net emission/reduction of ODP resulting from implementation delays/early completion (ODP tonnes)	27,612

*Including agency fees, but not over-programming.

Non-Investment Performance Indicators

Items	2001 Targets
Weighted Indicators	
Number of Projects to be Completed	11
Funds Disbursed (US$)*	$2,053,960
Speed of delivery until first disbursement (months from approval)	12 months
Speed of delivery until project completion (months from approval)	36 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	5
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	30

*Including agency fees.

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/6, para. 23).
(Supporting document: UNEP/OzL.Pro/ExCom/33/10).

The Thirty-third Meeting of the Executive Committee decided:

(a) to endorse the 2001 business plan of UNEP in document UNEP/OzL.Pro/ExCom/33/11;

(b) to note that the endorsement did not denote approval of the projects identified therein nor their funding levels;

(c) to approve the following performance indicators:

Non-Investment Performance Indicators

Items	2001 Targets
Weighted Indicators	
Number of Projects to be Completed	60% of total projects approved
Funds Disbursed (US$)	73% of approved funding
Speed of delivery until first disbursement (months from approval)	6 months
Speed of delivery until project completion (months from approval)	17 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	10 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	40

UNEP-Specific Non-Investment Performance Indicators

Items	2001 Targets
Number of newsletters	3 newsletters
Number of joint/regional activities which Network members are involved	2 per region
Improvement over previous years in data reporting and enacting the legislation and policies for ODS phase-out in Networking and institutional strengthening countries	80 per cent of all Network member countries
The extent of awareness-raising activities initiated by the countries as a result of UNEP's publications	UNEP stated that this indicator is qualitative but can be expressed in the number of brochures, awareness raising products produced by the countries
The extent to which experience achieved through UNEP's activities is used in the adoption and adjustment of ODS phase-out strategies by Network countries	UNEP stated that this indicator is qualitative
The extent to which the networks are used by the Agencies and the Secretariat in developing their work or explaining new policies	UNEP stated that this indicator is qualitative

(d) to request the Secretariat to prepare a policy paper on the issue of whether or not there should be contingency lists for non-investment projects to be submitted to the Thirty-fourth Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/7, para. 24).
(Supporting document: UNEP/OzL.Pro/ExCom/33/12).

The Thirty-third Meeting of the Executive Committee decided:

(a) to endorse the 2001 business plan of UNIDO in document UNEP/OzL.Pro/ExCom/33/12, noting that the endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to approve the following performance indicators:

Investment Project Performance Indicators

Items	2001 Targets
Weighted indicators	
ODP phased out from previous approvals (ODP tonnes)	2,416.5
Funds disbursed (US$)*	$24,455,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plans (number)	27
Non-weighted indicators	

Value of projects to be approved (US$)*	$28,612,173 (excl. support cost)
ODP from projects to be approved (ODP tonnes)	3,684.7
Cost of project preparation (per cent of submission)	2.1%
Cost-effectiveness from projects to be approved in 1999 (US$/ODP in kg)	a) $7.51 excl. MB b) $7.76 incl. MB
Speed of delivery until first disbursement (months from approval)	9 months
Speed of delivery until project completion (months from approval)	36 months (incl. MB projects)
Net emission/reduction of ODP resulting from implementation delays/early completion (ODP tonnes)	14,100

*Including agency fees but not over-programming

Non-Investment Performance Indicators

Items	2001 Targets
Weighted Indicators	
Number of Projects to be Completed	3
Funds Disbursed (US$)*	$971,000
Speed of delivery until first disbursement (months from approval)	8 months
Speed of delivery until project completion (months from approval)	24 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	At least one country
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	At least one country

*Including agency fees

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/8, para. 25).
(Supporting document: UNEP/OzL.Pro/ExCom/33/12).

The Thirty-third Meeting of the Executive Committee decided:

(a) to endorse the 2001 business plan of the World Bank in document UNEP/OzL.Pro/ExCom/33/13, noting that the endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to approve the following performance indicators:

Investment project performance indicators

Items	2001 Targets
Weighted indicators	
ODP phased out from previous approvals (ODP tonnes)	5,510
Funds disbursed (US$)*	54,520,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plans (number)	15
Non-weighted indicators	
Value of projects to be approved (US$)*	52,220,000
ODP from projects to be approved (ODP tonnes)	15,933
Cost of project preparation (per cent of submission)	3.64%
Cost-effectiveness from projects to be approved in 1999 (US$/ODP in kg)	$3.57
Speed of delivery until first disbursement (months from approval)	25 months
Speed of delivery until project completion (months from approval)	38 months
Net emission/reduction of ODP resulting from implementation delays/early completion (ODP tonnes)	(1,600)

*Including agency fees, but not over-programming

Non-investment performance indicators

Items	2001 Targets
Weighted Indicators	
Number of Projects to be Completed	9
Funds Disbursed (US$)*	$2,300,000

Speed of delivery until first disbursement (months from approval)	19 months
Speed of delivery until project completion (months from approval)	24 months
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of networking, training, information exchange, country programme development and/or institutional strengthening (number of countries)	Specific policies identified for 2 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	5 ODP tonnes from four recovery and recycling projects

*Including agency fees

(c) also to note that the World Bank was moving its process agent activities in China from its 2001 business plan to its 2002 business plan;

(d) to note further that, when the Executive Committee had approved the value of the CFC production project in Argentina for the World Bank's 2001 business plan, the Bank would adjust its business plan activities by removing projects in the following order of priority:

(i) accelerated phase-out in those countries that are willing to do so;

(ii) maintaining momentum;

(iii) production sector phase-out;

(iv) ensuring compliance by all Article 5 countries.

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/9, para. 26).
(Supporting document: UNEP/OzL.Pro/ExCom/33/13).

Business plans for the year 2002 of UNDP, UNEP, UNIDO and the World Bank

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to note the draft 2002 business plan of UNDP contained in document UNEP/OzL.Pro/ExCom/35/7 and Corr.1;

(b) to request UNDP:

(i) to take into account the comments in document UNEP/OzL.Pro/ExCom/35/7 and Corr.1 concerning planned activities in Kenya and Lebanon when finalizing its 2002 business plan;

(ii) to provide letters from countries for all activities included in its final business plan for 2002;

(iii) to indicate in its final business plan the actions it would take to expedite the implementation of approved projects and those that could be critical to compliance;

(iv) to provide a target for the performance indicator "net emissions (reductions) of ODP resulting from implementation delays (early completion)";

(v) to ensure that the projects included in its business plan were consistent with the compliance obligations of the countries involved.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/4, para. 30 (a, b)).
(Supporting document: UNEP/OzL.Pro/ExCom/35/7 and 35/7/Corr.1).

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to note the draft 2002 business plan of UNEP contained in document UNEP/OzL.Pro/ExCom/35/8 and Add.1;

(b) also to note with appreciation the reorientation designed to achieve and sustain compliance, promote a greater sense of country "ownership", and implement the agreed Executive Committee framework for strategic planning;

(c) to maintain the Compliance Assistance Programme (CAP) in principle in the final business plan;

(d) to request that funds approved annually for the CAP but not spent be returned to the Multilateral Fund for re-programming at the second meeting of the Executive Committee in the year following that for which they had been approved;

(e) to agree to the completion dates for the submission of country programme/RMPs;

(f) to request UNEP to submit country programme/RMPs before requesting funding for any projects/activities

contained therein, while indicating that the Executive Committee would consider requests for funding for one year of institutional strengthening for new Parties to the Protocol;

(g) also to request UNEP to provide letters from countries for all activities included in its final business plan for 2002.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/5, para. 31).
(Supporting document: UNEP/OzL.Pro/ExCom/35/8 and 35/8/Add.1).

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to note the draft 2002 business plan of UNIDO contained in document UNEP/OzL.Pro/ExCom/35/9;

(b) to request UNIDO:

(i) to consider modifying its investment project performance indicator targets for ODP phase-out in 2002, cost-effectiveness, and speed of first disbursement; its non-investment performance indicator targets for speed of first disbursement; and to provide targets for the non-weighted, non-investment project performance indicators, taking into account the consideration by the Sub-Committee on Monitoring, Evaluation and Finance of the report on the performance indicators and proposal on modifications (UNEP/OzL.Pro/ExCom/35/16);

(ii) to take into account the comments in document UNEP/OzL.Pro/ExCom/35/9 concerning planned activities in Egypt, Kenya, and Oman when finalizing its 2002 business plan;

(iii) to provide letters from countries for all activities included in its final business plan for 2002;

(iv) to indicate in its final business plan the actions it would take to expedite the implementation of approved projects and those that could be critical to compliance;

(v) to ensure that the projects included for the methyl bromide sector were consistent with the Multilateral Fund's guidelines for that sector when finalizing its 2002 business plan;

(vi) to consult with Germany on the appropriateness of including the end-user project for Kenya in its RMP supplement, noting the Executive Committee's guidelines for additional funding for LVCs.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/6, para. 32).
(Supporting document: UNEP/OzL.Pro/ExCom/35/9).

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to note the draft 2002 business plan of the World Bank contained in document UNEP/OzL.Pro/ExCom/35/10;

(b) also to note the World Bank's efforts to expedite the implementation of approved activities and to request it to indicate in its final business plan additional actions to expedite the implementation of approved projects and those that could be critical to compliance;

(c) to request the World Bank to consider modifying its investment project performance indicator targets for phase-out in 2002, the number of countries in its business plan, and the net emissions due to delays, as well as its non-investment project performance indicators for speed of completion and reductions in ODS consumption due to non-investment projects, taking into account the consideration by the Sub-Committee on Monitoring, Evaluation and Finance of the report on the performance indicators and proposal on modifications (UNEP/OzL.Pro/ExCom/35/16);

(d) also to request the World Bank to provide more information on its expedited agreement process in the context of its final business plan, indicating the steps taken to reach agreement and the estimated time from approval to agreement for activities in countries where the Bank's Montreal Protocol Unit had not yet established agreements, in the light of its planned activities in countries such as the Bahamas and Yemen, and in the Caribbean region;

(e) further to request the World Bank to include the non-investment activity for the development of a CTC closure project as part of its investment project allocation.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/7, para. 33).
(Supporting document: UNEP/OzL.Pro/ExCom/35/10).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to endorse the 2002 business plan of UNDP, as contained in UNEP/OzL.Pro/ExCom/36/10 and Corr.1, with the amendment in subparagraph (d) below while noting that endorsement did not denote approval of the

projects identified therein nor their funding levels;

(b) to request UNEP and UNDP to redouble their efforts for the implementation of RMPs in Bangladesh and Niger;

(c) in light of its recommendation on the consolidated 2002 business plan, also to request UNDP to provide an addendum to its 2002 business plan for submission to the 37th Meeting of the Executive Committee, as appropriate, including the actions it would take to expedite the implementation of approved projects and those critical to compliance;

(d) to approve the following performance indicators for UNDP, noting that UNDP had changed its target for phase-out from non-investment activities from 120 to 160 ODP tonnes

Investment project performance indicators

Items	2002 Targets
Weighted indicators	
Actual ODS phased out from completed projects (ODP tonnes)	5,000
Disbursement (US$)	$38,080,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plan (number of countries)	31
Pending decision on status as weighted or non-weighted performance indicator	
Timely submission of progress report	On time
Non-weighted indicators	
Number of investment projects to be completed in year of business plan	88
Net emissions(reductions) of ODP resulting from implementation delays(early completion) (ODP tonnes)	14,136
Value of Projects to be Approved in 2002(US$)*	$37,918,025
ODP from Projects to be Approved in 2002	4,304
Cost of Project Preparation	2.7%
Cost-effectiveness from Approvals (US$/ODP in kg)	$7.8
Speed of delivery (first disbursement)	13 months
Speed of delivery (completion)	33 months

*Including support costs but excluding 15% over-programming.

Non-investment performance indicators

Items	2002 Targets
Weighted indicators	
Number of Projects to be Completed	12
Funds Disbursed (US$)*	$3,544,975
Speed of delivery (first disbursement)	11 months
Speed of delivery (completion)	34 months
Pending decision on status as weighted or non-weighted performance indicator	
Timely submission of progress report	On time
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of non-investment activities (number)	3
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	160

*Including agency fees.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/9, para. 43 (a-d)).
(Supporting document: (UNEP/OzL.Pro/ExCom/36/36, Annex II).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to endorse the 2002 business plan of UNEP, as contained in document UNEP/OzL.Pro/ExCom/36/11, while noting that, with the exception of the administrative budget to implement the CAP approved at the 35th Meeting of the Executive Committee, the endorsement did not denote approval of the projects identified in

the business plan nor their funding levels;

(b) to approve the following performance indicators for UNEP;

(c) to authorize UNEP to include Eritrea in the list of countries with projects under its business plan, provided that Eritrea ratified the Montreal Protocol and sent a letter to UNEP requesting inclusion in its business plan.

Non-investment performance indicators

Items	2002 Targets
Weighted indicators	
Number of Projects to be Completed	60% of total projects approved
Funds Disbursed (US$)	73% of approved funding
Speed of delivery (first disbursement)	6 months
Speed of delivery (completion)	26 months
Pending decision on status as weighted or non-weighted performance indicator	
Timely submission of progress report	Timely submission
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of non-investment activities (number)	10 countries
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	44.8

UNEP specific non-investment performance indicators

Items	2002 Targets
Number of newsletters	Three
Number of joint/regional activities which Network members are involved	2 per region
Improvement over previous years in data reporting and enacting the legislation and policies for ODS phase-out in Networking and institutional strengthening countries	80 % of all Network member countries
The extent of awareness-raising activities initiated by the countries as a result of UNEP's publications	Qualitative, but can be expressed in the number of brochures, awareness raising products produced by countries
The extent to which experience achieved through UNEP's activities is used in the adoption and adjustment of ODS phase-out strategies by Network countries	Qualitative
The extent to which the networks are used by the Agencies and the Secretariat in developing their work or explaining new policies	Qualitative

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/10, para. 44).
(Supporting document: (UNEP/OzL.Pro/ExCom/36/36, Annex III).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to endorse the 2002 business plan of UNIDO, as contained in UNEP/OzL.Pro/ExCom/36/12 and Corr.1, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) in light of its recommendation on the consolidated 2002 business plan, to request UNIDO to provide an addendum to its 2002 business plan for submission to the 37th Meeting of the Executive Committee, as appropriate, including the actions it would take to expedite the implementation of approved projects and those critical to compliance;

(c) to approve the following performance indicators for UNIDO.

Investment project performance indicators

Items	2002 Targets
Weighted indicators	

Actual ODS phased out from completed projects (ODP tonnes)	2,836
Disbursement (US$)	$22,000,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plan (number of countries)	26
Pending decision on status as weighted or non-weighted performance indicator	
Timely submission of progress report	Deadline set by ExCom
Non-weighted indicators	
Number of investment projects to be completed in year of business plan	35
Net emissions(reductions) of ODP resulting from implementation delays(early completion) (ODP tonnes)	14,100
Value of Projects to be Approved in 2002 (US$)*	$30,643,000
ODP from Projects to be Approved in 2002	2,917
Cost of Project Preparation	2.8%
Cost-effectiveness from Approvals (US$/ODP in kg)	a) $8.68 excl. MB b) $9.38 incl. MB
Speed of delivery (first disbursement)	10 months
Speed of delivery (completion)	36 months

* Including support costs but excluding 15% over-programming.

Non-investment performance indicators

Items	2002 Targets
Weighted indicators	
Number of Projects to be Completed	11
Funds Disbursed (US$)*	$867,000
Speed of delivery (first disbursement)	10 months
Speed of delivery (completion)	24 months
Pending decision on status as weighted or non-weighted performance indicator	
Timely submission of progress report	Deadline set by ExCom
Non-weighted indicators	
Appropriate & timely policies initiated by countries as a result of non-investment activities (number)	At least one country
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	69.1

*Including agency fees

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/11, para. 45).
(Supporting document: (UNEP/OzL.Pro/ExCom/36/36, Annex IV).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) to endorse the 2002 business plan of the World Bank, as contained in UNEP/OzL.Pro/ExCom/36/13 and Corr.1, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to approve the following performance indicators for the World Bank, noting that the indicator for net emissions due to delays has been modified to 17,400 tonnes;

(c) in light of its recommendation on the consolidated 2002 business plan, to request the World Bank to provide an addendum to its 2002 business plan for submission to the 37th Meeting of the Executive Committee, as appropriate.

Investment project performance indicators

Items	2002 Targets
Weighted indicators	
Actual ODS phased out from completed projects (ODP tonnes)	8,100
Disbursement (US$)	$46,200,000
Satisfactory project completion reports received (percentage)	100%

Distribution of projects among countries in business plan (number of countries)	14
Pending decision on status as weighted or non-weighted performance indicator	
Timely submission of progress report	1 May 2002 or eight weeks before the subsequent ExCom
Non-weighted indicators	
Number of investment projects to be completed in year of business plan	48
Net emissions(reductions) of ODP resulting from implementation delays(early completion) (ODP tonnes)	17,400
Value of Projects to be Approved in 2002(US$)*	$56,990,000
ODP from Projects to be Approved in 2002	13,876
Cost of Project Preparation	2.54%
Cost-effectiveness from Approvals (US$/ODP in kg)	$3.81
Speed of delivery (first disbursement)	26 months
Speed of delivery (completion)	39 months

* Including support costs but excluding over-programming.

Non-investment performance indicators

Items	2002 Targets
Weighted indicators	
Number of Projects to be Completed	9
Funds Disbursed (US$)*	$1,450,000
Speed of delivery (first disbursement)	19 months
Speed of delivery (completion)	35 months
Pending decision on status as weighted or non-weighted performance indicator	
Timely submission of progress report	1 May 2002 or eight weeks before the subsequent ExCom
Non-weighted indicators	
Appropriate & timely policies initiated by countries as a result of non-investment activities (number)	Specific policies identified for 1 country
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	350 ODP tonnes from four on-going recovery and recycling projects

*Including agency fees
(UNEP/OzL.Pro/ExCom/36/36, Decision 36/12, para. 46).
(Supporting document: UNEP/OzL.Pro/ExCom/36/36, Annex V).

Addenda to 2002 business plans of UNDP, UNIDO and the World Bank

The Thirty-seventh Meeting of the Executive Committee decided:

(a) to endorse the Addendum to UNDP's 2002 Business Plan as contained in UNEP/OzL.Pro/ExCom/37/19 while noting that endorsement did not denote approval of the project identified therein nor its funding level;

(b) to endorse the Addendum to UNIDO's 2002 Business Plan as contained in UNEP/OzL.Pro/ExCom/37/20 while noting that endorsement did not denote approval of the activities identified therein nor their funding levels;

(c) to endorse the Addendum to the World Bank's 2002 Business Plan as contained in UNEP/OzL.Pro/ExCom/37/21 while noting that endorsement did not denote approval of the activities identified therein nor their funding levels;

(d) to note that weighted and un-weighted performance indicators would be revised, as appropriate.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/17, para. 43).
(Supporting documents: UNEP/OzL.Pro/ExCom/37/19, UNEP/OzL.Pro/ExCom/37/20, UNEP/OzL.Pro/ExCom/37/21).

Business plans for the year 2003 of UNDP, UNEP, UNIDO and the World Bank

The Thirty-eighth Meeting of the Executive Committee decided to request Implementing Agencies to submit their 2003 business plans to the 39th Meeting of the Executive Committee.
(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/67, para. 112).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to note that MDI strategies in India and Nicaragua and the methyl bromide activity in Zimbabwe would be re-phased to the 2004 or 2005 business plan pending a decision of the Executive Committee on funding for projects to maintain momentum or accelerate phase-out;

(b) to endorse the 2003 business plan of UNDP contained in UNEP/OzL.Pro/ExCom/39/10 and Corr.1, as modified above, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(c) to approve a target of 223 investment projects to be completed in 2003 and a target for cost-effectiveness from approvals in 2003 of US $6.57/kg;

(d) also to approve the performance indicators for UNDP set out in Tables 1 and 2 of the Fund Secretariat's comments contained in UNEP/OzL.Pro/ExCom/39/10 and Corr.1, while setting a phase-out target of 5,684 ODP tonnes for 2003 for the investment project performance indicator (tables below):

Investment project performance indicators

Items	Year 2003 Targets
Weighted indicators	
Actual ODS phased out from completed projects (ODP tonnes)	5,684
Disbursement (US$)	38,000,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plan (number of countries)	50
Timely submission of progress report	On time
Non-weighted indicators	
Number of investment projects to be completed in year of business plan	223
Net emissions (reductions) of ODP resulting from implementation delays (early completion) (ODP tonnes)	14,000
Value of projects to be approved in 2003 (US$)	51,580,000
ODP from projects to be approved in 2003 (ODP tonnes)	8,796
Cost of project preparation	2.4%
Cost-effectiveness from approvals (US$/ODP kg)	6.57
Speed of delivery (first disbursement)	12 months
Speed of delivery (completion)	30 months

Non-investment performance indicators

Items	Year 2003 Targets
Weighted indicators	
Number of projects to be completed	10
Funds disbursed (US$)	2,000,000
Speed of delivery (first disbursement)	12 months
Speed of delivery (completion)	30 months
Timely submission of progress report	On time
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of non-investment activities (number)	3
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)*	150

* Corresponds to institutional strengthening projects (non-INV).
(UNEP/OzL.Pro/ExCom/39/43, Decision 39/7, para. 39).
(Supporting document: UNEP/OzL.Pro/ExCom/39/43, Annex II).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to note that UNEP agreed to withdraw the following activities from its business plan:

  (i) technical assistance component to promote local trichoderma production as a methyl bromide alternative in Kenya;

  (ii) regional workshop on technology transfer for local assembly of mobile recovery and recycling equipment adapted to local needs, proposed and to be hosted by Uruguay;

  (iii) regional workshop on CTC alternatives, proposed and to be hosted by Uruguay;

(b) also to note that UNEP agreed to re-phase the following activity in line with its 2004 business plan: Capacity-building to enable building owners/managers to take informed decisions concerning the replacement of chillers in Uruguay, pending a decision of the Meeting of the Parties on chillers;

(c) to endorse the 2003 business plan of UNEP contained in UNEP/OzL.Pro/ExCom/39/11 and Corr.1, as modified above, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels with the modifications noted for the following activities:

  (i) customs and policy training implementation in India, provided it was not presented as a stand-alone project but rather as a project in coordination with other bilateral and Implementing Agencies working in the sector;

  (ii) training and awareness component of refrigeration air conditioning (RAC) servicing sector strategy implementation in India, provided it was not presented as a stand-alone project but rather as a project in coordination with other bilateral and Implementing Agencies working in the sector;

  (iii) implementation of the non-investment component of the national compliance assistance programme (NCAP) in the Islamic Republic of Iran, pending presentation of the country's terminal phase-out plan; and

  (iv) implementation of the non-investment component of the NCAP in Sri Lanka would be re-phased to the 2004 or 2005 business plan pending a decision of the Executive Committee on funding for projects to maintain momentum or accelerate phase-out;

(a) to approve the performance indicators for UNEP set out in Table 1 of the Secretariat's comments contained in UNEP/OzL.Pro/ExCom/39/11 and Corr.1 and set a phase-out target for non-investment projects of 17 ODP tonnes (Annex III to the present report);

(e) also to approve the performance indicators unique to UNEP set out in Table 2 of the Secretariat's comments contained in UNEP/OzL.Pro/ExCom/39/11 and Corr.1 (tables below).

Non-investment performance indicators

Items	Year 2003 Targets
Weighted indicators	
Number of projects to be completed	60% of total projects approved
Funds disbursed (US$)	73% of approved funding
Speed of delivery (first disbursement)	6 months
Speed of delivery (completion)	26 months
Timely submission of progress report	Timely submission
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of non-investment activities (number)	17 countries to establish or modify policies during 2003
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	17

UNEP specific non-investment performance indicators

Items	2003 Targets
Number of newsletters	3
Number of joint/regional activities which Network members are involved	2 per region
Improvement over previous years in data reporting and enacting the legislation and policies for ODS phase-out in networking and institutional	80% of all network countries

strengthening countries	
The extent of awareness-raising activities initiated by the countries as a result of UNEP's publications	Qualitative, but can be expressed in the number of brochures, awareness raising products produced by countries
The extent to which experience achieved through UNEP's activities is used in the adoption and adjustment of ODS phase-out strategies by network countries	Qualitative
The extent to which the networks are used by the Implementing Agencies and the Secretariat in developing their work or explaining new policies	Qualitative

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/8, para. 40).
(Supporting document: UNEP/OzL.Pro/ExCom/39/43, Annex III).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to endorse the 2003 business plan of UNIDO contained in UNEP/OzL.Pro/ExCom/39/12, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(b) to request UNIDO to adopt the target of 7,000 ODP tonnes for the performance indicator net emissions due to implementation delays at the 39th Meeting;

(c) to approve the performance indicators for UNIDO set out in Tables 1 and 2 of the Fund Secretariat's comments contained in UNEP/OzL.Pro/ExCom/39/12, while setting a phase-out target for investment projects of 6,907 ODP tonnes for 2003 and a phase-out target for non-investment projects of 146 ODP tonnes (tables below).

Investment project performance indicators

Items	Year 2003 Targets
Weighted indicators	
Actual ODS phased out from completed projects (ODP tonnes)	6,907
Disbursement (US$)	25,000,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plan (number of countries)	20
Timely submission of progress report	Submission on time
Non-weighted indicators	
Number of investment projects to be completed in year of business plan	60
Net emissions (reductions) of ODP resulting from implementation delays (early completion) (ODP tonnes)	7,000
Value of projects to be approved in 2003 (US$)*	40,000,000
ODP from projects to be approved in 2003 (ODP tonnes)	6,500 ODP tonnes incl. forward commitments
Cost of project preparation	2.7%
Cost-effectiveness from approvals (US$/ODP kg)	7.00
Speed of delivery (first disbursement)	9.5 months
Speed of delivery (completion)	34 months

* Excluding support costs

Non-investment performance indicators

Items	Year 2003 Targets
Weighted indicators	
Number of projects to be completed	11
Funds disbursed (US$)	358,000
Speed of delivery (first disbursement)	10 months
Speed of delivery (completion)	32 months
Timely submission of progress report	Submission on time
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of non-investment activities (number)	At least in one country

Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	146

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/9, para. 41).
(Supporting document: UNEP/OzL.Pro/ExCom/39/43, Annex IV).

The Thirty-ninth Meeting of the Executive Committee decided:

(a) to note that MDI activities in Argentina and CFC activities in Indonesia and Tunisia would be re-phased to the 2004 or 2005 business plan pending a decision of the Executive Committee on funding for projects to maintain momentum or accelerate phase-out;

(b) also to note that the CTC consumption and production project in India would be submitted to the 40th Meeting of the Executive Committee, at which time the level of funding indicated in the business plan could be adjusted;

(c) to endorse the 2003 business plan of the World Bank contained in UNEP/OzL.Pro/ExCom/39/13 and Corr.1, as modified above, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels;

(d) to approve the performance indicators for the World Bank set out in Tables 1 and 2 of the Fund Secretariat's comments contained in UNEP/OzL.Pro/ExCom/39/13 and Corr.1, while setting a phase-out target of 20,747 ODP tonnes for 2003 for the investment project performance indicator, on the understanding that the appropriate level would depend on CTC phase-out approved for India (Annex V to the present report);

(e) also to approve a target of 40 investment projects to be completed in 2003.

Investment project performance indicators

Items	Year 2003 Targets
Weighted indicators	
Actual ODS phased out from completed projects (ODP tonnes)	20,747*
Disbursement (US$)	58,000,000
Satisfactory project completion reports received (percentage)	100%
Distribution of projects among countries in business plan (number of countries)	17
Timely submission of progress report	Submission on time
Non-weighted indicators	
Number of investment projects to be completed in year of business plan	40
Net emissions(reductions) of ODP resulting from implementation delays(early completion) (ODP tonnes)	27,850
Value of projects to be approved in 2003 (US$)**	93,600,000
ODP from projects to be approved in 2003	17,427
Cost of project preparation	0.6%
Cost-effectiveness from approvals (US$/ODP kg)	5.06
Speed of delivery (first disbursement)	26 months
Speed of delivery (completion)	41 months

*With the understanding that the appropriate level would depend on CTC phase-out to be approved for India.
** Including support costs

Non-investment performance indicators

Items	Year 2003 Targets
Weighted indicators	
Number of projects to be completed	8
Funds disbursed (US$)*	1,270,000
Speed of delivery (first disbursement)	20 months
Speed of delivery (completion)	33 months
Timely submission of progress report	Submission on time
Non-weighted indicators	
Appropriate and timely policies initiated by countries as a result of non-investment activities (number)	Specific policies identified for 1 country
Reduction in ODS consumption over and above that effected by investment projects (ODP tonnes)	370 ODP tonnes from the on-going recovery and

	recycling projects

* Including agency fees

(UNEP/OzL.Pro/ExCom/39/43, Decision 39/10, para. 42).
(Supporting document: UNEP/OzL.Pro/ExCom/39/43, Annex V).

The Forty-first Meeting of the Executive Committee decided that activities included in the 2003 business plan but not submitted and subsequently included in the draft 2004 business plan could be considered for funding at the 42nd Meeting if the projects were required to assist countries to meet 2005 compliance obligations.
(UNEP/OzL.Pro/ExCom/41/87, Decision 41/14, para. 47).

Business plans for the years 2004-2006 of UNDP, UNEP, UNIDO and the World Bank

The Forty-second Meeting of the Executive Committee decided:

(a) to endorse the 2004-2006 business plan of UNDP, as contained in documents UNEP/OzL.Pro/ExCom/42/8 and Corr.1 and as orally amended to include a possible project for Cuba, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels; and

(b) to approve the following performance indicators for UNDP:

Category	Item	Weighting	2004 target
Approval	Number of annual programmes of multi-year agreements approved vs. those planned	20	21
Approval	Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	20	32
Implementation	Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned	20	12
Implementation	ODS phased-out for individual projects vs. those planned per progress reports	5	4,919 ODP tonnes
Implementation	Project completion (pursuant to Decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	5	113
Implementation	Percentage of policy/regulatory assistance completed vs. that planned	10	N/a
Administrative	Speed of financial completion vs. that required per progress report completion dates	10	217
Administrative	Timely submission of project completion reports vs. those agreed	5	Yes
Administrative	Timely submission of progress reports and responses unless otherwise agreed	5	On 1 May 2004

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/8, para. 50).
(Supporting document: UNEP/OzL.Pro/ExCom42/54, Annex II).

The Forty-second Meeting of the Executive Committee decided:

(a) to endorse the 2004-2006 business plan of UNEP as contained in document UNEP/OzL.Pro/ExCom/42/9 and as orally amended to include the projects already submitted for Bangladesh and a non-governmental organization methyl bromide project, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels; and

(b) to approve the following performance indicators for UNEP:

Category	Item	Weighting	2004 target
Approval	Number of annual programmes of multi-year agreements approved vs. those planned, may not be applicable to UNEP	20	Not applicable to UNEP
Approval	Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	20	28 countries (i.e. 100%). UNEP believes that a realistic achievement is 17 countries (i.e. 60%).
Implementation	Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned, may not be applicable to UNEP	20	Not applicable to UNEP
Implementation	ODS phased-out for individual projects vs. those planned per	5	21.2 ODP tonnes from the

Category	Item	Weighting	2004 target
	progress reports, may not be applicable to UNEP		IS project for Algeria (i.e. 100%)
Implementation	Project completion (pursuant to Decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	5	38 projects (i.e. 100%)
Implementation	Percentage of policy/regulatory assistance completed vs. that planned	10	11 projects (i.e. 100%). UNEP believes that a realistic achievement is 9 projects (i.e. 80%)
Administrative	Speed of financial completion vs. that required per progress report completion dates	10	100%
Administrative	Timely submission of project completion reports vs. those agreed	5	Timely submission
Administrative	Timely submission of progress reports and responses unless otherwise agreed	5	Timely submission

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/9, para. 52).
(Supporting document: UNEP/OzL.Pro/ExCom42/54, Annex III).

The Forty-second Meeting of the Executive Committee decided:

(a) to endorse the 2004-2006 business plan of UNIDO, as contained in documents UNEP/OzL.Pro/ExCom/42/10 and Corrs.1 and 2 and as orally amended, to bring forward the Serbia and Montenegro project from 2005, modify the phase-out in the MDI and RMP projects in China and remove the methyl bromide project in Viet Nam, taking into account the clarification provided by the representative of UNIDO, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels; and

(b) to approve the following performance indicators for UNIDO:

Category	Item	Weighting	2004 target
Approval	Number of annual programmes of multi-year agreements approved vs. those planned, may not be applicable to UNEP	20	16 approved + 14 new ones
Approval	Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	20	7
Implementation	Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned	20	16
Implementation	ODS phased-out for individual projects vs. those planned per progress reports	5	5,666 ODP tonnes
Implementation	Project completion (pursuant to Decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	5	70
Implementation	Policy/regulatory assistance completed vs. that planned	10	4
Administrative	Speed of financial completion vs. that required per progress report completion dates	10	12 months
Administrative	Timely submission of project completion reports vs. those agreed	5	On time
Administrative	Timely submission of progress reports and responses unless otherwise agreed	5	On time

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/10, para. 54).
(Supporting document: UNEP/OzL.Pro/ExCom42/54, Annex IV).

The Forty-second Meeting of the Executive Committee decided:

(a) to endorse the 2004–2006 business plan of the World Bank, as contained in documents UNEP/OzL.Pro/ExCom/42/11 and Corrs. 1 and 2, with the withdrawal of planned chiller projects in Argentina and Mexico, whose implementation by the World Bank would be subsumed into those countries' national implementation plans, as well as the withdrawal of the accelerated CTC production phase-out project in China, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels; and

(b) to approve the following performance indicators for the World Bank:

Category	Item	Weighting	2004 target
Approval	Number of annual programmes of multi-year agreements approved vs. those planned, may not be applicable to UNEP	20	13/13(*)
Approval	Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	20	10/10
Implementation	Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned, may not be applicable to UNEP	20	15/15
Implementation	ODS phased-out for individual projects vs. those planned per progress reports, may not be applicable to UNEP	5	8,076 ODP tonnes
Implementation	Project completion (pursuant to Decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	5	72
Implementation	Percentage of policy/regulatory assistance completed vs. that planned	10	N/A
Administrative	Speed of financial completion vs. that required per progress report completion dates	10	3 months
Administrative	Timely submission of project completion reports vs. those agreed	5	100%
Administrative	Timely submission of progress reports/responses unless otherwise agreed	5	100%

(UNEP/OzL.Pro/ExCom/42/54, Decision 42/11, para. 56).
(Supporting document: UNEP/OzL.Pro/ExCom42/54, Annex V).

The Forty-third Meeting of the Executive Committee decided:

(a) to note the report on the status of the 2004 business plans as contained in documents UNEP/OzL.Pro/ExCom/43/5 and Add.1, and the fact that US $94 million remained to be submitted for 22 new multi-year agreements and 176 other projects contained in the 2004 business plans;

(b) to urge bilateral and Implementing Agencies with projects in the 2004 business plans for countries at risk of non-compliance to submit those projects to the 44th Meeting as a matter of urgency, and to consider the projects identified in Table 3 of UNEP/OzL.Pro/ExCom/43/5 as priority projects; and

(c) to request the Secretariat:

(i) to send a letter, in conjunction with the Implementing Agencies responsible for institutional strengthening and the Ozone Secretariat, to countries at risk of non-compliance urging them to put forward projects through the implementing and bilateral agencies as soon as possible;

(ii) to prepare a document, to be submitted to the 44th Meeting of the Executive Committee, on a potential procedure for intersessional approval of projects for countries at risk of non-compliance, when such projects were in the business plan for a given year and there was no disagreement between the Secretariat and the Implementing Agency; and

(iii) to include in the document to be submitted to the 44th Meeting of the Executive Committee an examination of the reasons for the non submission of projects for countries at risk of non compliance.

(UNEP/OzL.Pro/ExCom/43/61, Decision 43/3, para. 33).

Business plans for the years 2005-2007 of UNDP, UNEP, UNIDO and the World Bank

The Forty-fifth Meeting of the Executive Committee decided:

(a) to endorse the 2005-2007 business plan of UNDP, as contained in document UNEP/OzL.Pro/ExCom/45/7, and subsequently amended, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels, with the following modifications:

(i) to maintain HCFC surveys, on the understanding that their goal was to enable the Executive Committee to establish an eligible national aggregate level of HCFC consumption in the future against which proposals would be funded;

(ii) to remove the chiller projects and activities from the 2005-2007 business plan and to invite demonstration projects and project preparation for chiller projects to be presented at the 47th Meeting of the Executive Committee within the funding window for a global chiller programme, based on the criteria to be agreed at the 46th Meeting of the Executive Committee;

(iii) to defer consideration of ODS destruction projects to the 46th Meeting of the Executive Committee;

(iv) to remove CTC and TCA activities in the Democratic Republic of Congo;

(v) to add the country programme and refrigerant management plan (RMP) activities in Eritrea; and

(b) to approve the following performance indicators for UNDP:

Item	2005 target
Number of annual programmes of multi-year agreements approved vs. those planned	15 (2 new)
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	49 (INS-9, INV-8, DEM-1, RMP-12 TAS-19)
Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned	15
ODS phased-out for individual projects vs. those planned per progress reports	3,302 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	41 (INV-18, INS-8, TAS-13 and TRA-2)
Percentage of policy/regulatory assistance completed vs. that planned	N/a
Speed of financial completion vs. that required per progress report completion dates	On-time
Timely submission of project completion reports vs. those agreed	On-time
Timely submission of progress reports and responses unless otherwise agreed	On-time

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/6, para. 47).
(Supporting document: UNEP/OzL.Pro/ExCom45/55, Annex II).

The Forty-fifth Meeting of the Executive Committee decided:

(a) to endorse the 2005-2007 business plan of UNEP as contained in document UNEP/OzL.Pro/ExCom/ExCom/45/8, and subsequently amended, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels, with the following modifications:

(i) to remove the chiller projects and activities from the 2005-2007 business plan and to invite demonstration projects and project preparation for chiller projects to be presented at the 47th Meeting of the Executive Committee within the funding window for a global chiller programme, based on the criteria to be agreed at the 46th Meeting of the Executive Committee;

(ii) to request UNEP to cooperate with bilateral agencies and with other Implementing Agencies to resolve any potential or actual overlaps in Afghanistan and Côte d'Ivoire;

(iii) to add the country programme and refrigerant management plan (RMP) activities in Eritrea;

(iv) to remove the activities for the preparation of a journalists' kit from UNEP's 2005 2007 business plan and to request UNEP to resubmit the proposal as part of the Compliance Assistance Programme (CAP).

(b) to approve the following performance indicators for UNEP; and

(c) to request UNEP to provide a detailed progress report that elaborated and differentiated past activities and funds disbursed in categories such as the Compliance Assistance Programme (CAP), the global awareness programme and region-specific activities so as to clarify that there was no overlap in the context of future plans for discussion at the 46th Meeting.

Item	2005 Target
Number of annual programmes of multi-year agreements approved vs. those planned	3
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	21 of the 38 projects included (RMP-15 & TAS-13)
Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned	3
ODS phased-out for individual projects vs. those planned per progress reports	32.9 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	25 of the 34 projects included (TAS-16 & TRA-18)
Percentage of policy/regulatory assistance completed vs. that planned	65 countries 100% of countries listed in its Annex I
Speed of financial completion vs. that required per progress report completion dates	On time
Timely submission of project completion reports vs. those agreed	On time

Item	2005 Target
Timely submission of progress reports and responses unless otherwise agreed	On time

Item	Proposed for 2005
Usefulness of the region network/thematic meetings	Overall average of 3 on a 5-point scale.
Assistance to countries for data reporting	All countries will have reported baselines
Assistance with Article 7 data reporting (Indicator was previously called: Improvement over previous years in data reporting and enacting the legislation and policies for ODS phase-out in Networking and institutional strengthening countries)	100% of all countries will have reported Article 7 data UNEP believes that it can achieve 90%
Countries in actual or potential non-compliance as per MOP decisions	21 countries in non-compliance as per MOP XVI that will be offered CAP assistance will return to compliance. UNEP believes that a realistic achievement is 16 countries (i.e. 75%)
Countries at risk of becoming in non-compliance as per Articled 7 trends	All countries identified as at risk of non-compliance and that will be offered CAP assistance to be provided specific services by CAP (outside of network meetings). UNEP believes that a realistic achievement is 80%.
Information clearinghouse	The following will be based on figures in 2004 Progress Report: 5% increase in subscriptions compared to 2004. 10% increase in visitors compared to 2004. 10% increase in downloads compared to 2004. 5% increase documents disseminated compared to 2004. 10% increase in queries compared to 2004; 10 working days of receipt of query.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/7, para. 53).
(Supporting document: UNEP/OzL.Pro/ExCom45/55, Annex III).

The Forty-fifth Meeting of the Executive Committee decided:

(a) to endorse the 2005-2007 business plan of UNIDO, as contained in documents UNEP/OzL.Pro/ExCom/45/9 and Corr.1, and subsequently amended, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels, with the following modification:

  (i) to remove the chiller projects and activities from the 2005-2007 business plan and to invite demonstration projects and project preparation for chiller projects to be presented at the 47th Meeting of the Executive Committee within the funding window for a global chiller programme, based on the criteria to be agreed at the 46th Meeting of the Executive Committee; and

(b) to approve the following performance indicators for UNIDO, while setting a target of 32 for the number of annual programmes approved and a phase-out target for individual projects of 1,896.4 ODP tonnes for 2005.

Item	2005 Target
Number of annual programmes of multi-year agreements approved vs. those planned	32
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	30
Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned	16
ODS phased-out for individual projects vs. those planned per progress reports	1,896.4 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	35
Percentage of policy/regulatory assistance completed vs. that planned	4
Speed of financial completion vs. that required per progress report completion dates	12 months
Timely submission of project completion reports vs. those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/8, para. 56).
(Supporting document: UNEP/OzL.Pro/ExCom45/55, Annex IV).

The Forty-fifth Meeting of the Executive Committee decided:

(a) to endorse the 2005-2007 business plan of the World Bank, as contained in document UNEP/OzL.Pro/ExCom/45/10, and subsequently amended, while noting that endorsement did not denote approval of the projects identified therein nor their funding levels, with the following modification:

(i) to remove the chiller projects and activities from the 2005-2007 business plan and to invite demonstration projects and project preparation for chiller projects to be presented at the 47th Meeting of the Executive Committee within the funding window for a global chiller programme, based on the criteria to be agreed at the 46th Meeting of the Executive Committee; and

(b) to approve the following performance indicators for the World Bank, while setting a target of 20 for the number of annual programmes approved, a target of 11 for the number of projects approved, and a target of 6,744 ODP tonnes for the phase-out of individual projects.

Item	2005 Target
Number of annual programmes of multi-year agreements approved vs. those planned	20 approved
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	11
Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned	19
ODS phased-out for individual projects vs. those planned per progress reports	6,744 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	55 INV and Non-Inv
Percentage of policy/regulatory assistance completed vs. that planned	N/a
Speed of financial completion vs. that required per progress report completion dates	Achieve 11 months from required date
Timely submission of project completion reports vs. those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/9, para. 59).
(Supporting document: UNEP/OzL.Pro/ExCom45/55, Annex V).

The Forty-seventh Meeting of the Executive Committee decided:

(a) to note:

(i) the report on the status of the 2005 business plans as contained in documents UNEP/OzL.Pro/ExCom/47/5/Rev.1 and Corr.1;

(ii) the fact that US $4,919,000 in activities required for compliance were not included in the Supplement to the May 2005 Replenishment Report;

(iii) that the value of forward commitments approved at the 47th Meeting exceeds the value in the 2005-2007 business plan of the Multilateral Fund by US $9,850,919; and

(b) to request bilateral and multilateral implementing agencies with projects in the 2005 business plans required for compliance to consider including those activities in their 2006-2008 business plans and to endeavour to improve their performance with regard to the accuracy of planned submissions and their values.

(UNEP/OzL.Pro/ExCom/47/61, Decision 47/3, para. 26).
(Supporting document: UNEP/OzL.Pro/ExCom47/5/Rev.1 and Corr.1).

Business plans for the years 2006-2008 of UNDP, UNEP, UNIDO and the World Bank

The Forty-eighth Meeting of the Executive Committee decided:

(a) to endorse the 2006-2008 business plan of UNDP, as contained in document UNEP/OzL.Pro/ExCom/48/8, as amended below, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels;

(b) to remove:

(i) the MDI project preparation in Colombia submitted for 2006;

(ii) the global methyl bromide information exchange project to be submitted in 2007, on the understanding that it might be resubmitted in a future amendment to UNDP's work programme following in-depth coordination between UNDP, UNEP and UNIDO;

(iii) ODS destruction projects;

(iv) HCFC investment projects;

(v) the terminal phase-out management plan for Guinea;

(c) to approve the performance indicators for UNDP, as contained in Annex II to the present report, while setting a target of 27 for the number of annual programmes approved, a target of seven for the number of individual projects approved, and a target of 15 for the activities completed for multi-year agreements; and

(d) to request UNDP to work in coordination with the Secretariat to provide a target for policy and regulatory assistance to countries requesting it to reflect the efforts it planned to undertake in that regard within its approved projects and/or multi year agreements as appropriate.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/6, para. 51).
(Supporting document: UNEP/OzL.Pro/ExCom/48/8).

The Forty-eighth Meeting of the Executive Committee decided:

(a) to endorse the 2006-2008 business plan of UNEP, as contained in document UNEP/OzL.Pro/ExCom/48/9 and Corr.1, as amended below, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels;

(b) to remove:

(i) the round-table workshop on methyl bromide in light of funding for methyl bromide already provided through the CAP on the understanding that the project might be resubmitted in a future amendment to UNEP's work programme following in-depth coordination between UNEP, UNDP and UNIDO;

(ii) the farmer field schools in Africa on the understanding that they might be resubmitted in a future amendment to UNEP's work programme following in-depth coordination between UNEP, UNDP and UNIDO;

(iii) the proposed additional activities in the strategy for countries with zero baselines;

(iv) the MDI regional awareness programmes;

(v) the support for the long-term management of halon banks;

(c) to withdraw the HCFC activities from the 2006-2008 business plans for UNEP with the understanding that those activities would be considered at the first meeting of the Executive Committee in 2008 provided that:

(i) the compliance priorities of Article 5 countries for the triennium had been addressed and there were enough funds remaining from the prioritized activities;

(ii) the proposed HCFC surveys were in accordance with Executive Committee guidance based on lessons learned from the approved UNDP surveys and Germany's study in China; and

(iii) when considering the allocation of the funds remaining for HCFC activities, the Executive Committee would take into account the level of funding approved by decision XVII/40 of the Seventeenth Meeting of the Parties;

(d) to request UNEP to implement decision 33/3, paragraph (b)(i), and to provide logical framework analyses with measurable results in advance of, and as an input to, the preparation of its annual business plans;

(e) to replace the performance indicators agreed in decision 41/93 for the CAP with the following indicators, data, methods of assessment and 2006 targets:

Performance indicator	**Data**	**Assessment**	**2006 target**
Efficient follow-up to regional network/thematic meetings	● List of recommendations emanating from 2006 regional network/thematic meetings. ● Agendas of network/thematic meetings and meeting evaluation questionnaires	● Implementation rate of those meeting recommendations that are to be implemented in 2006. ● Relevance of topics and their presentation at network/thematic meetings as evaluated by participants	● 100% implementation ● High score of relevance and presentation
Effective support to National Ozone Units (NOUs) in their work, particularly guidance to new NOUs, including support to the development and	● List of innovative ways/means/products/services for supporting NOUs in their work, with specification of those destined for new NOUs.	● Number of innovative ways/means/products/services for supporting NOUs in their work, with specification of those destined for new NOUs.	● 10 such ways/means/products/ services. ● Qualitative description of the progress made in the

Performance indicator	Data	Assessment	2006 target
introduction of import/export licensing systems covering all controlled substances, including management and enforcement	● List of import/export licensing systems in Article 5 countries	● Overview of the status of import/export licensing systems in Article 5 countries	development and enforcement of import/export licensing systems covering all controlled substances, including management and enforcement
Assistance to countries in actual or potential non-compliance (according to decisions of the Meeting of the Parties and/or as per reported Article 7 data and trends analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside network meetings and results of this assistance (e.g. return to compliance, country prepared action plan, action plan approved by the Meeting of the Parties, Article 7 data reported on time)	All such countries received assistance leading to evident results
Innovation in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	10 such products and services
Close cooperation between CAP regional teams and bilateral and multilateral implementing agencies working in the region	List of joint missions/undertakings of CAP regional staff with implementing agencies and bilateral agencies	Number of joint missions/undertakings and achieved results (e.g. agreements reached, problems solved, assistance provided)	5 joint missions/undertakings with substantive outcomes in each region

(f) to approve the performance indicators for UNEP, as contained in Annex III to the present report, while setting a target of 20 for the number of annual programmes of multi-year agreements to be approved and a target of 16 for the number of individual projects to be approved.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/7, para. 57).
(Supporting document: UNEP/OzL.Pro/ExCom/48/9 and Corr.1).

The Forty-eighth Meeting of the Executive Committee decided:

(a) to endorse the 2006-2008 business plan of UNIDO, as contained in documents UNEP/OzL.Pro/ExCom/48/10 and Corr.1, as amended below, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels:

(i) to maintain projects for countries that had received support for achieving the 2005 methyl bromide control measures during the 2006-2008 triennium in the light of commitments to advance a country's methyl bromide phase-out significantly before the year 2015;

(ii) to remove project preparation leading to a compressor project in Iran that had received support for a CFC phase-out agreement;

(iii) to add a terminal phase out management plan for Guinea to the 2007 business plan of UNIDO;

(iv) to remove ODS destruction activities;

(v) to withdraw the HCFC activities with the understanding that those activities would be considered at the first meeting of the Executive Committee in 2008, provided that:

a. compliance priorities of Article 5 countries for the triennium had been addressed and there were enough funds remaining from the prioritized activities;

b. the proposed HCFC surveys were in accordance with Executive Committee guidance, based on lessons learned from the approved UNDP surveys and Germany's bilateral study in China;

c. when considering the allocation of the funds remaining for HCFC activities, the Executive Committee would take into account the level of funding approved by decision XVII/40 of the Seventeenth Meeting of the Parties;

(b) to approve the performance indicators for UNIDO, as contained in Annex IV to the present report, while

setting a target of 29 for the number of annual programmes approved and a phase-out target for individual projects of 1,119.4 ODP tonnes for 2006; and

(c) to request UNIDO to work in coordination with the Secretariat to provide a target for policy and regulatory assistance to countries requesting it to reflect the efforts it planned to undertake in that regard within its approved projects and/or multi year agreements as appropriate.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/8, para. 66).
(Supporting document: UNEP/OzL.Pro/ExCom/48/10 and Corr.1).

The Forty-eighth Meeting of the Executive Committee decided:

(a) to endorse the 2006-2008 business plan of the World Bank, as contained in document UNEP/OzL.Pro/ExCom/48/11 and Corr.1, as amended below, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels:

  (i) to maintain the methyl bromide project in Ecuador, conditional on a commitment by the Government of Ecuador to accelerate its methyl bromide phase-out;

  (ii) to move the study on phase-out of CTC in the chlor-alkali sector from the 2007 business plan to the 2006 business plan;

(b) to note the decision of the Government of Ecuador to include a methyl chloroform (TCA) phase-out project in the World Bank's 2007 business plan instead of the business plan for 2006;

(c) to approve the submission of the pharmaceuticals project in China at the last meeting in 2006, should any funds become available;

(d) to approve the performance indicators for the World Bank, as contained in Annex V to the present report, while setting a target of 23 for the number of annual programmes approved and a target of 20 for the number of milestone activities to be completed; and

(e) to request the World Bank to work in coordination with the Secretariat to provide a target for policy and regulatory assistance to countries requesting it to reflect the efforts it planned to undertake in that regard within its approved projects and/or multi-year agreements as appropriate.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/9, para. 69).
(Supporting document: UNEP/OzL.Pro/ExCom/48/11 and Corr.1).

The Forty-ninth Meeting of the Executive Committee decided:

(a) to note the report on the status of the 2006 business plans as contained in documents UNEP/OzL.Pro/ExCom/49/5 and Add.1, the fact that activities required for compliance, amounting to US $65.4 million, should be submitted to the 50th Meeting, and that the value of forward commitments approved at the 49th Meeting was US $1.2 million below the value in the 2006-2008 business plan of the Multilateral Fund;

(b) to note that the list of projects and agreements contained in Annex III to document UNEP/OzL.Pro/ExCom/49/5, with a total value of over US $6.2 million, for countries that had been subject to decisions on compliance and for which the required action had not been accomplished as at 26 May 2006, should be submitted to the 50th Meeting of the Executive Committee to prevent any delays in the implementation of activities that might facilitate compliance;

(c) to include an item in the agenda for its 50th Meeting on priorities for the triennium, beyond the needs identified by the compliance oriented model, taking into account the remaining US $40 million in unallocated funds for the triennium;

(d) to modify the existing performance indicators, starting with the business plans for 2007, as follows:

  (i) by removing the words "policy" and "regulatory" from the example for the indicator "Milestone activities completed" so that the example reads as follows: "Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned";

  (ii) by defining the indicator "Percentage of policy/regulatory assistance completed versus that planned" as activities to be undertaken by the implementing agencies in assisting Article 5 countries in the development/adoption/implementation of relevant policy and regulatory activities including, but not limited to:

    - enactment of licensing quota systems for all controlled substances under the Montreal Protocol (and

not limited to CFCs only), and informing the Ozone Secretariat accordingly;

- ratification of remaining amendments to the Montreal Protocol, when applicable;
- addressing relevant decisions taken by the Parties to the Montreal Protocol in regard to specific compliance issues;
- enactment of legislation/regulation for the certification of technicians, when applicable;
- establishment of bans on the import of controlled substances as in the case of halon and ODS-containing equipment;
- modifications to fire/equipment codes; and
- legislation to combat illegal trade in ODS.

(e) that the needs for assistance would be identified at the beginning of each year at the annual business plan coordination meeting and the activities to be undertaken would be based, inter alia, on specific requests from countries, activities already proposed in individual projects and/or in multi-year agreements, and actions associated with institutional strengthening projects;

(f) to urge bilateral and multilateral implementing agencies to submit those activities required for compliance in the 2006 business plans to the 50th Meeting;

(g) to request the Secretariat to prepare a brief document, for consideration by the Executive Committee at its 50th Meeting, outlining all remaining phase-out obligations of Article 5 Parties by year and by triennium, and any decisions by the Executive Committee and the Meeting of the Parties that could be pertinent to the discussion referred to under subparagraph (c) above;

(h) to defer to the 50th Meeting of the Executive Committee any consideration of further action regarding activities linked to projects for Angola and Ethiopia, which had initially been included in Germany's business plan, pending:

(i) a letter from Angola confirming that its terminal phase out management plan (TPMP) was to remain in Germany's business plan despite the fact that there were no funds currently available in Germany's 2006-2008 bilateral allocation;

(ii) Confirmation from Ethiopia that its TPMP would be included in France's business plan;

(i) to note confirmation from Algeria that its TPMP was to be included in the business plan of UNIDO; and

(j) to note confirmation from Uganda that its TPMP was to be included in the business plan of France.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/4, para. 43).
(Supporting document: UNEP/OzL.Pro/ExCom/49/5).

The Fiftieth Meeting of the Executive Committee decided:

(a) to note the report on the status of the 2006 business plans as contained in documents UNEP/OzL.Pro/ExCom/50/5 and Add.1 and the fact that US $12.76 million in activities that were required for compliance had not been submitted to the 50th Meeting;

(b) to request bilateral and implementing agencies with projects in their 2006 business plans that were required for compliance to include those activities in their 2007-2009 business plans;

(c) That projects required for compliance included in annual business plans, but not submitted, be given highest priority for submission in the subsequent calendar year and that Parties and agencies make every effort to remove obstacles to their submission; and

(d) to request bilateral and implementing agencies to submit reasons why projects required for compliance included in annual business plans were not submitted and to request the Multilateral Fund Secretariat to compile them in a report for the Executive Committee.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/3 para. 38).
(Supporting document: UNEP/OzL.Pro/ExCom/50/5 and Add.1).

The Fiftieth Meeting of the Executive Committee also decided:

(a) to note the paper on priorities for the triennium 2006-2008, beyond the needs identified by the model rolling three-year phase-out plan, taking into account the remaining US $40 million in unallocated funds for the triennium (follow-up to decision 49/4, paragraphs (c) and (g)) as contained in document

UNEP/OzL.Pro/ExCom/50/8;

(b) to request the Secretariat to prepare an interim report, to be considered at the 51st Meeting in the context of the discussion of the 2007-2009 business plan, addressing all the priorities listed in document UNEP/OzL.Pro/ExCom/50/8, as well as projects and activities for CTC phase-out, activities related to ODS legislation development and enforcement, the activities that had been eliminated from business plans and those proposed at the 50th Meeting;

(c) to request the Secretariat to prepare a final report containing the information referred to in subparagraph (b) above for the consideration of the 52nd Meeting taking into account the HCFC surveys currently under preparation and any relevant reports from the Technology and Economic Assessment Panel (TEAP) which would be available at that time; and

(d) that both the interim report referred to in paragraph (b) above and the final reports referred to in paragraph (c) above should provide information on the overall cost and cost-effectiveness of projects and activities.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/6 para. 55).
(Supporting document: UNEP/OzL.Pro/ExCom/50/8).

The Fifty-second Meeting of the Executive Committee decided:

(a) to note the final report on priorities for the triennium 2006-2008, beyond the needs identified by the model rolling three-year phase-out plan, taking into account the remaining unallocated funds for the triennium as contained in document UNEP/OzL.Pro/ExCom/52/6; and

(b) to request the Secretariat to prepare a document for discussion at the 53rd Meeting of the Executive Committee on options for assessing and defining eligible incremental costs for HCFC consumption and production phase-out activities.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/4, para. 44).
(Supporting document: UNEP/OzL.Pro/ExCom/52/6).

Business plans for the years 2007-2009 of UNDP, UNEP, UNIDO and the World Bank

The Fifty-first Meeting of the Executive Committee decided:

(a) to endorse the 2007-2009 business plan of UNDP as contained in document UNEP/OzL.Pro/ExCom/51/8 in line with decision 51/5 on the consolidated business plan, without prejudice to the decision of the Parties on replenishment for the year 2009 and beyond, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels;

(b) to remove:

(i) the global methyl bromide information exchange project and the metered-dose inhaler (MDI) project for Nigeria, at the request of UNDP;

(ii) project preparation for MDI transition strategies; and

(c) to approve the following performance indicators for UNDP, while setting a target of 45 for the number of annual programmes of approved multi-year agreements (MYAs), a target of 22 for the number of individual projects approved and a target of 20 for the milestone activities completed for MYAs.

Item	2007 target
Number of annual programmes of multi-year agreements approved versus those planned	45
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved versus those planned	22
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	20
ODS phased-out for individual projects versus those planned per progress reports	1,229 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	60
Number of policy/regulatory assistance completed versus that planned	4/6 (67%)
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/7 para. 66).
(Supporting document: UNEP/OzL.Pro/ExCom/51/8).

The Fifty-first Meeting of the Executive Committee decided:

(a) to endorse the 2007-2009 business plan of UNEP as contained in document UNEP/OzL.Pro/ExCom/51/9 in line with decision 51/5 on the consolidated business plan, without prejudice to the decision of the Parties on replenishment for the year 2009 and beyond, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels;

(b) to remove:

(i) the methyl bromide (MB) activity for Trinidad and Tobago, at the request of UNEP;

(ii) the study on the use of economic instruments to provide long-term financing for sustained phase-out;

(iii) capacity-building for teachers on ozone protection;

(iv) the proposed activity for long-term management of halon banks, and to allocate instead US $40,000 to fund a study on the current state of all halon banks supported by the Multilateral Fund, their management capacity, the quantities of halon reclaimed and reused as a result of those banks, problems experienced, and strategies to ensure that the banks could operate without requesting further assistance from the Multilateral Fund, with the proposal for the study to be presented to the 52nd Meeting;

(v) analysis of HCFC technologies;

(vi) non-investment MB projects; and

(vii) regional metered-dose inhaler (MDI) transition strategies for five regions.

(c) to note with appreciation the confirmation of funding by Sweden, outside the Multilateral Fund, of the South-East Asia and Pacific Network and the enforcement networks for South-East and South Asia and to remove them from UNEP's business plan;

(d) to add a component of the MDI activity for Pakistan, as agreed with Pakistan and UNDP;

(e) to add a component, pursuant to decision XVII/14 of the Seventeenth Meeting of the Parties, on the organization of regional workshops on MDIs and to allocate US $200,000 for the activity;

(f) to maintain the allocation of US $500,000 for the Green Customs Initiative in UNEP's business plan, while reserving the right to consider funding at a lower level, and to request that UNEP submit to the 52nd Meeting a more comprehensive proposal with respect to that Initiative, with the expectation that it would include: a detailed description of how the Multilateral Fund resources would be used solely for including issues related to trade in ODS in the larger Green Customs Initiative, and of the relationship between Multilateral Fund resources and the resources being provided by other multilateral environmental agreements and bilateral agencies; a clear indication of the budget; an indication of the activity's relevance for the ozone layer and ODS; and a proposal that progress should be monitored with full accounting of monies spent in accordance with the Multilateral Fund and Executive Committee guidelines; and

(g) to approve the following 2007 performance indicators and targets for UNEP, while setting a target of 35 for the number of annual programmes of multi-year agreements (MYAs) to be approved, a target of 30 for the number of individual projects approved and a target of nine for milestone activities completed/ozone-depleting substances levels achieved for approved MYAs.

Item	2007 target
Number of annual programmes of multi-year agreements approved versus those planned	35 (9 tranches of approved MYA and 26 new MYA)
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved versus those planned	30
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	9
ODS phased-out for individual projects versus those planned per progress reports	0
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	86
Number of policy/regulatory assistance completed versus that planned	64 countries or 100% of countries listed in Annex I either received assistance or

Item	2007 target
	assistance was offered
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/8 para. 71).
(Supporting document: UNEP/OzL.Pro/ExCom/51/9).

The Fifty-first Meeting of the Executive Committee decided:

(a) to endorse 2007-2009 business plan of UNIDO as contained in document UNEP/OzL.Pro/ExCom/51/10 in line with decision 51/5 on the consolidated business plan, without prejudice to the decision of the Parties on replenishment for the year 2009 and beyond, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels;

(b) to remove:

(i) The metered-dose inhaler (MDI) phase-out project in Pakistan, at the request of UNIDO; and

(ii) The MDI transition strategy for Kyrgyzstan.

(c) to request implementing agencies to investigate, where appropriate, the need for MB activities for countries with low volumes of MB consumption in the context of their preparation of terminal phase-out management plans for low-volume-consuming countries regardless of the status of ratification of the Copenhagen Amendment; and

(d) to approve the following performance indicators for UNIDO, while setting a target of 32 for the number of annual programmes of multi-year agreements approved, a target of 22 for the number of individual projects approved, a target of 20 for milestone activities completed/ODS levels achieved for approved multi year agreements, and a phase-out target for individual projects of 346.2 ODP tonnes for 2007.

Item	2007 target
Number of annual programmes of multi-year agreements approved versus those planned	32
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved versus those planned	22
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	20
ODS phased-out for individual projects vs. those planned per progress reports	346.2 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	20
Number of policy/regulatory assistance completed versus that planned	11
Speed of financial completion versus that required per progress report completion dates	12 months after operational completion
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/9 para. 76).
(Supporting document: UNEP/OzL.Pro/ExCom/51/10).

The Fifty-first Meeting of the Executive Committee decided:

(a) to endorse the 2007 2009 business plan of the World Bank as contained in document UNEP/OzL.Pro/ExCom/51/11 in line with decision 51/5 on the consolidated business plan, without prejudice to the decision of the Parties on replenishment for the year 2009 and beyond, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels;

(b) to transfer the halon consumption phase-out project in Chile (CHI/HAL/42/TAS/156) from the World Bank to UNDP at the amount of US $60,000 plus agency support costs of US $4,500;

(c) to approve the following performance indicators for the World Bank, while setting a target of 19 for the number of annual programmes approved, a target of four for the number of individual projects approved and a target of 18 for the number of milestone activities to be completed; and

(d) to request the World Bank to investigate the possibility of undertaking projects for the accelerated phase-out of production of CFC and CTC, and to report back to the Executive Committee on any issues it encountered.

Item	2007 target
Number of annual programmes of multi-year agreements approved versus those planned	19(1)
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved versus those planned	4
Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches versus those planned	18
ODS phased-out for individual projects versus those planned per progress reports	1,334 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	10(2)
Number of policy/regulatory assistance completed versus that planned	9/9
Speed of financial completion versus that required per progress report completion dates	11 months
Timely submission of project completion reports versus those agreed	100%
Timely submission of progress reports and responses unless otherwise agreed	100%

(1) Includes one annual programme of new multi-year projects expected to be approved by the Executive Committee in 2007.
(2) Represents the number of projects expected to be completed in 2007, which will lead to an expected phase-out of 1,334 ODP tonnes.
(UNEP/OzL.Pro/ExCom/51/46, Decision 51/10 para. 80).
(Supporting document: UNEP/OzL.Pro/ExCom/51/11).

Business plans for the years 2008-2010 of UNDP, UNEP, UNIDO and the World Bank

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to endorse the 2008-2010 business plan of UNDP, as contained in document UNEP/OzL.Pro/ExCom/54/8, as amended below, without prejudice to the Parties' decision on replenishment for the period 2009-2011, while noting that endorsement did not denote approval either of the projects identified therein or of their funding levels;

(b) to maintain metered-dose inhaler activities, in the light of decision 54/5(d);

(c) to remove:

(i) the HCFC activities in the business plan in the light of decision 54/5(b)(iii);

(ii) ODS disposal activities in the light of decision 54/5(c);

(iii) the request for additional funds for UNDP's core unit to cover HCFC activities, but to consider it in the light of the outcome of the Executive Committee's consideration of the assessment of administrative costs required for the 2009-2011 triennium; and

(d) to approve the performance indicators for UNDP set out in Annex II to the present report.
(UNEP/OzL.Pro/ExCom/54/59, Decision 54/7, para. 60).
(Supporting document: UNEP/OzL.Pro/ExCom/54/8).

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to endorse the 2008-2010 business plan of UNEP as contained in documents UNEP/OzL.Pro/ExCom/54/9 and Corr.1, as amended below, without prejudice to the Parties' decision on replenishment for the period 2009-2011, while noting that endorsement did not denote approval either of the projects identified therein or of their funding levels:

(b) to remove:

(i) Establishment of an East Caribbean regional refrigeration association network;

(ii) TPMP activities in Turkmenistan in the light of decision 46/21;

(iii) Assessment of practices adopted for environmentally sound management of unwanted ODS and obsolete ODS-based refrigeration and air conditioning equipment in the light of the study already funded by the Multilateral Fund;

(iv) Research and development activity in national institutions to be selected by UNEP;

(v) Global project on sustainable agriculture to prevent new uses of methyl bromide;

(vi) Regional public awareness activities for methyl bromide alternatives in the Asia and Pacific region;

(vii)Regional workshop on strengthening monitoring and reporting systems on methyl bromide use;

(viii) Regional workshop in Africa to prevent new uses of methyl bromide;

(ix) the request for additional funds to cover the post-adjustment allowance of UNEP/CAP, but to consider the request in the context of the results of the Executive Committee's consideration of the assessment of administrative costs required for the 2009-2011 triennium;

(c) to maintain metered-dose inhaler activities, in the light of decision 54/5(d); and

(d) to approve the 2008 performance indicators and targets for UNEP as set out in Annex III to the present report.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/8, para.68).
(Supporting document: UNEP/OzL.Pro/ExCom/54/9 and Corr.1).

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to endorse the 2008-2010 business plan of UNIDO as contained in document UNEP/OzL.Pro/ExCom/54/10, as amended below, without prejudice to the Parties' decision on replenishment for the period 2009-2011, while noting that endorsement did not denote approval either of the projects identified therein or of their funding levels:

(b) to maintain metered-dose inhaler activities in the light of decision 54/5(d);

(c) to remove:

(i) the HCFC activities in the business plan in the light of decision 54/5(b)(iii);

(ii) ODS disposal activities in the light of decision 54/5(c);

(iii) the terminal phase-out management plan for Turkmenistan in the light of decision 46/21; and

(e) to approve the performance indicators for UNIDO as contained in Annex IV to the present report.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/9, para.71).
(Supporting document: UNEP/OzL.Pro/ExCom/54/10).

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to endorse the 2008-2010 business plan of the World Bank as contained in document UNEP/OzL.Pro/ExCom/54/11, as amended below, without prejudice to the Parties' decision on replenishment for the period 2009-2011, while noting that endorsement did not denote approval either of the projects identified therein or of their funding levels;

(b) to remove the HCFC activities in the business plan, in the light of decision 54/5(b)(iii);

(c) to remove the HCFC phase-out management plan for Turkey from the business plan, at the request of the World Bank;

(d) to endorse the development of terms of reference for a study on how to develop a strategy to obtain funding through voluntary carbon markets for the destruction of unwanted ODS, which would also include a methodology for the validation and verification of ODS disposal, on the understanding that the World Bank would:

(i) cooperate closely with Members of the Executive Committee and the implementing agencies and invite them to contribute to the development of the terms of reference;

(ii) submit the draft terms of reference to the Executive Committee for consideration at its 55th Meeting;

(iii) submit the final study to the Executive Committee for consideration at its 56th Meeting; and

(e) to approve the performance indicators for the World Bank as contained in Annex V to the present report.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/10, para. 74).
(Supporting document: UNEP/OzL.Pro/ExCom/54/11).

Business plans for the years 2009-2011 of UNDP, UNEP, UNIDO and the World Bank

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to endorse the planned activities for 2009 in UNDP's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/9, and subject to the considerations contained in sub-paragraph (c) below, while noting that endorsement denoted neither approval of projects identified therein nor their funding levels;

(b) to note the planned activities for 2010 and 2011 in UNDP's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/9, and subject to the considerations contained in sub-paragraph (c) below;

(c) with regard to the 2009-2011 business plan as a whole:

(i) to note sub-paragraph (f) in decision 57/6 with regard to metered-dose inhaler transition strategies, HCFC foam demonstration projects, HCFC refrigeration demonstration projects, HCFC solvent demonstration projects, and ODS disposal activities;

(ii) to note the removal by UNDP of the following ODS disposal activities:
Egypt: ODS disposal in 2010 and 2011
Egypt: ODS disposal preparation in 2010 and 2011

(iii) to include the following projects:

Country	Project	Total value in 2009 (US$)	Total value in 2010 (US$)	Total value in 2011 (US$)	Total value after 2011 (US$)	Total ODS (ODP tonnes)
Thailand	Project preparation for air-conditioning sectors, excluding air-to-air conditioning	118,000	0	0	0	0
Thailand	Air conditioning sector plan	0	5,000,000	5,000,000	10,000,000	200

(d) to approve the performance indicators for UNDP as contained in Annex IV to the present report.
(UNEP/OzL.Pro/ExCom/57/69, Decision 57/8 para.74).
(Supporting document: UNEP/OzL.Pro/ExCom/57/9).

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to endorse the planned activities for 2009 in UNEP's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/10, and subject to the consideration contained in sub-paragraph (c) below, while noting that endorsement denoted neither approval of projects identified therein nor their funding levels;

(b) to note the planned activities for 2010 and 2011 in UNEP's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/10, and subject to the consideration contained in sub-paragraph (c) below;

(c) with regard to the 2009-2011 business plan as a whole, to note sub-paragraph (f) in decision 57/6 with regard to HCFC refrigeration servicing demonstration project preparation;

(d) to remove the regional workshops on preventing new uses of methyl bromide (MB) from UNEP's business plan and to request UNEP to work with other implementing agencies to identify gaps in regional MB projects in Africa for consideration in future business plan activities;

(e) with respect to the individual HCFC phase-out management plan (HPMP) requests for Pacific Island countries:

(i) to limit the total funding available for HPMP preparation to US $ 300,000 in the first instance;

(ii) to request UNEP to explore with those countries the opportunities for taking a regional approach to HPMP preparation, to consult further on a regional approach to implementation, and to report to the Executive Committee on the outcomes of those consultations at the 58th Meeting, if timing so permitted;

(f) to limit UNEP to disbursing up to 50 per cent of approved project preparation costs for HPMP preparation until a partner agency capable of providing investment funding had been identified or a letter received from the country indicating that it was aware that it would not receive investment funding for its HPMP as UNEP could not provide such funding and that it would not ask UNEP to share its project preparation funds in order to develop investment components, including recovery and recycling equipment; and

(g) to approve the 2009 performance indicators and targets for UNEP as contained in Annex V to the present report.
(UNEP/OzL.Pro/ExCom/57/69, Decision 57/9, para.83).
(Supporting document: UNEP/OzL.Pro/ExCom/57/10).

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to endorse the planned activities for 2009 in UNIDO's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/11, and subject to the considerations contained in sub-paragraph (c) below,

while noting that endorsement denoted neither approval of projects identified therein nor their funding levels;

(b) to note the planned activities for 2010 and 2011 in UNIDO's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/11, and subject to the considerations contained in sub-paragraph (c) below;

(c) with regard to the 2009-2011 business plan as a whole:

(i) to note sub-paragraph (f) in decision 57/6 with regard to HCFC foam and refrigeration demonstration projects, HCFC production activities and ODS disposal activities;

(ii) to include the following projects:

Country	Project	Total value in 2009 (US$)	Total value in 2010 (US$)	Total value in 2011 (US$)	Total value after 2011 (US$)	Total ODS (ODP tonnes)
Thailand	Air-to-air conditioning investment project preparation	70,000	0	0	0	0
Thailand	HCFC investment project preparation for XPS foam sector plan	48,000	0	0	0	0
Thailand	HCFC investment project preparation for the solvent sector	22,000	0	0	0	0
Thailand	Investment project in the air-to-air conditioning sector	0	1,075,000	1,075,000	0	20
Thailand	Investment project in the XPS foam sector	0	860,000	860,000	0	10
Thailand	Investment project in the solvent sector	0	430,000	430,000	0	6

(d) to approve the 2009 performance indicators and targets for UNIDO as contained in Annex VI to the present report.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/10, para.87).
(Supporting document: UNEP/OzL.Pro/ExCom/57/11).

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to endorse the planned activities for 2009 in the World Bank's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/12, and subject to the considerations contained in sub-paragraph (c) below, while noting that endorsement denoted neither approval of projects identified therein nor their funding levels;

(b) to note the planned activities for 2010 and 2011 in the World Bank's 2009-2011 business plan as contained in document UNEP/OzL.Pro/ExCom/57/12, and subject to the considerations contained in sub-paragraph (c) below;

(c) With regard to the 2009-2011 business plan as a whole, to note sub-paragraph (f) in decision 57/6 with regard to HCFC production activities, HCFC foam demonstration projects and ODS disposal activities; and

(d) to approve the performance indicators for the World Bank as contained in Annex VII to the present report.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/11, para. 91).
(Supporting document: UNEP/OzL.Pro/ExCom/57/12).

Business plans for the years 2010-2012 of UNDP, UNEP, UNIDO and the World Bank

The Sixtieth Meeting of the Executive Committee, pursuant to decision on the consolidated 2010-2012 business plan, took note of the 2010-2012 business plans of UNDP, as contained in document UNEP/OzL.Pro/ExCom/60/9.

(UNEP/OzL.Pro/ExCom/60/54, para.59).
(Supporting document: UNEP/OzL.Pro/ExCom/60/9).

The Sixtieth Meeting of the Executive Committee decided:

(a) To note the 2010-2012 business plan of UNEP, as contained in documents UNEP/OzL.Pro/ExCom/60/10 and Add.1, and to request that the following activities be removed from its revised submission to the 61st Meeting:

(i) Technical assistance to low-volume-consuming countries for replacement of energy efficient chillers and large-size equipment in the tourism, supermarket and fisheries sectors in Asia and the Pacific;

(ii) Guidelines on standards and good practices for use of natural refrigerants in room air conditioning and small refrigeration equipment, in cooperation with international standards associations;

(iii) Case studies and related toolkits for MB alternatives in tobacco, cut-flower and vegetable sub sectors in Africa;

(iv) Technology transfer and MB phase-out strategy through mainstreaming MB alternatives in national university education in Africa;

(v) Regional workshops in Asia and the Pacific, West Asia, Latin America and the Caribbean, and Europe and Central Asia to inform stakeholders of the viability of MB alternatives for quarantine and pre-shipment (QPS) applications, disseminating the European Union's experience of the ban on the use of MB for QPS;

(vi) Dates/Methyl Bromide Help Desk for South Asia, Africa and West Asia;

(vii) Technical assistance to countries in the Asia and Pacific region that produce metered-dose inhalers (MDIs) for CFC use for essential use nominations for 2010-2012;

(viii) Regional workshop on ODS alternatives for laboratory and analytical uses in the Asia and Pacific region, pursuant to decision XXI/6 of the Twenty-first Meeting of the Parties;

(b) To request UNEP:

(i) To submit a complete list of special compliance assistance activities with the Compliance Assistance Programme (CAP) budget (submitted to the last Meeting of the Executive Committee each year) so that the Executive Committee would be able to examine and approve the budget in a more holistic manner;

(ii) To reflect and include in the business plan (submitted to the first Meeting of the Executive Committee the following year):

a. The approved CAP budget; and

b. The list of special compliance activities from the approved budget., pursuant to decision on the consolidated 2010-2012 business plan, took note of the 2010-2012 business plans of UNDP, as contained in document UNEP/OzL.Pro/ExCom/60/9.

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/6, para.62).
(Supporting documents: UNEP/OzL.Pro/ExCom/60/10 and Add.1).

The Sixtieth Meeting of the Executive Committee, pursuant to decision on the consolidated 2010-2012 business plan, took note of the 2010-2012 business plans of UNIDO, as contained in document UNEP/OzL.Pro/ExCom/60/11.

(UNEP/OzL.Pro/ExCom/60/54, para.63).
(Supporting document: UNEP/OzL.Pro/ExCom/60/11).

The Sixtieth Meeting of the Executive Committee, pursuant to decision on the consolidated 2010-2012 business plan, took note of the 2010-2012 business plans of the World Bank, as contained in document UNEP/OzL.Pro/ExCom/60/12.

(UNEP/OzL.Pro/ExCom/60/54, para.64).
(Supporting document: UNEP/OzL.Pro/ExCom/60/12).

Revised business plans for the years 2010-2014 of UNDP, UNEP, UNIDO and the World Bank

The Sixty-first Meeting of the Executive Committee decided:

(a) To endorse the revised 2010-2014 business plan of UNDP contained in document UNEP/OzL.Pro/ExCom/61/9, as adjusted, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels, and was with any modifications based on consideration of those activities associated with the issues addressed in the revised consolidated business plan;

(b) To remove activities not required for compliance, except those for resource mobilization and ODS disposal; and

(c) To approve the 2010 performance indicators and targets for UNDP set out in Annex III to the present report.

Annex III

2010 REVISED BUSINESS PLAN PERFORMANCE INDICATORS FOR UNDP

Item	2010 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	49
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS, institutional strengthening) approved versus those planned	51
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	10
ODS phased-out for individual projects versus those planned per progress reports	250.5
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	87
Number of policy/regulatory assistance completed versus that planned	100%
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/7 para.34).
(Supporting document: UNEP/OzL.Pro/ExCom/61/9).

The Sixty-first Meeting of the Executive Committee decided:

(a) To endorse the revised 2010-2014 business plan of UNEP contained in document UNEP/OzL.Pro/ExCom/61/10, as adjusted, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels, and was with any modifications based on consideration of those activities associated with the issues addressed in the revised consolidated business plan;

(b) To remove activities for the destruction of CFCs in shipbreaking yards in Bangladesh and India;

(c) To remove activities not required for compliance, except those for resource mobilization and ODS disposal; and

(d) To approve the 2010 performance indicators and targets for UNEP set out in Annex IV to the present report.

Annex IV

2010 REVISED BUSINESS PLAN PERFORMANCE INDICATORS FOR UNEP

Item	2010 Targets
Number of annual programmes of multi-year agreements approved versus those planned	105 (26 tranches of approved MYAs and 79 new MYAs)
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS, institutional strengthening) approved versus those planned	88
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	26
ODS phased out for individual projects versus those planned per progress report	0
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	33
Number of policy/regulatory assistance completed versus that planned	109 countries
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

2010 REVISED BUSINESS PLAN PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	Target
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2008 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2010	90% implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/products/services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways/means/products/services for supporting NOUs in their work, with specification of those destined for new NOUs	7 such ways/means/ products/services; all new NOUs receive capacity building support
Assistance to countries in actual or potential non-compliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services
Close cooperation between CAP regional teams and bilateral and implementing agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with bilateral and implementing agencies	Number of joint missions/ undertakings	5 in each region

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/8 para.36).
(Supporting document: UNEP/OzL.Pro/ExCom/61/10).

The Sixty-first Meeting of the Executive Committee decided:

(a) To endorse the revised 2010-2014 business plan of UNIDO contained in document UNEP/OzL.Pro/ExCom/61/11, as adjusted, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels, and was with any modifications based on consideration of those activities associated with the issues addressed in the revised consolidated business plan;

(b) To remove activities not required for compliance, except those for resource mobilization and ODS disposal; and

(c) To approve the 2010 performance indicators and targets for UNIDO set out in Annex V to the present report.

Annex V
2010 REVISED BUSINESS PLAN PERFORMANCE INDICATORS FOR UNIDO

Item	2010 Targets
Number of annual programmes of multi-year agreements approved versus those planned	25
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS, institutional strengthening) approved versus those planned	36
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	13
ODS phased-out for individual projects vs. those planned per progress reports	311.8
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	14
Number of policy/regulatory assistance completed versus that planned	N/A
Speed of financial completion versus that required per progress report completion dates	12 months after operational completion
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/9 para.38).
(Supporting document: UNEP/OzL.Pro/ExCom/61/11).

The Sixty-first Meeting of the Executive Committee decided:

(a) To endorse the revised 2010-2014 business plan of the World Bank contained in document UNEP/OzL.Pro/ExCom/61/12, as adjusted, while noting that endorsement denoted neither approval of the projects identified therein nor their funding levels, and was with any modifications based on consideration of those activities associated with the issues addressed in the revised consolidated business plan;

(b) To remove activities not required for compliance, except those for resource mobilization and ODS disposal; and

(c) To approve the 2010 performance indicators and targets for the World Bank set out in Annex VI to the present report.

Annex VI

2010 REVISED BUSINESS PLAN PERFORMANCE INDICATORS FOR THE WORLD BANK

Item	2010 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	8
Number of individual projects/activities (investment projects, RMPs, halon banks, TAS, institutional strengthening) approved versus those planned	3
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	5/5
ODS phased-out for individual projects versus those planned per progress reports	240.3
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	5*
Number of policy/regulatory assistance completed versus that planned	100%
Speed of financial completion versus that required per progress report completion dates	11 months
Timely submission of project completion reports versus those agreed	100%
Timely submission of progress reports and responses unless otherwise agreed	100%

** Includes one investment project, two institutional strengthening projects and two technical assistance projects.*

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/10 para.40).

(Supporting document: UNEP/OzL.Pro/ExCom/61/12).

Business plans for the years 2011-2014 of UNDP, UNEP, UNIDO and the World Bank

The Sixty-third Meeting of the Executive Committee decided:

(a) To note the 2011-2014 business plan of UNDP, as contained in document UNEP/OzL.Pro/ExCom/63/9; and

(b) To approve the performance indicators for UNDP, as contained in Annex V to the present report.

Annex V

2011 BUSINESS PLAN PERFORMANCE INDICATORS FOR UNDP

Item	2011 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	38
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	21
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	2
ODS phased-out for individual projects versus those planned per progress reports	1.7 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	28
Number of policy/regulatory assistance completed versus that planned	N/A
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/7 para.43).

(Supporting document: UNEP/OzL.Pro/ExCom/63/9).

The Sixty-third Meeting of the Executive Committee decided:

(a) To note the 2011-2014 business plan of UNEP, as contained in document UNEP/OzL.Pro/ExCom/63/10;

(b) To request UNEP to undertake, as part of its 2011 business plan activities, prioritized Compliance Assistance Programme activities, in cooperation with other agencies, to assist Haiti in returning to its pre-earthquake level of implementation of the Montreal Protocol, and in enabling its compliance; and

(c) To approve the performance indicators for UNEP, as contained in Annex VI to the present report.

Annex VI

2011 BUSINESS PLAN PERFORMANCE INDICATORS FOR UNEP

Item	2011 Targets
Number of annual programmes of multi-year agreements approved versus those planned	81
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	79
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	3
ODS phased-out for individual projects versus those planned per progress reports	13.3 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	26
Number of policy/regulatory assistance completed versus that planned	100% of countries listed in the annex of UNEP's Business Plan narrative either received assistance or assistance was offered
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	2011 Targets
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2008 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2010	90 % implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways/means/products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	▪ 7 such ways/means/ products/services; ▪ All new NOUs receive capacity building support. ▪ 10 additional countries submit CP reports using the Multilateral Fund Secretariat's online data reporting system
Assistance to countries in actual or potential non-compliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services

Performance Indicator	Data	Assessment	2011 Targets
Close cooperation between CAP regional teams and IAs and BAs working in the regions	List of joint missions/ undertakings of CAP regional staff with IAs and Bas	Number of joint missions/ undertakings	5 in each region

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/8 para.46).
(Supporting document: UNEP/OzL.Pro/ExCom/63/10).

The Sixty-third Meeting of the Executive Committee decided:

(a) To note the 2011-2014 business plan of UNIDO, as contained in document UNEP/OzL.Pro/ExCom/63/11, maintaining institutional strengthening for Bosnia and Herzegovina and the Libyan Arab Jamahiriya in 2012 and adding the HCFC phase-out management plan for Saint-Lucia; and

(b) To approve the performance indicators for UNIDO, as contained in Annex VII to the present report.

Annex VII

2011 BUSINESS PLAN PERFORMANCE INDICATORS FOR UNIDO

Item	2011 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	44
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	12
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	6
ODS phased-out for individual projects versus those planned per progress reports	594 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	19
Number of policy/regulatory assistance completed versus that planned	N/A
Speed of financial completion versus that required per progress report completion dates	12 months after operational completion
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/9 para.48).
(Supporting document: UNEP/OzL.Pro/ExCom/63/11).

The Sixty-third Meeting of the Executive Committee decided:

(a) To note the 2011-2014 business plan of the World Bank, as contained in documents UNEP/OzL.Pro/ExCom/63/12 and Add.1;

(b) To remove the activity to develop a methodology to generate carbon credits from avoidance of HFC-23 emissions through reduced HCFC-22 use from the World Bank's business plan; and

(c) To approve the performance indicators for the World Bank, as contained in Annex VIII to the present report.

Annex VIII

2011 BUSINESS PLAN PERFORMANCE INDICATORS FOR THE WORLD BANK

Item	2011 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	8/8*
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	3/3
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	2/2**
ODS phased-out for individual projects versus those planned per progress reports	697***
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	5***

Item	2011 Targets
Number of policy/regulatory assistance completed versus that planned	100%
Speed of financial completion versus that required per progress report completion dates	11 months
Timely submission of project completion reports versus those agreed	100%
Timely submission of progress reports and responses unless otherwise agreed	100%

*Following the recommendation of the Secretariat, sub-sectors under one HPMP are not counted separately, even if they are under different agencies.
** Another 8 MYAs are under implementation and are being supervised by the Bank for sustainable phase-out, for which funding is not requested.

*** This figure is based on the 2009 progress report, following the Secretariat's recommendation.

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/10 para.50).
(Supporting document: UNEP/OzL.Pro/ExCom/63/12).

Business plans for the years 2012-2014 of UNDP, UNEP, UNIDO and the World Bank

The Sixty-sixth Meeting of the Executive Committee decided:

(a) To take note of the 2012-2014 business plan of UNDP, as contained in document UNEP/OzL.Pro/ExCom/66/9; and

(b) To approve the performance indicators for UNDP set out in Annex IV to the present report, while setting the targets of 18.9 ODP tonnes from ODS phase-out for individual projects and 41 for project completion.

Annex IV
PERFORMANCE INDICATORS FOR UNDP

Item	2012 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	16
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	15
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	12
ODS phased-out for individual projects versus those planned per progress reports	18.9
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	41
Number of policy/regulatory assistance completed versus that planned	tbd
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/7 para.41).
(Supporting document: UNEP/OzL.Pro/ExCom/66/9)

The Sixty-sixth Meeting of the Executive Committee decided:

(a) To take note of the 2012-2014 business plan of UNEP, as contained in document UNEP/OzL.Pro/ExCom/66/10; and

(b) To approve the performance indicators for UNEP set out in Annex V to the present report, while setting the following targets: 26 for the number of annual tranches of multi year agreements (MYAs) approved, 79 for the number of individual projects approved, 0 ODP tonne for the ODS phased out from individual projects, 41 for project completion, and 5 for milestone activities completed for MYAs.

Annex V
PERFORMANCE INDICATORS FOR UNEP

Item	2012 Targets
Number of annual programmes of multi-year agreements approved versus those planned	26
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	79
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	5
ODS phased-out for individual projects versus those planned per progress reports	0.0 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	41
Number of policy/regulatory assistance completed versus that planned	100% of countries listed in the annex of UNEP's Business Plan narrative either received assistance or assistance was offered
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	2012 Targets
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2011 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2012	90 % implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways/means/products/services for supporting NOUs in their work, with specification of those destined for new NOUs	▪ 7 such ways/means/ products/services; ▪ All new NOUs receive capacity building support. ▪ 10 additional countries submit CP reports using the Multilateral Fund Secretariat's online data reporting system
Assistance to countries in actual or potential non-compliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/8 para.44).
(Supporting document: UNEP/OzL.Pro/ExCom/66/10)

The Sixty-sixth Meeting of the Executive Committee decided:

(a) To take note of the 2012-2014 business plan of UNIDO, as contained in document UNEP/OzL.Pro/ExCom/66/11; and

(b) To approve the performance indicators for UNIDO set out in Annex VI to the present report, while setting a target of 10 for the number of individual projects approved.

Annex VI
PERFORMANCE INDICATORS FOR UNIDO

Item	2012 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	34
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	10
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	14
ODS phased-out for individual projects versus those planned per progress reports	0
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	3
Number of policy/regulatory assistance completed versus that planned	N/A
Speed of financial completion versus that required per progress report completion dates	12 months after operational completion
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/9 para.47).
(Supporting document: UNEP/OzL.Pro/ExCom/66/11)

The Sixty-sixth Meeting of the Executive Committee decided:

(a) To take note of the 2012-2014 business plan of the World Bank, as contained in document UNEP/OzL.Pro/ExCom/66/12; and

(b) To approve the performance indicators for the World Bank set out in Annex VII to the present report, while setting the following targets: 5 for the number of annual tranches of multi-year agreements (MYAs) approved, 4 for the number of individual projects approved, 8.5 ODP tonnes for the ODS phased out from individual projects, 6 for project completion and 2 for milestone activities completed for MYAs.

Annex VII
PERFORMANCE INDICATORS FOR THE WORLD BANK

Item	2012 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	5/5
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	4/4
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	2/2
ODS phased-out for individual projects versus those planned per progress reports	8.5
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	6/6
Number of policy/regulatory assistance completed versus that planned	100%
Speed of financial completion versus that required per progress report completion dates	11 months
Timely submission of project completion reports versus those agreed	100%
Timely submission of progress reports and responses unless otherwise agreed	100%

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/10 para.49).
(Supporting document: UNEP/OzL.Pro/ExCom/66/12)

Business plans for the years 2013-2015 of UNDP, UNEP, UNIDO and the World Bank

The Sixty-ninth Meeting of the Executive Committee decided:

(a) To note the 2013-2015 business plan of UNDP, as contained in document UNEP/OzL.Pro/ExCom/69/8; and

(b) To approve the performance indicators for UNDP set out in Annex V to the present report.

Annex V
PERFORMANCE INDICATORS FOR UNDP

Item	2013 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	27
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	12
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	25
ODS phased-out for individual projects versus those planned per progress reports	58
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	18
Number of policy/regulatory assistance completed versus that planned	1 out of 2 (50%)
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/7 para.51).
(Supporting document: UNEP/OzL.Pro/ExCom/69/8)

The Sixty-ninth Meeting of the Executive Committee decided:

(a) To note the 2013-2015 business plan of UNEP, as contained in document UNEP/OzL.Pro/ExCom/69/9; and

(b) To approve the performance indicators for UNEP set out in Annex VI to the present report.

Annex VI
PERFORMANCE INDICATORS FOR UNEP

Item	2013 Targets
Number of annual programmes of multi-year agreements approved versus those planned	49
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	60
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	46
ODS phased-out for individual projects versus those planned per progress reports	0.0 ODP tonnes
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	36
Number of policy/regulatory assistance completed versus that planned	100% of countries listed in the annex of UNEP's 2013 CAP Budget either received assistance or assistance was offered
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/8 para.53).
(Supporting document: UNEP/OzL.Pro/ExCom/69/9)

The Sixty-ninth Meeting of the Executive Committee decided:

(a) To note the 2013-2015 business plan of UNIDO, as contained in document UNEP/OzL.Pro/ExCom/69/10; and

(b) To approve the performance indicators for UNIDO set out in Annex VII to the present report.

Annex VII
PERFORMANCE INDICATORS FOR UNIDO

Item	2013 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	26
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	11
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	26
ODS phased-out for individual projects versus those planned per progress reports	55.4
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	6
Number of policy/regulatory assistance completed versus that planned	N/A
Speed of financial completion versus that required per progress report completion dates	12 months after operational completion
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/9 para.55).
(Supporting document: UNEP/OzL.Pro/ExCom/69/10)

The Sixty-ninth Meeting of the Executive Committee decided:

(a) To note the 2013-2015 business plan of the World Bank, as contained in document UNEP/OzL.Pro/ExCom/69/11; and

(b) To approve the performance indicators for the World Bank set out in Annex VIII to the present report.

Annex VIII
PERFORMANCE INDICATORS FOR THE WORLD BANK

Item	2013 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	7
Number of individual projects/activities (investment and demonstration projects, TAS, institutional strengthening) approved versus those planned	2
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	6
ODS phased-out for individual projects versus those planned per progress reports	240.4
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	4
Number of policy/regulatory assistance completed versus that planned	100%
Speed of financial completion versus that required per progress report completion dates	30 months
Timely submission of project completion reports versus those agreed	On time

Item	2013 Targets
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/69/40, Decision 69/10 para.58).
(Supporting document: UNEP/OzL.Pro/ExCom/69/11)

Business plans for the years 2014-2016 of UNDP, UNEP, UNIDO and the World Bank

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the 2014-2016 business plan of UNDP contained in document UNEP/OzL.Pro/ExCom/71/9;

(b) To urge UNDP to submit the HCFC phase-out management plan for Mauritania as soon as possible in light of the ongoing audit of United Nations activities in the country; and

(b) To approve the performance indicators for UNDP set out in Annex V to the present report.

Annex V
PERFORMANCE INDICATORS FOR UNDP

Item	2014 Targets
Number of annual programmes of MYAs approved versus those planned (new plus tranches of ongoing MYAs)	21
Number of individual projects/activities (investment and demonstration projects, technical assistance, IS) approved versus those planned	14
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	18
ODS phased-out for individual projects versus those planned per progress reports	45.3
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	19
Number of policy/regulatory assistance completed versus that planned	1 (100%)
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/20 para.78).
(Supporting document: UNEP/OzL.Pro/ExCom/71/9)

The Seventy-first Meeting of the Executive Committee decided:

(a) To note:
  (i) The 2014-2016 business plan of UNEP contained in document UNEP/OzL.Pro/ExCom/71/10;
  (ii) That stage II of HCFC phase-out management plans for low-volume-consuming (LVC) and non-LVC countries for which UNEP was the lead agency for stage I could increase the total business plan value (including values after 2020) by US $11,400,500 and US $6,737,826, respectively; and

(b) To approve the performance indicators for UNEP set out in Tables 1 and 2 contained in Annex VI to the present report.

Annex VI
PERFORMANCE INDICATORS FOR UNEP

Item	2014 Targets
Number of annual programmes of multi-year agreements approved versus those planned	29
Number of individual projects/activities (investment and demonstration projects, technical assistance, institutional strengthening) approved versus those planned	65
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	26
ODS phased-out for individual projects versus those planned per progress reports	0.0 ODP tonnes

Item	2014 Targets
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	49
Number of policy/regulatory assistance completed versus that planned	100% of countries listed in the annex of UNEP's 2014 CAP Budget either received assistance or assistance was offered
Speed of financial completion versus that required per progress report completion dates	On time
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	2014 Targets
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2011 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2012	90 % implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways/means/products/services for supporting NOUs in their work, with specification of those destined for new NOUs	-7 such ways, means, products, services; -All new NOUs receive capacity building support. -10 additional countries submit CP reports using the Multilateral Fund Secretariat's online data reporting system.
Assistance to countries in actual or potential non-compliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services
Close cooperation between CAP regional teams and IAs and BAs working in the regions	List of joint missions/ undertakings of CAP regional staff with IAs and BAs	Number of joint missions/undertakings	5 in each region

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/21 para.81).
(Supporting document: UNEP/OzL.Pro/ExCom/71/10)

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the 2014-2016 business plan of UNIDO contained in document UNEP/OzL.Pro/ExCom/71/11;

(b) To add the ODS destruction projects for Algeria and Lebanon in UNIDO's business plan for 2014; and

(b) To approve the performance indicators for UNIDO set out in Annex VII to the present report.

Annex VII
PERFORMANCE INDICATORS FOR UNIDO

Item	2014 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of on-going MYAs)	22
Number of individual projects/activities (investment and demonstration projects, technical assistance, IS) approved versus those planned	10
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	19
ODS phased-out for individual projects versus those planned per progress reports	190.7
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	11
Number of policy/regulatory assistance completed versus that planned	N/A
Speed of financial completion versus that required per progress report completion dates	12 months after operational completion
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/22 para.89).
(Supporting document: UNEP/OzL.Pro/ExCom/71/11)

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the 2014-2016 business plan of the World Bank contained in document UNEP/OzL.Pro/ExCom/71/12;

(b) To remove the allocation related to the preparation of stage II of the HCFC production phase-out management plan (HPPMP) for China from the World Bank's business plan for 2014-2016 on the understanding that it could be reinstated at a later date for consideration by the Executive Committee;

(c) To remove the allocation for stage II of HPPMP implementation for the year 2016 in the World Bank's 2014-2016 business plan, noting that China might decide to submit a proposal in 2016 for stage II of the HPPMP to commence in 2017; and

(d) To approve the performance indicators for the World Bank set out in Annex VIII to the present report.

Item	2014 Targets
Number of annual programmes of multi-year agreements approved versus those planned (new plus tranches of ongoing MYAs)	5
Number of individual projects/activities (investment and demonstration projects, technical assistance, institutional strengthening) approved versus those planned	3
Milestone activities completed/ODS levels achieved for approved multi-year annual tranches versus those planned	5
ODS phased-out for individual projects versus those planned per progress reports	111.4
Project completion (pursuant to decision 28/2 for investment projects) and as defined for non-investment projects versus those planned in progress reports	3
Number of policy/regulatory assistance completed versus that planned	100%
Speed of financial completion versus that required per progress report completion dates	30 months
Timely submission of project completion reports versus those agreed	On time
Timely submission of progress reports and responses unless otherwise agreed	On time

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/23 para.93).
(Supporting document: UNEP/OzL.Pro/ExCom/71/12)

Business plans for the years 2015-2017 of UNDP, UNEP, UNIDO and the World Bank

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2015-2017 contained in document UNEP/OzL.Pro/ExCom/73/20; and

(b) To approve the performance indicators for UNDP as set out in Annex VI to the present report.

Type of indicator	Short title	Calculation	2015 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	36
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	19
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $19 million
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	500.5
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	75
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70% of those due
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	70% of those due
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

UNEP/OzL.Pro/ExCom/73/62, Decision 73/29, para.103).
(Supporting document: UNEP/OzL.Pro/ExCom/73/20).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2015-2017 contained in document UNEP/OzL.Pro/ExCom/73/21;

(b) To add activities referred to in UNIDO's business plan for stage II of HCFC phase out management plans in low-volume-consuming countries to UNEP's business plan; and

(c) To approve the performance indicators for UNEP as set out in Annex VII to the present report.

Type of indicator	Short title	Calculation	2015 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	56
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	69
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $9,510,335

Type of indicator	Short title	Calculation	2015 target
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	94.5
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	99
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	14
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	Yes
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	Yes

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

UNEP/OzL.Pro/ExCom/73/62, Decision 73/30, para. 105).
(Supporting document: UNEP/OzL.Pro/ExCom/73/21).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the UNIDO business plan for 2015-2017 contained in document UNEP/OzL.Pro/ExCom/73/22; and

(b) To approve the performance indicators for UNIDO as set out in Annex VIII to the present report.

Type of indicator	Short title	Calculation	2015 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	26
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	22
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $22,350,000
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	587.8
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	41
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

UNEP/OzL.Pro/ExCom/73/62, Decision 73/31, para. 108).
(Supporting document: UNEP/OzL.Pro/ExCom/73/22).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note the World Bank business plan for 2015-2017 contained in document UNEP/OzL.Pro/ExCom/73/23; and

(b) To approve the performance indicators for the World Bank as set out in Annex IX to the present report.

Type of indicator	Short title	Calculation	2015 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	9
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	4
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $27 million
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	1,338.3
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	13
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	90%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

UNEP/OzL.Pro/ExCom/73/62, Decision 73/32, para. 110).
(Supporting document: UNEP/OzL.Pro/ExCom/73/23).

Business plans for the years 2016-2018 of UNDP, UNEP, UNIDO and the World Bank

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2016–2018 contained in document UNEP/OzL.Pro/ExCom/75/23; and

(b) To approve the performance indicators for UNDP as set out in Annex VIII to the present report.

Type of indicator	Short title	Calculation	2016 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	29
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	18
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $26,906,232
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	394.98 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	61

Type of indicator	Short title	Calculation	2016 target
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70% of those due
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	70% of those due
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

UNEP/OzL.Pro/ExCom/75/85, Decision 75/24, para. 132).
(Supporting document: UNEP/OzL.Pro/ExCom/75/23).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2016–2018 contained in document UNEP/OzL.Pro/ExCom/75/24; and
(b) To approve the performance indicators for UNEP as set out in Annex IX to the present report.

Type of indicator	Short title	Calculation	2016 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	74
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	59
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $14,887,387
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	69.86 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	119
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	14
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	Yes
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	Yes

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance indicator	Data	Assessment	UNEP's target for 2016
Efficient follow-up to regional network/thematic meetings	List of recommendations emanating from 2014-2015 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2016	90% implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways, means, products, services for supporting NOUs in their work, with specification of those destined for new NOUs	-7 such ways, means, products, services; -All new NOUs receive capacity building support. -10 additional countries submit CP reports using the Multilateral Fund Secretariat's online data reporting system
Assistance to countries in actual or potential non-compliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services
Close cooperation between CAP regional teams and implementing and bilateral agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with implementing and bilateral agencies	Number of joint missions/undertakings	5 in each region

(Supporting document: UNEP/OzL.Pro/ExCom/77/24).

The Seventy-seventh Meeting of the Executive Committee decided:

(a) To note the World Bank business plan for 2017–2019 contained in document UNEP/OzL.Pro/ExCom/77/25; and
(b) To approve the performance indicators for the World Bank as set out in Annex VIII to the present report.

Type of indicator	Short title	Calculation	2017 target
Planning—Approval	Tranches approved	Number of tranches approved vs. those planned*	7
Planning—Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	1
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $54 million
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	1,979.4 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	13
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	90%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

UNEP/OzL.Pro/ExCom/77/76, Decision 77/32, para. 112).

Business plans for the years 2018-2020 of UNDP, UNEP, UNIDO and the World Bank

The Eightieth meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2018–2020 contained in document UNEP/OzL.Pro/ExCom/80/18, as amended; and
(b) To approve the performance indicators for UNDP as set out in Annex VIII to the present report.

Type of indicator	Short title	Calculation	2018 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	24
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	39
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $31,295,677
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	747.2 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	4
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70% of those due
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.
(UNEP/OzL.Pro/ExCom/80/59, Decision 80/36, para 121)
(Supporting document: UNEP/OzL.Pro/ExCom/80/18)

The Eightieth meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2018–2020 contained in document UNEP/OzL.Pro/ExCom/80/19, as amended;
(b) To add enabling activities for HFC phase-down for Haiti to the UNEP business plan for 2018–2020; and
(c) To approve the performance indicators for UNEP as set out in Annex IX to the present report.

Type of indicator	Short title	Calculation	2018 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	65
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	179
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $14,909,366

Type of indicator	Short title	Calculation	2018 target
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	172.9 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	130
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	14
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/37, para 124)
(Supporting document: UNEP/OzL.Pro/ExCom/80/19)

The Eightieth meeting of the Executive Committee decided:

(a) To note the UNIDO business plan for 2018–2020 contained in document UNEP/OzL.Pro/ExCom/80/20, as amended; and
(b) To approve the performance indicators for UNIDO as set out in Annex X to the present report.

Type of indicator	Short title	Calculation	2018 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	42
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	52
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $25,351,715
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	842.5 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	57
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/38, para 127)
(Supporting document: UNEP/OzL.Pro/ExCom/80/20)

The Eightieth meeting of the Executive Committee decided:

(a) To note the World Bank business plan for 2018–2020 contained in document UNEP/OzL.Pro/ExCom/80/21; and
(b) To approve the performance indicators for the World Bank as set out in Annex XI to the present report.

Type of indicator	Short title	Calculation	2018 target
Planning—Approval	Tranches approved	Number of tranches approved vs. those planned*	7
Planning—Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	6
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $30,966,115
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	1,647.4 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	17
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	90%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/39, para 129)
(Supporting document: UNEP/OzL.Pro/ExCom/80/21)

The Eighty-first Meeting of the Executive Committee decided:

(a)(v) That the 2018 funding tranche for the polyurethane rigid foam sector in stage II of the HCFC phase-out management plan (HPMP) for China had been moved to the 2019 consolidated business plan;
(a)(vi) That the 2018 funding tranche for the room air-conditioning manufacturing sector in stage II of the HPMP for China had been moved to the 2019 consolidated business plan.

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/26, para 96)
(Supporting document: UNEP/OzL.Pro/ExCom/81/12).

Business plans for the years 2019-2021 of UNDP, UNEP, UNIDO and the World Bank

The Eighty-second meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2019–2021, contained in document UNEP/OzL.Pro/ExCom/82/27; and
(b) To approve the performance indicators for UNDP as set out in Annex XI to the present report.

Type of indicator	Short title	Calculation	2019 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	16
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	20
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $24,920,548
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	230.2 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	63
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	16
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.
(UNEP/OzL.Pro/ExCom/82/72, Decision 82/46).
(Supporting document: UNEP/OzL.Pro/ExCom/82/27).

The Eighty-second meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2019–2021, contained in document UNEP/OzL.Pro/ExCom/82/28; and

(b) To approve the performance indicators for UNEP as set out in Annex XII to the present report.

PERFORMANCE INDICATORS FOR UNEP

Type of indicator	Short title	Calculation	2019 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	38
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	94
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $23,851,129
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	153.8 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	75
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	18 months
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	26

Type of indicator	Short title	Calculation	2019 target
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	2019 target
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2017-2018 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2019	90% implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways, means, products, services for supporting NOUs in their work, with specification of those destined for new NOUs	- 7 such ways, means, products, services. -All new NOUs receive capacity building support.
Assistance to countries in actual or potential non-compliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services
Close cooperation between CAP regional teams and implementing and bilateral agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with implementing and bilateral agencies	Number of joint missions/undertakings	3 in each region

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/47).
(Supporting document: UNEP/OzL.Pro/ExCom/82/28).

The Eighty-second meeting of the Executive Committee decided:

(a) To note the UNIDO business plan for 2019–2021, contained in document UNEP/OzL.Pro/ExCom/82/29; and
(b) To approve the performance indicators for UNIDO as set out in Annex XIII to the present report.

Type of indicator	Short title	Calculation	2019 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	23
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	28
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $23,573,657
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	621.9 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	48

Type of indicator	Short title	Calculation	2019 target
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	11
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/48).
(Supporting document: UNEP/OzL.Pro/ExCom/82/28).

The Eighty-second meeting of the Executive Committee decided:

(a) To note the World Bank business plan for 2019–2021, contained in document UNEP/OzL.Pro/ExCom/82/30; and
(b) To approve the performance indicators for the World Bank as set out in Annex XIV to the present report.

Type of indicator	Short title	Calculation	2019 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	5
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	1
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $13,741,402
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	2,156.7 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	10
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	90%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	22
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/49).
(Supporting document: UNEP/OzL.Pro/ExCom/82/28).

Business plans for the years 2020-2022 of UNDP, UNEP, UNIDO and the World Bank

The Eighty-fourth meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2020–2022, contained in document UNEP/OzL.Pro/ExCom/84/28; and
(b) To approve the performance indicators for UNDP as set out in Annex X to the present report.

PERFORMANCE INDICATORS FOR UNDP

Type of indicator	Short title	Calculation	2020 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	42
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	27
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $15,618,655
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	350.28 ODP tonnes***
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	70
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	3
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

*** Excluding phase-out for stage II of the HCFC phase-out management plan for China in the industrial and commercial refrigeration and solvent sectors, for which the revised Agreement will be submitted to the 86th meeting. This target will be adjusted at the time of the evaluation in 2021.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/48).
(Supporting document: UNEP/OzL.Pro/ExCom/84/28).

The Eighty-fourth meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2020–2022, contained in document UNEP/OzL.Pro/ExCom/84/29; and
(b) To approve the performance indicators for UNEP as set out in Annex XI to the present report.

PERFORMANCE INDICATORS FOR UNEP

Type of indicator	Short title	Calculation	2020 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	133
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	100
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $20,994,167
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	73.83 ODP tonnes***
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	130
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	14 months
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	13
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

*** Excluding phase-out for stage II of the HCFC phase-out management plan for China in the refrigeration servicing sector, for which the revised Agreement will be submitted to the 86th meeting. This target will be adjusted at the time of the evaluation in 2021.

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	2020 target
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2018-2019 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2020	90% implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways, means, products, services for supporting NOUs in their work, with specification of those destined for new NOUs	- 7 such ways, means, products, services; -All new NOUs receive capacity building support.
Assistance to countries in actual or potential noncompliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential on compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences	Number of global and regional information products and services destined for new target	7 such products and services

Performance Indicator	Data	Assessment	2020 target
	or that reach existing target audiences in new ways	audiences or that reach existing target audiences in new ways	
Close cooperation between CAP regional teams and Implementing and bilateral agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with Implementing and bilateral agencies	Number of joint missions/undertakings	2 in each region

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/49).
(Supporting document: UNEP/OzL.Pro/ExCom/84/29).

The Eighty-fourth meeting of the Executive Committee decided:

(a) To note the UNIDO business plan for 2020–2022, contained in document UNEP/OzL.Pro/ExCom/84/30; and
(b) To approve the performance indicators for UNIDO as set out in Annex XII to the present report.

PERFORMANCE INDICATORS FOR UNIDO

Type of indicator	Short title	Calculation	2020 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	57
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	40
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $23,582,315
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	273.64 ODP tonnes***
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	64
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion

Business plans for the years 2021-2023 of UNDP, UNEP, UNIDO and the World Bank

The Eighty-sixth meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2021–2023, contained in document UNEP/OzL.Pro/ExCom/86/27; and

(b) To approve the performance indicators for UNDP as set out in the table contained in Annex XI to the present document.

PERFORMANCE INDICATORS FOR UNDP

Type of indicator	Short title	Calculation	2021 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	28
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	49
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $22,419,984
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	368.84 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	49
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (3)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another lead or cooperating agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/46).
(Supporting document: UNEP/OzL.Pro/ExCom/84/27).

The Eighty-sixth meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2021–2023, contained in document UNEP/OzL.Pro/ExCom/86/28; and

(b) To approve the performance indicators for UNEP as set out in the tables contained in Annex XII to the present document.

PERFORMANCE INDICATORS FOR UNEP

Type of indicator	Short title	Calculation	2021 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	69
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	123
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $20,561,656
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	87.68 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	104
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	14 months
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (7)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	2021 target
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2018-2019 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2020	90% implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/ products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways, means, products, services for supporting NOUs in their work, with specification of those destined for new NOUs	- 7 such ways, means, products, services; - All new NOUs receive capacity building support.
Assistance to countries in actual or potential noncompliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential on compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services
Close cooperation between CAP regional teams and Implementing and bilateral agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with implementing and bilateral agencies	Number of joint missions/undertakings	Suspended during the COVID-19 pandemic due to UN and

Performance Indicator	Data	Assessment	2021 target
			national travel restrictions

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/47).
(Supporting document: UNEP/OzL.Pro/ExCom/84/28).

The Eighty-sixth meeting of the Executive Committee decided:

(a) To note the UNIDO business plan for 2021–2023, contained in document UNEP/OzL.Pro/ExCom/86/29; and

(b) To approve the performance indicators for UNIDO as set out in the table contained in Annex XIII to the present document.

PERFORMANCE INDICATORS FOR UNIDO

Type of indicator	Short title	Calculation	2021 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	52
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	39
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $24,801,519
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	760.70 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	107
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (1)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/48).
(Supporting document: UNEP/OzL.Pro/ExCom/84/29).

The Eighty-sixth meeting of the Executive Committee decided:

(a) To note the World Bank business plan for 2021–2023, contained in document UNEP/OzL.Pro/ExCom/86/30; and

(b) To approve the performance indicators for the World Bank as set out in the table contained in Annex XIV to the present document.

PERFORMANCE INDICATORS FOR THE WORLD BANK

Type of indicator	Short title	Calculation	2021 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	5
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	8
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $18,159,693
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	709.22 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	5
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	90%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (13)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

Business plans for the years 2022-2024 of UNDP, UNEP, UNIDO and the World Bank

The Eighty-eighth meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2022–2024, contained in document UNEP/OzL.Pro/ExCom/88/24; and

(b) To approve the performance indicators for UNDP as set out in Annex X of to the present report.

PERFORMANCE INDICATORS FOR UNDP

Type of indicator	Short title	Calculation	2022 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	15
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	20
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $22,523,448
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	256.33 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	40
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (6)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another lead or cooperating agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/35).
(Supporting document: UNEP/OzL.Pro/ExCom/88/24).

The Eighty-eighth meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2022–2024, contained in document UNEP/OzL.Pro/ExCom/88/25; and

(b) To approve the performance indicators for UNEP as set out in Annex XI to the present report.

PERFORMANCE INDICATORS FOR UNEP

Type of indicator	Short title	Calculation	2022 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	54
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	100
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $21,629,928
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	93.6 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	91

Type of indicator	Short title	Calculation	2022 target
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	14 months
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (14)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME (CAP)

Performance Indicator	Data	Assessment	2022 target
Efficient follow-up to regional network/ thematic meetings	List of recommendations emanating from 2018-2019 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2020	90% implementation rat
Effective support to National Ozone Units (NOUs) in their work, particularly guidance to new NOUs	List of innovative ways/means/ products/ services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways, means, products, services for supporting NOUs in their work, with specification of those destined for new NOUs	- 7 such ways, means, products, services; -All new NOUs receive capacity building support.
Assistance to countries in actual or potential noncompliance (as per MOP decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential on compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services
Close cooperation between CAP regional teams and Implementing and bilateral agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with implementing and bilateral agencies	Number of joint missions/undertakings	Suspended during the COVID-19 pandemic due to UN and national travel restrictions

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/36).
(Supporting document: UNEP/OzL.Pro/ExCom/88/25).

The Eighty-eighth meeting of the Executive Committee decided:

(a) To note the UNIDO business plan for 2022–2024, contained in document UNEP/OzL.Pro/ExCom/88/26; and
(b) To approve the performance indicators for UNIDO as set out in Annex XII to the present report.

PERFORMANCE INDICATORS FOR UNIDO

Type of indicator	Short title	Calculation	2022 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	48
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	29
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $26,753,292
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	372.5 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	42
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (10)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/37).
(Supporting document: UNEP/OzL.Pro/ExCom/88/26).

The Eighty-sixth meeting of the Executive Committee decided:

(a) To note the World Bank business plan for 2022–2024, contained in document UNEP/OzL.Pro/ExCom/88/27; and
(b) To approve the performance indicators for the World Bank as set out in Annex XIII to the present report.

PERFORMANCE INDICATORS FOR THE WORLD BANK

Type of indicator	Short title	Calculation	2022 target
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	4
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	4
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $5,060,187
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	5,362.5 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	4
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project	90%

Type of indicator	Short title	Calculation	2022 target
		completion	
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (10)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

Business plans for the years 2023-2025 of UNDP, UNEP, UNIDO and the World Bank

The Ninety-first Meeting of the Executive Committee decided: UNDP

(a) To note the UNDP business plan for 2023–2025 contained in document UNEP/OzL.Pro/ExCom/91/24; and

(b) To approve the performance indicators for UNDP set out in Annex XII to the present report.

PERFORMANCE INDICATORS FOR UNDP FOR 2023

Type of indicator	Short title	Calculation	2023 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	45
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	31
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $23,111,673
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	415.6 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	39
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (9)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another lead or cooperating agency, if agreed by that agency.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/33).

(Supporting document: UNEP/OzL.Pro/ExCom/91/24).

The Ninety-first Meeting of the Executive Committee decided: UNEP

(a) To note the UNEP business plan for 2023–2025 contained in document UNEP/OzL.Pro/ExCom/91/25; and

(b) To approve the performance indicators for UNEP set out in Annex XIII to the present report.

PERFORMANCE INDICATORS FOR UNEP FOR 2023

Type of indicator	Short title	Calculation	2023 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	62
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	89
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $21,719,273
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	138.1 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	105
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	14 months
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (28)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another lead or cooperating agency, if agreed by that agency.

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME FOR 2023

Performance Indicator	Data	Assessment	2023 target
Efficient follow-up to regional network/thematic meetings	List of recommendations emanating from 2021-2022 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2023	90% implementation rate
Effective support to National Ozone Units (NOUs) in their work, particularly guidance to new NOUs	List of innovative ways/means/ products/services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways, means, products, services for supporting NOUs in their work, with specification of those destined for new NOUs	- 7 innovative ways, means, products, services; -All new NOUs receive capacity building support
Assistance to countries in actual or potential non-compliance (as per Meeting of the Parties decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences	Number of global and regional information products and services destined for new target	7 global and regional information products and services

Performance Indicator	Data	Assessment	2023 target
	or that reach existing target audiences in new ways	audiences or that reach existing target audiences in new ways	
Close cooperation between CAP regional teams and implementing and bilateral agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with implementing and bilateral agencies	Number of joint missions/undertakings	2 joint missions / undertakings in each region, if the COVID-19 pandemic situation allows and there are no restrictions

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/34).
(Supporting document: UNEP/OzL.Pro/ExCom/91/25).

The Ninety-first Meeting of the Executive Committee decided: UNIDO

(a) To note the UNIDO business plan for 2023–2025 contained in document UNEP/OzL.Pro/ExCom/91/26; and

(b) To approve the performance indicators for UNIDO set out in Annex XIV to the present report.

PERFORMANCE INDICATORS FOR UNIDO FOR 2023

Type of indicator	Short title	Calculation	2023 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	58
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	20
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $21,222,040
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	694.1 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	67
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (12)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

***** The target of an agency would be reduced if it could not submit a tranche owing to another lead or cooperating agency, if agreed by that agency.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/35).

(Supporting document: UNEP/OzL.Pro/ExCom/91/26).

The Ninety-first Meeting of the Executive Committee decided: World Bank

(a) To note the World Bank business plan for 2023–2025 contained in document UNEP/OzL.Pro/ExCom/91/27; and

(b) To approve the performance indicators for the World Bank set out in Annex XV to the present report.

PERFORMANCE INDICATORS FOR THE WORLD BANK FOR 2023

Type of indicator	Short title	Calculation	2023 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	4
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	6
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $8,701,634
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	814.6 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	5
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	90%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	4
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The target of an agency would be reduced if it could not submit a tranche owing to another lead or cooperating agency, if agreed by that agency.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/33)

(Supporting document: UNEP/OzL.Pro/ExCom/91/27).

Business plans for the years 2024-2026 of UNDP, UNEP, UNIDO and the World Bank

The Ninety-third Meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2024–2026 contained in document UNEP/OzL.Pro/ExCom/93/27; and

(b) To approve the performance indicators for UNDP set out in annex X to the present report.

PERFORMANCE INDICATORS FOR UNDP FOR 2024

Type of indicator	Short title	Calculation	2024 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	38
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	33
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $26,752,712
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	271.84ODP tonnes

Type of indicator	Short title	Calculation	2024 target
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	45
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	70%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (1)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The targets of an agency would be reduced "if it could not submit a tranche owing to another cooperating agency or lead agency" or "if the HPMP submitted for consideration by the Executive Committee was not approved as a result of factors beyond the control of the national ozone unit and the agency."

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/30).
(Supporting document: UNEP/OzL.Pro/ExCom/93/27).

The Ninety-third Meeting of the Executive Committee decided: UNEP

(a) To note the UNEP business plan for 2024–2026 contained in document UNEP/OzL.Pro/ExCom/93/28; and
(b) To approve the performance indicators for UNEP set out in annex XI to the present report.

PERFORMANCE INDICATORS FOR UNEP FOR 2024

Type of indicator	Short title	Calculation	2024 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	86
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	119
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $24,723,357
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	198.99ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	81
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (5)
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The targets of an agency would be reduced "if it could not submit a tranche owing to another cooperating agency or lead agency" or "if the HPMP submitted for consideration by the Executive Committee was not approved as a result of factors beyond the control of the national ozone unit (NOU) and the agency."

PERFORMANCE INDICATORS FOR UNEP'S COMPLIANCE ASSISTANCE PROGRAMME FOR 2024

Performance indicator	Data	Assessment	2024 target
Efficient follow-up to regional network/thematic meetings	List of recommendations emanating from 2021-2022 regional network/thematic meetings	Implementation rate of those meeting recommendations that are to be implemented in 2023	90% implementation rate
Effective support to NOUs in their work, particularly guidance to new NOUs	List of innovative ways/means/ products/services for supporting NOUs in their work, with specification of those destined for new NOUs	Number of innovative ways, means, products, services for supporting NOUs in their work, with specification of those destined for new NOUs	- 7 such ways, means, products, services; -All new NOUs receive capacity building support
Assistance to countries in actual or potential non-compliance (as per Meeting of the Parties decisions and/or as per reported Article 7 data and trend analysis)	List of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	Number of countries in actual or potential non-compliance that received CAP assistance outside the network meetings	All such countries
Innovations in production and delivery of global and regional information products and services	List of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	Number of global and regional information products and services destined for new target audiences or that reach existing target audiences in new ways	7 such products and services
Close cooperation between CAP regional teams and implementing and bilateral agencies working in the regions	List of joint missions/ undertakings of CAP regional staff with implementing and bilateral agencies	Number of joint missions/undertakings	2 in each region

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/31).
(Supporting document: UNEP/OzL.Pro/ExCom/93/28).

The Ninety-third Meeting of the Executive Committee decided: UNIDO

(a) To note the UNIDO business plan for 2024–2026 contained in document UNEP/OzL.Pro/ExCom/93/29; and
(b) To approve the performance indicators for UNIDO set out in annex XII to the present report.

PERFORMANCE INDICATORS FOR UNIDO FOR 2024

Type of indicator	Short title	Calculation	2024 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	64
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	56
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $27,456,835
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	522.77ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	69
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	On time (4)

Type of indicator	Short title	Calculation	2024 target
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The targets of an agency would be reduced "if it could not submit a tranche owing to another cooperating agency or lead agency" or "if the HPMP submitted for consideration by the Executive Committee was not approved as a result of factors beyond the control of the national ozone unit and the agency."

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/32).

(Supporting document: UNEP/OzL.Pro/ExCom/93/29).

The Ninety-third Meeting of the Executive Committee decided: World Bank

(a) To note the World Bank business plan for 2024–2026 contained in document UNEP/OzL.Pro/ExCom/93/30; and
(b) To approve the performance indicators for the World Bank set out in annex XIII to the present report.

PERFORMANCE INDICATORS FOR THE WORLD BANK FOR 2024

Type of indicator	Short title	Calculation	2024 target
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	4
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	4
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $18,164,125
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	5,446.1 ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	1
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	90%
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	0
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time
Planning - Approval	Tranches approved	Number of tranches approved vs. those planned*	64
Planning - Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	56
Implementation	Funds disbursed	Based on estimated disbursement in progress report	US $27,456,835
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans*	522.77ODP tonnes
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	69

Business plans for the years 2025-2027 of UNDP, UNEP, UNIDO and the World Bank

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note the UNDP business plan for 2025–2027 contained in document UNEP/OzL.Pro/ExCom/95/27; and

(b) To approve the performance indicators for UNDP set out in annex XIII to the present report.

PERFORMANCE INDICATORS FOR UNDP FOR 2025

Type of indicator	Short title	Calculation	2025 target
Planning-Approval	Tranches approved	Number of tranches approved vs. those planned*	34
Planning-Approval	Individual projects/ activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	20
Implementation	Funds disbursed	Based on estimated disbursement in progress reports	19,663,303
Implementation	ODS phase-out for HCFC-related projects	ODS phase-out for HCFC-related projects in ODP tonnes vs. those planned per progress reports	942.9 ODP tonnes
Implementation	HFC phase-down for HFC-related projects	HFC phase-down for HFC-related projects in CO_2-eq tonnes vs. those planned per progress reports	462,857 CO_2-eq tonnes
Implementation	Project operational completion	Project operational completion vs. planned in progress reports for all activities (excluding project preparation)**	36
Implementation	Gender mainstreaming	Operational policy on gender mainstreaming applied to all approved projects	100%
Administrative	Speed of financial completion	The extent to which projects are financially completed within 12 months after project operational completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports based on the progress report	0
Administrative	Timely submission of progress reports and business plans	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The targets of an agency will be reduced if it cannot submit a tranche owing to another cooperating agency or lead agency or if the HCFC phase-out management plan or Kigali HFC implementation plan submitted for consideration by the Executive Committee is not approved as a result of factors beyond the control of the national ozone unit and agency.

** The targets of an agency will be reduced if an extension of the completion date has been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/29).
(Supporting document: UNEP/OzL.Pro/ExCom/95/27).

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note the UNEP business plan for 2025–2027 contained in document UNEP/OzL.Pro/ExCom/95/28; and
(b) To approve the performance indicators for UNEP set out in annex XIV to the present report.

PERFORMANCE INDICATORS FOR UNEP FOR 2025

Type of indicator	Short title	Calculation	2025 target
Planning-Approval	Tranches approved	Number of tranches approved vs. those planned*	80
Planning-Approval	Individual projects/ activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	96
Implementation	Funds disbursed	Based on estimated disbursement in progress reports	23,701,624
Implementation	ODS phase-out for HCFC-related projects	ODS phase-out for HCFC-related projects in ODP tonnes vs. those planned per progress reports	107.9 ODP tonnes
Implementation	HFC phase-down for HFC-related projects	HFC phase-down for HFC-related projects in CO_2-eq tonnes vs. those planned per progress reports	zero CO_2-eq tonnes
Implementation	Project operational completion	Project operational completion vs. planned in progress reports for all activities (excluding project preparation)**	58
Implementation	Gender mainstreaming	Operational policy on gender mainstreaming applied to all approved projects	100%
Administrative	Speed of financial completion	The extent to which projects are financially completed within 12 months after project operational completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports based on the progress report	3
Administrative	Timely submission of progress reports and business plans	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The targets of an agency will be reduced if it cannot submit a tranche owing to another cooperating agency or lead agency or if the HCFC phase-out management plan or Kigali HFC implementation plan submitted for consideration by the Executive Committee is not approved as a result of factors beyond the control of the national ozone unit and agency.
** The targets of an agency will be reduced if an extension of the completion date has been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/30).
(Supporting document: UNEP/OzL.Pro/ExCom/95/28).

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note the UNIDO business plan for 2025–2027 contained in document UNEP/OzL.Pro/ExCom/95/29; and
(b) To approve the performance indicators for UNIDO set out in annex XV to the present report.

PERFORMANCE INDICATORS FOR UNIDO FOR 2025

Type of indicator	Short title	Calculation	2025 target
Planning-Approval	Tranches approved	Number of tranches approved vs. those planned*	63
Planning-Approval	Individual projects/ activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	46
Implementation	Funds disbursed	Based on estimated disbursement in progress reports	19,684,760
Implementation	ODS phase-out for HCFC-related projects	ODS phase-out for HCFC-related projects in ODP tonnes vs. those planned per progress reports	259.0 ODP tonnes
Implementation	HFC phase-down for HFC-related projects	HFC phase-down for HFC-related projects in CO_2-eq tonnes vs. those planned per progress reports	291,086 CO_2-eq tonnes
Implementation	Project operational completion	Project operational completion vs. planned in progress reports for all activities (excluding project preparation)**	53
Implementation	Gender mainstreaming	Operational policy on gender mainstreaming applied to all approved projects	100%
Administrative	Speed of financial completion	The extent to which projects are financially completed within 12 months after project operational completion	12 months after operational completion
Administrative	Timely submission of project completion reports	Timely submission of project completion reports based on the progress report	5
Administrative	Timely submission of progress reports and business plans	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The targets of an agency will be reduced if it cannot submit a tranche owing to another cooperating agency or lead agency or if the HCFC phase-out management plan or Kigali HFC implementation plan submitted for consideration by the Executive Committee is not approved as a result of factors beyond the control of the national ozone unit and agency.
** The targets of an agency will be reduced if an extension of the completion date has been approved by the Executive Committee.

Administrative	Timely submission of progress reports and business plans	Timely submission of progress reports and business plans and responses unless otherwise agreed	On time

* The targets of an agency will be reduced if it cannot submit a tranche owing to another cooperating agency or lead agency or if the HCFC phase-out management plan or Kigali HFC implementation plan submitted for consideration by the Executive Committee is not approved as a result of factors beyond the control of the national ozone unit and agency.
** The targets of an agency will be reduced if an extension of the completion date has been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/29)
(Supporting document: UNEP/OzL.Pro/ExCom/97/25).

Projects not included in business plans or not required for compliance

The Sixtieth Meeting of the Executive Committee decided:

(a) To request the Secretariat to automatically adjust the business plans of the bilateral and implementing agencies to reflect the values in previously approved multi-year agreements and in other previous decisions of the Executive Committee, and to ensure that activities reflected those submitted to the first Meeting of the year and their associated values in order to ensure consistency between submissions and business plans at the first Meeting of the year; and

(b) To defer consideration of approval of new activities not required for compliance and not previously considered by the Executive Committee until after their consideration in the context of business plans at the first Meeting of the year.

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/9 para.75).
(Supporting documents: UNEP/OzL.Pro/ExCom/60/15 and Add.1)

PERFORMANCE INDICATORS FOR THE EVALUATION OF BUSINESS PLANS

The Twenty-fifth Meeting of the Executive Committee decided to request the Secretariat, in collaboration with the Implementing Agencies:

(a) to make proposals on the appropriate indicators for the evaluation of business plan performance;

(b) to consider how to give different weighting to indicators;

(c) to take into account the importance of the indicators relating to ODP reduction, speed of delivery and distribution of projects among countries when making proposals;

(d) to consider the need to revise the cost of project preparation and cost-effectiveness performance indicators;

(e) to apply any new or weighted indicators to evaluation of 1998 business plans.

(UNEP/OzL.Pro/ExCom/25/68, Decision 25/5, para. 27).

The Twenty-sixth Meeting of the Executive Committee decided to maintain two sets of indicators for investment projects, as follows:

(a) the first to track various aspects of the work of agencies, including the previous indicators and a new indicator covering the net emission/reduction of ODP resulting from implementation delays/early completion (expressed in ODP tonnes);

(b) the second set to be weighted indicators, to guide the allocation of agencies' shares. The indicators would assess performance in relation to what had been planned and would be weighted on a pro rata basis as shown in the following table:

Investment project performance indicators	Weighting
Actual ODS phased out from completed projects (ODP tonnes) – the amount of ODS eliminated from completed projects within the plan period	40
Disbursement (US$) – the amount of funds to be disbursed (excluding unliquidated obligations) within the plan period per tables 1 and 4 of the business plans	30
Satisfactory project completion reports received (percentage) – the number of project completion reports submitted expressed as a percentage of the number of project completion reports due for submission.	20
Distribution of projects among countries in business plans – the number of countries for which activities are planned for approval in the year of the business plan per table 5 of the business plans	10
Total	100

(UNEP/OzL.Pro/ExCom/26/70, Decision 26/4, para. 19).

For non-investment projects, the Executive Committee decided to maintain two sets of indicators, as follows:

(a) the first set to track the results associated with non-investment projects for all Implementing Agencies. The first set would consist of four indicators which would assess performance in relation to what had been planned and would be weighted on a pro rata basis as shown in the following table:

Non-investment project performance indicators	Weighting
Number of non-investment projects completed – the number of training, technical assistance and country programme preparation projects completed within the plan period.	50
Disbursement (expressed in US $million) – the amount of funds disbursed within the planned period for training, technical assistance, country programme preparation, and institutional strengthening projects.	30
Speed of first disbursement (expressed in number of months) – the average number of months between the date of project approval and the date of first disbursement for training, technical assistance, country programme preparation, and institutional strengthening projects by year of approval.	10
Speed of project completion (expressed in number of months) – the average number of months between the date of project approval and the date of project completion for training, technical assistance, and country programme preparation projects by year of approval.	10
Total	100

(b) the second set would be non-weighted, as follows:

  (i) appropriate and timely policies initiated by countries either as a result of networking, training, information exchange, country programme development and/or institutional strengthening;

  (ii) reduction in ODS consumption over and above that effected by investment projects.

(UNEP/OzL.Pro/ExCom/26/70, Decision 26/5, para. 20).

The Twenty-sixth Meeting of the Executive Committee requested UNEP, in view of its specific mandate, to continue the monitoring of its activities according to the set of nine indicators set out in its business plan.
(UNEP/OzL.Pro/ExCom/26/70, Decision 26/6, para. 21).

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to take note of the report contained in document UNEP/OzL.Pro/ExCom/35/16;

(b) to request all Implementing Agencies, when finalizing their 2002 business plans, to apply the Secretariat's advice contained in document UNEP/OzL.Pro/ExCom/35/16 relating to the identification of targets for the non-weighted, non-investment project indicators: (1) appropriate and timely policies initiated by countries either as a result of networking, training, information exchange, country programme development and/or institutional strengthening; and (2) the reduction in ODS consumption over and above that effected by investment projects;

(c) to consider revising those indicators unique to UNEP's specific mandate (Decision 26/6) on the basis of the outputs identified by UNEP in Annex 1 to its draft 2002 business plan (UNEP/OzL.Pro/ExCom/35/8 and Add.1) for the Compliance Assistance Programme (CAP) and to request UNEP to work with the Secretariat in revising Annex I;

(d) to request all Implementing Agencies to include a target for the performance indicator "timely submission of progress reports" in their final 2002 business plans;

(e) also to request all Implementing Agencies to include a new non-weighted, investment project performance indicator for project completion pursuant to Decision 28/2 by setting a target for the number of investment projects to be completed in the year of the business plan;

(f) further to request Implementing Agencies to consider revising their targets for their 2002 business plan cost-effectiveness performance indicators in the light of the fact that, historically, cost-effectiveness values achieved by projects had been lower than those targeted by the agencies.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/14, para. 43).
(Supporting document: UNEP/OzL.Pro/ExCom/35/16).

The Thirty-sixth Meeting of the Executive Committee decided to request the Sub-Committee on Monitoring, Evaluation and Finance to consider the possibility of a new performance indicator for the timely financial completion of projects at its 17th Meeting.
(UNEP/OzL.Pro/ExCom/36/36, Decision 36/4, para. 37(d)).

The Thirty-eighth Meeting of the Executive Committee decided:

(a) to request the Secretariat in co-operation with the Implementing Agencies and Article 5 countries to prepare a set of performance indicators for the compliance period in the light of the three-year phase-out plan and taking into consideration the discussion during the meeting on performance indicators;

(b) to invite Parties which had views on the topic to submit them to the Secretariat within four weeks of the end of the 38th Meeting.

(UNEP/OzL.Pro/ExCom/38/70/Rev.1, Decision 38/69, para. 123).

The Fortieth Meeting of the Executive Committee decided:

(a) to take note of the document on performance indicators presented in UNEP/OzL.Pro/ExCom/40/21;

(b) to request the Implementing Agencies and to invite Parties to submit proposals for performance indicators to the Secretariat eight weeks prior to the 41st Meeting of the Executive Committee;

(c) also to request the Secretariat to prepare a paper based on the concepts outlined in UNEP/OzL.Pro/ExCom/40/21, comments provided by members of the Executive Committee during the 40th Meeting, and the input of the Implementing Agencies; and

(d) further to request the Implementing Agencies to explore the feasibility of including the rapidity of financial completion of projects as an indicator.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/15, para. 54).
(Supporting document: UNEP/OzL.Pro/ExCom/40/21).

The Forty-first Meeting of the Executive Committee decided:

(a) to take note of document UNEP/OzL.Pro/ExCom/41/80 and the definitions of performance indicators

presented therein;

(b) to approve the following performance indicators for the evaluation of the performance of the Implementing Agencies, starting with the year 2004, with the weightings indicated in the following table and subject to review from time to time:

Category	Item	Weighting
Approval	Number of annual programmes of multi-year agreements approved vs. those planned, may not be applicable to UNEP	20
Approval	Number of individual projects/activities (investment projects, RMPs, halon banks, TAS) approved vs. those planned	20
Implementation	Milestone activities completed (e.g. policy measures, regulatory assistance)/ODS levels achieved for approved multi-year annual tranches vs. those planned, may not be applicable to UNEP	20
Implementation*	ODP phased-out for individual projects vs. those planned per progress reports, may not be applicable to UNEP	5
Implementation*	Project completion (pursuant to Decision 28/2 for investment projects) and as defined for non-investment projects vs. those planned in progress reports	5
Implementation	Percentage of policy/regulatory assistance completed vs. that planned	10
Administrative	Speed of financial completion vs. that required per progress report completion dates	10
Administrative*	Timely submission of project completion reports vs. those agreed	5
Administrative*	Timely submission of progress reports and responses unless otherwise agreed	5

* Existing performance indicator.

(c) to request the Secretariat to continue to monitor the following indicators of performance on the basis of trend analysis in future evaluations of the performance of Implementing Agencies: value of projects approved, ODP to be phased out, cost of project preparation, cost-effectiveness, distribution among countries, funds disbursed, speed of first disbursement, speed of completion, and net emission due to delays;

(d) also to request Implementing Agencies to propose qualitative performance indicators as part of their 2004 business plans to be submitted to the 42nd Meeting and to continue to consider the possibility of performance indicators for National Ozone Units; and

(e) to adopt the following performance indicators for UNEP's Compliance Assistance Programme (CAP) to replace the former performance indicators unique to UNEP's specific mandate:

Indicator	Data	Assessment
Usefulness of the region network/thematic meetings	Average of all ratings by network meeting participants	Average versus maximum rating
Assistance to countries for data reporting for the purpose of establishing baselines	Number of countries with missing data that received specific CAP assistance for data reporting in order to determine compliance baselines. UNEP should give a clear indication of the assistance provided per Decision 40/11(b)(i)	Proportion of countries receiving assistance that subsequently provided data pursuant to Article 7
Assistance with Article 7 data reporting	Number of countries reporting data in compliance with Article 7 of the Protocol pursuant to Decision 40/11(b)(ii)	Proportion of countries accepting assistance that achieved compliance
Countries in actual or potential non-compliance as per MOP decisions	Number of countries offered assistance under the CAP and number of countries that accepted assistance (after consultations with other implementing and bilateral agencies) and received CAP special assistance outside of network meetings listing the countries and type of assistance	Proportion of countries accepting assistance that achieved compliance
Countries at risk of becoming in non-compliance as per Article 7 data trends	Number of countries offered assistance under the CAP including those countries not yet officially declared in non-compliance but where data indicate as much and number of countries that accepted the offered assistance (after consultations with other implementing and bilateral agencies) and received CAP special	Number of countries provided special assistance outside of network meetings as a proportion of the number of countries that appeared to be in

Indicator	Data	Assessment
	assistance outside of network meetings, listing the countries and type of assistance	non-compliance
Information clearing-house	Number of newsletter subscriptions Number of discrete visitors (IP addresses) to the web site Number of PDF documents downloaded from web site Number of hard-copy publications disseminated Number of query responses answered; average time for response	Comparison with previous years' data

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/93, para. 148).
(Supporting document: UNEP/OzL.Pro/ExCom/41/80).

Qualitative performance indicators

The Executive Committee, after noting that qualitative performance indicators were intended to provide National Ozone Units in Article 5 countries with an opportunity to express their views on the performance of the agencies concerned in their countries, and that the purpose of the indicators proposed at the present Meeting was to address the types of issue that might be relevant to the overall assessment of the performance of agencies, decided at its Forty-fourth Meeting:

(a) to request further input on qualitative performance indicators from the National Ozone Unit officers at the next scheduled regional network meetings;

(b) also to request National Ozone Unit officers to consider the qualitative performance indicators proposed in the table in Annex V.4 to the present report, and to provide suggestions on additions, deletions and/or modifications to those proposals;

(c) further to request the Secretariat to compile the results from the regional network meetings in a document for presentation to the 46th Meeting of the Executive Committee; and

(d) to urge the Secretariat to work with UNEP to schedule regional network meetings at a time in 2005 that would maximize participation by the Secretariat and, where it was unable to attend, to utilize consultative services.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/6, para. 53).
(Supporting document: UNEP/OzL.Pro/ExCom/44/8).

The Forty-sixth Meeting of the Executive Committee decided:

(a) to note the evaluation of the Implementing Agencies' performance against their 2004 business plans contained in document UNEP/OzL.Pro/ExCom/46/16 and to take note of document UNEP/OzL.Pro/ExCom/46/17 on qualitative performance indicators and the feasibility and desirability of extending current performance indicators to bilateral agencies;

(b) to amend the questionnaire on qualitative performance indicators, attached as Annex V.5 to the present report, by inserting an additional column and giving National Ozone Units the choice of awarding a rating of 1 to 4 (with 1 being the lowest mark and 4 being the highest);

(c) to invite Executive Committee members to submit to the Secretariat, by 30 September 2005, their views and comments on the current performance indicators, including suggestions for modifying the quantitative performance indicator weightings and also propose amendments to the qualitative performance indicators as input for the discussion paper on the progress of Implementing Agencies with regard to multi-year agreements (decision 46/8) for consideration at the 47th Meeting, and to permit consideration of whether to make them applicable to bilateral agencies.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/14, para. 75).
(Supporting document: UNEP/OzL.Pro/ExCom/46/17).

The Forty-seventh Meeting of the Executive Committee decided:

(a) to take note of the document on performance indicators (follow-up to decision 46/14) (UNEP/OzL.Pro/ExCom/47/55);

(b) to adopt the revised weightings for quantitative performance indicators to apply as of the 2005 evaluation of the performance of multilateral implementing agencies, as follows:

Type of indicator	Item	Weighting	Sub-total
Approval	Multi-year tranches approved	15	

Approval	Individual projects/activities approved	10	
			25
Implementation	Milestone activities completed	20	
Implementation	ODS phased-out for individual projects	15	
Implementation	Project completion	10	
Implementation	Policy/regulatory assistance completed	10	
			55
Administrative	Speed of financial completion	10	
Administrative	Timely submission of project completion reports	5	
Administrative	Timely submission of progress reports	5	
			20

(c) Not to require bilateral implementing agencies to set targets for performance indicators.
(UNEP/OzL.Pro/ExCom/47/61, Decision 47/51 para. 191).
(Supporting document: UNEP/OzL.Pro/ExCom/47/55).

The Seventieth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on performance indicators, as contained in document UNEP/OzL.Pro/ExCom/70/17;

(ii) That full achievement in the assessment of implementing agencies' performance would not be evaluated in future reports; and

(b) To request the Secretariat to prepare, in consultation with the implementing agencies and other interested parties, a revised draft of the paper on performance indicators for consideration by the Executive Committee at its 71st meeting.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/14 para. 75).
(Supporting document: UNEP/OzL.Pro/ExCom/70/17).

The Seventy-first Meeting of the Executive Committee decided:

(a) To note the report on performance indicators contained in document UNEP/OzL.Pro/ExCom/71/17; and

(b) To modify the performance indicators established in decision 41/93, as modified by decision 47/51, as follows:

Type of Indicator	Short title	Calculation	Weighting
Planning--Approval	Tranches approved	Number of tranches approved vs. those planned*	10
Planning--Approval	Projects/activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)**	10
	Sub-total		**20**
Implementation	Funds disbursed	Based on estimated disbursement in progress report	15
Implementation	ODS phase-out	ODS phase-out for the tranche when the next tranche is approved vs. those planned per business plans	25
Implementation	Project completion for activities	Project completion vs. planned in progress reports for all activities (excluding project preparation)	20
	Sub-total		**60**
Administrative	Speed of financial completion	The extent to which projects are financially completed 12 months after project completion	10
Administrative	Timely submission of project completion reports	Timely submission of project completion reports vs. those agreed	5
Administrative	Timely submission of progress reports	Timely submission of progress reports and business plans and responses unless otherwise agreed	5
	Sub-total		**20**

Type of Indicator	Short title	Calculation	Weighting
	Total		**100**

* The target of an agency would be reduced if it could not submit a tranche owing to another cooperating or lead agency, if agreed by that agency.

** Project preparation should not be assessed if the Executive Committee has not taken a decision on its funding.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/28 para. 106).
(Supporting document: UNEP/OzL.Pro/ExCom/71/17).

The Ninety-third Meeting of the Executive Committee decided:

(d) To modify the performance indicators established in decision 71/28, as follows, noting that the new performance indicators would apply as of the 2025–2027 business plans:

Type of indicator	Short title	Calculation	Weight-ing
Planning-Approval	Tranches approved	Number of tranches approved vs. those planned*	10
Planning-Approval	Individual projects/ activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)	10
	Subtotal		**20**
Implementation	Funds disbursed	Based on estimated disbursement in progress reports	15
Implementation	ODS phase-out for HCFC-related projects	ODS phase-out for HCFC-related projects in ODP tonnes vs. those planned per progress reports	10
Implementation	HFC phase-down for HFC-related projects	HFC phase-down for HFC-related projects in CO_2-eq tonnes vs. those planned per progress reports	10
Implementation	Project operational completion	Project operational completion vs. planned in progress reports for all activities (excluding project preparation)**	15
Implementation	Gender mainstreaming	Operational policy on gender mainstreaming applied to all approved projects	10
Implementation	**Subtotal**		**60**
Administrative	Speed of financial completion	The extent to which projects are financially completed within 12 months after project operational completion	10
Administrative	Timely submission of project completion reports	Timely submission of project completion reports based on the progress report	5
Administrative	Timely submission of progress reports and business plans	Timely submission of progress reports and business plans and responses unless otherwise agreed	5
Administrative	**Subtotal**		**20**
	Total		**100**

* The targets of an agency will be reduced if it cannot submit a tranche owing to another cooperating agency or lead agency or if the HCFC phase-out management plan or Kigali HFC implementation plan submitted for consideration by the Executive Committee is not approved as a result of factors beyond the control of the national ozone unit and agency.
** The targets of an agency will be reduced if an extension of the completion date has been approved by the Executive Committee.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/8 (d)).
(Supporting document: UNEP/OzL.Pro/ExCom/93/9).

Evaluation of the implementation of the 1999 business plans

The Thirty-first Meeting of the Executive Committee decided:

(a) to request members of the Executive Committee and Implementing Agencies to communicate to the

Secretariat, within 60 days, their views on:

(i) the current indicators for the evaluation of the performance of the Implementing Agencies in achieving the targets in their business plans;

(ii) the possible need for new indicators (for example, on assistance provided by Implementing Agencies to national ozone units and the effective operation of the units) in the light of decisions on strategic planning;

(iii) the need for and possible uses of agency shares, including the removal of fixed shares, special funding windows and over-programming;

(iv) potential consequences for agencies not meeting existing and potential new performance targets;

(b) to request the Secretariat to prepare a report based on the comments received for submission to the Thirty-second meeting;

(c) also to request UNEP to report project implementation status using the indicators required by the decisions of the Executive Committee, bearing in mind that UNEP had not indicated its achievements against its own targets for the following:

(i) policies initiated from non-investment activities;

(ii) reduction in ODP tons from non-investment activities;

(iii) the extent to which the networks were used by the agencies and the Secretariat in developing their work or explaining new policies;

(d) to request the Implementing Agencies to report on all of the indicators required by the decisions of the Executive Committee.

(UNEP/OzL.Pro/ExCom/31/61, Decision 31/11, para. 30).

The Thirty-second Meeting of the Executive Committee decided:

(a) to maintain the current sets of performance indicators, while requesting the Secretariat, in co-operation with the Implementing Agencies and Article 5 countries, to begin to examine and formulate new indicators consistent with the Executive Committee's efforts to develop a strategic plan which incorporates a country-driven approach, and submit a report to the Executive Committee at a future meeting;

(b) to request the Chief Officer to write to all Governments of Article 5 countries advising them of the results of the evaluations of Implementing Agencies' 1999 business plans, noting the critical importance of national choices regarding Implementing Agencies in relation to their capacity to meet the imminent initial control measures, and send a copy of the letter to the heads of the Implementing Agencies, so that they might better compare the performance of their agency against that of the others.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/7, para. 18).

Evaluation of the implementation of the 2000 business plans

The Thirty-fourth Meeting of the Executive Committee decided:

(a) to note that the Implementing Agencies had not reported on their performance relating to their non-weighted non-investment performance indicators pursuant to Decision 26/5, and to require them to report to the 35th meeting of the Executive Committee on this issue, together with any proposals to modify performance indicators;

(b) to confirm that non-investment projects not included in the approved business plans might be presented for consideration by the Executive Committee, within the limits of the approved funding for non-investment activities for that year and accompanied by an appropriate justification;

(c) to note that the Multilateral Fund had not achieved its 2000 phase-out target and, for the purposes of the 2002 draft business plans, to request the Implementing Agencies to concentrate on the implementation of approved but unimplemented projects and to reduce the number of investment and non-investment projects with implementation delays;

(d) to request agencies presenting investment project proposals to the Executive Committee to ensure that projects were submitted for the countries listed in their business plans and that those projects were submitted during the calendar year of the plan.

(UNEP/OzL.Pro/ExCom/34/58, Decision 34/11, para. 29).

Evaluation of the implementation of the 2001 business plans

The Thirty-seventh Meeting of the Executive Committee decided:

(a) to note the evaluation of the Implementing Agencies' performance against their 2001 business plans, as contained in UNEP/OzL.Pro/37/17 and Corr.1;

(b) to consider at a future meeting the possibility of introducing another performance indicator on financial completion by Implementing Agencies within 12 months after actual project completion, and the impact of withholding funds on agencies' ability to implement newly approved projects in the context of considering the possibility of offsetting balances from projects completed 24 months previously against new project approvals;

(c) to reiterate with concern that Implementing Agencies should abide by the requirement to return balances from projects completed over 12 months ago.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/15, para. 41).
(Supporting document: UNEP/OzL.Pro/ExCom/37/17 and Corr.1).

Evaluation of the implementation of the 2005 business plans

The Forty-sixth Meeting of the Executive Committee decided:

(a) to note:

  (i) the report on the status of implementation of the 2005 business plans as contained in documents UNEP/OzL.Pro/ExCom/46/5 and Add.1;

  (ii) with concern, the number of proposals to be submitted to the 47th Meeting of the Executive Committee and also, in the light of paragraph 3 of decision XIV/39 of the Meeting of the Parties requesting "that the whole of the budget for 2003-2005 is committed by the end of 2005", the fact that US $133 million was left to be submitted for activities in the 2005 business plans containing 12 new multi year agreements and 205 other projects, plus activities for the global chiller programme;

(b) to urge bilateral and multilateral Implementing Agencies with projects in the 2005 business plans for countries subject to decisions of the Meeting of the Parties on compliance to submit those projects to the 47th Meeting of the Executive Committee as a matter of urgency; and

(c) to request the Fund Secretariat to include in all further reports an explanatory section for the table on projects to be submitted for countries subject to compliance decisions in the report on the status of implementation of the annual business plans.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/3, para. 32).
(Supporting document: UNEP/OzL.Pro/ExCom/46/5 and Add.1).

The Forty-ninth Meeting of the Executive Committee decided to note the evaluation of the performance of the implementing agencies in relation to their 2005 business plans, as contained in document UNEP/OzL.Pro/ExCom/49/15/Rev.1, as well as the largely sustained and overall improved performance of the agencies.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/13, para. 87).
Supporting document: UNEP/OzL.Pro/ExCom/49/15/Rev.1).

Evaluation of the implementation of the 2006 business plans

The Fifty-second Meeting of the Executive Committee decided:

(a) to note the evaluation of the implementing agencies' performance against their 2006 business plans as contained in documents UNEP/OzL.Pro/ExCom/52/16 and Add.1;

(b) to urge UNEP to continue to report on the achievement of the planned special compliance assistance activities and to strive to complete them as planned; and

(c) to request UNEP's Compliance Assistance Programme, through its regional networks, to include in the agenda of its network meetings taking place before May 2008 an item on assistance in the completion of the qualitative performance questionnaire.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/14, para. 84).
Supporting document: UNEP/OzL.Pro/ExCom/52/16 and Add.1).

Evaluation of the implementation of the 2007 business plans

The Fifty-second Meeting of the Executive Committee decided:

(a) to note the report on the status of the 2007 business plans as contained in documents UNEP/OzL.Pro/ExCom/52/5 and Add.1 and the fact that US $57.3 million in activities required for compliance had not been submitted to the 52nd Meeting, and that the value of forward commitments approved at the 52nd Meeting below the value in the 2007-2009 business plan of the Multilateral Fund by roughly US $259,899;

(b) to request bilateral and multilateral implementing agencies to submit those activities required for compliance in the 2007 business plans to the 53rd Meeting;

(c) to ask the Secretariat, using the compliance-oriented model, to list separately those activities required for compliance and those not required for compliance in their review and recommendations on projects submitted to meetings; and

(d) that the Executive Committee would consider those activities required for compliance first, consistent with prior Executive Committee decisions.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/3, para. 39).
(Supporting document: UNEP/OzL.Pro/ExCom/52/5 and Add.1).

The Fifty-third Meeting of the Executive Committee decided:

(a) to note:

(i) the report on the status of implementation of the 2007 business plans as contained in document UNEP/OzL.Pro/ExCom/53/5/Rev.1; and

(ii) that the value of forward commitments approved at the 53rd Meeting was US $1.1 million below the value in the 2007-2009 business plan of the Multilateral Fund;

(b) to consider for approval at the present Meeting the production closure project for Romania (US $1,290,000) that had not been included in the 2007 business plan;

(c) to request the Fund Secretariat to proceed with the inclusion of information on submission delays in the context of its review of the implementation of business plans at the second and third Meetings of each year; and

(d) to note that the level of annual tranches for new agreements submitted to the 53rd Meeting for approval amounted to US $7,754,553 and, as a result, the total level of commitments for the period 2009 to 2014 would amount to US $95.14 million.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/3, para. 37).
(Supporting document: UNEP/OzL.Pro/ExCom/53/5/Rev.1).

The Fifty-fifth Meeting of the Executive Committee decided:

(a) to note the evaluation of the implementing agencies' performance against their 2007 business plans as contained in document UNEP/OzL.Pro/ExCom/55/15;

(b) to request UNEP's Compliance Assistance Programme (CAP), through its regional networks, to include an item in the agenda of each of its network meetings addressing reporting requirements of the Executive Committee, including the qualitative performance questionnaire, so as to ensure a better response to the survey in future; and

(c) to encourage UNEP to continue to report on the achievement of the special compliance assistance activities and to strive to complete them as planned.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/11, para. 77).
(Supporting document: UNEP/OzL.Pro/ExCom/55/15).

Evaluation of the implementation of the 2008 business plans

The Fifty-fifth Meeting of the Executive Committee decided to note the report on the status of the 2008 business plans as contained in documents UNEP/OzL.Pro/ExCom/55/5 and Add.1 and the fact that US $41.4 million in activities required for compliane had not been submitted to the 55th Meeting, and that the value of forward commitment approved at the 55th Meeting exceeds the value in the 2008-2010 business plan of the Multilateral Fund by US $499,306.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/3, para.32).
(Supporting document: UNEP/OzL.Pro/ExCom/55/5 and Add.1).

The Fifty-sixth Meeting of the Executive Committee decided to note the report on the status of the 2008 business plans as contained in documents UNEP/OzL.Pro/ExCom/56/5 and Add.1 and the fact that US $10.67 million in

activities that were required for compliance had not been submitted to the 56th Meeting, and that the value of forward commitments approved at the 56th Meeting exceeded that in the 2008-2010 business plan of the Multilateral Fund by US $4,326,099.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/3 para 32(a)(i))
(Supporting document: UNEP/OzL.Pro/ExCom/56/5 and Add.1).

The Fifty-eighth Meeting of the Executive Committee decided:

(a) to note:

  (i) the evaluation of the implementing agencies' performance against their 2008 business plans as contained in document UNEP/OzL.Pro/ExCom/58/16;

  (ii) the quantitative assessment of the performance of the implementing agencies for 2008 on a scale of 100 as follows: UNDP (76), UNEP (88), UNIDO (95), and the World Bank (72);

  (iii) that UNEP indicated that it had fully achieved the performance indicators approved in decision 48/7 for its Compliance Assistance Programme (CAP);

  (iv) that the bilateral and implementing agencies (Canada, France, Germany, UNDP, UNEP, UNIDO and the World Bank) were marked with satisfactory or highly satisfactory performance in the qualitative performance assessments by the National Ozone Units in the overall assessments of performance in 2008; and

(b) to urge UNEP to continue to include an item in the agenda of each CAP network meeting addressing reporting requirements, as provided in decision 55/11 (b).

(UNEP/OzL.Pro/ExCom/58/53, Decision 58/14, para. 77).
(Supporting document: UNEP/OzL.Pro/ExCom/58/16).

Evaluation of the implementation of the 2009 business plans

The Fifty-ninth Meeting of the Executive Committee decided:

(a) to note:

  (i) The report on the status of the 2009 business plans as contained in documents UNEP/OzL.Pro/ExCom/59/5 and Add.1, the fact that US $17.85 million in activities that were required for compliance had not been submitted to the 59th Meeting and that the level of annual tranches approved at the 59th Meeting amounted to US $2,490,376 and, as a result, the total level of commitments for the period 2010-2014 would amount to US $109.9 million;

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/3, para. 32).
(Supporting document: UNEP/OzL.Pro/ExCom/59/5 and Add.1).

The Sixty-first Meeting of the Executive Committee decided:

(a) To note:

  (i) The evaluation of the implementing agencies' performance against their 2009 business plans as contained in document UNEP/OzL.Pro/ExCom/61/19;

  (ii) The quantitative assessment of the performance of the implementing agencies for 2009, out of 100, as follows: UNDP (89), UNEP (85), UNIDO (92) and the World Bank (71);

  (iii) That the bilateral and implementing agencies (Canada, France, Germany, UNDP, UNEP, UNIDO and the World Bank) had received "satisfactory" or "highly satisfactory" ratings for their overall performance in 2009 on the basis of the qualitative performance assessments by the National Ozone Units (NOUs);

(b) To request UNEP:

  (i) To have an open and constructive discussion with the NOUs in Chad and Paraguay about the areas in which UNEP services were perceived to be "less satisfactory" and "unsatisfactory" and to report to the 62nd Meeting on the results of its consultations with those countries on the implementation matters raised in the qualitative performance assessments by the respective countries;

  (ii) To remind countries, at meetings of regional networks, to complete the surveys on the performance of bilateral and implementing agencies;

(c) To request UNDP:

(i) To provide an additional status report to the 62nd Meeting on the status of procurement of the equipment for the terminal phase-out management plan in Togo (TOG/PHA/54/INV/16);

(ii) To continue its open and constructive discussion with the NOUs in Colombia and Paraguay about the areas where UNDP's services were perceived to be "less satisfactory" and to report to the 62nd Meeting on the results of its consultations on the implementation matters raised in the qualitative performance assessments; and

(d) To request UNIDO to have an open and constructive discussion with the NOUs about the areas where UNIDO services were perceived to be "less satisfactory" and to report to the 62nd Meeting on the results of its consultations with Benin, Kenya and Kyrgyzstan on the implementation matters raised in the qualitative performance assessments.

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/17, para.562).
(Supporting document: UNEP/OzL.Pro/ExCom/61/19).

Evaluation of the implementation of the 2010-2014 business plans

The Sixty-fourth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the implementing agencies' performance against their 2010 business plans, as contained in document UNEP/OzL.Pro/ExCom/64/15;

(ii) The quantitative assessment of the performance of the implementing agencies for 2010 on a scale of 100 as follows: UNDP (74), UNEP (72), UNIDO (95), and the World Bank (76); and

(b) To request:

(i) Germany to hold an open and constructive discussion with the National Ozone Unit (NOU) in Lesotho about the areas where Germany's services were perceived to be "less satisfactory" and to report to the 65th meeting on the results of its consultations with the country on the implementation matters raised in the qualitative performance assessment of the implementing agencies by the country;

(ii) UNDP to hold an open and constructive discussion with the NOUs in Argentina, Togo, and Trinidad and Tobago about the areas where UNDP's services were perceived to be "less satisfactory" and "unsatisfactory" and to report to the 65th meeting on the results of its consultations with those countries on the implementation matters raised in the qualitative performance assessments of the implementing agencies by the respective countries;

(iii) UNEP to hold an open and constructive discussion with the NOUs in Lesotho and Swaziland about the areas where UNEP's services were perceived to be "less satisfactory" and to report to the 65th meeting on the results of its consultations with those countries on the implementation matters raised in the qualitative performance assessments of the implementing agencies by the respective countries; and

(iv) UNIDO to hold an open and constructive discussion with the NOU in Senegal about the areas where UNIDO's services were perceived to be "less satisfactory" and to report to the 65th meeting on the results of its consultations with the country on the implementation matters raised in the qualitative performance assessment of the implementing agencies by the country.

(UNEP/OzL.Pro/ExCom/64/53, Decision 64/12, para.56).
(Supporting document: UNEP/OzL.Pro/ExCom/64/15).

Evaluation of the implementation of the 2011 business plans

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the implementing agencies' performance against their 2011 business plans as contained in document UNEP/OzL.Pro/ExCom/67/16 and the clarifications provided at the meeting;

(ii) The quantitative assessment of the performance of the implementing agencies for 2011 on a scale of 100 as follows: UNDP (89), UNEP (71), UNIDO (89), and the World Bank (66);

(b) To request:

(i) The World Bank to hold an open and constructive discussion with the National Ozone Unit (NOU) in

India about the areas where the Bank's services were perceived to be "less than satisfactory" and "unsatisfactory", and to report to the 68th meeting on the results of its consultations with the country on the implementation matters raised in the qualitative performance assessments; and

(ii) UNEP to hold an open and constructive discussion with the NOU in Afghanistan about the areas where UNEP's services were perceived to be "less than satisfactory", and with the NOU of Haiti about the areas where UNEP's services were perceived to be "less than satisfactory" and "unsatisfactory", and to report to the 68th meeting on the results of its consultations with those countries on the implementation matters raised in the qualitative performance assessments.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/14, para.55).
(Supporting document: UNEP/OzL.Pro/ExCom/67/16).

Evaluation of the implementation of the 2012 business plans

The Seventieth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the implementing agencies' performance against their 2012 business plans, as contained in document UNEP/OzL.Pro/ExCom/70/16;

(ii) The quantitative assessment of the performance of the implementing agencies for 2012 on a scale of 100 as follows: UNDP (87), UNEP (89), UNIDO (100), and the World Bank (71); and

(b) To request UNDP to have an open and constructive discussion with the National Ozone Unit (NOU) in Belize and UNEP with the NOUs in Belize, Colombia, and Senegal, regarding the areas where their services were perceived to be "less than satisfactory" and/or "unsatisfactory", and to report to the 71st meeting on the results of their consultations with the countries on the implementation matters raised in the qualitative performance assessments.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/13, para.69).
(Supporting document: UNEP/OzL.Pro/ExCom/70/16).

Evaluation of the implementation of the 2013 business plans

The Seventy-third Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the implementing agencies' performance against their 2013 business plans contained in document UNEP/OzL.Pro/ExCom/73/16;

(ii) With appreciation, that all implementing agencies had exceeded 85 on a scale of 100 in the quantitative assessment of their performance for 2013;

(iii) That the trend analysis performance had improved in 2013 in comparison with that in 2012, noting also that the performance with respect to indicators such as "ODS to be phased out", "ODS phased out", "net emissions due to delays" and "funds disbursed for non-investment projects" might be improved by means of careful targeting in future;

(b) To request the following implementing agencies to report to the 74th meeting on their open and constructive discussions with the respective national ozone unit (NOU) as follows:

(i) UNDP, on the ratings in the qualitative performance assessment from: Belize, with respect to involvement of the NOU in decision-making; and the Dominican Republic, with respect to the service provided by the UNDP country office;

(ii) UNEP, on the ratings in the qualitative performance assessment from: Afghanistan, with respect to consultations on how policy tools could be adjusted; Guyana, with respect to the return of unspent project preparation funds; and Sao Tome and Principe, with respect to the choice of refrigeration identifiers and technicians' tool kits;

(iii) UNIDO, on the ratings in the qualitative performance assessment from: Madagascar, with respect to administrative procedures; and South Africa, with respect to funding criteria and decisions on regulations and training; and

(c) To request the Government of Germany to provide the Executive Committee, by its 74th meeting, with responses regarding the ratings in the qualitative performance assessment from Afghanistan and from the

Plurinational State of Bolivia.

UNEP/OzL.Pro/ExCom/73/62, Decision 73/14 para.63).
(Supporting document: UNEP/OzL.Pro/ExCom/73/16).

The Seventy-fourth Meeting of the Executive Committee decided:

(a) To note:

(iv) With appreciation, that the Government of Germany, UNDP, UNEP and UNIDO had submitted information with respect to the ratings in the qualitative performance assessments, as requested in decision 73/14(b)(ii)-(iii) and (c)

UNEP/OzL.Pro/ExCom/74/56, Decision 74/3 para.34).
(Supporting document: UNEP/OzL.Pro/ExCom 74/5 & Corr.1).

Evaluation of the implementation of the 2014 business plans

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the implementing agencies' performance against their 2014 business plans as contained in document UNEP/OzL.Pro/ExCom/75/18;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2014 of at least 70 on a scale of 100;

(iii) That trend analysis indicated that performance had not improved in 2014 in relation to 2013, but that the performance related to indicators such as "ODS to be phased out", "ODS phased out", "net emissions due to delays" and "funds disbursed for non-investment projects" might be improved by careful targeting in the future;

(b) To request the following implementing agencies to report to the 76th meeting on their open and constructive discussions with the national ozone unit (NOU) concerned:

(i) UNDP, regarding the ratings in the qualitative performance assessment given by Belize with respect to timely delivery of services;

(ii) UNEP, regarding the ratings in the qualitative performance assessment given by the Central African Republic with respect to the use of training funds, acquisition of equipment, meeting stakeholder expectations, training or technical advice, and quality and design of training projects, and by Panama with respect to NOU involvement in project development and implementation, meeting stakeholder expectations and advice on technical difficulties; and

(iii) UNIDO, regarding the ratings in the qualitative performance assessment given by Egypt with respect to timely delivery and responsiveness to the NOU, by Iraq with respect to unsatisfactory ratings for all categories, and by Sierra Leone with respect to work plan explanation and NOU involvement in project identification, development and implementation.

UNEP/OzL.Pro/ExCom/75/85, Decision 75/16 para.100).
(Supporting document: UNEP/OzL.Pro/ExCom 75/18).

The Seventy-sixth meeting of the Executive Committee decided to take note of:

(b) With appreciation, the reports on dialogue with national ozone units by UNDP, UNEP and UNIDO with respect to the ratings in the qualitative performance assessments, as requested in decision 75/16(b); and ratings in the qualitative performance assessments, as requested in decision 73/14(b)(ii)-(iii) and (c)

UNEP/OzL.Pro/ExCom/76/66, Decision 76/3, para 35(b))
(Supporting document: UNEP/OzL.Pro/ExCom/76/5 and Add.1).

Evaluation of the implementation of the 2015 business plans

The Seventy-seventh meeting of the Executive Committee decided to note:

(a) The evaluation of the implementing agencies' performance against their 2015 business plans, contained in document UNEP/OzL.Pro/ExCom/77/17;

(b) That all implementing agencies had a quantitative assessment of their performance for 2015 of at least 72 on a scale of 100; and

(c) That trend analysis indicated that performance of all implementing agencies had improved in 2015 in relation

to 2014.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/14, para. 70(a)-(c))

(Supporting document: UNEP/OzL.Pro/ExCom/77/17).

Evaluation of the performance of the implementing agencies against their 2016 business plans

The Seventy–ninth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2016 business plans, as contained in document UNEP/OzL.Pro/ExCom/79/6;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2016 of at least 68 on a scale of 100;

(iii) That the trend analysis indicated that performance of implementing agencies had not improved in some indicators in 2016 in relation to 2015;

(b) To request UNIDO to have open and constructive discussions with the national ozone units (NOUs) of Brazil, Georgia, Iraq, Kenya and Senegal about the areas in which its services were perceived to be less than satisfactory and to report back to the 80th meeting on the results of its consultations; and

(c) To encourage NOUs to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the implementing agencies assisting their Government, noting that only 43 out of 144 countries had submitted questionnaires for 2016.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/5, para 35)
(Supporting document: UNEP/OzL.Pro/ExCom/79/6).

Evaluation of the performance of the implementing agencies against their 2017 business plans

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2017 business plans, as contained in document UNEP/OzL.Pro/ExCom/82/10;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2017 of at least 76 on a scale of 100;

(iii) That the trend analysis indicated that the performance of implementing agencies had not improved in some indicators in 2017 in relation to 2016;

(b) To request UNIDO to have open and constructive discussions with the national ozone units (NOUs) of Botswana, Malawi, Pakistan, Rwanda and Somalia about the areas in which their services were perceived to be less than satisfactory, and to report back at the 83rd meeting on the results of those consultations; and

(c) To encourage NOUs to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the bilateral and implementing agencies assisting their government, noting that only 40 out of 144 countries had submitted completed questionnaires for 2017.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/8).
(Supporting document: UNEP/OzL.Pro/ExCom/82/10).

The Eighty-third Meeting of the Executive Committee decided:

(a)(iii) With appreciation, the reports by UNIDO on discussions held with national ozone units with respect to the ratings in the qualitative performance assessments, as requested by decision 82/8(b).

(UNEP/OzL.Pro/ExCom/83/48, Decision 83/46(a)(iii)).
(Supporting document: UNEP/OzL.Pro/ExCom/83/13).

Evaluation of the performance of the implementing agencies against their 2018 business plans

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2018 business plans, as contained in document UNEP/OzL.Pro/ExCom/84/10;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2018 of at least 77 on a scale of 100;

(iii) That the trend analysis indicated that performance of implementing agencies had not improved for some indicators in 2018 in relation to 2017;

(iv) With appreciation, the efforts undertaken by bilateral and implementing agencies to have open and constructive discussions with the respective national ozone units (NOUs) about the areas in which their services were perceived to be less than satisfactory, and the satisfactory outcome of their consultations with the NOUs concerned; and

(b) To encourage NOUs to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the bilateral and implementing agencies in assisting their governments, noting, with appreciation, that 71 out of the 144 countries had submitted such assessments, as compared to 40 in 2018.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/8).
(Supporting document: UNEP/OzL.Pro/ExCom/84/10).

Evaluation of the performance of the implementing agencies against their 2019 business plans

The Eighty-sixth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2019 business plans, as contained in document UNEP/OzL.Pro/ExCom/86/9;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2019 of at least 83 on a scale of 100;

(iii) That the trend analysis indicated that performance of implementing agencies had not improved in some indicators in 2019 in relation to 2018;

(iv) With appreciation, the efforts undertaken by bilateral and implementing agencies to have open and constructive discussions with the respective national ozone units (NOUs) about the areas in which their services were perceived to be less than satisfactory, and the satisfactory outcome of their consultations with the NOUs concerned;

(b) To request UNIDO to have an open and constructive discussion with the NOU in Iraq, to resolve any issues raised in the evaluation of its performance and to report to the 87th meeting on the outcome of the discussion; and

(c) To encourage NOUs to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the bilateral and implementing agencies in assisting their governments, noting, with appreciation, that 78 out of the 144 countries had submitted such assessments for 2019, as compared to 71 for 2018.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/8).
(Supporting document: UNEP/OzL.Pro/ExCom/86/9).

Evaluation of the performance of the implementing agencies against their 2020 business plans

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2020 business plans, as contained in document UNEP/OzL.Pro/ExCom/88/9;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2020 of at least 68 on a scale of 100;

(iii) That the trend analysis indicated that performance of implementing agencies had not improved in some indicators in 2020 in relation to 2019;

(iv) With appreciation, the efforts undertaken by bilateral and implementing agencies to have open and constructive discussions with the respective national ozone units (NOUs) about the areas in which their services were perceived to be less than satisfactory, and the satisfactory outcome of their consultations

with the NOUs concerned;

(b) To request UNIDO to have an open and constructive discussion with the NOU in Iraq, to resolve any issues raised in the evaluation of its performance and to report to the 90th meeting on the outcome of the discussion;

(c) To encourage NOUs to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the bilateral and implementing agencies in assisting their governments, noting that 37 out of the 144 countries had submitted such assessments for 2020, as compared to 78 in 2019; and

(d) To request the Secretariat to provide in the next evaluation of the performance of the implementing agencies a more comprehensive analysis of the results, including additional information on reasons for not reaching the targets and suggestions for ways to improve performance as appropriate.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/8).
(Supporting document: UNEP/OzL.Pro/ExCom/88/9).

Evaluation of the performance of the implementing agencies against their 2021 business plans

The Ninety-first Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2021 business plans, as contained in document UNEP/OzL.Pro/ExCom/91/9;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2021 of at least 73 on a scale of 100;

(iii) That the quantitative performance of all implementing agencies had improved in 2021 compared to 2020;

(iv) That trend analysis indicated that the performance of the implementing agencies had not improved in some indicators in 2021 in relation to 2020;

(v) With appreciation, both the efforts undertaken by bilateral and implementing agencies to have open and constructive discussions with the respective national ozone units about the areas in which their services were perceived to be less than satisfactory and the satisfactory outcome of their consultations with the national ozone units concerned;

(b) To encourage national ozone units to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the bilateral and implementing agencies in assisting their governments, noting that 75 out of the 144 Article 5 countries had submitted such assessments for 2021, compared with 37 in 2020; and

(c) To request the Secretariat to prepare, in consultation with the implementing agencies, a revised set of performance indicators for consideration by the Executive Committee at its 93rd meeting, including ways to assess more effectively the performance of the implementing agencies.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/8).
(Supporting document: UNEP/OzL.Pro/ExCom/91/9).

Evaluation of the performance of the implementing agencies against their 2022 business plans

The Ninety-third Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2022 business plans and the revised set of performance indicators for the implementing agencies, as contained in document UNEP/OzL.Pro/ExCom/93/9;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2022 of at least 86 on a scale of 100;

(iii) That trend analysis indicated that the performance of implementing agencies had not improved for some indicators in 2022 compared with 2021;

(iv) That quantitative performance in 2022 had improved for two implementing agencies (UNIDO and the

World Bank) compared with 2021;

(v) With appreciation, the efforts undertaken by bilateral and implementing agencies to have open and constructive discussions with the respective national ozone units (NOUs) about the areas in which their services were perceived to be less than satisfactory and that the outcome of their consultations with the NOUs concerned had also been satisfactory;

(c) To encourage NOUs to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the bilateral and implementing agencies assisting their governments, noting that 80 out of the 144 countries had submitted such assessments for 2022, compared with 75 in 2021;

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/8 a, c).
(Supporting document: UNEP/OzL.Pro/ExCom/93/9).

Evaluation of the performance of the implementing agencies against their 2023 business plans

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2023 business plans, as contained in document UNEP/OzL.Pro/ExCom/95/9;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2023 of at least 80 on a scale of 100;

(iii) That trend analysis indicated that the performance of implementing agencies had not improved for some indicators in 2023 compared with 2022;

(iv) That quantitative performance in 2023 had improved for three implementing agencies (UNDP, UNIDO and the World Bank) compared with 2022;

(v) With appreciation, the efforts undertaken by bilateral and implementing agencies to have open and constructive discussions with the respective national ozone units (NOUs) about the areas in which their services were perceived to be less than satisfactory and that the outcome of their consultations with the NOUs concerned had also been satisfactory; and

(b) To encourage NOUs to submit, on a yearly basis and in a timely manner, their assessments of the qualitative performance of the bilateral and implementing agencies assisting their governments, noting that 88 out of the 144 countries had submitted such assessments for 2023, compared with 80 in 2022.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/7).
(Supporting document: UNEP/OzL.Pro/ExCom/95/9).

Evaluation of the performance of the implementing agencies against their 2024 business plans

The Ninety-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The evaluation of the performance of implementing agencies against their 2024 business plans, as contained in document UNEP/OzL.Pro/ExCom/97/9;

(ii) That all implementing agencies had a quantitative assessment of their performance for 2024 of at least 84 on a scale of 100;

(iii) That trend analysis indicated that the performance of implementing agencies had not improved for some indicators in 2024 compared with 2023;

(iv) That quantitative performance in 2024 had improved for two implementing agencies (UNDP and UNEP) compared with 2023;

(v) With appreciation, the efforts undertaken by bilateral and implementing agencies to have open and constructive discussions with the respective national ozone units about the areas in which their services were perceived to be less than satisfactory and that the outcome of their consultations with the national ozone units concerned had also been satisfactory; and

(b) To encourage national ozone units to submit, on a yearly basis and in a timely manner, their assessments of the

qualitative performance of the bilateral and implementing agencies assisting their Governments, noting that 93 of the 144 countries had submitted such assessments for 2024, compared with 88 in 2023.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/7)
(Supporting document: UNEP/OzL.Pro/ExCom/97/9).

PROGRESS REPORTS

The Implementing Agencies shall submit to the Executive Committee through the Secretariat:

(a) annual reports on implementation of activities of prior approved work programmes and activities related to country programmes;

(b) semi-annual progress reports;

(c) reports on disagreements by requesting countries which require Executive Committee review;

(d) revision of the current year's budget where necessary and the following year's budget and workplan; and

(e) report on interagency work programme and coordination of activities.
(UNEP/OzL.Pro/ExCom/3/18/Rev.1 Annex III (section VI.2).

Implementing agencies will provide to the Executive Committee through the Fund Secretariat, progress reports on project implementation, and identify and describe any problem areas.
(UNEP/OzL.Pro/ExCom/8/29 Annex III, para. 3.14).

The Fund Secretariat should assess project implementation status, ascertain problem areas, and offer assistance in their resolution between Executive Committee meetings.
(UNEP/OzL.Pro/ExCom/8/29 Annex III, para. 3.15).

Standard format for communicating progress

The Executive Committee requested the Secretariat to work with the Implementing Agencies to develop a standard format for communicating progress and the reasons for delays. The Secretariat should prepare an overview document which would make it easier to see the work being done by all the Implementing Agencies on a country-by-country basis. Progress reports from the Implementing Agencies must be submitted at the proper time.
(UNEP/OzL.Pro/ExCom/7/30, para. 29).
(UNEP/OzL.Pro/ExCom/9/20, para. 46).

The Twelfth Meeting of the Executive Committee agreed that there was need to monitor more closely the progress made by the Implementing Agencies, that greater uniformity and clarity in the reports should be promoted and that the information contained in them should reflect greater accountability to the Parties. In order to ensure that those goals were met, the Secretariat was to be given greater authority in instructing the agencies on the preparation of the reports
(UNEP/OzL.Pro/ExCom/12/37, para. 52).

The Twelfth Meeting, of the Executive Committee adopted a uniform format for future financial reports, and agreed that the Sub-Committee would further review this format in the light of experience gained in its use.
(UNEP/OzL.Pro/ExCom/12/37 (paras. 38, 40, and Annex III).
(Supporting document: UNEP/OzL.Pro/ExCom/12/6).

Subsequently, the Seventeenth Meeting of the Executive Committee requested the Secretariat, together with the Implementing Agencies, to adopt the mandatory format found in. Annex V.6 for reporting progress and financial information to the Executive Committee. This uniform format had been accepted to provide for greater ease of cross-referencing; consistency and use of standard reporting periods; clarification of terms; greater ease of tracking the funds through the various stages of project implementation; information on percentage of funds disbursed; and reduced duplication between Implementing Agencies' progress reports and financial reports.
(UNEP/OzL.Pro/ExCom/17/60, Decision 17/22 para. 34e).

The Eighteenth Meeting of the Executive Committee decided that the Secretariat and the Implementing Agencies should revise the format for progress and financial reporting, specifically to provide the first disbursement date for all projects approved after 1 January 1994, so that the format would provide the most comprehensive information, and to submit the revised format to the Nineteenth Meeting.
(UNEP/OzL/Pro.ExCom/18/75, Decision 18/16, para. 30).

Subsequently, the Nineteenth Meeting of the Executive Committee decided:

(a) to approve the revisions to the database format for progress and financial reporting, adopted in decision

17/22, as contained in Annex V.7 to the present report;

(b) to take note of the importance of ensuring that the information in the narrative of the report was fully consistent with that contained in the database submitted by the Implementing Agencies;

(c) that there would be two reports per year, with reporting periods concluding on 31 December for a report to be received by the Secretariat on 15 March, and 30 June for a report to be received by the Secretariat on 1 September, unless otherwise mutually agreed by the Secretariat and the Implementing Agency;

(d) to request the Implementing Agencies to include in the data submitted information on dates of approval and implementation of projects and disbursement of the funds, on a project-by-project basis, and to highlight in the narrative the reasons for any delays, since such delays could lock up Fund resources for significant periods, possibly several years;

(e) to request the Implementing Agencies as a matter of course to identify for each project whether or not an implementing agreement was already in place, so that the Executive Committee would be able to assess whether each project was likely to be implemented within a short span of time or to be significantly delayed; and

(f) to request the Implementing Agencies to provide the content of the database to the Executive Committee in diskette form, with a printout available on request.

(UNEP/OzL.Pro/ExCom/19/64, Decision 19/23, para. 43).

The Twenty-second Meeting of the Executive Committee decided:

(a) to request the Secretariat and the Implementing Agencies to include executive summaries in all future progress reports;

(b) to recall Decision 21/28 and to request the Implementing Agencies to include a "List of projects with no significant activity in the last two years" in all future progress reports, and to use the same format as used by the World Bank in its report (UNEP/OzL.Pro/ExCom/22/62).

(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/60, para. 80).

The Ninety-sixth Meeting of the Executive Committee decided:

(a) To note the review of the format for progress and financial reporting including its narrative (decision 95/91(d)) contained in document UNEP/OzL.Pro/ExCom/96/61; and

(b) To approve the revised format for progress and financial reporting including its narrative contained in annexes XXIX and XXX to the present report, noting that the new format would be implemented in 2026 for the reporting of the 2025 progress report.

(UNEP/OzL.Pro/ExCom/96/66, Decision 96/54).
(Supporting document: UNEP/OzL.Pro/ExCom/96/61)

Annual progress reports

The Twenty-second Meeting of the Executive Committee decided:

(a) to request Implementing Agencies to submit a single annual progress report in accordance with the revised calendar of meetings and work programme;

(b) that Implementing Agencies could submit updates of their reports where these updates concerned significant matters raised during discussion of the progress reports themselves;

(c) that the annual progress reports should be submitted by 1 May each year or at least eight weeks before the subsequent meeting of the Executive Committee, whichever was the earlier.

(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/16, para. 31).

The Seventy-third Meeting of the Executive Committee decided:

(c) To note:

(iii) With regard to progress and financial reports:

a. That bilateral and implementing agencies would be requested to submit their annual progress and financial reports to the Secretariat 12 weeks in advance of the last meeting of the year;

b. That the consolidated progress report and the relevant progress reports of the bilateral and implementing agencies would be considered at the last meeting of the year;

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/70(c)(iii), para.232).
(Supporting document: UNEP/OzL.Pro/ExCom/73/59).

The Ninety-sixth Meeting of the Executive Committee decided to request the bilateral and implementing agencies, taking into account national executing arrangements, to provide an update to national ozone units, on a regular basis and no less than quarterly, on the progress in the implementation of ongoing projects in their countries, including disbursements, and to indicate the support needed from the national ozone units for timely implementation of projects and submission of project proposals.

(UNEP/OzL.Pro/ExCom/96/66, Decision 96/55).

Consolidated progress report

The Twentieth Meeting of the Executive Committee decided:

(a) to take note with appreciation of the consolidated progress report;

(b) to recognize the need to ensure the approved projects were implemented as promptly as possible;

(c) to note that several causes of delay had been identified in the consolidated progress report and that a number of steps were being taken to address the causes of those delays;

(d) to encourage increased efforts in this regard;

(e) to request the Implementing Agencies to highlight in their future progress reports the measures they had adopted and the progress made in further reducing and eliminating these delays.

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/30, para. 42).
(Supporting document: UNEP/OzL.Pro/ExCom/20/40 and Corr.1).

The Twenty-fifth Meeting of the Executive Committee decided:

(a) to request the Implementing Agencies and the Treasurer to work further to reconcile data in the progress reports with the Annual Report on the Accounts of the Multilateral Fund and reduce the occurrence of data discrepancies;

(b) to endorse the Secretariat's proposal for a workshop on the requirements of progress reporting;

(c) to request the Secretariat to provide to the next meeting a list of ongoing projects up to 1992 and, if possible, 1993, with suggestions for action, to permit the Executive Committee to determine whether or not they should be cancelled.

(UNEP/OzL.Pro/ExCom/25/68, Decision 25/8, para. 30).

Consolidated progress report as at 31 December 1999

The Thirty-first Meeting of the Executive Committee decided:

(a) to take note of the consolidated progress report (UNEP/OzL.Pro/ExCom/31/8 and Corr.1);

(b) to note the levels of unobligated balances held by the Implementing Agencies and bilateral donors shown in the consolidated progress report;

(c) to encourage the Implementing Agencies to work on simplifying their internal procedures;

(d) to decide that any project preparation funding request by an Implementing Agency must be accompanied by a letter from the country in order to be approved.

(e) to monitor closely the implementation of the remaining five projects approved in 1992 on a meeting-by-meeting basis, in the context of projects with implementation delays, until those projects were completed.

(UNEP/OzL.Pro/ExCom/31/61, Decision 31/4, para. 22 (a-e)).

Consolidated progress report as at 31 December 2000

The Thirty-fourth Meeting of the Executive Committee decided:

(a) to note with appreciation the consolidated progress report of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/34/9 and Corr.1;

(d) to add a performance indicator for the timely submission of progress reports;

(e) also to add new entries for agency support costs, year of business plan, and whether or not the project was in the investment or non-investment allocation per project in the progress report database.

(UNEP/OzL.Pro/ExCom/34/58, Decision 34/4, para. 22 (a), (d), (e)).
(Supporting document: UNEP/OzL.Pro/ExCom/34/9 and Corr.1).

Consolidated progress report as at 31 December 2001

The Thirty-seventh Meeting of the Executive Committee decided:

(a) to note with appreciation the Consolidated Progress Report of the Multilateral Fund as contained in UNEP/OzL.Pro/ExCom/37/11;

(b) to request the Treasurer, the Implementing Agencies and the Secretariat to provide a full reconciliation of the Accounts of the Fund and the progress reports to the 38th Meeting of the Executive Committee;

(c) to continue to monitor training, recovery and recycling, and halon banking projects, and provide details to the Sub-Committee on those projects where delays would affect the ability of a country to comply with its obligations under the Montreal.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/9, para. 35).
(Supporting document: UNEP/OzL.Pro/ExCom/37/11).

Also, at its Thirty-seventh Meeting, the Executive Committee decided:

(i) to request the World Bank to comply with future requests from the Secretariat for providing information on such agreements in the context of progress reporting;

(m) to note the Bank's continued differences regarding basic project data and its efforts to reconcile the data with the Secretariat's Inventory of Approved Projects.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/14, para. 41 (i), (m)).

Consolidated progress report as at 31 December 2002

The Fortieth Meeting of the Executive Committee decided:

(a) to take note of the consolidated progress report of the Multilateral Fund as contained in UNEP/OzL.Pro/ExCom/40/13;

(b) to request the Implementing Agencies to take measures to reduce the amount of time taken to obtain signatures of agreements and project documents and to report thereon to the 41st Meeting of the Executive Committee, and to require letters from governments accepting the projects/agreements in the amount recommended by the Secretariat prior to final approval;

(c) also to request Implementing Agencies to resubmit the financial information in their progress reports to the Fund Secretariat no later than eight weeks prior to the 41st Meeting and to encourage them to submit the audited financial accounts no later than 1 September 2003; and

(d) further to request bilateral agencies to submit their annual progress reports by 1 May each year.

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/8, para. 46).
(Supporting document: UNEP/OzL.Pro/ExCom/40/13).

Consolidated progress report as at 31 December 2003

The Forty-third Meeting of the Executive Committee decided:

(a) to note the consolidated progress report of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/43/10;

(b) to encourage those bilateral agencies that had not reported the financial data to the Secretariat or financial closure with regard to bilateral activities to do so as a matter of urgency; and

(c) to note the slow rate of project completion during 2003 for all agencies and the lower level of phase-out than planned and to encourage Implementing Agencies and Article 5 countries to expedite project implementation.

(UNEP/OzL.Pro/ExCom/43/61, Decision 43/6, para. 53).

Consolidated progress report as at 31 December 2004

The Forty-sixth Meeting of the Executive Committee decided:

(a) to note:

  (i) the consolidated progress report of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/46/10;

  (ii) The slow rate of project completion for the second consecutive year, with the following rates of achievement: UNDP (56 per cent), UNEP (46 per cent), UNIDO (68 per cent), and the World Bank (59 per cent);

(iii) That the rates of achievement for planned ODS phase-out were as follows: UNDP (87 per cent), UNIDO (44 per cent), and the World Bank (95 per cent);

(b) to urge bilateral and Implementing Agencies and Article 5 countries to expedite project implementation;

(c) to transfer the halon banking project in Oman (OMA/HAL/41/TAS/08) from the World Bank to UNIDO; and

(d) to request the Secretariat, in collaboration with the bilateral and Implementing Agencies, to prepare for the 47th Meeting of the Executive Committee, a discussion paper outlining new options for monitoring and assessing the progress of agencies with regard to multi-year agreements, with a view to reflecting more accurately the actual progress and phase-out achieved.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/8, para. 52).
(Supporting document: UNEP/OzL.Pro/ExCom/46/10).

Consolidated progress report as at 31 December 2005

The Forty-ninth Meeting of the Executive Committee decided:

(a) to note the consolidated progress report of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/49/9;

(b) to note the slow rate of project completion for the third consecutive year and the following rates of achievement of project completion: UNDP (45 per cent), UNEP (35 per cent), UNIDO (52 per cent), and the World Bank (70 per cent);

(c) to consider the capacity of UNDP, UNIDO and the World Bank to deliver completed projects on time in the context of its review of administrative costs at its 50th Meeting;

(d) to note that the Fund Secretariat would update the consolidated progress report database following clarification from bilateral and multilateral implementing agencies on remaining data issues; and

(e) to request the Secretariat to provide a brief paper on how best to report on the ODS phase-out achieved within refrigerant management plans and the phase-out achieved in those other projects for which ODS phase-out was not fully reported.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/7, para. 65).
(Supporting document: UNEP/OzL.Pro/ExCom/49/9).

The Fiftieth Meeting of the Executive Committee decided:

(a) to note the paper on how best to report on the ODS phase-out achieved within refrigerant management plans and the phase-out achieved in those other projects for which ODS phase-out was not fully reported (follow-up to decision 49/7 (e)), as contained in document UNEP/OzL.Pro/ExCom/50/54;

(b) to request that ODS phase-out assigned to refrigerant management plans/refrigerant management plan updates, terminal phase-out management plans, halon banking, methyl bromide, CTC and TCA activities and projects and annual tranches of multi-year agreements should represent the commitments made minus any phase-out already recorded; and

(c) to note that the ODS phase-out recorded based on paragraph (b) above could be assigned on a pro-rated basis of the value of the approved activity if not otherwise agreed by the implementing agencies involved, the countries concerned and the Secretariat.

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/39 para. 162).
(Supporting document: UNEP/OzL.Pro/ExCom/50/54).

Consolidated progress report as at 31 December 2006

The Fifty-second Meeting of the Executive Committee decided:

(a) to note the consolidated progress report of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/52/10;

(b) to note the slow rate of project completion for the fourth consecutive year and the rates of achievement of project completion as follows: UNDP (33 per cent), UNEP (47 per cent), UNIDO (51 per cent), and the World Bank (48 per cent);

(c) to request the Secretariat to prepare a paper on concerns relating to the slow rate of project completion, taking into account the discussion held at the 52nd Meeting, and on options to address the issue to be considered at the 53rd Meeting; and

(d) to note the balances in agency fees held by agencies as at 31 December 2006, amounting to around US $10.88 million for the World Bank, US $8.81 million for UNDP, and US $7.14 million for UNIDO.

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/8, para. 63).
(Supporting document: UNEP/OzL.Pro/ExCom/52/10).

Consolidated progress report as at 31 December 2007

The Fifty-fifth Meeting of the Executive Committee decided:

(a) to note the consolidated progress report of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/55/9, including the projects listed with implementation delays as contained in Annex III to the present report;

(b) to urge the countries and the companies involved in ongoing projects for conversion to HCFC-based equipment to consider using the approved funding for conversion to non-HCFC alternatives where possible;

(c) to request the Fund Secretariat to identify projects where conversion to HCFC-based equipment was still being considered, to assess briefly the feasibility of conversion to non-HCFC alternatives, and to report to the Executive Committee on the matter at the 56th Meeting;

(d) to request the Multilateral Fund Secretariat to consult the Global Environment Facility and the implementing agencies on resolving co-financing issues with respect to the approval of chiller projects and, when applicable, the related release of funding, and to report to the Executive Committee at its 56th Meeting on progress made in all chiller projects; and

(e) that if funds were to be disbursed before the stated conditions were met, the implementing agency should bear the support costs associated with the project, to be deducted either from the UNEP's Compliance Assistance Programme (CAP) budget or the applicable implementing agencies' core unit support costs.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/5, para.563).
(Supporting document: UNEP/OzL.Pro/ExCom/55/9).

Consolidated progress report as at 31 December 2008

The Fifty-eighth Meeting of the Executive Committee decided:

(a) to note:

  (i) the consolidated progress report of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/58/10;

  (ii) with concern that HCFC phase-out management plan (HPMP) preparation activities were expected to take longer than originally planned in general and to urge implementing agencies to complete HPMP development, taking into account in particular decision 54/39(e and h); and

(b) to urge implementing agencies to follow the operational guidelines for progress reporting and use the Secretariat's verification programme to avoid data inconsistencies.

(UNEP/OzL.Pro/ExCom/58/53, Decision 58/8, para.56).
(Supporting document: UNEP/OzL.Pro/ExCom/58/10).

Consolidated progress report as at 31 December 2009

The Sixty-first Meeting of the Executive Committee decided:

(a) To note the consolidated progress report of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/61/13;
(b) In view of the delays occurring in many of the chiller projects approved by the Executive Committee, to encourage implementing agencies to apply lessons learned from chiller activities in future HCFC projects;
(c) To note with concern, that for the second consecutive year HCFC phase-out management plan (HPMP) preparation activities were in general expected to take longer than had been planned and to urge bilateral and implementing agencies to complete HPMP development as soon as possible, in close consultation with National Ozone Units;
(d) To request bilateral and implementing agencies to advise all countries that they could seek co-financing for maximizing climate co-benefits within the HPMP, although doing so should be without prejudice to the timely submission of the HPMP;
(e) To note the modifications to tonnage in the Inventory of Approved Projects for the projects indicated in Annex III to document UNEP/OzL.Pro/ExCom/61/13;
(f) To request the lead agencies for the respective countries specified in Annex VII to the present report to

provide information on the latest status to the 62nd Meeting of the Executive Committee that:

(i) Verifies the Secretariat's assessment of the status of implementing agencies' efforts and progress towards establishing and modifying relevant HCFC licensing systems to address the accelerated HCFC control measures;

(ii) Specifies actions to endeavour to obtain co-financing; and

(g) To urge bilateral and implementing agencies to submit HPMPs and HCFC sector plans to the 62nd and 63rd Meetings of the Executive Committee, bearing in mind that the first HCFC control measures would come into force in less than three years.

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/11, para.44).
(Supporting document: UNEP/OzL.Pro/ExCom/61/13).

Consolidated progress report as at 31 December 2010

The Sixty-fourth Meeting of the Executive Committee decided:

(a) To note:

(i) The consolidated progress report of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/64/9;

(ii) That:

a. Project document/agreement signatures had not been reported for 26 of the 61 approved HCFC phase-out management plans (HPMPs);

b. Twenty-one countries with approved institutional strengthening projects did not have the signed project document/agreement needed to initiate project implementation and eight countries had outstanding progress and financial reports due to agencies to enable the release of funding;

c. Co-financing had been obtained for chiller demonstration projects;

d. Metered dose inhaler (MDI) CFC phase-out projects were progressing but would largely be completed after 2011;

(b) To urge:

(i) The respective governments of the following countries that planned to complete their refrigerant management plans, terminal phase-out management plans and national phase-out plans for CFC phase-out by 2012 to make every effort to integrate those activities into HPMPs as appropriate: Barbados, Brunei Darussalam, Guinea Bissau, Haiti, Kuwait, Maldives, Myanmar, Nicaragua, Peru, Sri Lanka, Suriname and Yemen;

(ii) Bilateral and implementing agencies to expedite the necessary signing of project documents/agreements to enable the initiation of approved HPMPs;

(iii) The respective governments of the following countries whose HPMPs appeared to be at an initial stage of preparation to expedite their efforts to submit their HPMPs as soon as possible to enable the initiation of activities to facilitate compliance with the 2013 freeze and 2015 control measures for HCFC phase-out: Barbados, Brunei Darussalam, Eritrea, Haiti, Mauritania, Peru and the Philippines;

(iv) The respective governments of the following countries to expedite the completion of their individual CFC phase-out investment projects that were planned to be completed after 2011:

a. Bangladesh, China, Colombia, India (2) and Pakistan, with respect to their MDI projects;

b. China with respect to the pharmaceutical aerosol sector project;

(v) The respective governments of the following countries with outstanding preparatory activities for ODS disposal demonstration projects to expedite the submission of their requests: Algeria, Brazil, China, Colombia, India, Indonesia, Lebanon, Mexico (World Bank project), Nigeria, the Philippines, and Turkey;

(c) To request the Fund Secretariat:

(i) To convene a meeting with the bilateral and implementing agencies to define the exact nature, content and timing of status information to be provided in the progress reports while exploring ways to further systematize and streamline reporting on progress to the Executive Committee across the spectrum of reports;

(ii) To report on meeting outcomes to the Executive Committee at its 65th meeting;

(iii) To consider in the context of its review of administrative costs to be submitted to the 65th meeting pursuant to decision 62/25(c):

a. Whether the current administrative cost regime continued to be appropriate in light of the changing roles and portfolios of implementing agencies;

b. Options for ensuring that the overall administrative cost ratio remained within the historical average or lower; and

(d) To request bilateral and implementing agencies to indicate planned completion dates for activities completed prior to the submission of the annual progress and financial report that reflect actual project completion.

(UNEP/OzL.Pro/ExCom/64/53, Decision 64/6, para.43).
(Supporting document: UNEP/OzL.Pro/ExCom/64/9).

Consolidated progress report as at 31 December 2011

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The consolidated progress report of the Multilateral Fund contained in document UNEP/OzL.Pro/ExCom/67/10;

(ii) With appreciation, the implementing agencies' efforts to address decision 66/16(d) in the limited time available to them;

(b) To encourage bilateral and implementing agencies to fully implement all of the elements required for the Remarks column, as specified in the Operational Guidelines for progress reporting;

(c) To recommend that countries expedite the completion of the following individual CFC phase-out projects that had planned post-2012 completion dates: metered-dose inhaler projects in Argentina, China, India and Pakistan; one chiller project in Côte d'Ivoire; one solvent project in Argentina; and one pharmaceutical aerosol sector project in China;

(d) To request bilateral and implementing agencies to submit outstanding project completion reports (PCRs) for multi-year agreements completed more than six months previously as soon as possible and to encourage the implementing agencies to submit PCRs for stage I of HCFC phase-out management plan (HPMPs) before submission of the second tranche of stage II of HPMPs; and

(e) To request bilateral and implementing agencies to identify in PCRs the amount of funds from the balances for CFC activities used for HCFC activities.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/8, para.42).
(Supporting document: UNEP/OzL.Pro/ExCom/67/10).

Consolidated progress report as at 31 December 2012

The Seventieth Meeting of the Executive Committee decided:

(a) To note the consolidated progress report of the Multilateral Fund as contained in document UNEP/OzL.Pro/ExCom/70/10;

(b) To request implementing agencies:

(i) To confirm whether the activities reported for the review period represented all those planned for it, or systematically to provide for each project the list of activities planned but not implemented, the reasons for the delay in implementing the activities, the action plan for resolving the issues, and whether or not the delay in implementing specific activities would have an impact on the project completion date in the Remarks column of their annual progress and financial reports;

(ii) Not to incur any new commitments and to return, by the end of 2013, the fund balances for the following projects approved before 2009, for substances with 1 January 2010 phase out:

a. For CFC and ODS phase-out, the projects indicated in Table 1 of Annex VII to the present report, with the exception of the return of balances as per the following dates for UNEP's CFC phase-out plan in the Philippines (March 2014), UNDP's CFC phase-out plan in Saint Kitts and Nevis (January 2014), and UNIDO's ODS phase out plan in Yemen (June 2014);

b. For halon, the halon banking project in the Dominican Republic (DOM/HAL/51/TAS/39) and UNEP's global halon banking project (GLO/HAL/52/TAS/281), with the exception of the return of balances as per the following date for UNDP's halon banking project in Chile (CHI/HAL/51/TAS/164) (January 2014);

c. For CTC, the CTC phase-out plan in India implemented by the World Bank; and

(iii) Not to incur any new commitments and to return project preparation fund balances for approved HCFC phase-out management plans, as indicated in Table 2 of Annex VII to the present report, by the end of 2013.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/7, para.53).
(Supporting document: UNEP/OzL.Pro/ExCom/70/10).

Consolidated progress report as at 31 December 2013

The Seventy-third Meeting of the Executive Committee decided:

(a) To note:

(i) The consolidated progress report of the Multilateral Fund as at 31 December 2013 contained in documents UNEP/OzL.Pro/ExCom/73/10 and Corr.1;

(ii) With appreciation, the efforts undertaken by implementing agencies in reporting the 2013 activities and submitting reporting formats, thus ensuring smooth implementation of decision 70/7(b)(i);

(iii) That the implementing agencies would report to the 74th meeting on 15 projects with implementation delays and 78 projects recommended for additional status reports, as contained in Annexes IV and V, respectively, to the present report;

(b) That the implementing agencies should not be allowed to revise planned completion dates of CFC, carbon tetrachloride and halon projects beyond those dates decided by the Executive Committee, except when the Executive Committee had so decided, or where the Executive Committee had agreed that funds could be transferred to a HCFC phase-out management plan; and

(c) To allow the extension of the approved completion dates of the national phase out plans for Iraq, until December 2015, and for Yemen, until June 2015, owing to the political and security situation within those countries.

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/8 para.50).
(Supporting document: UNEP/OzL.Pro/ExCom/73/10 & Corr.1).

Consolidated progress report as at 31 December 2014

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note:
(i) The consolidated progress report of the Multilateral Fund as at 31 December 2014 contained in document UNEP/OzL.Pro/ExCom/75/12;
(ii) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting on 2014 activities;
(iii) That the bilateral and implementing agencies would report to the 76th meeting on 13 projects with implementation delays and 69 projects recommended for additional status reports, as indicated in Annexes IV and V, respectively, to the present report;

(b) To extend the approved completion dates for the:
(i) National phase-out plans in Iraq and Yemen, under joint UNEP and UNIDO implementation, to April 2017, as those countries faced implementation issues due to political and institutional difficulties;
(ii) Phase-out of methyl bromide project in Trinidad and Tobago (TRI/FUM/65/TAS/28) under UNEP implementation, to March 2016;

(c) To request the Secretariat to prepare a paper for the 76th meeting to inform the Executive Committee of issues relating to the recording of disbursements for activities associated with tranches of a multi-year agreement and the planned completion dates of tranches; and

(d) To encourage bilateral and implementing agencies to assist Article 5 countries in completing project preparation activities for HCFC phase-out management plans as soon as possible, and no later than current completion dates.

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/10 para.88).

(Supporting document: UNEP/OzL.Pro/ExCom/75/12).

The Seventy-sixth meeting of the Executive Committee decided:

(a) To note the paper on issues relating to the recording of disbursements and planned completion dates of tranches of a multi-year agreement (MYA) (decision 75/10(c)), contained in document UNEP/OzL.Pro/ExCom/76/11;

(b) To request bilateral and implementing agencies:

(i) To establish a system, if one was lacking, to ensure that they were able to confirm whether the 20 per cent disbursement threshold of a tranche had been achieved, in line with decision 72/24(b), for all stage II and subsequent stages of HCFC phase-out management plans (HPMPs);

(ii) To report the same funding disbursement data in the tranche requests and the annual progress reports;

(iii) To indicate, when submitting the tranche requests of HPMPs, the "planned completion dates" that reflected when the activities in the tranche were expected to be completed, on the understanding that any change would have to be approved by the Executive Committee, and that updates to latest planned completion dates of tranches would continue to be reported in annual progress reports; and

(c) To further note the deletion of the MYA spreadsheets contained in the annual progress and financial report format because the information on activities and disbursements therein was also provided when reporting on the disbursement of funding tranches of the HPMPs.

UNEP/OzL.Pro/ExCom/76/66, Decision 76/14, para 71)
(Supporting document: UNEP/OzL.Pro/ExCom/76/11).

Consolidated progress report as at 31 December 2015

The Seventy-seventh meeting of the Executive Committee decided:

(a) To note:
(i) The consolidated progress report of the Multilateral Fund as at 31 December 2015 contained in document UNEP/OzL.Pro/ExCom/77/11;
(ii) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting 2015 activities;
(iii) That the bilateral and implementing agencies would report to the 79th meeting on 16 projects with implementation delays and 116 projects recommended for additional status reports, as contained in Annexes III and IV, respectively, to the present report;

(b) Further to note:
(i) That one component of the CTC phase-out plan in India (IND/PRO/75/INV/447) would be completed in April 2017 and any remaining balances would be returned by December 2017;
(ii) That project completion reports should be provided separately for the phase-out of methyl bromide in consumption and production sector plans in China;

(c) To extend the approved completion dates for the following projects:
(i) The two technical assistance components of the CTC phase-out plan in India (IND/PHA/45/INV/389 and IND/PHA/75/INV/463), to November 2017;
(ii) The methyl bromide national phase-out plan in China (CPR/FUM/72/INV/542), to December 2018 (or as soon as possible), with any remaining balances being returned;
(iii) The national phase-out plan (NPP) in Iraq implemented by UNEP (IRQ/PHA/58/TAS/10 and IRQ/PHA/63/TAS/14) and UNIDO (IRQ/PHA/58/INV/09), to June 2017, owing to issues relating to implementation under the current political and institutional difficulties in the country;

(d) To freeze the tranche funding for the NPP (YEM/PHA/55/INV/28, YEM/PHA/55/INV/31 and YEM/PHA/60/INV/36) and stage I of the HCFC phase-out management plan (HPMP) (YEM/PHA/68/TAS/39 and YEM/PHA/68/TAS/40) for Yemen, on the condition that the funding could be reinstated and the agreements reactivated once conditions in the country had improved and once the Government and relevant implementing agencies had submitted a revised plan of action taking into account the reallocation of the funding tranches of the agreements;

(e) To request bilateral and implementing agencies, starting from the 79th meeting and continuing until projects had been completed:
(i) To submit reports for all pilot demonstration projects for ODS disposal as projects with specific

reporting requirements;

(ii) To submit reports for all ongoing chiller projects as projects with specific reporting requirements;

(f) Further to request bilateral and implementing agencies to report project preparation activities as completed no later than six months after approval of the HPMP by the Executive Committee and to return fund balances from those activities no later than 18 months after approval of the HPMP;

(g) To request implementing agencies to revise their progress report disbursement data for the following tranches of HPMPs, as appropriate, in order to be in line with decision 76/14(b): BAH/PHA/68/TAS/28 (UNEP); BRA/PHA/73/INV/306 and BRA/PHA/74/INV/307 (UNDP); CHI/PHA/71/INV/179 (UNDP); CHI/PHA/71/TAS/180 (UNEP); IDS/PHA/71/INV/202 (World Bank); and MEX/PHA/71/INV/168 (UNDP);

(h) To urge bilateral and implementing agencies to take appropriate actions to complete and submit, by January 2017, as many reports as possible on surveys of ODS alternatives to enable the Secretariat to provide an analysis of the results of such surveys for consideration by the Executive Committee at its 78th meeting, in line with decision 74/53(h);

(i) That no more than two institutional strengthening projects should be ongoing at the same time;

(j) That projects where 100 per cent of the funds had been reported to have been disbursed should be completed within one year of the moment when the full disbursement had been reported;

(k) To reiterate that the latest planned project completion dates in annual progress reports should represent the agency's best estimation of the expected completion date;

(l) That any change in project completion dates should be accompanied by a clear rationale for the extension and, in cases where the Executive Committee had established a completion date, any request for an extension would have to be submitted for approval by the Executive Committee; and

(m) That project completion reports should continue to be provided on each agreement and each project, without being combined into a single report.

(UNEP/OzL.Pro/ExCom/77/76, Decision 77/8, para 56(a)-(m))
(Supporting document: UNEP/OzL.Pro/ExCom/77/11).

Consolidated progress report as at 31 December 2016

The Seventy–ninth Meeting of the Executive Committee decided:

(a) The consolidated progress report of the Multilateral Fund as at 31 December 2016 contained in document UNEP/OzL.Pro/ExCom/79/8;

(b) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting the 2016 activities; and

(c) That the bilateral and implementing agencies would report to the 80th meeting on 109 ongoing projects or tranches, including 11 projects with implementation delays and 98 recommended for additional status reports, as contained in Annexes II to VI to the present report.

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/7, para 43)
(Supporting document: UNEP/OzL.Pro/ExCom/79/8).

The Eightieth Meeting of the Executive Committee decided:

(b) To request UNEP to report on the transfer of funds to beneficiaries when submitting information on the progress of approved projects and activities, and to provide a description of actions undertaken during implementation.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/10, para 62)
(Supporting document: UNEP/OzL.Pro/ExCom/80/12).

Consolidated progress report as at 31 December 2017

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:

(i) The consolidated progress report of the Multilateral Fund as at 31 December 2017 contained in document UNEP/OzL.Pro/ExCom/82/14;

(ii) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting the 2017 activities;

(iii) That the bilateral and implementing agencies would report, at the 83rd meeting, on four projects with

implementation delays and 84 ongoing projects or tranches recommended for additional status reports, as contained in Annexes III to VII to the present report;

(b) To remind bilateral and implementing agencies that, in line with decision 77/8(l), any request for an extension would have to be submitted for approval by the Executive Committee in advance of the project completion date, noting that no new commitments were to be made before the extension had been approved; and

(c) To request bilateral and implementing agencies:

(i) To return balances from the previous phase of institutional strengthening projects in cases where two phases were ongoing, no later than two years from the approval date of the most recent phase, in line with decision 77/8(i); and

(ii) To provide an update, prior to the last meeting of every year, on the countries for which requests for renewal of institutional strengthening projects had not been submitted for two years.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/11).
(Supporting document: UNEP/OzL.Pro/ExCom/82/14).

Consolidated progress report as at 31 December 2018

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note:

(i) The consolidated progress report of the Multilateral Fund as at 31 December 2018 contained in document UNEP/OzL.Pro/ExCom/84/16;

(ii) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting their 2018 activities;

(iii) That the bilateral and implementing agencies would report, at the 85th meeting, on five projects with implementation delays and 65 ongoing projects or tranches recommended for additional status reports, as contained in Annexes V to VIII to the present report;

(iv) That the Secretariat, in cooperation with the bilateral and implementing agencies, would revise the progress report database by incorporating a CO2-equivalent metric tonne measurement for Annex F substances, calculated as the consumption or production in metric tonnes multiplied by the global-warming potential of the substance as specified in Annex F to the Montreal Protocol, and to report those values in the progress reports submitted at the 88th meeting and in all future progress reports;

(b) To request the Secretariat to submit, at the 85th meeting, an additional report on the HFC-related investment projects and enabling activities funded using the additional contributions by a group of 17 non-Article 5 Parties, identifying the countries for which the projects had been approved and providing an overview of the objectives, status of implementation, key findings and lessons learned, the amounts of HFC phased out where applicable, the level of funds approved and disbursed and potential challenges in completing the projects and activities, on the understanding that that information would be provided on an individual basis for the HFC-related investment projects and on an aggregated basis for the HFC enabling activities; and

(c) To request the Secretariat and the bilateral and implementing agencies to include the information set out in sub-paragraph (b) above in all future consolidated progress reports and individual progress reports, respectively, until all the HFC-related investment projects and enabling activities had been completed.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/12).
(Supporting document: UNEP/OzL.Pro/ExCom/84/16).

Consolidated progress report as at 31 December 2019

The Eighty-sixth Meeting of the Executive Committee decided to note:

(a) The consolidated progress report of the Multilateral Fund as at 31 December 2019 contained in document UNEP/OzL.Pro/ExCom/86/15;

(b) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting their 2019 activities; and

(c) That the bilateral and implementing agencies would report, at the 87th meeting, on the 94 projects with implementation delays and 55 ongoing projects or tranches of multi-year agreements recommended for additional status reports contained in Annexes III to VII to the present report.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/13).
(Supporting document: UNEP/OzL.Pro/ExCom/86/15).

Consolidated progress report as at 31 December 2020

The Eighty-eighth Meeting of the Executive Committee decided to note:

(a) The consolidated progress report of the Multilateral Fund as at 31 December 2020 contained in document UNEP/OzL.Pro/ExCom/88/12;
(b) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting their 2020 activities; and
(c) That the bilateral and implementing agencies would report, at the 90th meeting, on 129 projects with implementation delays and 53 ongoing projects or tranches of multi-year agreements recommended for additional status reports, as contained in Annex I of each individual progress report of bilateral and implementing agencies **[as contained in Annexs III to VI to the present report].**

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/11).
(Supporting document: UNEP/OzL.Pro/ExCom/88/12).

Consolidated progress report as at 31 December 2021

The Ninety-first Meeting of the Executive Committee decided to note:

(a) The consolidated progress report of the Multilateral Fund as at 31 December 2021 contained in document UNEP/OzL.Pro/ExCom/91/12;
(b) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting their 2021 activities; and
(c) That the bilateral and implementing agencies would report, at the 92nd meeting, on 109 projects with implementation delays and 37 ongoing projects or tranches of multi year agreements recommended for additional status reports, as contained in Annexes IV to VIII to the present report.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/10).
(Supporting document: UNEP/OzL.Pro/ExCom/91/12).

Consolidated progress report as at 31 December 2022

The Ninety-third Meeting of the Executive Committee decided to note:

(a) The consolidated progress report of the Multilateral Fund as at 31 December 2022 contained in document UNEP/OzL.Pro/ExCom/93/14;
(b) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting their 2022 activities; and
(c) That the bilateral and implementing agencies would report at the 94th meeting on 105 projects with implementation delays and 16 ongoing projects recommended for additional status reports, as contained in annexes III to VII to the present report.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/11).
(Supporting document: UNEP/OzL.Pro/ExCom/93/14).

Consolidated progress report as at 31 December 2023

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note:
    (i) The consolidated progress report of the Multilateral Fund as at 31 December 2023 contained in document UNEP/OzL.Pro/ExCom/95/14;
    (ii) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting their 2023 activities;
    (iii) That the bilateral and implementing agencies would report, at the 96th meeting, on 114 projects with implementation delays and 11 ongoing projects recommended for additional status reports, as contained in annexes V to IX to the present report;
(b) To request bilateral and implementing agencies to provide an update, prior to the last meeting of every year, on the countries for which requests for renewal of institutional strengthening projects had not been submitted for three years, instead of two years as specified in decision 82/11(c)(ii); and
(c) To request the Secretariat to provide, in the consolidated progress report as at 31 December 2024, a final report on the achievements of the six investment projects funded using the additional voluntary contributions for fast-start support for HFC phase-down.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/12).
(Supporting document: UNEP/OzL.Pro/ExCom/95/14).

Consolidated progress report as at 31 December 2024

The Ninety-seventh Meeting of the Executive Committee decided to note:

(a) The consolidated progress report of the Multilateral Fund as at 31 December 2024, including the final report on the achievements of the six investment projects funded using the additional voluntary contributions for fast-start support for HFC phase-down pursuant to decision 95/12(c), contained in document UNEP/OzL.Pro/ExCom/97/11;

(b) With appreciation, the efforts undertaken by bilateral and implementing agencies in reporting their 2024 activities; and

(c) That the bilateral and implementing agencies would report, at the 98th meeting, on 78 projects with implementation delays and 14 ongoing projects recommended for additional status reports, as contained in annexes IV to VIII to the present report.

(UNEP/OzL.Pro/ExCom/97/91, Decision 97/9).
(Supporting document: UNEP/OzL.Pro/ExCom/97/11).

ODS phase-out data in progress reports

The Seventeenth Meeting of the Executive Committee decided to request Implementing Agencies, in preparing their progress reports for future meetings, to highlight data on how many tonnes of ODS had been phased out both since the Sixteenth Meeting of the Executive Committee and since the establishment of the Fund, consistent with the Uniform Format for Progress and Financial Reports approved at that Meeting.
(UNEP/OzL.Pro/ExCom/17/60, Decision 17/24 para. 38a).

Financial report

The Executive Committee requested the Implementing Agencies to provide information on "funds disbursed" at the same level of detail as given in the approval of the Executive Committee and as recorded in the Consolidated Progress Report.
(UNEP/OzL.Pro/ExCom/10/40, para. 79).

The Seventeenth Meeting of the Executive Committee decided:

(a) to require the Implementing Agencies to indicate disbursements against Executive Committee approvals and to indicate savings or deficits for all completed work programme and investment project approvals;

(b) to offset savings and interest reported against approvals given at the present Meeting;

(c) that cost savings resulting from investment project implementation should not be permitted to be offset against cost overruns, except for work programme activities where:

(i) no contingency fees are included;

(ii) the amounts involved total no more than 5 per cent of the value of the project;

(iii) the amounts to be offset fall within the overall financial envelope of the Implementing Agency;

(iv) the work programme concerned was approved by the Executive Committee before 1 January 1995.

(UNEP*/OzL.Pro/ExCom/17/60, Decision 17/22 paras. 34a, 34b, 34c).*

The Twentieth Meeting of the Executive Committee, noting that problems of comparability had occurred in that, while the World Bank reported funds disbursed as actual expenditures, the three United Nations agencies reported them as actual expenditures plus obligations, decided:

(a) that "funds disbursed", as reported in the progress reports by the Implementing Agencies to the Executive Committee, were actual recorded expenditures, not including unliquidated obligations;

(b) to take note that actual recorded expenditures did not fully reflect actual progress in project implementation.
(UNEP/OzL.Pro/ExCom/20/72, Decision 20/13, para. 24).

The Twentieth Meeting of the Executive Committee decided to request the Sub-Committee on Financial Matters to consider the implications of decision 17/22 with regard to UNEP's request for adjustments to project approvals.
(UNEP/OzL.Pro/ExCom/20/72, Decision 20/33, para. 45(b).

Slow rate of project completion

The Fifty-third Meeting of the Executive Committee decided:

(a) to note the paper on concerns relating to the slow rate of project completion and options to address the issue (follow-up to decision 52/8(c)) as contained in document UNEP/OzL.Pro/ExCom/53/62; and

(b) to request bilateral and implementing agencies to provide planned completion dates for ongoing projects at the last Meeting of the Executive Committee each year.

(UNEP/OzL.Pro/ExCom/53/67,Decision 53/38 para. 204).
(Supporting document: UNEP/OzL.Pro/ExCom/53/62).

Closure of project preparation accounts

The Thirty-first Meeting of the Executive Committee decided:

(f) to request the Secretariat to consult with the Implementing Agencies on the feasibility of closing project preparation accounts annually or biennially and to submit a concise report on the matter to the Executive Committee at its Thirty-second meeting.

(UNEP/OzL.Pro/ExCom/31/61, Decision 31/4, para. 22 (f)).

The Thirty-second Meeting of the Executive Committee decided:

(a) project preparation activities approved at the first or second Executive Committee Meeting in a particular year should be completed within 12 months and financially completed (closed) by 31 December of the first year following approval, at the latest, to allow sufficient time for closure of financial accounts and payments of all outstanding obligations (for example, a project approved in July 2000 would be completed by August 2001 and financially completed by 31 December 2002);

(b) project preparation activities approved at the last Executive Committee Meeting in a particular year should be financially completed (closed) by 31 December of the second year following approval (for example, a project approved in November 2000 would be completed by December 2002 and financially completed by December 2002);

(c) project preparation with duration that exceed 12 months should be accompanied by an explanation of the reason for the longer duration;

(d) that it be recognized that, in certain cases, such as the preparation of umbrella projects, sector plans, RMPs and terminal phase-out projects, project preparation might take longer.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/5, para. 16).

TRANCHE SUBMISSION DELAYS

The Forty-ninth Meeting of the Executive Committee decided:

(a) to note the information on annual tranches of multi-year agreements (MYAs) submitted to the Secretariat by Germany, UNDP, UNIDO, and the World Bank as contained in the document on annual tranche submission delays (UNEP/OzL.Pro/ExCom/49/17);

(b) to agree to the changes in due dates for specific annual tranches as indicated in the following table;

Country	Agency	Project title	Tranches	Proposed change	Reason for change	49th Meeting submission
Bangladesh	UNDP	National ODS phase-out plan	2007 due in 2007	Second Meeting	To accommodate time required to complete performance verification of the previous year.	Request for the release of all tranches at the 52nd Meeting.
Bangladesh	UNEP	National ODS phase-out plan	2007 due in 2007	Second Meeting	To accommodate time required to complete performance verification of the previous year.	Request for the release of all tranches at the 52nd Meeting.
Lebanon	UNDP	National phase-out management plan for Annex A – Group I substances (CFCs)	2007 due in 2007	Second Meeting	To accommodate time required to complete performance verification of the previous year.	Letter received.
Mauritius	Germany	Implementation of an ODS terminal phase-out management	2005	Third Meeting	Lack of necessary funds for next tranche.	Germany indicated that the words in the letter from the Government, "later in 2006",

Country	Agency	Project title	Tranches	Proposed change	Reason for change	49th Meeting submission
		plan				meant the third meeting of the year
Lesotho	Germany	Terminal CFC phase-out management plan	2005	Third Meeting	Lack of necessary funds for next tranche.	Germany indicated that the words in the letter from the Government, "later in 2006", meant the third meeting of the year

(c) to note that 13 of the 17 annual tranches of MYAs that were due for submission were submitted on time to the 49th Meeting; and

(d) to note that letters should be sent to implementing agencies and the relevant Article 5 Governments for the following annual tranches due for submission to the 49th Meeting but not submitted for the reasons indicated below and to encourage them to submit these annual tranches to the 50th Meeting:

Country	Agency	Project title	Annual tranche	Reason for delay
Kenya	Germany	Technology transfer leading to methyl bromide phase-out in soil fumigation in all other horticulture	2006	Need to submit along with the companion UNDP project.
Libya	UNIDO	National phase-out plan	2006	Pending verification report.
Macedonia	UNIDO	Terminal phase-out management plan for CFCs	2006	Pending verification report.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/15, para. 92).
(Supporting document: UNEP/OzL.Pro/ExCom/49/17).

The Fiftieth Meeting of the Executive Committee decided:

(a) to note the information on annual tranches of multi-year agreements submitted to the Secretariat by France, Germany, UNDP, UNIDO, and the World Bank as contained in the documents on annual tranche submission delays (UNEP/OzL.Pro/ExCom/50/13 and Corr.1);

(b) to note that 38 of the 49 annual tranches of multi-year agreements due for submission had been submitted to the 50th Meeting on time, but that seven of them could not be considered for approval either because the submission was incomplete, a condition of approval had not been met, and/or the project document had not been signed;

(c) that letters should be sent to the relevant countries and agencies for the following annual tranches due for submission to the 50th Meeting but not submitted, with reasons given for the delay, encouraging the relevant Article 5 governments and implementing agencies to submit them to the 51st Meeting:

Country	Agency	Sector	Tranches	Reason not submitted provided by the implementing agency
Antigua and Barbuda	World Bank	CFC phase-out	2006	The annual programme could not be completed and submitted until a grant agreement had been put in place.
Bahamas	World Bank	CFC phase-out	2005	There were inconsistencies in the verification audit and the draft annual plan provided to the Bank that need to be resolved. The tranche is being deferred until the 51st Meeting
Bangladesh	UNDP	ODS phase-out	2005	Signature of the project document is still delayed due to the related MDI issue.
Bangladesh	UNDP	ODS phase-out	2006	Signature of the project document is still delayed due to the related MDI issue.
Bangladesh	UNEP	ODS phase-out	2005	The related MDI issue.
Bangladesh	UNEP	ODS phase-out	2006	The related MDI issue.
Bosnia and Herzegovina	UNIDO	ODS phase-out	2005	The verification audit of the 2005 consumption could not be completed on time.
Islamic Republic of Iran	UNIDO	CFC phase-out (refrigeration servicing/assembly/ solvents)	2007 due in 2006 (as per 2006 business plan)	Submitted to the 48th Meeting but withdrawn at the request of the Secretariat.

Country	Agency	Sector	Tranches	Reason not submitted provided by the implementing agency
Islamic Republic of Iran	UNIDO	CFC phase-out (refrigeration servicing/assembly/ solvents)	2008 due in 2006 (as per 2006 business plan)	Submitted to the 48th Meeting but withdrawn at the request of the Secretariat.
Kenya	France	CFC phase-out	2005	Submitted to the 48th Meeting but withdrawn at the request of the Secretariat.

(d) that letters should be sent to the relevant countries and agencies for the following annual tranches submitted to the 50th Meeting but not considered for approval for the reasons indicated, encouraging the relevant Article 5 governments and implementing agencies to submit them as annual tranches to the 51st Meeting:

Country	Agency	Sector	Tranches	Reason the submission not considered for approval
China	World Bank	Foam	2007 due in 2006	Milestone not achieved. Approval will be considered at the 51st Meeting.
China	UNIDO	Refrigeration servicing	2006	Verification report not submitted.
Cuba	UNDP	ODS phase-out	2006	Agreement not signed and submission agreed for the 51st Meeting.
Libyan Arab Jamahiriya	UNIDO	CFC phase-out	Final tranche	Annual programme did not address all remaining consumption
Pakistan	UNIDO	CTC phase-out	2005	Verification was inadequate and there were compliance issues.
Philippines	World Bank	CFC phase-out	2006	Missing verification report.
Venezuela	UNIDO	CFC phase-out	2006	Previous tranche not released prior to the submission of the current request and verification report not received in time.

(UNEP/OzL.Pro/ExCom/50/62, Decision 50/11 para. 72).
(Supporting document: UNEP/OzL.Pro/ExCom/50/13 and Corr.1).

The Fifty-first Meeting of the Executive Committee decided:

(a) the information on annual tranches of multi-year agreements (MYAs) submitted to the Secretariat by France, UNDP, UNEP, UNIDO and the World Bank contained in the document on annual tranche submission delays (UNEP/OzL.Pro/ExCom/51/16);

(b) that 16 of the 38 annual tranches of MYAs due for submission had not been submitted on time to the 51st Meeting; and

(c) that letters should be sent for the annual tranches listed below that were due for submission to the 51st Meeting with the reasons indicated for the delay, and encouraging implementing agencies and the relevant Article 5 countries to submit those annual tranches to the 52nd Meeting:

Agency	Country	Sector	Tranches	Agencies' comments
World Bank	Antigua and Barbuda	CFC phase-out	2006	The grant agreement is not yet in place.
UNDP and UNEP	Bangladesh	ODS phase-out	2005 and 2006	Project document reported as having been signed at the meeting.
UNIDO	Bosnia and Herzegovina	ODS phase-out	2005	Lack of cooperation.
UNDP and UNEP	Dominica, Grenada, Saint Kitts and Nevis and Saint Vincent and the Grenadines	CFC phase-out	2007	UNEP and UNDP are developing administrative procedures to implement the 2007 tranches regionally for the four countries involved.

Agency	Country	Sector	Tranches	Agencies' comments
France	Kenya	CFC phase-out	2005	ODS regulations have not been gazetted.
UNIDO	Libyan Arab Jamahiriya	CFC phase-out	2006	The unclear status of the NOU.
UNIDO	Pakistan	CTC phase-out	2005	Awaiting incorporation of action plan recently approved by the Meeting of the Parties.
World Bank	Venezuela	CFC production	2007	Delay in the travel of the consultant to undertake the verification audit.

(UNEP/OzL.Pro/ExCom/51/46, Decision 51/15 para. 98).
(Supporting document: UNEP/OzL.Pro/ExCom/51/16).

The Fifty-third Meeting of the Executive Committee decided:

(a) to note:

(i) the information on annual tranches of multi-year agreements submitted to the Secretariat by France, UNDP, UNEP, UNIDO and the World Bank contained in the document on annual tranche submission delays (UNEP/OzL.Pro/ExCom/53/13);

(ii) that 14 of the 57 annual tranches of multi-year agreements due for submission had not been submitted on time to the 53rd Meeting, and 10 had been withdrawn because of the low levels of disbursement of funds and/or slow implementation;

(b) that letters should be sent to the implementing agencies and the relevant Article 5 governments for the annual tranches listed below that had been due for submission to the 53rd Meeting, together with the reasons indicated for the delay, and encouraging them to submit those annual tranches to the 54th Meeting unless otherwise indicated:

Country	Agency	Sector	Tranches	Reason for delay
Albania	UNIDO	ODS Phase-out	2007	The activities under prior tranches are only expected to be completed by the end of 2007 or the beginning of 2008.
Antigua and Barbuda	World Bank	CFCs Phase-out	2006	Awaiting signature of the grant agreement.
Bangladesh	UNDP	ODS Phase-out	2007	Tranches for 2005 and 2006 were submitted without verification reports and the 2007 tranche was expected to be submitted with the 2008 tranche after approval of the 2005 and 2006 tranches.
Bangladesh	UNEP	ODS Phase-out	2007	Tranches for 2005 and 2006 were submitted without verification reports and the 2007 tranche was expected to be submitted with the 2008 tranche after approval of the 2005 and 2006 tranches.
Congo, DR	UNDP	CFCs Phase-out	2007	Slow progress in implementing current work plan.
Congo, DR	UNEP	CFCs Phase-out	2007	Slow progress in implementing current work plan.
Islamic Republic of Iran	UNIDO	CFCs Phase-out (Refrigeration Servicing /Assembly/ Solvents)	2008	Funds had to be reallocated from the MDI project.
Kenya	France	CFCs Phase-out	2005	Recent initiation of first tranche.
Kyrgyzstan	UNDP	CFCs Phase-out	2007	Slow progress in signing the project document and subsequently delay in the implementation of the 2007 annual plan.
Kyrgyzstan	UNEP	CFCs Phase-out	2007	Slow progress in signing the project document and subsequently delay in the implementation of the 2007 annual plan.
Libyan Arab	Spain	Methyl bromide	2007	Changes in the institutional arrangements at the

Jamahiriya				NOU, but an Ozone Officer had been appointed.
Libyan Arab Jamahiriya	UNIDO	CFCs Phase-out	2006	No Article 7 data had been reported. At the 53rd Meeting, UNIDO reported that Article 7 data had been reported the previous week.
Uruguay	Canada	CFCs Phase-out	2007	Late signature of the project document.
Uruguay	UNDP	CFCs Phase-out	2007	Late signature of the project document.

(c) to urge Albania, Bangladesh, the Democratic Republic of the Congo, the Islamic Republic of Iran, Kenya, and the Libyan Arab Jamahiriya, for which compliance decisions had been taken and for which the related annual tranches had not been submitted to the 53rd Meeting, to facilitate the submission of the required reports to the 54th Meeting; and

(d) to note that letters should be sent for the following annual tranches submitted to the 53rd Meeting but not considered for approval for the reasons indicated, and to encourage implementing agencies and the relevant Article 5 governments to submit those annual tranches to the 54th Meeting:

Country	Agency	Sector	Tranches	Reason the submission not considered for approval
Bangladesh	UNDP	ODS Phase-out	2005 and 2006	Verification report was not submitted.
Bangladesh	UNEP	ODS Phase-out	2005 and 2006	Verification report was not submitted.
Indonesia	World Bank	ODS Phase-out (Foam)	2007	Verification was inadequate.
Indonesia	UNDP	ODS Phase-out (Refrigeration Manufacturing)	2007	Verification was inadequate.
India	Germany	CFCs Phase-out (Refrigeration Servicing)	2008	Verification was inadequate.
India	Switzerland	CFCs Phase-out (Refrigeration Servicing)	2008	Verification was inadequate.
India	UNDP	CFCs Phase-out (Refrigeration Servicing)	2008	Verification was inadequate.
India	UNEP	CFCs Phase-out (Refrigeration Servicing)	2008	Verification was inadequate.
Nigeria	UNDP	CFC Phase-out	2005	Verification was inadequate.
Pakistan	UNIDO	CTC Phase-out	2005	Verification was inadequate.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/10 para.69).
(Supporting document: UNEP/OzL.Pro/ExCom/53/13).

The Fifty-fourth Meeting of the Executive Committee decided:

(a) to note the information on annual tranches of multi-year agreements (MYAs) submitted to the Secretariat by Canada, Spain, UNDP, UNEP, UNIDO and the World Bank as contained in the document on annual tranche submission delays (UNEP/OzL.Pro/ExCom/54/14);

(b) to note that 26 of the 53 annual tranches of MYAs that were due for submission had been submitted on time to the 54th Meeting, and that 27 had not been submitted;

(c) that letters should be sent to the implementing agencies and the relevant Article 5 governments for the annual tranches listed in Annex VI to the present report that had been due for submission to the 54th Meeting, together with the reasons indicated for the delay, and encouraging them to submit those annual tranche requests to the 55th Meeting; and

(d) to encourage the Government of Seychelles to expedite the implementation of the first tranche of its terminal phase-out management plan in order to submit the second tranche as soon as possible.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/12 para.88).
(Supporting document: UNEP/OzL.Pro/ExCom/54/14).

The Fifty-fifth Meeting of the Executive Committee decided:

(b) to note the information on annual tranches of multi-year agreements submitted to the Secretariat by Canada, Italy, Spain, UNDP, UNEP, UNIDO, and the World Bank as contained in the document UNEP/OzL.Pro/ExCom/55/5;

(c) to request bilateral and implementing agencies to submit those activities required for compliance in the 2008 business plans to the 56th Meeting;

(d) to note that 31 of the 52 annual tranches of multi-year agreements due for submission had been submitted on time to the 55th Meeting whereas 21 of them had not been submitted;

(e) that letters should be sent to the relevant implementing agencies and applicable Article 5 countries for the annual tranches, as indicated in Table 1 of Annex II to the present report, which had not been submitted to two consecutive Meetings, with the reasons stated for the delay, and to encourage implementing agencies and the relevant Article 5 Governments to take actions to expedite the implementation of the approved tranches, so that tranches due for submission could be presented to the 56th Meeting provided that sufficient progress had been made;

(f) that letters should be sent to the relevant implementing agencies and applicable Article 5 countries for the annual tranches, as indicated in Table 2 of Annex II to the present report, which had been due for submission to the 55th Meeting, with the reasons indicated for the delay, and to encourage implementing agencies and the relevant Article 5 Governments to submit those annual tranches to the 56th Meeting, provided that sufficient progress had been made;

(g) to encourage the Governments of Bangladesh, Comoros, the Democratic Republic of the Congo, Dominica, Saint Kitts and Nevis, Saint Vincent and the Grenadines, and Uruguay to expedite the implementation of their first tranches of TPMPs in order to submit the next tranche as soon as possible; and

(h) to note that the level of annual tranches approved at the 55th Meeting amounted to US $5,111,686 and, as a result, the total level of commitments for the period 2009-2014 would amount to US $138.2 million.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/3 para.32).
(Supporting document: UNEP/OzL.Pro/ExCom/55/5 and Add.1).

The Fifty-sixth Meeting of the Executive Committee decided:

(a) to note

(ii) the information on annual tranches of multi-year agreements (MYAs) submitted to the Secretariat by Canada, Italy, UNDP, UNEP, UNIDO, and the World Bank as contained in document UNEP/OzL.Pro/ExCom/56/5;

(iii) that 34 of the 64 annual tranches of MYAs due for submission had been submitted on time to the 56th Meeting, but the remaining 30 had either not been submitted on time or were not being submitted to the 56th Meeting;

(b) that letters should be sent to the relevant implementing agencies and applicable Article 5 countries regarding the annual tranches which had not been submitted to two or three consecutive Meetings, as indicated in Table 1 in Annex II to the present report, with the reasons stated for the delay, and that implementing agencies and the relevant Article 5 Governments should be encouraged to take actions to expedite the implementation of the approved tranches so that tranches due for submission could be presented to the 57th Meeting, provided that sufficient progress had been made;

(c) that letters should be sent to the relevant implementing agencies and applicable Article 5 countries regarding the annual tranches which had been due for submission to the 56th Meeting, as indicated in Table 2 in Annex II to the present report, with the reasons stated for the delay, and that implementing agencies and the relevant Article 5 Governments should be encouraged to take actions to expedite the implementation of the approved tranches so that tranches due for submission could be presented to the 57th Meeting, provided that sufficient progress had been made;

(d) to encourage the Governments of the Democratic Republic of the Congo and the Bolivarian Republic of Venezuela to provide verification reports to the 57th Meeting, and the Government of Serbia to expedite the implementation of the existing tranches of its national CFC phase-out plan, in order to submit the next tranche as soon as possible; and

(e) to note that the level of annual tranches submitted for approval to the 56th Meeting amounted to US $7,546,163

and, as a result, the total level of commitments including standard activities for the period 2009 to 2014 would amount to US $240.4 million.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/3 para 32)
(Supporting document: UNEP/OzL.Pro/ExCom/56/5 and Add.1).

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to note the information on annual tranches of multi-year agreements (MYAs) submitted to the Secretariat by Canada, France, Germany, Italy, UNDP, UNEP, UNIDO, and the World Bank as contained in the document on annual tranche submission delays (UNEP/OzL.Pro/ExCom/57/14);

(b) to note that 58 of the 90 annual tranches of MYAs due for submission had been submitted on time to the 57th Meeting;

(c) that letters should be sent to the relevant implementing agencies and applicable Article 5 countries regarding the annual tranches that had not been submitted to two or more consecutive Meetings, as indicated in Table 1 in Annex VIII to the present report, with the reasons stated for the delay, and to encourage implementing agencies and the relevant Article 5 Governments to take actions to expedite the implementation of the approved tranches so that tranches due for submission could be presented to the 58th Meeting, provided that sufficient progress had been made;

(d) that letters should be sent to the relevant bilateral and implementing agencies and applicable Article 5 countries regarding the annual tranches that had been due for submission to the 57th Meeting, as indicated in Table 2 in Annex VIII to the present report, with the reasons stated for the delay, and to encourage bilateral and implementing agencies and the relevant Article 5 Governments to take actions to expedite the implementation of the approved tranches so that tranches due for submission could be presented to the 58th Meeting, provided that sufficient progress had been made; and

(e) to encourage:

  (i) the Government of India to submit its CFC production sector requests to the 58th Meeting;

  (ii) the Government of Costa Rica to expedite the implementation of the existing tranches of its methyl bromide phase-out plan, in order to submit the next tranche for approval as soon as possible;

  (iii) the Governments of Côte d'Ivoire and the Maldives to expedite the implementation of their terminal phase-out management plans in order to submit the 2009 annual tranches for review as soon as possible;

  (iv) the Government of the Dominican Republic to submit a complete verification report of its national phase-out plan to the 58th Meeting.

(UNEP/OzL.Pro/ExCom/57/64, Decision 57/13 para 100)
(Supporting document: UNEP/OzL.Pro/ExCom/57/14).

The Fifty-eighth Meeting of the Executive Committee decided:

(a) to note:

  (i) the report on the status of the 2009 business plans as contained in documents UNEP/OzL.Pro/ExCom/58/5 and Add.1;

  (ii) that US $47.5 million in activities required for compliance had not been submitted to the 58th Meeting;

  (iii) that the value of forward commitments approved at the 58th Meeting was below that in the 2009-2011 business plan of the Multilateral Fund by US $5,129,388;

  (iv) the information on annual tranches of multi-year agreements submitted to the Secretariat by Canada, Italy Spain, UNDP, UNEP, UNIDO, and the World Bank as contained in document UNEP/OzL.Pro/ExCom/58/5;

(b) to request bilateral and implementing agencies to submit those activities required for compliance in the 2009 business plans to the 59th Meeting;

(c) to note that 23 of the 73 annual tranches of multi-year agreements due for submission had been submitted on time to the 58th Meeting, but the remaining 50 had not been;

(d) to note that letters should be sent for the annual tranches, as indicated in Table 1 of Annex II to the present document, that had been due for submission to the 57th and 58th Meetings, with the reasons indicated for the delay, and to encourage implementing agencies and the relevant Article 5 Governments to take action to

expedite the implementation of the approved tranches so that the overdue tranches could be submitted to the 59th Meeting;

(e) To note that letters should be sent for the annual tranches, as indicated in Table 2 of Annex II to the present document, that had been due for submission to the 58th Meeting, with the reasons indicated for the delay, and to encourage implementing agencies and the relevant Article 5 Governments to submit those annual tranches to the 59th Meeting;

(f) to encourage the Government of Costa Rica to expedite completion of the existing tranche in order to submit the annual tranches for the methyl bromide project in Costa Rica;

(g) to encourage the Government of India to complete the documentation necessary for the accelerated CFC production closure project in India, as soon as possible; and

(h) to note that the level of annual tranches submitted for approval to the 58th Meeting amounted to US $7,238,300 and, as a result, the total level of commitments for the period 2010 to 2014 would amount to US $108.7 million.

(UNEP/OzL.Pro/ExCom/58/53, Decision 58/3 para 35)
(Supporting document: UNEP/OzL.Pro/ExCom/58/5).

The Fifty-ninth Meeting of the Executive Committee decided:

(a) To note:

(ii) The information on annual tranches of multi-year agreements (MYAs) submitted to the Secretariat by Canada, France, UNDP, UNIDO and the World Bank, as contained in documents UNEP/OzL.Pro/ExCom/59/5 and Add.1 and provided by the Secretariat on behalf of UNEP at the Meeting;

(iii) That 44 of the 70 annual tranches of MYAs due for submission had been submitted on time to the 59th Meeting;

(iv) That letters should be sent with regard to the annual tranches, indicated in Table 1 of Annex II to the present report, that had been due for submission to the previous two Meetings, with the reasons for the delays, and encouraging bilateral and implementing agencies and the relevant Article 5 governments to expedite implementation of the approved tranches so that they could be submitted to the 60th Meeting;

(v) That letters should be sent with regard to the annual tranches, indicated in Table 2 of Annex II to the present report, that had been due for submission to the 59th Meeting, with the reasons for the delays, and encouraging bilateral and implementing agencies and the relevant Article 5 governments to submit those annual tranches to the 60th Meeting;

(b) To encourage the Governments of Burundi, the Central African Republic, the Republic of the Congo, Guinea, Guinea-Bissau and Tunisia to expedite completion of the existing tranches and the Government of Kyrgyzstan to complete the verification report necessary so as to enable the next tranches of the agreements to be submitted as soon as possible; and

(c) To request the Chair of the Executive Committee to write to the Ministry of the Environment of Antigua and Barbuda requesting expedited implementation of the CFC phase-out plan in the light of the complete phase-out of CFCs by 1 January 2010.

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/3 para 32)
(Supporting document: UNEP/OzL.Pro/ExCom/59/5 and Add.1).

The Sixtieth Meeting of the Executive Committee decided:

(a) To note with appreciation, the information on annual tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by France, UNDP, UNEP, UNIDO, and the World Bank, as contained in the document UNEP/OzL.Pro/ExCom/60/13;

(b) To further note that 25 of the 55 annual tranches in MYAs due for submission had been submitted on time to the 60th Meeting, but that the remaining 30 had not been;

(c) To request the Secretariat to send letters for the annual tranches, as indicated in Table 1 in Annex III to the present report, that had been due for submission to the previous two Meetings with the reasons indicated for the delay, and encouraging bilateral and implementing agencies and the relevant Article 5 governments to take action to expedite the implementation of the approved tranches so that the overdue tranches could be submitted as early as possible; and

(d) To request the Secretariat to send letters for the annual tranches, as indicated in Table 2 in Annex III to the present report, that had been due for submission to the 60th Meeting with the reasons indicated for the delay, and encouraging bilateral and implementing agencies and the relevant Article 5 governments to submit those annual tranches as early as possible.

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/7 para 66)
(Supporting document: UNEP/OzL.Pro/ExCom/60/131).

The Sixty-first Meeting of the Executive Committee decided:

(a) To note with appreciation, the information on annual tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by France, UNDP, UNEP, UNIDO and the World Bank as contained in document UNEP/OzL.Pro/ExCom/61/5;

(b) Also to note that 18 of the 32 annual tranches of MYAs due for submission had been submitted on time to the 61st Meeting, but that the remaining 14 had not been;

(c) To request the Secretariat to send letters to the relevant Article 5 governments and implementing agencies regarding the annual tranches listed in Annex II to the present report, with the reason for non-submission to the 61st Meeting, requesting them to take action to integrate the funding tranches of those national phase- out plans (NPPs) or terminal phase-out management plans (TPMPs) into the relevant HCFC phase-out management plans (HPMPs), pursuant to decision 60/11(b);

(d) To request the Secretariat to send a letter with regard to:

  (i) The 2009 annual tranche for the CFC phase-out plan in Suriname, noting that it had been withdrawn for consideration at the 61st Meeting after discussion with the Fund Secretariat owing to low disbursement and slow implementation, and requesting the Government of Suriname and UNEP to take action to integrate the funding tranches of the TPMP into the relevant HPMP pursuant to decision 60/11(b);

  (ii) The 2009 tranche for the accelerated CFC production sector phase-out plan in India, noting that it had been withdrawn for consideration at the 61st Meeting after discussion with the Fund Secretariat to enable the release of customs records to the World Bank auditors for review, as required by decision 59/18(a); and

(e) Also to request the Secretariat to send letters for the annual tranches which had originally been due for submission after the 61st Meeting, requesting the Governments of Bangladesh, Grenada and Turkey, and UNDP, UNEP and the World Bank, respectively, to take actions to integrate the funding tranches of those NPPs and TPMPs into the relevant HPMPs, pursuant to decision 60/11(b).To note with appreciation, the information on annual tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by France, UNDP, UNEP, UNIDO, and the World Bank, as contained in the document UNEP/OzL.Pro/ExCom/60/13;

(UNEP/OzL.Pro/ExCom/61/58, Decision 61/3 para 24)
(Supporting document: UNEP/OzL.Pro/ExCom/61/5).

The Sixty-third Meeting of the Executive Committee decided:

(a) To note with appreciation, the information on annual tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by the World Bank, as contained in document UNEP/OzL.Pro/ExCom/63/14;

(b) To note that four of the five annual tranches of MYAs due for submission had been submitted on time to the 63rd meeting; and

(c) To request the World Bank to work with the Government of India to expedite the signing of the agreements for the accelerated CFC production sector closure project as soon as possible to enable the second tranche of the agreement to be submitted to the 64th meeting.

(UNEP/OzL.Pro/ExCom/63/60, Decision 63/12 para 55)
(Supporting document: UNEP/OzL.Pro/ExCom/63/14).

The Sixty-sixth Meeting of the Executive Committee decided:

(a) The information on annual tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by Germany, UNDP, UNEP and UNIDO, as contained in document UNEP/OzL.Pro/ExCom/66/16; and

(b) That ten of the 17 annual tranches of MYAs due for submission had been submitted on time to the 66th meeting.

(UNEP/OzL.Pro/ExCom/66/54, Decision 66/14 para 64)
(Supporting document: UNEP/OzL.Pro/ExCom/66/16).

The Sixty-seventh Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2012-2014 business plans and tranche submission delays contained in documents UNEP/OzL.Pro/ExCom/67/5 and Add.1;

(ii) The information on tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by UNDP, UNEP, UNIDO and Germany, as shown in Table 7 in document UNEP/OzL.Pro/ExCom/67/5;

(iii) That seven out of 18 tranches of MYAs due for submission had been submitted on time to the 67th meeting;

(iv) That the total value of Germany's business plan for the 2012-2014 triennium was within Germany's allocation for bilateral activities;

(b) To encourage implementing agencies to submit requests to enable funding for all remaining eligible countries that had not yet received funding for stage I HCFC phase-out activities during the current triennium and to take into account business plan allocation; and

(c) To request the Secretariat to send letters to the Governments of Brazil, Chile, the Islamic Republic of Iran, Mexico and Saint Lucia urging the submission of the second tranches of their HCFC phase-out management plans to the 68th meeting.

(UNEP/OzL.Pro/ExCom/67/39, Decision 67/4 para 27)
(Supporting documents: UNEP/OzL.Pro/ExCom/67/5 and Add.1).

The Sixty-eighth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2012-2014 business plans and tranche submission delays as contained in documents UNEP/OzL.Pro/ExCom/68/5 and Add.1;

(ii) The information on tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by UNDP and UNEP;

(iii) That 23 out of 26 tranches of MYAs due for submission had been submitted on time to the 68th meeting;

(b) To request:

(iii) The Secretariat:

b. To send letters to the Governments of Angola and Chile to urge the submission of the second tranche of their HCFC phase-out management plans (HPMPs) to the 69th meeting;

(UNEP/OzL.Pro/ExCom/68/53, Decision 68/3 para 31(a)(i)(ii)(iii) and (b)(iii)b.)
(Supporting documents: UNEP/OzL.Pro/ExCom/68/5 and Add.1).

The Seventieth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the status of the 2013-2015 business plans and tranche submission delays, as contained in document UNEP/OzL.Pro/ExCom/70/5;

(ii) The information on tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by Germany, UNDP, UNEP and UNIDO;

(iii) That 42 out of 70 tranches of MYAs due for submission had been submitted on time to the 70th meeting and that four of those tranches had been withdrawn after discussion with the Fund Secretariat;

(b) To request:

(i) The bilateral and implementing agencies to address in their 2013-2015 business plans those activities not submitted in 2013 as planned, as contained in Annexes II and III to the present report;

(ii) The Secretariat:

a. To send letters to the Governments of the countries indicated below to urge the submission of the next

tranche of the MYA to the 71st meeting, noting, where applicable, that the 70th meeting was the second meeting to which the tranche could have been submitted: the Plurinational State of Bolivia, Brazil, the Central African Republic, Chile, China, the Congo, Croatia, Cuba, Gabon, Guinea-Bissau, India, Indonesia, Mali, Mexico, Montenegro, Namibia, Papua New Guinea, South Africa, Togo, Trinidad and Tobago, Turkmenistan, Viet Nam and Zambia; and

b. To send letters to the Governments of the Islamic Republic of Iran and Nigeria to urge the submission of the next tranches of the MYAs to the 71st meeting, noting that the tranches had been withdrawn from consideration at the 70th meeting after discussion with the Fund Secretariat owing to the countries' inability to meet the 20 per cent disbursement threshold for funding of the previous tranche.

(UNEP/OzL.Pro/ExCom/70/59, Decision 70/3 para 37)
(Supporting documents: UNEP/OzL.Pro/ExCom/70/5).

The Seventy-first Meeting of the Executive Committee decided:

(a) To note:

(i) The report on the 2013-2015 business plans and tranche submission delays as contained in document UNEP/OzL.Pro/ExCom/71/5;

(ii) The information on tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by UNDP, UNEP, UNIDO and the World Bank;

(iii) That 49 out of 66 tranches of MYAs due for submission had been submitted on time to the 71st meeting and that five of them had been withdrawn after discussion with the Fund Secretariat;

(iv) With concern, that the political situation in the Central African Republic might have a negative impact on compliance with the control measures of the Montreal Protocol;

(v) That the other tranches not submitted to the 71st meeting as listed in Table 7 of document UNEP/OzL.Pro/ExCom/71/5 were not expected to have a negative impact on compliance owing to the fact that the latest consumption figures were below the baseline or import controls in place would ensure compliance;

(b) To request:

(i) The bilateral and implementing agencies to address those activities not submitted in 2013 as planned, as contained in Annex II to the present report, in their 2014 2016 business plans;

(ii) The Secretariat:

a. To send letters to the Governments of the following countries to urge the submission of the next tranche of the MYA, indicating where applicable that the 71st meeting was the second meeting to which the tranche could have been submitted but had not been: Angola, Bangladesh, Brazil, Burundi, the Central African Republic, Equatorial Guinea, Gabon, Iraq, Jordan, Peru, and Suriname (for submission to the 72nd meeting), and Qatar and Thailand (for submission to the 73rd meeting), noting the reasons for delays indicated in Table 7 of document UNEP/OzL.Pro/ExCom/71/5;

b. To send letters to the Governments of Cuba, the Plurinational State of Bolivia, and Saudi Arabia to urge the submission of the next tranches of their MYAs to the 72nd meeting, noting that the tranches had been withdrawn from consideration at the 71st meeting after discussion with the Fund Secretariat owing to the countries' inability to meet the 20 per cent disbursement threshold for funding and/or insufficient progress in implementation;

c. To send a letter to the Government of the Islamic Republic of Iran to revise the third tranche of stage I of the HCFC phase-out management plan (HPMP) and to submit it to the 72nd meeting, noting that the tranche had been withdrawn from consideration at the 71st meeting after issuance of the documentation in order to resolve an issue related to the revised implementation plan submitted by UNIDO;

(iii) The Government of Iraq to facilitate the establishment of the accounts and completion of the terms of reference required for the local administration of the HPMP to enable the submission of the next tranche; and

(c) To urge the Government of Equatorial Guinea to facilitate the travel formalities for the UNEP team to meet

with the National Ozone Unit as soon as possible in order to enable the submission of the next tranche of the HPMP.

(UNEP/OzL.Pro/ExCom/71/64, Decision 71/4 para 34)
(Supporting documents: UNEP/OzL.Pro/ExCom/71/5).

The Seventy-second Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/72/6;

(ii) The information on tranche submission delays under multi-year agreements (MYAs) submitted to the Secretariat by the Government of Germany, UNDP, UNEP, UNIDO and the World Bank;

(iii) That 48 out of 73 activities related to tranches of HCFC phase-out management plans (HPMPs) due for submission had been submitted on time to the 72nd meeting and that one of them had been withdrawn after discussion with the Secretariat;

(iv) That relevant bilateral and implementing agencies had indicated no impact or unlikely impact on compliance resulting from the late submission of the tranches of HPMPs due for the first meeting of 2014 and that there had been no indication that any of those countries was in non compliance with the 2013 freeze on HCFC consumption; and

(b) To request the Secretariat to send letters on the decisions on tranche submission delays to the governments listed in Annex III to the present report [UNEP/OzL.Pro/ExCom/72/47].

(UNEP/OzL.Pro/ExCom/72/47, Decision 72/4, para 36)
(Supporting documents: UNEP/OzL.Pro/ExCom/72/6).

The Seventy-third Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/73/6;

(ii) The information on tranche submission delays under multi-year agreements submitted to the Secretariat by UNDP, UNEP, UNIDO and the World Bank;

(iii) That 33 out of 53 activities related to tranches of HCFC phase-out management plans (HPMPs) due for submission had been submitted on time to the 73rd meeting and that 10 of those tranches had been withdrawn after discussion with the Secretariat;

(iv) That the relevant implementing agencies had indicated no impact or unlikely impact on compliance from the late submission of the tranches of HPMPs due for submission to the second meeting of 2014 and that there had been no indication that any of those countries was in non compliance with the 2013 freeze of HCFC consumption; and

(b) To request the Secretariat to send letters on the decisions on tranche submission delays to the governments listed in Annex III to the present report [UNEP/OzL.Pro/ExCom/73/62].

(UNEP/OzL.Pro/ExCom/73/62, Decision 73/4, para 36).
(Supporting document: UNEP/OzL.Pro/ExCom/73/6).

The Seventy-fourth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/74/6;

(ii) The information on tranche submission delays under multi-year agreements submitted by the Governments of France and Germany, and UNDP, UNEP, UNIDO and the World Bank;

(iii) That 61 out of 96 activities related to tranches of HCFC phase-out management plans (HPMPs) due for submission had been submitted on time to the 74th meeting and that nine of those tranches had been withdrawn after discussion with the Secretariat;

(iv) That relevant implementing agencies had indicated no impact or unlikely impact on compliance resulting from the late submission of the tranches of HPMPs due for the first meeting of 2015 and that there had been no indication that any of those countries were in non compliance with the 2013 freeze on HCFC consumption, except for:

a. The Democratic People's Republic of Korea, where the Parties to the Montreal Protocol noted with appreciation the submission by the Party of a plan of action to ensure its return to compliance with the Protocol's HCFC consumption control measures in 2015 and production control measures in 2016, in

line with decision XXVI/15;

b. Guatemala, where the Parties had noted with appreciation the submission by the Party of a plan of action to ensure its return to compliance with the Protocol's HCFC consumption control measures and its decision to reduce its HCFC consumption in 2014 below its allowable consumption by the excess amount consumed in 2013, in line with decision XXVI/16; and

(b) To request the Secretariat to send letters on the decisions on tranche submission delays to the governments of the countries listed in Annex II to the present report.

(UNEP/OzL.Pro/ExCom/74/56, Decision 74/4, para 39).
(Supporting document: UNEP/OzL.Pro/ExCom/74/6).

The Seventy-fifth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/75/6;

(ii) The information on tranche submission delays under multi-year agreements submitted by UNDP, UNEP, UNIDO and the World Bank;

(iii) That 56 out of 79 activities related to tranches of HCFC phase-out management plans (HPMPs) due for submission to the 75th meeting had been submitted on time and that five of those tranches had then been withdrawn following discussion with the Secretariat;

(iv) That relevant implementing agencies had stated that the late submission of the tranches of HPMPs due at the second meeting of 2015 would have no impact, or was unlikely to have an impact on compliance and that there had been no indication that any of the countries concerned were in non compliance with the 2013 HCFC consumption freeze; and

(b) To request the Secretariat to send letters regarding the decisions on tranche submission delays to the governments of countries listed in Annex II to the present report.

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/4 para. 43).
(Supporting document: UNEP/OzL.Pro/ExCom/75/6).

The Seventy-sixth meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/76/6;

(ii) The information on tranche submission delays under multi-year agreements submitted by the Government of France, UNDP, UNEP, UNIDO and the World Bank;

(iii) That 52 out of 104 activities related to tranches of HCFC phase-out management plans (HPMPs) due for submission to the 76th meeting had not been submitted on time and that six activities from four tranches had been withdrawn following discussions with the Secretariat;

(iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for the first meeting of 2016 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, apart from the case of one country, and that there had been no indication that any of the countries concerned had been in non-compliance in 2014 with the 2013 freeze on HCFC consumption; and

(b) To request the Secretariat to send letters on the decisions on tranche submission delays to relevant Governments as indicated in Annex II to the present report.

UNEP/OzL.Pro/ExCom/76/66, Decision 76/4, para 39(a)-(b)
(Supporting document: UNEP/OzL.Pro/ExCom/76/6).

The Seventy-seventh meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/77/6;

(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by UNDP, UNEP and UNIDO;

(iii) That 42 out of 91 activities relating to tranches of HPMPs due for submission to the 77th meeting had been submitted on time and that two of those tranches had been withdrawn following discussion with the Secretariat;

(iv) That relevant implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the last meeting of 2016 would have no impact or was unlikely to have an impact

on compliance, except in the case of one country; and

(b) To request the Secretariat to send letters on the decisions on tranche submission delays to relevant governments, as indicated in Annex II to the present report.

UNEP/OzL.Pro/ExCom/77/76, Decision 77/3, para 30(a)-(b))
(Supporting document: UNEP/OzL.Pro/ExCom/77/6).

The Seventy–ninth Meeting of the Executive Committee decided:

(a) To note:
   (i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/79/18;
   (ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Governments of France, Germany and Japan, and UNDP, UNEP, UNIDO and the World Bank;
   (iii) That 24 out of 65 activities relating to tranches of HPMPs due for submission to the 79th meeting had been submitted on time and that eight of those activities had been withdrawn following discussions with the Secretariat;
   (iv) That relevant implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the second meeting of 2017, and the withdrawal of certain submissions, would have no impact or were unlikely to have an impact on compliance with the Montreal Protocol, and that there had been no indication that any of the countries concerned were in non compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to relevant governments on the decisions on tranche submission delays in Annex VII to the present report

(UNEP/OzL.Pro/ExCom/79/51, Decision 79/24, para 85)
(Supporting document: UNEP/OzL.Pro/ExCom/79/18).

The Eightieth Meeting of the Executive Committee decided:

(a) To note:

   (i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/80/15;

   (ii) The information on tranche submission delays under HCFC phase out management plans (HPMPs) submitted by the Governments of France and Japan, and UNDP, UNEP, UNIDO and the World Bank;

   (iii) That 28 out of 69 activities related to tranches of HPMPs due for submission to the 80th meeting had been submitted on time;

   (iv) That relevant implementing agencies had indicated that the late submission of tranches of HPMPs due for submission at the third meeting of 2017 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, and that there had been no indication that any of the countries concerned were in non compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant governments regarding the decisions on tranche submission delays contained in Annex VII to the present report.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/33, para 109)
(Supporting document: UNEP/OzL.Pro/ExCom/80/33).

The Eighty-first Meeting of the Executive Committee decided:

(a) To note:
   (i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/81/13;
   (ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Government of France, UNDP, UNEP, UNIDO and the World Bank;
   (iii) That 44 out of 87 activities related to tranches of HPMPs due for submission to the 81st meeting had been submitted on time;
   (iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission to the first meeting of 2018 would have no impact, or was unlikely to have an impact on compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant governments regarding the decisions on tranche submission delays contained in Annex IV to the present report..

(UNEP/OzL.Pro/ExCom/81/58, Decision 81/27, para99)
(Supporting document: UNEP/OzL.Pro/ExCom/81/13).

The Eighty-second Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on tranche submission delays contained in documents UNEP/OzL.Pro/ExCom/82/24 and Corr.1;
  (ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Governments of France, Germany, Italy and Japan, UNDP, UNEP, UNIDO and the World Bank;
  (iii) That 40 out of 91 activities related to tranches of HPMPs due for submission at the 82nd meeting had been submitted on time;
  (iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the second meeting of 2018 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures, apart from Saudi Arabia where non-compliance was possible; and
(b) To request the Secretariat to send letters to the relevant governments regarding the decisions on tranche submission delays contained in Annex X to the present report.

(UNEP/OzL.Pro/ExCom/82/72, Decision 82/44).
(Supporting document: UNEP/OzL.Pro/ExCom/82/24 and Corr.1).

The Eighty-third Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/83/14;
  (ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs), submitted by the Governments of France, Germany and Japan, UNDP, UNEP, UNIDO and the World Bank;
  (iii) That 34 out of 70 activities (for 19 out of 39 countries) related to tranches of HPMPs due for submission at the 83rd meeting had been submitted on time;
  (iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the first meeting of 2019 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures;
(b) To request the Secretariat:
  (i) To send letters to the relevant Governments regarding the decisions on tranche submission delays contained in Annex V to the present report;
  (ii) To review the existing procedure for project cancellation as set out in decision 26/2 and report back to the Executive Committee at its 84th meeting on how the procedure could be applied to multi-year agreements; and
(c) If a response from the Government of Algeria to the letter of 21 December 2018 sent by the Chief Officer had not been received by the Secretariat by 30 August 2019, to cancel stage I of the HPMP for Algeria, noting that the Government could submit a funding request for the preparation of stage II of the HPMP at a future meeting of the Executive Committee and to request UNIDO to return any balances from stage I at the 84th meeting.

(UNEP/OzL.Pro/ExCom/83/48, Decision 83/47).
(Supporting document: UNEP/OzL.Pro/ExCom/83/14).

The Eighty-fourth Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/84/25;

(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by UNDP, UNEP and UNIDO;
(iii) That 43 out of 57 activities (21 out of 30 countries) related to tranches of HPMPs due for submission at the 84th meeting had been submitted on time;
(iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the second meeting of 2019 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures;

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in Annex IX to the present report;
(c) To establish the following policy for the cancellation of multi-year agreement (MYA) components:
(i) To cancel MYA components upon mutual agreement of the Government concerned and the lead implementing agency of the MYA, where applicable, noting that the lead implementing agency would submit the proposed cancellation to the Executive Committee through its annual progress report and/or reports on projects with specific reporting requirements; or
(ii) To cancel MYA components identified in progress reports with implementation delays, according to the following procedures:
a. If no progress in meeting the milestones was reported for two consecutive meetings of the Executive Committee after an MYA component had been classified as having an implementation delay, the Secretariat, on behalf of the Executive Committee, could, at the second meeting following such classification, issue to the lead implementing agency concerned and the recipient country Government a notice of possible cancellation of the MYA component, including the funding approved in principle for the component, and, where needed and on a case-by-case basis, the whole MYA; and
b. If, for three consecutive meetings of the Executive Committee, no progress was reported in relation to an MYA component classified as having an implementation delay, the Executive Committee could, taking into account the response to the notice of possible cancellation, decide to cancel the MYA component, and, where needed and on a case-by-case basis, the whole MYA.

(UNEP/OzL.Pro/ExCom/84/75, Decision 84/45).
(Supporting document: UNEP/OzL.Pro/ExCom/84/25).

The Eighty-sixth Meeting of the Executive Committee decided:

(a) To note:
(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/86/24;
(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Governments of Italy and Japan, and UNDP, UNEP, UNIDO and the World Bank;
(iii) That 42 out of 89 activities (in 29 out of 66 countries) related to tranches of HPMPs due for submission at the 86th meeting had been submitted on time;
(iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the second meeting of 2020 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures; and
(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in Annex X to the present report.

(UNEP/OzL.Pro/ExCom/86/100, Decision 86/44).
(Supporting document: UNEP/OzL.Pro/ExCom/86/24).

The Eighty-seventh Meeting of the Executive Committee decided:

(a) To note:
(i) The report on tranche submission delays contained in documents UNEP/OzL.Pro/ExCom/87/12 and Corr.1;
(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Governments of Germany and Italy UNDP, UNEP, UNIDO and the World Bank;
(iii) That 16 out of 52 activities (in 14 out of 37 countries) related to tranches of HPMPs due for submission at

the 87th meeting had been submitted on time;

(iv) That the relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the first meeting of 2021 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in Annex X to the present report.

(UNEP/OzL.Pro/ExCom/87/58, Decision 87/26).
(Supporting document: UNEP/OzL.Pro/ExCom/87/12 and Corr.1).

The Eighty-eighth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/88/21;

(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Government of Germany, and UNDP, UNEP, UNIDO and the World Bank;

(iii) That 42 out of 70 activities (20 out of 41 countries) related to tranches of HPMPs due for submission at the 88th meeting had been submitted on time;

(iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the second meeting of 2021 would have no impact, or was unlikely to have an impact, on compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in Annex IX to the present report.

(UNEP/OzL.Pro/ExCom/88/79, Decision 88/33).
(Supporting document: UNEP/OzL.Pro/ExCom/88/21).

The Ninetieth Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in documents UNEP/OzL.Pro/ExCom/90/12 and Add.1;

(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by UNDP, UNEP, UNIDO and the World Bank;

(iii) That 17 out of 44 activities (13 out of 33 countries) related to tranches of HPMPs due for submission at the 90th meeting had been submitted on time;

(iv) That the relevant implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the first meeting of 2022 would have no impact on Parties' compliance with the Montreal Protocol, and that there was no indication that any of the Parties concerned were in non-compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in Annex VII to the present report.

(UNEP/OzL.Pro/ExCom/90/40, Decision 90/30).

(Supporting document: UNEP/OzL.Pro/ExCom/90/12 and Add.1).

The Ninety-first Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/91/21;

(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by UNDP, UNEP, UNIDO and the World Bank;

(iii) That 29 out of 43 activities (17 out of 27 countries) related to tranches of HPMPs due for submission at the 91st meeting had been submitted on time;

(iv) That relevant implementing agencies had indicated that the late submission of the tranches of HPMPs

due for submission at the second meeting of 2022 would have no impact on countries' compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in Annex XI to the present report.

(UNEP/OzL.Pro/ExCom/91/72, Decision 91/21).
(Supporting document: UNEP/OzL.Pro/ExCom/91/30).

The Ninety-second Meeting of the Executive Committee decided:

(a) To note:

(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/92/12;

(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by UNDP, UNEP and UNIDO;

(iii) That 28 out of 53 activities (18 out of 34 countries) related to tranches of HPMPs due for submission at the 92nd meeting had been submitted on time;

(iv) That the relevant implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the first meeting of 2023 would have no impact on countries' compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in annex VIII to the present report.

(UNEP/OzL.Pro/ExCom/92/56, Decision 92/20).
(Supporting document: UNEP/OzL.Pro/ExCom/92/12).

The Ninety-third Meeting of the Executive Committee decided:

(a) To note:
(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/93/24;
(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Governments of France and Germany and UNDP, UNEP and UNIDO;
(iii) That 31 out of 56 activities (16 out of 31 countries) related to tranches of HPMPs due for submission at the 93rd meeting had been submitted on time;
(iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the second meeting of 2023 would have no impact on countries' compliance with the Montreal Protocol and that there was no indication that any of the countries concerned were in non compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in annex IX to the present report.

(UNEP/OzL.Pro/ExCom/93/105, Decision 93/27).
(Supporting document: UNEP/OzL.Pro/ExCom/93/24).

The Ninety-fourth Meeting of the Executive Committee decided:

(a) To note:
(i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/94/13;
(ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Government of France, the Government of Germany, UNDP, UNEP and UNIDO;
(iii) That 32 out of 60 activities (18 out of 35 countries) related to tranches of HPMPs due for submission at the 94th meeting had been submitted on time;
(iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the first meeting in 2024 would have no impact on countries' compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures; and

(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche

submission delays contained in annex VII to the present report.
(UNEP/OzL.Pro/ExCom/94/67, Decision 94/16).
(Supporting document: UNEP/OzL.Pro/ExCom/94/13).

The Ninety-fifth Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/95/24;
  (ii) The information on tranche submission delays under HCFC phase-out management plans (HPMPs) submitted by the Governments of France and Germany, UNDP, UNEP, UNIDO and the World Bank;
  (iii) That 31 out of 55 activities (16 out of 30 countries) related to tranches of HPMPs due for submission at the 95th meeting had been submitted on time;
  (iv) That relevant bilateral and implementing agencies had indicated that the late submission of the tranches of HPMPs due for submission at the second meeting in 2024 would have no impact on countries' compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with Montreal Protocol control measures; and
(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in annex XII to the present report.

(UNEP/OzL.Pro/ExCom/95/94, Decision 95/26).
(Supporting document: UNEP/OzL.Pro/ExCom/95/24).

The Ninety-sixth Meeting of the Executive Committee decided:

(a) To note:
  (i) The report on tranche submission delays contained in document UNEP/OzL.Pro/ExCom/96/15;
  (ii) The information on tranche submission delays under multi-year agreements (MYAs) submitted by the Governments of Australia and Germany, UNDP, UNEP, UNIDO and the World Bank;
  (iii) That 22 out of 63 activities (15 out of 42 countries) related to MYA tranches due for submission at the 96th meeting had been submitted on time;
  (iv) That relevant bilateral and implementing agencies had indicated that the late submission of the MYA tranches due for submission at the first meeting in 2025 would have no impact on countries' compliance with the Montreal Protocol, and that there was no indication that any of the countries concerned were in non-compliance with the Montreal Protocol control measures; and
(b) To request the Secretariat to send letters to the relevant Governments regarding the decisions on tranche submission delays contained in annex VIII to the present report.

(UNEP/OzL.Pro/ExCom/96/66, Decision 96/20).
(Supporting document: UNEP/OzL.Pro/ExCom/96/15).

ANNEX V.2: PROCEDURAL ARRANGEMENTS AMONG THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT ("WORLD BANK") THE UNITED NATIONS ENVIRONMENT PROGRAMME ("UNEP") AND THE UNITED NATIONS DEVELOPMENT PROGRAMME ("UNDP") FOR CO-OPERATION AND ASSISTANCE IN PROTECTING THE OZONE LAYER IN THE CONTEXT OF THE VIENNA CONVENTION FOR THE PROTECTION OF THE OZONE LAYER AND ITS MONTREAL PROTOCOL ON SUBSTANCES THAT DEPLETE THE OZONE LAYER

Whereas the Parties to the Montreal Protocol on Substances that deplete the Ozone Layer ("Protocol") to the Vienna Convention for the Protection of the Ozone Layer ("Parties") will establish an Interim Multilateral Fund and subsequently a Multilateral Fund as part of a financial mechanism for the purposes of providing financial and technical co-operation, including the transfer of technology, to eligible developing countries to enable them to comply with the control measures of the Protocol;

Whereas the Parties have invited the World Bank, UNEP and UNDP (singularly "Agency", collectively "Agencies") to co-operate and assist the Parties within their respective areas of expertise and to make appropriate arrangements with the Executive Committee, acting on behalf of the Parties, and among themselves for these purposes;

Whereas the Agencies will each make specific arrangements for co-operation with the Executive Committee; and

Whereas the Agencies find it desirable to establish additional procedures for co-operation with one another;

NOW THEREFORE the Agencies agree as follows:

1. Role of the Agencies

The Agencies will accept the invitation of the Parties to co-operate and assist them within the respective areas of expertise of the Agencies as follows:

a) the United Nations Environment Programme shall be invited by the Executive Committee to co-operate and assist in political promotion of the objectives of the Protocol, as well as in research, data gathering and the clearing-house functions which are identified as follows:
   i) assist Parties operating under paragraph 1 of Article 5, through country specific studies and other technical co-operation, to identify their needs for co-operation;
   ii) facilitate technical co-operation to meet these identified needs;
   iii) distribute, as provided for in Article 9, information and relevant materials, and hold workshops, training sessions, and other related activities, for the benefit of Parties that are developing countries; and
   iv) facilitate and monitor other multilateral, regional and bilateral co-operation available to Parties that are developing countries.

b) the United Nations Development Programme shall be invited by the Executive Committee to co-operate and assist in feasibility and pre-investment studies and in other technical assistance measures;

c) the World Bank shall be invited by the Executive Committee to co-operate and assist in administering and managing the programme to finance the agreed incremental costs.

2. Close Co-operations

Each Agency will fulfill its role as described in Paragraph 1 in close co-operation with each other Agency. In particular, each Agency will consult each other Agency before making proposals to the Parties or the Executive Committee on matters of interest to the other Agency, and will pay due regard to the views of the other Agency.

3. Programmes of Activities and Budgets

Each Agency will prepare, after consultation with each other Agency, a planned programme of activities with a budget for fulfillment of its role as set out in Paragraph 1. In order to achieve complementarity, coherence and cost effectiveness of theses activities, these plans will be reviewed by the heads of the Agencies, or their representatives, in their annual meeting pursuant to paragraph 6. After the annual meeting, each Agency will submit its proposal to the Executive Committee.

4. Information

Each Agency will keep other Agency continuously and adequately informed in a timely manner to its activities covered by these arrangements as it affects the other Agency.

5 Representation of Agencies

Each Agency will designate a senior staff member and an alternate for carrying out these arrangements.

6. Meeting of Heads of Agencies

The heads of Agencies, or their representatives, will meet every year within 90 days before the annual meeting of the Parties in order to review the operation of these arrangements and further coordinate the work of the Agencies as necessary.

7. Amendments

These arrangements may be amended by the Agencies at any time.

8. Termination

These arrangements may be terminated by the Agencies at any time, and will be terminated with respect to any Agency upon notice by that Agency to each other Agency.

9. Effective date

These arrangements will enter into effect on the date of the latest signature below.

ANNEX V.3: TERMS OF REFERENCE REGARDING THE ASSESSMENT OF ADMINISTRATIVE COSTS OF THE IMPLEMENTING AGENCIES

TERMS OF REFERENCE OF THE CONSULTANCY ON THE ADMINISTRATIVE COSTS OF THE IMPLEMENTING AGENCIES

Decision VIII/4 of the Eighth Meeting of the Parties requested: "that the Executive Committee should, over the next three years, work toward the goal of reducing agency support costs from their current level of 13 per cent to an average of below 10 per cent to make more funds available for other activities. The Executive Committee should report to the Parties annually on their progress, and the Parties may adjust the goal accordingly;"

In accordance with this decision, the consultant will work with the Secretariat and the Implementing Agencies to identify options and approaches for reducing the overall level of administrative costs focusing on revising the current uniform, fee-based approach.

Options to be considered could include:

(a) establishment of different rates of support costs for different types of projects and projects in different sectors;

(b) establishment of a sliding scale of support costs for different sized investment projects.

The option of deciding support costs on a project-by-project basis is excluded.

In undertaking this work, the consultant should take account of the previous reports prepared on this subject.

The consultant should also take account of experience in similar multilateral funding mechanisms.

The consultant will provide a report on progress to the Executive Committee at its Twenty-second Meeting. *(UNEP/OzL.Pro/ExCom/21/36, Decision 21/2, para. 8).*

TERMS OF REFERENCE FOR THE REVIEW OF THE ADMINISTRATIVE COST REGIME AND ITS CORE UNIT FUNDING BUDGET

Objectives

1. The objectives for the review of the administrative cost regime are the following:

   (a) To determine the appropriate level of programme support costs required to administer projects/programmes financed by the Multilateral Fund, in light of the current and future operation of the Multilateral Fund;

   (b) To update the definitions of all of the relevant components of administrative costs including core unit costs, the compliance assistance programme (CAP), central services, executing agency, financial intermediary, supervisory, project management unit (PMU), and project costs in light of the transition to the International Public Sector Accounting Standards (IPSAS) for the UN agencies ; and

   (c) To further assess the itemized reporting format of core unit versus administrative costs as presented in Appendix II to the present annex, as well as direct versus indirect costs that address the costs of implementing agencies' central administration requirements.

Issues to be considered

2. Based on the preliminary overview of administrative costs, the Secretariat noted that since the Coopers and Lybrand study, there have been changes in administration of projects including: the use of a lead agency to coordinate activities where there are more than one agency; a beneficiary government serving as an executing agency to disburse funds for phase-out activities to the final beneficiaries; inclusion of PMUs as part of project costs in several multi-year agreements (MYAs); inclusion of multiple implementing agencies for several lower cost projects in geographically isolated countries resulting in limited costs for monitoring projects; subsidizing the administration of the Multilateral Fund projects by one agency; and involvement of implementing agencies' Montreal Protocol units in administering projects for other multilateral environmental agreements (MEAs).

3. Based on the above, the following issues should be addressed during the review of the administrative cost regime:

(a) Whether there is a need to change the administrative cost regime since it has resulted in a rate of administrative costs exceeding 13 per cent for three of the agencies taking into account the impact of the relative size of projects and portfolios on the agencies administrative costs;

(b) The need to define or redefine the relevant components of administrative costs;

(c) The need to re-examine the extent to which the CAP budget includes administrative costs;

(d) Whether a change in the definition of core unit costs and in the reporting format could better distinguish core unit costs from the costs of administering projects taking into account each agency's unique nature;

(e) The effect of implementation of cost accounting on managing core unit budgets and differentiating between core unit and administrative costs for each of the implementing agencies, including for the return of unused funds and in relation to IPSAS;

(f) Whether the current administrative cost regime for UNEP and bilateral agencies should be reconsidered in the light of current operations; and

(g) Issues identified in document UNEP/OzL.Pro/ExCom/75/34 to improve reporting of costs by the agencies.

4. The preliminary overview also indicated that project costs had been included in administrative costs in the past for UNEP and UNIDO. Moreover, there are other costs that might be assessed as administrative costs to more accurately reflect the administrative burden of the agency in administering, managing, and executing projects. Therefore, the following items should also be addressed during the review:

(a) The role of the lead agency in project submissions and the need for administrative costs and responsibilities for this function;

(b) An assessment of the agency fees for low-cost projects and the ability of agencies to manage projects if the fees might constitute the cost of travel once during a project lifetime;

(c) An assessment of the extent and impact of PMU costs that are included as project costs but could also be considered as costs for administering projects; and

(d) The costs provided to beneficiary governments, executing agencies, country offices and financial intermediaries for administering individual projects and MYAs, i.e., the extent implementing agencies are passing on funds for administering projects to financial intermediaries, executing agencies or to governments for national execution.

Methodology for the administrative cost study

5. An expert/consultant with extensive experience in the operation of the Multilateral Fund or comparable financial mechanisms and the implementing agencies' financial operations should be selected for the study. The work would begin in 2016 and each implementing agency will be visited, accompanied by a staff member of the Secretariat, with the aim of collecting relevant data and discussing with relevant staff in both the programme and financial divisions of each agency.

Estimated cost

6. The total cost is estimated at US $60,000. It consists of three months of professional fees during a 12-month period and travel costs with daily subsistence allowance to the headquarters of each agency and to the relevant Executive Committee meeting. A draft report should be submitted to the Secretariat by 31 January 2017 and a final draft report to the Secretariat eight weeks before the first Executive Committee meeting of 2017 as required by decision 73/62.

Appendix I

DEFINITION OF ADMINISTRATIVE COSTS

ADMINISTRATIVE COSTS OF THE IMPLEMENTING AGENCIES BY COOPERS AND LYBRAND

In keeping with the Executive Committee's 1994 recommendation, it is important to clarify the definition of administrative costs, at least for the purposes of this study. Unless there is a clear and common understanding of what is considered to be an administrative cost and what is considered to be a project cost, there will continue to be inconsistent approaches. If there are inconsistent approaches, it is very difficult to establish a uniform reimbursement rate based on actual costs.

Following this logic, the following paragraphs will serve first to propose a method of distinguishing between administrative and project costs, and second to propose criteria to identify the elements of administrative costs which could be considered as being eligible.

Distinction between administrative and project activities

Administrative activities

In respect of Multilateral Fund programmes, the implementing agencies are expected to use their existing field office networks to match the needs of beneficiaries and the funds available from the Multilateral Fund. In doing so, they are required first to identify and submit potential projects to the Executive Committee and second, to ensure that the allocated funds are used in the manner authorised by the Executive Committee, in line with approved project proposals and budgets.

Project identification, formulation and approval

With respect to new and potential projects, the implementing agencies are expected to use the administrative cost allocation for the following activities:

- Distributing information about the Multilateral Fund's programme to the agency's field offices network;
- Collecting, reviewing and pre-qualifying project applications;
- Dealing with governments and establishing legal agreements;
- Preparing project proposals; obtaining project preparation budgets for larger projects;
- Fielding consultants to project sites;
- Submitting and following-up project proposals submitted to the Executive Committee for approval.

1. Project Implementation and Monitoring

With respect to approved projects, the implementing agencies are expected to use the administrative cost allocation for the following activities:

- Co-ordinating each agency's efforts with the Secretariat;
- Preparing implementation agreements and terms of reference for subcontractors
- Mobilising implementation teams (executing agencies and consultants) for approved projects using appropriate bidding and evaluation mechanisms;
- Processing contractual and accounting documents associated with approved projects;
- Monitoring the progress of a project from an administrative point of view, and ;
- Reporting on results of projects and the program (preparing progress and project completion reports).

1.1 Other activities to be considered as administrative

- Preparing annual business plans based on communications with national governments about sector needs and priorities;
- Preparing progress reports;
- Participating in project formulation activities with country offices;

- Following up on implementation status, including country visits if there is evidence of undue delays or difficulties;
- Providing input to the Multilateral Fund Secretariat with policy papers and issues; and
- Participating in meetings sponsored by the Executive Committee, and the Secretariat.

Activities to be considered as project costs

The following activities would not be considered to be administrative activities, and would be conducted only on the basis of approved projects:

- Marketing, business development and prospecting for new projects (this activity is funded by an the Executive Committee which has established ozone units in each country);
- Project formulation/preparation, in cases where a project preparation budget has been approved;
- Project implementation, including the provision of project management and technical skills. This would include participating in the design of the project "deliverable" regardless of the form of the deliverable or the method of delivery In other words, participation in the design of constructed equipment and training material would both be considered to be project activities;
- Any activity considered to be a project, for instance country program preparation, technical assistance, training, etc.;
- Technical inspections of project "deliverables" by appropriately qualified experts; and
- Technical support provided at the programme or project level.

Reimbursable elements of administrative cost

With respect to each implementing agency's co-ordinating unit, to the extent that it supports the Multilateral Fund, the following costs would be deemed to be eligible:

1. **Direct costs of the co-ordinating unit including**

   - Salaries and the associated benefits of permanent and contractual (consultants) staff;
   - Travel related to Multilateral Fund activities, and to administrative monitoring of projects.
   - Office accommodation cost including a fair allocation of operating costs, based on the proportion of useable space;
   - Equipment, office supplies, telecommunications and general expenses based on specific expenditures.
   - Contractual services related to activities of the co-ordinating unit.

2. A fair cost **allocation from central support services** of the implementing agency. This would include a fair and equitable allocation of the expense of central services such as:

   - Human resources, based on the proportionate number of staff
   - Accounting, based on the volume of transactions generated
   - Management information systems, based on the proportionate number of workstations and the actual systems used by the co-ordinating unit
   - Procurement and legal, based on the volume of transactions generated
   - General office and administrative services, based on the proportionate number of staff.

3. A fair **allocation of country or field office costs**. This allocation could be made globally on the basis of financial activity, i.e. Multilateral Fund spending vs total agency spending.

4. Direct costs of the **implementing arms, be they executing agencies, national governments, financial intermediaries or other consultants** contracted by the implementing agencies to the extent that they are involved in the administration of projects. These costs would be established by service contract or otherwise charged at rates equivalent to the fair value of the services received. These costs would exclude costs approved as part of project budgets (e.g. the cost of UNIDO's consultants in many of its projects).

It is proposed that the following items be considered as non-reimbursable for the purposes of determining actual administrative costs:

- Travel not directly related to Multilateral Fund business, including the non-Multilateral Fund portion of multi-purpose trips, trips related to activities extraneous to the implementing agency's role;
- Allocations of general expenses already provided for in the general funds of implementing agencies;
- Charges aimed at underwriting deficits or costs in other programs, budgets or activities; and
- Any costs charged to projects.

Appendix II

REPORTING CATEGORIES FOR CORE UNIT AND ADMINISTRATIVE COSTS

Cost items
Core components
Core unit personnel and contractual staff
Travel
Space (rent and common costs)
Equipment supplies and other costs (computers, supplies, etc.)
Contractual services (firms)
Reimbursement of central services for core unit staff
Total core unit cost
Reimbursement of country offices and national execution including overhead
Executing agency support cost (internal) including overhead
Financial intermediaries including overhead
Cost recovery
Total administrative support costs
Supervisory costs incurred by MPU (UNDP only)
Grand total administrative support costs

(UNEP/OzL.Pro/ExCom/75/85, Decision 75/69, para.286).
(Supporting document: UNEP/OzL.Pro/ExCom/75/85, Annex XXXII)

ANNEX V.4: QUALITATIVE PERFORMANCE INDICATORS FOR IMPLEMENTING AGENCIES

Country/National Ozone Officer	**Treat questionnaire confidentially** Check box if appropriate: ☐	**Treat questionnaire openly** Check box if appropriate: ☐

Agency **Projects/Programme description**

Section I: Rating by Indicator

Indicator	Not satisfactory	Satisfac-tory	Highly satisfactory	Not relevant
Organization and Cooperation (overall rating)				
Did cooperation with the staff of the implementing agency take place in an atmosphere of mutual understanding?				
Did the responsible staff of the implementing agency communicate sufficiently and help to avoid misunderstanding?				
Were the required services of the implementing agency delivered in time?				
Did the implementing agency clearly explain its work plan and division of tasks?				
Did the implementing agency sufficiently control and monitor the delivery of consultant services?				
Has the use of funds been directed effectively to reach the targets and was it agreed between the national ozone unit and the implementing agency?				
Was active involvement of the national ozone unit ensured in project:				
• Identification?				
• Development?				
• Implementation?				
Was appropriate institutional capacity of the national ozone unit (institutional strengthening) developed?				
Responsiveness to requests for assistance				
Reliability of advice provided				
Coordination of activities				
Efficient and timely use of Fund resources				
(additional indicators if required)				
(additional indicators if required)				
Technical Assistance/Training (overall rating)				
Were project partners and stakeholders encouraged by the implementing agency to participate positively in decision-making and design of activities?				
Did project partners receive sufficient technical advice and/or assistance in their decision-making on technology?				
Did the implementing agency give sufficient consideration to training aspects within the given funding limits?				
Was the selection and competence of consultants provided by the implementing agency satisfactory?				
Do you feel that you have received sufficient support in building capacities for the national implementation of the project (within the funding limitations)?				
Has the acquisition of services and equipment been successfully administered, contracted and its delivery monitored?				
In case of need, was trouble shooting by the implementing agency quick and in direct response to your needs?				
Investment projects:				
• Technical advice, training and commissioning provided has been effective and met the expectations of stakeholders				
• Agency has been responsive in addressing any technical difficulties that may have been encountered subsequent to the provision of non-ODS				

Indicator	Not satisfactory	Satisfac-tory	Highly satisfactory	Not relevant
technology				
National phase-out plans:				
• Proposed implementation strategies were adequate				
• Technical advice or training provided has been effective				
• Technical advice on equipment specifications has been adequate				
• Support for the distribution of equipment has been adequate				
• Support to identify policy issues related to the implementation of the plan has been adequate				
Training projects				
• What was the quality of training provided?				
• Are skills subsequently used by training targets?				
Regulatory assistance projects				
Have the regulations that have been enacted/proposed been:				
• Applicable?				
• Enforceable?				
• Adapted to local circumstances?				
(additional indicators if required)				
(additional indicators if required)				
Impact (overall rating)				
In the design and implementation of the project, has the implementing agency been striving to achieve sustainable results?				
Has cooperation with the implementing agency substantively contributed and added value to your work or organization in managing compliance in your country?				
(additional indicators if required)				
(additional indicators if required)				

Section II: Narrative Rating

Please provide a narrative explaining the evaluation of the agency's achievements:

_____
_____
_____
_____
_____

Implementing agency's response (to be provided by the implementing agency):

_____
_____
_____
_____
_____
_____

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/6, para.53).
(Supporting document: UNEP/OzL.Pro/ExCom/44/8).

ANNEX V.5: QUALITATIVE PERFORMANCE INDICATORS FOR IMPLEMENTING AGENCIES ASSESSMENT REPORT (CONFIDENTIAL)

Instructions

National Ozone Unit officers (NOUs) are requested to provide one assessment report for each implementing agency operating in the country.

There are 3 main qualitative performance indicators: (1) organization and cooperation (2) technical assistance/training; and (3) impact. Several questions pertaining to each indicator are provided for your assessment and to enable you to determine an overall assessment for the three main indicators.

NOUs should specify a rating of 1 to 4 for the indicators with the best being 4 (highly satisfactory), 3 (satisfactory), 2 (less satisfactory), and 1 (unsatisfactory).

The final column in the assessment report enables the National Ozone Unit officer to indicate if the question is not relevant to the agency concerned. It also gives NOUs that would prefer to provide a narrative response to the question a place to put that optional information.

The assessment report is confidential and will be shared with the concerned implementing agency for its comment. The Fund Secretariat will compile the results of the individual reports and share anecdotal information while maintaining the confidentiality of the country that provided the information.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/14, para. 75)
(Supporting document: UNEP/OzL.Pro/ExCom/46/47,Annex II).

ANNEX V.6: UNIFORM FORMAT FOR REPORTING PROGRESS AND FINANCIAL INFORMATION

The Uniform Format for Reporting Progress and Financial Information combines the Uniform Format for Annual Financial Reports (UNEP/OzL.Pro/ExCom/12/37, Annex III) with the Implementing Agencies input to the Consolidated Progress Report (UNEP/OzL.Pro/ExCom/10/40, Annex IV). The combined document will be included as part of the Consolidated Progress Report.

It will be submitted to the Secretariat and the Executive Committee in diskette form in the spreadsheet or data base programme used at the Fund Secretariat and the entries should be listed in alphabetical order by country.

The reporting period will include financial data and progress status since the previous reporting period through the end of the preceding full quarter of a year. For example, if a meeting were held in May, the reporting data would be through the end of the first quarter.

The Implementing Agencies' annual audited financial reports to the Treasurer should be prepared in accordance with the financial audit regulations of the agency. The information included through the Uniform Format for Reporting Progress and Financial Information should be reconcilable with the annual audited financial reports presented to the Executive Committee through the Treasurer, especially with regard to approvals and expenditures.

DEFINITIONS

Administrative support - Administrative costs incurred by the agency in delivering a programme or activity approved by the Executive Committee.

Approvals - As listed in the Report of the Executive Committee.

Approved funding - Funds as initially approved by the Executive Committee (additional allocations listed separately).

Completed projects/activities - Projects that have been commissioned and the ODS has been phased out. For activities without an ODS phase-out, when the activity was completed.

Date of approval - The date of the Executive Committee Meeting at which the approval was initially given expressed in month and year (e.g. 08-93 is August 1993).

Date of financial completion (For completed projects only) - The date at which all expenditures were reported and the account is closed. The absence of a date in this column means that the account has not been closed.

Date of implementation (actual and proposed) - Date when project was commissioned and the ODS was phased out or the date proposed for the ODS phase-out as listed in the project proposal. For activities, the date at which the activity is expected to be implemented (e.g., when a workshop was held).

Funds disbursed - Actual expenditures by agency.

Interest earned - Interest collected on funds held by the Implementing Agency.

Number of approvals - Number of activities approved by calendar year.

Number completed - Number of activities for which ODS has been phased out or the activity has been completed.

ODP phased out (to be phased out) - The amount of ODP phased out for completed projects and the amount of ODP to be phased out as listed in the project proposal.

Ongoing projects/activities - All approvals not classified as completed.

Planned commitment in current year (For ongoing projects only) - Money set aside for continuation of project/activity for the current year.

Project number plus region - The project number assigned by the Fund Secretariat. The project number includes the country abbreviation (e.g. THA is Thailand), the sector abbreviation (e.g. REF is refrigeration), the number of the Executive Committee Meeting (e.g. 08 is the Eighth Meeting), the type of project (INV is investment project), and the sequential number assigned by the Secretariat. A regional abbreviation should also be included (LAC is Latin America) according to the regional designations used by the Secretariat.

Project title - The title listed in the approval recorded in the report of the Meeting of the Executive Committee at which the project was approved.

Rate of disbursement - Funds disbursed divided by approved funding.

Savings or deficits (For completed projects/activities only) - Approved funding minus funds disbursed.

Savings plus deficits (For completed projects/activities only) - Savings plus deficits reported on an annual basis.

Status/lessons learned/remarks - Implementing agencies should specify the physical progress achieved towards the goals of projects/activities (e.g. possibly in per cent completion). Lessons learned should be noted in accordance with any monitoring and evaluation guidance.
(UNEP/OzL.Pro/ExCom/17/60, Decision 17/22 para. 34e).
(Supporting document: UNEP/OzL.Pro/ExCom/17/60/ Annex II).

ANNEX V.7: REVISIONS TO DATA BASE FORMAT FOR PROGRESS AND FINANCIAL REPORTING

Modalities

Implementing agencies will submit their data tables for Progress and Financial Reporting in the spreadsheet format used by the Fund Secretariat (currently Microsoft Excel 5.0) on diskette or as specified by the Secretariat. The data base used by the Fund Secretariat (Microsoft Access 2.0) may be used if the data base formats are interchangeable with the spreadsheet format.

Two reports will be presented per year for reporting periods ending 30 June and 31 December. The diskette should be received in the office of the Secretariat on 1 September for the 30 June report and 15 March of the following year for the 31 December report unless otherwise notified by the Secretariat.

For presentation purposes, all project data should be grouped by status, e.g., completed, ongoing, transferred and closed projects should be included in the data base. Data within these groups should be presented in alpha-numerical order according to Agency, Country, Sector, Meeting Number, Type, Inventory Number, and Region. Agencies should provide totals where appropriate for each column.

All provisions of decision 17/22 that are not specifically revised remain in effect, for example, data totals should continue to be presented at the end of the data tables as per decision 17/22. Since administrative support is included in the data totals, it should no longer be required on a per project basis. Administrative support costs will continue to be presented in the annual summary table.

It should be noted that progress and financial reporting does not replace the requirement in the agreements between the Implementing Agencies and the Executive Committee for annual audited financial reports to be submitted to the Treasurer prepared in accordance with the financial audit regulations of the agency. However, the information included through the Uniform Format for Progress and Financial Reporting should be reconcilable with the annual audited financial reports presented to the Executive Committee through the Treasurer, especially with regard to total expenditures (disbursements and obligations) and approvals.

Format Revisions

This section addresses additional information that should be included in the progress report data base and proposed revisions to the format approved in decision 17/22. All relevant definitions provided in decision 17/22 still apply.

Required Revision

The first additional information is required from decision 18/16.

Date Funds First Disbursed

Date when equipment was first purchased toward implementation of investment project, or date of any expenditure toward implementation of non-investment project.

Suggested Additions

It is proposed to add the following information to the format:

Adjustment (US $)

Adjustments to the initial approved funding level. For projects where budgets need to be adjusted, an amount will be indicated under the column entitled “Balances”. In some cases, agencies may otherwise indicate that a change in the budget is needed. After the Executive Committee has approved any change in the budget of an approved project, the amount adjusted will be reflected under this column entitled “Adjustment”.

Status

Status should be designated with one of four terms: ONG for ongoing; COM for completed; CLO for closed; and TRF for transferred to another Implementing Agency.

Sub-Sector

A three digit code that the sector designation should be changed to one letter (e.g. refrigeration from REF to R) and a sub-sector code should be added (e.g. DOM means domestic refrigeration sub-sector). This will enable the Committee to be provided with summary statistics by sub-sector which are pertinent to business plan monitoring and cost-effectiveness thresholds. The Secretariat will provide the Implementing Agencies with both the new codes and the existing codes for immediate insertion into the agencies’ data bases.

Implementation Characteristics

Agency *National Implementation*	*Time or Objective-Sensitive Account*	*Disbursement Method (I/R/D)*

Agencies may implement projects differently. Some projects are implemented by the agencies and others by national governments or the enterprises themselves. Some projects are approved for a one-year or three-year period and their completion represents the end of a period of time instead of the accomplishment of a project objective. For example, 33 per cent disbursement on a three-year institutional strengthening project means that funds have been advanced for one-year. A 33 per cent rate of disbursement on an agency implemented investment project may mean that the project's objective is 33 per cent completed. Also, some agencies may disburse funds as a project is implemented or only disburse funds after the project is implemented. These difference make it difficult to assess the importance of performance indicators such as proportion of funds disbursed.

To distinguish performance by funding and implementation characteristics, three columns should be added to the format. The first column should indicate if the project is being implemented through agency (A) or national (N) implementation.

The second column will indicate if the project is implemented through a time (T) or objective-sensitive (O) account.

The third column will specify the disbursement method: disbursement during implementation (I), disbursement for retroactive (R) projects (projects approved after the ODS has been phased out); and disbursement for projects begun after Executive Committee approval (D).

Interest Available for Return to Fund

A column should be added to the annual summary data table that indicates the amount of interest being returned to Fund for use at the Executive Committee Meeting when the progress report is being presented.

Suggested Revisions

The following revisions to the format adopted in decision 17/22 are recommended:

All dates should be provided in a numeric format. For example, May 1995 should be entered "199505". This entry should not have spaces, commas, dashes or any other punctuation marks.

Each item in the project number should be listed in a separate column.

A definition for the revised date of implementation should be added to decision 17/22 as follows: Revised date of implementation is the date when the investment project is currently expected to be phased out or in the case of non-investment projects, when the activity is currently expected to be implemented.

Planned Commitment in Current Year should be provided for both completed and ongoing projects and in the annual summary table.

"Rate of Disbursement" should be renamed "Per Cent of Funds Disbursed".

Change sector code to designate sector with one letter (A for aerosol, F for foam, etc.) followed by a three digit sub-sector code to enable data on resource allocation and phase-out categories.

A column entitled, "Balance", should replace "Savings/Deficits" and is defined as the difference between approved funding plus adjustments minus funds disbursed. This should be specified for completed, ongoing, transferred, and closed projects. For projects with a date of financial completion, no information should be provided unless an action for a final adjustment needs to be made at the meeting when the progress report is presented.

Since a status column is being added, completed, ongoing, closed and transferred projects will all be included on the same worksheet. This means that the following headings have been changed and are defined according to the status designation:

ODP Phase-out for completed projects or ODP to be Phased Out for ongoing projects.
Date of Financial Completion for completed projects or Revised Date of Implementation for ongoing projects.
Date of Actual Implementation for completed projects or Proposed Date of Implementation for ongoing projects.
The savings/deficits column should be deleted from the Annual Summary table. Columns should be rearranged

per Part II.

REVISED DATA BASE FORMAT FOR PROGRESS AND FINANCIAL REPORTING

Project Data

The following column headings should be presented for closed, completed and ongoing projects:

Status	*Agency National Implementation*	*Time- or Objective-Sensitive Account*	*Disbursement Method (I/R/D)*	*Agency*	*Country Code*	*Sector Code*	*Mtg. Num.*	*Type*	*Inv#*	*Region Code*	*ODS to be Phased Out or ODS Phased Out*	*Project Title*

Date app'd	*Date-financial completion (completed) or revised date of implementation (ongoing)*	*Date implemented (proposed or actual)*	*App'd funding (US $)*	*Adjustment (US $)*	*Funds disb'd (US $)*	*Per cent of funds disbursed*	*First disb date*	*Balance (US $)*	*Planned commitments in current year (US $)*	*Remarks*

Annual Summary

The following column headings should be presented for annual summaries which should be presented in the Implementing Agencies' progress report narrative by implementation characteristics:

Agency	*Year*	*Number of Approvals*	*Number Completed*	*ODS Phased Out*	*App'd Funding (*US $*)*	*Adjustment (*US $*)*

*Funds Disb'd (*US $*)*	*Proportion of Funds Disbursed*	*Planned Commitment in Current Year (*US $*)*	*Interest Earned (*US $*)*	*Interest Returned (*US $*)*	*Administrative Support (*US $*)*

FORMAT FOR THE NARRATIVE OF AGENCY PROGRESS REPORTS AND THE CONSOLIDATED PROGRESS REPORT

I.	Project Approvals and Disbursements
	A. Annual Summary (paragraph 2 of Part II).
	B. Summary by Type (CPG, DEM, INS, INV, etc.).
II.	Project Completion
	A. ODS phased out Since Last Report
	B. Non-investment Projects
III.	Global and Regional Project Highlights
	A. Global Projects
	B. Regional Projects
IV.	Performance Indicators
	A. Agency's Business Plan Performance Goals
	B. Cumulative Completed Projects
	C. Cumulative Ongoing Projects
V.	Status of Agreements/Project Documents and Project Preparation, by country
	A. Agreements/Project Documents to be signed/executed/finalized and when they will be ready for disbursing
	B. Project Preparation by country, approved amount, and amount disbursed.
VI.	Administrative Issues (Operational, Policy, Financial, and Other Issues).
	A. Meetings Attended
	B. Interagency Co-operation
	C. Adjustments

D. Other Issues

Annex I Country Developments and Institutional Strengthening Unit Highlights

Annex II Data Base (note: completed, ongoing, closed, and transferred will be part of one data base).

FORMAT FOR THE NARRATIVE OF AGENCY PROGRESS REPORTS AND THE CONSOLIDATED PROGRESS REPORT

[Note: Project preparation and investment projects are not part of UNEP's portfolio and will not be addressed in UNEP's progress report narrative. UNEP's clearinghouse, networking, and regional training activities will be addressed under Section III.]

I. Project Approvals and Disbursements
   A. Annual Summary (per paragraph 2 of Part II).
   B. Summary by type (CPG, DEM, INS, INV, etc.).

This section should have one or two summary sentences and tables for approvals and disbursements by type of project/activity and a list of sectors by country for which total phase-out has been funded. The data should be listed by implementation characteristics.

II. Project Completion

   A. ODS phased out since last Report
   1 Summary
   2 Approved Amount, Expenditure, ODP tonnes phased out, and whether additional disbursements are anticipated. The data should be listed by disbursement method.
   B. Non-investment Project Completion Since Last Report including approved amount, expenditure to-date, and whether additional disbursements are anticipated.
   1 Country Programmes
   2 Technical Assistance
   3 Training
   4 Workshops

This section should have a few sentence summary of completed activities and tables as indicated for each completed activity.

III. Global and Regional Project Highlights
   A. Global Projects
   B. Regional Projects

This section provides for a brief narratives, about 200 words, for activities on Global and Regional Projects.

IV. Performance Indicators
   A. Agency' Business Plan Performance Goals

   Each agency stipulates its performance goals for the annual business plan. This sub-section should present those indicators and address in a few sentences how the agency is meeting those goals. The data should be listed by implementation characteristics.

   B. Cumulative Completed Projects

Sector/Region	*Number of Projects*	*Funds Approved*	*Per Cent of Funds Disbursed*	*Months from Approval to First Disbursement*	*Months from Approval to Implementation*	*Cost-Effectiveness*

This sub-section provides summary information for each sector and region according to indicators that can be derived from the data base. It enables the agencies to present a summary of all of the projects that the agency has completed since the beginning of the Multilateral Fund. The data should be listed by implementation characteristics.

   C. Cumulative Ongoing Projects

Sector/Region	*Number of Projects*	*Funds Approved*	*Per Cent of Funds Disbursed*	*Average Months from Approval*	*Average Projected Time to Completion*

This sub-section provides summary information for each sector and region according to indicators that can be derived from the data base. It enables the agencies to present a summary of all of the projects that the agency is

currently implementing. The data should be listed by implementation characteristics.

STATUS OF AGREEMENTS[1] AND PROJECT PREPARATION (WHERE APPLICABLE), BY COUNTRY

A. Agreements to be signed/executed/finalized and when they will be ready for disbursing
B. Project Preparation by country, approved amount, and amount disbursed.

This section could begin with a few sentences about the subjects and should follow with a table on agreements and one on project preparation. Project preparation should be listed by country and by approval, i.e., if the Committee approved separate requests for project preparation for aerosols, foams, etc., each request should be listed separately under the country heading.

ADMINISTRATIVE ISSUES (OPERATIONAL, POLICY, FINANCIAL, AND OTHER ISSUES).

A. Meetings Attended
B. Interagency Co-operation
C. Adjustments
D. Other Issues

The agency will list those meetings attended and any interagency (including bilateral agencies) co-operation undertaken during the reporting period. This section also allows for adjustments to previous approvals and any other issue that the agency may wish to bring to the attention of the Committee.

Annex I Country Development and Institutional Strengthening Unit Highlights

This annex will be listed by country for the countries in which the Implementing Agency is involved. The first paragraph (about 200 words) will address highlights of projects and activities under agency implementation.

The second paragraph (about 200 words) will address the activities of institutional strengthening units whose funds are allocated by the concerned Implementing Agency. It will focus on the goals, objectives, and activities funded through the institutional strengthening unit allocation provided by the Executive Committee. The narrative should also address any additional requirements specified by the Committee in its decision concerning institutional strengthening renewal.

Annex I Data Base (note: completed, ongoing, closed, and transferred will be part of one data base). The data should be summarized per decision 17/22 by implementation characteristics.

(UNEP/OzL.Pro/ExCom/19/64 Annex IV).
(Supporting document: UNEP/OzL.Pro/ExCom/19/4).

[1] Project documents represent agreements for some agencies.

ANNEX V.8: REVISED DATABASE FORMAT FOR PROGRESS AND FINANCIAL REPORTING

General data fields									
Meta code	**Code**	**Legacy code**	**Agency**	**Clusters**	**Region**	**Country**	**Type**	**Sector**	**Project title**

Date data fields						
Date approved	**Date of completion per proposal**	**Status**	**First disbursement date**	**Planned date of completion**	**Date completed (actual)**	**Date of financial completion**

Phase-out data fields							
Consumption ODP/MT to be phased out per proposal	**Consumption to be phased out per proposal in CO2-eq tonnes**	**Production ODP/MT to be phased out per proposal**	**Production to be phased out per proposal in CO2-eq tonnes**	**Consumption ODP/MT phased out**	**Consumption phased out in CO2-eq tonnes**	**Production ODP/MT phased out**	**Production phased out in CO2-eq tonnes**

Financial data fields								
Approved funding (US $)	**Adjustment (US $)**	**Approved funding plus adjustments (US $)**	**Per cent of funds disbursed**	**Balance (US $)**	**Support cost approved (US $)**	**Support cost adjustment (US $)**	**Support cost approved plus adjustments (US $)**	**Support cost balance (US $)**

Financial data fields (continued)						
Funds disbursed (US $)	**Funds committed (US $)**	**Estimated disbursement in current year (US $)**	**Support cost disbursed (US $)**	**Support cost committed (US $)**	**Disbursements made to final beneficiaries from FECO/MEP (US $)**	**Funds advanced (US $) (UNEP only)***

* Funds that have been transferred to the government once the agreement has been signed.

Decision data fields		Narrative & indicators data Fields		
Implementation delays/status report decisions	**Date of completion per agreements or per decisions**	**Remarks (as of 31 December XXXX)**	**Remarks (current year)**	**Gender policy for all projects approved from 85th mtg (Yes/No)**

(UNEP/OzL.Pro/ExCom/96/66 Annex XXIX).

ANNEX V.9: REVISED FORMAT FOR THE NARRATIVE OF AGENCY PROGRESS REPORTS

Implementing agencies should use the following section and sub-section titles and provide the required information according to the format, without changing the headings.

I. Project summary since the inception of the Multilateral Fund

I.1 Summary data

This section should provide a brief summary of project implementation from the Fund's inception until the end of the reporting period. It should begin with a summary of a few sentences, followed by a table.

Items	Cumulative since 1991*
Total number of projects approved	
Total number of projects completed	
Total funds approved (US$)	
Total funds disbursed (US$)	
Total approved phase-out (ODP/MT)	
Total actual phase-out (ODP/MT)	
Total approved phase-out (CO_2-eq tonnes)	
Total actual phase-out (CO_2-eq tonnes)	

* Excluding cancelled and transferred projects

I.2 Summary data by cluster

This section should provide a brief summary of project implementation from the Fund's inception until the end of the reporting period. It should begin with a summary of a few sentences. This table provides the summary of all approved projects by cluster.

Clusters	Number of projects*			Funding (US$)*			
	Approved	Completed	% completed	Approved	Disbursed	Balance	% disbursed
HPMP stage I							
HPMP stage II							
KIP stage I							
Institutional strengthening							
etc…							
Total							

* Excluding cancelled and transferred projects

II. Project progress in the reporting year

II.1 Activities related to HCFC phase-out

This section should provide a summary of activities related to the phase-out of HCFCs, including HCFC phase-out management plans (HPMPs), HCFC production phase-out management plans (HPPMPs), stand-alone investment/non-investment projects and preparation projects.

This section should address projects and activities including the number of HPMPs/HPPMPs that have been approved and completed during the reporting period. For projects under implementation, this section should provide a summary including implementation status and key issues identified during project implementation, as well as challenges encountered with different conversions/technologies (e.g., non-availability of specific alternative substances, components needed for manufacturing appliances, cost of alternatives, specific challenges in training technicians and enforcement officers) for the reporting year.

II.2 Activities related to HFC phase-down

This section should provide a summary of activities related to the phase-down of HFCs, including Kigali HFC implementation plans (KIPs), stand-alone investment/non-investment projects and preparation projects.

This section should address projects and activities including the number of KIPs that have been approved and completed during the reporting period. For projects under implementation, this section should provide a summary including implementation status and key issues identified during project implementation, as well as challenges encountered with different conversions/technologies (e.g., non-availability of specific alternative substances, components needed for manufacturing appliances, cost of alternatives, specific challenges in use of alternatives to HFCs in different sectors, specific challenges in training technicians and enforcement officers) for the reporting year.

II.3 Activities related to energy efficiency

This section should provide a summary of activities related to energy efficiency in the context of HCFC phase-out or HFC phase-down.

This section should address energy efficiency activities under different funding windows and provide a brief report on project implementation status and keys issues identified during project implementation for each sub-section below:

(a) Additional activities to be included under the HPMPs for low-volume-consuming countries to maintain energy efficiency for the servicing sector (decision 89/6(b));

(b) Pilot projects for energy efficiency (decision 91/65);

(c) Projects under the energy efficiency operational framework (decision 94/60); and

(d) Status of implementation of the minimum energy performance standards including domestic refrigeration and residential air-conditioning particularly in countries that are supported through projects relating to energy efficiency.

II.4 Activities related to national inventories of banks of waste-controlled substances

This section should address national inventories of banks of used or unwanted controlled substances and a plan for the collection, transport and disposal of such substances and provide a brief report on project implementation status and keys issues identified during project implementation.

III. Project completion in the reporting year

This section should begin with a summary in a few sentences, followed by a table providing information on the number of projects that are completed, and phase-out associated to these projects since the last report.

Cluster	Number of projects completed	Phase-out	
		ODP/MT	CO_2-eq tonnes
HPMP stage I			
HPMP stage II			
KIP stage I			
Institutional strengthening			
etc…			
Total			

IV. Gender mainstreaming

A brief report should be provided on key gender mainstreaming results achieved including:

- Number of countries that have included the gender policy for all projects approved since the 85th meeting;
- Number of countries that have included mandatory requirements and performance indicators when submitting new stages of multi-year agreement for projects approved since the 94th meeting;
- Extent of consultations with associations, networks, and/or stakeholders focusing specifically on mainstreaming gender throughout the project planning and implementation process;
- From the implementing agency's perspective, capacity built in the implementing agency and the country to ensure that the gender policy is integrated into the project cycle; and
- Report on use of gender guides/manuals (each implementing agency has a guide for gender mainstreaming for Multilateral Fund-supported projects) and lessons learned.

V. Risk assessment

This section should provide an overview of the primary reasons for project delays faced by the countries that were assisted by the agency and the specific actions taken to address those delays, including the analysis of the relevant root causes and information on how to avoid reoccurrence. This information is needed for providing an update to the Executive Committee on how project delay issues are systematically addressed by the different agencies.

VI. Performance indicators

This section presents the quantitative evaluation of the performance of the implementing agencies with respect to the performance targets set in the business plans and progress and financial reports and their achievements toward these targets for the year of the review. A brief explanation of the achievements for each target can be provided if necessary.

Type of indicator	Short title	Calculation	Targets	Achievements
Planning-Approval	Tranches approved	Number of tranches approved vs. those planned*		
Planning-Approval	Individual projects/ activities approved	Number of projects/activities approved vs. those planned (including project preparation activities)		
Implementation	Funds disbursed	Based on estimated disbursement in progress reports		
Implementation	ODS phase-out for HCFC-related projects	ODS phase-out for HCFC-related projects in ODP tonnes vs. those planned per progress reports		
Implementation	HFC phase-down for HFC-related projects	HFC phase-down for HFC-related projects in CO_2-eq tonnes vs. those planned per progress reports		
Implementation	Project operational completion	Project operational completion vs. planned in progress reports for all activities (excluding project preparation)**		
Implementation	Gender mainstreaming	Operational policy on gender mainstreaming applied to all approved projects		
Administrative	Speed of financial completion	The extent to which projects are financially completed within 12 months after project operational completion		
Administrative	Timely submission of project completion reports	Timely submission of project completion reports based on the progress report		
Administrative	Timely submission of progress reports and business plans	Timely submission of progress reports and business plans and responses unless otherwise agreed		

* The targets of an agency will be reduced if it cannot submit a tranche owing to another cooperating agency or lead agency or if the HCFC phase-out management plan or Kigali HFC implementation plan submitted for consideration by the Executive Committee is not approved as a result of factors beyond the control of the national ozone unit and agency.

** The targets of an agency will be reduced if an extension of the completion date has been approved by the Executive Committee.

VII. Country highlights

Please provide information on country-level achievements for three countries that show a significant performance in implementation of projects, policies and other measures. (e.g., expeditious completion of challenging technology conversion, capacity-building and transformative changes from controlled substances to sustainable alternatives, proactive implementation of regulations to reduce dependence on controlled substances and adoption of energy-efficient technologies).

VIII. Administrative matters and other issues

VIII.1 Meetings attended

VIII.2 Implementing agency and other co-operation

VIII.3 Other issues

The agency will list those meetings attended and any interagency (including bilateral agencies) cooperation undertaken during the reporting period. The agency may also provide any other issues that it wishes to bring to the attention of the Executive Committee.

Annex I: Summary Tables

A summary of a few sentences should precede each table. This enables the agencies to present a summary of all projects that have been completed or are ongoing since the Fund's inception.

(a) Annual summary data

Year approved	Number of approvals	Number completed	Per cent completed (%)	Approved funding plus adjustment (US $)	Funds disbursed (US $)	Balance (US $)	Per cent of funds disbursed (%)

(b) Cumulative completed investment projects

Item	Number of projects	Approved funds plus adjustment (US $)	Per cent of funds disbursed (%)	Consumption phased out (ODP/MT)	Production phased out (ODP/MT)	Consumption phased out (CO2-eq)	Production phased out (CO2-eq)	Average number of months from approval to first disbursement	Average number of months from approval to completion	Overall cost-effectiveness to the Fund (US $/kg)

(c) Cumulative completed non-investment projects

Item	Number of projects	Approved funds plus adjustment (US $)	Per cent of funds disbursed (%)	Average number of months from approval to first disbursement	Average number of months from approval to completion

(d) Cumulative completed project preparation activities

Item	Number of projects	Approved funds plus adjustment (US$)	Per cent of funds disbursed (%)	Average number of months from approval to first disbursement	Average number of months from approval to completion

(e) Cumulative ongoing investment projects

Item	Number of projects	Approved funds plus adjustment (US $)	Per cent of funds disbursed (%)	Number of projects disbursing	Per cent of projects disbursing (%)	Average number of months from approval to first disbursement	Average number of months from approval to planned completion	Average length of delay in project planned completion	Overall cost-effectiveness to the Fund (US $/kg)

(f) Cumulative ongoing non-investment projects

Item	Number of projects	Approved funds plus adjustment (US $)	Funds disbursed (US$)	Per cent of funds disbursed (%)	Number of projects disbursing	Per cent of projects disbursing (%)	Average number of months from approval to first disbursement	Average number of months from approval to planned completion	Average length of delay in project planned completion

(g) Cumulative ongoing project preparation activities

Item	Number of projects	Approved funds plus adjustment (US $)	Funds disbursed (US $)	Per cent of funds disbursed (%)	Average number of months from approval to first disbursement	Average number of months from approval to planned completion	Average length of delay in project planned completion

(UNEP/OzL.Pro/ExCom/96/66 Annex XXX)

Multilateral Fund for the Implementation of the Montreal Protocol

POLICIES, PROCEDURES, GUIDELINES AND CRITERIA

(As at January 2026)

CHAPTER VI: ARTICLE 5 PARTIES

The Multilateral Fund Secretariat

VI. ARTICLE 5 PARTIES 1
Definition 1
Classification and reclassification 1
Low-volume-ODS countries 3
Summary status report on ODS phase-out for Article 5 countries 4
Annual update of the status of compliance of Article 5 countries 5
Accounting for consumption phased out during the compliance period 11
Low level of disbursement in certain countries 11
Funding for countries that have not ratified the London Amendment 11
Implementation of the strategic planning in Article 5 countries 11
Starting point for determining the sustained reduction of each Article 5 country 11
Adjusted funding policies of the Multilateral Fund 12
Reductions in national aggregate consumption 13
Customs and licensing system 14
Establishment of licensing systems 14
Report on the establishment of licensing systems under Article 4B of the Montreal Protocol 15
Customs codes 20
Use of the Globally Harmonized System for classification and labeling of ODSs 21
Customs training and licensing 21
Report on the evaluation of customs officers training and licensing system projects 22
Strategic framework for national, subregional and regional customs training 22
Monitoring of trade and prevention of illegal trade in ODSs, mixtures and products containing ODSs 22
Preventing illegal trade in controlled ozone-depleting substances 25
Changes in baseline data 28
Methodology for submission of requests for revision of baseline data 28
Parties that had requested changes in reported baseline data 29
Data and information provided by the Parties in accordance with Article 7 34
Earlier reporting of consumption and production data 35
Differences between data reported on imports and data reported on exports 35
Reporting information on destination countries for exports and source countries for imports of ozone-depleting substances 36
Reporting of zero in Article 7 data reporting forms 36
Revised data reporting forms and global-warming-potential values for HCFC-123, HCFC-124, HCFC-141 and HCFC-142 36
Timeline for reporting of baseline data for hydrofluorocarbons by parties operating under paragraph 1 of Article 5 of the Montreal Protocol 37
Collecting data to understand potential impacts of the coronavirus disease (COVID-19) pandemic on hydrofluorocarbon consumption for Group 1 parties operating under paragraph 1 of Article 5 37
Montreal Protocol treatment of ozone-depleting substances used to service ships, including ships from other flag states 38
Special considerations for the Caribbean islands affected by hurricanes 38
Non-compliance issues 39
Non-compliance with data reporting requirement under Article 7 39
Non-compliance with data reporting for the purpose of establishing baselines under Article 5 48
Non-compliance with data reporting by Parties temporarily classified as Article 5 50
Non-compliance with data-reporting by Parties recently ratifying the Montreal Protocol 50
Potential non-compliance with the freeze on CFC consumption 52
Potential non-compliance with consumption of Annex A, group I by Article 5 Parties for the control period 1 July 2001-31 December 2002 52

Potential non-compliance with consumption of Annex A, Group II by Article 5 Parties in 2002 53
Potential non-compliance with consumption of the ozone-depleting substance in Annex E by Article 5 Parties in 2002 53
Potential non-compliance with consumption of the controlled substance in Annex B, group III in 2003 54
Non-compliance issues related to specific Article 5 Parties 54
Annex VI.1: Adjusted funding policies of the Multilateral Fund 57
Annex VI.2: Remaining unfunded consumption 59
Annex VI.3: Terms of reference for a feasibility study on developing a system for monitoring the transboundary movement of controlled ozone-depleting substances between the Parties 61
Annex VI.4: Compliance with the Montreal Protocol by some Article 5 Parties 63

VI. ARTICLE 5 PARTIES

DEFINITION

Any Party that is a developing country and whose annual calculated level of consumption of the controlled substances in Annex A is less than 0.3 kilograms per capita on the date of the entry into force of the Protocol for it, or any time thereafter until 1 January 1999, shall, in order to meet its basic domestic needs, be entitled to delay for ten years its compliance with the control measures set out in Articles 2A to 2E, provided that any further amendments to the adjustments or Amendment adopted at the Second meeting of the Parties in London, 29 June 1990, shall apply to the Parties operating under this paragraph after the review provided for in paragraph 8 of this Article has taken place and shall be based on the conclusions of that review.

(The 1987 Montreal Protocol on Substances that deplete the Ozone Layer as adjusted and amended by the second Meeting of the Parties (London) and by the fourth Meeting of the Parties (Copenhagen) and further adjusted by the Seventh Meeting of the Parties (Vienna), Article 5, para. 1)).

Classification and reclassification

The Sixth Meeting of the Parties decided to adopt the following principles regarding treatment of classified and reclassified developing country Parties:

(a) the Secretariat should continue to classify, in absence of complete data, developing countries temporarily as operating or not operating under Article 5 based on the information available to the Secretariat, subject to the conditions that:

  (i) the Secretariat encourages these Parties to approach the Executive Committee and the Implementation Committee for assistance in establishing accurate data;

  (ii) a country may only be classified temporarily as operating under Article 5 for a period of two years applicable from the time of adoption of the present decision. After this period, Article 5 status can no longer be extended without data reporting as required by the Protocol, unless the country has sought the assistance of the Executive Committee and the Implementation Committee. In this case, the extension period shall not exceed two years;

  (iii) a developing country temporarily classified as operating under Article 5 would lose the status if it does not report base-year data as required by the Protocol within one year of the approval of its country programme and its institutional strengthening by the Executive Committee, unless otherwise decided by a Meeting of the Parties; and

(b) Parties may be allowed to correct the data submitted by them in the interest of accuracy for a given year but no change of classification will be permitted for that year pertaining to which the data has been corrected. Any such corrections should be accompanied by an explanatory note to facilitate the work of the Implementation Committee.

(UNEP/OzL.Pro/6/7 Decision VI/5 (paras. a, c).

The Fifth Meeting of the Parties noted that Cyprus, Kuwait, the Republic of Korea, Saudi Arabia, Singapore and the United Arab Emirates are not classified as Parties operating under Article 5 based on their annual per capita consumption of controlled substances, which is more than 0.3 kilograms. The classification will be appropriately revised in accordance with paragraph 1 of Article 5 of the Protocol, on receipt of further data from them if it warrants reclassification. The Meeting also reclassified Malta and Bahrain as Parties operating under Article 5 from the year 1991, based on the data furnished by those Parties showing their annual per capital consumption of controlled substances to be less than 0.3 kilograms.

(UNEP/OzL.Pro/5/12 Decision V/4 (paras. 1, 2)

The Eighth Meeting of the Parties decided to accept the application of Georgia to be listed as a developing country for the purposes of the Montreal Protocol, taking into account that Georgia is classified as a developing country by the World Bank and the Organization for Economic Co-operation and Development and as a net recipient country by the United Nations Development Programme.

(UNEP/OzL.Pro.8/12, Decision VIII/29).

The Ninth Meeting of the Parties decided to accept the application of the Republic of Moldova to be listed as a developing country for the purposes of the Montreal Protocol, taking into account that the Republic of Moldova is classified as a developing country by the World Bank and the Organization for Economic Co-operation and

Development and as a net recipient country by the United Nations Development Programme.
(UNEP/OzL.Pro.9/12, Decision IX/26).

The Ninth Meeting of the Parties, noting that South Africa has undertaken not to request financial assistance from the Multilateral Fund for fulfilling commitments undertaken by developed countries prior to the Ninth Meeting of the Parties, decided to accept the classification of South Africa as a developing country for the purposes of the Montreal Protocol.
(UNEP/OzL.Pro.9/12, Decision IX/27).

The Ninth Meeting of the Parties decided to reclassify Brunei Darussalam as a Party operating under paragraph 1 of the Article 5 effective 1 January 1995 on the basis of its data submitted for 1995.
(UNEP/OzL.Pro.9/12, Decision IX/33, para. 4).

The Twenty-ninth Meeting of the Executive Committee decided to request the Secretariat to send a letter to Saudi Arabia and the United Arab Emirates, countries originally classified as non-Article 5, reminding them of Decision VI/5(e) adopted by the Contracting Parties at their Sixth Meeting.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/16, para. 37).

The Fourteenth Meeting of the Parties decided to accept the application of Armenia to be listed as a developing country operating under Article 5 of the Montreal Protocol, taking into account its difficult economic situation, its classification as a developing country by the World Bank and the United Nations Development Programme and its low per capita consumption of ozone-depleting substances, on the understanding that the process for ratification of the London Amendment in Armenia must be completed before any assistance from the Multilateral Fund can be rendered to the Party.
(UNEP/OzL.Pro.14/9, Decision XIV/2).

The Fifteenth Meeting of the Parties decided to request the Council of the Global Environment Facility to consider, on an exceptional basis, project proposals from South Africa on phasing out the controlled substance in Annex E for funding as per the conditions and eligibility criteria applicable to all countries eligible for such assistance under the Facility.
(UNEP/OzL.Pro.15/9, Decision XV/49).

The Sixteenth Meeting of the Parties decided to accept the application of Turkmenistan to be listed as a developing country for the purposes of the Montreal Protocol, taking into account that the per capita consumption of Annex A and Annex B substances of the Party is below the limits specified under Article 5 of the Montreal Protocol and the Party is classified as a low income country by the World Bank.
(UNEP/OzL.Pro.16/17, Decision XVI/39).

The Sixteenth Meeting of the Parties decided:

1. to note the request by Malta to be removed from the list of developing countries operating under paragraph 1 of Article 5 of the Montreal Protocol;
2. to approve Malta's request and note further that Malta shall assume the obligations of a Party not operating under paragraph 1 of Article 5 of the Montreal Protocol.

(UNEP/OzL.Pro.16/17, Decision XVI/40).

The Seventeenth Meeting of the Parties decided:

1. to note the request by Cyprus to be removed from the list of developing countries operating under paragraph 1 of Article 5 of the Montreal Protocol;
2. to approve the request by Cyprus and note further that Cyprus shall assume the obligations of a Party not operating under paragraph 1 of Article 5 of the Montreal Protocol for the year 2005 and thereafter.

(UNEP/OzL.Pro.17/11, Decision XVII/2).

The Nineteenth Meeting of the Parties decided that South Africa, as a developing country operating under paragraph 1 of Article 5 of the Montreal Protocol, is eligible for technical and financial assistance from the Multilateral Fund for fulfilling its commitments to phase out both production and consumption of HCFCs, consistent with decision XIX/6 of the Nineteenth meeting of the Parties.
(UNEP/OzL.Pro.19/7, Decision XIX/7).

The Nineteenth Meeting of the Parties decided:

1. to note the request by Romania to be removed from the list of developing countries operating under paragraph 1 of Article 5;

2. to approve the request by Romania and note further that Romania shall assume the obligations of a Party not operating under paragraph 1 of Article 5 of the Montreal Protocol from 1 January 2008.

(UNEP/OzL.Pro.19/7, Decision XIX/19).

The Twenty-fifth Meeting of the Parties decided:

1. to note the request by Croatia to be removed from the list of developing countries operating under paragraph 1 of Article 5 of the Montreal Protocol;
2. to approve the request by Croatia, and to note that Croatia shall assume the obligations of a Party not operating under paragraph 1 of Article 5 of the Montreal Protocol for the year 2014 and thereafter.

(UNEP/OzL.Pro.25/9, Decision XXV/16).

LOW-VOLUME-ODS COUNTRIES

The Executive Committee decided, at its Seventeenth Meeting, to take an annual consumption level of 360 tonnes as the cut-off point below which a country would be considered to be a low-ODS-consuming country for the purposes of determining the eligibility of projects for funding from the allocation reserved for such countries in accordance with the decision adopted by the Executive Committee at its Sixteenth Meeting (UNEP/OzL.Pro/ExCom/16/20 para. 32 (g) (iii).

Having considered the comments and recommendations of the Sub-Committee on Project Review on the classification of low-volume-consuming countries and, in particular, on whether the consumption of methyl bromide should be taken into account for the purposes of determining the status of a Party as a low-volume-consuming country, the Executive Committee decided at its Twenty seventh meeting that the consumption of methyl bromide reported under Article 7 of the Protocol should be excluded from the calculation of ODS consumption used in establishing the status of a country as a low-volume-consuming country.

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/18, para. 43).

The Executive Committee requested that UNEP, in consultation with the other Implementing Agencies and the Secretariat, should prepare for submission to the Sub-Committee on Project Review at its Eighteenth Meeting a paper on innovative approaches to phasing out ozone-depleting substances in such countries.

(UNEP/OzL.Pro/ExCom/17/60, Decision 17/11 para. 19a and c).

Subsequently, the Nineteenth Meeting of the Executive Committee, having considered the report submitted by UNEP on innovative approaches for the phasing-out of ozone-depleting substances in low-ODS-consuming countries (UNEP/OzL.Pro/ExCom/19/53), decided:

(a) to take note of the report submitted by UNEP;

(b) to endorse the methodology in the report for approaches to institutional strengthening and country programme formulation in low- and very-low-volume-ODS-consuming countries and to encourage UNEP to implement the methodology on a trial basis;

(c) to request UNEP, in keeping with subparagraph (d) of decision VII/25 of the Seventh Meeting of the Parties, to continue its work for the preparation of an overall approach in addressing the needs of low-volume-ODS-consuming countries by, inter alia, drawing on the experience and ongoing activities of other organizations and to submit a report thereon to the Executive Committee at its Twentieth Meeting.

(UNEP/OzL.Pro/ExCom/19/64, Decision 19/30, para. 55).

The Seventh Meeting of the Parties requested the Executive Committee to provide specific support to low-volume-ODS-consuming countries (LVCs) by:

(a) allocating sufficient funds for projects in low-volume-ODS-consuming countries to further strengthen and expand awareness and training programmes, especially in the area of refrigerant management;

(b) supporting specialized assistance such as a workshop to establish regulatory and legislative measures required to facilitate the phase-out of ozone-depleting substances;

(c) allowing financing of eligible retrofitting projects, in sectors vital to LVC economies on a case-by-case basis where this can be shown to be the best approach;

(d) requesting the United Nations Environment Programme, due to its extensive experience with low-volume-ODS-consuming countries (LVCs), to take the lead in preparing an overall approach in addressing these needs;

(e) providing funds to low-volume-ODS-consuming countries, on a regional basis, to organize training

workshops for their customs and other officers on the harmonized system and other systems to control and monitor consumption of ozone-depleting substances;

Approval of projects in low-volume-ODS-consuming countries and very low-volume-ODS-consuming countries should be based upon a more appropriate project-appraisal approach reflecting the particular circumstances encountered by the countries referred to above.
(UNEP/OzL.Pro.7/12 Decision VII/25).

The Twentieth Meeting of the Executive Committee decided:

(a) to take note with appreciation of the report on UNEP's continued work on addressing the needs of low-volume-ODS-consuming countries;

(b) to note the statement of the representative of UNEP that most ODS consumption in LVCs was concentrated in the refrigeration sector, mainly in the servicing and maintenance sectors, and that phase-out of ODS could be achieved largely through non-investment projects;

(c) to request UNEP to ensure that adequate consultations were undertaken so that any policy formulated for LVCs fully reflected the needs of those countries;

(d) to endorse in principle the proposed modality for further action, including the development of refrigerant management plans, subject to a review of the operational details to be presented in the UNEP work programme;

(e) to encourage UNEP to continue exploring ways and means of addressing the needs of LVCs, bearing in mind the requirement to freeze consumption of controlled substances in Group I of Annex A to the Protocol in 1999;

(e) to request UNEP to consolidate the proposals contained in its report with a view to discussion and endorsement by the Executive Committee and, in doing so, to assess whether the funding allocated for projects in LVCs would be sufficient to enable compliance by those countries with the 1999 control measures.

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/40 , para. 60).
(Supporting document: UNEP/OzL.Pro/ExCom/20/60).

The Fifty-fourth Meeting of the Executive Committee decided to apply the penalty in the Agreement calculated as 10 per cent of the amount of the tranche being submitted to the Executive Committee for approval in instances of non-compliance with the Agreement between the Executive Committee and the Government concerned, when the following criteria had been met: (i) the country concerned was a low-volume-consuming country, (ii) it was the first time that the country had been in non-compliance and (iii) the country had returned to compliance without additional assistance from the Fund;

(UNEP/OzL.Pro/ExCom/20/72, Decision 20/40 , para. 60).
(Supporting document: UNEP/OzL.Pro/ExCom/20/60).

SUMMARY STATUS REPORT ON ODS PHASE-OUT FOR ARTICLE 5 COUNTRIES

The Twenty-second Meeting of the Executive Committee decided:

(a) that the report should be updated on an annual basis;

(b) that, to improve the usefulness of the document, further status reports should include information on both CFC production and consumption, CFC freeze level data on the basis of the 1995-1997 baseline, and information on halon production and consumption, as well as general information on overall economic growth;

(c) that Article 5 Parties should be strongly encouraged to provide their own assessment of whether they would be able to meet the 1999 freeze. The Secretariat, working with the Implementing Agencies, should develop and distribute a questionnaire seeking that assessment from Article 5 Parties;

(d) to request the Implementing Agencies to increase their focus on those Parties that had not yet received assistance from the Multilateral Fund, all of which were low-volume-consuming countries (LVCs).

(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/12, para. 27).
(Supporting document: UNEP/OzL.Pro/ExCom/22/13).

The Twenty-fifth Meeting of the Executive Committee took note of the summary status report and decided:

(a) to request Implementing Agencies to address the findings in paragraph 35 of the Sub-Committee's report in

their 1999 business plans, including how to complete or accelerate preparation of country programmes so as to ensure that all countries had data against which to report and measure progress in time for the 1999 freeze;

(b) to request the Secretariat, in consultation with the Implementing Agencies, to prepare a summary table providing information for each country with the following data: funds approved to date; funds disbursement; percentage of approved funds disbursed; 13 per cent support costs; pertinent consumption data; approved ODP phase-out for the country; actual ODP phased out; percentage of approved consumption phased out; the approved phase-out in the production sector; and a synthesis of information readily available to the Secretariat on performance of national ozone units.

(UNEP/OzL.Pro/ExCom/25/68, Decision 25/12, para. 34).

The Twenty-sixth Meeting of the Executive Committee decided:

(a) to request the Secretariat to update the summary status report and submit it to the Executive Committee at its second meeting each year;

(b) also to request the Secretariat to ensure that data in its documents were consistent and to take steps to validate and update the data;

(c) further to request the Secretariat to ensure that the column on consumption included the applicable baseline for each group of substances for which the Multilateral Fund considers projects and to provide information on the sectoral distribution and, if available, on the distribution between the manufacturing and servicing sectors.

(UNEP/OzL.Pro/ExCom/26/70, Decision 26/7, para. 22).

The Thirty-seventh Meeting of the Executive Committee decided:

(a) to note with appreciation the update report on the status of Article 5 countries in the new phase of the Executive Committee in achieving compliance with the initial control measures of the Montreal Protocol as contained in UNEP/OzL.Pro/ExCom/37/18 and Corr.1, and request the Secretariat to continue to update this report at subsequent meetings, taking into account the comments received;

(b) to request the relevant Article 5 countries and implementing and bilateral agencies to use the information contained in this report (UNEP/OzL.Pro/ExCom/37/18 and Corr.1) as a basis for all future business planning;

(c) to request the Secretariat to write to the Government of the Bahamas for an explanation of the CFC data reported to the Fund Secretariat on the implementation of country programme that exceeds by more than 50 per cent the agreed maximum level of consumption for 2001 according to the Bahamas national phase-out agreement;

(d) to urge Costa Rica, Georgia, Ghana, Lebanon, Malawi, Morocco, Peru, Turkey and Uruguay to expedite the implementation of their phase-out agreements and projects to achieve the freeze in methyl bromide consumption;

(e) to request Argentina, China, Croatia and Romania to reconsider their CTC data to ensure that CTC for feedstock is not included;

(f) to note that the negative data for Argentina's halon consumption in 2001 reported to the Fund Secretariat on the implementation of country programme reflected the exportation of halon for that year when no halon was consumed or produced by Argentina;

(g) to note that there was an error in the Ozone Secretariat data concerning El Salvador's consumption of methyl bromide, which was zero ODP tonnes; and

(h) to note that Syria reported that the Government of Jordan and the Secretariat were discussing Jordan's ongoing consumption data.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/16, para. 42).
(Supporting document: UNEP/OzL.Pro/ExCom/37/18 and Corr.1).

Annual update of the status of compliance of Article 5 countries

The Thirty-second Meeting of the Executive Committee decided:

(a) to take note of document UNEP/OzL.Pro/ExCom/32/38;

(b) to request the Secretariat to prepare an annual update of the status of compliance of Article 5 countries with the control measures of the Montreal Protocol as contained in part I of document UNEP/OzL.Pro/ExCom/32/38, and of the implementation of Montreal Protocol through government policy controls as contained in part II of the document. In so doing, the Secretariat should attempt in future editions of the document to correlate the impact of approved non-investment projects on the status of compliance of Article 5 countries and address other policy measures such as those for end-users and implementation by customs authorities of import controls;

(c) to request the Sub-Committee on Monitoring, Evaluation and Finance to review and take action on the updated document.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/76, para. 94).
(Supporting document: UNEP/OzL.Pro/ExCom/32/38).

The Thirty-fourth Meeting of the Executive Committee decided:

(a) to note the report contained in UNEP/OzL.Pro/ExCom/34/16, in particular that:

(i) the remaining consumption to be phased out after accounting for approved but unimplemented projects was represented by the following consumption sectors: refrigeration, 35 per cent; foam, 16 per cent; process agents, 16 per cent; solvents, 12 per cent; halons, 12 per cent; fumigants, 6 per cent; aerosols, 2 per cent; and tobacco, 1 per cent;

(ii) regarding CFCs, 14 countries were at risk of not meeting their freeze obligations. Action by governments and the Multilateral Fund was needed in 53 countries to ensure their compliance with the 50 per cent reduction target by 2005;

(iii) regarding halons, immediate action was needed in 16 countries, three of which had to implement approved projects sooner than planned in order to ensure the freeze of halons. Action by governments and the Multilateral Fund was needed in 17 countries to ensure the reduction by 2005;

(iv) regarding methyl bromide, 43 countries had not yet ratified the Copenhagen amendment. Of those that had ratified the Copenhagen amendment immediate action was needed to enable 24 countries to comply with the freeze obligation, of which four countries needed to implement approved projects sooner than planned to achieve compliance. Urgent action by all concerned was required in order to ensure that as many countries as possible would be able to achieve compliance;

(v) regarding CTC and TCA, the baseline for compliance had to be established as soon as possible to allow for an analysis of the status in achieving compliance;

(vi) the enactment of policy measures by governments in Article 5 countries had played a crucial role in contributing towards the ability of countries to achieve compliance with the CFC freeze commitment;

(b) to take into account the results of the status report in the discussion on strategic planning and, as appropriate, in the assessment of project proposals in light of the objective of supporting countries to enable them to comply with the Montreal Protocol;

(c) to request the following countries to clarify the increase in consumption from 1999 to 2000 despite the additional phase-out from approved projects completed in 1999: Colombia, Mexico, Peru, and Sri Lanka;

(d) also to request the implementing and bilateral agencies to take into consideration the sector analysis contained in the report for the purposes of planning activities for their 2002 draft business plans.

(UNEP/OzL.Pro/ExCom/34/58, Decision 34/12, para. 30).
(Supporting document: UNEP/OzL.Pro/ExCom/34/16).

The Fortieth Meeting of the Executive Committee decided:

(a) to take note of the report on the status of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol, as contained in UNEP/OzL.Pro/ExCom/40/25/Rev.1, which also included data on the implementation of country programmes in Part II;

(b) to urge implementing and bilateral agencies, as well as the relevant Article 5 countries, to adhere to the timely implementation of the 2003 business plans;

(c) to note with appreciation that 2002 data reported to the Fund Secretariat were below the CFC freeze baseline levels for the following countries found to be in non compliance by the Fourteenth Meeting of the Parties:

Bangladesh, Belize, Bolivia, Cameroon, Ethiopia, Namibia, Nepal and Nigeria, and that the assessment of compliance by the Implementation Committee would be based on data reporting for the control period, which, for 2002, was 1.5 years;

(d) to request the implementing and bilateral agencies, in particular UNEP, to assist countries identified in the status report as consuming small amounts of methyl bromide, CTC and TCA but not included in any of the agencies' three-year business plans for the triennium, to determine the proportion of such consumption that is eligible for phase-out; and

(e) also to request bilateral and Implementing Agencies to include activities, after verifying eligible consumption, in their 2004/2005 business plans for the following countries: Algeria (CTC/TCA), Bahamas (CTC), Bahrain (methyl bromide, CTC), Burundi (TCA), Croatia (CTC), Cuba (CTC), Ecuador (CTC/TCA), Fiji (methyl bromide), Haiti (halon, TCA), Indonesia (CTC), Mexico (CTC), Morocco (halon, CTC), Nigeria (TCA), Paraguay (methyl bromide/CTC), Peru (CTC), Sudan (CTC), Tunisia (CTC), Uganda (CTC, TCA), Uruguay (CTC), Yemen (TCA), Zambia (CTC), and Zimbabwe (CTC/TCA).

(UNEP/OzL.Pro/ExCom/40/50, Decision 40/19, para. 58).
(Supporting document: UNEP/OzL.Pro/ExCom/40/25/Rev.1).

After discussion concerning status of compliance, status of implementation of ongoing projects and data on the implementation of country programmes, the need for timely implementation of business plans, and 2003 data for countries found to be in non-compliance by the Fifteenth Meeting of the Parties, the Forty-third Meeting of the Executive Committee decided:

(a) to note the report on the status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol as contained in documents UNEP/OzL.Pro/ExCom/43/6/Rev.1 and Corr.1, which included data on the status of implementation of ongoing projects in Part II and the implementation of country programmes in Part III;

(b) to urge bilateral and Implementing Agencies, as well as the relevant Article 5 countries, to adhere to the timely implementation of the 2004 business plans;

(c) to request bilateral and Implementing Agencies, in consultation with the Secretariat, to include phase-out activities and UNEP Compliance Assistance Programme activities in their 2005–2007 business plans, as an immediate priority, for unfunded eligible consumption for countries in non-compliance or at risk of non-compliance with specific Montreal Protocol control measures for the years 2005 and 2007;

(d) to request the Secretariat, in cooperation with the Ozone Secretariat and the bilateral and Implementing Agencies, to provide for inclusion in its ensuing reports on the status/prospects of Article 5 countries information and views from the Article 5 countries found to be in non-compliance and/or at risk of non compliance on the nature of the impediments to their achieving compliance with the control measures of the Montreal Protocol, in particular with regard to low-volume-consuming countries, and to report thereon to the 44th Meeting of the Executive Committee; and

(e) to note the expectation that further actions might be necessary in the future to enhance the capacity of the Implementing Agencies to better support the efforts of countries that were or might soon be in non-compliance.

(UNEP/OzL.Pro/ExCom/43/61, Decision 43/4, para. 39).

The Forty-fourth Meeting of the Executive Committee after discussion on the status of compliance, the revised formats for future reports, a possible strategy for addressing nominal quantities of CTC and TCA, and the level of total remaining ODS consumption, and after having noted that the contact group wished to pursue its work in the margins of the 45th Meeting, decided:

(a) to note the report on the status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol as contained in documents UNEP/OzL.Pro/ExCom/44/6 and Corr.1, taking into account the comments made during the meeting;

(b) to request bilateral and Implementing Agencies to include phase-out activities, where appropriate, for eligible consumption in their 2005-2007 business plans for the following countries:

(i) for CFCs: Saint Vincent and the Grenadines;

(ii) for halon: Libyan Arab Jamahiriya and Somalia (when the conditions appeared conducive to a sustainable operation);

(iii) for methyl bromide: Papua New Guinea;

(iv) for methyl chloroform: Ecuador;

(v) for carbon tetrachloride: Bahrain, Barbados, Islamic Republic of Iran, and Paraguay; and

(c) that the contact group on a possible strategy for addressing low volumes of CTC and TCA consumption should be reconvened at the 45th Meeting of the Executive Committee.

(UNEP/OzL.Pro/ExCom/44/73, Decision 44/4, para. 42).
(Supporting document: UNEP/OzL.Pro/ExCom/44/6 and Corr.1).

The Forty-sixth Meeting of the Executive Committee decided:

(a) to note the report on status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol as contained in documents UNEP/OzL.Pro/ExCom/46/6 and Add.1;

(b) to note that Brazil had phased out its CFC production;

(c) to request the Secretariat to reformat the report to focus on actual and potential compliance issues, to address the 85 per cent reduction for CFCs in 2007, and to include a report on all Article 5 countries;

(d) to encourage bilateral and Implementing Agencies to provide requests for project proposals to the 47th Meeting, or in their 2006 business plans, that would address the following countries at risk of non-compliance:

(i) for halons: Kyrgyzstan and Somalia (when the conditions appeared conducive to a sustainable operation);

(ii) for CTC: Nepal, Sierra Leone, and Uganda; and

(e) to urge bilateral and Implementing Agencies implementing institutional strengthening projects to continue their efforts to obtain data from National Ozone Units (NOUs) on the implementation of their country programmes and to inform NOUs of the requirement to provide all data necessary in order to receive the maximum two-year renewal of institutional strengthening.

(UNEP/OzL.Pro/ExCom/46/47, Decision 46/4, para. 36).
(Supporting document: UNEP/OzL.Pro/ExCom/46/6 and Add.1).

The Forty-seventh Meeting of the Executive Committee decided:

(a) to note the report on the status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol, as contained in documents UNEP/OzL.Pro/ExCom/47/6 and Add.1;

(b) to request bilateral and implementing agencies to include phase-out activities, where appropriate, for eligible consumption in their 2006-2008 business plans for the following countries for which no project preparation had been approved in line with decisions of the Parties and the Executive Committee:

(i) for CFCs: Somalia when conditions for sustainable activities existed;

(ii) for halons: Romania, Sierra Leone and Somalia when conditions for sustainable activities existed; and

(iii) for CTC: Sierra Leone and Zimbabwe.

(UNEP/OzL.Pro/ExCom/47/61, Decision 47/4, para. 31).
(Supporting document: UNEP/OzL.Pro/ExCom/47/6 and Add.1).

The Forty-ninth Meeting of the Executive Committee decided:

(a) to note the report on the status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol as contained in document UNEP/OzL.Pro/ExCom/49/6;

(b) to request bilateral and implementing agencies to include phase-out activities, where appropriate, for eligible consumption in their 2007-2009 business plans for the following countries:

(i) CFCs and halon: Somalia (if conditions permit);

(ii) CTC: Bolivia and The Former Yugoslav Republic of Macedonia, within the framework of their terminal phase-out management plans;

(iii) TCA: Croatia;

(c) to request bilateral and multilateral implementing agencies to assist Article 5 countries to complete fully the

data/information required in the new reporting format for country programme data; and

(d) to request UNEP to include, where appropriate, as an agenda item in its network meetings taking place prior to May 2007, a discussion on completing the new reporting format for country programme data.

(UNEP/OzL.Pro/ExCom/49/43, Decision 49/5, para. 49).
(Supporting document: UNEP/OzL.Pro/ExCom/49/6).

The Fiftieth Meeting of the Executive Committee decided:

(a) to note the report on the status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol as contained in document UNEP/OzL.Pro/ExCom/50/6;

(b) to request bilateral and implementing agencies to include phase-out activities, where appropriate, to address eligible consumption in their 2007-2009 business plans as follows:

(i) CTC: United Republic of Tanzania;

(ii) TCA: United Republic of Tanzania.

(c) to request Article 5 countries to submit complete country programme data using the new format; and

(UNEP/OzL.Pro/ExCom/50/62,Decision 50/4 para. 46(a)(b)(c)).
(Supporting document: UNEP/OzL.Pro/ExCom/50/6).

The Fifty-second Meeting of the Executive Committee decided:

(a) to note the report on the status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol as contained in UNEP/OzL.Pro/ExCom/52/7/Rev.1;

(b) to request UNDP and El Salvador to expedite the submission of the terminal phase out management plan proposal to the 53rd Meeting;

(c) to urge those countries that have not established licensing systems to endeavour to establish such systems as soon as possible;

(UNEP/OzL.Pro/ExCom/52/55, Decision 52/5, para. 48 (a to c)).
(Supporting document: UNEP/OzL.Pro/ExCom/52/7/Rev.1).

The Fifty-third Meeting of the Executive Committee decided:

(a) to note the report on the status/prospects of Article 5 countries in achieving compliance with the initial and intermediate control measures of the Montreal Protocol as contained in document UNEP/OzL.Pro/ExCom/53/6/Rev.1; and

(b) to request the Fund Secretariat to proceed with a revision of the status of compliance document, and to include data on project implementation delays, an assessment of risks of non-compliance based on criteria, while engaging in ongoing consultations with countries and agencies to ensure that Article 5 countries were involved in the process, and to report back to the 57th Meeting of the Executive Committee on the usefulness and the level of effort associated with preparing detailed assessments of the risk of non-compliance.

(UNEP/OzL.Pro/ExCom/53/67, Decision 53/4, para. 41).
(Supporting document: UNEP/OzL.Pro/ExCom/53/6/Rev.1)

The Fifty-fourth Meeting of the Executive Committee decided:

After discussing the document on the status of implementation of delayed projects and prospects of Article 5 countries in achieving compliance with the next control measures of the Montreal Protocol, the Fifty-fourth Meeting of the Executive Committee decided:

(g) to note, with appreciation, that 42 countries, after having reviewed the risk assessment had expressed their confidence that they would comply with the control measures of the Montreal Protocol; and

(h) to request the Fund Secretariat to continue its efforts to obtain feedback from Article 5 countries on the risk assessment, the general indicators of possible risk of non-compliance therein, and their ability to achieve compliance.

(UNEP/OzL.Pro/ExCom/54/59, Decision 54/4, para 40 (g, h).
(Supporting document: UNEP/OzL.Pro/ExCom/54/5).

The Fifty-fifth Meeting of the Executive Committee decided:

After discussing the document on the status of implementation of delayed projects and prospects of Article 5

countries in achieving compliance with the next control measures of the Montreal Protocol, the Fifty-fifth Meeting of the Executive Committee decided:

(e) to note, with appreciation, that 69 countries had thus far indicated that, after having reviewed the risk assessment, they were confident that they would be able to comply with the control measures of the Montreal Protocol; and

(f) to request a revision of the risk of non-compliance indicators, taking into account comments by the Parties and with a view to achieving a consensus on their applicability.

(UNEP/OzL.Pro/ExCom/55/53, Decision 55/4, para.38 (e, f)).
(Supporting document: UNEP/OzL.Pro/ExCom/55/6)

The Fifty-sixth Meeting of the Executive Committee decided:

After discussing the document on the status of implementation of delayed projects and prospects of Article 5 countries in achieving compliance with the next control measures of the Montreal Protocol, the Fifty-sixth Meeting of the Executive Committee decided:

(a) to note:

(v) with appreciation the comments received from 31 countries on the risk indicators;

(vi) with appreciation, that 83 countries had thus far indicated their confidence that they would comply with the control measures of the Montreal Protocol after having reviewed the risk assessment, and to request the Fund Secretariat to continue to update the assessment based on the other risk indicators given the overall consensus on their application and obtain feedback from the countries;

(b) that Parties would be given the opportunity to comment on the risk indicators up until the 57th Meeting;

(c) that the indicators would remain in operation pending reconsideration at the 57th Meeting after responses had been received from all countries concerned with regard to the risk assessment.

(UNEP/OzL.Pro/ExCom/56/64, Decision 56/4 para 40)
(Supporting document: UNEP/OzL.Pro/ExCom/56/6).

The Fifty-seventh Meeting of the Executive Committee decided:

(a) to note:

(iv) with appreciation, the comments received from 53 countries on the risk indicators;

(v) with appreciation, that thus far 92 countries had indicated their confidence in complying with the control measures of the Montreal Protocol after having reviewed the risk assessment;

(b) to encourage interested Article 5 Parties to conduct their own compliance risk assessment making full use of the methodology and indicators developed by the Secretariat;

(c) to consider further the role of the Secretariat with respect to the assessment of the risks of non-compliance in the context of work programmes on monitoring and evaluation.

(UNEP/OzL.Pro/ExCom/57/69, Decision 57/5 para 47).
(Supporting document: UNEP/OzL.Pro/ExCom/57/6).

The Fifty-ninth Meeting of the Executive Committee decided:

(b) To request:

(iv) The Secretariat to provide information to the 62nd Meeting on use of web based country programme implementation data and country profile systems to enable a review of their continued utility;

(iii) That information on country profiles should only be on the Secretariat's intranet and that public access should be limited to Executive Committee Members;

(UNEP/OzL.Pro/ExCom/59/59, Decision 59/4 para 37(b)).
(Supporting document: UNEP/OzL.Pro/ExCom/59/6).

The Sixtieth Meeting of the Executive Committee decided:

(b) To request:

(i) UNEP to hold a session on the revised format for country programme data reporting at its network meetings;

(ii) UNEP and the Secretariat to identify problems associated with the low level of use of on-line reporting

to determine how best to encourage the timely reporting of Article 5 country programme data using such systems;

(iii) Additional status reports on the projects listed in Annex II to the present report;

(UNEP/OzL.Pro/ExCom/60/54, Decision 60/4 para 46(b)(i to iii)).
(Supporting document: UNEP/OzL.Pro/ExCom/60/6).

Accounting for consumption phased out during the compliance period

The Thirty-second Meeting of the Executive Committee decided to request all countries to include in their reports on sectoral consumption the phase-out from all projects completed in their countries in the previous year.
(UNEP/OzL.Pro/ExCom/32/44, Decision 32/23, para. 35).

Low level of disbursement in certain countries

The Twenty-second Meeting of the Executive Committee decided:

(a) to take this concern into account when considering future project preparation and approval for those countries;

(b) to request the Sub-Committee on Project Review to do likewise.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/2, para. 17).

Noting the strong concern expressed by the Sub-Committee regarding the fact that a number of LVCs had received no funding from the Multilateral Fund, the Twenty-second Meeting of the Executive Committee decided to request the Implementing Agencies to give priority to these countries in the future and, if funds were available, during 1997.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/4, para. 19).

The Twenty-second Meeting of the Executive Committee requested UNEP to take a lead role in coordinating expanded efforts by all the Implementing Agencies to contact and engage Article 5 Parties that had not yet done so in the development of country programmes and ODS reduction strategies, including the development of refrigeration management plans.
(UNEP/OzL.Pro/ExCom/22/79/Rev.1, Decision 22/56, para. 76(e)).

Funding for countries that have not ratified the London Amendment

The Twenty-ninth Meeting of the Executive Committee decided to approve funding for the projects and activities submitted by countries which had not ratified the London Amendment, on the understanding that a letter would be sent to those countries urging them to take the necessary action to ratify the London Amendment as rapidly as possible.
(UNEP/OzL.Pro/ExCom/29/65, Decision 29/21, para. 47).

The Fortieth Meeting of the Executive Committee decided to require from Parties an official commitment in writing to ratify the London Amendment to the Montreal Protocol before funding could be approved for their projects.
(UNEP/OzL.Pro/ExCom/40/50, Decision 40/35, para. 75).

IMPLEMENTATION OF THE STRATEGIC PLANNING IN ARTICLE 5 COUNTRIES

Starting point for determining the sustained reduction of each Article 5 country

At its Thirty-fourth Meeting, several representatives of the Executive Committee wished to see an agreed definition of sustained permanent aggregate reductions in production and consumption. Differing views were expressed on how to establish a baseline figure instead of the national aggregate consumption concept that would enable the remaining ODS consumption eligible for funding to be determined. It was proposed that the following alternative approaches could be applied in the line of discussions on strategic planning when determining such a baseline:

- the baseline figure should be based on very recently reported consumption data;
- some adjustments should be allowed in exceptional circumstances, for example, in cases of ODS imports, stockpiling or illegal imports, and natural sectoral growth; and a suitable method should be developed for the incorporation of ongoing projects in the baseline figure; or
- the Montreal Protocol baseline for compliance in respect of the different controlled substances should be used.

The Thirty-fourth Meeting of the Executive Committee decided:

(f) to prepare a document that included a definition of the starting point for determining the sustained reduction of each Article 5 country, taking into consideration the need to address properly the alternative approaches outlined in paragraph above;

(g) to solicit written comments from members of the Executive Committee on document UNEP/OzL.Pro/ExCom/34/53; and

(c) to submit to the Thirty-fifth Meeting a revised version of document UNEP/OzL.Pro/ExCom/34/53 taking into account the proposals made and the views expressed at the Thirty-fourth Meeting, as well as the written submissions by members of the Executive Committee.

(UNEP/OzL.Pro/ExCom/34/58, Decision 34/66, paras 89 and 91).
(Supporting document: UNEP/OzL.Pro/ExCom/34/53).

Adjusted funding policies of the Multilateral Fund

The Thirty-fifth Meeting of the Executive Committee decided:

(a) to adopt the adjusted funding policies of the Multilateral Fund, based on the revised proposals prepared by the Secretariat in the revision to document UNEP/Ozl.Pro/ExCom/34/53, as amended at the 35th Meeting of the Executive Committee and as contained in Annex VI.1 to this document, and to emphasize (i) greater government responsibility for managing national phase-out programmes, (ii) the demonstrated relevance of projects defined as a direct, and, if applicable, quantifiable linkage between the funded activities and meeting the specific Montreal Protocol control measures;

(b) to request the Secretariat to work with members of the Executive Committee, the bilateral agencies and the Implementing Agencies to develop draft guidelines for the preparation, implementation and management of performance-based substance-wide and national phase-out agreements;

(c) to request the Secretariat, together with members of the Executive Committee and the Implementing Agencies, to review the guidelines for the funding of institutional strengthening projects in view of the adjusted Fund Policy of emphasizing greater responsibility of governments for national phase-out programmes, with the objective of linking funding of institutional strengthening projects more closely with compliance needs of countries. The review should take into consideration the results of the recently completed evaluation of the institutional strengthening projects and Decision 30/7, funding criteria, implementation modality, and the willingness of the Executive Committee to consider additional funding for institutional strengthening projects to enable Article 5 governments to assume greater responsibilities;

(d) to note the Secretariat's proposed approach to implementing Decision 33/54 as detailed in paragraph 3 of document UNEP/OzL.Pro/ExCom/34/53[1], and to request the Secretariat, as a matter of urgency, to use that approach and issues related to the implementation of Decision 33/54 raised by Executive Committee members prior to the 36th Meeting, including those in document UNEP/OzL.Pro/ExCom/35/60, Annex I, as a basis for preparing for the Executive Committee at its 36th Meeting an indicative timetable for this task.

[1] Paragraph 3 (UNEP/OzL.Pro/ExCom/34/53): The Secretariat is fully conscious that this exercise of introducing changes is proposed to be made in the modus operandi of an institution which has been in operation for over 10 years and therefore proposes to take the following approach:

(a) build on the existing infrastructure: Changes are proposed only after an in-depth review of the existing system to identify any specific deficiencies with a view to rectifying them to make the system function more effectively under the new circumstances;

(b) determine an appropriate transitional period: Since changes must be introduced without interrupting the momentum which has been created in the grace period, adequate time should be made available for the various partners involved to get acquainted with, and implement the changes;

(c) introduce changes step-wise: The policies, guidelines and operating procedures of the Fund have evolved over the yeas into an organic whole and at the same time follow a sequence either on the basis of substance or operational need. For instance the funding policies will determine the kind of implementation modalities and operational guidelines to support the policies, which will in turn, determine the operating procedures that have to be adopted. This will be the sequence that these issues will be reviewed and introduced. As a result the current paper will not address the various operating procedures and business practices, like the performance indicators of business plans, however they will have to be reviewed to determine their continued relevance in light of new operating policies and operating modalities of the Fund.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/56, para. 98).

In the context of the implementation of Decision 35/56, the Executive Committee decided at its Thirty-sixth Meeting, to request the Secretariat to prepare a paper for the consideration of the 37th Meeting that would address the issues identified in document UNEP/OzL.Pro/ExCom/36/32, taking into account the comments and views expressed by members of the Executive Committee at the present Meeting, as well as comments to be submitted by the members of the Executive Committee and by the Implementing Agencies up to a deadline of 19 April 2002; in so doing, the Secretariat would take into account the table on page 12 of document UNEP/OzL.Pro/ExCom/36/32, with a possible change to the indicative completion date for the work of the Executive Committee and for the revised guidelines for the funding of institutional strengthening projects.
(UNEP/OzL.Pro/ExCom/36/36, Decision 36/53, para. 111).
(Supporting document: UNEP/OzL.Pro/ExCom/36/32).

Reductions in national aggregate consumption

In the context of the Executive Committee agreement on strategic planning (Decision 33/54), the Executive Committee agreed (at its Thirty-fifth Meeting) that further funding must be predicated on a commitment by the country to achieve sustainable permanent aggregate reductions in consumption and production, as relevant. In implementing this provision, the Executive Committee believes that all Article 5 countries should be treated equally. In that regard, each Article 5 country should select one option from two options below for determining the starting point for implementation of its national aggregate consumption.

Option 1	Option 2
Montreal Protocol baseline as reported at the 35th Meeting (Annex VI.2)	Latest reported data (1999 or 2000) as reported at the 35th Meeting (Annex VI.2)
Projects approved but not yet implemented when the baseline was established in 1997, and projects approved since	Projects approved but not yet implemented

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/57, para. 112(c)).

Provisos relating to Decision 35/57:

A. if an Article 5 country selects option 2, it should be with the understanding that the Executive Committee may agree in exceptional cases to adjust the resulting baseline at the first instance a project from a country is considered, to take into account the demonstrated non-representative nature of the last year's data for reasons such as clearly demonstrated stockpiling in the specific 12-month period, and/or national economic difficulties in the specific 12-month period. In so considering, the Executive Committee shall not take into account illegal imports, as there should be agreement that firms that import illegally, or purchase illegal imports, should not benefit from Fund assistance. In any case, it must be perfectly clear that only the Montreal Protocol baseline will be used to determine compliance with the Montreal Protocol.

B. it is acknowledged that some future years' reported consumption may go above or below the levels that result from the agreed calculation, but if consumption numbers go above the resulting levels, such increases in consumption would not be eligible for funding. It is further noted that the resulting numbers represent maximum residual ODS that the Fund will pay to reduce, and that existing Fund guidance related to eligibility of projects would be maintained in all respects.

C. it is noted that RMPs and methyl bromide projects lead to a specific commitment of levels of reductions in national aggregate consumption relative to Montreal Protocol obligations, and that halon banking projects often lead to commitment for a total national phase-out and ban on the import of halon. Those projects should continue to be handled on that basis.

D. institutional strengthening and non-investment activities, including UNEP activities and any country dialogues that may be approved, undeniably contribute to Article 5 reductions in the use of ODS, otherwise, there would be no need to fund these activities. That said, their direct ODS reduction impact has been notoriously difficult to quantify. The Technology and Economic Assessment Panel historically suggested that for methyl bromide, non-investment activities may be five times more cost-effective than phase-out projects, yielding a cost-effectiveness of under US $4.25/kg. For the purposes of this endeavor, it has been agreed to take a much more conservative stance, and agreed that all future non-investment activities be given a value that is not many times more cost-effective than investment projects, which is at US $12.10/kg, which is one third as cost-effective as the average investment project approved under the Fund. This should be

used as an interim figure until more research can be done on the issue.

E. while countries are still explicitly given the option of proceeding on a project by project or sector/national basis, it should be noted that in the case of broader plans such as production sector plans, RMPs, solvents sector plans, halon sector plans or national CFC phase-out plans, complicated issues such as selecting a starting point and ensuring national sustained reductions become less critical, as the agreements themselves embody a specific commitment to eliminate national aggregate consumption or production of the given substance on a specific schedule.

(UNEP/OzL.Pro/ExCom/35/67, Decision 35/57, para. 112 (c)).
(Supporting document: UNEP/OzL.Pro/ExCom/35/61 and 35/61/Corr.1).

The Thirty-sixth Meeting of the Executive Committee decided:

(a) that proviso (D) of Decision 35/57 should not apply to low-volume consuming countries;

(b) that for all other countries the rate of US $12.10 per ODP kilogram should apply to CFC consumption and result in a reduction from the level established by the option selected by the country;

(c) to request the Secretariat to prepare a paper to enable the Executive Committee to consider the possibility of amending the rate of US $12.10 per ODP kilogram, by the 39th Meeting.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/7, para. 41).

With regard to the clarification sought by many Article 5 countries on the interpretation and consequences of Decision 35/57 in general, and whether RMP activities included in the business plans could be submitted as new terminal phase-out management plans if countries requested agencies to do so, the Executive Committee decided at its Thirty-sixth Meeting to return to the matter at its 37th Meeting.

(UNEP/OzL.Pro/ExCom/36/36, Decision 36/6, para. 40).

The Thirty-seventh Meeting of the Executive Committee decided:

(a) to take note with appreciation of the countries listed in Annex I of document UNEP/OzL.Pro/ExCom/37/64 as amended;

(b) to agree to the request of India to change its starting point data to a figure of 2317.2 ODP tonnes;

(c) for countries that had not made or confirmed their final selection of an option:

(i) to set a deadline for selection at eight weeks prior to the meeting at which the country concerned intended to submit a project for consideration by the Executive Committee;

(ii) automatically to apply Option 1 if such a country submitted a project without making a selection;

(iii) notwithstanding sub-paragraphs (i) and (ii) above, to consider requests from countries at risk of non-compliance;

(iv) to request the Secretariat to assist those countries that were having technical difficulties in making their selection;

(d) to take note of the five additional countries in Annex IV to document UNEP/OzL.Pro/ExCom/37/64.

(UNEP/OzL.Pro/ExCom/37/71, Decision 37/66, para. 102).
(Supporting document: UNEP/OzL.Pro/ExCom/37/64).

The Forty-first Meeting of the Executive Committee decided that a change in value from the figure of US $12.10/kg was not warranted.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/98, para. 158).

CUSTOMS AND LICENSING SYSTEM

Establishment of licensing systems

The Ninth Meeting of the Parties decided:

1. that the licensing system to be established by each Party should:

(a) assist collection of sufficient information to facilitate Parties' compliance with relevant reporting requirements under Article 7 of the Protocol and decisions of the Parties; and

(b) assist Parties in the prevention of illegal traffic of controlled substances, including, as appropriate, through notification and/or regular reporting by exporting countries to importing countries and/or by allowing cross-checking of information between exporting and importing countries;

2. to facilitate the efficient notification and/or reporting and/or cross-checking of information, each Party should inform the Secretariat by 31 January 1998 of the name and contact details of the officer to whom such information and requests should be directed. The Secretariat shall periodically prepare, update and circulate to all Parties a full list of these contact details;
3. that the Secretariat and Implementing Agencies should take steps to assist Parties in the design and implementation of appropriate national licensing systems;
4. that Parties operating under Article 5 may require assistance in the development, establishment and operation of such a licensing system and, noting that the Multilateral Fund has provided some funding for such activities, that the Multilateral Fund should provide appropriate additional funding for this purpose.

(UNEP/OzL.Pro.9/12, Decision IX/8).

Report on the establishment of licensing systems under Article 4B of the Montreal Protocol

The Fourteenth Meeting of the Parties decided:

1. to note with appreciation that 59 Parties to the Montreal Amendment to the Montreal Protocol have established import and export licensing systems, as required under the terms of the Amendment;
2. to further note with appreciation that 56 Parties to the Montreal Protocol that have not yet ratified the Montreal Amendment have also established import and export licensing systems;
3. to urge all the remaining 25 Parties to the Montreal Amendment to provide information to the Secretariat on the establishment of import and export licensing systems, and for those that have not yet established such systems to do so as a matter of urgency;
4. to encourage all the remaining Parties to the Montreal Protocol that have not yet ratified the Montreal Amendment to ratify it and to establish import and export licensing systems if they have not yet done so;
5. to review periodically the status of the establishment of licensing systems by all parties to the Montreal Protocol, as called for in Article 4B of the Protocol.

(UNEP/OzL.Pro.14/9, Decision XIV/36).

The Fifteenth Meeting of the Parties decided:

1. to note with appreciation that 73 Parties to the Montreal Amendment to the Montreal Protocol have established import and export licensing systems, as required under the terms of the Amendment;
2. to note also with appreciation that 43 Parties to the Montreal Protocol that have not yet ratified the Montreal Amendment have also established import and export licensing systems;
3. to recognize that licensing systems bring the following benefits: monitoring of imports and exports of ozone-depleting substances; prevention of illegal trade; and enabling data collection;
4. to urge all the remaining 33 Parties to the Montreal Amendment to provide information to the Secretariat on the establishment of import and export licensing systems, and for those that have not yet established such systems to do so as a matter of urgency;
5. to encourage all the remaining Parties to the Montreal Protocol that have not yet ratified the Montreal Amendment to ratify it and to establish import and export licensing systems if they have not yet done so;
6. to urge all Parties that already operate licensing systems to ensure that they are implemented and enforced effectively;
7. to review periodically the status of the establishment of licensing systems by all Parties to the Montreal Protocol, as called for in Article 4B of the Protocol.

(UNEP/OzL.Pro.15/9, Decision XV/20).

The Forty-first Meeting of the Executive Committee decided to request the Secretariat to prepare an updated list of countries which lacked import and export licensing systems.

(UNEP/OzL.Pro/ExCom/41/87, Decision 41/79, para. 117).

The Sixteenth Meeting of the Parties decided:

1. to note with appreciation that 81 Parties to the Montreal Amendment to the Montreal Protocol have established import and export licensing systems, as required under the terms of the Amendment;
2. to note also with appreciation that 42 Parties to the Montreal Protocol that have not yet ratified the Montreal

Amendment have also established import and export licensing systems;

3. to recognize that licensing systems bring the following benefits: monitoring of imports and exports of ozone-depleting substances; prevention of illegal trade; and enabling data collection;
4. to urge all the remaining 39 Parties to the Montreal Amendment to provide information to the Secretariat on the establishment of import and export licensing systems, and for those that have not yet established such systems to do so as a matter of urgency;
5. to encourage all the remaining Parties to the Montreal Protocol that have not yet ratified the Montreal Amendment to ratify it and to establish import and export licensing systems if they have not yet done so;
6. to urge all Parties that already operate licensing systems to ensure that they are implemented and enforced effectively;
7. to review periodically the status of the establishment of licensing systems by all Parties to the Montreal Protocol, as called for in Article 4B of the Protocol.

(UNEP/OzL.Pro.16/17, Decision XVI/32).

The Seventeenth Meeting of the Parties decided:

1. to note with appreciation that 107 Parties to the Montreal Amendment to the Montreal Protocol have established import and export licensing systems, as required under the terms of the Amendment;
2. to note also with appreciation that 37 Parties to the Montreal Protocol that have not yet ratified the Montreal Amendment have also established import and export licensing systems;
3. to recognize that licensing systems bring the following benefits: monitoring of imports and exports of ozone-depleting substances; prevention of illegal trade; and enabling data collection;
4. to urge all the remaining 29 Parties to the Montreal Amendment to provide information to the Secretariat on the establishment of import and export licensing systems, and for those that have not yet established such systems to do so as a matter of urgency;
5. to encourage all remaining Parties to the Montreal Protocol that have not yet ratified the Montreal Amendment to ratify it and to establish import and export licensing systems if they have not yet done so;
6. to urge all Parties that already operate licensing systems to ensure that they are implemented and enforced effectively;
7. to review periodically the status of the establishment of licensing systems by all Parties to the Montreal Protocol, as called for in Article 4B of the Protocol.

(UNEP/OzL.Pro.17/11, Decision XVII/23).

The Eighteenth Meeting of the Parties decided:

1. to note that paragraph 3 of Article 4B of the Montreal Protocol requires each Party, within three months of the date of introducing its system for licensing the import and export of new, used, recycled and reclaimed substances in Annexes A, B, C and E of the Protocol, to report to the Secretariat on the establishment and operation of that system;
2. to note with appreciation that 124 Parties to the Montreal Amendment to the Protocol have established import and export licensing systems as required under the terms of the Amendment;
3. to note also with appreciation that 30 Parties to the Protocol that have not yet ratified the Montreal Amendment have also established import and export licensing systems;
4. to recognize that licensing systems bring the following benefits: monitoring of imports and exports of ozone-depleting substances; prevention of illegal trade; and enabling of data collection;
5. to note that Parties to the Montreal Amendment to the Protocol that have not yet established licensing systems are in non-compliance with Article 4B of the Protocol and can be subject to the non-compliance procedure under the Protocol;
6. to urge all remaining 23 Parties to the Montreal Amendment to provide information to the Secretariat on the establishment of import and export licensing systems and to urge those that have not yet established such systems to do so as a matter of urgency;
7. to encourage all remaining Parties to the Protocol that have not yet ratified the Montreal Amendment to

ratify it and to establish import and export licensing systems if they have not yet done so;

8. to urge all Parties that already operate licensing systems to ensure that they are implemented and enforced effectively;

9. to review periodically the status of the establishment of licensing systems by all Parties to the Protocol, as called for in Article 4B of the Protocol.

(UNEP/OzL.Pro.18/10, Decision XVIII/35).

The Nineteenth Meeting of the Parties decided:

1. to record that Barbados, Cook Islands, Eritrea, Haiti, Kiribati, Nauru, Niue, Sao tome and Principe, Somalia, Tonga, United Republic of Tanzania and Uzbekistan are Parties to the Montreal Amendment to the Protocol, that they have not yet established import and export licensing systems for ozone-depleting substances and are therefore in non-compliance with Article 4B of the Protocol and that financial assistance has been approved for all of them;

2. to request each of the 12 Parties listed in paragraph 1 to submit to the Secretariat as a matter of urgency and no later than 29 February 2008, for consideration by the Implementation Committee under the Non-Compliance Procedure of the Montreal Protocol at its fortieth meeting, a plan of action to ensure the prompt establishment and operation of an import and export licensing system for ozone depleting substances;

3. to encourage all remaining Parties to the Protocol that have not yet ratified the Montreal Amendment to ratify it and to establish import and export licensing systems for ozone-depleting substances if they have not yet done so;

4. to urge all Parties that already operate licensing systems for ozone-depleting substances to ensure that they are structured in accordance with Article 4B of the Protocol and that they are implemented and enforced effectively;

5. to review periodically the status of the establishment of import and export licensing systems for ozone depleting substances by all Parties to the Protocol, as called for in Article 4B of the Protocol.

(UNEP/OzL.Pro.19/7, Decision XIX/26).

The Twentieth Meeting of the Parties decided:

1. to encourage all remaining Parties to the Protocol that have not yet ratified the Montreal Amendment to ratify it and to establish import and export licensing systems for ozone depleting substances if they have not yet done so;

2. to urge all Parties that already operate licensing systems for ozone-depleting substances to ensure that they are structured in accordance with Article 4B of the Protocol and that they are implemented and enforced effectively;

3. to review periodically the status of the establishment of import and export licensing systems for ozone-depleting substances by all Parties to the Protocol, as called for in Article 4B of the Protocol.

(UNEP/OzL.Pro.20/9, Decision XX/14).

The Twenty-first Meeting of the Parties decided:

1. To encourage all remaining Parties to the Protocol that have not yet ratified the Montreal Amendment to ratify it and to establish import and export licensing systems for ozone depleting substances if they have not yet done so;

2. To urge all Parties that already operate licensing systems for ozone-depleting substances to ensure that they are structured in accordance with Article 4B of the Protocol and that they are implemented and enforced effectively;

3. To review periodically the status of the establishment of import and export licensing systems for ozone-depleting substances by all Parties to the Protocol, as called for in Article 4B of the Protocol;

(UNEP/OzL.Pro.21/8, Decision XXI/12).

The Twenty-second Meeting of the Parties decided:

1. To urge Brunei Darussalam, Ethiopia, Lesotho, San Marino and Timor-Leste, which are the remaining parties to the Montreal Amendment to the Protocol that have not yet established import and export licensing systems for ozone-depleting substances, to do so and to report to the Secretariat by 31 May 2011 in time for the

Implementation Committee and the Twenty-Third Meeting of the Parties, in 2011, to review their compliance situation;

2. To encourage Angola, Botswana and Vanuatu, which are the remaining parties to the Protocol that have neither ratified the Montreal Amendment nor established import and export licensing systems for ozone depleting substances, to do so;

3. To urge all parties that already operate licensing systems for ozone-depleting substances to ensure that they are structured in accordance with Article 4B of the Protocol and that they are implemented and enforced effectively;

4. To review periodically the status of the establishment of import and export licensing systems for ozone-depleting substances by all parties to the Protocol, as called for in Article 4B of the Protocol;

(UNEP/OzL.Pro.22/9, Decision XXII/19).

The Twenty-third Meeting of the Parties decided:

1. To request Bolivia, the Democratic Republic of Korea, Dominica, Ecuador, Ghana, the Holy See, Tajikistan and Thailand, which are parties to the Montreal Amendment, and Guinea and Papua New Guinea, which are non-parties to the Montreal Amendment, none of which have yet provided disaggregated information on their licensing systems, to submit such information to the Secretariat as a matter of urgency, and no later than 31 March 2012, for consideration by the Committee at its forty-eighth meeting;

2. To urge Ethiopia, San Marino and Timor-Leste to complete the establishment and operation of licensing systems as soon as possible and to report to the Secretariat thereon no later than 31 March 2012;

3. To encourage Botswana, which is non-party to the Montreal Amendment to the Protocol and has not yet established a licensing system, to ratify the Amendment and to establish a licensing system to control imports and exports of ozone-depleting substances;

4. To urge Chad, Comoros, the Gambia, the Federated States of Micronesia, Solomon Islands, Sudan and Tonga, which operate licensing systems for ozone-depleting substances that do not include export controls, to ensure that they are structured in accordance with Article 4B of the Protocol and that they provide for the licensing of exports and to report there on to the Secretariat;

5. To urge Honduras and Togo, whose licensing systems do not regulate substances in Annex C, Group I (hydrochlorofluorocarbons), to ensure that those systems include import and export controls for the above-mentioned substances and to report thereon to the Secretariat;

6. To review periodically the status of the establishment of import and export licensing systems for ozone-depleting substances by all parties to the Protocol, as called for in Article 4B of the Protocol;

(UNEP/OzL.Pro.23/11, Decision XXIII/31).

The Twenty-fourth Meeting of the Parties decided:

1. To congratulate South Sudan for having recently ratified all amendments to the Montreal Protocol, and to request the party to establish an import and export licensing system for ozone-depleting substances consistent with Article 4 B of the Protocol and to report to the Secretariat by 30 September 2013 on the establishment of that system;

2. To urge the Gambia, which operates a licensing system for ozone-depleting substances that does not include export controls, to ensure that that system is structured in accordance with Article 4 B of the Protocol and that it provides for the licensing of exports and to report thereon to the Secretariat;

3. To encourage Botswana, which is non-party to the Montreal Amendment to the Protocol and has not yet established a licensing system to control imports and exports of ozone depleting substances, to ratify the Amendment and to establish such a licensing system;

4. To review periodically the status of the establishment of import and export licensing systems for ozone-depleting substances by all parties to the Protocol as called for in Article 4 B of the Protocol;

(UNEP/OzL.Pro.24/10, Decision XXIV/17).

The Twenty-fifth Meeting of the Parties decided:

1. To request Botswana and South Sudan to establish an import and export licensing system for ozone-depleting substgances consistent with Article 4B of the Protocol and to report to the Secretariat by 31 March 2014 on the

establishment of that system;

2. To review periodically the status of the establishment of import and export licensing systems for ozone-depleting substances by all parties to the Protocol as called for in Article 4B of the Protocol;

(UNEP/OzL.Pro.25/9, Decision XXV/15).

The Thirty-first Meeting of the Parties decided:

1. To urge all parties to the Montreal Protocol that have ratified, approved or accepted the Kigali Amendment and that already operate licensing systems for controlled substances under Annex F to the Protocol to ensure that those licensing systems include the import and export of new, used, recycled and reclaimed controlled substances, in accordance with Article 4B, paragraph 2 bis of the Protocol, and that they are implemented and enforced effectively;
2. To remind all parties to the Montreal Protocol that have ratified, approved or accepted the Kigali Amendment and that have not yet done so to establish and implement import and export licensing systems consistent with Article 4B, paragraph 2 bis for controlled substances listed in Annex F to the Protocol;
3. To review periodically the status of the establishment and implementation of import and export licensing systems for controlled substances under Annex F to the Protocol by all parties to the Protocol that have ratified, approved or accepted the Kigali Amendment, as called for in Article 4B, paragraph 2 bis.

(UNEP/OzL.Pro.31/9/Add.1, Decision XXXI/10).

The Thirty-fifth Meeting of the Parties decided:

1. To take note with appreciation of the efforts made by the parties in the establishment and operation of licensing systems for Annex F controlled substances under Article 4B, paragraph 2 bis, of the Montreal Protocol;
2. To urge the eight parties listed in the annex to the present decision to provide information to the Secretariat on the establishment of licensing systems as a matter of urgency, and no later than 15 March 2024, for consideration by the Implementation Committee under the Non Compliance Procedure for the Montreal Protocol at its seventy-second meeting;
3. To urge all parties to the Montreal Protocol having ratified the Kigali Amendment that have not yet established and implemented the licensing system referred to in paragraph 1 above to do so, and to report that information to the Secretariat within three months of doing so;
4. To request the Secretariat to review periodically the status of the establishment of import and export licensing systems for Annex F controlled substances by all parties to the Protocol, as called for in Article 4B, paragraph 4, of the Protocol.

Annex to decision XXXV/19

Parties that have not yet reported on the establishment and operation of licensing systems under Article 4B, paragraph 2 bis, of the Montreal Protocol

1. Angola
2. Indonesia
3. Lesotho
4. Mali
5. Mozambique
6. San Marino
7. Sao Tome and Principe
8. Zambia

(UNEP/OzL.Pro.35/12/Add.1, Decision XXXV/19).

The Thirty-sixth Meeting of the Parties decided:

1. To take note with appreciation of the efforts made by the parties in the establishment and operation of licensing systems for Annex F controlled substances under Article 4B, paragraph 2 bis, of the Montreal Protocol;
2. To urge the three parties listed in the annex to the present decision to provide information to the Secretariat on the establishment of licensing systems as a matter of urgency, and no later than 31 March 2025, for

consideration by the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol at its seventy-fourth meeting;

3. To urge all parties to the Montreal Protocol that have ratified the Kigali Amendment and that have not yet established and implemented import and export licensing systems for controlled substances under Annex F to the Protocol to do so, and to report that information to the Secretariat within three months of doing so;

4. To request the Secretariat to review periodically the status of the establishment of import and export licensing systems for Annex F controlled substances by all parties to the Protocol, as called for in Article 4B, paragraph 4, of the Protocol.

Annex to decision XXXVI/15

Parties that have not yet reported on the establishment and operation of licensing systems under Article 4B, paragraph 2 bis, of the Montreal Protocol

1. Angola
2. Kenya
3. San Marino

(UNEP/OzL.Pro.36/9/Add.1, Decision XXXVI/15).

Customs codes

The Ninth Meeting of the Parties decided:

1. to express appreciation to the Multilateral Fund, UNEP and the Stockholm Environmental Institute for the useful information on the problems and possibilities of using customs codes for tracking imports of ozone-depleting substances (ODS) contained in the book Monitoring Imports of Ozone-Depleting Substances: A Guidebook;
2. to recommend this book as a guide to Parties seeking more information on this issue;
3. in order to facilitate co-operation between customs authorities and the authorities in charge of ODS control and ensure compliance with licensing requirements, to request the Executive Director of UNEP:
   (a) to request the World Customs Organization (WCO) to revise its decision of 20 June 1995, recommending one joint national code on all HCFCs under subheading 2903.49, by instead recommending separate national codes under subheading 2903.48 for the most commonly used HCFCs (e.g., HCFC-21; HCFC-22; HCFC-31; HCFC-123; HCFC-124; HCFC-133; HCFC-141b; HCFC-142b; HCFC-225; HCFC-225ca; HCFC-225cb);
   (b) to further ask the World Customs Organization to work with major ODS suppliers to develop and provide the Parties to the Montreal Protocol, through UNEP, with a check-list of relevant customs codes for ODS that are commonly marketed as mixtures, for use by national customs authorities and authorities in charge of control of ODS to ensure compliance with import licensing requirements;
4. to request all Parties with ODS production facilities to urge their producing companies to co-operate fully with WCO in the preparation of this check-list.

(UNEP/OzL.Pro.9/12, Decision IX/22).

The Tenth Meeting of the Parties decided:

1. to request the Ozone Secretariat to continue discussions with the World Customs Organization on:
   (a) the possibility of revising the Harmonized System to allow the inclusion of appropriate codes for mixtures containing HCFCs, especially those used for refrigeration;
   (b) the confirmation of the proper classification of methyl bromide that contains 2 per cent chloropicrin as a pure substance and not as a mixture, as suggested in the illustrative list of methyl-bromide mixtures provided earlier to the Parties by the Ozone Secretariat;
2. to convene a group of five interested experts to provide advice to the Ozone Secretariat out of session on possible amendments to the Harmonized System;
3. to request the Ozone Secretariat to report to the nineteenth meeting of the Open-ended Working Group on progress towards this end.

(UNEP/OzL.Pro.10/9, Decision X/18).

The Eleventh Meeting of the Parties decided:

1. to note, with appreciation, the actions undertaken so far by the World Customs Organization on the further extension of the Harmonized System customs nomenclature of ozone-depleting substances and products containing ozone-depleting substances;
2. to note the summary of the draft recommendation of the World Customs Organization concerning the insertion in national statistical nomenclatures of Harmonized System subheadings for ozone-depleting substances and products containing ozone-depleting substances and the clarification of the classification under the Harmonized System Convention of methyl bromide containing small amounts of chloropicrin provided in annex II to the report of the nineteenth meeting of the Open-ended Working Group (UNEP/OzL.Pro/WG.1/19/7);
3. to note that the group of experts convened in accordance with decision X/18 will conduct further work on recommendations relating to the Harmonized System codes for mixtures and products containing ozone-depleting substances in collaboration with the World Customs Organization.

(UNEP/OzL.Pro.11/10, Decision XI/26).

Use of the Globally Harmonized System for classification and labeling of ODSs

The Fourteenth Meeting of the Parties decided to request the Ozone Secretariat to contact the Sub-committee of Experts of the Economic and Social Council once the GHS has been adopted by Council in order to clarify whether ozone-depleting substances are included in its programme of work and, if they are not included:

(a) to evaluate the possibilities for and feasibility of including ozone-depleting substances on its work programme; and

(b) to report to the twenty-third meeting of the Open-ended Working Group of the Parties.

(UNEP/OzL.Pro.14/9, Decision XIV/8).

The Twenty-sixty Meeting of the Parties decided:

1. To request the Ozone Secretariat to liaise with the World Customs Organization to examine the possibility of designating individual Harmonized System codes for the most commonly traded fluorinated substitutes for HCFCs and chlorofluorocarbons (CFCs) classified under Harmonized System code 2903.39, explaining thereby the importance of a dedicated customs classification for those substances for the sole purpose of preventing the illegal trade in HCFCs and CFCs, and to communicate to the parties the results of those consultations as soon as possible, but not later than at the thirty-sixth meeting of the Open-ended Working Group, to be held in 2015;

2. To encourage parties that are contracting parties to the International Convention on the Harmonized Commodity Description and Coding System to undertake at their earliest convenience the necessary steps, following World Customs Organization procedures, to recommend the consideration of the customs classifications referred to in paragraph 1 of the present decision;

3. To encourage parties that are in a position to do so to consider establishing, on a voluntary basis, domestic customs codes for those substitutes referred to in paragraph 1;

(UNEP/OzL.Conv.10/7-UNEP/OzL.Pro.26/10, Decision XXVI/8).

Customs training and licensing

The Twenty-seventh Meeting of the Executive Committee decided:

(a) that no funds should be expended on customs-training projects until either the relevant legislation was already in place or substantial progress had been made towards promulgating such legislation;

(b) to request Implementing Agencies to transfer to countries that were in the process of preparing legislation information on ODS issues of relevance to customs authorities so that, as stakeholders, they would be able to provide informed inputs into the legislation preparation process;

(c) to examine, mindful of its decision 25/32, customs-training projects on a case-by-case basis in order to determine whether or not chemical-identification equipment should be included in them.

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/19, para. 44).

The Executive Committee also decided:

(a) no funds should be expended on customs-training projects until either the relevant legislation was already in place or substantial progress had been made towards promulgating such legislation;

(b) UNEP is requested to transfer to countries in the process of preparing legislation, information on ODS issues of relevance to customs authorities so that, as stakeholders, they would be able to provide informal inputs into the legislation-preparation process.

(UNEP/OzL.Pro/ExCom/27/48, Decision 27/35, para. 62).

The Thirty-second Meeting of the Executive Committee decided that it was prepared to approve project proposals for the development of implementation of licensing schemes. In that process, the Secretariat would be requested, in each case, to seek information from countries on the status of their ratification of the Montreal Amendment, as well as whether they had a licensing system in place, and to report such information to the Executive Committee.

(UNEP/OzL.Pro/ExCom/32/44, Decision 32/27, para. 39).

Report on the evaluation of customs officers training and licensing system projects

The Forty-fifth Meeting of the Executive Committee decided:

(a) to take note of the report on the evaluation of customs officers training and licensing system projects contained in document UNEP/OzL.Pro/ExCom/45/11, including the recommendations in Section V of the document;

(b) to request the Senior Monitoring and Evaluation Officer to revise the language of the recommendations to make them less prescriptive and more general and to include a section on conclusions;

(c) to request the Secretariat:

(i) to draft a covering note, for submission to the Parties, reflecting the comments on the report made by members of the Executive Committee at the 45th Meeting, to which the revised report would be annexed;

(ii) to post a revised version of the report on its intranet to enable the members to review the text and send in their comments; and

(iii) to submit the revised report and the covering note, after approval by the Chair of the Executive Committee, to the 25th Meeting of the Open-ended Working Group.

(UNEP/OzL.Pro/ExCom/45/55, Decision 45/10, para. 66).
(Supporting document: UNEP/OzL.Pro/ExCom/45/11).

Strategic framework for national, subregional and regional customs training

The Thirty-third Meeting of the Executive Committee decided:

(a) national customs training for each country should continue to be funded. However, UNEP should look for opportunities to implement regional and subregional customs training as a cost-effective substitute for national customs training, wherever appropriate, and should look for opportunities to make use of existing regional customs training facilities;

(b) in order to reach the large number of customs officers, in the countries concerned in a cost-effective manner, national customs training should be through the "train the trainers" approach and be followed by training of customs officers by trainers;

(c) for demonstration purposes, additional subregional or regional training programmes might be considered for funding where regional trading blocs or trading agreements containing relevant regulatory mechanisms were in place, and after the results of already approved regional and subregional training programmes had been presented to the Executive Committee for review;

(d) regional and subregional customs training activities and the regional ozone officers networks should be used to conduct outreach to representatives of regional trading blocs and customs associations with a view to encouraging the formation of informal networks for information dissemination and data management.

(UNEP/OzL.Pro/ExCom/33/32, Decision 33/51, para. 77).
(Supporting document: UNEP/OzL.Pro/ExCom/33/27).

Monitoring of trade and prevention of illegal trade in ODSs, mixtures and products containing ODSs

The Twelfth Meeting of the Parties decided:

1. to request the Ozone Secretariat, in consultation, as appropriate, with the Technology and Economic Assessment Panel, the United Nations Environment Programme, the discussion group on customs codes for ozone-depleting substances and international trade and customs organizations, to examine the options for

studying the following issues and to report on these options at the twenty-first meeting of the Open-ended Working Group for consideration by the Parties in 2001:

(a) current national legislation on the labeling of ozone-depleting substances, mixtures containing ozone-depleting substances and products containing ozone-depleting substances;

(b) the need for, scope of and cost of implementation of a universal labeling and/or classification system for ozone-depleting substances, mixtures containing ozone-depleting substances and products containing ozone-depleting substances, including the feasibility of the introduction of a producer-specific marker, identifier or identification methodology;

(c) methods for sharing experience between Parties on issues related to classification, labeling, compliance and incidents of illegal trade;

(d) the differences between products containing ozone-depleting substances and mixtures containing ozone-depleting substances, and the possibility of the creation of a list of categories of products containing ozone-depleting substances with the corresponding Harmonized System/Combined Nomenclature classification;

(e) possible guidance for customs authorities on how to proceed with the illegally traded ozone-depleting substances seized on the border;

2. to express appreciation for the activities of the Division of Technology, Industry and Economics of the United Nations Environment Programme and to encourage further work with regard to providing information on the above to Article 5 Parties and countries with economies in transition, specifically through customs training at the regional and/or national level.

(UNEP/OzL.Pro/12/9, Decision XII/110).

The Thirteenth Meeting of the Parties decided:

1. to request the Ozone Secretariat, in consultation, as appropriate, with the Technology and Economic Assessment Panel, the World Customs Organization, the United Nations Environment Programme Division of Technology, Industry and Economics (UNEP/DTIE) and the World Trade Organization to undertake a study and present a report with practical suggestions on the issues contained in decision XII/10 to the Open-ended Working Group at its 22nd meeting, in 2002, for consideration by the Parties in 2002;

2. that in preparing the study, the Secretariat should use decision XII/10 as terms of reference and should study solely those issues discussed in that decision.

(UNEP/OzL.Pro/13/10, Decision XIII/12).

The Fourteenth Meeting of the Parties decided:

1. to encourage each Party to consider means and continued efforts to monitor international transit trade;

2. to encourage all Parties to introduce economic incentives that do not impair international trade but which are appropriate and consistent with international trade law, to promote the use of ODS substitutes and products (including equipment) containing them or designed for them, and technologies utilizing them; and to consider demand control measures in addressing illegal trade;

3. to urge each Party that has not already done so to introduce in its national customs classification system the separate sub-divisions for the most commonly traded HCFCs and other ODS contained in the World Customs Organization recommendation of 25 June 1999 and request that Parties provide a copy to the Secretariat; and to urge all Parties to take due account of any new recommendations by the World Customs Organization once they are agreed;

4. to provide the following further clarification of the difference between a controlled substance, or a mixture containing a controlled substance, and a product containing a controlled substance contained in Article 1 of the Montreal Protocol and further explained in Decision I/12A:

(a) no matter which customs code is allocated to a controlled substance or mixture containing a controlled substance, such substance or mixture, when in a container used for transportation or storage as defined in Decision 1/12A, shall be considered to be a "controlled substance" and thus shall be subject to the phase-out schedules agreed upon by the Parties;

(b) the clarification contained in subparagraph (a) above concerns, in particular, controlled substances or mixtures containing controlled substances classified under customs codes related to their function and

sometimes wrongly considered to be "products", thus avoiding any controls resulting from the Montreal Protocol phase-out schedules;

5. to encourage all Parties to exchange information and intensify joint efforts to improve means of identification of ODS and prevention of illegal ODS traffic. In particular those Parties concerned should make even greater use of the UNEP regional networks and other networks in order to increase co-operation on illegal trade issues and enforcement activities;
6. to request the Division of Technology, Industry and Economics of the United Nations Environment Programme through the Executive Committee to report to the Sixteenth Meeting of the Parties on the activities of the regional networks with regard to means of combating illegal trade; to request the Executive Committee to consider making an evaluation of customs officers training and licensing systems projects a priority and, if possible, report to the Sixteenth Meeting of the Parties;
7. to invite Parties, in order to facilitate exchange of information, to report to the Ozone Secretariat fully proved cases of illegal trade in ozone-depleting substances. The illegally traded quantities should not be counted against a Party's consumption provided the Party does not place the said quantities on its own market. The Secretariat is requested to collect any information on illegal trade received from the Parties and to disseminate it to all Parties. The Secretariat is also requested to initiate exchanges with countries to explore options for reducing illegal trade;
8. to request the Executive Committee of the Multilateral Fund to continue to provide financial and technical assistance to Article 5 Parties to introduce, develop and apply inspection technologies and equipment in customs to combat illegal ODS traffic and to monitor ODS trade, and to report to the Sixteenth Meeting of the Parties to the Montreal Protocol on activities to date.

(UNEP/OzL.Pro.14/9, Decision XIV/7).

The Forty-third Meeting of the Executive Committee decided:

(a) to forward Part I, Sections 1 and 2, of document UNEP/OzL.Pro/ExCom/43/58/Corr.1, as amended and updated, to the Sixteenth Meeting of the Parties; and

(b) to report to the Parties that the Executive Committee would undertake a new evaluation of projects on customs officers training and on licensing systems, to be presented to the Seventeenth Meeting.

(UNEP/OzL.Pro/ExCom/43/61, Decision 43/41, para. 160).

The Sixteenth Meeting of the Parties decided:

1. to note with appreciation the notes by the Secretariat on information reported by the Parties on illegal trade in ozone-depleting substances and on streamlining the exchange of information on reducing illegal trade in ozone-depleting substances;
2. further to note with appreciation the report by the Division of Technology, Industry and Economics of the United Nations Environment Programme on activities of the regional networks with regard to means of combating illegal trade;
3. to note the need for coordination of efforts by Parties at national and international level to suppress illegal trade in ozone-depleting substances;
4. to request the Ozone Secretariat to gather further ideas from the Parties on further areas of cooperation between Parties and other bodies in combating illegal trade such as development of a system of tracking trade in ozone-depleting substances and improvement of communications between exporting and importing countries in the light of the information provided in the note by the Secretariat on streamlining the exchange of information on reducing illegal trade in ozone-depleting substances and the report by the Division of Technology, Industry and Economics of the United Nations Environment Programme on activities of the regional networks with regard to means of combating illegal trade;
5. further to request the Ozone Secretariat to produce draft terms of reference for a study on the feasibility of developing a system of tracking trade in ozone-depleting substances and the cost implications of carrying out such a study, taking into account the proposal presented by Sri Lanka;
6. to request in addition the Executive Secretary of the Ozone Secretariat to convene in the first half of 2005, and provided that funds are available, a workshop of experts from Parties to the Montreal Protocol to develop specific areas and a conceptual framework of cooperation in the light both of information already available

and of the reports to be produced by the Secretariat pursuant to paragraphs 4 and 5 above and make appropriate proposals to the Meeting of the Parties;

7. to consider the information on the outcome of the workshop to be convened by the Ozone Secretariat at the Seventeenth Meeting of the Parties.

(UNEP/OzL.Pro.16/17, Decision XVI/33).

Preventing illegal trade in controlled ozone-depleting substances

The Seventeenth Meeting of the Parties decided:

1. to approve the terms of reference for a study on the feasibility of developing an international system of monitoring the transboundary movement of controlled ozone-depleting substances between Parties, as presented in Annex VI.3 to the present report, and to request the Ozone Secretariat to undertake such a study, to initiate the necessary tenders and to present the results to the Eighteenth Meeting of the Parties to the Montreal Protocol in 2006;
2. to invite the Ozone Secretariat to consult with other conventions or organizations who might benefit from the outcome of that study to contribute towards its work;
3. to urge all Parties, including regional economic integration organizations, to implement fully their obligations under Article 4B of the Montreal Protocol, in particular, the licensing systems for the control of imports, exports, re-exports (re-exports mean exports of previously imported substances) and, if technically and administratively feasible, transit of all controlled ozone-depleting substances, including mixtures containing them, regardless of whether the Party concerned is or is not recognized as the producer and/or importer, exporter or re-exporter of the particular substance or group of substances;
4. to request the Ozone Secretariat to revise the reporting format resulting from decision VII/9 to cover exports (including re-exports) of all controlled ozone-depleting substances, including mixtures containing them, and to urge the Parties to implement the revised reporting format expeditiously. The Ozone Secretariat is also requested to report back aggregated information related to the controlled substance in question received from the exporting/re-exporting Party to the importing Party concerned;
5. to invite Parties to submit information to the Ozone Secretariat by 30 June 2006 on any existing systems for exchanging information on import and export licenses between importing and exporting Parties;
6. to consider additional control measures with regard to the use of controlled ozone depleting substances in particular sectors or in particular applications, as this approach may effectively diminish illegal trade activities;
7. to encourage further work on the Green Customs initiative of the United Nations Environment Programme in combating illegal trade in controlled ozone depleting substances as well as further networking and twinning activities in the framework of regional networks aimed at the exchange of information and experience on both licit and illicit trade in controlled ozone depleting substances between the Parties, including enforcement agencies;
8. to request the Executive Committee to consider at its forty-eighth meeting the recommendations contained in the report of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol on the Evaluation of Customs Officers Training and Licensing System Projects to the twenty-fifth meeting of the Open-ended Working Group", in particular where they relate to customs training and other elements of capacity building that are needed in combating illegal trade in controlled ozone-depleting substances;
9. to approve a maximum amount of $200,000 from the Trust Fund of the Vienna Convention as a one-time measure to facilitate the feasibility study on developing a system for monitoring the transboundary movement of controlled ozone-depleting substances between the Parties.

(UNEP/OzL.Pro.17/11, Decision XVII/16).

The Forty-eighth Meeting of the Executive Committee decided:

(a) to take note of the recommendations contained in the report of the Executive Committee on the evaluation of customs officers training and licensing system projects to the Twenty fifth Meeting of the Open ended Working Group (follow up to decision XVII/16, paragraph 8, of the Seventeenth Meeting of the Parties to the Montreal Protocol), as contained in document UNEP/OzL.Pro/ExCom/48/13;

(b) to submit the recommendations listed under paragraph 8(b) in document UNEP/OzL.Pro/ExCom/48/13, as amended to include the phrase "where feasible" before the words "in cooperation with other relevant government ministries/agencies:" to the Ozone Secretariat in the context of the ongoing studies and discussions on how best to deal with illegal trade in ODS;

(c) to request implementing agencies and bilateral agencies to prepare and implement national phase-out plans and terminal phase-out management plans in a manner that would ensure, where feasible, implementation of the recommendations listed under paragraph 8(b), and to implement the recommendations listed under paragraph 8(c) in document UNEP/OzL.Pro/ExCom/48/13; and

(d) to request UNEP to implement the recommendations under paragraph 8(d) in document UNEP/OzL.Pro/ExCom/48/13.

(UNEP/OzL.Pro/ExCom/48/45, Decision 48/11, para. 81).
(Supporting document: UNEP/OzL.Pro/ExCom/48/13).

The Eighteenth Meeting of the Parties decided:

1. to urge all Parties to implement fully Article 4B of the Protocol as well as to take into account recommendations contained in existing decisions of the Parties, notably decisions IX/8, XIV/7, XVII/12 and XVII/16;
2. to encourage all Parties to consider taking effective action to improve monitoring of transboundary movement of controlled ozone-depleting substances including, as appropriate, a better utilization of existing systems under other multilateral agreements for tracking trade in chemicals and to exchange relevant information specifically in the context of trade in ozone-depleting substances between Parties operating under paragraph 1 of Article 5 of the Protocol and Parties not so operating;
3. to encourage all Parties which have experience in using the United Nations commodity trade statistics database, commonly known as "UNComtrade", and the publicly available software Global Risk Identification and Detection, commonly known as "eGRID", which are used to monitor trade in ozone-depleting substances, to provide information on the suitability and costs of those tools to the Ozone Secretariat, which will report such information at the twenty-seventh meeting of the Open ended Working Group and subsequently at the Nineteenth Meeting of the Parties in 2007;
4. to encourage the United Nations Environment Programme's Compliance Assistance Programme to continue its efforts to train ozone officers and customs officers on best practices and to raise awareness and to disseminate examples of best practices for national licensing systems and regional cooperation to combat illegal trade;
5. to invite all Parties to submit written comments by 31 March 2007 to the Ozone Secretariat on the report, focusing in particular on their priorities with respect to the medium- and longer term options listed in the study and/or all other possible options with a view to identifying those cost-effective actions which could be given priority by the Parties both collectively through further action to be considered under the Protocol and at the regional and national levels;
6. to request the Ozone Secretariat to provide a compilation of those comments for consideration at the twenty-seventh meeting of the Open-ended Working Group and subsequently at the Nineteenth Meeting of the Parties in 2007.

(UNEP/OzL.Pro.18/10, Decision XVIII/18).

The Nineteenth Meeting of the Parties decided:

1. to remind all Parties of their obligation under Article 4B of the Protocol to establish an import and export licensing system for all controlled ozone-depleting substances;
2. to urge all Parties to fully and effectively implement and actively enforce their systems for licensing the import and export of controlled ozone depleting substances as well as recommendations contained in existing decisions of the Parties, notably decisions IX/8, XIV/7, XVII/12, XVII/16 and XVIII/18;
3. that Parties wishing to improve implementation and enforcement of their licensing systems in order to combat illegal trade more effectively may wish to consider implementing domestically on a voluntary basis the following measures:
   (a) sharing information with other Parties, such as by participating in an informal prior informed consent procedure or similar system;

(b) establishing quantitative restrictions, for example import and/or export quotas;

(c) establishing permits for each shipment and obliging importers and exporters to report domestically on the use of such permits;

(d) monitoring transit movements (trans-shipments) of ozone-depleting substances, including those passing through duty-free zones, for instance by identifying each shipment with a unique consignment reference number;

(e) banning or controlling the use of non-refillable containers;

(f) establishing appropriate minimum requirements for labelling and documentation to assist in the monitoring of trade of ozone-depleting substances;

(g) cross-checking trade information, including through private-public partnerships;

(h) including any other relevant recommendations from the ozone-depleting substances tracking study;

4. to request the Ozone Secretariat to continue to collaborate with the World Customs Organization in relation to possible actions by Parties on any new amendments to the Harmonized Commodity Description and Coding System with respect to ozone depleting substances and to report to the Meeting of the Parties on actions taken at the World Customs Organization.

(UNEP/OzL.Pro.19/7, Decision XIX/12).

The Thirty-fourth Meeting of the Parties decided:

1. To urge parties that have not already done so to introduce into their national customs classification systems the separate subdivisions for HFCs and blends contained in the amendments to the Harmonized Commodity Description and Coding System adopted by the World Customs Organization in 2019 that entered into force on 1 January 2022, and to use more specific classifications for controlled substances and blends containing controlled substances, where possible, to better identify and track imports and exports of controlled substances;
2. To encourage all parties to exchange information and strengthen joint efforts to improve means of identification, prevention and combating of illegal trade in controlled substances, including addressing the mislabeling of containers of controlled substances as other chemicals;
3. To encourage parties to facilitate the exchange of information to prevent illegal trade of controlled substances by reporting to the Secretariat fully proved cases of illegal trade and, to the extent that parties are able to do so, to provide additional information about illegal trade situations;
4. To request the Secretariat to:
   (a) Compile and regularly summarize the practices of illegal trade reported under paragraph 3 of the present decision, as well as the approaches taken by national authorities to identify and address such cases;
   (b) Identify common features of licensing systems to assist parties wishing to improve their national licensing systems for controlled substances;
   (c) Organize a one-day workshop on further strengthening effective implementation and enforcement of the Montreal Protocol, back to back with the forty-fifth meeting of the Open-ended Working Group of the Parties to the Montreal Protocol;
   (d) Prepare a background information paper outlining issues to be discussed at the workshop and reflecting discussions at the forty-fourth meeting of the Open-ended Working Group and the Thirty-Fourth Meeting of the Parties for consideration at the forty-fifth meeting of the Open ended Working Group.

(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/8).

The Thirty-fifth Meeting of the Parties decided:

1. To encourage parties to facilitate the exchange of information on best practices to prevent illegal trade of controlled substances and to inform the Secretariat of practices used by entities attempting unauthorized imports of controlled substances that may include the mislabeling of containers of controlled substances or misreporting of controlled substances on customs declarations;
2. To request the Secretariat to provide, before the forty-sixth meeting of the Open-ended Working Group of the Parties to the Montreal Protocol and on an annual basis thereafter, a compilation of information provided

by parties pursuant to paragraph 1 above as well as decision XXXIV/8.

(UNEP/OzL.Pro.35/12/Add.1, Decision XXXV/12).

The Thirty-sixth Meeting of the Parties decided:

1. To request the Ozone Secretariat to update its response to decision XXXIV/8, paragraph 4 (b), on identifying common features of licensing systems; to prepare a compilation of such features, including examples of licensing systems as implemented under various circumstances; and to make this information available to the parties for consideration at the forty-seventh meeting of the Open-ended Working Group;
2. To invite parties that have not done so to provide to the Secretariat information on their licensing systems;
3. To request the Secretariat to provide, before the forty-seventh meeting of the Open-ended Working Group, a compilation of the information provided by the parties pursuant to decision XXXV/12, paragraph 1, synthesizing best practices for preventing illegal trade in controlled substances, for consideration by the Thirty-Seventh Meeting of the Parties;
4. To request the Secretariat to convene a one-day informal meeting of parties prior to and back to back with the Thirty-Seventh Meeting of the Parties in order to reflect, on the basis of existing documents, on facilitating the implementation of the Montreal Protocol;
5. To invite parties to provide to the Secretariat information on how they address the disposition of detained substances;
6. To request the Secretariat to prepare, for consideration by the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol at its seventy-fourth meeting, an analysis of systemic issues in relation to compliance based on cases considered by the Committee over the past 10 years, without including information identifying specific cases, and reflecting on information provided to the Implementation Committee at its sixty-third meeting for consideration at the informal meeting referred to in paragraph 4 above.

(UNEP/OzL.Pro.36/9/Add.1, Decision XXXVI/9).

CHANGES IN BASELINE DATA

Methodology for submission of requests for revision of baseline data

The Fifteenth Meeting of the Parties decided:

1. to recall decisions XIII/15 (paragraph 5) and XIV/27, on Parties' requests for changes in reported baseline data;
2. to recognize that Parties adopt different approaches to the collection and verification of data and that there may be some special circumstances where original documentation may no longer be available, and therefore to accept the following methodology:
   (a) Parties submitting requests to change baseline data are requested to provide the following information:
      (i) identification of which of the baseline year's or years' data are considered incorrect and provision of the proposed new figure for that year or those years;
      (ii) explanation as to why the existing baseline data is incorrect, including information on the methodology used to collect and verify that data, along with supporting documentation where available;
      (iii) explanation as to why the requested changes should be considered correct, including information on the methodology used to collect and verify the accuracy of the proposed changes;
      (iv) documentation substantiating collection and verification procedures and their findings, which could include:
         a. copies of invoices (including ODS production invoices), shipping and customs documentation from either the requesting Party or its trading partners (or aggregation of those with copies available upon request);
         b. copies of surveys and survey reports;
         c. information on country's gross domestic product, ODS consumption and production trends, business activity in the ODS sectors concerned;

(b) where relevant, the Implementation Committee may also request the Secretariat to consult with the Multilateral Fund secretariat and the Implementing Agencies involved in both the original data collection exercises and any exercises that resulted in the baseline revision request to comment, and where considered appropriate, to endorse the explanation provided. (The Parties may themselves request the Implementing Agencies to provide their comments so that they can be submitted along with their requests to the Implementation Committee);

(c) Following review of an initial request submission, if the Implementation Committee requires further information from a Party, the Party will be invited to take advantage of clause 7 (e) of the non-compliance procedure to invite an Implementation Committee representative, or other authorized representative, to their country to identify and/or review the outstanding information.

(UNEP/OzL.Pro.15/9, Decision XV/19).

Parties that had requested changes in reported baseline data

The Fourteenth Meeting of the Parties decided:

1. to note that in accordance with decision XIII/15 of the Thirteenth Meeting of the Parties, Parties that had requested changes in reported baseline data for the base years were asked to present their requests before the Implementation Committee, which would in turn work with the Ozone Secretariat and the Executive Committee to confirm the justification for the changes and present them to the Meeting of the Parties for approval;
2. to note that the following Parties have presented sufficient information to justify their requests for a change in their baseline consumption of the relevant substances:
   (a) Bulgaria to change baseline consumption data for Annex E substances in 1991 from zero to 51.78 ODP-tonnes,
   (b) Sri Lanka to change its baseline consumption data for Annex A, Group I substances from 400.4 to 445.6 ODP-tonnes,
   (c) Belize to change its baseline consumption data for Annex A, Group I substances from 16 to 24.4 ODP-tonnes;
   (d) Paraguay to change its baseline consumption data for Annex A, Group I substances from 157.4 to 210.6 ODP-tonnes;
3. to accept these requests for changes in the respective baseline data.

(UNEP/OzL.Pro.14/9, Decision XIV/27).

The Sixteenth Meeting of the Parties decided:

1. to note that, in accordance with decision XIII/15 of the Thirteenth Meeting of the Parties, Parties that had requested changes in reported baseline data for the base years were asked to submit their requests to the Implementation Committee, which would in turn work with the Ozone Secretariat and the Executive Committee to confirm the justification for the changes and present them to the Meeting of the Parties for approval;
2. to note further that decision XV/19 of the Fifteenth Meeting of the Parties set out the methodology for the submission of these requests;
3. to note that the following Parties have presented sufficient information, in accordance with decisions XIII/15 and XV/19, to justify their requests for a change in their baseline consumption of the relevant substances:
   (a) Lebanon, to change its baseline consumption data for the controlled substance in Annex E (methyl bromide) from 152.4 to 236.4 ODP tonnes;
   (b) Philippines, to change its baseline consumption data for the controlled substance in Annex E (methyl bromide) from 8.0 to 10.3 ODP tonnes;
   (c) Thailand, to change its baseline consumption data for the controlled substance in Annex E (methyl bromide) from 164.9 to 183.0 ODP tonnes;
   (d) Yemen, to change its baseline consumption data for Annex A, group I, substances (CFCs) from 349.1 to 1,796.1 ODP tonnes; for Annex A, group II, substances (halons) from 2.8 to 140.0 ODP tonnes; and for the controlled substance in Annex E (methyl bromide) from 1.1 to 54.5 ODP tonnes;

5. to accept these requests for changes in the respective baseline data;

6. to note that these changes in baseline data place the Parties in compliance with their respective control measures for 2003.

(UNEP/OzL.Pro.16/17, Decision XVI/31).

The Eighteenth Meeting of the Parties decided:

1. to note that the Mexico has presented sufficient information, in accordance with decision XV/19 of the Fifteenth Meeting of the Parties, to justify its request to change its baseline data for the year 1998 for the consumption of the controlled substance in Annex B, group II, (carbon tetrachloride) from zero ODP-tonnes to 187.517 ODP tonnes;

2. to therefore accept the Party's request to change its baseline data;

3. to note that the revised baseline data will be used to calculate the Party's consumption baseline for carbon tetrachloride for the year 2005 and beyond.

(UNEP/OzL.Pro.18/10, Decision XVIII/29).

The Nineteenth Meeting of the Parties decided:

1. that Turkmenistan has presented sufficient information in accordance with decision XV/19 to justify its request to change its baseline data on the consumption of methyl bromide;

2. to change the baseline consumption data of Turkmenistan for methyl bromide for the year 1998 from zero to 14.3 ODP tonnes.

(UNEP/OzL.Pro.19/7, Decision XIX/24).

The Twentieth Meeting of the Parties decided:

1. that Saudi Arabia has presented sufficient information, in accordance with decision XV/19, to justify its request to change its baseline consumption data for methyl bromide;

2. to change the baseline consumption data of Saudi Arabia for methyl bromide for the years 1995–1998 from 0.7 to 204.1 ODP tonnes based on the average calculated level of consumption for the following four years: 1995 – 161.8 ODP tonnes; 1996 – 222.5 ODP tonnes; 1997 – 210.4 ODP tonnes; 1998 – 221.7 ODP tonnes.

(UNEP/OzL.Pro.20/9, Decision XX/17).

The Twenty-third Meeting of the Parties decided:

1. That Tajikistan has presented sufficient information, in accordance with decision XV/19, to justify its request for the revision of its baseline consumption data for hydrochlorofluorocarbons;

2. To revise the baseline consumption data of Tajikistan for hydrochlorofluorocarbons for the year 1989 from 6.0 ODP-tonnes to 18.7 ODP-tonnes;

(UNEP/OzL.Pro.23/11, Decision XXIII/28).

The Twenty-third Meeting of the Parties decided:

1. That Barbados, Bosnia and Herzegovina, Brunei Darussalam, Guyana, Lao People's Democratic Republic, Lesotho, Palau, Solomon Islands, Swaziland, Togo, Tonga, Vanuatu and Zimbabwe have presented sufficient information, in accordance with decision XV/19, to justify their requests for the revision of their consumption data for the year 2009 for hydrochlorofluorocarbons, which is part of the baseline for parties operating under paragraph 1 of Article 5;

2. To approve the requests of the parties listed in the preceding paragraph and to revise their baseline hydrochlorofluorocarbon consumption data for the year 2009 as indicated in the following table:

Party	*Previous data*		*New data*	
	Metric tonnes	*ODP-tonnes*	*Metric tonnes*	*ODP-tonnes*
Barbados	82.68	4.5	91.43	5.1
Bosnia and Herzegovina	82.73	6.0	77.96	5.8

Party	*Previous data*		*New data*	
	Metric tonnes	*ODP-tonnes*	*Metric tonnes*	*ODP-tonnes*
Brunei Darussalam	82.2	4.5	96.69	5.3
Guyana	16.822	0.9	19.271	1.1
Lao People's Democratic Republic	22.03	1.2	39.09	2.1
Lesotho	187.0	10.3	68.271	3.8
Palau	2.04	0.1	2.56	0.1
Solomon Islands	28.28	1.6	29.09	1.6
Swaziland	99.9	9.2	103.72	9.5
Togo	372.89	20.5	350	19.3
Tonga	0.01	0.0	2.43	0.1
Vanuatu	1.46	0.1	1.89	0.1
Zimbabwe	225	12.4	303.47	17.1

(UNEP/OzL.Pro.23/11, Decision XXIII/28).

The Twenty-fourth Meeting of the Parties decided:

1. That Algeria, Ecuador, Equatorial Guinea, Eritrea, Haiti, the Niger, the former Yugoslav Republic of Macedonia and Turkey have presented sufficient information, in accordance with decision XV/19, to justify their requests for the revision of their consumption data for hydrochlorofluorocarbons for 2009, 2010 or both, which are part of the baseline for parties operating under paragraph 1 of Article 5;

2. To approve the requests of the parties listed in the preceding paragraph and to revise their baseline hydrochlorofluorocarbon consumption data for the respective years as indicated in the following table:

Party	*Previous HCFC data*				*New HCFC data*			
	(metric tonnes)		*(ODP-tonnes)*		*(metric tonnes)*		*(ODP-tonnes)*

8. Turkey	-	8 900.721	-	606.0	-	7 041.25	-	493.03

[a] The request for a revision of baseline data from the former Yugoslav Republic of Macedonia relates only to the exclusion of HCFCs contained in imported pre-blended polyols from its HCFC consumption.

(UNEP/OzL.Pro.24/10, Decision XXIV/16).

The Twenty-fifth Meeting of the Parties decided:

1. That the Congo, the Democratic Republic of the Congo, Guinea-Bissau and Saint Lucia have presented sufficient information, in accordance with decision XV/19, to justify their requests for the revision of their consumption data for hydrochlorofluorocarbons for 2009, 2010 or both, which are part of the baseline for parties operating under paragraph 1 of Article 5;

2. To approve the requests of the parties listed in the preceding paragraph and to revise their baseline hydrochlorofluorocarbon consumption data for the respective years as indicated in the following table:

Party	*Previous hydrochlorofluorocarbon data (ODP-tonnes)*		*New hydrochlorofluorocarbon data (ODP-tonnes)*	
	2009	*2010*	*2009*	*2010*
1. Congo	7.1	-	9.68	-
2. Democratic Republic of the Congo	85.7	-	55.82	-
3. Guinea-Bissau	0	-	2.75	-
4. Saint Lucia	0.4	0	1.37	0.81

(UNEP/OzL.Pro.25/9, Decision XXV/13).

The Twenty-sixth Meeting of the Parties decided:

1. That Libya and Mozambique have presented sufficient information, in accordance with decision XV/19, to justify their requests for the revision of their consumption data for hydrochlorofluorocarbons for 2010 and 2009, respectively, which are part of the baseline for parties operating under paragraph 1 of Article 5;

2. To approve the requests of the parties listed in the preceding paragraph and to revise their baseline hydrochlorofluorocarbon consumption data for the respective years as indicated in the following table:

	Previous hydrochlorofluorocarbon data (ODP-tonnes)		*New hydrochlorofluorocarbon data (ODP-tonnes)*	
Party	*2009*	*2010*	*2009*	*2010*
1. Libya	–	131.91	–	139.26
2. Mozambique	4.3	–	8.68	–

(UNEP/OzL.Conv.10/7-UNEP/OzL.Pro.26/10, Decision XXVI/14).

The Twenty-ninth Meeting of the Parties decided:

1. That Fiji has presented sufficient information, in accordance with decision XV/19, to justify its request for the revision of its consumption data for hydrochlorofluorocarbons for the years 2009 and 2010, which are part of the baseline for parties operating under paragraph 1 of Article 5;

2. To approve the request by Fiji, and to revise its consumption data for hydrochlorofluorocarbons for the baseline years 2009 and 2010, as indicated in the following table:

Previous hydrochlorofluorocarbon data (ODP-tonnes)			*New hydrochlorofluorocarbon data (ODP-tonnes)*		
2009	*2010*	*Baseline*[a]	*2009*	*2010*	*Baseline*[a]
7.6	9.2	8.4	5.00	6.46	5.73

[a] Hydrochlorofluorocarbon baselines established after the Twenty-Third Meeting of the Parties are presented using two decimal places whereas those established before are presented using one decimal place (see decision XXIII/30).

3. To note that the change in baseline data confirmed that Fiji was in non-compliance with the control measures under the Montreal Protocol on Substances that Deplete the Ozone Layer for 2013 and 2014, but that as at 2015 the party had returned to compliance;

4. Also to note that no further action is needed in view of the return to compliance and the party's affirmation that it has taken the new baseline into account for 2015 and 2016;

5. To monitor closely progress by Fiji with regard to the phase-out of hydrochlorofluorocarbons, and that, to the degree that the party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a party in good standing;

UNEP/OzL.Pro.29/8, Decision XXIX/15)

The Twenty-ninth Meeting of the Parties decided:

1. That Pakistan has presented sufficient information, in accordance with decision XV/19, to justify its request for the revision of its consumption data for hydrochlorofluorocarbons for the years 2009 and 2010, which are part of the baseline for parties operating under paragraph 1 of Article 5;

2. To approve the request by Pakistan, and to revise its consumption data for hydrochlorofluorocarbons for the baseline years 2009 and 2010, as indicated in the following table:

	Previous hydrochlorofluorocarbon data (ODP-tonnes)			*New hydrochlorofluorocarbon data (ODP-tonnes)*		
Substance	*2009*	*2010*	*Baseline*[a]	*2009*	*2010*	*Baseline*[a]
HCFC-141b	134.2	142.8		134.20	142.80

Total	**239.8**	**255.0**	**247.4**	**240.51**	**255.70**	**248.11**

[a] Hydrochlorofluorocarbon baselines established after the Twenty-Third Meeting of the Parties are presented using two decimal places whereas those established before are presented using one decimal place (see decision XXIII/30).

UNEP/OzL.Pro.29/8, Decision XXIX/16)

The Twenty-ninth Meeting of the Parties decided:

1. That the Philippines has presented sufficient information, in accordance with decision XV/19, to justify its request for the revision of its consumption data for hydrochlorofluorocarbons for both 2009 and 2010, which are part of the baseline for parties operating under paragraph 1 of Article 5;

2. To approve the request by the Philippines, and to revise its consumption data for hydrochlorofluorocarbons for the baseline years 2009 and 2010, as indicated in the following table:

Previous hydrochlorofluorocarbon data (ODP-tonnes)			*New hydrochlorofluorocarbon data (ODP-tonnes)*		
2009	*2010*	*Baseline*[a]	*2009*	*2010*	*Baseline*[a]
194.7	222.0	208.4	162.98	160.98	161.98

[a] Hydrochlorofluorocarbon baselines established after the Twenty-Third Meeting of the Parties are presented using two decimal places whereas those established before are presented using one decimal place (see decision XXIII/30).

UNEP/OzL.Pro.29/8, Decision XXIX/17)

The Thirty-fourth Meeting of the Parties decided:

1. That Madagascar has presented sufficient information, in accordance with decision XV/19, to justify its request for the revision of its consumption data for hydrochlorofluorocarbons (HCFCs) for 2009, which are part of the baseline for parties operating under paragraph 1 of Article 5 of the Montreal Protocol;

2. To approve the request by Madagascar and to revise its consumption data for HCFCs for the baseline year 2009 as indicated in the following table:

	Previous hydrochlorofluorocarbon data (ODP-tonnes)			*New hydrochlorofluorocarbon data (ODP-tonnes)*		
Party	*2009*	*2010*	***Baseline***[a]	*2009*	*2010*	***Baseline***[a]
Madagascar	33	16.8	**24.9**	16.49	16.8	**16.6**

[a] HCFC baselines established after the Twenty-Third Meeting of the Parties are presented to two decimal places, whereas those established earlier are presented to one decimal place (see decision XXIII/30).

Abbreviation: ODP – ozone-depleting potential

(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/16).

The Thirty-sixth Meeting of the Parties decided:

1. That El Salvador has presented sufficient information, in accordance with decision XV/19, to justify its request for the revision of its consumption data for hydrofluorocarbons for 2020, 2021 and 2022, which are part of the baseline for Group 1 parties under the Kigali Amendment to the Montreal Protocol operating under paragraph 1 of Article 5 of the Montreal Protocol;
2. To approve the request by El Salvador and to revise its consumption data for hydrofluorocarbons for baseline years 2020, 2021 and 2022 as indicated in the following table:

Party/year	*Previous HFC data (CO_2-eq tonnes)*			*New HFC data (CO_2-eq tonnes)*		
	2020	*2021*	*2022*	*2020*	*2021*	*2022*
El Salvador	620 802	985 085	712 414	705 669	784 010	703 349

Abbreviations: CO_2-eq – CO_2-equivalent; HFC – hydrofluorocarbon.

3. That Honduras has presented sufficient information, in accordance with decision XV/19, to justify its request for the revision of its consumption data for hydrofluorocarbons for 2022, which is part of the baseline for Article 5, Group 1 parties under the Kigali Amendment operating under paragraph 1 of Article 5 of the Protocol;
4. To approve the request by Honduras and to revise its consumption data for hydrofluorocarbons for the baseline year 2022 as indicated in the following table:

Party/year	*Previous HFC data (CO_2-eq tonnes)*	*New HFC data (CO_2-eq tonnes)*
	2022	*2022*
Honduras	1 057 751	1 024 898

Abbreviations: CO_2-eq – CO_2-equivalent; HFC – hydrofluorocarbon.

(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/16).

DATA AND INFORMATION PROVIDED BY THE PARTIES IN ACCORDANCE WITH ARTICLE 7

The First Meeting of the Parties decided:

(a) that each Party is required to report its annual production, imports and exports of each individual controlled substance;

(b) that Parties submitting data on controlled substances deemed to be confidential by that Party shall, in submitting the data to the Secretariat, require a guarantee that the data will be treated with professional secrecy and maintained confidential;

(c) that the Secretariat in preparing reports on data of controlled substances shall aggregate the data from several Parties in such a way as to ensure that data from Parties deemed to be confidential is not disclosed. The Secretariat shall also publish total data aggregated over all Parties for each individual controlled substance;

(d) that Parties wishing to exercise their rights under article 12, paragraph b of the Protocol may have access from the Secretariat to confidential data from other Parties, provided that they send an application in writing guaranteeing that such data will be treated with professional secrecy and not disclosed or published in any way.

(e) that data submitted under article 7 shall when necessary be made available on a confidential basis to resolve disputes under article 11 of the Convention.

(UNEP/OzL.Pro.1/5, Decision I/11).

The Second Meeting of the Parties decided:

1. to establish an ad hoc group of experts to consider the reasons leading to the difficulties faced by some countries in reporting data as required by Article 7 of the Protocol and to recommend possible solutions to the Parties concerned and to report on its progress to the Third Meeting of the Parties; and
2. to confirm that any data on consumption of the controlled substances that are submitted to the Secretariat as required by Article 7 of the Protocol are not to be confidential.

(UNEP/OzL.Pro.2/3, Decision II/9).

The Second Meeting of the Parties also decided:

1. to ask the Secretariat to determine from the data available to it the exact quantities of the controlled substances required by developing countries operating under paragraph 1 of Article 5 and the possible sources of supply to assist developed countries to authorize their companies to produce the additional amounts needed within the percentages authorized by Article 2 and Articles 2A to 2E of the Protocol;
2. to request the Secretariat to publish in its annual report on data an updated list of developing countries which, on the basis of complete data submissions, are considered to be operating under paragraph 1 of Article 5. The Secretariat shall also publish a list of developing countries that, having submitted incomplete or estimated data, appear to qualify as Parties operating under paragraph 1 of Article 5. In accordance with the provisions of Article 5 of the Protocol, no Party will be eligible for paragraph 1 of Article 5 treatment until it submits complete data to the Secretariat establishing that its annual calculated per capita level of consumption is below 0.3 kg.

(UNEP/OzL.Pro.2/3, Decision II/10).

The Third Meeting of the Parties decided:

(a) to note the report of the Ad Hoc Group of Experts on the Reporting of Data and the suggestions that it contains, especially the recommendation that developing countries should inform the Secretariat of any difficulties they face in reporting data, and to invite any Party experiencing such difficulties to inform the Secretariat, so that suitable measures can be taken to rectify the situation;

(b) developing countries with a per capita consumption figure which the Secretariat estimates at below 0.3 kilograms should be able to meet their obligation to report 1986 data by informing the Secretariat that they accept its estimate (UNEP/OzL.Pro/WG.2/1/4, paragraph 14 (e).

(UNEP/OzL.Pro.3/11, Decision III/7).

Earlier reporting of consumption and production data

The Fifteenth Meeting of the Parties decided:

1. to encourage the Parties to forward data on consumption and production to the Secretariat as soon as the figures are available, and preferably by 30 June each year, rather than 30 September each year as currently required by paragraph 3 of Article 7 of the Protocol;
2. to request the Secretariat to report to the Parties on the response to the above encouragement as well as its beneficial effect on the work of the Implementation Committee, with a view to helping the Parties to decide on the usefulness of an amendment to the Protocol to give legal effect to paragraph 1 of the present decision at the earliest opportunity.

(UNEP/OzL.Pro.15/9, Decision XV/15).

Differences between data reported on imports and data reported on exports

The Twenty-fourth Meeting of the Parties decided:

1. To request the Ozone Secretariat to revise, before 1 January 2013, the reporting format resulting from decision XVII/16 to include in the data forms an annex indicating the exporting party for the quantities reported as import, and noting that the annex is excluded from the reporting requirements under Article 7 and that the provision of the information in the annex would be done on a voluntary basis;
2. To request the Ozone Secretariat to compile every January aggregated information on controlled substances by annex and group received from the importing/re-importing party and to provide this uniquely and solely to the exporting party concerned when requested, in a manner that will maintain information deemed to be confidential in accordance with decision I/11;
3. To invite parties to enhance cooperation with the view to clarifying any differences in import and export

data as provided by the Ozone Secretariat in accordance with paragraph 2 above;

4. To invite parties to consider participation in the informal Prior Informed Consent (iPIC) scheme as a means to improve information about their potential imports of controlled substances;

(UNEP/OzL.Pro.24/10 Decision XIV/12).

Reporting information on destination countries for exports and source countries for imports of ozone-depleting substances

The Thirtieth Meeting of the Parties decided:

1. To urge parties exporting controlled substances to report to the Secretariat information on the destinations of their exports, as called for in decision XVII/16;
2. To encourage parties importing controlled substances to report to the Secretariat information on the sources of their imports, as set out in decision XXIV/12.

(UNEP/OzL.Pro.30/11, Decision XXX/12).

Reporting of zero in Article 7 data reporting forms

The Twenty-fourth Meeting of the Parties decided:

1. To request parties, when reporting production, imports, exports or destruction, to enter a number in each cell in the data reporting forms that they submit, including zero, where appropriate, rather than leaving the cell blank;
2. To ask the Secretariat to request clarification from any party that submits a reporting form containing a blank cell;

(UNEP/OzL.Pro.24/10 Decision XIV/14).

The Thirtieth Meeting of the Parties decided:

1. To note that 20 parties submitted forms for reporting data in accordance with Article 7 for 2017 containing blank cells, contrary to decisions XXIV/14 and XXIX/18, and that all of those parties provided clarification in response to the request of the Secretariat;
2. To urge all parties, when submitting forms for reporting data in accordance with Article 7, to ensure that in the future all cells in the data reporting forms are completed with a number, including zero where appropriate, rather than being left blank, in accordance with decision XXIV/14;
3. To request the Implementation Committee to review the status of adherence to paragraph 2 of the present decision at its sixty-third meeting.

(UNEP/OzL.Pro.30/11, Decision XXX/14).

Revised data reporting forms and global-warming-potential values for HCFC-123, HCFC-124, HCFC-141 and HCFC-142

The Thirtieth Meeting of the Parties decided:

1. To approve the revised forms and instructions for reporting data in accordance with the reporting obligations under the Protocol, as set out in annex III to the report of the Thirtieth Meeting of the Parties ;
2. To clarify that decision XXIV/14, by which parties are requested to enter a number in each cell in the data reporting forms that they submit, including zero, where appropriate, rather than leaving the cell blank, does not apply to cells where the information is to be provided on a voluntary basis;
3. To instruct the Ozone Secretariat to use the global-warming-potential values listed for HCFC 123 and HCFC-124 in Annex C for HCFC-123** and HCFC-124**, respectively, when calculating the hydrofluorocarbon baselines of parties with consumption or production of HCFC 123** and HCFC-124** in their respective baseline years;
4. Also to instruct the Ozone Secretariat to use the global-warming-potential values of HCFC-141b and HCFC 142b for HCFC-141 and HCFC-142, respectively, when calculating the hydrofluorocarbon baselines of parties with past consumption or production of HCFC-141 and HCFC-142 in their respective baseline years.

(UNEP/OzL.Pro.30/11, Decision XXX/10).

Timeline for reporting of baseline data for hydrofluorocarbons by parties operating under paragraph 1 of Article 5 of the Montreal Protocol

The Thirtieth Meeting of the Parties decided, in order to allow parties operating under paragraph 1 of Article 5 to report actual baseline data for hydrofluorocarbons, to request the Implementation Committee and the meeting of the parties to defer, for each year of the applicable baseline period, consideration of the status of the reporting of hydrofluorocarbon baseline data under paragraph 2 of Article 7 until nine months after the end of each baseline year as applicable to the group of parties operating under paragraph 1 of Article 5 in question.

(UNEP/OzL.Pro.30/11, Decision XXX/11).

Collecting data to understand potential impacts of the coronavirus disease (COVID-19) pandemic on hydrofluorocarbon consumption for Group 1 parties operating under paragraph 1 of Article 5

The Thirty-fourth Meeting of the Parties decided:

1. To encourage parties operating under paragraph 1 of Article 5 that believe that their reduced consumption of HFCs during the baseline years of 2020–2022, stemming from the effects of the coronavirus disease (COVID-19) pandemic, could hinder their ability to comply with the freeze in the consumption of HFCs in 2024 under the Kigali Amendment, to submit to the Ozone Secretariat as soon as possible, and no later than 1 May 2023, their HFC consumption data for 2022, in time for consideration at the forty-fifth meeting of the Open ended Working Group of the Parties to the Montreal Protocol;
2. For parties that provide to the Ozone Secretariat by 1 May 2023 their HFC consumption data for 2022, in accordance with paragraph 1 of the present decision, to request the Ozone Secretariat to prepare for consideration at the forty-fifth meeting of the Open-ended Working Group:
   (a) Information on the HFC consumption for the years 2020, 2021, and 2022 and the calculated baselines of Group 1 parties operating under paragraph 1 of Article 5 that have reported relevant data;
   (b) Information on HFC consumption for the years 2018 and 2019 of Group 1 parties operating under paragraph 1 of Article 5 where information is available;
3. To request the Executive Committee, at its ninety-first meeting, to consider requesting the secretariat of the Multilateral Fund to provide to the Ozone Secretariat any HFC consumption data it has available that could assist the Ozone Secretariat in preparing the information requested under paragraph 2 of the present decision.

(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/13).

The Thirty-fifth Meeting of the Parties decided:

1. That the Implementation Committee under the Non-Compliance Procedure of the Montreal Protocol should defer, until 2026 data becomes available, any consideration of compliance status with regard to control measures for consumption of Annex F substances, for any party listed in the annex to the present decision, on the understanding that the party will continue to make every effort to comply with these control measures;
2. To urge parties listed in the annex to the present decision that have not already done so to submit expeditiously their respective Kigali HFC Implementation Plans for consideration by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol.

Annex to decision XXXV/16

1. Botswana
2. Cuba
3. Mauritius
4. Mongolia
5. Republic of Moldova
6. Rwanda

(UNEP/OzL.Pro.35/12/Add.1, Decision XXXV/16).

MONTREAL PROTOCOL TREATMENT OF OZONE-DEPLETING SUBSTANCES USED TO SERVICE SHIPS, INCLUDING SHIPS FROM OTHER FLAG STATES

The Twenty-third Meeting of the Parties decided:

1. To request the Ozone Secretariat to prepare a document that collects current information about the sale of ozone depleting-substances to ships, including ships from other flag States, for onboard servicing and other onboard uses, including on how parties calculate consumption with regard to such sales, and that identifies issues relevant to the treatment of the consumption of ozone-depleting substances used to service ships, including flag ships, for onboard uses for submission to the Open-ended Working Group at its thirty-second meeting to enable the Twenty Fourth Meeting of the Parties to take a decision on the matter;
2. To include in the document any guidance and/or information on ozone depleting substances previously provided to the parties regarding sales to ships for onboard uses;
3. To request the Ozone Secretariat in preparing the document referred to in paragraph 1 to consult as deemed necessary with relevant international bodies, in particular the International Maritime Organization and the World Customs Organization, to include in the document information on whether and how those bodies address:
   (a) Trade in ozone-depleting substances for use onboard ships;
   (b) Use of ozone-depleting substances onboard ships;

and to provide a general overview on the framework applied by those bodies to manage relevant activities;

4. To request that the document be made available to all parties at least six weeks before the thirty-second meeting of the Open-ended Working Group;
5. To request parties to provide to the Ozone Secretariat, by 1 April 2012, information on the current system used by the parties, if any, to regulate and report on ozone-depleting substances supplied for the purpose of servicing ships, including ships from other flag States, for onboard use, on how they calculate consumption with regard to such ozone-depleting substances, and on any relevant cases in which they have supplied, imported or exported such ozone-depleting substances;
6. Requests the Secretariat to include the information provided pursuant to the preceding paragraph in an annex to the document called for in paragraph 1;
7. To request the Technology and Economic Assessment Panel to provide in its 2012 progress report a summary on the available data concerning the use of ozone-depleting substances on ships, including the quantities typically used on different types of ships, the estimated refrigerant bank on ships and an estimation of emissions;
8. To invite parties in a position to do so to provide, to the extent possible, relevant data concerning the use of ozone-depleting substances on ships, including the quantities typically used on different types of ships, the estimated refrigerant bank on ships and an estimation of emissions to the Panel by 1 March 2012;

(UNEP/OzL.Pro.23/11, Decision XXIII/11).

The Twenty-fourth Meeting of the Parties decided:

1. To request the Technology and Economic Assessment Panel to provide together with its 2013 progress report an updated version of the information provided in its previous progress reports on transport refrigeration in the maritime sector;
2. To invite parties to encourage relevant stakeholders to minimize the use of controlled substances in newly built ships and to consider environmentally benign and energy-efficient alternatives wherever they are available;
3. To revisit the issue at the thirty-third meeting of the Open-ended Working Group;

(UNEP/OzL.Pro.24/10, Decision XXIV/9).

SPECIAL CONSIDERATIONS FOR THE CARIBBEAN ISLANDS AFFECTED BY HURRICANES

The Eightieth Meeting of the Executive Committee decided:

(a) To approve the provision, on an exceptional basis, of a sum of US $20,000 as additional emergency assistance for institutional strengthening for Dominica, taking into consideration the circumstances facing the national

ozone unit after the devastation of the country's infrastructure by the hurricane in September 2017; and

(b) To request UNEP as lead agency to present, to the 81st meeting, a strategy and action plan to assist the country in returning to its pre-hurricane implementation levels.

(UNEP/OzL.Pro/ExCom/80/59, Decision 80/82, para 260)

The Twenty-ninth Meeting of the Parties decided:

1. To encourage all parties to assist Antigua and Barbuda, the Bahamas, Cuba, Dominica and the Dominican Republic by controlling the export of products, equipment, and technologies that rely on ozone-depleting substances through the control of trade, as appropriate, in accordance with decision X/9 and decision XXVII/8;
2. To request the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, when considering project proposals over the coming year for the above mentioned countries, to take into account their exceptional situation and the special difficulties that that situation may pose with regard to the implementation of activities to comply with their obligations in the coming year;
3. To request the implementing agencies to consider providing appropriate assistance to the above-mentioned countries in the areas of institutional strengthening, capacity-building, data collection and monitoring and control of trade of controlled substances to support continued reporting to the Secretariat on the consumption of controlled substances;
4. That the Implementation Committee under the Non Compliance Procedure for the Montreal Protocol should, in its deliberations in 2018, take into consideration the difficulties faced by the above-mentioned countries as a result of the hurricanes experienced in 2017, in the event of cases of non compliance by those countries;
5. To recognize that the exceptional situation of the above-mentioned countries may extend beyond one year, and to request the relevant parties to provide an update on the situation at the Thirtieth Meeting of the Parties;

UNEP/OzL.Pro.29/8, Decision XXIX/19)

NON-COMPLIANCE ISSUES

Non-compliance with data reporting requirement under Article 7

The Fourth Meeting of the Parties decided:

1. to note with satisfaction that all the Parties that reported data met or exceeded their obligations for control measures under Article 2 of the Protocol;
2. to urge all Parties that have not reported their data to the Secretariat to do so as soon as possible;
3. to encourage all Parties to adhere strictly to the reporting requirement under paragraph 3 of Article 7 of the amended Protocol which provides, inter alia, that data shall be provided not later than nine months after the end of the year to which the data relate;
4. to urge all Parties to insert further subdivisions to the recommended Harmonized System subheadings so that imports and exports of each of the substances listed in the annexes of the Protocol as well as each of the mixtures containing these substances can be accurately monitored in order to facilitate reporting of data under Article 7 of the Protocol.

(UNEP/OzL.Pro.4/15, Decision IV/9).

The Fifth Meeting of the Parties decided:

1. to note with satisfaction that all the Parties that reported data have met or exceeded their obligations for control measures under Article 2 of the Protocol;
2. to urge all Parties that have not yet done so to report their data to the Secretariat as soon as possible;
3. to encourage all Parties to adhere strictly to the reporting requirement under paragraph 3 of Article 7 of the amended Protocol which provides, inter alia, that data shall be provided not later than nine months after the end of the year to which the data relate;
4. to take note of the information provided by some Parties on the implementation of Article 4 of the Protocol and to encourage further those Parties that have not yet done so to provide the information to the Secretariat as soon as possible.

(UNEP/OzL.Pro.5/12, Decision V/5).

The Sixth Meeting of the Parties decided:

1. to note with satisfaction the implementation of the provisions of the Protocol by the Parties which have so far reported data and information under Articles 7 and 9 of the Protocol;

2. to note that the timely reporting of data and any other required information is a legal obligation for each Party and to request all Parties to comply with the provisions of Articles 7 and 9 of the Protocol.

(UNEP/OzL.Pro.6/7, Decision VI/2).

The Seventh Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;

2. to note with regret that only 82 Parties out of 126 that should have reported data for 1993 have reported and that only 60 Parties have reported data for 1994;

3. to note that the timely reporting of data and any other required information is a legal obligation for each Party and to request all Parties to comply with the provisions of Articles 7 and 9 of the Protocol.

(UNEP/OzL.Pro.7/12, Decision VII/14).

The Eighth Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;

2. to note with regret that only 104 Parties out of 141 that should have reported data for 1994 have reported to date and that only 61 Parties have to date reported data for 1995;

3. to remind all Parties of the requirement to comply with the provisions of Articles 7 and 9 of the Protocol.

(UNEP/OzL.Pro.8/12, Decision VIII/2).

The Ninth Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;

2. to note with regret that only 113 Parties out of 152 that should have reported data for 1995 have reported to date and that only 43 Parties have to date reported data for 1996;

3. to remind all Parties to comply with the provisions of Articles 7 and 9 of the Protocol.

(UNEP/OzL.Pro.9/12, Decision IX/11).

The Tenth Meeting of the Parties decided:

1. to note with regret that, as of 31 October 1998, only 88 of the 164 Parties that should have reported data for 1997 had done so;

2. to remind all Parties to comply with the provisions of Articles 7 and 9 of the Protocol.

(UNEP/OzL.Pro.10/9, Decision X/2).

The Eleventh Meeting of the Parties decided:

1. to note with satisfaction the large number of countries that have ratified the Vienna Convention for the Protection of the Ozone Layer and the Montreal Protocol on Substances that Deplete the Ozone Layer;

2. to note that 136 Parties have ratified the London Amendment to the Montreal Protocol, while only 101 Parties have ratified the Copenhagen Amendment to the Montreal Protocol and only 29 Parties have ratified the Montreal Amendment to the Montreal Protocol as of 15 November 1999;

3. to urge all States that have not yet done so to ratify, approve or accede to the Vienna Convention and the Montreal Protocol and its Amendments, taking into account that universal participation is necessary to ensure the protection of the ozone layer.

(UNEP/OzL.Pro.11/10, Decision XI/11).

The Twelfth Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;

2. to note with regret that 21 Parties out of the 175 that should have reported data for 1998 have not reported to date;

3. to note further with regret that 59 Parties out of the 175 that should have reported data for 1999 by 30 September 2000 have not reported to date;

4. to remind all Parties to comply with the provisions of Article 7 and 9 of the Protocol as well as relevant

decisions of the Parties on data and information reporting.
(UNEP/OzL.Pro.12/9, Decision XII/6).

The Thirteenth Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;
2. to note with regret that 16 Parties out of the 170 that should have reported data for 1999 have not reported to date;
3. to strongly urge Parties to report consumption and production data as soon as the figures are available, rather than waiting until the final deadline of 30 September;
4. to urge Parties that have not already done so to report baseline data for 1986,1989 and 1991 or the best possible estimates of such data where actual data are not available;
5. to advise Parties that request changes in reported baseline data for the base years to present their requests before the Implementation Committee which will in turn work with the Ozone Secretariat and the Executive Committee to confirm the justification for the changes and present them to the Meeting of the Parties for approval.

(UNEP/OzL.Pro.13/10, Decision XIII/15).

The Fourteenth Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;
2. to note with regret that 49 Parties out of the 180 that should have reported data for 2001 have not reported to date;
3. to note further that lack of timely data reporting by Parties impedes effective monitoring and assessment of Parties' compliance with their obligations under the Montreal Protocol;
4. to strongly urge Parties to report consumption and production data as soon as the figures are available, rather than waiting until the final deadline of 30 September every year;
5. to remind Parties operating under Article 5(1) that for the purposes of reporting data, under the provisions of Article 2A paragraph 2 and Article 5 paragraph 8 bis (a) the current control period extends from 1 July 2001 to 31 December 2002.

(UNEP/OzL.Pro.14/9, Decision XIV/13).

The Fourteenth Meeting of the Parties also decided:

1. to note that several Parties operating under Article 5 have not reported data for one or more of the base years (1986, 1989 or 1991) for one or more groups of controlled substances, as required by Article 7 paragraphs 1 and 2 of the Montreal Protocol;
2. to note that Article 7 paragraphs (1) and (2) of the Protocol provides for Parties to submit best possible estimates of the data referred to in those provisions where actual data is not available;
3. to request that the Secretariat should communicate with the Parties referred to in paragraph 1 above and offer assistance in reporting such estimates in accordance with Article 7 paragraphs (1) and (2).

(UNEP/OzL.Pro.14/9, Decision XIV/15).

The Fifteenth Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;
2. to note with appreciation that 160 Parties out of the 183 that should have reported data for 2002 have now done so, but that 23 have still not reported to date;
3. to note also that lack of timely data reporting by Parties impedes effective monitoring and assessment of Parties' compliance with their obligations under the Montreal Protocol;
4. to urge Parties strongly to report consumption and production data as soon as the figures are available, rather than waiting until the final deadline of 30 September every year.

(UNEP/OzL.Pro.15/9, Decision XV/15).

The Fifteenth Meeting of the Parties also decided:

1. to recall decision XIV/15 of the Fourteenth Meeting of the Parties, on non compliance with data reporting requirements for the purpose of reporting data for base years;

2. to note with appreciation that several Parties have submitted data for their base years following the adoption of decision XIV/15;
3. to note, however, that the following Parties operating under Article 5, paragraph 1, have still not reported data for one or more of the base years (1986, 1989 or 1991) for one or more groups of controlled substances, as required by Article 7, paragraphs 1 and 2 of the Montreal Protocol: Cape Verde, China, Guinea-Bissau, Haiti, Honduras, Liberia, Libyan Arab Jamahiriya, Mali, Marshall Islands, Micronesia (Federated States of), Nauru, Nigeria, São Tomé and Príncipe, Somalia and Suriname;
4. to note further that Article 7, paragraphs 1 and 2 of the Protocol provide for Parties to submit best possible estimates of the data referred to in those provisions where actual data are not available;
5. to request the relevant Implementing Agencies of the Multilateral Fund to make available to the Secretariat any data they have obtained which may be relevant;
6. to request the Secretariat to communicate with the Parties referred to in paragraph 3 above and to offer assistance in reporting such estimates in accordance with Article 7, paragraphs 1 and 2.

(UNEP/OzL.Pro.15/9, Decision XV/16).

The Sixteenth Meeting of the Parties decided:

1. to note that the implementation of the Protocol by those Parties that have reported data is satisfactory;
2. to note with appreciation that 175 Parties out of the 184 that should have reported data for 2003 have now done so, but that the following Parties have still not reported to date: Botswana, Lesotho, Liberia, Micronesia (Federated States of), Nauru, Russian Federation, Solomon Islands, Turkmenistan and Tuvalu;
3. to note further that the Federated States of Micronesia has also still not reported data for 2001 and 2002;
4. to note that this places those Parties in non-compliance with their data reporting obligations under the Montreal Protocol and to urge them, where appropriate, to work closely with the Implementing Agencies to report the required data to the Secretariat as a matter of urgency, and to request the Implementation Committee to review the situation of those Parties at its next meeting;
5. to note also that lack of timely data reporting by Parties impedes effective monitoring and assessment of Parties' compliance with their obligations under the Montreal Protocol;
6. to recall decision XV/15, which encouraged the Parties to forward data on consumption and production to the Secretariat as soon as the figures were available, and preferably by 30 June each year, in order to enable the Implementation Committee to make recommendations in good time before the Meeting of the Parties;
7. to note further with appreciation that 92 Parties out of the 184 that could have reported data by 30 June 2004 succeeded in meeting that deadline;
8. to note also that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund in assisting Parties operating under paragraph 1 of Article 5 to comply with the control measures of the Montreal Protocol;
9. to encourage Parties to continue to report consumption and production data as soon as the figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.16/17, Decision XVI/17).

The Seventeenth Meeting of the Parties decided:

1. to note with appreciation that 185 Parties out of the 188 that should have reported data for 2004 have done so, and that 114 of those Parties reported their data by 30 June 2005 in conformance with decision XV/15;
2. to note, however, that the following Parties have still not reported 2004 data: Cook Islands, Mozambique, Nauru;
3. to note that this places the Parties listed in paragraph 2 in non-compliance with their data reporting obligations under the Montreal Protocol until such time as the Secretariat receives their outstanding data;
4. to urge the Parties listed in paragraph 2, where appropriate, to work closely with the implementing agencies to report the required data to the Secretariat as a matter of urgency, and to request the Implementation Committee to review the situation of those Parties at its next meeting;
5. to note also that lack of timely data reporting by Parties impedes effective monitoring and assessment of

Parties' compliance with their obligations under the Montreal Protocol;

6. to note further that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting Parties operating under paragraph 1 of Article 5 of the Protocol to comply with the Protocol's control measures;
7. to encourage Parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.17/11, Decision XVII/20).

The Nineteenth Meeting of the Parties decided:

1. to urge the Parties that have yet to report their data for 2006 to report the required data to the Secretariat in accordance with the provisions of Article 7 of the Montreal Protocol, working closely with the implementing agencies where appropriate;
2. to request the Implementation Committee to review at its next meeting the situation of those Parties that have not submitted their 2006 data by that time;
3. to encourage Parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.19/7, Decision XIX/25).

The Twentieth Meeting of the Parties decided:

1. to note with appreciation that 189 Parties out of the 191 which should have reported data for 2007 have now done so and that 75 of those Parties reported their data by 30 June 2008 in conformity with decision XV/15;
2. to note, however, that the following Parties have to date not reported data for 2007: Solomon Islands and Tonga;
3. to note that their non-reporting of data places the Parties named above in non compliance with their data-reporting obligations under the Montreal Protocol until such time as the Secretariat receives their outstanding data;
4. to urge those Parties, where appropriate, to work closely with the implementing agencies to report the required data to the Secretariat as a matter of urgency and to request the Implementation Committee to review the situation of those Parties at its next meeting;
5. to note that a lack of timely data reporting by Parties impedes effective monitoring and assessment of Parties' compliance with their obligations under the Montreal Protocol by the Implementation Committee and the Meeting of the Parties;
6. to note further that reporting data by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting Parties operating under paragraph 1 of Article 5 to comply with the control measures of the Montreal Protocol;
7. to encourage Parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.20/9, Decision XX/12).

The Twenty-second Meeting of the Parties decided to encourage parties to continue to report consumption and production data as son as figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.22/9, Decision XXII/14).

The Twenty-third Meeting of the Parties decided:

1. To urge the parties listed in the present decision to work closely with the implementing agencies, where appropriate, and report the required data to the Secretariat as a matter of urgency;
2. To request the Implementation Committee to review the situation of those parties at its forty-eighth meeting;
3. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.23/11, Decision XXIII/22).

The Twenty-fourth Meeting of the Parties decided:

1. To urge the parties [Mali and Sao Tome and Principe] listed in the present decision, where appropriate, to

work closely with the implementing agencies to report the required data to the Secretariat as a matter of urgency;

2. To request the Implementation Committee to review the situation of those parties at its fiftieth meeting;

3. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15;

(UNEP/OzL.Pro.24/10, Decision XXIV/13).

The Twenty-fifth Meeting of the Parties decided:

1. To urge the parties [Eritrea, South Sudan and Yemen] listed in the present decision, where appropriate, to work closely with the implementing agencies to report the required data to the Secretariat as a matter of urgency;

2. To request the Implementation Committee to review the situation of those parties at its fifty-second meeting;

3. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15;

(UNEP/OzL.Pro.25/9, Decision XXV/14).

The Twenty-sixth Meeting of the Parties decided:

1. To urge the Central African Republic, where appropriate, to work closely with the implementing agencies to report the required data to the Secretariat as a matter of urgency;

2. To request the Implementation Committee to review the situation of the Central African Republic at its fifty-fourth meeting;

3. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15;

(UNEP/OzL.Conv.10/7-UNEP/OzL.Pro.26/10, Decision XXVI/12).

The Twenty-seventh Meeting of the Parties decided:

1. To urge the Democratic Republic of Congo, Dominica, Somalia and Yemen, where appropriate, to work closely with the implementing agencies to report the required data to the Secretariat as a matter of urgency;

2. To request the Implementation Committee to review the situation of those parties listed in paragraph 1 above at its fifty-sixth meeting;

3. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15;

(UNEP/OzL.Pro.27/13, Decision XXVII/9).

The Twenty-eighth Meeting of the Parties decided:

1. To note that 195 parties of the 197 that should have reported data for 2015 have done so and that 169 of those parties reported their data by 30 September 2016 as required under paragraph 3 of Article 7 of the Montreal Protocol;

2. To note with appreciation that 119 of those parties reported their data by 30 June 2016 in accordance with decision XV/15 and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol (Article 5 parties) to comply with the Protocol's control measures;

3. To note further that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;

4. To note with concern that two parties, namely, Iceland and Yemen, have not reported their 2015 data as required under Article 7 of the Montreal Protocol and that this places them in non compliance with their data reporting obligations under the Montreal Protocol until such time as the Secretariat receives their outstanding data;

5. To urge the parties listed in the preceding paragraph to report the required data to the Secretariat as quickly as possible and to urge the one Article 5 party, namely, Yemen, where appropriate, to work closely with the

implementing agencies in reporting the required data;

6. To request the Implementation Committee to review the situation of the parties listed in the preceding paragraphs at its fifty-eighth meeting;
7. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.28/11, Decision XXVIII/9).

The Twenty-ninth Meeting of the Parties decided:

1. To note with appreciation that all 197 parties that should have reported data for 2016 have done so and that 180 of those parties had reported their data by 30 September 2017 as required under paragraph 3 of Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer;
2. To note with appreciation that 130 of those parties had reported their data by 30 June 2017 in accordance with decision XV/15 and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the control measures under the Protocol;
3. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15;

(UNEP/OzL.Pro.29/8, Decision XXIX/13)

The Thirtieth Meeting of the Parties decided:

1. To note that 195 parties of the 197 parties that should have reported data for 2017 have done so, and that 190 of those parties had reported their data by 30 September 2018 as required under paragraph 3 of Article 7 of the Montreal Protocol;
2. To note with appreciation that 133 of those parties had reported their data by 30 June 2018, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the Protocol's control measures;
3. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;
4. To note with concern that two parties, namely the Central African Republic and Yemen, have not reported their 2017 data as required under Article 7 of the Montreal Protocol, and that this places them in non-compliance with their data reporting obligations under the Montreal Protocol until such time as the Secretariat receives their outstanding data;
5. To urge the Central African Republic and Yemen to report the required data to the Secretariat as quickly as possible;
6. To request the Implementation Committee to review the situation of those parties at its sixty second meeting;
7. To encourage parties to continue to report consumption and production data as soon as figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.30/11, Decision XXX/13).

The Thirty-first Meeting of the Parties decided:

1. To note that all parties which should have reported data to date under Article 7 of the Montreal Protocol have done so, and that 169 of those parties had reported their 2018 data by 30 September 2019, as required under paragraph 3 of Article 7 of the Montreal Protocol;
2. To note with appreciation that 103 of those parties had reported their data by 30 June 2019, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol and the Meeting of the Parties;
3. To encourage parties to continue to report consumption and production data as soon as figures are available,

and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.31/9/Add.1, Decision XXXI/9).

The Thirty-third Meeting of the Parties decided:

1. To note that 197 parties of the 198 parties that should have reported data for 2020 have done so, and that 181 of those parties had reported their data by 30 September 2021 as required under paragraph 3 of Article 7 of the Montreal Protocol;
2. To note with appreciation that 115 of those parties had reported their data by 30 June 2021, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the Protocol's control measures;
3. To note with concern that one party, namely Cuba, has not reported its 2020 data as required under paragraph 3 of Article 7 of the Montreal Protocol, and that this places it in non-compliance with its data reporting obligations under the Protocol until such time as the Secretariat receives its outstanding data;
4. To also note with concern that two parties not operating under paragraph 1 of Article 5 of the Montreal Protocol, namely the Russian Federation and San Marino, that are parties to the Kigali Amendment and should have submitted baseline data for Annex F substances (hydrofluorocarbons) for the years 2011 to 2013 have not done so as required under paragraph 2 of Article 7 of the Montreal Protocol, and that this places them in non-compliance with their data reporting obligations under the Protocol until such time as the Secretariat receives their outstanding baseline data for hydrofluorocarbons;
5. To further note with concern that one party operating under paragraph 1 of Article 5 of the Protocol, namely Cuba, which is party to the Kigali Amendment and should have submitted baseline data for Annex F substances (hydrofluorocarbons) for the year 2020 has not done so as required under paragraph 2 of Article 7 of the Montreal Protocol, and that this places it in non-compliance with its data reporting obligations under the Protocol until such time as the Secretariat receives its outstanding baseline data for 2020 for hydrofluorocarbons;
6. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;
7. To urge the parties listed in paragraphs 3, 4 and 5 of the present decision to report the required data to the Secretariat as soon as possible;
8. To request the Implementation Committee to review the situation of those parties at its sixty-eighth meeting;
9. To encourage parties to continue to report consumption and production data as soon as the figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.33/8/Add.1, Decision XXXIII/7).

The Thirty-fourth Meeting of the Parties decided:

1. To note that 194 parties of the 198 parties that should have reported data for 2021 have done so, and that 175 of those parties had reported their data by 30 September 2022 as required under paragraph 3 of Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer;

2. To note with appreciation that 117 of those parties had reported their data by 30 June 2022, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the Protocol's control measures;

3. To note with concern that four parties, namely Afghanistan, the Democratic Republic of the Congo, Israel and the Russian Federation, have not reported their 2021 data as required under paragraph 3 of Article 7 of the Montreal Protocol, and that this places them in non-compliance with their data reporting obligations under the Montreal Protocol until such time as the Secretariat receives their outstanding data;

4. To also note with concern that one party not operating under paragraph 1 of Article 5, namely San Marino, that

is a party to the Kigali Amendment and should have submitted baseline data for Annex F substances (HFCs) for the years 2011 to 2013, has not done so as required under paragraph 2 of Article 7 of the Montreal Protocol, and that this places it in non-compliance with its data reporting obligations under the Montreal Protocol until such time as the Secretariat receives its outstanding baseline data for HFCs;

5. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;

6. To urge the parties listed in paragraphs 3 and 4 of the present decision to report the required data to the Secretariat as soon as possible;

7. To request the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol to review the situation of those parties at its seventieth meeting;

8. To encourage parties to continue to report consumption and production data as soon as the figures are available, and preferably by 30 June each year, as agreed in decision XV/15.

(UNEP/OzL.Pro.34/9/Add.1, Decision XXXIV/14).

The Thirty-fifth Meeting of the Parties decided:

1. To note that 195 parties of the 198 parties that should have reported data for 2022 have done so, and that 175 of those parties had reported their data by 30 September 2023 as required under paragraph 3 of Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer;

2. To note with appreciation that 109 of the reporting parties had submitted their data for 2022 by 30 June 2023, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the Protocol's control measures;

3. To note with concern that three parties, namely the Democratic People's Republic of Korea, Kazakhstan and San Marino, have not reported their data for 2022 as required under paragraph 3 of Article 7 of the Montreal Protocol, and that this places them in non-compliance with their data reporting obligations under the Protocol until such time as the Secretariat receives their outstanding data;

4. To also note with concern that one party operating under paragraph 1 of Article 5 of the Montreal Protocol, namely Eritrea, that has ratified the Kigali Amendment to the Montreal Protocol and should have submitted baseline data for Annex F substances (hydrofluorocarbons) for the years 2020 to 2022, has not done so as required under paragraph 2 of Article 7 of the Montreal Protocol, and that this places the party in non-compliance with its data reporting obligations under the Montreal Protocol until such time as the Secretariat receives its outstanding baseline data for hydrofluorocarbons;

5. To further note with concern that one party not operating under paragraph 1 of Article 5, namely San Marino, that ratified the Kigali Amendment to the Montreal Protocol in 2020 and is thus required to submit data on Annex F substances (hydrofluorocarbons) for 2021, submitted data for other controlled substances but not for hydrofluorocarbons, as required under paragraph 3 of Article 7 of the Montreal Protocol, and that this places the party in non-compliance with its data reporting obligations under the Montreal Protocol until such time as the Secretariat receives its outstanding data for hydrofluorocarbons;

6. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;

7. To urge the parties listed in paragraphs 3, 4 and 5 above to report the required data to the Secretariat as soon as possible;

8. To request the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol to review the situation of those parties at its seventy-second meeting;

9. To encourage parties to continue to report consumption and production data as soon as the figures are available, and preferably by 30 June each year, as encouraged in decision XV/15 and subsequent decisions on the matter.

(UNEP/OzL.Pro.35/12/Add.1, Decision XXXV/17).

The Thirty-sixth Meeting of the Parties decided:

1. To note that 192 parties of the 198 parties that should have reported data for 2023 have done so, and that 163

of those parties had reported their data by 30 September 2024 as required under paragraph 3 of Article 7 of the Montreal Protocol on Substances that Deplete the Ozone Layer;

2. To note with appreciation that 80 of the reporting parties had submitted their data for 2023 by 30 June 2024, in accordance with the encouragement in decision XV/15, and that reporting by 30 June each year greatly facilitates the work of the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in assisting parties operating under paragraph 1 of Article 5 of the Protocol to comply with the Protocol's control measures;

3. To note with concern that six parties, namely Azerbaijan, the Democratic People's Republic of Korea, Djibouti, Iceland, Mali and San Marino, have not reported their data for 2023 as required under paragraph 3 of Article 7 of the Montreal Protocol, and that this places them in non-compliance with their data reporting obligations under the Protocol until such time as the Secretariat receives their outstanding data;

4. To also note with concern that one party operating under paragraph 1 of Article 5, namely Djibouti, that has ratified the Kigali Amendment to the Montreal Protocol and should have submitted baseline data for Annex F substances (hydrofluorocarbons) for the years 2020 to 2022 has not done so as required under paragraph 2 of Article 7 of the Montreal Protocol, and that this places the party in non-compliance with its data reporting obligations under the Montreal Protocol until such time as the Secretariat receives its outstanding baseline data for hydrofluorocarbons;

5. To further note with concern that two parties operating under paragraph 1 of Article 5, namely Côte d'Ivoire and Guinea, that have ratified the Kigali Amendment to the Montreal Protocol and are thus required to submit data on Annex F substances (hydrofluorocarbons) for 2023 submitted data for other controlled substances but not for hydrofluorocarbons, as required under paragraph 3 of Article 7 of the Montreal Protocol, and that this places those parties in non-compliance with their data reporting obligations under the Montreal Protocol until such time as the Secretariat receives their outstanding data for hydrofluorocarbons;

6. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;

7. To urge the parties listed in paragraphs 3, 4 and 5 above to report the required data to the Secretariat as soon as possible;

8. To request the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol to review the situation of those parties at its seventy-fourth meeting;

9. To encourage parties to continue to report consumption and production data as soon as the figures are available, and preferably by 30 June each year, as encouraged in decision XV/15 and subsequent decisions on the matter.

(UNEP/OzL.Pro.36/9/Add.1, Decision XXXVI/13).

Non-compliance with data reporting for the purpose of establishing baselines under Article 5

The Fourteenth Meeting of the Parties decided:

1. to note that the following Parties have not reported data for one or more of the years which are required for the establishment of baselines for Annex A and E to the Protocol, as provided for by Article 5, paragraphs 3 and 8 ter (d):
   (a) for Annex A: Angola, Cambodia, Cape Verde, Djibouti, Haiti, Liberia, Micronesia (Federated States of), Nauru, Palau, Rwanda, Sao Tome and Principe, Sierra Leone, Somalia, Suriname and Vanuatu;
   (b) for Annex E: Cape Verde, Democratic Republic of Congo, Djibouti, Micronesia (Federated States of), Haiti, Democratic People's Republic of Korea, Liberia, Maldives, Nigeria, Palau, Saint Kitts and Nevis, Sao Tome and Principe, Sierra Leone, Somalia, Vanuatu;
2. to note that this places these Parties in non-compliance with their data reporting obligations under the Montreal Protocol;
3. to stress that compliance by these Parties with the Montreal Protocol cannot be determined without knowledge of this data;
4. to note that 18 out of 20 of these Parties are receiving assistance with data collection from the Multilateral Fund through the Implementing Agencies;

4. to urge these Parties to work closely with the Agencies concerned to report the required data to the Secretariat as a matter of urgency, and to request the Implementation Committee to review the situation of these Parties with respect to data reporting at its next meeting.

(UNEP/OzL.Pro.14/9, Decision XIV/16).

The Fifteenth Meeting of the Parties decided:

1. to note with appreciation the fact that, as requested under decision XIV/16 of the Fourteenth Meeting of the Parties, the following Parties have reported baseline data, thus bringing themselves into compliance with the provisions of Article 5, paragraphs 3 and 8 ter (d): Angola, Cambodia, Democratic People's Republic of Korea, Democratic Republic of the Congo, Haiti, Maldives, Micronesia (Federated States of), Nauru, Nigeria, Palau, Rwanda, Saint Kitts and Nevis, Sierra Leone, Suriname and Vanuatu;
2. to note nevertheless that the following Parties have still not reported data for one or more of the years which are required for the establishment of baselines for Annexes A, B and E to the Protocol, as provided for by Article 5, paragraphs 3 and 8 ter (d):
   (a) for Annex A: Cape Verde, Djibouti, Guinea-Bissau, São Tomé and Príncipe, and Somalia;
   (b) for Annex B: Cape Verde, Djibouti, Grenada, Guinea-Bissau, Liberia, São Tomé and Príncipe, and Somalia;
   (c) for Annex E: Cape Verde, Djibouti, Guinea-Bissau, India, Liberia, Mali, São Tomé and Príncipe, and Somalia;
3. to note that that places those Parties in non-compliance with their data reporting obligations under the Montreal Protocol;
4. to stress that compliance by those Parties with the Montreal Protocol cannot be determined without knowledge of those data;
5. to note that all those Parties are receiving assistance with data collection from the Multilateral Fund through the Implementing Agencies;
6. to note also that some of those Parties have only recently ratified various amendments to the Montreal Protocol and consequently may be in the process of collecting the required baseline data;
7. to urge those Parties to work closely with the Implementing Agencies concerned to report the required data to the Secretariat as a matter of urgency, and to request the Implementation Committee to review the situation of those Parties with respect to data reporting at its next meeting.

(UNEP/OzL.Pro.15/9, Decision XV/18).

The Seventeenth Meeting of the Parties decided:

1. to note that Serbia and Montenegro has not reported data for one or more of the years which are required for the establishment of baselines for Annexes B and E to the Protocol, as provided for by Article 5, paragraphs 3 and 8 ter (d);
2. to note that that places Serbia and Montenegro in non-compliance with its data reporting obligations under the Montreal Protocol until such time as the Secretariat receives the outstanding data;
3. to stress that compliance by Serbia and Montenegro with the Montreal Protocol cannot be determined without knowledge of those data;
4. to acknowledge that Serbia and Montenegro has only recently ratified the amendments to the Protocol to which the data-reporting obligation relates, but also to note that its has received assistance with data collection from the Multilateral Fund for the Implementation of the Montreal Protocol through the Fund's implementing agencies;
5. to urge Serbia and Montenegro to work together with the United Nations Environment Programme under the Compliance Assistance Programme and with other implementing agencies of the Multilateral Fund to report data as a matter of urgency to the Secretariat and to request the Implementation Committee to review the situation of Serbia and Montenegro with respect to data reporting at its next meeting.

(UNEP/OzL.Pro.17/11, Decision XVII/22).

Non-compliance with data reporting by Parties temporarily classified as Article 5

The Fourteenth Meeting of the Parties decided:

1. to note that the following Parties, temporarily classified as operating under Article 5, have not reported any consumption or production data to the Secretariat: Cambodia, Cape Verde, Djibouti, Liberia, Micronesia (Federated States of), Nauru, Palau, Rwanda, Sao Tome and Principe, Sierra Leone, Somalia, Suriname and Vanuatu;
2. to note that this situation places these Parties in non-compliance with their data reporting obligations under the Montreal Protocol;
3. to acknowledge that many of these Parties have only recently ratified the Montreal Protocol but also to note that twelve of them have received assistance with data collection from the Multilateral Fund through the Implementing Agencies;
4. to urge these Parties to work together with the United Nations Environment Programme under the Compliance Assistance Programme and with other Implementing Agencies of the Multilateral Fund to report data as quickly as possible to the Secretariat, and to request the Implementation Committee to review the situation of these Parties with respect to data reporting at its next meeting.

(UNEP/OzL.Pro.14/9, Decision XIV/14).

The Fifteenth Meeting of the Parties decided:

1. to note with appreciation the fact that, as requested under decision XIV/14 of the Fourteenth Meeting of the Parties, the following Parties have reported data, thus bringing themselves into compliance with the provisions of Article 7 and enabling their temporary classification as Article 5 Parties to be removed: Cambodia, Nauru, Rwanda, Sierra Leone and Suriname;
2. to note nevertheless that the following Parties, temporarily classified as operating under Article 5, have still not reported any consumption or production data to the Secretariat: Cape Verde, Guinea-Bissau, São Tomé and Príncipe and Somalia;
3. to note that that situation places those Parties in non-compliance with their data reporting obligations under the Montreal Protocol;
4. to acknowledge that many of those Parties have only recently ratified the Montreal Protocol but also to note that all of them have received assistance with data collection from the Multilateral Fund through the Implementing Agencies;
5. to urge those Parties to work together with the United Nations Environment Programme under the Compliance Assistance Programme and with other Implementing Agencies of the Multilateral Fund to report data as quickly as possible to the Secretariat, and to request the Implementation Committee to review the situation of those Parties with respect to data reporting at its next meeting.

(UNEP/OzL.Pro.15/9, Decision XV/17).

Non-compliance with data-reporting by Parties recently ratifying the Montreal Protocol

The Sixteenth Meeting of the Parties decided:

1. to note that the following Parties, temporarily classified as operating under paragraph 1 of Article 5, have not reported any consumption or production data to the Secretariat: Afghanistan and Cook Islands;
2. to note that that situation places those Parties in non-compliance with their data reporting obligations under the Montreal Protocol;
3. to acknowledge that all those Parties have only recently ratified the Montreal Protocol and also to note that Cook Islands has not yet received assistance with data collection from the Multilateral Fund through the Implementing Agencies;
4. to urge those Parties to work together with the United Nations Environment Programme under the compliance assistance programme and with other Implementing Agencies of the Multilateral Fund to report data as quickly as possible to the Secretariat, and to request the Implementation Committee to review the situation of those Parties with respect to data reporting at its next meeting.

(UNEP/OzL.Pro.16/17, Decision XVI/18).

The Seventeenth Meeting of the Parties decided:

1. to note that Eritrea, temporarily classified as operating under paragraph 1 of Article 5 of the Montreal Protocol, has not reported any consumption or production data to the Secretariat;
2. to note that that situation places that Party in non-compliance with its data reporting obligations under the Montreal Protocol until such time as the Secretariat receives the outstanding data;
3. to acknowledge that Eritrea has only recently ratified the Montreal Protocol and has received approval for data collection assistance from the Multilateral Fund for the Implementation of the Montreal Protocol through the latter's implementing agencies;
4. to note with appreciation Eritrea's commitment to submit its outstanding data no later than the first quarter of 2006;
5. to urge Eritrea to work together with the United Nations Environment Programme under the Compliance Assistance Programme and with other implementing agencies of the Multilateral Fund to report data as quickly as possible to the Secretariat and to request the Implementation Committee to review the situation of that Party with respect to data-reporting at its next meeting.

(UNEP/OzL.Pro.17/11, Decision XVII/21).

The Twentieth Meeting of the Parties decided:

1. to urge all Parties to assist Iraq, as a new Party, in controlling the export of ozone depleting substances and ozone-depleting substance based technologies into Iraq through the control of trade as per the provisions of the Montreal Protocol and relevant decisions of the Meeting of the Parties and to encourage Iraq to participate in an informal prior informed consent process as referred to in decision XIX/12;
2. to request the Executive Committee when considering project proposals for Iraq to phase out ozone-depleting substances to take into account the special situation of this new Party, which may face difficulties in the phase out of ozone-depleting substances in annexes A and B, and to be flexible in considering the project proposals, without prejudice to the possible review of the non-compliance situation of Iraq by the Parties;
3. to request the implementing agencies to provide appropriate assistance to Iraq in developing its country programme and national phase out plans and in continuing its efforts to report to the Secretariat, as soon as possible, data on consumption of ozone-depleting substances in accordance with the Montreal Protocol requirements;
4. to request the Implementation Committee to report on the compliance situation of Iraq to the Open-ended Working Group preceding the Twenty-Third Meeting of the Parties, during which the present decision will be reconsidered.

(UNEP/OzL.Pro.20/9, Decision XX/15).

The Twenty-first Meeting of the Parties decided:

1. To urge all Parties to assist Timor-Leste, as a new Party, in controlling the export of ozone-depleting substances and ozone-depleting substance-based technologies into Timor-Leste through the control of trade as per the provisions of the Montreal Protocol and relevant decisions of the Meeting of the Parties and to encourage Timor-Leste to participate in an informal prior informed consent process as referred to in decision XIX/12;
2. To request the Executive Committee when considering project proposals for Timor-Leste to phase out ozone-depleting substances to take into account the special situation of this new Party, which may face difficulties in the phase out of ozone-depleting substances in annexes A, B and E, and to be flexible in considering the project proposals, without prejudice to the possible review of the non-compliance situation of Timor-Leste by the Parties;
3. To request the implementing agencies to provide appropriate assistance to Timor-Leste in institutional strengthening, capacity building, data collection, development of its country programme and national phase-out plans and in continuing its efforts to report to the Secretariat next year, data on consumption of ozone-depleting substances in accordance with the Montreal Protocol requirements;
4. To request the Implementation Committee to consider difficulties faced by Timor-Leste when addressing any possible non-compliance situations faced by Timor-Leste after the date on which the Protocol and its Amendments enter into force for Timor-Leste and report on the compliance situation of Timor-Leste to the Open-ended Working Group preceding the Twenty-Fourth Meeting of the Parties, during which the present decision will be reconsidered.

(UNEP/OzL.Pro.21/8, Decision XXI/24).

Potential non-compliance with the freeze on CFC consumption

The Thirteenth Meeting of the Parties decided:

1. to note that, in accordance with decision X/29 of the 10th Meeting of the Parties, the Implementation Committee requested the Secretariat to write to the following Article 5 Parties, Bangladesh, Chad, Comoros, Dominican Republic, Honduras, Kenya, Mongolia, Morocco, Niger, Nigeria, Oman, Papua New Guinea, Paraguay, Samoa and Solomon Islands, that had reported data on CFC consumption for either the year 1999 and/or 2000 that was above their individual baselines;
2. that since none of the above Parties has responded to the request from the Secretariat for data for the control period from 1 July 1999 to 30 June 2000, all are presumed to be in non-compliance with the control measures under the Protocol in the absence of further clarification;
3. to closely monitor the progress of these Parties with regard to the phase-out of ozone-depleting substances. To the degree that these Parties are working towards and meeting the specific Protocol control measures, they should continue to be treated in the same manner as Parties in good standing. In this regard, these Parties should continue to receive international assistance to enable them to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution these Parties, in accordance with item B of the indicative list of measures, that in the event that any country fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that importing Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro/13/10, Decision XIII/16).

The Fourteenth Meeting of the Parties decided:

1. to note that, pursuant to decision X/29 of the Tenth Meeting of the Parties, the Implementation Committee requested the Secretariat to write to those Parties operating under Article 5 that had reported data on CFC consumption for either the year 2000 and/or 2001 that was above their individual baselines;
2. to note that Guatemala, Malta, Pakistan and Papua New Guinea have failed to report data for the control period from 1 July 2000 to 30 June 2001, and have reported annual data for either 2000 or 2001 which is above their baseline. In the absence of further clarification, these Parties are presumed to be in non-compliance with the control measures under the Protocol;
3. to urge these Parties to report data for the control period from 1 July 2000 to 30 June 2001 as a matter of urgency;
4. to closely monitor the progress of these Parties with regard to the phase-out of ozone-depleting substances. To the degree that these Parties are working towards and meeting the specific Protocol control measures, they should continue to be treated in the same manner as Parties in good standing. In this regard, these Parties should continue to receive international assistance to enable them to meet their commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution these Parties, in accordance with item B of the indicative list of measures, that in the event that any Party fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/17).

Potential non-compliance with consumption of Annex A, group I by Article 5 Parties for the control period 1 July 2001-31 December 2002

The Fifteenth Meeting of the Parties decided:

1. To note that the following Article 5 Parties have failed to report data for consumption of Annex A, group I, substances for the control period from 1 July 2001 to 31 December 2002, and have reported annual data for 2001 and/or 2002 which are above their requirement for a freeze in consumption: Dominica, Haiti, Saint Kitts and Nevis, and Sierra Leone. In the absence of further clarification, those Parties are presumed to be

in non-compliance with the control measures under the Protocol;

2. to urge those Parties to report data for Annex A, group I, substances for the control period from 1 July 2001 to 31 December 2002 as a matter of urgency and, in addition, for consideration at the next meeting of the Implementation Committee, explanations for their excess consumption, together with plans of action with time-specific benchmarks to ensure a prompt return to compliance. Those Parties may wish to consider including in their plans of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS-using equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
3. to note also, however, the special situation of Haiti, which has only recently ratified the Montreal Protocol and begun to implement its refrigerant management plan;
4. to monitor closely the progress of those Parties with regard to the phase-out of CFCs. to the degree that those Parties are working towards and meeting the specific Protocol control measures, they should continue to be treated in the same manner as Parties in good standing. In that regard, those Parties should continue to receive international assistance to enable them to meet their commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution those Parties, in accordance with item B of the indicative list of measures, that in the event that any Party fails to return to compliance in a timely manner, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non compliance.

(UNEP/OzL.Pro.15/9, Decision XV/21).

Potential non-compliance with consumption of Annex A, Group II by Article 5 Parties in 2002

The Fifteenth Meeting of the Parties decided:

1. to note that the following Article 5 Parties have reported annual data for Annex A, group II substances for 2002 which are above their requirement for a freeze in consumption: Malaysia, Mexico, Nigeria and Pakistan. In the absence of further clarification, those Parties are presumed to be in non-compliance with the control measures under the Protocol;
2. to request those Parties to submit to the Implementation Committee, as a matter of urgency, for consideration at its next meeting, an explanation for their excess consumption, together with plans of action with time-specific benchmarks to ensure a prompt return to compliance. Those Parties may wish to consider including in their plans of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule; policy and regulatory instruments that will ensure progress in achieving the phase-out; and work with Implementing Agencies to identify alternatives to Annex A, group II, substances;
3. to monitor closely the progress of those Parties with regard to the phase-out of halons. to the degree that those Parties are working towards and meeting the specific Protocol control measures, they should continue to be treated in the same manner as Parties in good standing. In that regard, those Parties should continue to receive international assistance to enable them to meet their commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution those Parties, in accordance with item B of the indicative list of measures, that in the event that any Party fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of halons (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non compliance.

(UNEP/OzL.Pro.15/9, Decision XV/22).

Potential non-compliance with consumption of the ozone-depleting substance in Annex E by Article 5 Parties in 2002

The Fifteenth Meeting of the Parties decided:

1. to note that the following Article 5 Parties have reported annual data for the controlled substance in Annex E for 2002 which are above their requirement for a freeze in consumption: Barbados, Egypt, Paraguay,

Philippines, Saint Kitts and Nevis, and Thailand. In the absence of further clarification, those Parties are presumed to be in non-compliance with the control measures under the Protocol;

2. to request those Parties to submit to the Implementation Committee as a matter of urgency, for consideration at its next meeting, an explanation for their excess consumption, together with plans of action with time-specific benchmarks to ensure a prompt return to compliance. Those Parties may wish to consider including in their plans of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, and policy and regulatory instruments that will ensure progress in achieving the phase-out;

3. to monitor closely the progress of those Parties with regard to the phase-out of methyl bromide. To the degree that those Parties are working towards and meeting the specific Protocol control measures, they should continue to be treated in the same manner as Parties in good standing. In that regard, those Parties should continue to receive international assistance to enable them to meet their commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution those Parties, in accordance with item B of the indicative list of measures, that in the event that any Party fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non compliance.

(UNEP/OzL.Pro.15/9, Decision XV/25).

Potential non-compliance with consumption of the controlled substance in Annex B, group III in 2003

The Sixteenth Meeting of the Parties decided:

1. to note that the following Parties operating under paragraph 1 of Article 5 of the Montreal Protocol have reported annual data for the controlled substance in Annex B, group III (methyl chloroform), for 2003 which is above their requirement for a freeze in consumption: Bangladesh, Bosnia and Herzegovina, Ecuador and the Islamic Republic of Iran. In the absence of further clarification, those Parties are presumed to be in non-compliance with the control measures under the Protocol. To note, however, that the Islamic Republic of Iran has submitted a request for a change in its baseline data for methyl chloroform that will be considered by the Implementation Committee at its next meeting;

2. to request those Parties, as a matter of urgency, to submit to the Implementation Committee for consideration at its next meeting explanations for their excess consumption, together with plans of action with time-specific benchmarks to ensure a prompt return to compliance. Those Parties may wish to consider including in their plans of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, and policy and regulatory instruments that will ensure progress in achieving the phase-out;

3. to monitor closely the progress of those Parties with regard to the phase-out of methyl chloroform. To the degree that those Parties are working towards and meeting the specific Protocol control measures, they should continue to be treated in the same manner as Parties in good standing. In that regard, those Parties should continue to receive international assistance to enable them to meet their commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions those Parties, in accordance with item B of the indicative list of measures, that, in the event that any Party fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl chloroform (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.16/17, Decision XVI/20).

Non-compliance issues related to specific Article 5 Parties

The Thirteenth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Argentina, Belize, Cameroon, Ethiopia and Peru (Annex VI.4).

(UNEP/OzL.Pro/13/10, Decisions XIII/21, XIII/22, XIII/23, XIII/24, XIII/25).

The Fourteenth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Albania,

Armenia, Bahamas, Bangladesh, Belize, Bolivia, Bosnia and Herzegovina, Cameroon, Ethiopia, Libya, Maldives, Namibia, Nepal, Nigeria, Saint Vincent and the Grenadines (Annex VI.4).
(UNEP/OzL.Pro/14/9, Decisions XIV/18, XIV/19, XIV/20, XIV/21, XIV/22, XIV/23, XIV/24, XIV/25 XIV/26 XIV/27 XIV/29, XIV/30, XIV/31, XIV/32, XIV/33, XIV/34).

The Fifteenth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Albania, Armenia, Bolivia, Bosnia and Herzegovina, Botswana, Cameroon, Democratic Republic of Congo, Guatemala, Honduras, Libyan Arab Jamahiriya, Maldives, Morocco, Namibia, Nepal, Papua New Guinea, Qatar, Saint Vincent and the Grenadines, Uganda, Uruguay, Vietnam (Annex VI.4).
(UNEP/OzL.Pro.15/9, Decisions XV/23, XV/26, XV/29, XV/30, XV/31, XV/32, XV/33, XV/34, XV/35, XV/36, XV/37, XV/38, XV/39, XV/40, XV/41, XV/42, XV/43, XV/44, XV/45).

The Sixteenth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Chile, Fiji, Guinea-Bissau, Lesotho, Libyan Arab Jamahiriya, Nepal, Oman, Pakistan, Saint Vincent and the Grenadines, Somalia (Annex VI.4).
(UNEP/OzL.Pro.16/17, Decisions XVI/19, XVI/22, XVI/23, XVI/24, XVI/25, XVI/26, XVI/27, XVI/28, XVI/29, XVI/30).

The Seventeenth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Armenia, Bangladesh, Bosnia and Herzegovina, Chile, China, Ecuador, Fiji, Honduras, Kyrgyzstan, Libyan Arab Jamahiriya, Micronesia, Sierra Leone, Uruguay (Annex VI.4).
(UNEP/OzL.Pro.17/11, Decisions XVII/25, XVII/27, XVII/28, XVII/29, XVII/30, XVII/31, XVII/32, XVII/33, XVII/34, XVII/36, XVII/37, XVII/38, XVII/39).

The Eighteenth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Armenia, Democratic Republic of Congo, Dominica, Ecuador, Eritrea, Guatemala, Islamic Republic of Iran, Kenya, Mexico, Pakistan, Paraguay, Serbia (Annex VI.4).
(UNEP/OzL.Pro.18/10, Decisions XVIII/20, XVIII/21, XVIII/22, XVIII/23, XVIII/24, XVIII/26, XVIII/27, XVIII/28, XVIII/30, XVIII/31, XVIII/32, XVIII/33).

The Nineteenth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Islamic Republic of Iran, Paraguay, Saudi Arabia (Annex VI.4).
(UNEP/OzL.Pro.19/7, Decisions XIX/27, XIX/22, XIX/23).

The Twentieth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Ecuador, Solomon Islands and Somalia (Annex VI.4).
(UNEP/OzL.Pro.20/9, Decisions XX/16, XX/18, XX/19).

The Twenty-first Meeting of the Parties decided on compliance issues with the Montreal Protocol by Bangladesh, Bosnia and Herzegovina, the Federated States of Micronesia, Mexico, Saudi Arabia, Solomon Islands, Somalia, Turkmenistan and Vanuatu (Annex VI.4).
(UNEP/OzL.Pro.21/8, Decisions XXI/17, XXI/18, XXI/19, XXI/20, XXI/21,XXI/22,XXI/23,XXI/25 and XXI/26).

The Twenty-second Meeting of the Parties decided:

1. To encourage all parties to assist Haiti by controlling the export of ozone depleting substances and technologies dependent on ozone-depleting substances to Haiti through the control of trade in accordance with decision X/9 and other relevant decisions;
2. To request the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol, when considering project proposals for Haiti, to take into account the special situation of Haiti and the special difficulties that it may pose in respect of the phase-out of ozone depleting substances, including in particular the accelerated phase-out of hydrochlorofluorocarbons, in accordance with the requirements of the Montreal Protocol;
3. To request the implementing agencies to consider providing appropriate assistance to Haiti in the areas of institutional strengthening, capacity-building, data collection and monitoring and control of trade in ozone-depleting substances;
4. Also to request the implementing agencies to consider providing appropriate assistance for the development of a strategy to achieve the reorganization of Haiti's national ozone unit and in the continuation of its efforts to report to the Ozone Secretariat data on consumption of ozone depleting substances in accordance with the requirements of the Montreal Protocol;
5. That recommendations made by the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol are to be considered in the light of the difficulties faced by Haiti as a result of the earthquake;

(UNEP/OzL.Pro.22/9, Decision XXII/12).

The Twenty-second Meeting of the Parties decided on compliance issues with the Montreal Protocol by Singapore, Saudi Arabia, Republic of Korea and Vanuatu (Annex VI.4).

(UNEP/OzL.Pro.22/9, Decisions XXII/13, XXII/15, XXII/16 and XXII/18).

The Twenty-third Meeting of the Parties decided on compliance issues with the Montreal Protocol by Libya, and Yemen. (Annex VI.4).

(UNEP/OzL.Pro.23/11, Decisions XXIII/23 and XXIII/25.).

The Twenty-third Meeting of the Parties decided:

1. To urge all exporting countries to liaise with the Government of Iraq, as feasible, prior to the export of any ozone-depleting substances to Iraq in order to support the local authorities in controlling the import of ozone-depleting substances and combating illegal trade;
2. To note the need for extra security and attention to logistical difficulties in the implementation of phase-out projects in Iraq, including resources adequate to enable implementing agency personnel to operate in the country;
3. To request the implementing agencies to continue to take into account Iraq's special situation and to provide it with appropriate assistance;

(UNEP/OzL.Pro.23/11, Decision XXIII/24).

The Twenty-fourth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Ukraine. (Annex VI.4).

(UNEP/OzL.Pro.24/10, Decision XXIV/18).

The Twenty-fifth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Azerbaijan, France and Kazakhstan. (Annex VI.4).

(UNEP/OzL.Pro.25/9, Decisions XXV/10, XXV/11 and XXV/12).

The Twenty-sixth Meeting of the Parties decided on compliance issues with the Montreal Protocol by the Democratic People's Republic of Korea and Guatemala. (Annex VI.4).

(UNEP/OzL.Pro.25/9, Decisions XXVI/15 and XXVI/16).

The Twenty-seventh Meeting of the Parties decided on compliance issues with the Montreal Protocol by Bosnia and Herzegovina and Libya. (Annex VI.4).

(UNEP/OzL.Pro.27/13, Decisions XXVII/10 and XXVII/11).

The Twenty-eighth Meeting of the Parties decided on compliance issues with the Montreal Protocol by Bosnia and Herzegovina and Libya. (Annex VI.4).

UNEP/OzL.Pro.28/11, Decision XXVIII/11).

ANNEX VI.1: ADJUSTED FUNDING POLICIES OF THE MULTILATERAL FUND

Adjustment of the current funding policy

1. Emphasizing the impact of individual projects largely assisted the Fund in achieving the goal of maximizing the global reduction of ODS in Article 5 countries during the grace period. However, recognizing that all Article 5 countries have to achieve compliance simultaneously, the Executive Committee has now directed that the Fund's goal will have to shift to assisting individual Article 5 countries to implement time-bound compliance targets. This would necessitate an adjustment of the funding policy from emphasizing impact of individual projects to putting greater emphasis on demonstrated relevance of such projects to compliance. The key to the adjustment is the demonstrated relevance to compliance, as distinct from the current practice because, as noted in the strategic planning framework agreed at the last meeting, "Funding must be predicated on a commitment by the country to achieve sustainable, permanent aggregate reductions in consumption and production, as relevant."

2. Demonstrated relevance to compliance is defined as a direct and, if applicable, quantifiable linkage between the funded activities and the specific Montreal Protocol compliance target to be achieved.

Modalities to implement the adjusted funding policy

3. Depending on the preference and readiness of the country concerned, there could be two modalities to implement the adjusted funding policy of ensuring demonstrated relevance to compliance: funding of performance-based group-wide phase-out agreements; and funding of individual projects or stand-alone sector phase-out plans based on national phase-out strategies. These two modalities are discussed in the following paragraphs.

Performance-based substance-wide phase-out agreements

4. Scope: A group-wide phase-out agreement will encompass the total remaining consumption of the concerned controlled substance (e.g.: halons, CFCs) in all its user sectors in the country. Depending on the residual consumption in each of these sectors, the agreement could consist of more than one sector strategy or if the residual consumption is exclusively in the refrigeration servicing sector, which is usually the case towards the completion of the CFC phase-out in the relevant manufacturing sectors, the agreement can be detailed as part of a refrigerant management plan, as elaborated in Decision 31/48.

5. Features: A performance-based group-wide agreement would need to include an action plan and a schedule of implementation of well-coordinated activities of industry and government, a level of funding to be agreed with the Executive Committee, a disbursement schedule by the Multilateral Fund against national ODS reduction targets, and a national management structure to ensure achievement of the objective of the agreements.

6. Advantages: The proposed agreements could offer the best chance to implement the funding policy of demonstrated relevance to compliance because funding would be tied to the compliance targets stipulated in the agreement (either according to the Montreal Protocol or, an accelerated schedule preferred by the country), and disbursement of resources would be tied to performance milestones.

7. The agreements would offer an alternative to the sometimes cumbersome project-by-project submission and approval process. They would also provide an assurance of predictable funding by the Multilateral Fund over a period of time, and would offer the country concerned with a flexibility to use the agreed funds to implement the activities to achieve the goals of the agreement.

8. Experience to date: The modality has been applied to the phase-out of ODS in the production and other sectors and also followed to a certain extent in funding of RMPs in low-volume-consuming countries. The sector agreements approved so far are being implemented as planned, however, most of them were prepared and negotiated on a case-by-case basis over a long period of time.

9. Operational guidelines: It is time to review the need for standard guidelines, based on the experience of the Multilateral Fund, for the preparation, implementation and management of such agreements if this modality will be increasingly adopted.

10. Recommended further steps: It is recommended that in order to enable countries which are ready to adopt the modality of performance-based substance-wide agreement, the Secretariat should work with Article 5 countries, bilateral agencies and the Implementing Agencies to develop draft guidelines for the preparation, implementation and management of performance-based substance-wide phase-out agreements.

Funding of individual projects (including umbrella or terminal phase-out projects) and stand-alone sector phase-out plans based on national compliance strategy

11. The current modality of funding of individual projects can continue to be applied however such funding should be made on condition that the requested project demonstrate its position in the national compliance strategy of phasing out the concerned controlled substance. It is understood that, until national compliance strategies have been developed, nothing will prevent the funding of individual projects or stand-alone sector phase-out plans, in accordance with the guidelines and procedures of the Fund, to the extent that these projects should indicate:

(a) the impact of requested project on the compliance target (for instance, the CFC freeze, the 50 per cent reduction in 2005 and others);

(b) the impact of the on-going projects on the balance of a consumption level of the substance to be determined by the Executive Committee in the discussion on the remaining ODS consumption eligible for funding and the mandatory consumption level for compliance with the specific target;

(c) the impact of the requested project on remaining national consumption of the substance(s) concerned.

12. The same requirement should be applied to a stand-alone sector phase-out plan. These sector phase-out plans may include the total consumption of the concerned controlled substance, a plan of action by both industry and government and agreed funding level and disbursement schedule, as in the case of a substance-wide agreement. Since a controlled substance could be used in more than one sector, it is important to establish the direct impact of such projects on the national compliance targets of the controlled substance concerned.

13. Advantages: Requiring that funding requests be put in the context of a national compliance strategy provides the possibility of determining the impact of funding on the specific compliance target and of assessing the urgency of such requests, and therefore the funding priority. Funding projects according to the national compliance strategy provides the government the possibility of determining the pace of phase-out according to its domestic demand and supply of the controlled substances and readiness of its consumers. The steps that are proposed in the above Table for analyzing the demonstrated relevance of projects to compliance will make up for the inadequacy in the current funding policy which does not link project impact with country compliance. These steps are also being proposed in the draft guidelines for the preparation of country programme updates. The proposed guidelines are intended to assist countries in the preparation of their national compliance strategies.

14. Operational guidelines: The proposed guidelines for the preparation of country programme updates which are being submitted by the Secretariat to the 34th Meeting could serve as operational guidelines for the preparation of national compliance strategies. This was also noted by the Executive Committee which decided that "updates to country programmes and refrigerant management plans would provide Article 5 countries with a mechanism for national phase-out strategies and to encourage Article 5 countries to take advantage of that opportunity" (Decision 33/54).

15. Until these strategies are prepared, it is recommended that the sector context currently included in the project document be revised to provide an analysis of the demonstrated relevance of the requested funding to compliance.
(UNEP/OzL.Pro/ExCom/35/67, Decision 35/56, Annex XVI).

(Supporting document: UNEP/OzL.Pro/ExCom/35/61 and 35/61/Corr.1).

ANNEX VI.3: TERMS OF REFERENCE FOR A FEASIBILITY STUDY ON DEVELOPING A SYSTEM FOR MONITORING THE TRANSBOUNDARY MOVEMENT OF CONTROLLED OZONE-DEPLETING SUBSTANCES BETWEEN THE PARTIES

1. Describe the logistical and regulatory steps which could be applied to the movement of controlled ozone-depleting substances that are produced and exported for final use in another Party.

2. Describe important components that could usefully be included in an effective system for monitoring the transboundary movement of controlled ozone-depleting substances between the country of export or re-export and the country of import.

3. Describe potential actions that could be used by Parties to assist in monitoring the transboundary movement of controlled ozone-depleting substances as they move between Parties.

4. Assess whether any national or international systems already monitor transboundary movement of controlled ozone-depleting substances, including transit trade, and examine information on existing systems for exchanging information on import and export licenses between exporting and importing Parties referred to in the operative paragraph 5, and assess advantages and disadvantages of the systems in question.

5. Examine how tracking mechanisms operate in other international agreements (such as the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade, the Basel Convention on the Control of Trans-boundary Movements of Hazardous Wastes and their Disposal, the Convention on the International Trade in Endangered Species of Wild Flora and Fauna) and how they may or may not be useful models for the development of a system for monitoring the transboundary movement of controlled ozone-depleting substances in a manner that would assist in the efforts to reduce illegal trade. Examine the costs and practical difficulties associated with developing and operating tracking systems under the above mentioned international agreements in order to provide an estimate of the practical difficulties and costs with regard to implementation of a tracking system for controlled ozone-depleting substances. Examine the possibilities for securing synergies with related international agreements in tracking illegal trade. Compare the results of the work described in this paragraph with a similar analysis on the possibilities of using existing international trade statistics databases to monitor transboundary movement of controlled ozone-depleting substances between Parties.

6. Describe sources of information, information requirements (such as: carrier, port of import/export/re-export/transit or transshipment, customs information on ozone-depleting substances being shipped including, inter alia, country of origin and declared producer name, country of final destination and declared purchaser/receiver name) and information flows that would be needed to enable an ozone-depleting substances tracking system to be successful in reducing illegal trade. Describe also the functional governmental or non-governmental units that would need to be involved in providing and monitoring such information, considering both centralized and decentralized systems. Examine relevant international law including international trade rules that may assist in or govern the release of such information including the Trade Related Aspects of Intellectual Property Rights agreements.

7. Communicate with five to seven producing country Governments and producers and international distributors in those countries as well as with five to seven re-exporting country Governments and international distributors in those countries (representing Parties operating under Article 5 and Parties not operating under Article 5) to get their views on the feasibility and cost of obtaining needed information for implementing a transboundary movements monitoring system, and their views on whether such a system would impact on legitimate trade. Also communicate with the Governments and primary distributors in the two or three countries (representing Parties operating under Article 5 and Parties not operating under Article 5) responsible for the majority of the transit and transshipment of controlled ozone-depleting substances to discuss the same matters.

8. Taking into account the above, describe, in an overview fashion, two or three likely workable options for transboundary movements monitoring systems that would be useful in reducing illegal trade in controlled ozone-depleting substances. Those options should describe the steps and actions that could have to be taken at the producer, distributor, governmental and Secretariat level to better monitor transboundary movements of controlled ozone-depleting substances. Finally, estimates of the annual user (Government, exporter/importer, Secretariat) costs and system-wide costs for implementation should be provided for each option.
(UNEP/OzL.Pro.17/11, Decision XVII/16).

ANNEX VI.4: COMPLIANCE WITH THE MONTREAL PROTOCOL BY SOME ARTICLE 5 PARTIES

Non-reporting of 2021 data under Article 7 of the Montreal Protocol by Afghanistan

3. To note with concern that four parties, namely Afghanistan, [the Democratic Republic of the Congo, Israel and the Russian Federation], have not reported their 2021 data as required under paragraph 3 of Article 7 of the Montreal Protocol, and that this places them in non-compliance with their data reporting obligations under the Montreal Protocol until such time as the Secretariat receives their outstanding data;

5. To note that a lack of timely data reporting by parties impedes the effective monitoring and assessment of parties' compliance with their obligations under the Montreal Protocol;

6. To urge the parties listed in paragraphs 3 and 4 of the present decision to report the required data to the Secretariat as soon as possible;

7. To request the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol to review the situation of those parties at its seventieth meeting;

Non-compliance with the Montreal Protocol by Albania

1. to note that Albania ratified the Montreal Protocol on 8 October 1999. The country is classified as a Party operating under Article 5 (1) of the Protocol but has not had its country programme approved by the Executive Committee. However, the Executive Committee has approved $215,060 from the Multilateral Fund to facilitate compliance in accordance with Article 10 of the Protocol;

2. Albania's baseline for Annex A, Group I substances is 41 ODP tonnes. It reported consumption of 62 and 69 ODP tonnes of Annex A, Group I substances in 2000 and 2001 respectively, and consumption of 58 ODP tonnes of Annex A, Group I substances for the consumption freeze control period of 1 July 2000 to 30 June 2001. As a consequence, for the July 2000 to June 2001 control period, Albania was in non-compliance with its obligations under Article 2A of the Montreal Protocol;

3. to request that Albania submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Albania may wish to consider including in this plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;

4. to closely monitor the progress of Albania with regard to the phase-out of ozone-depleting substances. To the degree that Albania is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In this regard, Albania should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Albania, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/18).

Subsequently, the Fifteenth Meeting of the Parties decided:

1. to note that, in accordance with decision XIV/18 of the Fourteenth Meeting of the Parties, Albania was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance;

2. to note with appreciation Albania's submission of its plan of action, and to note further that, under the plan, Albania specifically commits itself:

(a) to reducing CFC consumption from 69 ODP tonnes in 2001 as follows:

(i) to 68.0 ODP tonnes in 2003;
(ii) to 61.2 ODP tonnes in 2004;
(iii) to 36.2 ODP tonnes in 2005;
(iv) to 15.2 ODP tonnes in 2006;

(v) to 6.2 ODP tonnes in 2007;
(vi) to 2.2 ODP tonnes in 2008;
(vii) to phasing out CFC consumption by 1 January 2009, as provided in the plan for reduction and phase out of CFC consumption, save for essential uses that may be authorized by the Parties;

(b) to establishing, by 2004, a system for licensing imports and exports of ODS, including quotas;

(c) to banning, by 2004, imports of ODS-using equipment;

3. to note that the measures listed in paragraph 2 above should enable Albania to return to compliance by 2006, and to urge Albania to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of ozone-depleting substances in Annex A, group I;

4. to monitor closely the progress of Albania with regard to the implementation of its plan of action and the phase-out of CFCs. To the degree that Albania is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Albania should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non compliance. Through the present decision, however, the Parties caution Albania, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is, the subject of non compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/26).

Non-compliance with the Montreal Protocol by Argentina

1. to note that Argentina ratified the Montreal Protocol on 18 September 1990, the London Amendment on 4 December 1992, the Copenhagen Amendment on 20 April 1995, and the Montreal Amendment on 15 February 2001. The country is classified as a Party operating under Article 5 (1) of the Protocol and its country programme was approved by the Executive Committee in 1994. Since approval of the country programme, the Executive Committee has approved $43,287,750 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;

2. Argentina's production baseline for Annex A, Group I substances is 2,745.3 ODP tonnes. Argentina reported production of 3,101 and 3,027 ODP tonnes of Annex A, Group I substances in 1999 and 2000 respectively. Argentina responded to the Ozone Secretariat's request for data regarding the control period 1 July 1999 to 30 June 2000. Argentina reported production of 3,065 ODP tonnes of Annex A, Group I controlled substances for the production freeze control period of 1 July 1999 to 30 June 2000. As a consequence, for the control period 1 July 1999 to 30 June 2000, Argentina was in non-compliance with its obligations under Article 2A of the Montreal Protocol;

3. to request that Argentina submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Argentina may wish to consider including in its plan actions to establish production quotas that will freeze production at baseline levels and support the phase-out;

4. to closely monitor the progress of Argentina with regard to the phase-out of ozone-depleting substances. To the degree that Argentina is working towards and meeting the specific Protocol control measures, Argentina should continue to be treated in the same manner as a Party in good standing. In this regard, Argentina should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Argentina, in accordance with item B of the indicative list of measures, that in the event that the country fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that importing Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro/13/10, Decision XIII/21).

Non-compliance with the Montreal Protocol by Armenia

1. to note that Armenia has reported data on consumption of substances in Annex A to the Montreal Protocol in 2000 above control levels as provided in Article 2 of the Protocol, and therefore that Armenia is in non-compliance with the control measures under Article 2 of the Montreal Protocol in 2000;
2. to note that, in accordance with Decision XIII/18 of the Thirteenth Meeting of the Parties, Armenia was requested to ratify the London Amendment as a precondition for Global Environment Facility (GEF) funding, and that this has not occurred;
3. to further note that since Armenia has applied for reclassification as a developing country operating under Article 5 of the Montreal Protocol, the Implementation Committee should review the situation of Armenia after this matter is resolved.

(UNEP/OzL.Pro.14/9, Decision XIV/31).

Subsequently, the Fifteenth Meeting of the Parties decided:

1. to note that Armenia has now been reclassified as a developing country under decision XIV/2 of the Fourteenth Meeting of the Parties;
2. to note that ratification of the London Amendment is a precondition for Multilateral Fund funding, and therefore to call upon Armenia expeditiously to complete its process of ratification of the London Amendment;
3. to note further, however, that despite the absence of financial assistance, Armenia has reported data showing it to be in compliance with the freeze on CFC consumption, and to congratulate Armenia on its achievements.

(UNEP/OzL.Pro.15/9, Decision XV/27).

The Seventeenth Meeting of the Parties decided:

1. to note that Armenia ratified the Montreal Protocol on 1 October 1999 and is classified as a Party operating under paragraph 1 of Article 5 of the Protocol, and that the Council of the Global Environment Facility has approved $2,090,000 to enable Armenia's compliance;
2. to note further that Armenia has reported annual consumption for the controlled substance in Annex E (methyl bromide) for 2004 of 1.020 ODP tonnes, which exceeds the Party's maximum allowable consumption level of zero ODP tonnes for that controlled substance for that year, and that Armenia is therefore in non-compliance with the control measures for methyl bromide under the Protocol;
3. to request Armenia, as a matter of urgency, to submit to the Implementation Committee for consideration at its next meeting a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Armenia may wish to consider including in its plan of action the establishment of import quotas to support the phase-out schedule, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
4. to monitor closely the progress of Armenia with regard to the phase-out of the controlled substance in Annex E (methyl bromide). To the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Armenia should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Armenia, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of the controlled substance in Annex E (methyl bromide) that is the substance that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/25).

The Eighteenth Meeting of the Parties decided:

1. to note that Armenia ratified the Montreal Protocol on 1 October 1999 and the London and Copenhagen Amendments to the Protocol on 26 November 2003 and is classified as a Party operating under paragraph 1 of Article 5 of the Protocol;

2. to note also that the Council of the Global Environment Facility has approved $2,090,000 to enable Armenia's compliance with the Protocol;
3. to note further that Armenia has reported annual consumption for the Annex E controlled substance (methyl bromide) for 2004 of 1.020 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of zero ODP tonnes for that controlled substance for that year, and that Armenia is therefore in non-compliance with the control measures for methyl bromide under the Protocol;
4. to note with appreciation Armenia's submission of a plan of action to ensure its prompt return to compliance with the Protocol's methyl bromide control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Armenia specifically commits itself:
   (a) to maintain methyl bromide consumption at no more than zero ODP-tonnes from 2007, save for critical uses that may be authorized by the Parties after 1 January 2015;
   (b) to introduce by 1 July 2007 a system for licensing the import and export of ozone depleting substances that includes import quotas;
5. to note that Armenia has reported methyl bromide consumption for 2005 that demonstrates its return to compliance in that year and to congratulate the Party on that achievement, but also to note the Party's concern that, until the measures contained in subparagraph 4 (b) of the present decision come into force, the Party cannot be confident of its ability to sustain its return to compliance, and therefore to urge Armenia to work with the relevant implementing agencies to implement the remainder of the plan of action to sustain its phase-out of consumption of methyl bromide;
6. to monitor closely the progress of Armenia with regard to the implementation of its plan of action and the phase-out of methyl bromide. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Armenia should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Armenia, in accordance with item B of the indicative list of measures, that in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/20).

Non-compliance with the Montreal Protocol by Bahamas

1. to note that Bahamas ratified the Montreal Protocol, the London Amendment and the Copenhagen Amendment on 4 May 1993. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 1996. Since approval of the country programme, the Executive Committee has approved $658,487 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. Bahamas' baseline for Annex A, Group I substances is 65 ODP tonnes. It reported consumption of 66 ODP tonnes of Annex A, Group I substances in 2000 and consumption of 87 ODP tonnes of Annex A, Group I substances for the consumption freeze control period of 1 July 2000 to 30 June 2001. As a consequence, for the July 2000 to June 2001 control period, Bahamas was in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to request that Bahamas submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Bahamas may wish to consider including in this plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
4. to closely monitor the progress of Bahamas with regard to the phase-out of ozone-depleting substances. To the degree that Bahamas is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In this regard, Bahamas should continue to receive international assistance to enable it to meet these commitments in accordance with item

A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Bahamas, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/19).

Non-compliance with the Montreal Protocol by Bangladesh

1. to note that, in accordance with Decision XIII/16 of the Thirteenth Meeting of the Parties, the Implementation Committee requested the Secretariat to write to Bangladesh since it had reported data on CFC consumption for either the year 1999 and/or 2000 that was above its baseline, and was therefore in a state of potential non-compliance;
2. to further note that Bangladesh's baseline for Annex A, Group I substances is 580 ODP tonnes. It reported consumption of 805 ODP tonnes of Annex A, Group I substances in 2000, and consumption of 740 ODP tonnes of Annex A, Group I substances for the consumption freeze control period of 1 July 2000 to 30 June 2001. As a consequence, for the July 2000 to June 2001 control period, Bangladesh was in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to note, however, that the information provided to the Implementation Committee by both Bangladesh and UNDP shows that Bangladesh is expected to return to compliance in the control period 1 July 2001-31 December 2002;
4. to closely monitor the progress of Bangladesh with regard to the phase-out of ozone-depleting substances. To the degree that Bangladesh is working towards and meeting the specific Protocol control measures, Bangladesh should continue to be treated in the same manner as a Party in good standing. In this regard, Bangladesh should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Bangladesh, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/29).

The Seventeenth Meeting of the Parties decided:

1. to note that Bangladesh ratified the Montreal Protocol on 2 August 1990, the London Amendment on 18 March 1994, the Copenhagen Amendment on 27 November 2000 and the Montreal Amendment on 27 July 2001 and is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in September 1994. The Executive Committee has approved $1,852,164 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note also that Bangladesh's baseline for the controlled substance in Annex B, group III (methyl chloroform), is 0.8667 ODP tonnes. As the Party reported consumption of 0.892 ODP tonnes of methyl chloroform in 2003, it was in non-compliance with its obligations under Article 2E of the Montreal Protocol;
3. to note with appreciation Bangladesh's submission of a plan of action to ensure a prompt return to compliance with the Protocol's methyl chloroform control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Bangladesh specifically commits itself:
   (a) to maintain methyl chloroform consumption at no more than the 2004 level of 0.550 ODP tonnes from 2005 until 2009, and then to reduce methyl chloroform consumption as follows:
      (i) to 0.2600 ODP tonnes in 2010;
      (ii) to zero ODP tonnes in 2015, as required under the Montreal Protocol, save for essential uses that

may be authorized by the Parties after that date;

(b) to monitor its existing system for licensing imports and exports of ozone-depleting substances, which includes import quotas;

4. to note that the measures listed in paragraph 3 above have already enabled Bangladesh to return to compliance in 2004, to congratulate the country on that progress and to urge it to work with the relevant implementing agencies to implement the remainder of the plan of action and to phase out consumption of the controlled substance in Annex B, group III;

5. to monitor closely the progress of Bangladesh with regard to the implementation of its plan of action and the phase-out of methyl chloroform. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Bangladesh should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Bangladesh, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl chloroform that is the substance that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/27).

The Twenty-first Meeting of the Parties decided:

1. That Bangladesh reported annual consumption for the controlled substances in Annex A, group I (chlorofluorocarbons), of 154.9 ODP-tonnes for 2007 and 158.3 ODP-tonnes for 2008, which exceeds the Party's maximum allowable consumption of 87.2 ODP-tonnes for those controlled substances for those years, and that the Party is therefore in non-compliance with the control measures for those substances under the Protocol for those years;

2. To note with appreciation Bangladesh's submission of a plan of action to ensure its prompt return to compliance with the Protocol's chlorofluorocarbon control measures under which, without prejudice to the operation of the financial mechanism of the Protocol, Bangladesh specifically commits itself:

   (a) To reducing chlorofluorocarbon consumption to no greater than:

      (i) 140 ODP-tonnes in 2009;

      (ii) Zero ODP-tonnes in 2010, save for essential uses that may be authorized by the Parties;

   (b) To monitoring its system for licensing the import and export of ozone-depleting substances, including import quotas;

3. To urge Bangladesh to work with the relevant implementing agencies to implement its plan of action to phase out consumption of chlorofluorocarbons;

4. To monitor closely the progress of Bangladesh with regard to the implementation of its plan of action and the phase-out of chlorofluorocarbons. To the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Bangladesh should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance;

5. To caution Bangladesh, in accordance with item B of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance, that in the event that it fails to return to compliance the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of chlorofluorocarbons that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.21/8, Decision XXI/17).

Non-compliance with the Montreal Protocol by Belize

1. to note that Belize ratified the Montreal Protocol, London Amendment, and Copenhagen Amendment on 9

January 1998. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 1999. Since approval of the country programme, the Executive Committee has approved $327,841 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;

2. Belize's consumption baseline for Annex A, Group I substances is 16 ODP tonnes. Belize reported consumption of 25 and 9 ODP tonnes of Annex A, Group I substances in 1999 and 2000 respectively. Belize responded to the Ozone Secretariat's request for data for the control period 1 July 1999 to 30 June 2000. Belize reported consumption of 20 ODP tonnes of Annex A, Group I controlled substances for the consumption freeze control period of 1 July 1999 to 30 June 2000. As a consequence, for the control period 1 July 1999 to 30 June 2000, Belize was in non-compliance with its obligations under Article 2A of the Montreal Protocol;

3. to request that Belize submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Belize may wish to consider including in its plan actions to establish import quotas to freeze imports at baseline levels and support the phase-out schedule, to establish a ban on imports of ODS equipment, and to put in place policy and regulatory instruments that ensure progress in achieving the phase-out;

4. to closely monitor the progress of Belize with regard to the phase-out of ozone-depleting substances. To the degree that Belize is working towards and meeting the specific Protocol control measures, Belize should continue to be treated in the same manner as a Party in good standing. In this regard, Belize should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Belize, in accordance with item B of the indicative list of measures, that in the event that the country fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that importing Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro/13/10, Decision XIII/22).

Subsequently, the Fourteenth Meeting of the Parties decided:

1. to note that, in accordance with Decision XIII/22 of the Thirteenth Meeting of the Parties, Belize was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance;

2. Belize's baseline for Annex A, Group I substances is 24.4 ODP tonnes, having been modified in accordance with Decision XIV/27. It reported consumption of 16 ODP tonnes in 2000 and 28 ODP tonnes in 2001, and consumption of 40 ODP tonnes for the control period 1 July 2000 to 30 June 2001, placing Belize clearly in non-compliance with its obligations under Article 2A of the Montreal Protocol;

3. to express concern about Belize's non-compliance but to note that it has submitted a plan of action with time-specific benchmarks to ensure a prompt return to compliance. It is with that understanding that the Parties note, after reviewing the plan of action submitted by Belize, that Belize specifically commits itself:

   (a) to reduce CFC consumption from the current level of 28 ODP tonnes in 2001 as follows:

      (i) to 24.4 ODP tonnes in 2003;
      (ii) to 20 ODP tonnes in 2004;
      (iii) to 12.2 ODP tonnes in 2005;
      (iv) to 10 ODP tonnes in 2006;
      (v) to 3.66 ODP tonnes in 2007; and
      (vi) to phase-out CFC consumption by 1 January 2008 as provided under the Montreal Protocol save for essential uses that might be authorized by the Parties;

   (b) to establish, by 1 January 2003, a system for licensing imports and exports of ODS;

   (c) to ban, by 1 January 2004, imports of ODS-using equipment;

4. to note that the measures listed in paragraph 3 above should enable Belize to return to compliance by 2003. In this regard, the Parties urge Belize to work with relevant Implementing Agencies to phase-out

consumption of ozone-depleting substances in Annex A Group I;

5. to closely monitor the progress of Belize with regard to the phase-out of ozone-depleting substances. To the degree that Belize is working towards and meeting the specific commitments noted above in paragraph 3, Belize should continue to be treated in the same manner as a Party in good standing. In this regard, Belize should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Belize, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/33).

Non-compliance with the Montreal Protocol by Bolivia

1. to note that Bolivia ratified the Montreal Protocol, the London Amendment and the Copenhagen Amendment on 3 October 1994, and the Montreal Amendment on 12 April 1999. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 1995. Since approval of the country programme, the Executive Committee has approved $1,428,767 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. Bolivia's baseline for Annex A, Group I substances is 76 ODP tonnes. It reported consumption of 79 and 77 ODP tonnes of Annex A, Group I substances in 2000 and 2001 respectively, and consumption of 78 ODP tonnes of Annex A, Group I substances for the consumption freeze control period of 1 July 2000 to 30 June 2001. As a consequence, for the July 2000 to June 2001 control period, Bolivia was in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to request that Bolivia submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Bolivia may wish to consider including in this plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
3. to closely monitor the progress of Bolivia with regard to the phase-out of ozone-depleting substances. To the degree that Bolivia is working towards and meeting the specific Protocol control measures, Bolivia should continue to be treated in the same manner as a Party in good standing. In this regard, Bolivia should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Bolivia, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/20).

Subsequently, the Fifteenth Meeting of the Parties decided:

1. to note that, in accordance with decision XIV/20 of the Fourteenth Meeting of the Parties, Bolivia was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance;
2. to note with appreciation Bolivia's submission of its plan of action, and to note further that under the plan, Bolivia specifically commits itself:
   (a) to reducing CFC consumption from 65.5 ODP tonnes in 2002 as follows:
      (i) to 63.6 ODP tonnes in 2003;
      (ii) to 47.6 ODP tonnes in 2004;

(iii) to 37.84 ODP tonnes in 2005;
(iv) to 11.35 ODP tonnes in 2007;
(v) to phasing out CFC consumption by 1 January 2010, as required under the Montreal Protocol, save for essential uses that may be authorized by the Parties;

(b) to monitoring its system for licensing imports and exports of ODS, including quotas, introduced in 2003;

(c) to monitoring its ban on imports of ODS-using equipment, introduced in 1997 for CFC-12 and extended to other ODS in 2003;

3. to note that the measures listed in paragraph 2 above have already enabled Bolivia to return to compliance, to congratulate Bolivia on that progress, and to urge Bolivia to work with the relevant Implementing Agencies to implement the remainder of the plan of action and phase out consumption of ozone-depleting substances in Annex A, group I;

4. to monitor closely the progress of Bolivia with regard to the implementation of its plan of action and the phase-out of CFCs. To the degree that Bolivia is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Bolivia should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Bolivia, in accordance with item B of the indicative list of measures, that in the event that it fails to remain in compliance the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/29).

Non-compliance with the Montreal Protocol by Bosnia and Herzegovina

1. to note that Bosnia and Herzegovina ratified the Montreal Protocol on 6 March 1992. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 1999. Since approval of the country programme, the Executive Committee has approved $1,308,472 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;

2. Bosnia and Herzegovina's baseline for Annex A, Group I substances is 24 ODP tonnes. It reported consumption of 176 and 200 ODP tonnes of Annex A, Group I substances in 2000 and 2001 respectively. As a consequence, Bosnia and Herzegovina was in non-compliance with its obligations under Article 2A of the Montreal Protocol;

3. to request that Bosnia and Herzegovina submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Bosnia and Herzegovina may wish to consider including in this plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;

4. to closely monitor the progress of Bosnia and Herzegovina with regard to the phase-out of ozone-depleting substances. To the degree that Bosnia and Herzegovina is working towards and meeting the specific Protocol control measures, Bosnia and Herzegovina should continue to be treated in the same manner as a Party in good standing. In this regard, Bosnia and Herzegovina should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Bosnia and Herzegovina, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/21).

Subsequently, the Fifteenth Meeting of the Parties decided:

1. to note that, in accordance with decision XIV/21 of the Fourteenth Meeting of the Parties, Bosnia and Herzegovina was requested to submit to the Implementation Committee a plan of action, with time-specific benchmarks to ensure a prompt return to compliance;
2. to note with appreciation Bosnia and Herzegovina's submission of its plan of action, and to note further that, under the plan, Bosnia and Herzegovina specifically commits itself:
   (a) to reducing CFC consumption from 243.6 ODP tonnes in 2002 as follows:
      (i) to 235.3 ODP tonnes in 2003;
      (ii) to 167 ODP tonnes in 2004;
      (iii) to 102.1 ODP tonnes in 2005;
      (iv) to 33 ODP tonnes in 2006;
      (v) to 3 ODP tonnes in 2007;
      (vi) to phasing out CFC consumption by 1 January 2008, as provided in the plan for reduction and phase-out of CFC consumption, save for essential uses that may be authorized by the Parties;
   (b) to reducing methyl bromide consumption from 11.8 ODP tonnes in 2002, as follows:
      (i) to 5.61 ODP tonnes in 2005 and in 2006;
      (ii) to phasing out methyl bromide consumption by 1 January 2007, as provided in the plan for reduction and phase-out of methyl bromide consumption, save for critical uses that may be authorized by the Parties;
   (c) to establishing, by 2004, a system for licensing imports and exports of ODS, including quotas;
   (d) to banning, by 2006, imports of ODS-using equipment;
3. to note that the measures listed in paragraph 2 above should enable Bosnia and Herzegovina to return to compliance by 2008, and to urge Bosnia and Herzegovina to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of ozone-depleting substances in Annex A, group I and Annex E;
4. to monitor closely the progress of Bosnia and Herzegovina with regard to the implementation of its plan of action and the phase-out of CFCs and methyl bromide. To the degree that Bosnia and Herzegovina is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Bosnia and Herzegovina should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non compliance. Through the present decision, however, the Parties caution Bosnia and Herzegovina, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs and methyl bromide (that is, the subjects of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/30).

The Seventeenth Meeting of the Parties decided:

1. to note that Bosnia and Herzegovina ratified the Montreal Protocol on 1 September 1993 and the London, Copenhagen and Montreal amendments on 11 August 2003, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee in March 1999. The Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol has approved $2,900,771 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note also that Bosnia and Herzegovina's baseline for the controlled substance in Annex B, group III (methyl chloroform), is 1.548 ODP tonnes. As the Party reported consumption of 3.600 ODP tonnes of methyl chloroform in 2003 and consumption of 2.44 ODP tonnes of methyl chloroform in 2004, it was in non-compliance with its obligations under Article 2E of the Montreal Protocol;
3. to note with appreciation Bosnia and Herzegovina's submission of a plan of action to ensure a prompt return to compliance with the Protocol's methyl chloroform control measures, and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Bosnia and Herzegovina

specifically commits itself:

(a) to reduce methyl chloroform consumption from 2.44 ODP tonnes in 2004 as follows:

(i) to 1.3 ODP tonnes in 2005;

(ii) to zero ODP tonnes in 2006, save for essential uses that may be authorized by the Parties after 1 January 2015;

(b) to establish a system for licensing imports and exports of ozone-depleting substances, which includes import quotas, by the end of January 2006;

4. to note that the measures listed in paragraph 3 above should enable Bosnia and Herzegovina to return to compliance in 2006 and to urge Bosnia and Herzegovina to work with the relevant implementing agencies to implement its plan of action and phase out consumption of the controlled substance in Annex B, group III;

5. to monitor closely the progress of Bosnia and Herzegovina with regard to the implementation of its plan of action and the phase-out of methyl chloroform. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Bosnia and Herzegovina should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non compliance. Through the present decision, however, the Parties caution Bosnia and Herzegovina, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl chloroform that is the substance that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/28).

The Twenty-first Meeting of the Parties decided:

1. That Bosnia and Herzegovina reported annual consumption for the controlled substances in Annex A, group I (chlorofluorocarbons), of 22.1 ODP-tonnes for 2007 and 8.8 ODP-tonnes for 2008, which exceeds the Party's maximum allowable consumption of 3.6 ODP-tonnes for those controlled substances for those years, and that the Party is therefore in non compliance with the control measures for those substances under the Protocol for those years;

2. To note with appreciation Bosnia and Herzegovina's submission of a plan of action to ensure its prompt return to compliance with the Protocol's chlorofluorocarbon control measures under which, without prejudice to the operation of the financial mechanism of the Protocol, Bosnia and Herzegovina specifically commits itself:

(a) To reducing chlorofluorocarbon consumption to no greater than:

(i) Zero ODP-tonnes in 2009;

(ii) Zero ODP-tonnes in 2010, save for essential uses that may be authorized by the Parties;

(b) To monitoring its system for licensing the import and export of ozone-depleting substances, including import quotas;

3. To urge Bosnia and Herzegovina to work with the relevant implementing agencies to implement its plan of action to phase out consumption of chlorofluorocarbons;

4. To monitor closely the progress of Bosnia and Herzegovina with regard to the implementation of its plan of action and the phase-out of chlorofluorocarbons. To the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Bosnia and Herzegovina should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance;

5. To caution Bosnia and Herzegovina in accordance with item B of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance, that, in the event that it fails to return to compliance, the Parties will consider measures consistent with item C of the indicative list of measures.

Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of chlorofluorocarbons that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.21/8, Decision XXI/18)

The Twenty-seventh Meeting of the Parties decided:

1. That Bosnia and Herzegovina reported annual consumption for the controlled substances in Annex C, group I (hydrochlorofluorocarbons), for 2013 of 5.13 ODP-tonnes, which exceeds the party's maximum allowable consumption of 4.7 ODP-tonnes for those controlled substances for that year, and was therefore in non-compliance with the consumption control measures under the Protocol for hydrochlorofluorocarbons;

2. To note with appreciation the submission by Bosnia and Herzegovina of a plan of action to ensure its return to compliance with the Protocol's hydrochlorofluorocarbon consumption control measures in 2014 and subsequent years;

3. To note also with appreciation that the party submitted an explanation for its non-compliance, which confirmed that it had introduced a comprehensive set of measures necessary to ensure future compliance;

4. That the party's submission of ozone-depleting-substance data for 2014 showed that Bosnia and Herzegovina was in compliance with its hydrochlorofluorocarbon consumption obligations under the control measures of the Protocol;

5. That no further action is necessary in view of the party's return to compliance with the hydrochlorofluorocarbon phase out in 2014 and its implementation of regulatory and administrative measures to ensure compliance with the Protocol's control measures for hydrochlorofluorocarbons for subsequent years;

6. To monitor closely the party's progress with regard to the implementation of its obligations under the Protocol;

(UNEP/OzL.Pro.27/13, Decision XXVII/10).

Non-compliance with the Montreal Protocol by Botswana

1. to note that Botswana ratified the Montreal Protocol on 4 December 1991, and the London and Copenhagen Amendments on 13 May 1997. Botswana is classified as a Party operating under Article 5, paragraph 1, of the Protocol and had its country programme approved by the Executive Committee in 1994. Since approval of the country programme, the Executive Committee has approved $438,340 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;

2. to note also that Botswana's baseline for the controlled substance in Annex E is 0.1 ODP tonnes. It reported consumption of 0.6 ODP tonnes of the controlled substance in Annex E in 2002. As a consequence, for 2002 Botswana was in non-compliance with its obligations under Article 2H of the Montreal Protocol;

3. to note with appreciation Botswana's submission of its plan of action to ensure a prompt return to compliance with the control measures for the controlled substance in Annex E, and to note further that, under the plan, without prejudice to the operation of the financial mechanism of the Montreal Protocol, Botswana specifically commits itself:

   (a) to reducing methyl bromide consumption from 0.6 ODP tonnes in 2002 as follows:

      (i) to 0.4 ODP tonnes in 2003;
      (ii) to 0.2 ODP tonnes in 2004;
      (iii) to phasing out methyl bromide consumption by 1 January 2005, as provided by the plan for reduction and phase-out of methyl bromide consumption, save for critical uses that may be authorized by the Parties;

   (b) to establishing a system for licensing imports and exports of methyl bromide, including quotas;

4. to note that the measures listed in paragraph 3 above should enable Botswana to return to compliance by 2005, and to urge Botswana to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of the controlled substance in Annex E;

5. to monitor closely the progress of Botswana with regard to the phase out of methyl bromide. To the degree that Botswana is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Botswana should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the

indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Botswana, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/31).

Non-compliance with the Montreal Protocol by Cameroon

1. to note that Cameroon ratified the Montreal Protocol on 30 August 1989, the London Amendment on 8 June 1992, and the Copenhagen Amendment on 25 June 1996. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 1993. Since approval of the country programme, the Executive Committee has approved $5,640,174 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. Cameroon's baseline for Annex A, Group I substances is 256.9 ODP tonnes. Cameroon reported consumption of 362 ODP tonnes of Annex A, Group I substances in 1999. Cameroon responded to the Ozone Secretariat's request for data for the control period 1 July 1999 to 30 June 2000. Cameroon reported consumption of 368.7 ODP tonnes of Annex A, Group I controlled substances for the consumption freeze control period of 1 July 1999 to 30 June 2000. As a consequence, for the control period 1 July 1999 to 30 June 2000, Cameroon was in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to request that Cameroon submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Cameroon may wish to consider including in its plan actions to establish import quotas to freeze imports at baseline levels and support the phase-out schedule, to establish a ban on imports of ODS equipment, and to put in place policy and regulatory instruments that ensure progress in achieving the phase-out;
4. to closely monitor the progress of Cameroon with regard to the phase-out of ozone-depleting substances. To the degree that Cameroon is working towards and meeting the specific Protocol control measures, Cameroon should continue to be treated in the same manner as a Party in good standing. In this regard, Cameroon should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Cameroon, in accordance with item B of the indicative list of measures, that in the event that the country fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that importing Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro/13/10, Decision XIII/23).

Subsequently, the Fourteenth Meeting of the Parties decided:

1. to note that, in accordance with Decision XIII/23 of the Thirteenth Meeting of the Parties, Cameroon was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance;
2. to further note that Cameroon's baseline for Annex A, Group I substances is 257 ODP tonnes. It reported consumption of 369 ODP tonnes in 2000 and 364 ODP tonnes in 2001, placing Cameroon clearly in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to note with regret that Cameroon has not fulfilled the requirements of Decision XIII/23 and to request that it should provide a plan of action to the Secretariat as soon as possible, and in time for it to be considered by the Implementation Committee at its next meeting in December 2003, in order for the Committee to monitor its progress towards compliance;
4. to further request the United Nations Environment Programme to submit to the Implementation Committee a progress report on implementation of its policy and technical assistance project currently under way in Cameroon, and for the United Nations Industrial Development Organization to submit to the Implementation Committee confirmation of the completion of its two foam projects, which might have significantly reduced

consumption of ozone-depleting substances in Annex A Group I;

5. to stress to the Government of Cameroon its obligations under the Montreal Protocol to phase-out the consumption of ozone-depleting substances, and the accompanying need for it to establish and maintain an effective governmental policy and institutional framework for the purposes of implementing and monitoring the national phase-out strategy;

6. to closely monitor the progress of Cameroon with regard to the phase-out of ozone-depleting substances. To the degree that Cameroon is working towards and meeting the specific Protocol control measures, Cameroon should continue to be treated in the same manner as a Party in good standing. In this regard, Cameroon should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Cameroon, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/32).

Subsequently, the Fifteenth Meeting of the Parties decided:

1. to note that, in accordance with decision XIV/32 of the Fourteenth Meeting of the Parties, Cameroon was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance with regard to its consumption of Annex A, group I substances;

2. to note also that Cameroon has reported data for 2002 suggesting that it may now be in compliance with the freeze on CFC consumption, but that it has still not submitted data for the control period 1 July 2001-31 December 2002;

3. to urge Cameroon, accordingly, to report data for the control period 1 July 2001–31 December 2002 as a matter of urgency;

4. to note further that Cameroon's baseline for Annex A, group II substances is 2.38 ODP tonnes. It reported consumption of 9 ODP tonnes for Annex A, group II substances in 2002. As a consequence, for 2002 Cameroon was in non-compliance with its obligations under Article 2B of the Montreal Protocol;

5. to note with appreciation Cameroon's submission of its plan of action to ensure a prompt return to compliance with the control measures for Annex A, group II substances, and to note also that, under the plan, Cameroon specifically commits itself:

   (a) to reducing halon consumption from 9 ODP tonnes in 2002 as follows:

      (i) to 3 ODP tonnes in 2003;
      (ii) to 2.38 ODP tonnes in 2004;
      (iii) to phasing out halon consumption by 1 January 2010, as required under the Montreal Protocol, save for essential uses that may be authorized by the Parties;

   (b) to monitoring its existing system for licensing imports and exports of ODS, including quotas introduced in 2003;

   (c) to monitoring its existing ban on imports of ODS-using equipment, introduced in 1996;

6. to note that the measures listed in paragraph 5 above should enable Cameroon to return to compliance, with respect to consumption of halons, by 2005, and to urge Cameroon to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of ozone-depleting substances in Annex A, group II;

7. to note also that Cameroon's baseline for the controlled substance in Annex E is 18.09 ODP tonnes. It reported consumption of 25.38 ODP tonnes of the controlled substance in Annex E in 2002. As a consequence, for 2002 Cameroon was in non-compliance with its obligations under Article 2H of the Montreal Protocol;

8. to request Cameroon to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance with respect to consumption of the controlled substance

in Annex E;

9. to monitor closely the progress of Cameroon with regard to the implementation of its plan of action and the phase-out of halons and methyl bromide. To the degree that Cameroon is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Cameroon should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Cameroon, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of halons and methyl bromide (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/32).

Non-compliance with the Montreal Protocol by Chile

1. to note that Chile has reported annual data for the controlled substances in Annex B, group I (other fully halogenated CFCs), Annex B, group III (methyl chloroform), and Annex E (methyl bromide) for 2003 which are above its requirements for those substances. As a consequence, for 2003, Chile was in non-compliance with its obligations under Articles 2C, 2E and 2H of the Montreal Protocol;
2. to request Chile, as a matter of urgency, to submit a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Chile may wish to consider including in its plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
3. to monitor closely the progress of Chile with regard to the phase-out of other CFCs, methyl chloroform and methyl bromide. to the degree that Chile is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as Parties in good standing. In that regard, Chile should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Chile, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of other CFCs, methyl chloroform and methyl bromide (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.16/17, Decision XVI/22).

The Seventeenth Meeting of the Parties decided:

1. to note that Chile ratified the Montreal Protocol on 26 March 1990, the London Amendment on 9 April 1992, the Copenhagen Amendment on 14 January 1994, the Montreal Amendment on 17 June 1998 and the Beijing Amendment on 3 May 2000, and is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in June 1992. The Executive Committee has approved $10,388,451 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note also that Chile's baseline for the controlled substance in Annex B, group III (methyl chloroform), is 6.445 ODP tonnes and its baseline for the controlled substance in Annex E (methyl bromide) is 212.510 ODP tonnes. As the Party reported consumption of 6.967 ODP tonnes of methyl chloroform and 274.302 ODP tonnes of methyl bromide in 2003 and consumption of 3.605 ODP tonnes of methyl chloroform and consumption of 262.776 ODP tonnes of methyl bromide in 2004, it was in non compliance with its obligations under Article 2E of the Montreal Protocol in 2003 and under Article 2H of the Montreal Protocol in 2003 and 2004;
3. to note with appreciation Chile's submission of a plan of action to ensure a prompt return to compliance with the Protocol's methyl chloroform and methyl bromide control measures, and to note that under the

plan, without prejudice to the operation of the financial mechanism of the Protocol, Chile specifically commits itself:

(a) to maintain methyl chloroform consumption at no more than 4.512 ODP tonnes from 2005 until 2009, and then to reduce methyl chloroform consumption as follows:

(i) to 1.934 ODP tonnes in 2010;
(ii) to zero ODP tonnes by 1 January 2015, save for essential uses that may be authorized by the Parties after that date;

(b) to reduce methyl bromide consumption from 262.776 ODP tonnes in 2004 as follows:

(i) to 170 ODP tonnes in 2005;
(ii) to zero ODP tonnes by 1 January 2015, save for critical uses that may be authorized by the Parties after that date;

(c) to introduce an enhanced ozone-depleting substances licensing and import quota system from the moment the bill is approved in Parliament and to ensure compliance in the interim period by adopting regulatory measures that the Government is entitled to apply;

4. to note that Chile has reported data for 2004 that indicate that it has already returned to compliance with the Protocol's methyl chloroform control measures, to congratulate Chile on that progress, and to urge the Party to work with the relevant implementing agencies to implement the remainder of the plan of action to achieve total phase-out of methyl chloroform;

5. to note also that the measures listed in paragraph 3 above should enable Chile to return to compliance with the Protocol's methyl bromide control measures by 2005, and to urge Chile to work with the relevant implementing agencies to implement the plan of action to achieve total phase-out of methyl bromide;

6. to monitor closely the progress of Chile with regard to the implementation of its plan of action and the phase-out of methyl chloroform and methyl bromide. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Chile should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Chile, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl chloroform and methyl bromide that is the substances that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/29).

Non-compliance with the Montreal Protocol by China

The Seventeenth Meeting of the Parties decided:

1. to note that China ratified the Montreal Protocol and the London Amendment on 14 June 1991 and the Copenhagen Amendment on 22 April 2003, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for Implementation of the Montreal Protocol in March 1993. The Executive Committee has approved $623,438,283 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;

2. to note further that China has reported annual consumption for the controlled substances in Annex B, group I (other CFCs), for 2004 of 20.539 ODP tonnes, which exceeds the Party's maximum allowable consumption level of 20.5336 ODP tonnes for those controlled substances for that year, and that, in the absence of further clarification, China is presumed to be in non-compliance with the control measures of the Protocol;

3. to request China, as a matter of urgency, to submit to the Implementation Committee for consideration at its next meeting an explanation for its excess consumption, together with a plan of action with time-specific benchmarks to ensure a prompt return to compliance. China may wish to consider including in its plan of action the establishment of import quotas to support the phase-out schedule;

4. to monitor closely the progress of China with regard to the phase out of the controlled substances in Annex B, group I (other CFCs). to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, China should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions China, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of the controlled substances in Annex B, group I (other CFCs), that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/30).

Non-compliance with the Montreal Protocol by the Democratic People's Republic of Korea

1. That annual consumption by the Democratic People's Republic of Korea of the controlled substances in Annex C, group I (hydrochlorofluorocarbons), of 90.6 ODP-tonnes for 2013 exceeds the party's maximum allowable consumption of 78.0 ODP-tonnes for those controlled substances for that year and that the party was therefore in non-compliance with the consumption control measures under the Protocol for hydrochlorofluorocarbons;

2. That the annual production by the Democratic People's Republic of Korea of hydrochlorofluorocarbons of 31.8 ODP-tonnes in 2013 exceeds the party's maximum allowable production of 27.6 ODP-tonnes for those controlled substances for that year and that the party was therefore in non compliance with the production control measures under the Protocol for hydrochlorofluorocarbons;

3. To note with appreciation the submission by the Democratic People's Republic of Korea of a plan of action to ensure its return to compliance with the Protocol's hydrochlorofluorocarbon consumption control measures in 2015 and production control measures in 2016;

4. To note that under that plan of action, without prejudice to the operation of the financial mechanism of the Protocol, the Democratic People's Republic of Korea specifically commits itself:

   (a) To reducing its consumption of hydrochlorofluorocarbons from 90.6 ODP-tonnes in 2013 to no greater than:

      (i) 80.0 ODP-tonnes in 2014;

      (ii) 70.16 ODP-tonnes in 2015, 2016 and 2017;

      (iii) Levels allowed under the Montreal Protocol in 2018 and subsequent years;

   (b) To reducing its production of hydrochlorofluorocarbons from 31.8 ODP-tonnes in 2013 to no greater than:

      (i) 29.0 ODP-tonnes in 2014;

      (ii) 27.6 ODP-tonnes in 2015;

      (iii) 24.84 ODP-tonnes in 2016 and 2017;

      (iv) Levels allowed under the Montreal Protocol in 2018 and subsequent years;

   (c) To monitoring its system for licensing imports and exports of ozone-depleting substances;

5. To urge the Democratic People's Republic of Korea to work with the relevant implementing agencies to implement its plan of action to phase out consumption and production of hydrochlorofluorocarbons;

6. To closely monitor the progress of the Democratic People's Republic of Korea with regard to the implementation of its plan of action and the phase-out of hydrochlorofluorocarbons. To the degree that the party is working towards and meeting the specific Protocol control measures it should continue to be treated in the same manner as a party in good standing. In that regard, the Democratic People's Republic of Korea should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non compliance;

7. To caution the Democratic People's Republic of Korea, in accordance with item B of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non compliance, that, in the event that the Democratic People's Republic of Korea fails to return to compliance, the parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of hydrochlochlorofluorocarbons that are the subject of non compliance is ceased so that exporting parties are not contributing to a continuing situation of non compliance;

(UNEP/OzL.Pro.25/9, Decisions XXVI/15).

1. To note with concern that the Democratic People's Republic of Korea did not strictly adhere to its commitments for 2021 as set out in its plan of action to return to compliance contained in decision XXXII/6 and that the party was in non compliance with control measures for that substance under the Montreal Protocol for 2021;

2. To express great concern regarding the fact that the party has not yet, despite several requests by the Implementation Committee under the Non-Compliance Procedure for the Montreal Protocol in its recommendations 68/4, 69/4 and 70/2 and repeated reminders by the Secretariat, provided an explanation for the deviations mentioned in paragraph 1 above, and has not submitted a revised plan of action, if appropriate, to ensure its return to compliance with the control measures of the Montreal Protocol for hydrochlorofluorocarbons in 2023, along with a progress report on the establishment of additional national policies facilitating the phase-out of hydrochlorofluorocarbons that might include, but would not be limited to, bans on imports, on production or on new installations, along with certification of refrigeration technicians and companies, as set out in its plan of action to return to compliance contained in decision XXXII/6;

3. To note with concern that the Democratic People's Republic of Korea has not reported its 2022 data as required under Article 7, paragraph 3, of the Montreal Protocol, and that this places it in non-compliance with its 2022 data reporting obligations under the Montreal Protocol until such time as the Secretariat receives its outstanding data, as is also noted in decision XXXV/17;

4. To urge the Democratic People's Republic of Korea to provide an explanation for the deviations as a matter of urgency, together with Article 7 data for 2022, no later than 15 March 2024, and, if appropriate, to submit a revised plan of action to ensure its return to compliance with the control measures of the Montreal Protocol for hydrochlorofluorocarbons in 2023, for consideration by the Implementation Committee at its seventy-second meeting;

5. To request the Democratic People's Republic of Korea to submit a progress report on efforts to establish additional national policies facilitating the phase-out of hydrochlorofluorocarbons that might include, but would not be limited to, bans on imports, on production or on new installations, along with certification of refrigeration technicians and companies, for consideration by the Implementation Committee at its seventy-second meeting, as set out in paragraph 5 of decision XXXII/6;

6. To invite the Democratic People's Republic of Korea, if necessary, to send a representative to the Committee's seventy-second meeting;

7. To caution the Democratic People's Republic of Korea, in accordance with item B of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non compliance, that, in the event that the Democratic People's Republic of Korea fails to return to compliance, the parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of hydrochlorofluorocarbons, the substances that are the subject of non compliance, is ceased so that exporting parties do not contribute to a continuing situation of non compliance.

(UNEP/OzL.Pro.35/12/Add.1, Decisions XXXV/18).

Non-compliance with the Montreal Protocol by the Democratic Republic of the Congo

1. to note that the Democratic Republic of the Congo ratified the Montreal Protocol and the London and Copenhagen Amendments on 30 November 1994. The Democratic Republic of the Congo is classified as a Party operating under Article 5, paragraph 1, of the Protocol and had its country programme approved by the Executive Committee in 1999. Since approval of the country programme, the Executive Committee has approved $1,037,518 from the Multilateral Fund to enable compliance in accordance with Article 10 of the

Protocol;

2. to note also that the baseline of the Democratic Republic of the Congo for Annex A, group II substances is 218.67 ODP tonnes. It reported consumption of 492 ODP tonnes of Annex A, group II substances in 2002. As a consequence, for 2002 the Democratic Republic of the Congo was in non compliance with its obligations under Article 2B of the Montreal Protocol;

3. to request the Democratic Republic of the Congo to submit to the Implementation Committee as a matter of urgency, for consideration at its next meeting, a plan of action with time-specific benchmarks to ensure a prompt return to compliance. The Democratic Republic of the Congo may wish to consider including in that plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS-using equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;

4. to monitor closely the progress of the Democratic Republic of the Congo with regard to the implementation of its plan of action and the phase-out of halons. To the degree that the Democratic Republic of the Congo is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, the Democratic Republic of the Congo should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution the Democratic Republic of the Congo, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of halons (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/33).

The Eighteenth Meeting of the Parties decided:

1. to note that the Democratic Republic of the Congo ratified the Montreal Protocol and the London and Copenhagen Amendments on 30 November 1994 and the Montreal and Beijing Amendments on 23 March 2005, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in March 1999. The Executive Committee has approved $2,974,819.30 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;

2. to note also that the Democratic Republic of the Congo has reported annual consumption for the controlled substance in Annex B, group II, (carbon tetrachloride) for 2005 of 16.500 ODP tonnes, which exceeds the Party's maximum allowable consumption level of 2.288 ODP tonnes for that controlled substance for that year, and that the Party is therefore in non compliance with the carbon tetrachloride control measures under the Protocol;

3. to note further that the Democratic Republic of the Congo has reported annual consumption for the controlled substance in Annex B, group III, (methyl chloroform) for 2005 of 4.000 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of 3.330 ODP tonnes for that controlled substance for that year, and that the Democratic Republic of the Congo is therefore in non compliance with the methyl chloroform control measures under the Protocol;

4. to note with appreciation the Democratic Republic of the Congo's submission of a plan of action to ensure its prompt return to compliance with the Protocol's carbon tetrachloride and methyl chloroform control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, the Party specifically commits itself:

   (a) to maintain carbon tetrachloride consumption in 2006 at no more than 16.500 ODP tonnes and then to reduce it as follows:

      (i) to 2.2 ODP-tonnes in 2007;
      (ii) to zero in 2008;

   (b) to maintain methyl chloroform consumption in 2006 at no more than 4.000 ODP tonnes and then to reduce it as follows:

(i) to 3.3 ODP-tonnes in 2007;
(ii) to zero in 2008;

(c) to monitor its system for licensing the import and export of ozone depleting substances, which includes import quotas;

5. to note that the measures listed in paragraph 3 above should enable the Democratic Republic of the Congo to return to compliance with the Protocol in 2007 and to urge the Party to work with the relevant implementing agencies to implement the plan of action to phase out consumption of carbon tetrachloride and methyl chloroform;

6. to monitor closely the progress of the Democratic Republic of the Congo with regard to the phase-out of carbon tetrachloride and methyl chloroform. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, the Party should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions the Democratic Republic of the Congo, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of carbon tetrachloride and methyl chloroform that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/21).

Non-compliance with the Montreal Protocol by Dominica

The Eighteenth Meeting of the Parties decided:

1. to note that Dominica ratified the Montreal Protocol and the London Amendment on 31 March 1993 and the Copenhagen, Montreal and Beijing Amendments on 7 March 2006, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in November 1998. The Executive Committee has approved $232,320 from the Multilateral Fund to enable Dominica's compliance in accordance with Article 10 of the Protocol;

2. to note further that Dominica has reported annual consumption for the Annex A, group I, controlled substances (CFCs) for 2005 of 1.388 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of 0.740 ODP tonnes for those controlled substances for that year, and that Dominica is therefore in non-compliance with the control measures for CFCs under the Protocol;

3. to note with appreciation Dominica's submission of a plan of action to ensure a prompt return to compliance with the Protocol's CFC control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Dominica specifically commits itself:

(a) to reduce CFC consumption from 1.388 ODP-tonnes in 2005 as follows:

(i) to 0.45 ODP-tonnes in 2006;
(ii) to zero ODP-tonnes from 2007, save for essential uses that may be authorized by the Parties after 1 January 2010;

(b) to introduce by 31 December 2006 a system for licensing the import and export of ozone depleting substances that includes import quotas for all ozone-depleting substances listed under the Protocol. With regard to CFCs, Dominica would set annual quotas consistent with the levels stated in paragraph 3 (a) of the present decision, except to meet the needs of any national disasters and resulting emergencies, in which case Dominica will ensure that the annual quotas do not exceed its maximum allowable levels of consumption as prescribed by Article 2A of the Protocol or such levels as may be otherwise authorized by the Parties;

(c) to monitor its ban on the import of equipment requiring the supply of ozone-depleting substances, noting that the ban excludes equipment for medical purposes;

4. to note that the measures listed in paragraph 3 above should enable Dominica to return to compliance in 2006 and to urge Dominica to work with the relevant implementing agencies to implement the plan of action

to phase out consumption of CFCs;

5. to monitor closely the progress of Dominica with regard to the implementation of its plan of action and the phase-out of CFCs. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Dominica should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Dominica, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/22).

Non-compliance with the Montreal Protocol by Ecuador

The Seventeenth Meeting of the Parties decided:

1. to note that Ecuador ratified the Montreal Protocol on 10 April 1990 and the London Amendment on 30 April 1990, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in February 1992. The Executive Committee has approved $5,493,045 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note also that Ecuador's baseline for the controlled substance in Annex B, group III (methyl chloroform), is 1.997 ODP tonnes. As the Party reported consumption of 3.484 ODP tonnes of methyl chloroform in 2003, it was in non-compliance with its obligations under Article 2E of the Montreal Protocol;
3. to note with appreciation Ecuador's submission of a plan of action to ensure a prompt return to compliance with the Protocol's methyl chloroform control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Ecuador specifically commits itself:
   (a) to reduce methyl chloroform consumption from 2.50 ODP tonnes in 2004 to 1.3979 ODP tonnes in 2005;
   (b) to monitor its existing system for licensing imports and exports of ozone-depleting substances, which includes import quotas;
4. to note that the measures listed in paragraph 3 above should enable Ecuador to return to compliance in 2005 and to urge Ecuador to work with the relevant implementing agencies to implement the plan of action to phase out consumption of the controlled substance in Annex B, group III (methyl chloroform);
5. to monitor closely the progress of Ecuador with regard to the implementation of its plan of action and the phase-out of methyl chloroform. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Ecuador should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non compliance. Through the present decision, however, the Parties caution Ecuador, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl chloroform that is, the substance that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/31).

The Eighteenth Meeting of the Parties decided:

1. to note that Ecuador ratified the Montreal Protocol on 10 April 1990, the London Amendment on 30 April 1990 and the Copenhagen Amendment on 24 November 1993, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in February 1992. The Executive Committee has approved $5,737,500 from the Multilateral Fund to enable Ecuador's compliance

in accordance with Article 10 of the Protocol;

2. to note further that Ecuador has reported annual consumption of the controlled substance in Annex E (methyl bromide) for 2005 of 153.000 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of 52.892 ODP tonnes for that controlled substance for that year, and that Ecuador is therefore in non-compliance with the methyl bromide control measures under the Protocol;
3. to request Ecuador, as a matter of urgency and no later than 31 March 2007, to submit to the Secretariat, for consideration by the Implementation Committee under the Non-compliance Procedure of the Montreal Protocol at its next meeting, a plan of action with time specific benchmarks to ensure a prompt return to compliance. Ecuador may wish to consider including in its plan of action the establishment of policy and regulatory instruments that will ensure progress in achieving the phase-out;
4. to monitor closely the progress of Ecuador with regard to the phase-out of methyl bromide. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Ecuador should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Ecuador, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/23).

The Twentieth Meeting of the Parties decided:

1. to record with appreciation Ecuador's submission of a plan of action to ensure its prompt return to compliance with the Protocol's methyl bromide control measures under which, without prejudice to the operation of the financial mechanism of the Protocol, Ecuador specifically commits itself:
   (a) to reducing methyl bromide consumption to no greater than:
      (i) 52.8 ODP tonnes in 2008 and in each subsequent calendar year until 2014;
      (ii) zero ODP tonnes in 2015, save for critical uses that may be authorized by the Parties;
   (b) to monitoring its import and export licensing system for ozone depleting substances;
2. to urge Ecuador to work with the relevant implementing agencies to implement its plan of action to phase out consumption of methyl bromide;
3. to monitor closely the progress of Ecuador with regard to the implementation of its plan of action and the phase-out of methyl bromide. to the degree that the Party is working toward and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Ecuador should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance;
4. to caution Ecuador in accordance with item B of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of the methyl bromide that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.20/9, Decision XX/16).

Non-compliance with the Montreal Protocol by Eritrea

The Eighteenth Meeting of the Parties decided:

1. to note that Eritrea ratified the Montreal Protocol on 10 March 2005 and the London, Copenhagen, Montreal and Beijing Amendments on 5 July 2005 and is classified as a Party operating under paragraph 1 of Article 5 of the Protocol. The Executive Committee of the Multilateral Fund for the Implementation of the Montreal

Protocol has approved $106,700 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;

2. to note that Eritrea has reported annual consumption for the controlled substances in Annex A, group I, (CFCs) for 2005 of 30.220 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of 20.574 ODP tonnes for those controlled substances for that year, and that in the absence of further clarification Eritrea is therefore presumed to be in non-compliance with the control measures under the Protocol;
3. to request Eritrea to submit to the Secretariat, as a matter of urgency and no later than 31 March 2007, for consideration by the Implementation Committee under the Non-compliance Procedure of the Montreal Protocol at its next meeting, an explanation for its excess consumption, together with a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Eritrea may wish to consider including in its plan of action the establishment of import quotas to support the phase-out schedule, a ban on imports of ozone depleting substance using equipment and policy and regulatory instruments that will ensure progress in achieving the phase-out;
4. to monitor closely the progress of Eritrea with regard to the phase-out of CFCs. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Eritrea should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Eritrea, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/24).

Non-compliance with the Montreal Protocol by Ethiopia

1. to note that Ethiopia ratified the Montreal Protocol on 11 October 1994 and has not ratified the London and Copenhagen Amendments. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 1996. Since approval of the country programme, the Executive Committee has approved $330,844 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. Ethiopia's baseline for Annex A, Group I substances is 33.8 ODP tonnes. Ethiopia reported consumption of 39 and 39 ODP tonnes of Annex A, Group I substances in 1999 and 2000 respectively. Ethiopia responded to the Ozone Secretariat's request for data for the control period 1 July 1999 to 30 June 2000. Ethiopia reported consumption of 39.2 ODP tonnes of Annex A, Group I substances for the consumption freeze control period of 1 July 1999 to 30 June 2000. As a consequence, for the control period 1 July 1999 to 30 June 2000, Ethiopia was in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to request that Ethiopia submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Ethiopia may wish to consider including in its plan actions to establish import quotas to freeze imports at baseline levels and support the phase-out schedule, to establish a ban on imports of ODS equipment, and to put in place policy and regulatory instruments that ensure progress in achieving the phase-out;
4. to closely monitor the progress of Ethiopia with regard to the phase-out of ozone-depleting substances. To the degree that Ethiopia is working towards and meeting the specific Protocol control measures, Ethiopia should continue to be treated in the same manner as a Party in good standing. In this regard, Ethiopia should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Ethiopia, in accordance with item B of the indicative list of measures, that in the event that the country fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs

(that is the subject of non-compliance) is ceased and that importing Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro/13/10, Decision XIII/24).

Subsequently, the Fourteenth Meeting of the Parties decided:

1. to note that, in accordance with Decision XIII/24 of the 13th Meeting of the Parties, Ethiopia was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance;
2. Ethiopia's baseline for Annex A, Group I substances is 34 ODP tonnes. It reported consumption of 39 ODP tonnes in 2000 and 35 ODP tonnes for the control period 1 July 2000 to 30 June 2001, placing Ethiopia clearly in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to express concern about Ethiopia's non-compliance but to note that it has submitted a plan of action with time-specific benchmarks to ensure a prompt return to compliance. It is with that understanding that the Parties note, after reviewing the plan of action submitted by Ethiopia, that Ethiopia specifically commits itself to reduce CFC consumption from the current level of 35 ODP tonnes in 2001 as follows:
   (a) to 34 ODP tonnes in 2003;
   (b) to 17 ODP tonnes in 2005;
   (c) to 5 ODP tonnes in 2007; and
   (d) to phase-out CFC consumption by 1 January 2010 as required under the Montreal Protocol save for essential uses that might be authorized by the Parties;
4. to note that the measures listed in paragraph 3 above should enable Ethiopia to return to compliance by 2003. In this regard, the Parties urge Ethiopia to work with relevant Implementing Agencies to phase-out consumption of ozone-depleting substances in Annex A Group I;
5. to closely monitor the progress of Ethiopia with regard to the phase-out of ozone-depleting substances. To the degree that Ethiopia is working towards and meeting the specific commitments noted above in paragraph 3, Ethiopia should continue to be treated in the same manner as a Party in good standing. In this regard, Ethiopia should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Ethiopia, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/34).

Non-compliance with the Montreal Protocol by Fiji

1. to note that Fiji has reported annual data for the controlled substances in Annex E (methyl bromide) for 2003 that is above its requirement for that substance. As a consequence, for 2003, Fiji was in non-compliance with its obligations under Article 2H of the Montreal Protocol;
2. to request Fiji, as a matter of urgency, to submit a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Fiji may wish to consider including in its plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
3. to monitor closely the progress of Fiji with regard to the phase-out of methyl bromide. to the degree that Fiji is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Fiji should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non compliance. Through the present decision, however, the Meeting of the Parties cautions Fiji, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide (that

is, the subject of non–compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.16/17, Decision XVI/23).

The Seventeenth Meeting of the Parties decided:

1. to note that Fiji ratified the Montreal Protocol on 23 October 1989, the London Amendment on 9 December 1994 and the Copenhagen Amendment on 17 May 2000, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in June 1993. The Executive Committee has approved $542,908 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note also that Fiji's baseline for the controlled substance in Annex E (methyl bromide) is 0.6710 ODP tonnes. As the Party reported consumption of methyl bromide of 1.506 ODP tonnes in 2003 and 1.609 ODP tonnes in 2004, it was in non-compliance with its obligations under Article 2H of the Montreal Protocol in those years;
3. to note with appreciation Fiji's submission of a plan of action to ensure a prompt return to compliance with the Protocol's methyl bromide control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Fiji specifically commits itself:
   (a) to reduce methyl bromide consumption from 1.609 ODP tonnes in 2004 as follows:
      (i) to 1.5 ODP tonnes in 2005;
      (ii) to 1.3 ODP tonnes in 2006;
      (iii) to 1.0 ODP tonnes in 2007;
      (iv) to 0.5 ODP tonnes in 2008;
   (b) to monitor its existing system for licensing imports and exports of ozone-depleting substances;
   (c) to commence implementation of a methyl bromide import quota system in 2006;
4. to note that the measures listed in paragraph 3 above should enable Fiji to return to compliance in 2008, and to urge Fiji to work with the relevant implementing agencies to implement the plan of action and phase out consumption of methyl bromide;
5. to monitor closely the progress of Fiji with regard to the implementation of its plan of action and the phase-out of methyl bromide. To the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Fiji should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Fiji, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide that is the substance that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/33).

(UNEP/OzL.Pro.25/9, Decision XXV/11).

Non-compliance with the Montreal Protocol by Guatemala

1. to note that Guatemala ratified the Montreal Protocol on 7 November 1989 and the London, Copenhagen, Montreal and Beijing Amendments on 21 January 2002. Guatemala is classified as a Party operating under Article 5, paragraph 1, of the Protocol and had its country programme approved by the Executive Committee in 1993. Since approval of the country programme, the Executive Committee has approved $6,302,694 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. to note also that Guatemala's baseline for Annex A, group I substances is 224.6 ODP tonnes. It reported consumption of 239.6 ODP tonnes of Annex A, group I substances in 2002. Guatemala's baseline for the controlled substance in Annex E is 400.7 ODP tonnes. It reported consumption of 709.4 ODP tonnes of the controlled substance in Annex E in 2002. As a consequence, for 2002 Guatemala was in non-compliance with its obligations under Articles 2A and 2H of the Montreal Protocol;

3. to note with appreciation Guatemala's submission of its plan of action to ensure a prompt return to compliance with the control measures for Annex A, group I and Annex E substances, and to note further that, under the plan, without prejudice to the operation of the financial mechanism of the Montreal Protocol, Guatemala specifically commits itself:

   (a) to reducing CFC consumption from 239.6 ODP tonnes in 2002 as follows:

      (i) to 180.5 ODP tonnes in 2003;
      (ii) to 120 ODP tonnes in 2004;
      (iii) to 85 ODP tonnes in 2005;
      (iv) to 50 ODP tonnes in 2006;
      (v) to 20 ODP tonnes in 2007;
      (vi) to phasing out CFC consumption by 1 January 2010, as required under the Montreal Protocol, save for essential uses that may be authorized by the Parties;

   (b) to reducing methyl bromide consumption from 709.4 ODP tonnes in 2002, as follows:

      (i) to 528 ODP tonnes in 2003;
      (ii) to 492 ODP tonnes in 2004;
      (iii) to 360 ODP tonnes in 2005;
      (iv) to 335 ODP tonnes in 2006;
      (v) to 310 ODP tonnes in 2007;
      (vi) to 286 ODP tonnes in 2008;
      (vii) to phasing out methyl bromide consumption by 1 January 2015, as required under the Montreal Protocol, save for critical uses that may be authorized by the Parties;

   (c) to establishing, by 2004, a system for licensing imports and exports of ODS, including quotas;

   (d) to banning, by 2005, imports of ODS-using equipment;

4. to note that the measures listed in paragraph 3 above should enable Guatemala to return to compliance by 2005 (CFCs) and 2007 (methyl bromide), and to urge Guatemala to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of ozone-depleting substances in Annex A, group I and Annex E;

5. to monitor closely the progress of Guatemala with regard to the implementation of its plan of action and the phase-out of CFCs and methyl bromide. To the degree that Guatemala is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Guatemala should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Guatemala, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs and methyl bromide (that is, the subjects of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/34).

The Eighteenth Meeting of the Parties decided:

1. to note that Guatemala ratified the Montreal Protocol on 7 November 1989 and the London, Copenhagen, Montreal and Beijing Amendments on 21 January 2002. Guatemala is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in 1993. Since approval of the country programme, the Executive Committee has approved $6,366,065 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;

2. to recall decision XV/34, which noted that Guatemala was in non-compliance in 2002 with its obligations under Article 2H of the Protocol to freeze its consumption of the controlled substance in Annex E (methyl bromide) at its baseline level of 400.7 ODP-tonnes but also noted with appreciation the plan of action submitted by Guatemala to ensure its prompt return to compliance in 2007 with the Protocol's methyl bromide consumption control measures;

3. to note with concern, however, that Guatemala has reported consumption of methyl bromide for 2005 of 522.792 ODP-tonnes, which is inconsistent with the Party's commitment contained in decision XV/34 to reduce its methyl bromide consumption to 360 ODP tonnes in 2005;
4. to note further the advice of Guatemala that all relevant stakeholders have committed to phase out methyl bromide in accordance with the revised time-specific consumption reduction benchmarks contained in paragraph 5 of the present decision, which provide the Party with one additional year to overcome the technical, economic and political challenges that were the cause of the Party's deviation from its commitments contained in decision XV/34;
5. to note also with appreciation that Guatemala has submitted a revised plan of action for methyl bromide phase-out in controlled uses and to note, without prejudice to the operation of the financial mechanism of the Protocol, that under the revised plan Guatemala specifically commits itself:
   (a) to reduce methyl bromide consumption from 709.4 ODP-tonnes in 2002 as follows:
      (i) to 400.70 ODP-tonnes in 2006;
      (ii) to 361 ODP-tonnes in 2007;
      (iii) to 320.56 ODP-tonnes in 2008;
      (iv) to phase out methyl bromide consumption by 1 January 2015, as required under the Protocol, save for critical uses that may be authorized by the Parties;
   (b) to monitor its system for licensing imports and exports of ozone-depleting substances, including quotas;
6. to note that the measures listed in paragraph 5 above should enable Guatemala to return to compliance with the Protocol's methyl bromide control measures in 2008 and to urge Guatemala to work with the relevant implementing agencies to implement the plan of action and phase out consumption of methyl bromide;
7. to monitor closely the progress of Guatemala with regard to the implementation of its plan of action and the phase-out of methyl bromide. to the degree that Guatemala is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Guatemala should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Guatemala, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide that is the subject of non-compliance is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/26).

The Twenty-sixth Meeting of the Parties decided:

1. That Guatemala's annual consumption of the controlled substances in Annex C, group I (hydrochlorofluorocarbons), of 11.3 ODP-tonnes for 2013 exceeds the party's maximum allowable consumption of 8.3 ODP-tonnes for those controlled substances for that year and that the party was therefore in non-compliance with the consumption control measures under the Protocol for hydrochlorofluorocarbons;
2. To note with appreciation the submission by Guatemala of a plan of action to ensure its return to compliance with the Protocol's hydrochlorofluorocarbon control measures and its decision to reduce its hydrochlorofluorocarbon consumption in 2014 below its allowable consumption by the excess amount consumed in 2013;
3. To note that under that plan of action, without prejudice to the operation of the financial mechanism of the Protocol, Guatemala specifically commits itself:

   (a) To reducing its consumption of hydrochlorofluorocarbons from 11.3 ODP-tonnes in 2013 to no greater than:

      (i) 4.35 ODP-tonnes in 2014;

      (ii) Levels allowed under the Montreal Protocol in 2015 and subsequent years;

   (b) To monitoring its system for licensing imports and exports of ozone-depleting substances;
4. To urge Guatemala to continue to work with the relevant implementing agencies to implement its plan of

action to phase out consumption of hydrochlorofluorocarbons;

5. To monitor closely the progress of Guatemala with regard to the implementation of its plan of action and the phase-out of hydrochlorofluorocarbons. To the degree that the party is working towards and meeting the specific Protocol control measures it should continue to be treated in the same manner as a party in good standing. In that regard, Guatemala should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non-compliance;
6. To caution Guatemala, in accordance with item B of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non-compliance, that, in the event that Guatemala fails to return to compliance, the parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of hydrochlorofluorocarbons that are the subject of non-compliance is ceased so that exporting parties are not contributing to a continuing situation of non-compliance;

(UNEP/OzL.Conv.10/7-UNEP/OzL.Pro.26/10, Decisions XXVI/16).

The Twenty-eighth Meeting of the Parties decided:

1. That the annual consumption reported by Guatemala for the controlled substances in Annex C, group I (hydrochlorofluorocarbons), of 4.74 ODP-tonnes in 2014 was inconsistent with its commitment set out in decision XXVI/16 to reduce consumption of hydrochlorofluorocarbons to no greater than 4.35 ODP-tonnes in that year and that the party was therefore in non-compliance with the consumption control measures for that substance under the Protocol for that year;
2. To note with appreciation the submission by Guatemala of an explanation for its compliance situation and its correction of its hydrochlorofluorocarbon consumption to

9.84 ODP-tonnes in 2013 and 4.74 ODP-tonnes in 2014, attributing the previous incorrect data to a technical error in computing the consumption of that substance in the country for those two years;

3. To note also that despite the revision of its 2013 data the party remained in

non-compliance with its hydrochlorofluorocarbon consumption obligations under the Protocol for 2013;

4. To agree that the data corrections for 2013 and 2014 will not vary any of the benchmarks already recorded and agreed in decision XXVI/16;
5. To note that Guatemala has reported data for 2015 that indicate that it has already returned to compliance with the Protocol's hydrochlorofluorocarbon control measures and to congratulate Guatemala on that progress;
6. To urge Guatemala to work with the relevant implementing agencies to implement the remainder of the plan of action in decision XXVI/16;
7. To continue to monitor closely the progress of Guatemala with regard to the implementation of its plan of action and the phase-out of hydrochlorofluorocarbons. To the degree that the party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a party in good standing. In that regard, Guatemala should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non-compliance.

(UNEP/OzL.Pro.28/11, Decisions XXVIII/11).

Non-compliance with the Montreal Protocol by Guinea-Bissau

1. to note that Guinea-Bissau ratified the Montreal Protocol and the London, Copenhagen and Beijing amendments on 12 November 2002. Guinea-Bissau is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee in 2004. The Executive Committee has approved $669,593 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. to note also that Guinea-Bissau's baseline for the controlled substances in Annex A, group I (CFCs), is 26.275 ODP tonnes. It reported consumption of 29.446 ODP tonnes of CFCs in 2003. As a consequence, for 2003, Guinea-Bissau was in non-compliance with its obligations under Article 2A of the Montreal

Protocol;

3. to note with appreciation Guinea-Bissau's submission of its plan of action to ensure a prompt return to compliance with the control measures for the controlled substances in Annex A, group I (CFCs), and to note further that, under the plan, without prejudice to the operation of the financial mechanism of the Montreal Protocol, Guinea-Bissau specifically commits itself:
   (a) to reducing CFC consumption from 29.446 ODP tonnes in 2003 as follows:
      (i) to 26.275 ODP tonnes in 2004;
      (ii) to 13.137 ODP tonnes in 2005;
      (iii) to 13.137 ODP tonnes in 2006;
      (iv) to 3.941 ODP tonnes in 2007;
      (v) to 3.941 ODP tonnes in 2008;
      (vi) to 3.941 ODP tonnes in 2009;
      (vii) to phasing out CFC consumption by 2010, as required under the Montreal Protocol, save for essential uses that may be authorized by the Parties;
   (b) to introduce a system for licensing imports and exports of ozone depleting substances, including quotas by the end of 2004;
4. to note that the measures listed in paragraph 3 above should enable Guinea-Bissau to return to compliance by 2004, and to urge Guinea-Bissau to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of CFCs;
5. to monitor closely the progress of Guinea-Bissau with regard to the implementation of its plan of action and the phase-out of CFCs. to the degree that Guinea-Bissau is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Guinea-Bissau should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Guinea-Bissau, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.16/17, Decision XVI/24).

Non-compliance with the Montreal Protocol by Honduras

1. to note that Honduras ratified the Montreal Protocol on 14 October 1993 and the London and Copenhagen Amendments on 24 January 2002. Honduras is classified as a Party operating under Article 5, paragraph 1, of the Protocol and had its country programme approved by the Executive Committee in 1996. Since approval of the country programme, the Executive Committee has approved $2,912,410 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. to note also that Honduras's baseline for the controlled substance in Annex E is 259.43 ODP tonnes. It reported consumption of 412.52 ODP tonnes of the controlled substance in Annex E in 2002. As a consequence, for 2002 Honduras was in non-compliance with its obligations under Article 2H of the Montreal Protocol;
3. to recognize the devastation and disruption to agriculture caused by Hurricane Mitch in October 1998, which contributed to the increase in use of methyl bromide, and to applaud Honduras's efforts to recover from the situation;
4. to note with appreciation Honduras's submission of its plan of action to ensure a prompt return to compliance with the control measures for the controlled substance in Annex E, and to note further that, under the plan, Honduras specifically commits itself:
   (a) to reducing methyl bromide consumption from 412.52 ODP tonnes in 2002 as follows:
      (i) to 370.0 ODP tonnes in 2003;
      (ii) to 306.1 ODP tonnes in 2004;
      (iii) to 207.5 ODP tonnes in 2005;

(b) to monitoring its system for licensing imports and exports of ODS, including quotas, in force since May 2003;

(c) to monitoring its ban on imports of ODS-using equipment, in force since May 2003;

5. to note that the measures listed in paragraph 4 above should enable Honduras to return to compliance by 2005, and to urge Honduras to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of the ozone-depleting substance in Annex E;

6. to monitor closely the progress of Honduras with regard to the implementation of its plan of action and the phase-out of methyl bromide. To the degree that Honduras is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Honduras should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Honduras, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/35).

The Seventeenth Meeting of the Parties decided:

1. to note that Honduras ratified the Montreal Protocol on 14 October 1993 and the London and Copenhagen Amendments on 24 January 2002, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in 1996. Since approval of the country programme, the Executive Committee has approved $3,342,025 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;

2. to recall decision XV/35, which noted that Honduras was in non-compliance in 2002 with its obligations under Article 2H of the Montreal Protocol to freeze its consumption of the controlled substance in Annex E (methyl bromide) at its baseline level of 259.43 ODP tonnes, but also noted with appreciation the plan of action submitted by Honduras to ensure its prompt return to compliance in 2005;

3. to note with concern, however, that while Honduras has reported consumption of methyl bromide for 2004 of 340.80 ODP tonnes that is less than its reported consumption for 2003, it is still inconsistent with the Party's commitment contained in decision XV/35 to reduce its methyl bromide consumption to 306.1 ODP tonnes in 2004;

4. Further to note the advice of Honduras that its stakeholders remain committed to methyl bromide phase out and that an additional two years would be required to overcome the technical difficulties that were the cause of the Party's deviation from its commitments contained in decision XV/35;

5. to note with appreciation that Honduras has submitted a revised plan of action for methyl bromide phase-out in controlled uses, and to note, without prejudice to the operation of the financial mechanism of the Protocol, that under the revised plan Honduras specifically commits itself:

(a) to reduce methyl bromide consumption from 340.80 ODP tonnes in 2004 as follows:

(i) to 327.6000 ODP tonnes in 2005;
(ii) to 295.8000 ODP tonnes in 2006;
(iii) to 255.0000 ODP tonnes in 2007;
(iv) to 207.5424 ODP tonnes in 2008;

(b) to monitor its system for licensing imports and exports of ozone-depleting substances, including quotas, in force since May 2003;

(c) to monitor its ban on imports of equipment using ozone depleting substances, in force since May 2003;

6. to note that the measures listed in paragraph 5 above should enable Honduras to return to compliance with the Protocol's methyl bromide control measures in 2008 and to urge Honduras to work with the relevant implementing agencies to implement the plan of action and phase out consumption of the controlled

substance in Annex E (methyl bromide);

7. to monitor closely the progress of Honduras with regard to the implementation of its plan of action and the phase-out of the controlled substance in Annex E (methyl bromide). to the degree that Honduras is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Honduras should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Honduras, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of methyl bromide that is the subject of non-compliance is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/34).

Non-compliance with the Montreal Protocol by the Islamic Republic of Iran

The Eighteenth Meeting of the Parties decided:

1. to note that the Islamic Republic of Iran ratified the Montreal Protocol on 3 October 1990, the London and Copenhagen Amendments on 4 August 1997 and the Montreal Amendment on 17 October 2001, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in June 1993. The Executive Committee has approved $59,507,714 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note that the Islamic Republic of Iran has reported annual consumption for the controlled substance in Annex B, group II, (carbon tetrachloride) for 2005 of 13.640 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of 11.550 ODP tonnes for that controlled substance for that year, and that in the absence of further clarification the Islamic Republic of Iran is therefore presumed to be in non compliance with the control measures under the Protocol;
3. to request the Islamic Republic of Iran to submit to the Secretariat, as a matter of urgency and no later than 31 March 2007, for consideration by the Implementation Committee under the Non-compliance Procedure of the Montreal Protocol at its next meeting, an explanation for its excess consumption, together with a plan of action with time specific benchmarks to ensure a prompt return to compliance. The Islamic Republic of Iran may wish to consider including in its plan of action the establishment of import quotas to support the phase out schedule, a ban on imports of ozone depleting substance using equipment and policy and regulatory instruments that will ensure progress in achieving the phase-out;
4. to monitor closely the progress of the Islamic Republic of Iran with regard to the phase out of carbon tetrachloride. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, the Islamic Republic of Iran should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions the Islamic Republic of Iran, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of carbon tetrachloride that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/27).

The Nineteenth Meeting of the Parties decided:

1. that the Islamic Republic of Iran reported annual consumption for the controlled substance in Annex B, group II, (carbon tetrachloride) for 2005 of 13.6 ODP tonnes, which exceeds the Party's maximum allowable consumption of 11.6 ODP tonnes for that controlled substance for that year, but that the Party's excess consumption was for laboratory and analytical uses;

2. to record with appreciation the submission by the Islamic Republic of Iran of a plan of action to ensure its prompt return to compliance with the Protocol's carbon tetrachloride control measures, under which, without prejudice to the operation of the financial mechanism of the Protocol, the Islamic Republic of Iran specifically commits itself:
   (a) to reducing consumption to no greater than:
      (i) 11.6 ODP tonnes in 2007;
      (ii) zero ODP tonnes in 2008, save for essential uses that may be authorized by the Parties;
   (b) to monitoring its existing system for licensing imports and exports of ozone depleting substances, including import quotas;
3. to urge the Islamic Republic of Iran to work with the relevant implementing agencies to implement its plan of action to phase out consumption of carbon tetrachloride;
4. to monitor closely the progress of the Islamic Republic of Iran with regard to the implementation of its plan of action and the phase-out of carbon tetrachloride. to the degree that the Party is working toward and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, the Islamic Republic of Iran should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance;
5. to caution the Islamic Republic of Iran in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of the carbon tetrachloride that is the subject of non compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.19/7, Decision XIX/27).

Non-compliance with the Montreal Protocol by Kenya

The Eighteenth Meeting of the Parties decided:

1. to note that Kenya ratified the Montreal Protocol on 9 November 1988, the London and Copenhagen Amendments on 27 September 1994 and the Montreal Amendment on 12 July 2000, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in July 1994. The Executive Committee has approved $4,579,057 from the Multilateral Fund to enable Kenya's compliance in accordance with Article 10 of the Protocol;
2. to note also that Kenya has reported annual consumption for the controlled substances in Annex A, group I, (CFCs) for 2005 of 162.210 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of 119.728 ODP tonnes for those controlled substances for that year, and that Kenya is therefore in non-compliance with the control measures for CFCs under the Protocol;
3. to note with appreciation Kenya's submission of a plan of action to ensure a prompt return to compliance with the Protocol's CFC control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Kenya specifically commits itself:
   (a) to reduce CFC consumption from 162.210 ODP-tonnes in 2005 to 60.00 ODP tonnes in 2006;
   (b) to further reduce CFC consumption from 60.00 ODP-tonnes in 2006 to 30.00 ODP tonnes in 2007;
   (c) to further reduce CFC consumption from 30.00 ODP-tonnes in 2007 to 10.00 ODP tonnes in 2008;
   (d) to further reduce CFC consumption from 10.00 ODP-tonnes in 2008 to zero (0.00) ODP tonnes in 2009, save for essential uses that may be authorized by the Parties after 1 January 2010;
   (e) to monitor its system for licensing the import and export of ozone depleting substances, which includes import quotas;
4. to urge Kenya to gazette the ozone depleting substances regulations required to establish and implement its system for licensing the import and export of ozone depleting substances, which includes import quotas, as soon as possible and preferably no later than 31 December 2006;
5. to note that the measures listed in paragraph 3 above should enable Kenya to return to compliance with the

Protocol in 2006 and to urge Kenya to work with the relevant implementing agencies to implement the plan of action to phase out consumption of CFCs;

6. to monitor closely the progress of Kenya with regard to the implementation of its plan of action and the phase-out of CFCs. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Kenya should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Kenya, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/28).

Non-compliance with the Montreal Protocol by Kyrgyzstan

The Seventeenth Meeting of the Parties decided:

1. to note that Kyrgyzstan ratified the Montreal Protocol on 31 May 2000, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in July 2002. The Executive Committee has approved $1,206,732 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note further that Kyrgyzstan has reported annual consumption for the controlled substances in Annex A, group II (halons), for 2004 of 2.40 ODP tonnes, which exceeds the Party's maximum allowable consumption level of zero ODP tonnes for those controlled substances for that year, and that Kyrgyzstan is therefore in non-compliance with the control measures under the Protocol;
3. to note with appreciation Kyrgyzstan's submission of a plan of action to ensure a prompt return to compliance with the Protocol's halon control measures, and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Kyrgyzstan specifically commits itself:
   (a) to maintain consumption of the controlled substances in Annex A, group II (halons), at no more than the 2004 level of 2.40 ODP tonnes in 2005, and then to reduce halon consumption as follows:
      (i) to 1.20 ODP tonnes in 2006;
      (ii) to 0.60 ODP tonnes in 2007;
      (iii) to phase out consumption of these controlled substances by 1 January 2008, save for essential uses that may be authorized by the Parties;
   (b) to monitor its existing system for licensing imports and exports of ozone-depleting substances;
   (c) to introduce a ban on the import of equipment containing halons and equipment that uses halons by 1 January 2006;
   (d) to introduce an import quota system to limit annual consumption of the controlled substances in Annex A, group II (halons), by the beginning of 2006;
4. to note that the measures listed in paragraph 3 above should enable Kyrgyzstan to return to compliance in 2008 and to urge Kyrgyzstan to work with the relevant implementing agencies to implement the plan of action and phase out consumption of the controlled substances in Annex A, group II (halons);
5. to monitor closely the progress of Kyrgyzstan with regard to the implementation of its plan of action and the phase-out of Annex A, group II, controlled substances (halons). to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Kyrgyzstan should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Kyrgyzstan, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions

available under Article 4, such as ensuring that the supply of Annex A, group II, controlled substances (halons) that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/36).

Non-compliance with the Montreal Protocol by Lesotho

1. to note that Lesotho ratified the Montreal Protocol on 25 March 1994. Lesotho is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee in 1996. The Executive Committee has approved $311,332 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. to note also that Lesotho's baseline for the controlled substances in Annex A, group II (halons), is 0.2 ODP tonnes. It reported consumption of 1.8 ODP tonnes of halons in 2002. As a consequence, for 2002, Lesotho was in non-compliance with its obligations under Article 2B of the Montreal Protocol;
3. to note with appreciation Lesotho's submission of its plan of action to ensure a prompt return to compliance with the control measures for the controlled substances in Annex A, group II (halons), and to note further that, under the plan, without prejudice to the operation of the financial mechanism of the Montreal Protocol, Lesotho specifically commits itself:
   (a) to reducing halon consumption from 1.8 ODP tonnes in 2002 as follows:
      (i) to 0.8 ODP tonnes in 2004;
      (ii) to 0.2 ODP tonnes in 2005;
      (iii) to 0.1 ODP tonnes in 2006;
      (iv) to 0.1 ODP tonnes in 2007;
      (v) to zero ODP tonnes in 2008, save for essential uses that may be authorized by the Parties after 1 January 2010;
   (b) to introduce a quota system for the import of halons;
   (c) to introduce a ban on the import of halon-based equipment and systems in 2005;
4. to note that the measures listed in paragraph 3 above should enable Lesotho to return to compliance by 2006, and to urge Lesotho to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of halons;
5. to monitor closely the progress of Lesotho with regard to the implementation of its plan of action and the phase-out of halons. to the degree that Lesotho is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Lesotho should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Lesotho, in accordance with item B of the indicative list of measures, that, in the event that it fails to remain in compliance, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of halons (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.16/17, Decision XVI/25).

Non-compliance with the Montreal Protocol by Libya

1. to note that Libyan Arab Jamahiriya ratified the Montreal Protocol on 11 July 1990 and the London Amendment on 12 July 2001. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 2000. Since approval of the country programme, the Executive Committee has approved $2,794,053 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. Libyan Arab Jamahiriya's baseline for Annex A, Group I substances is 717 ODP tonnes. It reported consumption of 985 ODP tonnes in 2000 and 985 ODP tonnes in 2001, placing Libyan Arab Jamahiriya clearly in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to request that Libyan Arab Jamahiriya submit to the Implementation Committee a plan of action with time-

specific benchmarks to ensure a prompt return to compliance. Libyan Arab Jamahiriya may wish to consider including in this plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;

4. to closely monitor the progress of Libyan Arab Jamahiriya with regard to the phase-out of ozone-depleting substances. To the degree that Libyan Arab Jamahiriya is working towards and meeting the specific Protocol control measures, Libyan Arab Jamahiriya should continue to be treated in the same manner as a Party in good standing. In this regard, Libyan Arab Jamahiriya should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Libyan Arab Jamahiriya, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/25).

Subsequently, the Fifteenth Meeting of the Parties decided:

1. to note that, in accordance with decision XIV/25 of the Fourteenth Meeting of the Parties, the Libyan Arab Jamahiriya was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance;
2. to note with appreciation the Libyan Arab Jamahiriya's submission of its plan of action, and to note also that, under the plan, the Libyan Arab Jamahiriya specifically commits itself:
   (a) to reducing CFC consumption from 985 ODP tonnes in 2001 as follows:
      (i) to 710.0 ODP tonnes in 2003;
      (ii) to 610.0 ODP tonnes in 2004;
      (iii) to 303.0 ODP tonnes in 2005;
      (iv) to 107 ODP tonnes in 2007;
      (v) to phasing out CFC consumption by 1 January 2010, as required under the Montreal Protocol, save for essential uses that may be authorized by the Parties;
   (b) to establishing, by 2004, a system for licensing imports and exports of ODS, including quotas;
   (c) to monitoring its ban on imports of ODS-using equipment, introduced in 2003;
3. to note that the measures listed in paragraph 2 above should enable the Libyan Arab Jamahiriya to return to compliance by 2003, and to urge the Libyan Arab Jamahiriya to work with the relevant Implementing Agencies to implement the plan of action and phase out consumption of ozone-depleting substances in Annex A, group I;
4. to monitor closely the progress of the Libyan Arab Jamahiriya with regard to the implementation of its plan of action and the phase-out of CFCs. To the degree that the Libyan Arab Jamahiriya is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, the Libyan Arab Jamahiriya should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution the Libyan Arab Jamahiriya, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/36).

Subsequently, the Sixteenth Meeting of the Parties decided:

1. to note that the Libyan Arab Jamahiriya has reported annual data for the controlled substances in Annex A,

group II (halons), for 2003 which is above its requirements for those substances. As a consequence, for 2003, the Libyan Arab Jamahiriya was in non-compliance with its obligations under Article 2B of the Montreal Protocol;

2. to request the Libyan Arab Jamahiriya, as a matter of urgency, to submit a plan of action with time-specific benchmarks to ensure a prompt return to compliance. The Libyan Arab Jamahiriya may wish to consider including in its plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on the import of ozone-depleting-substances-using equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
3. to monitor closely the progress of the Libyan Arab Jamahiriya with regard to the phase out of halons. to the degree that the Libyan Arab Jamahiriya is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, the Libyan Arab Jamahiriya should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions the Libyan Arab Jamahiriya, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of halons (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.16/17, Decision XVI/26).

The Seventeenth Meeting of the Parties decided:

1. to note that the Libyan Arab Jamahiriya ratified the Montreal Protocol on 11 July 1990, the London Amendment on 12 July 2001 and the Copenhagen Amendment on 24 September 2004, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in December 2000. The Executive Committee has approved $5,198,886 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;
2. to note further that the Libyan Arab Jamahiriya's baseline for Annex A, group II, controlled substances (halons) is 633.067 ODP tonnes. It reported consumption in 2003 and 2004 of 714.500 ODP tonnes of those substances. The Libyan Arab Jamahiriya's baseline for the controlled substance in Annex E (methyl bromide) is 94.050 ODP tonnes. It reported consumption in 2004 of 96.000 ODP tonnes of that substance. As a consequence, in 2003 the Libyan Arab Jamahiriya was in non-compliance with its obligations under Article 2A of the Montreal Protocol, while in 2004 it was in non-compliance with its obligations under Articles 2A and 2H of the Protocol;
3. to note with appreciation the Libyan Arab Jamahiriya's submission of a plan of action to ensure a prompt return to compliance with the Protocol's halon and methyl bromide control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, the Libyan Arab Jamahiriya specifically commits itself:
   (a) to maintain consumption of the controlled substances in Annex A, group II (halons), at no more than the 2004 level of 714.500 ODP tonnes in 2005 and then to reduce halon consumption as follows:
      (i) to 653.910 ODP tonnes in 2006;
      (ii) to 316.533 ODP tonnes in 2007;
      (iii) to phase out halon consumption by 1 January 2008, save for essential uses that may be authorized by the Parties;
   (b) to maintain consumption of the controlled substance in Annex E (methyl bromide) at no more than the 2004 level of 96.000 ODP tonnes in 2005 and 2006 and then to reduce methyl bromide consumption as follows:
      (i) to 75.000 ODP tonnes in 2007;
      (ii) to phase out methyl bromide consumption by 1 January 2010, save for critical uses that may be authorized by the Parties;

4. to recall the commitment of the Libyan Arab Jamahiriya, contained in decision XV/36, to establish a system for licensing imports and exports of ozone-depleting substances, including quotas, and to monitor its ban on imports of equipment using ozone depleting substances, introduced in 2003;
5. to note that the measures listed in paragraph 3 above should enable the Libyan Arab Jamahiriya to return to compliance with the Protocol's halon and methyl bromide control measures in 2007, and to urge the Libyan Arab Jamahiriya to work with the relevant implementing agencies to implement the plan of action and phase out consumption of halon and methyl bromide;
6. to monitor closely the progress of the Libyan Arab Jamahiriya with regard to the implementation of its plan of action and the phase-out of Annex A, group II, controlled substances (halons) and the controlled substance in Annex E (methyl bromide). to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, the Libyan Arab Jamahiriya should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution the Libyan Arab Jamahiriya, in accordance with item B of the indicative list of measures, that in the event that it fails to remain in compliance, the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of Annex A, group II, controlled substances (halons) and the controlled substance in Annex E (methyl bromide) that are the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.17/11, Decision XVII/37).

The Twenty-third Meeting of the Parties decided:

1. To request Libya to submit to the Secretariat, as a matter of urgency and no later than 31 March 2012, for consideration by the Implementation Committee at its forty-eighth meeting an explanation for its excess consumption of halons, together with a plan of action with time specific benchmarks to ensure the party's prompt return to compliance;
2. To monitor closely Libya's progress with regard to the phase-out of halons: to the degree that the party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a party in good standing and, in that regard, Libya should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non-compliance;
3. To caution Libya, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures, which may include the possibility of actions available under Article 4, such as ensuring that the supply of halons that is the subject of non-compliance is ceased so that exporting parties are not contributing to a continuing situation of non-compliance;

(UNEP/OzL.Pro.23/11, Decision XXIII/23).

The Twenty-seventh Meeting of the Parties decided:

1. That the annual consumption reported by Libya of the controlled substances in Annex C, group I (hydrochlorofluorocarbons), of 144.0 ODP tonnes for 2013 and 122.4 ODP-tonnes for 2014 exceeds the party's maximum allowable consumption of 118.38 ODP-tonnes for those controlled substances for those years and that the party was therefore in non-compliance with the consumption control measures under the Protocol for hydrochlorofluorocarbons,

2. To note with appreciation the submission by Libya of a plan of action to ensure its return to compliance with the Protocol's hydrochlorofluorocarbon control measures under which, without prejudice to the operation of the financial mechanism of the Protocol, Libya specifically commits itself:

   (a) To reducing its consumption of hydrochlorofluorocarbons from 122.4 ODP-tonnes in 2014 to no greater than:

      (i) 122.3 ODP-tonnes in 2015;

      (ii) 118.4 ODP-tonnes in 2016 and 2017;

(iii) 106.5 ODP-tonnes in 2018 and 2019;

(iv) 76.95 ODP-tonnes in 2020 and 2021;

(v) Levels allowed under the Montreal Protocol in 2022 and subsequent years;

(b) To monitoring the enforcement of its system for licensing imports and exports of ozone-depleting substances;

(c) To imposing a ban on the procurement of air-conditioning equipment containing hydrochlorofluorocarbons in the near future and to considering a ban on the import of such equipment;

3. To urge Libya to work with the relevant implementing agencies to implement its plan of action to phase out the consumption of hydrochlorofluorocarbons;

4. To monitor closely the progress of Libya with regard to the implementation of its plan of action and the phase-out of hydrochlorofluorocarbons. To the degree that the party is working towards and meeting the specific Protocol control measures it should continue to be treated in the same manner as a party in good standing. In that regard, Libya should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non-compliance;

5. To caution Libya, in accordance with item B of the indicative list of measures that may be taken by the Meeting of the Parties in respect of non-compliance, that, in the event that Libya fails to return to compliance, the parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of hydrochlorofluorocarbons that are the subject of non-compliance is ceased so that exporting parties are not contributing to a continuing situation of non-compliance;

(UNEP/OzL.Pro.27/13, Decision XXVII/11).

Non-compliance with the Montreal Protocol by Maldives

1. to note that Maldives ratified the Montreal Protocol on 16 May 1989, the London Amendment on 31 July 1991 and the Copenhagen Amendment and the Montreal Amendment on 27 September 2001. The country is classified as a Party operating under Article 5 (1) of the Protocol and had its country programme approved by the Executive Committee in 1993. Since approval of the country programme, the Executive Committee has approved $370,516 from the Multilateral Fund to enable compliance in accordance with Article 10 of the Protocol;
2. Maldives' baseline for Annex A, Group I substances is 5 ODP tonnes. It reported consumption of 5 ODP tonnes in 2000 and 14 ODP tonnes in 2001, placing Maldives clearly in non-compliance with its obligations under Article 2A of the Montreal Protocol;
3. to request that Maldives submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance. Maldives may wish to consider including in this plan of action the establishment of import quotas to freeze imports at baseline levels and support the phase-out schedule, a ban on imports of ODS equipment, and policy and regulatory instruments that will ensure progress in achieving the phase-out;
4. to closely monitor the progress of Maldives with regard to the phase-out of ozone-depleting substances. To the degree that Maldives is working towards and meeting the specific Protocol control measures, Maldives should continue to be treated in the same manner as a Party in good standing. In this regard, Maldives should continue to receive international assistance to enable it to meet these commitments in accordance with item A of the indicative list of measures that might be taken by a Meeting of the Parties in respect of non-compliance. However, through this decision, the Parties caution Maldives, in accordance with item B of the indicative list of measures, that in the event that it fails to return to compliance in a timely manner, the Parties shall consider measures, consistent with item C of the indicative list of measures. These measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is the subject of non-compliance) is ceased and that exporting parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.14/9, Decision XIV/26).

Subsequently, the Fifteenth Meeting of the Parties decided:

1. to note that, in accordance with decision XIV/26 of the Fourteenth Meeting of the Parties, Maldives was requested to submit to the Implementation Committee a plan of action with time-specific benchmarks to ensure a prompt return to compliance;
2. to note with appreciation Maldives' submission of its plan of action, and to note also that, under the plan, Maldives specifically commits itself:
   (a) to reducing CFC consumption from 2.8 ODP tonnes in 2002 as follows:
      (i) to 0 ODP tonnes in 2003, 2004 and 2005;
      (ii) to 2.3 ODP tonnes in 2006;
      (iii) to 0.69 ODP tonnes in 2007;
      (iv) to 0 ODP tonnes in 2008 and 2009;
      (v) to phasing out CFC consumption by 1 January 2010, as required under the Montreal Protocol, save for essential uses that may be authorized by the Parties;
   (b) to monitoring its existing system for licensing imports of ODS, including quotas, introduced in 2002;
   (c) to banning, by 2004, imports of ODS-using equipment;
3. to note that the measures listed in paragraph 2 above have already enabled Maldives to return to compliance, to congratulate Maldives on that progress and to urge Maldives to work with the relevant Implementing Agencies to implement the remainder of the plan of action and phase out consumption of ozone-depleting substances in Annex A, group I;
4. to monitor closely the progress of Maldives with regard to the implementation of its plan of action and the phase-out of CFCs. To the degree that Maldives is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Maldives should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Parties caution Maldives, in accordance with item B of the indicative list of measures, that in the event that it fails to remain in compliance the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of CFCs (that is, the subject of non-compliance) is ceased and that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.15/9, Decision XV/37).

Non-compliance with the Montreal Protocol by Mexico

The Eighteenth Meeting of the Parties decided:

1. to note that Mexico ratified the Montreal Protocol on 31 March 1988, the London Amendment on 11 October 1991 and the Copenhagen Amendment on 16 September 1994, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in February 1992. The Executive Committee has approved $83,209,107 from the Multilateral Fund to enable Mexico's compliance in accordance with Article 10 of the Protocol;
2. to note further that Mexico has reported annual consumption for the Annex B, group II, controlled substance (carbon tetrachloride) for 2005 of 89.540 ODP-tonnes, which exceeds the Party's maximum allowable consumption level of 9.376 ODP tonnes for that controlled substance for that year, and that Mexico is therefore in non-compliance with the carbon tetrachloride control measures under the Protocol;
3. to note with appreciation Mexico's submission of a plan of action to ensure a prompt return to compliance with the Protocol's carbon tetrachloride control measures and to note that, under the plan, without prejudice to the operation of the financial mechanism of the Protocol, Mexico specifically commits itself:
   (a) to reduce carbon tetrachloride consumption from 89.540 ODP-tonnes in 2005 as follows:
      (i) to 9.376 ODP-tonnes in 2008;
      (ii) to zero ODP-tonnes in 2009;
   (b) to monitor its system for licensing the import and export of ozone depleting substances, which includes import quotas;

4. to note that the measures listed in paragraph 3 above should enable Mexico to return to compliance with the Protocol in 2008 and to urge Mexico to work with the relevant implementing agencies to implement the plan of action to phase out consumption of carbon tetrachloride;

5. to monitor closely the progress of Mexico with regard to the phase-out of carbon tetrachloride. to the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Mexico should continue to receive international assistance to enable it to meet its commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance. Through the present decision, however, the Meeting of the Parties cautions Mexico, in accordance with item B of the indicative list of measures, that, in the event that it fails to return to compliance in a timely manner, the Meeting of the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of carbon tetrachloride that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.18/10, Decision XVIII/30).

The Twenty-first Meeting of the Parties decided:

1. That Mexico reported annual consumption for the controlled substances in Annex B, group II (carbon tetrachloride), of 88.0 ODP-tonnes in 2008, an amount inconsistent with its commitment contained in decision XVIII/30 to reduce carbon tetrachloride consumption to no greater than 9.376 ODP-tonnes in that year, and that the Party is therefore in non-compliance with the control measures for that substance under the Protocol for that year;

2. To record with appreciation the submission by Mexico of a plan of action to ensure its prompt return to compliance with the Protocol's carbon tetrachloride consumption control measures under which, without prejudice to the operation of the financial mechanism of the Protocol, Mexico specifically commits itself:

   (a) To reducing carbon tetrachloride consumption to no greater than zero ODP-tonnes in 2009 and thereafter;

   (b) To monitoring its system for licensing the import and export of ozone-depleting substances, including import quotas;

3. To urge Mexico to work with the relevant implementing agencies to implement its plan of action to phase out consumption of carbon tetrachloride;

4. To monitor closely the progress of Mexico with regard to the implementation of its plan of action and the phase-out of carbon tetrachloride. To the degree that the Party is working towards and meeting the specific Protocol control measures, it should continue to be treated in the same manner as a Party in good standing. In that regard, Mexico should continue to receive international assistance to enable it to meet those commitments in accordance with item A of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance;

5. To caution Mexico, in accordance with item B of the indicative list of measures that may be taken by a Meeting of the Parties in respect of non-compliance, that in the event that it fails to return to compliance the Parties will consider measures consistent with item C of the indicative list of measures. Those measures may include the possibility of actions available under Article 4, such as ensuring that the supply of carbon tetrachloride that is the subject of non-compliance is ceased so that exporting Parties are not contributing to a continuing situation of non-compliance.

(UNEP/OzL.Pro.21/8, Decision XXI/20).

<u>Non-compliance with the Montreal Protocol by Micronesia</u>

The Seventeenth Meeting of the Parties decided:

1. to note that Federated States of Micronesia ratified the Montreal Protocol on 6 September 1995 and the London, Copenhagen, Montreal and Beijing amendments on 27 November 2001, is classified as a Party operating under paragraph 1 of Article 5 of the Protocol and had its country programme approved by the Executive Committee of the Multilateral Fund for the Implementation of the Montreal Protocol in March 2002. The Executive Committee has approved $74,680 from the Multilateral Fund to enable the Party's compliance in accordance with Article 10 of the Protocol;

2. to note further that the Federated States of Micronesia has reported annual consumption of the controlled substances in Annex A, group I (CFCs), for 2002, 2003 and 2004 of 1.876, 1.691 and 1.451 ODP tonnes respectively, which exceed the Party's maximum allowable consumption level of 1.219 ODP tonnes for those controlled substances in each of those years, and that Federated States of Micronesia is therefore in non compliance with the control measures under the Protocol;
